Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean increased membership fees and venue closures?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removing funding, have the council measured the effect this may have across West Lothian in respect the the health and wellbeing of individual tax paying members of the public if local amenities close?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is not cost effective as whole buildings can be open for very little revenue and staff costs etc.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Although this sounds like makes sense in principle can West Lothian Leisure continue without this funding?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I cannot comment on WLL's sports service, but their management of school/community halls is disastrosly poor, as well as having major cost increases. Also, they are impossible to contact.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would this mean paying for facility at point of use ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I'm pretty sure I recall WL Leisure being bailed out a few years back. Given the current economic climate with fuel costs rising and inflation soaring it's patently obvious those circumstances will reduce income for WL Leisure as people prioritise their spending. Have your calculations factored in a significant reduction in membership fees and are you prepared to allow a valuable community asset to potentially become insolvent?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	How exactly will West Lothian leisure be self funded not sure they will make enough to sustain this just from public use.)	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As a user of West Lothian Leisure, hope self-funding permits survival for them.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What business will this impact and what does this mean for them. Will they be able to self fund or will this end in places closing?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Working more with them definitely and learning from private rum housing special housing g alot better	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What kind of affects it will have on the people living in West Lothian?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would hope WL Leisure can continue under the self-funded model.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure centres are pretty shoddy in west lothian they are much better in Fife where the council has kept hold of them. It's a shame that the council just seems to want to buy computers and have meetings amongst managers but not doesn't care about the fitness of the community.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	How can WLL be self funded ? What about swimming pools , gyms etc will this lead to closures and job losses ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would WLC continue to manage the open spaces for WLL?	4. The council is already doing this.	This point would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No, if you remove core funding what little services there are would be at risk of complete closure. £750k seems a small amount to pay for such a big area. What you should be encouraging them to do is come up with a model that is self-sustaining but maintains access for local residents or what could happen is a private company decides there is an opportunity and tries to buy it and make it expensive.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	My daughter had had many opportunities through the old service. Low cost and we feel supported.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Funding should be in place to ensure that lower income households have access to these services.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WL Leisure should be supported to offer subsidised pricing for families living in poverty rather than prices restricting people from accessing Leisure options	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Again lets revisit the Civic Centre. I would love to know where the cuts are going to be made there as there are none that are currently evident. People are being hit with the toughest of times now and heavily rely on "leisure activities". Are people expected to fund everything themselves? Lets get a breakdown on where the revenue from the council tax feeds into.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Funded leisure helps keep people of all walks of life fit and healthy. Privatisation will increase cost and make it unattainable for many.	4. The council is already doing this.	West Lothian Leisure is not part of the Council.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	These facilities have been bought and paid for by the public in the way of taxation or contributions and should remain under the Council umbrella.	4. The council is already doing this.	West Lothian Leisure is not part of the Council.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WL Leisure provides a range of services for children, young people and retired communities and these need encouragement.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Getting the people of West Lothian moving & active is the golden ticket to cost savings. I'm not convinced the Leisure centres do this, particularly when you see the quality of catering. Active travel and reduced car use should be a focus for peoples physical and mental health.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Howden Park Centre/ culture what will happen here? We need children to play/exercise/take part in sports/swim these were all removed by West Lothian council. You should be encouraging these	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	You need to liase with staff in this area...	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Health and well-being essential for a brighter future but heating swimming pools all the time. Re look at the model and make savings.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure provides vital services to communities. The council should engage with West Lothian leisure to ensure this action is achievable and sustainable otherwise important services could be at risk.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We need to ensure the services we provided are still fit for purpose and do not represent poor value for money.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If WL leisure is operating independently for profit it is likely that this will make services more expensive. It would therefore be imperative that access to wellbeing activities for young people from our most disadvantaged backgrounds would need to be looked at.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	More information on the impact towards the users of West Lothian Leisure will be needed. Why during a period where there is a push to improve peoples health and well-being would it be good to remove funding for a very important asset within the West Lothian Community. With the increase in the number of private leisure clubs across the council why is more not being done to encourage locals to join council facilities which provide better facilities? Should we not be encouraging people to improve their health and well-being?	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Ensure that excite remains competitive.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This should only go ahead IF West Lothian Leisure can confidently self fund itself! If this is not the case then WLC should consider their brief to provide sporting facilities to the community for health and mental wellbeing rather than just for the sake of saving a small amount.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It's not a very big saving considering the services provided and again, outsourcing is not viable	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Privatisation will drive up costs for younger people and families. This may mean they have to stop using a service which gives them a release from stresses. If they are not used this could lead to loss of facility. A lot of people go to private gyms and pay more so if people may be willing to pay more for other activities.	4. The council is already doing this.	West Lothian Leisure is not part of the Council.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would like to see a system of providing access to leisure facilities for those members of the public who could not afford to pay full cost subscriptions or memberships.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The council should be working in partnership with West Lothian Leisure to ensure any out of hours clubs or sports can be provided to our youngsters at an affordable price. Currently pitch lets and pool hire is costing the individual far too much and the service is unreliable.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Swimming should be free for all school children	4. The council is already doing this.	Thank you for your response. Funding for curricular swimming will be retained.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Making the private, it should still be affordable for children to use to stay fit and active.	4. The council is already doing this.	Thank you for your response. Funding for curricular swimming will be retained, and opportunities to participate in sport at school will remain.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	A consistent model of support, provision and service delivery needs to take place to allow for this saving to happen. Decisions regarding facility development and refurbishment appear to have been made on a whim in the past with little to no consideration given to the needs of local people and the facilities that exist already. Too much money is spent on facilities without a proper overview of local facilities being mapped out allow for the most effective use of funds. The council and WLL will undoubtedly need to streamline its facility portfolio and support should be provided to communities to allow for greater potential for transfer of facilities to community groups.	4. The council is already doing this.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If West Lothian Leisure will be self funded then I see no place for West Lothian Council. If the council does fund then OK, if not then Council should move onto other areas of focus.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	How much is spent on clothing & breakfast/lunches not used. Keeping people active is a long term gain.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Public leisure facilities being privatised. This will ensure the public pay more for these services in the long run	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What service delivery? - Why not just have done and shut it down? It's been unfit for purpose for a decade already!	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What purpose does "The council would continue to engage and support West Lothian Leisure in reviewing its business model and service delivery for communities." if the funding is removed. Surely WLL have people as equally competent (if not more) who understand their market than having someone foisted on them from WLC ?	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will be catastrophic for clubs and societies who already find that West Lothian leisure seeks to exploit evening lets and are already excluding clubs through their pricing. We the council tax payers already have funded the building of these facilities and to have another organisation other than the council exploiting us for what we have already paid is unacceptable. Would prefer the termination of West Lothian Leisure and taking these things in house in a socially responsible way	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The link to arts and cultural services have dramatically been reduced and now does not appear to sit within West Lothian Council's core services, again depriving our youth of historical, national and cultural knowledge within a child's learning or within later life. Howden Park Centre continues to make a huge impact on the life of a wide number of user groups that visit the venue and the work that the management team at Howden Park Centre have done over the past few years has rightly recognised the benefits that Theatre, Arts and learning bring to the local community. It would be tragic to see future generations miss out on the opportunity to experience leisure, arts and cultural services as part of their community and environment if these services were reduced.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Turn gym and classes to private to increase profits	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Either cut all ties with West Lothian Leisure or keep it associated with the council. However the danger is that the facilities at West Lothian Leisure are out of date/tired and with the increases in membership fees you're starting to make the service unaffordable to families and I'd rather pay the same amount to a private Leisure Company like David Lloyd etc. with better quality facilities. West Lothian Leisure destroyed Low Port Centre and thus evicted a community playgroup, I only use the service because of my children learning to swim. I don't have much confidence in West Lothian Leisure especially without West Lothian council help.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	A gym membership is OTT expensive for working people, the usual discounts apply to people on benefits... this is the wrong way round, it is people who work that need the discount	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We should be investing this into our own council leisure such as our staff and pool within the council. We only have one pool.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I believe that West Lothian Leisure requires more funding to allow services to like the swimming pool to open at hours that supports working families.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think the council should still provide some funding to West Lothian Leisure for school age children to promote healthy lives for things like swimming and gymnastics.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Funding for swimming pools at the very least would be beneficial for the communities health. Or even two main xcite hubs like Bathgate sports centre and Craigswood sports centre.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Don't agree, it should still be funded as it is providing a community service which is important. You don't pay that much and it would be frittered away on something else not necessary. They should receive more funding now with taking on another school	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If this is going to go ahead then the council should look at the potential next steps WLL will inevitably take and how this will impact the poorest in the region. This will cause a lot of poorer families to remove children from swimming and sports classes. A means tested subsidy scheme should be considered if this goes ahead to maintain a balance	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Recreation facilities are essential to wellbeing. Increase budget but rationalise services. Do not compete with private sector businesses.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We need investment, not more cuts	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Keep the swimming pool funded and move all the other facilities to private. The pool is mostly used by children learning to swim which is a vital skill and keeping it funded would allow more children to use it ; ;	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Keep pool funded, people already pay for use of the pool, and it is very important for children's learning and keeping fit and healthy. ; ;	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The council should then look at funding or organizing alternative programs for children which then can take over the functionality of WLL.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The purpose of the consultation is to identify budget reductions rather than service expansion. Unfortunately resources are not available to support this.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Provide services for local people controlled by the local authority	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is not to return West Lothian Leisure to Council control.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Non-crucial services such as this should be run as profit making businesses to help support the shortfall in crucial services.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is not to return West Lothian Leisure to Council control.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	we have a lot of swimming pools in West lothian, could we consolidate into one big facility?	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. No capital funding exists for the construction of a new consolidated facility, and users may not be able to travel to use such a facility.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	How sustainable is this going to be as West Lothian leisure has been self funded a couple of times and then the council have to swoop in and bail them out. Surely it would make more sense in the long run for the council to buy over West Lothian leisure (again) and although a bit outlay to begin with it would be a source of income for the council?	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is not to return West Lothian Leisure to Council control.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There are far too many swimming pools. It is such a waste of resource. Three pools is sufficient for all of West Lothian.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. The proposal is not to close facilities.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Reduce the number of swimming pools in West Lothian. There are far too many and with utility costs currently spiralling it surely makes sense to consider which ones are actually needed.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. The proposal is not to close facilities.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure should be scrapped = and why is the council asking about? Whenever something goes badly the council washes their hands of it, when it goes well a councillor will appear on a press release. It is time to scrap West Lothian Leisure and get the council to run it.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure should become the management agent for all school sports facilities.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure was a mistake from day 1. The Brittas Empire on steroids. Get it back in house, close some of the pools (we have more per head than anywhere else in the country), charge higher fees (we're way lower than anywhere else) and start means testing the free users.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Join this with schools for synergies in savings and investment in children's learning.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. School sports facilities are necessary for both delivery of the curriculum, and extra curricular activities, and access is required at the times necessary to allow these twin aims, which would not leave much time available for the public access expected by users in return for their subscription.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Is this not likely to result in the failure of WLL? ; ; Suggest sharing of schools' facilities with public. Noticed this in other council areas eg ; ; Joint leisure centre, swimming pool and outdoor all-weather pitches at Callander High School ; ; Play area and pitch in new West Linton Primary School open for children to use in evenings and weekends	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. School sports facilities are necessary for both delivery of the curriculum, and extra curricular activities, and access is required at the times necessary to allow these twin aims, which would not leave much time available for the public access expected by users in return for their subscription.