Your feedback is untrue
I told you it would be best if you used another company because of your inappropriate messages late at night. I did this because I felt uncomfortable dealing with you after receiving your texts.

ONLINE FEEDBACK PROVIDED	Date received: 2nd December 2019 Total cost of work: £1400 Description of work: Supplied and fitted white UPVC fascia plus fixings and trims on garage. Boxed in front gutter and fitted slanted drip-proof trim above the side garage door. Supplied and fitted new felt trim surrounds on corrugated asbestos garage roof and, inside the garage, filled gaps in the concrete wall panels with sealant. Comments: My garage leaked like a sieve. I checked the Trusted Trader website, phoned the company on a Friday and Tony said he would come round and see me on Monday morning. Sure enough, he phoned at 09.30 and arrived at 10am. I told him what I wanted done, he estimated the cost there and then – and said he'd be able to do the work in 2 to 3 weeks. Three weeks later, the job was done. I am really happy with their work, and they even tidied and swept up after themselves.

Total cost of work: £220

Description of work: Called Tony to get advice and work required on my gutter that runs along my garage. Agreed to replace the entire gutter and down pipe at the front of my garage and would also replace all brackets and add extra supports.

Comments: Tony arrived on the date and time that was agreed and I can say that he did an excellent job replacing my tired gutter and added the extra brackets that was advised which looks great and also took away all the old gutter/down pipe and fittings for disposal. I plan to get Tony back to do more gutter replacement in the near future.

Roof brushed to remove pine-needles before clearing gutters

Your comments:
I've had Tony/Utterly Gutterly do a few roof/gutter-related jobs over the past few years. I use him because he is reliable – I've had a few other trades people – for other jobs – who come out to assess what's to be done, give the impression they're interested then never follow up with a quote – so frustrating!

Total cost of work: £160

Description of work: On the rear of the house, replace the guttering with new and reposition the mounting brackets to ensure the correct run to the down pipe which is on my side of this semi.

Comments: Tony once again excelled at righting a botched job, this time carried out one year ago as part of a part funded government initiative, & carried out by a major well known local company. He'll never let you down as top quality from start to finish is his objective. No worries with this company.

Gutters cleaned.

Your comments:

As I am unable to see into the gutters to check if they have been cleaned properly I can only assume that they were: although some weeds that I had spotted beforehand had been removed. Tony was pleasant and friendly to deal with. 11/10
