# INTRODUCTION

Ward Profiles have been created for all nine wards in West Lothian, collating relevant data from national and local sources. The purpose of these profiles is to provide up to date data and key information consistently across West Lothian to assist groups/decision-makers when setting priorities for an area or to inform and evidence need.

## Elected Representatives

The East Livingston and East Calder ward has four councillors, all of whom are elected on a proportional voting system to represent the whole ward. The three councillors meet regularly as a Local Area Committee. The Chair is Frank Toner. Those elected in May 2012 for five years are:-

			
Frank Anderson (Scottish National Party)	Carl John (Scottish National Party)	Dave King (Scottish Labour Party)	Frank Toner (Scottish Labour Party)

The ward is located within the Almond Valley constituency for the Scottish Parliament which is represented by Angela Constance MSP. There are also seven list MSPs for the Lothians whose details are on the Scottish Parliament website.

The East Livingston and East Calder ward is located within the Livingston constituency for the Westminster Parliament and is represented by Graeme Morrice MP.

There are six Members of the European Parliament who represent the whole of Scotland. Information on these is available on the European Parliament website [www.europarl.org.uk](http://www.europarl.org.uk)

## Main Settlements

East Livingston and East Calder is the fourth largest ward with a population of 19,752 (based on Mid-2010 GRO Population Estimates). It contains Uphall Station, Pumpherston, Craigshill, Mid Calder, East Calder, Kirknewton, Wilkieston, Harburn and Roman Camps. This is the most southerly and eastern ward in West Lothian, bordering Edinburgh City, Midlothian and South Lanarkshire.

The largest settlements outwith Livingston are East Calder, which has a population including Wilkieston, of 5,123 (Mid-2010 GRO Population Estimates), Mid Calder (3,389) and Kirknewton (2194)..

Craigshill is a residential area in the east of Livingston, lying to the east of the A899, with a population of 5,849. Craigshill was the first part of the town of Livingston to be constructed 50 years ago, before which the area was home to Craigsfarm and Letham Holdings.

Two Edinburgh-Glasgow railway lines run through the ward – the southern route goes through Kirknewton and the northern line through Uphall Station.

The demographics of the ward are as follows:

Age group	% in ward	% in WL
Under 16	18.51	19.88
Working age	64.98	63.34
Older people	16.5	16.78

# WEST LOTHIAN INFORMATION

West Lothian information has been provided in each profile to provide a wider context of the profile for that ward.