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If taking the funding away means that centre's will close, then this will not be an efficiency! Can West Lothian Leisure operate as a self-funded organisation? Has there been a means test to this and a budget created using this model without closing sites or cutting services?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This only works if West Lothian Leisure is able to generate sufficient income to be self sufficient. Need to consider that price rises to use services would likely exclude those struggling just now, leading to reduced income overall. The council needs to ensure continued access to these services for community health and well being.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	These points would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Please remember that some families do not have money to pay for out of school activities, hopefully they will not suffer in this proposal.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	This point would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Presume West Lothian Leisure will either have to close/reduce services or increase prices. Will their still be an WLC presence on the WL Leisure Board? Probably inappropriate if there is no longer a funding link. Suspect this may have major impact on the available sports and leisure facilities for the residents of West Lothian.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	These points would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	perhaps an agreement could include some funding from the council to remain to allow WL leisure to offer help for people with disabilities, or for children to receive some subsidy so they can access leisure facilities for health and wellbeing reasons for the wl community.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The demise of Falkirk's leisure and cultural services recently is a good example of how the reduction in community resources can kill the aspirations and opportunities of the communities we live in.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Consideration needs to be given regarding the entire approach to sporting facilities. The council appears to be putting WLL out of business by allowing community facilities and schools to undercut the rates charged for similar activities. Why would I hire a badminton court for £4.70 per hour at WLL when I can get one in a Community Centre for a fraction of that cost?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Surely some subsidy should still remain for children? Happy for changes so that Xcite etc become more self funded, but keen that children not bear the brunt	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your response. Funding for curricular swimming will be retained, and opportunities to participate in sport at school will remain.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I have mixed views on this proposal. As an organisation West Lothian Leisure shouldn't be funded but equally key resources, and in particular swimming pools, should never have been hived of to this pseudo independent entity. I have grave reservations on what the likely outcome of these proposals could be for communities and see it as a culmination of a longer term flawed policy. Very careful consideration needs to be had for the potential fallout of matters linking to this item.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Being outside and free exercise options are there.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Swimming provision in schools is poor and sometimes non-existent. Given WLL were recently recognised with a national award for their Learn to Swim programme, it would be good to know what support or offer will/can be made to schools as support for swimming in primary schools. This needs to be better and if the council are set to remove funding previously allocated to WLL for this then I'd have huge concerns about the future swimming abilities of children.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your response. Funding for curricular swimming will be retained.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Cuttin cost znd keeping it down	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It seems that services are already cut to a minimum, bins are emptied, lights are dimmer grass verges are overgrown, refuse sites are manned but staff not very helpful, sit and watch you when they could help.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	People in Livingston are effected by the poverty decile they are allocated. Factors that effect this are the access to shops and to my point local leisure facilities if these become private entities then the people who do not get additional support because their decile has been inflated by location will definitely not be able to afford to use the facilities.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The service provided by WLL would need to be improved as schools currently fund any requirements regarding equipment etc regardless of whether it is used by the school or if it is left as available for the let and therefore is a burden to the school DSM.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yikes. Hope WLL has a good business continuity plan in place	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We used to use a local high school for swimming but all that seems to have stopped now which is a great shame.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian is slowly turning into a place where only the retired and those on benefits are supported	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Schools continued to be built with Pools and this is not a financially beneficial strategy due to the inefficient costs of the pool heating and lack of ROI from the pool not being used during school hours.;	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The leisure and culture services provided by West Lothian Leisure have clearly been recognised as one of the best and most efficient leisure services in the UK. The benefits to the health and wellbeing to thousands of customers visiting the services each week deserve recognition and investment. Partnerships developed with the NHS make incredible life changing impacts on patients being referred from the NHS with both my elderly parents and extended family benefiting from this. The saving being made by reducing patients entering into hospitalisation or rehabilitation for longer periods and the reduction to prescribed medication are broadly undervalued on the ROI West Lothian Leisure provide, by West Lothian Council.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Ouch	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I believe that we have to support Economic Development and Employability, we need to try and invest!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Waste of time and money building all these partnership centres	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No ridiculous vanity projects, such a waste of essential money.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The meaning of the response is unclear.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I hope that this will not lead to problems for West Lothian leisure. The services they provide are excellent, and are part of what makes West Lothian a good place to live.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will lead to the closure of many Xcite facilities which are already difficult enough to access. Lack of exercise options is bad for mental and physical health and will lead to greater need for NHS assistance. As an Xcite member is already ridiculously difficult to access my local swimming pool which has almost half its hours dedicated to children's swimming lessons and private club use. If my local pool were to close I would be unable to attend any other location as I require care/assistance and I cannot afford the cost of bus fare to travel out with my local town. Too many of Xcite's facilities eg outdoor learning programme are ONLY for children. Opening these up to adults without children would provide a valuable income source as would increasing the heavily discounted price for OAP usage of eg swimming. I also find this a completely bizarre decision when you are proudly trumpeting about building top of the range sports and swimming facilities in the new Winchburgh school, choose Xcite to run it and then cut them loose.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Wrong move. At a time when households are pushed to the limit reducing these services or charging for them is counter productive. Devolved Govt needs to look at it budgets and backhanders more closely and make sure the council receives the right funding..	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would like to see deans high school swimming pool being reopened to the public. I always enjoyed going for a swim there and its a 2 minute walk from my house, also my daughter and granddaughter enjoyed a swim there. No way am i travelling to inveralmond as i would need to take the car	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure should strongly consider opening its facilities earlier to attract those in full time employment. E.g Broxburn swimming pool doesn't open till 08.30 which is too late for traditional workers to go before having to start work. They are likely missing a huge potential source of custom and members.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think timetables need looked at and also the introduction of fitness classes for under 16's as I think this would also attract a lot of business for WLL	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Exercise is an important part of our lives. I have seen WLL busy and also very quiet. I think timetables need looked at and also the introduction of fitness classes for under 16's as I think this would also attract a lot of business for WLL	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I assume this will lead to an increase in Xcite membership fess, which will probably lead to the less fortunate to stop/reduce physical activities. This will have a longterm effect, which I hope will have been thought through.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Put prices at xcite up	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Who is going to combat the obesity and preventative measures with an ageing seditary population without some kind of financial support for those who need it.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Swimming pools need to be open later at weekends. Less swimming lessons unless designated separate pools. Sick of going swimming and lessons taking up the shallow end. Parents need to teach their own kids to swim!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	So more prices will end up going up at the cost of the public! People don't have the money for these luxuries as it is!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	More pressure for employees and managers to keep things afloat. Again a strain on mental health. The NHS will not cope with the level of referrals employees worrying turning to stress. Maybe billions of profit should be redirected to local authorities.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	In a society where obesity is on the rise perhaps the council should rethink this and provide more affordable activities for the residents.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If this means increased costs for user of these facilities, clubs that use these facilities eg, swimming, football, hockey etc and individuals then this may potentially exclude access for low income families.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There should be community engagement on how this will impact leisure services. Not only in the short term but also the impact on future development. How will WLL grow its offer if it has not secure funding. I'd be worried that it would fold and end up with mothballed services.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Council staff discount for West Lothian Leisure membership should be maintained.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure went through a comprehensive staffing structure review 4 years ago so, which now has shown to have been too severe due to challenges staffing facilities and providing services to the community due to lack of staff.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would result in xcite not being competitive in pricing. Lot of private companies offer more cost effective memberships	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Thanks, that will mean WL Leisure will then increase their income by getting us to pay more.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This sounds like swimming pools will shut which will reduce healthy outcomes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	These facilities are needed but are way to expensive	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is big business and this area should be income generating for the council.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as there's no reduction in the facilities and services provided currently.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	West Lothian Leisure would be required to determine a sustainable business model.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	will this impact the Leisure facilities within West Lothian, if funding is cut-e.g. closures of swimming pools etc	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	West Lothian Leisure would be required to determine a sustainable business model.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	So pull the plug causing prices to rise and become unaffordable to the masses although having checked prices of swimming for an elderly person (not yet 65) is already out of my budget	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Could saving nit be made by simply increasing the charges to use such service inline with the private sector	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure is an extremely important service to the community and is well supported. It should be a service available to all at a reasonable cost.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We need leisure facilities in West lothian. No cuts should be made to the budget. You should be trying to find ways to get more people to use the services. For example, if the fees were cheaper I think more people would use it.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I can't see the leisure facilities staying in place, in good condition and at an affordable price, without this funding. Children and adults must have access to swimming lessons etc.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	More money would be made if people keep using these facilities	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Has anyone ever thought about trying to make West Lothian Leisure a profit centre? Or are you not allowed to do that?	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian leisure has a vital role in the health outcomes of West Lothian to cut support here could lead to adverse outcomes socially & mentally as well as in the health and well-being of all ages.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It's already cheaper to go to Falkirk for a swim (including the fuel) than to use Bubbles pool so I'm not sure this change would help people as I imagine places like that would just raise their prices even further.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will have a negative effect on smaller communities which may not have as many xcite members using the facilities and meaning that some venues may have to close which will not ensure that communities remain healthy . If membership was cheaper more people would join which would eventually make more money for xcite. Perhaps looking at swimming only memberships etc or gym memberships	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This sounds like a big hit to WLL which serves its communities well. One might look at what else WLL might be able to do to support other aspects of council services - for example education, health, care...	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	the reduced monthly access for xcite for people on benefits needs to be kept in place	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	That's worrying and I hope Xcite will be in a strong enough position to continue to run. We need places like this. Out towns are already run down enough and provide hardly ANY leisure facilities. To my mind we need more not less. Only last Wednesday night when i was waiting to go into the Council meeting in Whitburn, there were kids playing on the roof at the cross. Xcite should in fact change it's hours and stay open later and offer the coffee machine and seating area for young people to go. On an organised basis.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Saved. Send more guns 𐄂 to the .2 more shots...more lives killed.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Woo hoo, more fat people for Scotland. Let's ditch the sugar tax too and be done with the population	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I blame ***** (redacted)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Xcite are not fit for purpose. The management of the facilities is dreadful, over priced for community groups to fund and in flexible. As a member of education staff and as part of a committee dealing with the booking of such facilities it is a horrendous system.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think venues that are not well used should be closed or closed when they are not well used. Customers impact is minimal and opening times should reflect customer demand.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Comments will be provided to WLL in order that these are considered as part of their ongoing service modelling.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would be difficult as they would be trying to secure funding that the third sector would be seeking for the additional services being currently delivered	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	close venues when they aren't well used. Most of these venues are empty a lot of the time - so close them	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Hopefully this won't see the closure of much needed leisure facilities in some of our poorest areas.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If this funding is completely removed, the board of WLL would require restructuring as is currently largely facilitated by councillors and would leave WLL less able to protect and support their staff who are affected by the cost-of-living crisis. WLL already pay lower hourly rates than other surrounding leisure providers. In the current economic climate the protection of people's health and mental health is more important than ever!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Why is there a high percentage of young people in more deprived areas not accessing these facilities especially your Excite gyms and swimming pools due to the cost	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Need better staffing levels use polkemmet golf a lot of the time no staff on reception	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The £750,000 cost saving could come from trimming the management levels in the Excite organisation.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure facilities are vital to keep young people off the streets and provide children with a life saving skill of swimming. To boost income, can some of the rooms be rented out to private beauty/ therapy providers to close the gap? More attractive coffee shop offers would also help.