

In Whitburn Academy our vision is that every young person will be empowered to learn and achieve, allowing them to thrive now and in the future.

We can only achieve this if we provide consistently outstanding learning experiences which engage, motivate & challenge our young people & inspire a lifelong love of learning.

June 2020

**Compassion
Integrity
Respect**

We aim to create: "enquiring, collaborative, and empowered professionals. Our teachers are highly committed, motivated and engaged in their own professional learning"
(2019 National Improvement Framework)

Learning together through Covid-19

So that we can learn together, we created our Whitburn Academy Lockdown CLPL Programme.

Every week staff logon and share learning with one another.

Through our shared learning we have transformed our learning and teaching.

Whitburn Academy Lockdown CLPL Programme

Creating videos with voiceover so that pupils can access learning at any time.

Using MS Notebook so that pupils and teachers can collaborate in their own online space.

Uploading videos and creating playlists which can be accessed on any device via our school youtube channels.

Using assignments on MS Teams so that pupils can upload their work and manage deadlines.

Creating hidden channels on MS Teams so that teachers and pupils can work 1-2-1 on learning.

Using assignments and self-marking quizzes to allow pupils to reflect on their progress and get individual feedback from teachers.

Using research to think about how we can develop learning skills in our pupils so that they can continue to learn in our digital world.