## West Lothian Single Outcome Agreement

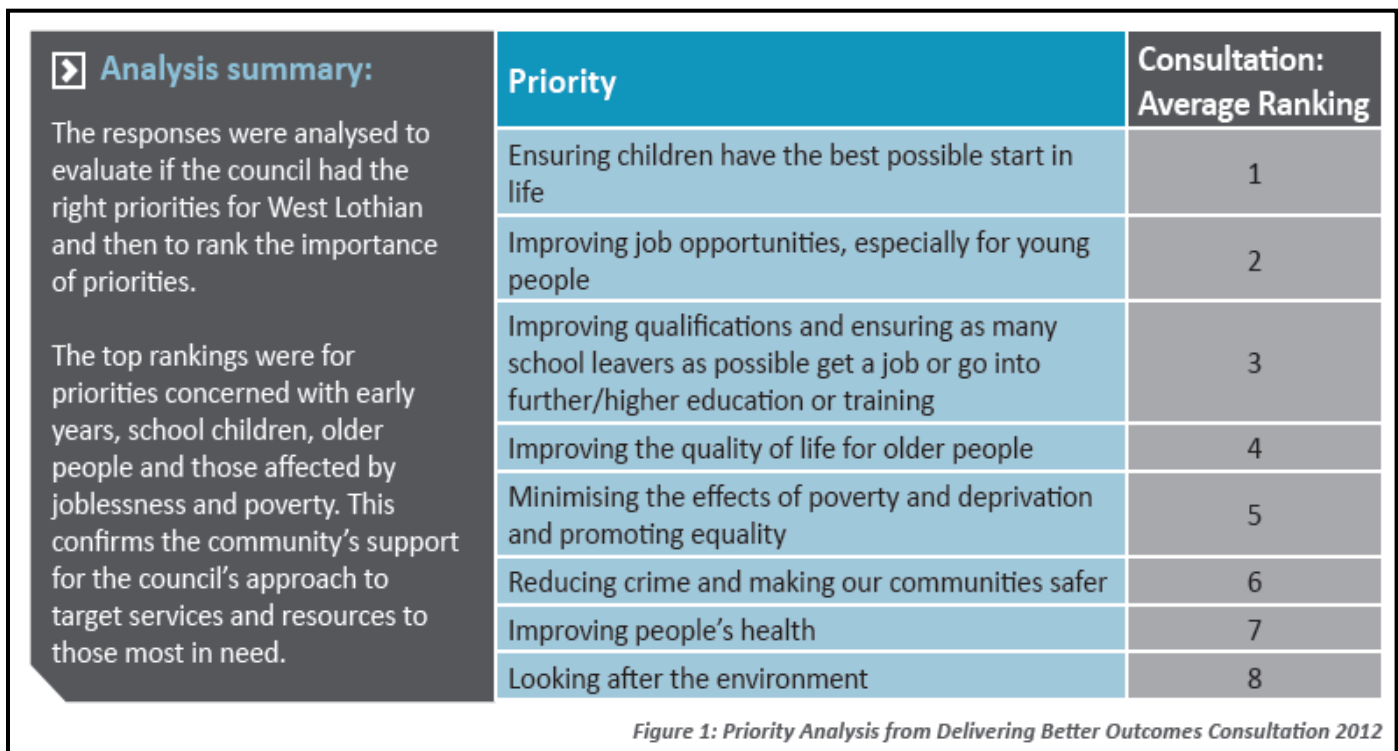

List of Outcomes agreed by the Community Planning Partnership in February 2013 which form the Single Outcome Agreement:

- Our children have the best start in life and are ready to succeed
- We are better educated and have access to increased and better quality learning and employment opportunities
- Our economy is diverse and dynamic, and West Lothian is an attractive place for doing business
- We live in resilient, cohesive and safe communities
- People most at risk are protected and supported to achieve improved life chances
- Older people are able to live independently in the community with an improved quality of life
- We live longer, healthier lives and have reduced health inequalities.
- We make the most efficient and effective use of resources by minimising our impact on the built and natural environment.

More information is available on the following link: <http://www.westlothian.gov.uk/communityplanning>

## West Lothian Council Priorities

Following the Delivering Better Outcomes consultation in 2012, West Lothian Council have set priorities as detailed in the following table.

More information is available on the following link: <http://www.westlothian.gov.uk/article/1952/Corporate-Plan>

## **West Lothian Regeneration Framework**

Within the Regeneration Framework are the following five themes:

- Employability and Employment;
- Early Years and Family Learning;
- Health and Wellbeing;
- Economic Development; and
- Community Capacity and Cohesion

More information is available on the following link: <http://www.westlothian.gov.uk/communityregeneration>

## Scottish Index of Multiple Deprivation - West Lothian

The Scottish Index of Multiple Deprivation (SIMD) identifies small area concentrations of multiple deprivation across all of Scotland in a consistent way.

The SIMD provides a *relative* measure of deprivation which means that the SIMD 'ranks' can be used to compare data zones by providing a relative ranking. The SIMD has been used to identify Scotland's most deprived small areas on the overall index and each individual 'domain' (i.e. crime, income etc).

The above map shows what areas in West Lothian are ranked the lowest in comparison to Scotland- the darker the purple, the higher the levels of deprivation. Although West Lothian has very few datazones in the most deprived decile, most of this local authority's datazones are found in the second, third, and fourth deciles (towards the more deprived end of the distribution) in SIMD 2012. This is similar to the pattern observed for SIMD 2009.

# Change in Distribution and Number of Datazones in Most Deprived 20% Category in Scotland

The table below shows a comparison of datazones that are in the lowest 20% in Scotland within the West Lothian multi-member wards.

Ward Name	Number of Datazones	Number in Worst 20%	% in Worst 20%
Armadale and Blackridge	18	3	17%
Bathgate	22	7	32%
Broxburn, Uphall and Winchburgh	21	0	0
<b>East Livingston and East Calder</b>	<b>25</b>	<b>6</b>	<b>24%</b>
Fauldhouse and Breich Valley	20	6	30%
Linlithgow	21	1	5%
Livingston North	28	3	11%
Livingston South	31	6	19%
Whitburn and Blackburn	25	9	36%

The table below shows a comparison of data zones in West Lothian in the lowest ranking 20% of all data zones in Scotland and shows how settlements in the Fauldhouse and Breich Valley ward compares with settlements of other wards.