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Support for solar panels on south facing roofs to help with heating swimming pools. Something which might provide economies of scale is organised centrally as part of the hand over.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	councilors should close facilities that aren't busy	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLL's provision has changed significantly over the last few years. Costs have increased and the less well off use facilities less. For WLL to be self funding, I suspect this will mean significant cost increases.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I find it really disappointing that Deans Community High no longer allows members of the public to use its facilities. ; It used to be the hub of the community and I used its facilities for evening classes, gym, swimming, Under 5's Centre over the past 30 years. It's a big loss to the Deans area. Poor show West Lothian Council !!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I mostly use private services as the cost at the councils services are very expensive and not as good	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Prices to reflect all households to help support wll	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Safety in these spaces needs to be addressed.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Have core facilities open 24 hours to reflect the modern needs of gym access. This might require closing of some facilities to facilitate the savings but possibly a better option than a number of facilities with staggered opening times.; ; Better access to the school estate and the facilities available would possibly assist with this. Community school models worked well historically.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Just don't shut any leisure facilities or pools maybe look at schools sharing amenities	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Keep some money aside as a buffer.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The pools need to be open longer at the weekend.; Perhaps with a more enticing programme of classes and fun session this could generate more money.; What about disco pool sessions,fun sessions, inflatable, aqua aerobics for teens, diving classes, late night dips. There is so much more that could be done with the spaces. Understandably the facilities cost money to run but having them closed generates no money.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean that leisure groups ie people who run monthly dances, exercise classes are going to be priced out of hiring halls as their group members may not be able to afford the increased fees is already happening when a dance or even a wedding runs beyond 10pm	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Assistance and perhaps joint arrangements with other competitors in the provision of leisure type services should perhaps be looked at, also voluntary clubs and activity groups to be encouraged to use WLL premises instead of council buildings which could then be used for food banks etc;	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	One small suggestion - reduce opening hours during midweek days before 3.30pm during term time. Usage at these times doesn't justify the cost of staying open, those using facilities at these times could use them at other times, and most of those using the services during these times are getting non means-tested concessions anyway, further increasing costs.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would make sense to target some funding based on average wealth in the area of the facilities.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Such funding is out with the powers of West Lothian Council.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Since Tuesday 20th September, Craigshill Health Centre had prescribed a 12-week exercising regime at West Lothian Leisure (Xcite) to manage my blood pressure. Xcite sent me a letter the next week, saying I should await further instructions from them on scheduling an interview. Today's November 18. I'm still waiting for their letter. I'm deeply disappointed, especially since this is about health and life.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Gym providers are popping up all over the place yet WLL appear to continue to offer the same level of package that they have always done in the same areas. Some radical thinking and use of alternative facilities could help provide a far more streamlined model that could really provide services according to the needs of communities that are not always the same.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The cost of living crisis has a lot to answer for, people don't have as much money!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Hopefully leisure centres will not be shut down.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	some facilities already need maintenance	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	would close facilities places already need maintenance. Need new pools better facilities to amalgamate services	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Consequences of removed funding is not mentioned- more detail required	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There is very little detail contained within the narrative to make an informed comment. Suffice to say though that this should be a feature of a progressive and forward looking business and should not be the consequence of a need to save money. It will be interesting to see what the knock on effect of a reduced grant will have for the service and therefore their charging model to local people!	9. The respondent made a comment on the survey question.	These points would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	That is a death knell and the council knows it!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If you take this away the prices at the facilities will inevitably have to increase. This will bring them in line with other gyms and make them outwith the reach of most people who currently use the facilities.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Im worried this will put the leisure facilities in danger of closing. They are so important for health and well-being.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is sad to hear. It is worrying to hear that they will be self-funded as this may mean a rise in prices.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is awful!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Reduced income leading reduced service delivery but this proposal is vague in detail	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I do not understand how the funding works but this is a vital resource for promoting health +fitness so I hope it will continue to be affordable to all.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Doubt it will survive as a business without council funding.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This sounds like it will have a significant impact on communities abilities to maintain services which is worrying at a time of increased mental health issues, obesity and stress	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLL cannot compete in a competitive market when they have for example expensive swimming pools to run & free access to certain groups. Removal of this funding could lead to there being no access within WL to pools & they may also remove free access to groups.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure facilities are vital services in many communities and I would be worried this may lead to a reduction in hours at some sites.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I feel this may have an affordability impact on wellbeing for those using the leisure services	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this could have a negative effect on the community, especially if prices need to be increased or services limited	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	A desperate measure	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is awful!;	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If not financial, how will the council continue to engage and support WLL? Would be clearer if there were specific examples provided.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No negative implications described here at all, why are you asking the public if you should make this saving, why are you not just making the savings. This survey doesn't make any sense? hope it didn't cost too much.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	dont really know what this mean	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity. There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Again smaller areas have already seen these cuts and this has an effect on the community.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Once again, hit our young people, well done !	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What has been the response from West Lothian Leisure to this and have they said that they will be able to maintain their level of service and keep facilities open? Their is no mention of how much contued engagement and support would cost, nor what it actually would mean.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This might be a little controversial, removing core funding in favour of 'self-funding'. Well, just what comes under 'Leisure'? Could use more detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	How this will impact the user has not been explained so I am unable to give meaningful comments.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Think Leisure facilities are important in the community for health and well-being	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As a resident I do not understand what this will mean to the services I receive due to the vague and broad terms used in this consultation document.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I expect it will close then.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Do not understand what the proposed changes really involve. It appears to me that leisure facilities are becoming more and more exclusive, especially with swimming facilities in West Lothian. Families simply cannot afford to take children swimming anymore with a limited income. This is absolutely shocking as swimming is a life skill NOT a leisure pursuit.	9. The respondent made a comment on the survey question.	Thank you for your response. Funding for curricular swimming will be retained.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would like to know more about this	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There is not enough information here to make an informed comment. What is the business model and arrangement with WL Leisure? How much is paid in rent or lease for the sports centre buildings that should still be owned by the Council? How much have they been subsidised so far? ; Edinburgh Leisure appears to be owned by Edinburgh City Council and is doing well, whereas WL Leisure is a separate company that is struggling. Maybe you should go back to this model or at least benchmark against it and look at best practice elsewhere.; ; But if the Council wants to encourage health and wellbeing do they not need to fund this?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Dangerous. This is an amazing service which keeps WL residents heathy.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I feel it unlikely that West Lothian Leisure will have a long term future without Council financial support.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Details of replacement funding sources required, WLL provide a significant element of local fitness and team activities and would be significantly detrimental to the community should this cease to function.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	I hope there are no forced redundancies.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	many council contracts have a history of being over inflated.	1. The respondent advised that they agree with the proposal.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	That's good but as long as no redundancies as I have worked with the council for thirteen years bnow and can't afford to lose my job	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	There are many council services which are vastly over staffed with incompetent employees, particularly in management. Reduce managers & make those higher up more responsible for more people, as is in the private sector.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Taxi etc should also be stopped	1. The respondent advised that they agree with the proposal.	The Council's role is to administer the licensing schemes subject to the legislative requirements relevant to it.
Modernising our council	1L General balance of savings to be identified	Staffing on some areas has already been cut.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	There would appear to be too many levels of senior staff or senior management teams so I am sure those levels could be re-aligned.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Hybrid working means that some office space could now be rented out to give an income to the council. For example either some whole floors of WLC buildings could be rented out, or they could be run as co-working spaces, like The Melting Pot, which may bring about innovative partnership working opportunities too. This could also reduce West Lothian carbon emissions.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Modernising our council	1L General balance of savings to be identified	It would have been helpful to have had proposals to consider regarding the specifics of how these savings of £6.2 million are likely to be achieved. Without this information, it is not possible to comment on the specifics of the proposals. However, in principle, I agree and accept that reductions in service delivery and staffing levels are likely to be required to deliver these savings.	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General balance of savings to be identified	Services can be delivered in a number of ways, as has been seen throughout the pandemic. Many services can be accessed on line/video etc. Therefore, is it really necessary to have so many buildings. In Bathgate, for example, St David House is across the road from the Partnership Centre and there is also a Social Work building within walking distance. Same in Livingston re Arrochar House and Civic Centre.	1. The respondent advised that they agree with the proposal.	The council can be contacted in person through our officers, by telephone via the contact centre and online through our website or via email. This range of options offers customers choice and we endeavour to deliver a high quality customer service experience across every channel.
Modernising our council	1L General balance of savings to be identified	Focus on reducing/eliminating top-heavy management structures and greedy, bureaucratic tender processes that leave council departments forced to use contractors and suppliers which are often seriously overpriced.	1. The respondent advised that they agree with the proposal.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Focus on reducing/eliminating top-heavy management structures and greedy, bureaucratic tender processes that leave council departments forced to use contractors and suppliers which are often seriously overpriced.	1. The respondent advised that they agree with the proposal.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Focus on reducing/eliminating top-heavy management structures and greedy, bureaucratic tender processes that leave council departments forced to use contractors and suppliers which are often seriously overpriced.	1. The respondent advised that they agree with the proposal.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Agree changes have to be made but terrible staff would have to lose their jobs for it to happen	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Sadly technology is the future and efficiencies are created as a result jobs will go.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	A good idea to consider staffing but start at the top high earners first and not the low earners.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Obviously this is your intention, but least impact high salaries should go first.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Effectively use of all staff at all times will deliver a better service.	1. The respondent advised that they agree with the proposal.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Don't target front line essential staff; Top tier positions - which are duplicated in a lot of cases need to be streamlined	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	The council is top heavy with very high salaries especially at the top. Start by making changes there.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Get rid of the over paid middle/higher management who don't offer much in the way of value for money. Talk to your staff who do the jobs and see what they think can be improved/done differently as they are the ones doing the job they will know.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Try having less top heavy management??? Streamline your own job systems? Perhaps conduct a 'strategic review' and get rid of the deadwood higher, overpaid Management thus saving millions in the process???	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Look at senior management not customer facing staff	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Reducing staff is understandable not only with the council but also private sector. What should be taken into account is that when a job goes that work has to be done by someone else or divided up. This means other people taking on more work/responsibilities and this needs to be kept in mind and these people given a fair wage for the job they do	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I understand the need to 'balance the books' but we must do our best to provide for the most vulnerable in our area. To do this we need to lose high paid , top heavy staff, and invest in lower paid, well trained individuals, who will be available to support our young people.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Cut senior management!	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	If it needs to happen then the savings have to be made. Talking from an education perspective, we do not get effective partnership from Active Schools. Clarity about the EPS role and involvement would be most helpful. I am not sure what support social policy offer. We need staff in schools and a central HR support team to support business and recruitment policy legal matters.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Provide the opportunity for Community to offer to pay more in Council Tax instead; at least for those who can afford to pay	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding an increase in council tax.
Modernising our council	1L General balance of savings to be identified	I would rather see a small council tax increase than loss of services directly impacting the customers	1. The respondent advised that they agree with the proposal.	It is noted that you agree the need to increase council tax to support delivery of key services.
Modernising our council	1L General balance of savings to be identified	I would prefer to pay more council tax than have services removed	1. The respondent advised that they agree with the proposal.	It is noted that you agree the need to increase council tax to support delivery of key services.
