

West Lothian Pump Tracks 2018/19

Three pump tracks are to be built in West Lothian this financial year, in these parks:

- Craigspark, Craigshill, Livingston
- Bridgend South Park, Bridgend Village
- Fraser Park, Pumpherston

Pump tracks are bike tracks, designed and built by specialist contractors, intended to be ridden without pedalling. They can be used by all ages and abilities, with the opportunity for users to progress their skills the more they practice. As our 3 tracks will be surfaced with asphalt, they can also be ridden with skates, scooters and skateboards.

An example photo of a finished track and outline designs for the three West Lothian tracks can be found on the following pages...

Example of the kind of track
to be constructed