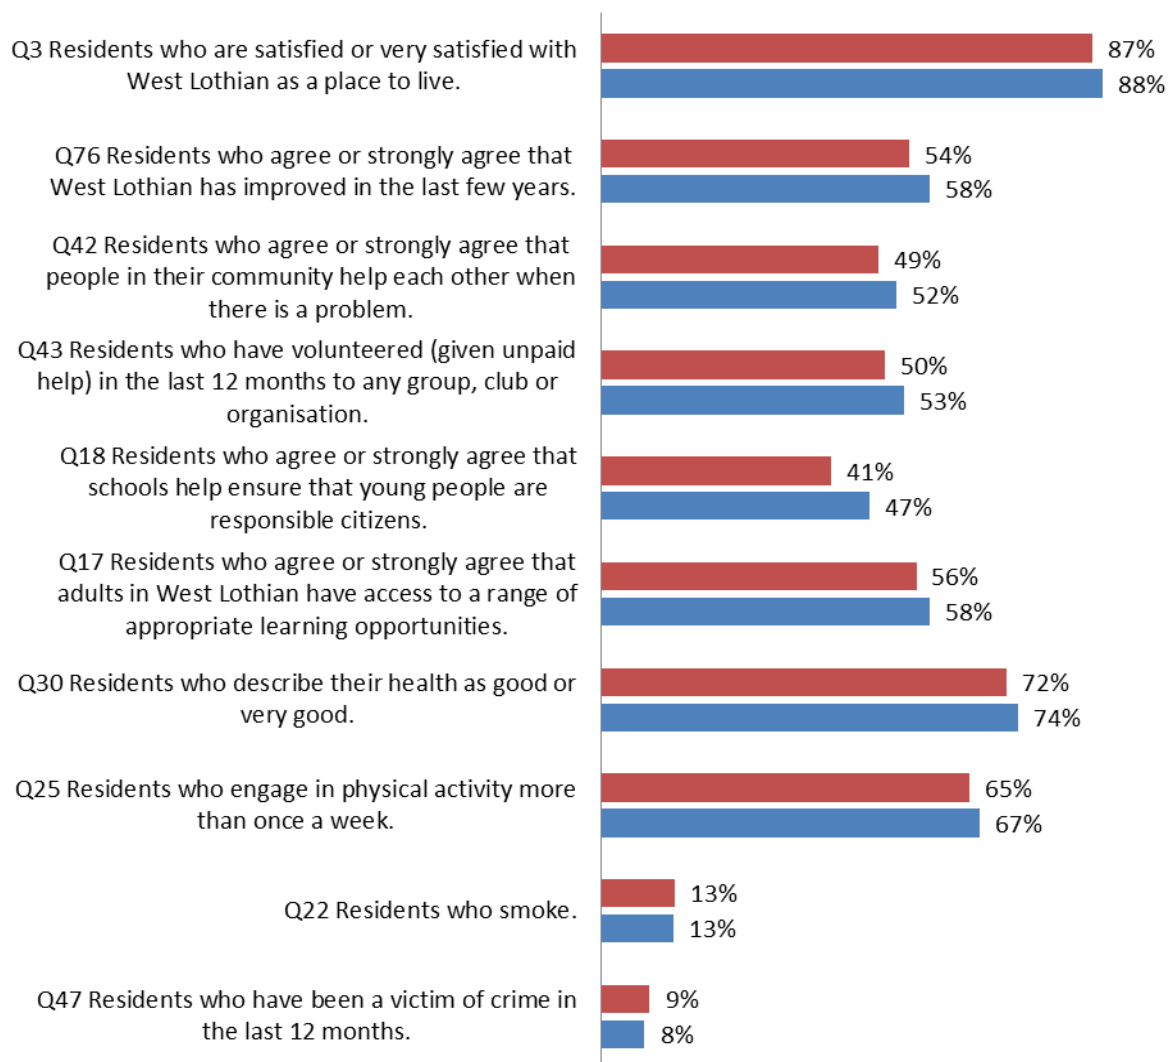

Town/Village	Datazones in 2009	Datazones in 2012
Addiewell & Loganlea	1	1
Armadales	3	2
Bathgate	3	3
Boghall	3	2
Blackburn	5	4
Bridgend	1	1
Fauldhouse	3	3
Livingston	11	11
Polbeth	2	1
Stoneyburn	1	1
Whitburn	4	4
East Calder	1	0
Blackridge	1	0
<b>TOTAL WEST LOTHIAN</b>	<b>39</b>	<b>33</b>

## Quality of Life Indicators

■ East Livingston & East Calder ■ West Lothian

The sixth West Lothian Quality of Life Survey for the Community Planning Partnership (CPP) was carried out in 2013 through the Citizens Panel. The Panel is structured to be completely representative of the West Lothian population, and representative at a multi member ward level. Panel members completed the survey in 2013 which was published in 2014.

A range of questions across a variety of subjects gave the CPP useful information about people's perceptions and experience of living in West Lothian. The CPP will use this information to plan, direct and prioritise services over the coming years. A sample of questions and results for West Lothian and the Fauldhouse and Breich Valley ward are shown in the table above.

The levels of satisfaction with West Lothian as a place to live are very strong, increasing by 1% between surveys completed in 2010 ( 87%) and 2013 (88%). In the Fauldhouse and The Breich Valley ward however the satisfaction level dropped by 5% over the same period from 86% to 81%.

In general the East Livingston and East Calder levels are broadly similar to the West Lothian figures, with some being slightly higher and some slightly lower. There is one exception to this observation. The number of residents that agree strongly that schools help to ensure that young people are responsible citizens has fallen noticeably from 46% in 2010 to 41% in 2014. This is far lower than the West Lothian average.