Modernising our council	1L General balance of savings to be identified	Because the customer service has been so good on matters that are important to me, I've felt it reasonable, and I'd be concerned about any increases if customer service was not good, or staff laid off to make the savings required as then it doesn't seem fair.	1. The respondent advised that they agree with the proposal.	The savings proposals have developed with a view to maximising efficiency and maintaining performance and customer service. Any staffing efficiencies will be delivered through non replacement of vacant posts where possible and otherwise through the implementation of the Council's organisational change policy. The Council operates a no redundancy practice.
Modernising our council	1L General balance of savings to be identified	Please make sure that cuts are made to non essential services eg grass cutting, useless pot hole fixing that lasts a week etc	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Feel that during covid where there was no communal area grass cutting that having reduced service in this area would benefit budget and wildlife	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Being in business. Bring in good quality supported events for the town. No xmas market,	1. The respondent advised that they agree with the proposal.	Appropriate strategy to be reviewed
Modernising our council	1L General balance of savings to be identified	Agree. Remove middle managers	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Agreed, fire all the senior management first however as they are expensive and bring little benefit.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Cut the highest earners! Less people out of work and those who should have been able to save money	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	A lot of management could be streamlined	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Reducing staffing in non-statutory or non essential services should be a first point of call. Will staff be reduced via natural reduction, it is commonly stated the council has a non redundancy policy	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Strong management and accountability of work will ensure a better workforce and output of work which will save money and allow a reduction of staff.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	As previously stated, reducing staff is a short term saving. It will inevitably lead to staff leaving the council, unable to fill positions and staff absences. Unfortunately, there doesn't seem to be much in the way of understanding that the management within services is often overkill. If services can run without managers there then why are we not questioning the managers positions? Why are we so top heavy and why is it that the morale of staff is horrendous?	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Cut the middle managers! And the people who mandatory e-learning modules - these could be centrally created by the Scottish govt. and shared with all the councils.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Maybe think about reviewing management roles and getting rid of those who aren't working effectively.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	A redesign of management levels might be a better option, along with more hybrid working and a potential 4 day working week.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Thin out the top, and keep more boots on the ground. A top heavy tree always blows down.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	There is a strong need to look at the management structure and then all the way down - too many what seems to be admin/support for services roles, which have had there day. Frontline staff are capable of writing processes/procedures, taking on project work and affiliating it to what actually goes on at the frontline	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Get rid of the top brass who have no clue and out of touch with reality	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	👍	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1L General balance of savings to be identified	Council struggles to keep up with present services so everything will be oiled up and only most essential services will be covered	1. The respondent advised that they agree with the proposal.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Modernising our council	1L General balance of savings to be identified	Necessary evil	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General balance of savings to be identified	Cut out the chaff and save a fortune. Council needs to ensure all employees give value for money, if an employee isn't doing their job effectively or properly, ie just sits in their office, shirks their responsibilities, fails to complete tasks, solve problems or give advice in a timely and effective manner...get rid of them. I often wonder how some people got their jobs with the Council, especially many in promoted positions.	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Understandable.	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General balance of savings to be identified	Fantastic	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General balance of savings to be identified	Never great losing staff, if it is dealt with via a pyramid system where most savings are taken from the top it would be the best way to deal with this	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	After reading the above, I will continue to trust your decisions in the areas I have no experience in , but thank you for the opportunity to co-operate !	1. The respondent advised that they agree with the proposal.	This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1L General balance of savings to be identified	Inevitable that eventually, regardless of the good will of the council, staffing levels would have to be considered as part of efficiencies measures.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	I understand that reducing staff numbers will save a lot of money as long as the quality of the service is not affected. It will have to be implemented very carefully to ensure that the council has customers who need good quality support to access the services that they very much need.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Always a good idea to revisit staffing and checking that staffing levels are effective is meeting the needs of the Council and that there are enough staff to provide the services for the people of West Lothian.	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Always a good idea to revisit staffing and checking that staffing levels are effective is meeting the needs of the Council and that there are enough staff to provide the services for the people of West Lothian.	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	sell off buildings to save money. Reducing staffing levels will reduce the service provided and put more people on benefits.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. As the largest element of the council's budget is staffing there will inevitably be reductions in staff levels however this will align of corporate priorities.
Modernising our council	1L General balance of savings to be identified	Hoping that this will be managed as well as possible, and teams will not be left in uncertainty for too long. Cuts sadly inevitable but feel we can learn lessons from previous rounds to handle this better.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Makes sense to cut jobs that no longer need doing or that can be done more efficiently	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	No compulsory redundancies is important if we want WL to continue to thrive but streamlining where possible is sensible if it does not weaken key areas like education, health, bin collections	1. The respondent advised that they agree with the proposal.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Modernising our council	1L General balance of savings to be identified	Restructuring is common practice across most industries	1. The respondent advised that they agree with the proposal.	Thank you for your comment, the council proposes to use responses to the consultation to support the review of council services, prioritisation and decision making.
Modernising our council	1L General balance of savings to be identified	Hopefully this mostly is achieved by staff leaving or retiring.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	staffing levels, in general, are very 'short-termist' in any organisation, only to be filled by expensive contractors later on. Appropriate analysis must be carried out and ratified to ensure that is the correct route. Efficiency savings should be identified and acted upon elsewhere, by improving technology, increasing revenue in other areas.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Start at the top and work down, Do we really need as many councillors, managers etc to run the services? Too many top level people in the council taking a wage for little return.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Not ideal but needs must	1. The respondent advised that they agree with the proposal.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	I am concerned that increasingly staff are asked to do more which is resulting in a loss of quality of work and demoralisation of staff. Use of technology should be the primary method of reducing the burden of work on staff and providing residents with a better service.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	People are your greatest resource. If it's at all possible, identify staff members who do not fit the criteria or do not manage their job role efficiently. Hard working staff should be recognised, jobs shouldn't be given depending on who you know.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Reduce management	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	As always when money needs to be saved staff are the first to be looked into. However it must be noted that staff are employed in the most cost effective ways without a loss of vital services.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Reducing staffing levels will inevitably result in poorer services or the cessation of some services. And redundancies.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	cut half of your top bosses	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	In my opinion the council is over staffed therefore cutting staffing costs in the long term will be good, in the short term this will cost in redundancies/renumeration etc. which needs to be taken into account.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Care must be taken in the balance of savings and the number of staff required to deliver services. Close scrutiny should be made of all non core areas which receive funding. Green issues should be closely examined to ensure value for money, Waste such as the 20mph restrictions should not be repeated.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I would support an increase in council tax over reductions in services. The proposals given seem to have greatest impact on the vulnerable in our communities, particularly children. Reducing services at the front line level whether through education or welfare support will have detrimental effect on the community as a whole. I would be interested to see how staffing can be streamlined further up the chain. What are the proposals to streamline middle management particularly within education? Do all the management and officer roles have a direct impact on the teaching and learning of pupils in West Lothian?	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Try to make sure the correct staff cuts are not made to front line services	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Redundancy is a part of work - go for it!	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I am sorry to say this but within the council (not education) there are still a lot of times that there are 3 people for a job that would take 2. For example there is still a lot of a hang back attitude within council workers where more could be done in the day than is being done eg. Manual workers. Some years ago my nephew started with council but left because he said his joiner colleagues said he was working too fast.	1. The respondent advised that they agree with the proposal.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	This is fine if you are getting rid of the fat cats at the top that are getting paid way too much money and claim way too much in expenses and not the people that actually do the work.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Would be interested in how much of saving can be made through retirement and voluntary redundancy rather than than job losses in our county.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Having worked with various council bodies and departments always felt there were too many people doing the same job or double checking who was doing what or to many layers in management structure. If it was a private or corporate business it would not be run as it is. On the other side though it is never easy to see people lose their jobs	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I think that staffing reduction should only happen through natural wastage or ending temporary contracts. I would not like to see mandatory redundancies.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	A council needs staff to move forward and by investing in your work force should be essential not a luxury. Review the big management salaries and make savings there before you review and cut staffing cost on the ground level.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	It seems an easier take to manage staff at the lower end of the scale where staff tend to have more impact on our customers. In my opinion, the greater savings with minimal impact would come from reducing bloated middle and upper management who tend to earn much more than others and who have less of an impact on our customer directly.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Some of this saving must come from reducing staff in some areas of the business. There will also be some natural wastage through retirements and staff taking up positions elsewhere.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Agree to reduction in cost measures a necessity however children's should not be penalised and safety, security, wellbeing and education should be maintained to a high standard. Teaching support staff numbers should not be reduced as schools already operate within a wide adult to child ratio and reducing adult support throughout educational facilities opens doors to reducing and affecting their security, safety, wellbeing and education. High standards within education facilities need to be maintained.;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I would agree that staffing, particularly senior management budgets need to be challenged along with general staffing levels to ensure the council tax payer is getting value for money.	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	As long as it improves core services.	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	There is a real problem here. I understand that people need homes, but you cannot stuff every available space in the county with all these new builds that benefit no one (except those who have the money to buy these homes) and have nursery and education provision the same, as in no new schools or nurseries. People who move into the area need schools and nurseries for their children and not ones built in the middle of nowhere.	1. The respondent advised that they agree with the proposal.	The council is committed to providing appropriate development in line with national planning policy and the development plan.
Modernising our council	1L General balance of savings to be identified	Again metrics in trial data must show this approach works first	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Good luck!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Supported	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Only by natural wastage	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	No objection	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Cool	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	OK	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Makes sense	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Excellent, this cost saving of £6.2M is much needed, please proceed with these changes.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	This needs to be done	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Not ideal but needs must	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Not a good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Sensible proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Unfortunately this is inevitable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	This contradicts what you are trying to do with Education by cutting Teachers.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I would just like to comment that I don't envy the Council having to make these cuts and they will not be popular. It would be worse if Scotland was Independent!!! I cannot believe the state of the country just now under Scottish Government. If they would concentrate on the day job!!! I am very depressed with this consultation. If cuts are needed then so be it. IO know WLC are looking aheads but what a mess!!!!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Good idea. Need to be more efficient working model	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agreed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agreed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Sounds like a reasonable approach	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General Balance of Savings to be Identified	Highlights the fact that all councils are facing cuts on top of cuts which can only be avoided by proper funding through Council Tax and general taxation.	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1L General balance of savings to be identified	Reduce non statutory services	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	Remove pointless Christmas decorations and other waste less spending and you won't need to do this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Doesn't really sound OK but not sure there is much choice!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Inevitably this needs to be looked at but do have concerns.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree that need to review.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	This is necessary and " do able "	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Yes.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Too heavy service.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	If services are maintained on a more efficient way, then fine.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Sounds necessary	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Fine.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Very happy with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Supportive	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Sensible as long as changes are well planned and delivered	1. The respondent advised that they agree with the proposal.	Thank you for your comment, the council proposes to use responses to the consultation to support the review of council services, prioritisation and decision making.
