

Suggested script for introducing a Solution Focused Child's Planning Meeting

“This meeting is called a Solution Focused Child's Planning Meeting which means we are going to work together to come up with some ways forward for CHILD's NAME using a specific process.

In the meeting, someone will write down/type up what everyone's saying and we'll all be able to see it. This will help us to keep track of what everyone thinks is important.

We'll look at what [child] is managing well and their strengths. We'll also talk about what everyone is concerned about just now and how the supports we have in place are working.

After that we'll agree on what the important next steps are, and how we're going to support [child] to achieve them.

In the meeting, we'll want to hear what everyone thinks, including [child] and [child]'s family. So that we can cover all these things, we'll have someone keeping an eye on the time.”

“Working to improve the wellbeing and educational outcomes of children and young people in West Lothian through the practical application of psychology.”