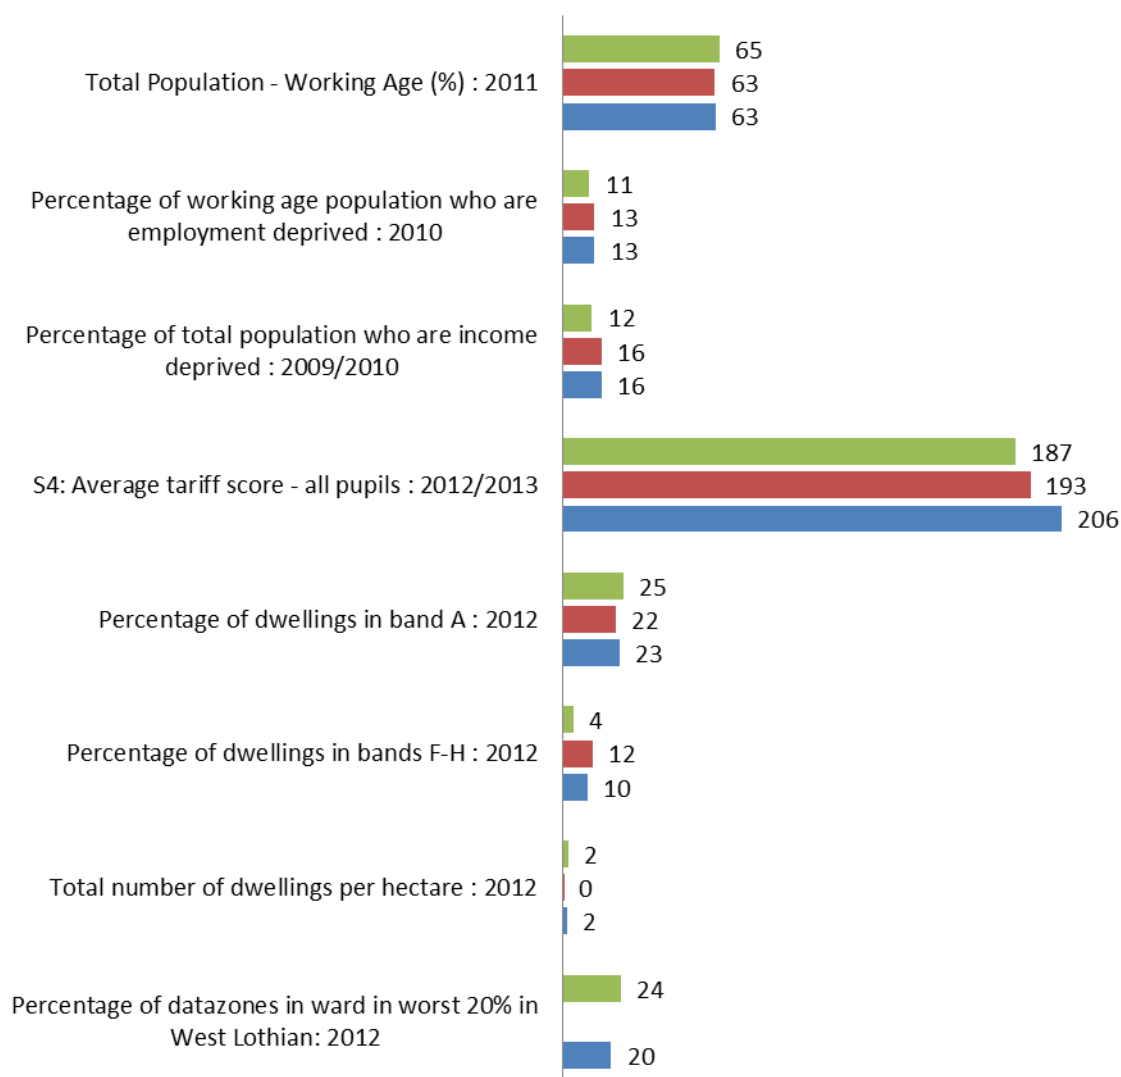

The Summary of Key Findings and Commentary on the West Lothian Citizens' Panel Quality of Life Survey 2010 Research Report is at [http :- http://www.westlothian.gov.uk/media/3698/Quality-of-life-2013---MMW-Results/pdf/Quality\\_of\\_Life\\_Survey\\_MMW\\_Summaries\\_v1\\_210214.pdf](http://www.westlothian.gov.uk/media/3698/Quality-of-life-2013---MMW-Results/pdf/Quality_of_Life_Survey_MMW_Summaries_v1_210214.pdf)

## Key Statistics

■ East Livingston & East Calder ■ Scotland ■ West Lothian

The table above are taken from the Scottish Neighbourhood Statistics Area Profile site at:-

<http://www.sns.gov.uk/Reports/Report.aspx?ReportId=2&AreaTypeId=MW:Multi%20Member%20Wards&AreaId=S13002825>