Modernising our council	1L General balance of savings to be identified	Staff turnover has to be a priority. You have to make sure the new generation is given a chance. Quite clear that there are too many senior positions held by people who should be retired by now.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Reduce staff levels in middle management significantly and top managers salaries	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	This is severe - reasonable packages must be offered for redundancies and unions must be consulted at all times. Keep the best workers and reduce the deadwood. Re-structure the management tiers.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	reduce management tier	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	simmalear servises together	1. The respondent advised that they agree with the proposal. YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	bring services together	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	bring similar services together	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	reduce management tiers	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing levels are bad as there are too many higher management, and not enough ground services (people on the streets) it's not there's too many staff just too many doing not enough but getting paid more than they should	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Reduce high salaried management and keep the front line staff who deliver the majority of services.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	reduce staff numbers at the top,	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I think that a review of staffing and management would be a good idea - there are a lot of layers in the council and 3 depute chief executives - can this be streamlined.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I would be confident that WLC could reduce staff numbers in certain areas without impacting service. It's a question of identifying who does what carefully.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	If staffing levels are wrong - reduce staffing levels	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	The staffing should be addressed from the top down. Do we really need the amount of staff at the top end??	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	The council is top heavy at the moment I think the amount of team leaders and supervisors could be reduced to save money	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I would imagine many office-based/admin/finance roles could be replaced by technology and more efficient use of resources.	1. The respondent advised that they agree with the proposal.	Our customer interactions and feedback clearly show that people are increasing choosing to use our digital services. This offers customers greater choice and flexibility in the way that they access services and we are working to increase our use of technology across the council and improve the efficiency of our processes and response/resolution times for customers.
Modernising our council	1L General Balance of Savings to be Identified	Needs must but concerned that the most disadvantaged in the community will suffer the impact	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Savings could be made if some buildings were closed and staff worked from home - no energy costs and no one having to open up or close buildings - there could be a small building used for clients to attend and a rota for staff to work there	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Modernising our council	1L General balance of savings to be identified	Council need to prioritise food banks.	1. The respondent advised that they agree with the proposal.	The council supports food banks and the Food Network.
Modernising our council	1L General balance of savings to be identified	I agree cost savings are difficult to make and staffing is an obvious cost to consider. ; We all have to accept changes must be made to allow for the budget savings to be made. ;	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	The savings sound great but I fear there will also be a drastic reduction in service provision in these proposals with no impact on council tax reduction for ordinary citizens, less for more is not a great selling point.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Changes to staffing levels seems impossible to avoid. There's also staff attitude to pay levels, and of course most staff are averse to real cuts, meaning that certain vacancies don't get filled.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Maybe one thing we agree on cut the bloated self serving public sector.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	It is difficult to be happy with job losses but unfortunately it seems it will be necessary in order for the council to remain financially viable.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	should be achieved but not in a way that it badly affects the residents of west lothian	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Sensible streamlining of council management and staff is appropriate as long as the mid/senior management is also streamlined as more cost savings are available here.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Well sadly due to Covid 19 there are plenty of other job opportunities available as sad as it is to see people having to move to new jobs, I feel this is inevitable	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	By all means, I support the cutting of some staffing for efficiency savings. However, these cuts should not be at the customer facing side of the council. Education should have staff in schools increased and promoted Civic Centre staff cut.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I agree with this proposal as long as it continues ; ; to support the community.	1. The respondent advised that they agree with the proposal.	Thank you for your comment, the council proposes to use responses to the consultation to support the review of council services, prioritisation and decision making.
Modernising our council	1L General balance of savings to be identified	These funding gaps are ridiculous! services need to be properly funded by Scottish government. We cannot cut staffing any more. If there is no option to make the savings then I agree	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I agree.....cut chief executives....and directors....far too many chiefs and not enough Indians	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	As long as it does not affect the front line delivery of services (including teachers) then this sounds reasonable	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Agreed, but not in Education. We need to help children succeed.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Achieve it by natural wastage if you can - it's a big organisation there must be significant turnover.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Yes, as long as this does not cut the quality of IT service	1. The respondent advised that they agree with the proposal.	The council has made significant investment in the IT infrastructure and will continue to allocate appropriate resources to introduce new technology where appropriate. The council's ICT Strategy seeks to deliver change in line with advances in technology and changes in council priorities, whilst still having a clear framework within which to operate.
Modernising our council	1L General balance of savings to be identified	Agreed but no one should be redundant in this difficult times and pay reduction for earning more than £50000 per year must be supported	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Headcount reductions are inevitable and I'd expect that excellent retraining and redeployment options are offered and considered. Unsure how many staff working for WLC are actually West Lothian residents, will staff cuts impact unemployment in our county and what's the financial trade off of this?	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Recognised - although it raises some concern about the possibility of many staff losing jobs (or retiring?). No problem with staff reductions where it makes sense, but who becomes responsible for there being more people looking for work? Is this just the council pushing people onto the state?	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	The use of automations and new technologies will be vital in making sure any reduction in staffing numbers does not lead to excess work being added to already overworked colleagues.	1. The respondent advised that they agree with the proposal.	Our customer interactions and feedback clearly show that people are increasing choosing to use our digital services. This offers customers greater choice and flexibility in the way that they access services and we are working to increase our use of technology across the council and improve the efficiency of our processes and response/resolution times for customers.
Modernising our council	1L General balance of savings to be identified	Raise Council Tax by a small amount and watch the deficit decrease drastically.	1. The respondent advised that they agree with the proposal.	It is noted that you agree with officers' assumptions regarding an increase in council tax.
Modernising our council	1L General balance of savings to be identified	Think the council needs to consider additional increases in council tax to bridge this gap. ;	1. The respondent advised that they agree with the proposal.	It is noted that you agree the need to increase council tax to support delivery of key services.
Modernising our council	1L General balance of savings to be identified	I am not sure in what areas council can reduce staffing levels but the most important is that all areas continue to work efficiently for their customers	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Modernising our council	1L General Balance of Savings to be Identified	Many staffing efficiencies could be found but well trained, loyal staff can be hard to recruit. Think carefully about the efficiencies that are made.	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	An organisation's biggest asset is its staff. ; ; Hopefully staffing reduction will be by "natural wastage" by retiral and leavers to other jobs out with the Council	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Appreciate your position is difficult but this will need to be handled very carefully.	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Sad but understandable. If core staffing levels are reduced ,please just keep the public informed of the changes.	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Cut costs by cutting staff, there will be plenty of areas that could be combined to be more effective.	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	I have no skin in the game here but my view is you are better to let go 1 manager on 100k than 5 staff on 20k.	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council has one of the leanest management structures of any council in Scotland. The council has delivered substantial management savings to date but continues to investigate savings and efficiencies in management structures.
Modernising our council	1L General balance of savings to be identified	It is shocking but every other sector is in the same boat.	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	The use of Nursing Guild to cover shifts in the care we provide, this company charges excessive costs to cover shifts, they then have carers leave WLC to work on the Nursing Guild as our carers have Nursing Guild carers expose their hourly rates which are much greater than WLC carers rate. In previous companies I have worked there was a clause that the agencies could not employ an employee from the organisation hiring the guild / agency and if they did so they were served a penalty of £2000 per person they employed unless there was a lapse of 6 month from the carer working for the hiring company and then applying to the agency. This could help recover costs but also retain staff.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	If realised - well done	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	If the services mentioned previously are stream-lined then it follows that less staff will be required. There would be some 'natural wastage' due to retirement	1. The respondent advised that they agree with the proposal.	Where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Yes yes yes- cut the gardening staff, the ones who actually finish at 11am, hiding their vans in private housing estates till 4.30pm.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	some savings could be made by reducing subsidies to train passengers.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	General savings may be saved through public transport instead of paying subsidies to companies from outside West Lothian.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	This needs to be in conjunction with skills development and the creation of new jobs. Or we end up a location of mass unemployment. Or just a giant commuter location.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	As long as the quality and availability of the council's service are not compromised then that is okay. Key areas such as mental health service funding and grants should not be compromised.	1. The respondent advised that they agree with the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	Providing staff with a better opportunity to input and shape service delivery in line with a VS/ER offering may lead to further savings made by the people being impacted and not just at top level.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Cost savings could be made by not allowing council staff to take council vehicles home at night and used as a pick up service for other council members to get to and from work. ; As covid is no longer impacting how people work - should the council be looking at all staff returning to work from office full time and not hybrid? buildings are open 5 days per week and the cost of running these are high with the new increases in energy bills so it would make more sense to the council pocket to have everyone in the offices and take all furniture out from storage and returned to the offices as the cost for storage of the furniture would be a saving ; ; although this will not directly impact staffing costs it is a unnecessary cost, having staff back in the office productivity could be reviewed and potentially some part time roles would no longer be necessary as the work could be picked up by the teams in the offices	1. The respondent advised that they agree with the proposal.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	This should be limited and a redundancy scheme implemented for voluntary redundancies.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Could the council commit to a retraining scheme for displaced workers, perhaps working with local businesses and large corporates to identify roles and skill sets required and retraining towards those and facilitating a transition from council employment to new employment without a period of unemployment, as much as possible? Adding to unemployment seems ultimately counter-productive for the council and society in general.	1. The respondent advised that they agree with the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Staffing is at an all -time low. Maybe lose a few managers.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	making staff more flexible	1. The respondent advised that they agree with the proposal.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	Streamline staff more flexible based use of staff	1. The respondent advised that they agree with the proposal.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	I will never understand how less staff can make a better service. Yes a good over haul is needed but communication face to face is vital . The council is already struggling to deliver an efficient service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Savings at the expense of both customer service levels and staffing	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I understand the council do have to make savings and cuts to close the budget gap however I believe the council is not taking the correct approach. Focusing on reducing staff numbers as well as cutting education and social policy services is not the answer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	Perhaps those at the top of the council pyramid would consider taking a pay cut - this would reduce costs and lose some of the need for others down the ladder to lose their jobs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Not sure where savings can be made in terms of the workforce as most are working in highly stressful environments and covering work not previously undertaken by them. Staff are a precious resource and should not be discounted lightly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	as stated previously you are talking redundancy layoffs failure to replace. This will impact on those left through mental health issues loss of working time which becomes a false economy. the council provides a great service to the community but somewhere something or someone is going to break due to work demands stress mental health. we cannot keep going providing this high level of service with fewer and fewer staff. we are losing out experienced staff as they move away for better conditions by way of workloads staffing levels etc	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	Not good for anyone. Services will then be affected and probably reduced, people will lose jobs and could struggle to find new ones, especially at the moment and the unemployment rate in West Lothian will go up.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Not sure how many more staff can be cut	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Staffing is already low. Unsure where staffing could be cut any further.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	The above spells out that you wish to pay employees off or reduce employees working for WLC. Stop talking about employees as a drain. They are the greatest asset. If you cut jobs and wages to people this will be a direct impact on the local economy and local businesses. People families will stop spending locally. Direct hit in a very negative way.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	How do u aim to reduce Staff? By how many? What will redundancy offer be? Disgusting to hear talk of reducing your greatest asset.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Tough times for everyone and getting tougher by the sound of it, I think it is perhaps the time to consider my future with the organisation as my daily role is becoming increasingly difficult - I doubt that I am alone in this view - there are other jobs out there that are not as difficult as this one and it only looks like it will get harder. I used to be very positive in my approach to my job and was proud to work for this organisation but I cannot say that I feel the same way now, the job is no longer about putting our customer's needs first, it is about ticking the boxes and doing the things that we "must" do and not much else and with little thought of the impact this has on the staff and managers who are left to deliver the service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Unfortunately this will be disastrous as this would lead to staff stress, stress leads to sick leave causing the council more in the long term. I have worked in the care industry for almost 30 years now and unfortunately nothing has changed regarding cut backs and reduced staffing to save funds which leads to staff leaving. Staff leaving then leads to recruitment, training . More job responsibilities with cut back to hourly rate along may look good on paper but in reality this does not work. I believe this has been the case in the past with cut back to save monies and it has not been successful.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Staff cuts should be an absolute last resort	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	so less workers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing levels are already low to service the community and deliver a decent standard level. The county has become unsightly and poorly kept, it is not a nice place to live anymore. People lose interest in keeping the place nice.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments.