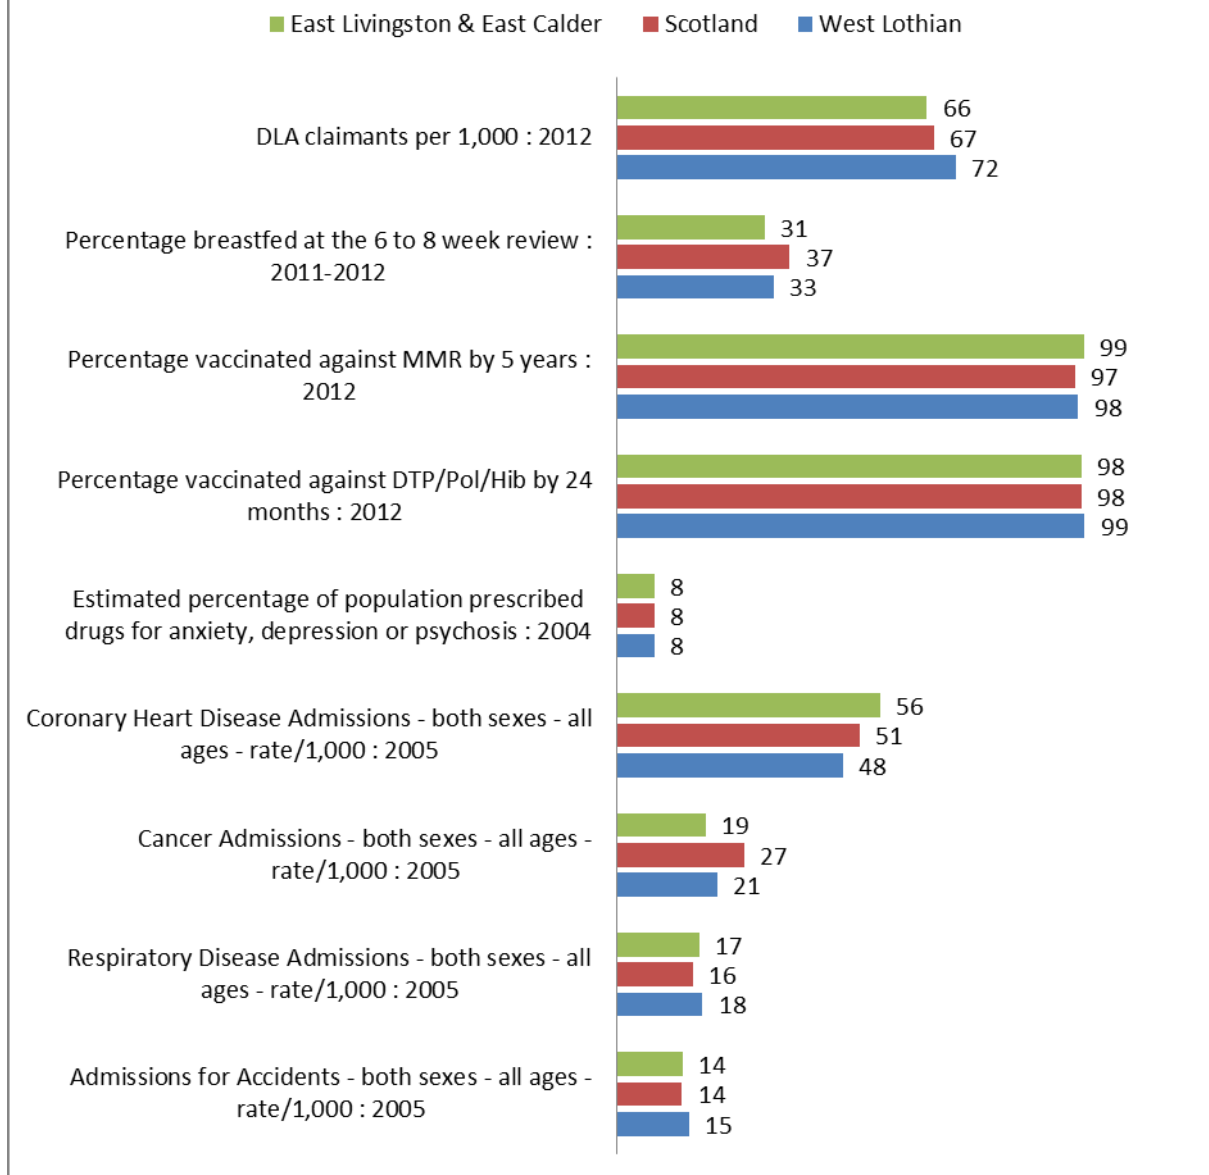

East Livingston and East Calder is one of the largest wards in West Lothian with 19,752 residents, 11.5% of the total population. There are 25 “datazones” in the ward – these are small areas with around 750 residents used to identify concentrations of multiple deprivation using indicators such as unemployment, income and health. Of the 25 datazones in the East Livingston and East Calder ward 6 (24%) are in the worst 20% in West Lothian, higher than the average.

The proportion of the population who are of “working age” is 65% and slightly more than the averages for both West Lothian and Scotland. East Livingston and East Calder ward has an 11% rate of employment deprivation, lower than the averages for both West Lothian and Scotland. The ward has a lower number of residents who are income deprived (12%) than across wider West Lothian (16%) and Scotland (16%).

There is a higher proportion of homes in the lowest council tax band than in both wider West Lothian and Scotland. There is a significantly lower proportion of homes in the highest council tax bands. There is a relatively high density of housing compared to wider West Lothian and Scotland.

[Back to Top](#)

## Health Indicators

The above indicators allow a comparison between key health indicators in the ward against West Lothian and Scotland. They show that East Livingston and East Calder has a relatively low proportion of people claiming Disability Living Allowance. There has been a substantial drop in the rate of babies being breast fed at the 6-8 week review. In 2010 it was 58% while in 2014 it is 31% bring it closer to the averages for West Lothian and Scotland.

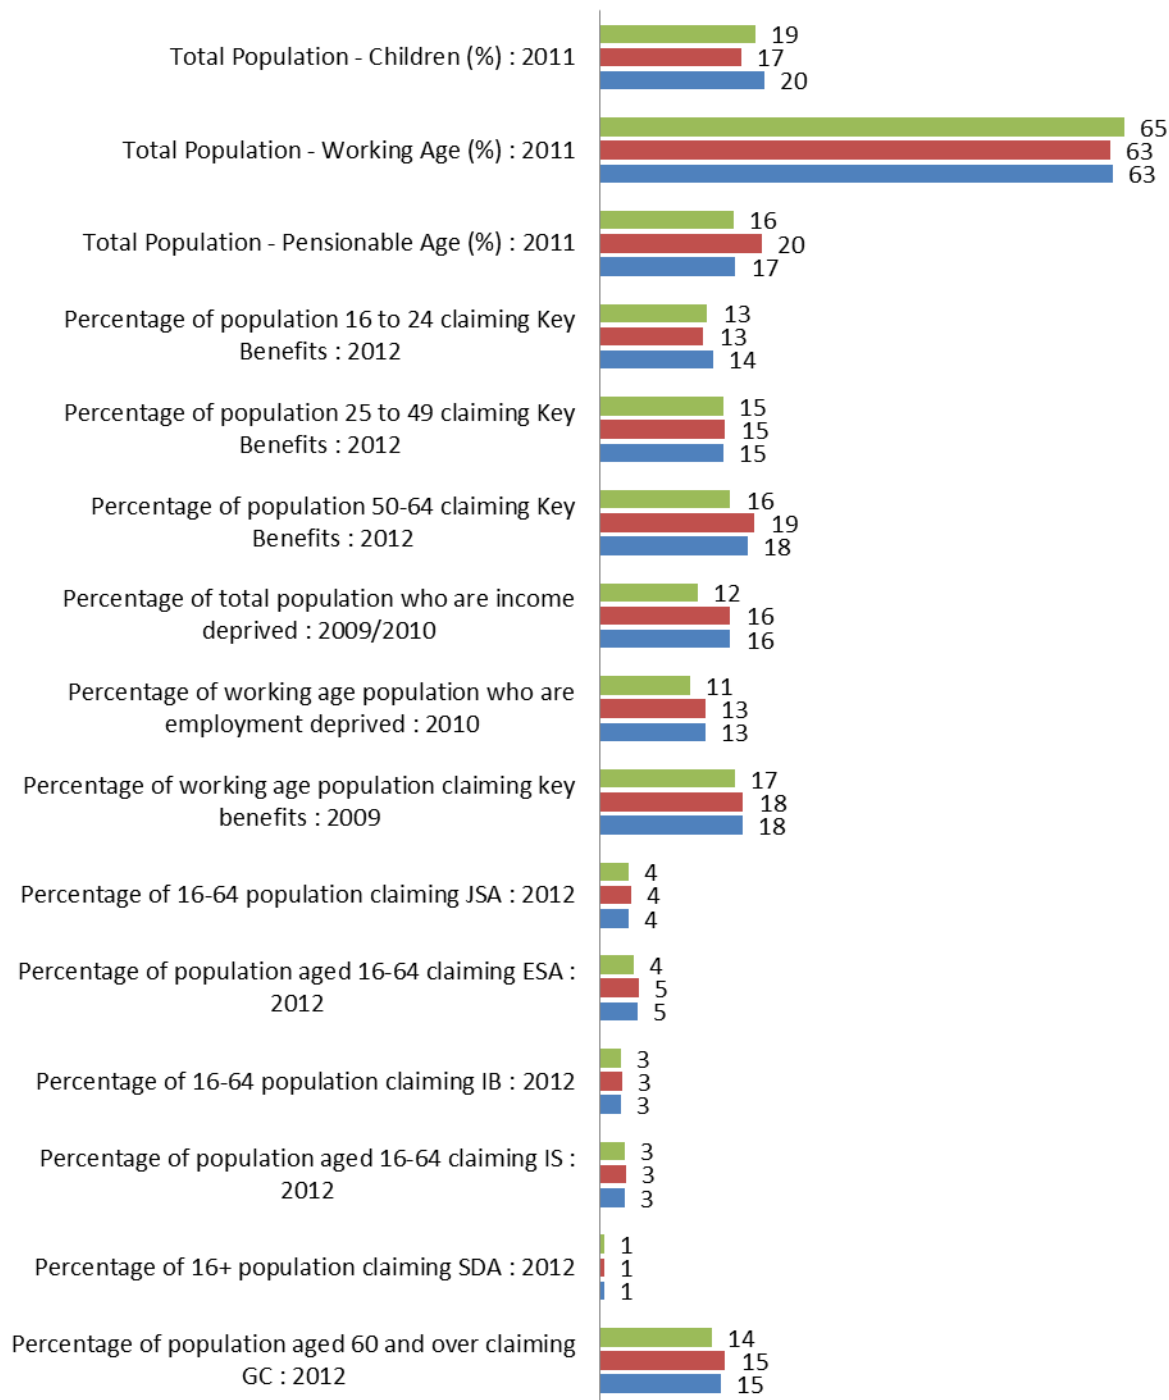

Hospital Admissions are generally similar to the West Lothian and Scottish averages with two exceptions. Admissions relating to Coronary Heart Disease are significantly higher than average while those connected to Cancer are lower..

The health indicators in the table above are taken from the Scottish Neighbourhood Statistics site at - <http://www.sns.gov.uk>

[Back to Top](#)

## Population and Benefit Indicators

■ East Livingston & East Calder ■ Scotland ■ West Lothian

The above indicators allow for a comparison between key populations and benefit claimants in the ward against West Lothian and Scotland. They show that East Livingston and East Calder has a younger population profile than West Lothian with a slightly smaller proportion of pensionable age adults and a higher proportion of those of working age.

The ward benefits indicators are broadly similar to those of West Lothian and Scotland and have not changed to any significant extent since 2010.

The population and benefit indicators in the table above are taken from the Scottish Neighbourhood Statistics site at: - <http://www.sns.gov.uk>

[Back to Top](#)

## East Livingston and East Calder – Datazones in the Worst 20% in West Lothian

There are 25 “datazones” in the East Livingston and East Calder ward and 6 of these (24%) are in the worst 20% in West Lothian, significantly higher than the average. More information on the ward itself is available on the following