Modernising our council	1L General balance of savings to be identified	There are already huge issues (particularly within schools) over staffing. This causes huge workload issues for staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Real concern that if staffing levels are cut down too much there will not be enough staff left to adequately staff services. Concern that the staff that are left will find their work situations too stressful to manage and an increase in staff sickness will follow.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	I understand this may be necessary but I don't think these cuts should be made to the most vital services such as schools as they are already facing staff shortages and a reduced staffing budget for schools will lead to attainment levels dropping and schooling becoming unsustainable for current staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Education and Early years won't survive a cut in staffing. We are exhausted and I'm sure sickness levels reflect this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	people want to chat to people and have face to face appointments, humans cannot be replaced by online robots.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council can be contacted in person through our officers, by telephone via the contact centre and online through our website or via email. This range of options offers customers choice and we endeavour to deliver a high quality customer service experience across every channel.
Modernising our council	1L General balance of savings to be identified	Savings in staffing costs might on paper appear to be a saving but this generally doesn't help when people want to speak to a human as household bills go up e.g., phone bills trying to get a hold of a human to talk to, I take an AL day off work if I have to make a few calls to businesses as it takes approx. 45mins to speak to a human and West Lothian Council is one of the worst.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council can be contacted in person through our officers, by telephone via the contact centre and online through our website or via email. This range of options offers customers choice and we endeavour to deliver a high quality customer service experience across every channel.
Modernising our council	1L General balance of savings to be identified	I have a building where tenants were promised new kitchens 4 years ago and need new windows as they blow inwards when it is windy, water pours in through windows and the plaster is soaking wet, built in 1997, our communal laundry equipment is 11 years old and is forever breaking down that's how efficient your ten-year programme is.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	If you are responsible for a building then please raise your concerns with the relevant internal management so that this can be looked into for resolution.
Modernising our council	1L General balance of savings to be identified	The service across the board, whether it be in the maintenance, Care Sector etc is not meeting its targets as it stands so further efficiencies will be crippling to the local community. The majority of staff are already burnt out due to having to cover staffing shortages in every area, for little or no recognition. Tenants can complain all they like, I myself have done so but the repair has still not been done.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	The service levels cannot possibly maintained with reduced staffing. The impact on staff and the community will be significant	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Staff delivering key front-line services must be retained.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	This will result in poorer service to public.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	Why are the council spending over 4million on buying properties for shared living temp tenancies when the ones we have at present are difficult to let, no one wants to live in them, difficult to allocate and there are not enough TSO to support them. This is the biggest wast of money and could be spent better elsewhere. Ask your staff on their views. This won't reduce the homeless hotel budget most of the clients in hotel wouldn't be suitable for shared living. Make better homeless decisions and investigate cases properly. Stop being so risk adverse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As there is continued demand for social housing in West Lothian, the council will continue to progress opportunities to increase accommodation for those seeking social housing across West Lothian. Shared spaces are one of the housing options made available to homeless applicants and provides an applicant with accommodation whilst their longer term housing needs are being assessed and/or accommodation is being sourced.
Modernising our council	1L General balance of savings to be identified	How much money has been spent on new buckets and talking buckets which i am sure we dont need that epuld have saved thousands of pounds by not bringing green bins and talking bins into force	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The provision of new litter bins was funded from a different funding source and not revenue budgets.
Modernising our council	1L General balance of savings to be identified	You are building more homes now than ever before, this "gap" could easily be filled by either extracting more from the builders or looking at the bandings for these properties.; This is not an issue	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Maximise income with minimum detriment to domestic applicants. Developer contributions to be reviewed in line with guidance when applicable.
Modernising our council	1L General balance of savings to be identified	Do not take full services off the vulnerable, only cut things a little bit.of each. Ask companies rather than chuck food away to give it away to those in need. People are suffering with mental health and I feel its due to the way things are in life.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	You cannot deliver a service with a member of staff doing it. How many Councillors are there v's refuse collectors?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing is already at too low a level to sustain.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	This is unfortunate and disappointing - job loses make West Lothian a less attract place to live and work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Don't agree with staffing cuts, should be a last resort as your services would suffer and why would someone want to work for you if their position could be in danger in the next budget!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	With a more permanent shift to home and hybrid working the council could further reduce its office buildings and associated costs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	As West Lothian's largest employer I would be extremely worried if staff reductions were through compulsory redundancies. This would lead to increased levels of deprivation for many of West Lothian's citizens.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I think less of the ideas above at the moment. ; Spend less on technology for services it won't help;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Our customer interactions and feedback clearly show that people are increasing choosing to use our digital services. This offers customers greater choice and flexibility in the way that they access services and we are working to increase our use of technology across the council and improve the efficiency of our processes and response/resolution times for customers.
Modernising our council	1L General balance of savings to be identified	I feel that staffing in schools is important and there already seems to be job issues.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I'm sure that there are many opportunities to reduce staffing costs but not hitting the areas where staff are the most vital resource, like schools. More support and staff desperately required not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	There are other services within West Lothian council where staffing cuts would have less impact than education. Education is a vital area and all staffing from facilities services to head teachers and everything in between is critical to provide children with a quality education- one that is their right to receive. Education is already under pressure for attainment to ensure learners are destined for positive experiences in later life. Reducing staffing can only have a detrimental effect on children and their future.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Modernising our council	1L General balance of savings to be identified	It is very worrying that there will be many staff within the council with job losses and with the cost of living crisis going on. Reduced services not good either especially as tax payers are contributing towards this so want to see where there money is getting put towards.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Not good news at a time when people need their jobs more than ever.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation.
Modernising our council	1L General balance of savings to be identified	I am disgust by the plans.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General balance of savings to be identified	So more people will end up relying on over stretched Food banks!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.

Modernising our council	1L General balance of savings to be identified	Not a good idea, staff are needed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	not a good idea staff are needed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	There are staffing areas within the education that can not be replaced by machines or technologies. Human connection is vital for children's ability to learn and become resilient.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Staffing costs this reads like staff are a drain. ; Rethink attitude here they are the biggest asset its a fact. ; Too many good workers leave as they are tired of threats every day of cuts and they are scraping by in silence.; Leaner meaner services very basic this is not an award winning local authority. Sad this is as it used to be in years gone by West Lothian was benched marked against.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Sometimes staff are the best resource you can pay for, not sure this is the best way to reduce costs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Less staff= double the work volume, job losses and stress	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	A 15%+ saving on staffing costs. I think this will generate an impact on the services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	Unsure where staffing could be cut as services are already stretched and staff in place as already working to a very high level and pressure. Would reducing staffing not create more work for the staff left in posts?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Staff levels have already been reduced and remaining staff already cover additional work. If staff are to be reduced further, duties of the remaining staff must be reviewed and wages increased to reflect additional duties - to retain experienced staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	From what I can see dealing with other service areas, staffing cuts have already made for a lot of outsourcing or stress for those left. I suspect unions will have issues and strike action will be inevitable if this is carried out.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Cuts to asset management functions are storing up problems for the future. We can expect road condition to drop and larger sums will be required in future to maintain the roads.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council's constrained capital resources will be focussed on maintenance of existing assets to the highest level possible within available funding. Asset management principles are used to prioritise limited resources.
Modernising our council	1L General balance of savings to be identified	Difficult to reduce staff where staff numbers are already at a stage whereby no new staff are being being replaced. This will have a detrimental impact upon morale, productivity and likely sick levels.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Many council staff members are struggling with the lack of staff. Staff are undertaking more work than they are employed to do and are not receiving any additional income for this. A reduction in staff will lead to a further increased workload causing staff to be more unsatisfied and possibly want a rise in pay. If the staff receive a pay rise this may not be a problem, but will the amount saved still be worth cutting staff for?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Maintaining current staffing levels in schools and social services needs to be a priority. Any reduction in teaching or social services staff will have a huge negative impact on the children in West Lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	You can only cut staff so much before it has the opposite affect - the retained staff should not have extra pressures put on them due to shortage of staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	In my own department we are already short staffed and finding it hard to meet demand at times. I feel that this is the general consensus across all departments in the council. Any further reductions in staff levels are likely to lead to very low staff morale, absence due to ill health and stress and ultimately losing good staff. This coupled with the cost of living crisis would be a very detrimental move by the Council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Education should be the priority and should not be cut.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	In a time of a cost of living crisis I think this is incredibly untasteful to take away peoples jobs and main source of income when finances will already be stretched. I don't see how this aligns with the council values at all. No wonder staff do not feel valued. I certainly don't.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	I think WLC is performing well at the moment with reduced staff numbers! It will severely struggle to maintain this level of service with reduced staff numbers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Reduction in staff will mean reduction in quality of service and the ability to provide a functional unit. i would hope that the majority of this would be staff who are retiring leaving etc and not compulsory redundancies	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Our department is already understaffed and under paid for the services we provide.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. Pay levels are agreed nationally by trade unions.
Modernising our council	1L General balance of savings to be identified	If these cut backs in staffing are from senior positions, all well and good, but the on the ground staff are stretched so thinly at the moment that any further cuts would be unmanageable and lead to an increase in staff absence and stress due to massively increased workload.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Staffing must not be reduced to the extent that services are no longer offered or are of poor quality.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	There is little enough staff as it is, this leads to the service delivery not being as it should be. Staff cuts will only make this worse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	More staffing cuts, everything automated, dnr even get a call back when you request one. Council services reduced and quality of work not as expected. What do you expected when staff have this hanging over their heads year in year out. No job stability and living in fear of the next round of cuts.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council's five year approach provides certainty to staff regarding their service areas. This prevents uncertainty about their jobs which would not be the case if the council introduced an annual approach to budget savings.
Modernising our council	1L General balance of savings to be identified	Yes that was made clear. That will of couse lead to 1 person doing rhe job of 2... could lead to people leaving and services breaking down. I dont supportnit but underatnd it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	It's quite frightening to see the job loss and resource loss to our communities in black and white	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation.
Modernising our council	1L General Balance of Savings to be Identified	This just saddens me greatly. Staff need their jobs more than ever and the services we deliver being lost will definitely impact the reputation of WLC.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General Balance of Savings to be Identified	Good luck with these staffing cuts, you may aswell make these offices part time	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General Balance of Savings to be Identified	It's hard enough already to get hold of an actual person?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
Modernising our council	1L General balance of savings to be identified	SSO's and CFA's are a huge part of running Community Centre's and Partnership Centre in this area they are already struggling with staffing levels if this is cut anymore then this would not be a good customer service to the Community or to Management Committees.; At present the majority of the buildings are run by Management Committees which saves the Council on Rates on the buuilding's each year	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The savings proposals have developed with a view to maximising efficiency and maintaining performance and customer service. Any staffing efficiencies will be delivered through non replacement of vacant posts where possible and otherwise through the implementation of the Council's organisational change policy. The Council operates a no redundancy practice.