link: <http://www.sns.gov.uk/Reports/Report.aspx?ReportId=2&AreaTypeId=MW:Multi%20Member%20Wards&AreaId=S13002825> (Please note that links may not work correctly the first time due to issues with the SNS website but will work on repeat click).

The table below shows the breakdown of how each datazone ranks for each domains of the Scottish Index of Multiple Deprivation. The figure gives the ranking for each domain/ datazone from the 6505 datazones there are in Scotland. The higher the number, the better the ranking and vice-versa. Those in the worst 10% and 20% are identified in the legend at the foot of the table.

In a West Lothian context, although SIMD measures multiple deprivations most areas do not have high scores across all deprivation domains – usually only experiencing high scores in 2 or 3 at most. As described above in respect of individual datazones, Income, Employment, Health and Education seem to be the main drivers of deprivation in West Lothian. Crime is a factor insofar as the higher scoring datazones tend to have town centres where there is presumably more reported crime. Neither of the Housing or Access Domains seem to have a bearing or influence the overall deprivation scores.

Data Zone	SIMD Domain						
	INCOME	EMPLOYMENT	HEALTH	EDUCATION	GEOGRAPHIC ACCESS	HOUSING	CRIME
Livingston Craigshill Streets East	580	1095	207	764	4981	2633	1621
Livingston Craigshill Groves East	1228	1200	193	1669	4417	4455	665
Livingston Craigshill Groves West	1113	979	842	700	4978	3588	2214
East Calder Linhouse Drive	1478	1731	1073	810	1581	3587	1216
Livingston Craigshill Central	1243	611	540	1422	4672	3461	1417
Livingston Craigshill Drives	1614	1367	597	1456	5848	2278	2032

Unsurprisingly, these datazones tend to score low across most of the indicators as can be seen from the table above. In addition to the table, maps for each of these datazones have been provided on the following pages with links to the Scottish Neighbourhood Statistics site providing more detailed information.

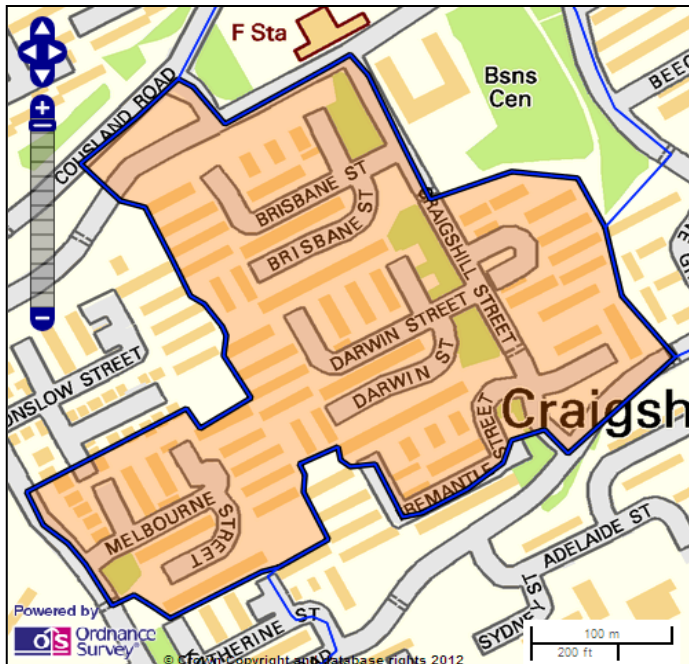

[Back to Top](#)