Modernising our council	1L General balance of savings to be identified	The previous ideas on food caddies cost a massive amount and was scrapped to then add the green bins cost another massive amount, so ideas like this are not cost effective	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1L General balance of savings to be identified	Yet more staff being disposed of, sad times indeed. Take a long hard look at what if any service you will be able to continue to provide. I'm struggling to see what's continuing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1L General balance of savings to be identified	Not ideal cutting staff at a time where people on are on the breadline! More people will need to rely on benefits and not be able to afford mortgages etc at a time where there are very few council houses available.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	In a time of financial and economic challenge, jobs must be protected where possible. In the instances where this is not possible, the 'cost' to WL will still be apparent but rather than through salaries, through the significant demand on services and the subsidies/benefits required thus leading to an unpredictable and unforecast cost and pressure on services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I am concerned that service delivery in schools will be impaired due to staffing reductions. Pupils with additional support needs in main stream settings are increasing and the management of this and supporting these pupils will be difficult to achieve with more reductions in staffing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Cutting jobs is not a cost effective method and will leave your services in dire state	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staff are already stretched, removal of staff would only increase the workload to an unmanageable level and have a severe knock on effect within schools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	There isn't enough staff already	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	There are many services already struggling to recruit and when agency / outside staff are used this causes more problems. Reducing staff in areas that are needed but not essential services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Making staff unemployed does not really help society overall, better to keep them employed but make sure they are doing useful jobs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Do not cut any more funding from Youth and Childrens work. The service has already removed provision to children in P1 & P2. If you don't have contact from an early age it's harder to engage with them when older.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	It would be very disappointing to see a further reduction in frontline public services. You only have to look around to see the neglect which is creeping in. Dirty streets, overgrown foliage on narrow footpaths, lack of grass cutting on the approach to road junctions and roundabouts. The latter is a road safety issue and it's been disappointing for me to see the issue getting worse. Accidents will happen with danger to life due to poor sight lines directly involving overgrown verges etc at these junctions. We all know and accept savings need to be made but it should not be at the cost of road safety or personal safety due to fear of walking along areas which are overgrown.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments.
Modernising our council	1L General balance of savings to be identified	I take it this will mean even more redundancies with the remaining staff having to pick up the extra work. There is no point in reducing staff levels to such a point that people will struggle to access services. Council staff have been cut to the bone as it is.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	This sounds like cutting staffing? I think understaffing the council is a terrible idea and disagree with this action	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Department are already strained with staff shortages across all levels causing stress to staff then a cycle of sickness because of this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	this isn't good, this will mean more people looking for jobs and generally less working roles available in the community as a whole	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	As noted before this is not acceptable. The remaining staff will be over worked, stressed and under paid for what is expected from them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	Cutting staff will reduce services and in schools staffing is already not enough so will lead to teachers leaving the profession.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Not a good idea, people need jobs and we need services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	As I have mentioned previously reducing staffing in schools would break a system that is already suffering greatly. I am fully aware of a number of teachers who are considering leaving the profession due to the unrealistic expectations and a feeling that with the situation will not improve. If you add these proposals in to the mix you are risking the loss of highly qualified staff and replacing with unqualified staff which is a complete failure to our children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General Balance of Savings to be Identified	Human beings are the most expensive commodity. It's why eating at a restaurant is so expensive. But we are not a restaurant. We are a public service. How has it got to this? Where the only way for the council to make ends meet is to cut the pay and jobs of the staff who live and/or work and contribute. What has the role of a council become if it has to actively make decisions that will make things worse for people instead of better? I am sorry for the utter negativity in my responses and appreciate the challenges you face, but it is hard not to respond in such a way. What will we face in ten years after all these cuts?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	There are no proposals to reduce pay which is determined at a national level. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Staff are also active participants in communities and like the rest of us spend; staff are also tax payers and advocates for West Lothian Council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Any change to service delivery would be detrimental	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Not a good idea	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Not sure how this will work as in some areas of the council it already seems understaffed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Do not support as WLC is already very lean organisation	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	waste management collection should be overhauled (increased collection hours, further recycling provided [e.g. glass, textiles], more incentives to limit landfill waste	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Getting rid of teachers isn't something anyone wants. Cutting from this budget will cause more harm than good, leaving children with less quality learning and teaching time and many teachers out of work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General Balance of Savings to be Identified	Some services including children's services are already dealing with more challenges than ever before. If the council is prepared for staff to be hurt and children to have a service that is not Promise promoting then go ahead and cut staff and service provision in that area. But expect a backlash from it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	There appears to be a number of ground workman doing a one man job. 2 peapole to empty 1 street bin? this needs to be addressed possibly shorter day with not as much breaks?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1L General balance of savings to be identified	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Very sad to hear that WLC will be adding to the unemployment in the area rather than helping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Don't agree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	This is worrying to say the least	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Very difficult to comment without more detail. Very concerning how the Council can continue to deliver services efficiently and effectively if losing staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Against	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Cutting staff will make for a big cut in services, not good for people of West Lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	As posts are not being filled, staff are required to pick up extra work, and this is not being recognised by managers. this is having a detrimental impact on waiting lists and workers mental health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	This is a huge deficit to be balanced through staffing costs. It is concerning which services will be impacted and how such huge reductions can be achievable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing levels are already low, further cuts will put further pressure on the remaining work force, this will lead to an increase in staff absence through stress	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	service delivery in west Lothian is nearly non existent. i would imagine that if it is reduced anymore people will not be happy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	some departments within WLC have been pushed to the max over the past 2 years under extreme pressure and most without any sick leave. Cutting staff back further would create more stress and further sickness	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	Jobs being unavailable is not good	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Front line workers are thin on the ground and we are top heavy in management	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	We have been asked to comment on council cuts year on year for as long as I can remember. Staff have to fight every year for pay increases but had also been told they are essential workers throughout the pandemic. Essential workers except when it comes to pay. More cuts will mean more pressure on those who are left as the workload increases but the staff numbers are slashed. Many good staff will be lost due to this continual pressure.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Personally, i don't think that the council can cut any services as the services provided are essential. However, a cut to higher paid manager positions could make a decent saving,	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Reducing staffing will impact on many of West Lothian families adding more to our vulnerable list with a reduced, realigned service delivery for them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	As a resident and employee in West Lothian for the past 15 years I have seen a decline in services due to cuts. Buildings have closed and we face reduced services all over. There have never been redundancies and now it seems this is the next thing to go.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	The services are already short of staff which means already much longer waiting times, if the council make up the short fall by getting rid of staff this will make things worse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Strongly disagree with this idea. Cost of living increases are reaching the highest levels seen for decades with a recession looming. This would mean uncertainty and income loss for council staff at a time when stability is needed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Once again staffing levels are hit and affects the work population of west lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Public facing education and cleansing should be safe guarded.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	The services are already short of staff which means already much longer waiting times, if the council make up the short fall by getting rid of staff this will make things worse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	i for one will not be happy to pay my council tax bill for a worse level of service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposed increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to agreed priorities. The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.
Modernising our council	1L General Balance of Savings to be Identified	dont like the sound of this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General Balance of Savings to be Identified	While understanding that the council is expected to make savings, in my view there is no scope for staffing reductions without a subsequent detrimental impact on services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	This will reduce service of maintaining council houses. I do not think this is achievable on old properties.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to maintain residential and non-residential properties within its portfolio. As a social landlord tenant rents, combined with grant funding, provide millions of pounds of investment each year in maintenance and capital programme upgrades.
Modernising our council	1L General balance of savings to be identified	Please don't reduce bin collections any further and please continue to salt the roads to make them as safe as possible	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Charge large builders more money and force them to provide facilities !	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to providing appropriate development in line with national planning policy and the development plan.
Modernising our council	1L General balance of savings to be identified	It is concerning that services that provide support for the most vulnerable children, young people and families will be cut, when there are no other services providing these services. ; We need to provide support early on, to build capacity and resilience in children, young people and their families so that they do not require support from tier 3 and tier 4 agencies.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Social care for disabled and older people reduced? Its at bare minimum already but no square box to put what I thought so had to put this in this box.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Keep the staff who are needed to do important roles and agree to. Laying off staff not required	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Don't cut front line staff, any staffing cuts should come from back office or reduction in managers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Staff reductions will mean service reduction as staff and services are already over stretched.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	This should be the last area to be targeted for savings. Council resources in this area are already clearly stretched	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Quality of service will diminish.; ; The service may become incapable of meeting need. ; ; If this happens, more new staff will then need to be recruited and trained etc and will lead to more, not less, finding challenges for budgets.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Less staff will mean a poorer service provision, and more people out of work. Short term narrow minded approach.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Do not reduce staffing levels. Look at council tax bands. The banding system is out of date. Many households now living in valuable properties but still on low council tax bands.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I completely disagree with this. West Lothian Council needs to be investing in it's current staff to deliver the best possible services and outcomes to the community.; The impact of this will be clearly visible and not in a positive way. Please reconsider this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I really don't want any cuts in council staffing and services.; I know this is not reality though. Pecos costs so much waste of money, local buying is much more cost effective.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	It is not a surprise that staffing costs are the biggest expense. The council should value its staff and keep them engaged and not indulge in the false economy of more technology that is bound to fail. The only staff cuts should be at the very top.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	We absolutely do not support changes that reduce the amount of teachers or teaching assistants in any West Lothian school.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	Understand that cuts have to be made but feel that our children's future are at risk if the cuts involve our schools. Children have suffered enough with all the closures due to the pandemic - enough is enough our children deserve better.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	Teaching and services for children within school should not be cut. Find savings within administrative staffing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1L General Balance of Savings to be Identified	you cant really reduce the workforce much more and expect the same levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	Reducing staffing levels will reduce the costings initially, however people are then working over and above their remit leading to higher levels of stress and sickness.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General Balance of Savings to be Identified	Shouldn't cut successful areas	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General Balance of Savings to be Identified	We need to maintain staffing as much as possible to deliver high quality service to our communities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	I understand the necessity to reduce staff numbers due to the amount of budget consumed by their cost, however, many service areas are already under a lot of pressure to deliver on projects and commitments with staff not being replaced when leaving resulting in other staff having to pick up extra work and resulting in extra stress. I have witnessed a number of colleagues have to take time off work due to stress and reducing staff levels in certain services would only increase this issue. This action will be unavoidable but will need to be carefully planned to ensure that staff are not put under even more pressure.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	Most Officers we have worked with are stretched already, are trying their very best to provide a service in challenging times, worried about the impact of further job losses and the impact these will bring!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	Given the staff are the councils biggest asset, and recruiting into essential roles has been a challenge, especially frontline low paid roles. I struggle to see where these savings will come from. Any reductions to staffing across the council will have a seriously significant impact on service delivery however I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. Recruitment is an ongoing challenge for the council at all levels - front line, management and professional.