# Child Poverty

In the figures presented below, from End Child Poverty's '*Child Poverty Map of the UK*', released in October 2014, children are classified as being in poverty if they live in families in receipt of out of work benefits or in receipt of in-work tax credits where their reported income is less than 60 per cent of median income. The measure is of income before housing costs, and therefore replicates the more modest, official estimate of how many children are in poverty, not taking account of the impact of high rent or mortgage payments.

Percentage of children in poverty, Oct-Dec 2013	BEFORE HOUSING COSTS	AFTER HOUSING COSTS
<b>Local Authority and wards</b>		
<b>West Lothian</b>	<b>13.27%</b>	<b>21.24%</b>
Linlithgow	6.80%	11.03%
Broxburn, Uphall and Winchburgh	11.89%	19.12%
Livingston North	14.97%	23.60%
Livingston South	13.23%	21.26%
<a href="#">East Livingston and East Calder</a>	<a href="#">12.13%</a>	<a href="#">19.62%</a>
Fauldhouse and the Breich Valley	16.68%	26.32%
Whitburn and Blackburn	16.47%	26.24%
Bathgate	12.19%	19.60%
Armadales and Blackridge	14.42%	23.00%

## Ward Action Plan:

This plans shows what and how partners across the East Livingston and East Calder ward will be working together to achieve over the coming year, what outcomes they are working towards and how they will measure progress against these.[the local ward plans will be available electronically soon at this web address <http://www.westlothian.gov.uk/article/3854/East-Livingston-and-East-Calder-Ward>

## Scottish Fire and Rescue

The Local Fire and Rescue Plan for West

Lothian: [http://www.firescotland.gov.uk/media/610232/sfrs\\_local\\_plan\\_west\\_lothian\\_v1.pdf](http://www.firescotland.gov.uk/media/610232/sfrs_local_plan_west_lothian_v1.pdf)

This plan is the mechanism through which the aims of the SFRS's Strategic Plan 2013 – 2016 are delivered to meet the agreed needs of the West Lothian communities .<http://www.firescotland.gov.uk/>

## Police Scotland

Ward profiles have been produced outlining the service priorities for each ward. Information on Fauldhouse and The Breich Valley is as follows: <http://www.scotland.police.uk/your-community/the-lothians-and-scottish-borders/west-lothian/fauldhouse-and-the-breich-valley/>

They also have a general page for the ward: <http://www.scotland.police.uk/your-community/the-lothians-and-scottish-borders/west-lothian/whitburn-and-blackburn/>

## Local Development Plan

The Local Development Plan provides a planning framework for delivering the planning vision for West Lothian, against which planning applications are assessed. The following web site contains information within each of the sections which is relevant to the ward: <http://www.westlothian.gov.uk/LDP>

## Annual Ward Employability Report

The multi-agency West Lothian Working Together Group produced a report for 2013/4 regarding the employability support provided by various agencies and the impact it is having on employability in the ward.

<http://coins.westlothian.gov.uk/coins/submissiondocuments.asp?submissionid=23085>

## COINS

COINS is the site where West Lothian Council keeps its committee reports and papers. These are public documents and can be viewed here: <http://coins.westlothian.gov.uk/coins/>

## Community News

The council web site hosts a page dedicated to local news. You can find out what is happening in Fauldhouse and The Breich Valley here:-

<http://www.westlothian.gov.uk/eastlivingstonandeastcaldernews>

## Funding Newsletter

Community Regeneration produces a regular funding newsletter which outlines the funds accessible to voluntary organisations and groups in West Lothian. The latest version is available on the following link <http://www.westlothian.gov.uk/article/1980/Community-Grants>

## COMMUNITY COUNCILS

Community Councils are directly elected bodies which find out and express the views of the community to local authorities and other public bodies, and take action which they feel is in the interests of its community. There are seven community councils in the ward – Craigshill, East Calder and Wilkieston, Mid Calder, Kirknewton, Pumpherston, Uphall Station and West Calder & Harburn. More information and contact details at: [http://www.westlothian.gov.uk/Council\\_and\\_government/pol\\_elec\\_democracy/820/776](http://www.westlothian.gov.uk/Council_and_government/pol_elec_democracy/820/776)

For further information you can contact the council's Community Council Liaison Officer at the following address [lorraine.mcgrorty@westlothian.gov.uk](mailto:lorraine.mcgrorty@westlothian.gov.uk)