Modernising our council	1L General Balance of Savings to be Identified	Staffing levels as you know are already very low, the morale of the employees is also low. for my role, looking through all the other cost savings, they mostly state "greater use of technology" what does this mean, I can already ready see, really good council systems being offloaded to the cloud, I don't think people understand how good some council systems are and how expensive compared to local systems they really are. I think the pressures of cost savings, and the ethos of technology will solve all our problems is flawed. We are not making best use of council resources.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	Are you suggesting reducing staff numbers? I don't think it would be fair to make staff redundant in the current cost of living crisis. I would hope you look at all options to reduce staff, like recruitment freeze, reducing contractors and the impact of natural staff lost through retirement.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Cutting jobs should not be considered. If unemployment raises this will place pressure on health and social care, as well as benefits	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	We need the staff we have! They provide a valuable and needed service! Don't change it!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	there is very little service delivery and no housing officers, resources are barely skeleton crew, these services an access to housing officers are needed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council delivers a tremendous amount of services for customers each year. For example the repairs teams complete over 100,000 jobs per year and the housing staff successfully manage over 14,000 properties covering a variety of issues. While the council would prefer to maximise staffing resource for customers if there is no budget for this then reductions must be made
Modernising our council	1L General balance of savings to be identified	Libraries must not be closed or offer reduced times	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council has a legislative requirement to provide library facilities and will review the most effective means of delivering this service, taking account of demand and opportunities to access activities which currently take place in libraries from other community facilities.
Modernising our council	1L General balance of savings to be identified	Libraries must not be closed or offer reduced times ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council has a legislative requirement to provide library facilities and will review the most effective means of delivering this service, taking account of demand and opportunities to access activities which currently take place in libraries from other community facilities.
Modernising our council	1L General balance of savings to be identified	No more cuts in the future	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Generally happy with council services - no more cuts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	You are not saving by charging silly money for domestic uplifts as people fly tip then you have to spend more money collecting it , same as having to book a space for tip and you have wasted money on more silly bins , you had a food wast bin. Now you don't want to use it so that's money wasted , now it's separate paper and plastic and a tiny grey bin	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Modernising our council	1L General balance of savings to be identified	However, our house over looks Holmes Park, where their are numerous council trees, which have been allowed to grow to horrendous heights so the leaves from them all gather in my garden. Along, with my neighbour who again has allowed her trees to grow so tall. If it wasn't for all these trees I would not need a brown bin. It feels unfair to penalise me for emptying g a brown bin, which I would not need if it wasn't for all the over hanging trees. Surely, their should be provisions made for people like me!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Inprint - the council's printer - are expensive. Probably around 4 times more expensive than an external online supplier. They also aren't able to provide a lot of print given the limitations they have with hardware, so they need to outsource to an external printer. Inprint mainly act as the middle people. This results in more expense and long wait times for print. Would it not be better if Op Service moved the staff into priority areas - waste, roads - fly tipping etc and ceased a print service? This would also result in cost savings for internal services that are forced to go to Inprint.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Home recycling services such as weekly bin collections must not be reduced any further	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	No cuts should be made to services that impact peoples safety. E.g. street lighting, delaying repairs & maintenance.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	This will have a major impact on all of the councils services - you cannot just expect the staff that remain to just manage the extra workload.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Council services are already under pressure and inadequate. People should not lose their jobs because the government cannot provide the appropriate funding. The council needs to do something to try and get more funding...	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Its a huge amount of money your trying to save, job losses etc would be awful for people in this already challenging period for famiies.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	no more cuts to services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	This is a concern as staffing levels are at a minimum already is some establishments.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	need for staff is so high that I can't understand why you would cut to staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	need staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Would the reduction in management (1B) and digitisation (1C) have some impact on this figure as well?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Do I detect redundancies?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Focus on reducing/eliminating top-heavy management structures and greedy, bureaucratic tender processes that leave council departments forced to use contractors and suppliers which are often seriously overpriced.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	ie This means Staff layoff?; If so why not say so.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	What does this mean, other than redundancy after redundancy?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Where will these staff reductions be made?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Slashing jobs in the worst cost of loving crisis we have seen for years!!! Well done WLC 🙏	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Staff are already under strain and further cuts will damage service delivery.Staff need a cost-of-living wage rise .; People expectations for Council services are rising and yet this is suggestion services will be cut.; Investing in your staff and retaining good quality of staff is the council best asset.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	We'll if they want to work from home they may as well do it permanently	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	Voluntary redundancies or perhaps incentives for some people to work part-time to reduce costs might work -	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	This is a sobering and somewhat depressing thought. However, it strikes me that there are 9 wards in West Lothian Council with 3 or 4 Council Members for each ward. When I was a youngster in West Lothian - 40-50 years ago, we had 1 councillor - not 4 councillors. Given that our 34 council members cost approx. £752k per annum, maybe if we cut the number of council members, we could save close on 1/2 million pounds.	3. The respondent advised that they had no comment to make or posed a question of the measure.	This proposal is out with the control of West Lothian Council.
Modernising our council	1L General balance of savings to be identified	Start with the chief executives salary and work down from there	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Sacking people will not make things better in the long term.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Limit the number of promoted posts (permanent and temporary) and reduce the top tier pay scales.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Could this result in some staff being made redundant?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Keep working from home	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	Recruitment freeze?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Can the sick pay policy be reviewed to reduce cost ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Instead of paying off and reducing staff why don't the ones at the top take less of a wage instead of the 6 figure sun wages their getting it's an absolute joke	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	EMPLOYEES WITH OVER 45 YEARS SERVICE GIVEN ENHANCED PAYMENT TO RETIRE	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Certain policies could be revised e.g. supporting attendance in the workplace. This could help stop abuse of these policies Staff members who abuse these policies must cost WLC a substantial amount of money per year.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Reduce the pay for the high earners and keep lower pays staff they are the ones who carry out the public services	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Is the Chief Executive willing to take a pay cut, as a gesture of goodwill?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.
Modernising our council	1L General balance of savings to be identified	This is a joke, right? We are going to save an estimated £6.2 million without being able to even vacuously identify specifics.	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1L General balance of savings to be identified	In other words there will be massive staff payoffs, leaving an increasing unemployment figure in West Lothian	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Good luck with that!	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Does this mean multiple job cuts are to be made? In what sectors?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities. This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General balance of savings to be identified	A very large saving reflects the number of jobs that will go. This will have a massive impact on individuals and their communities.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Where are you proposing to make these savings from? Which staffing services would be cut?	3. The respondent advised that they had no comment to make or posed a question of the measure.	This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1L General balance of savings to be identified	Charges and cost of living are already increasing	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. At a time of significant financial uncertainty and the cost of living crisis, good quality advice services are needed to support people, particularly those on low incomes. The Anti Poverty service will continue to provide support and advice to vulnerable people in the community.
Modernising our council	1L General balance of savings to be identified	WLC have cut so many services it is difficult to see where further reductions would come from.	3. The respondent advised that they had no comment to make or posed a question of the measure.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	If the majority of savings is staffing costs then the service delivery cannot be to the same level. However, we are at statutory level of service provision in many areas. Are we suggesting that we now reduce the statutory provisions?	3. The respondent advised that they had no comment to make or posed a question of the measure.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities. The council will have to continue delivering statutory services, however they could be undertaken in a more efficient way.
Modernising our council	1L General balance of savings to be identified	This is such a huge and complicated matter to make comments on.	3. The respondent advised that they had no comment to make or posed a question of the measure.	This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1L General balance of savings to be identified	So you are going to reduce council workers to save you money	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Does this mean increased unemployment numbers?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	This is creative finance.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments.
Modernising our council	1L General balance of savings to be identified	What would a move to a four day week look like across all aspects of council services - a compressed week? Would this enable additional staffing savings as well as associated energy costs etc? Also, it would very likely lead to increased health and wellbeing amongst staff which in turn would lead to greater productivity.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General Balance of Savings to be Identified	Insufficient information to comment. However, those areas of highest spend (and potentially year on year growth in spend) typically are those areas most likely to benefit from a comprehensive view of spend.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	I feel reducing staff numbers and expertise in planning is counter-productive. Planning facilitates development which contributes to the wider economy. Providing warm, secure, affordable and adaptable homes reduces the demand on front-line services such as homelessness, mental health support, help to increase employability etc.. A good home is a basic human need that enables our children, businesses and people in general to operate and flourish. Strong, defensible planning policies can extract land value uplift for the greater public good. Weak policies may lead to challenges and costs awarded against the council.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Agree with reducing bureaucracy and increasing efficiency wherever possible. Suggest reduced use of contract workers.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the governance arrangements that are in place in order to ensure that there is good management, effective stewardship of public money, good levels of public engagement and that the desired outcomes for stakeholders are achieved.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Vacant homes turnover needs to be improved upon. I have seen houses sitting empty for months on end when people could be living there instead of holed up in b and b's or hotels, and paying rent and council tax. As for temporary housing accommodation having everything stripped out at the end of the tenancy, this is wasteful and not cost effective. A thorough inspection for any damages or infestations with a deep clean if needed would be better. Not all temporary housed people are disrespectful or dirty. If there is a bed bug infestation then obviously this needs dealt with asap but this will be in a minority of cases.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council uses its current housing stock fully. When a property is returned our void teams will inspect, repair and clean a property as necessary. The council aims to make properties available to re-let as quickly as possible.
Modernising our council	1L General balance of savings to be identified	Are staff delivering on their objectives at work? How is their work performance managed?. Some recent interactions with council employees lead me to wonder if they are truly answerable for some of the poor performance they exhibit.; ; Linlithgow Library - "we're on a no contact day today" What does that mean? Does it mean that staff can't be polite and helpful?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.
Modernising our council	1L General balance of savings to be identified	Again job loss!	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	You need to employ more caring people. Clear weeds from pavements and roads. Empty bins, pick up litter. Never see a bin man walking the streets picking up the rubbish. Never see now anyone going round in the machine that sweeps up. Place looks like a tip.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments.
Modernising our council	1L General balance of savings to be identified	I'm not sure I can comment on this, I don't know enough.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	So £6.2m equates to 100 - 150 people? Add in all the other staff reductions that you are suggesting on the other proposals equates to what percentage of your current staff?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	more cut backs then? How is the general public supposed to comment on these questions??	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	I feel the Council have a hard task ahead and yes it is likely that the balance will be met by changes to service delivery and staffing levels. However there are always consequences to actions and I truly hope its not at the expense of Council tenants and staff.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Consider review of contract terms & conditions - e.g. review of overtime/shift patterns for relevant services.; Redesign service delivery to ensure work is undertaken in core hours without the need to incur overtime costs - particularly in refuse collection.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Changes to service delivery and staffing levels across the council's workforce will be maximised by having extremely attractive redundancy terms for people who may be contemplating whether to seek pastures new resultant from WLC proposed changes.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I am sure there are creative ways to reduce staff numbers and maintain productivity	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	So does this mean redundancies? Enforced retirement? With the suggested cuts to school funds, good luck recruiting teachers after giving them more workload by getting rid of more of my colleagues!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General Balance of Savings to be Identified	Unclear as to why the council would have so many staff in excess of their actual need	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council doesn't have excess staff. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	Interested to hear how staff savings are being made	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General Balance of Savings to be Identified	Surely making people unemployed will only increase the demands on the council?	3. The respondent advised that they had no comment to make or posed a question of the measure.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	You keep paying people off - this reduces the service you can provide with less staff available to do the work. And again, if you keep paying people off - what happens to them? Don't they just go onto the unemployment bill?	3. The respondent advised that they had no comment to make or posed a question of the measure.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	This sounds like extensive job loses and would be hugely concerning! How will this impact on long term sustainability of services; quality of services offered. General impact financially on the economy for West Lothian? Long term Mental Health, Care and Well being for those working for the council and those who impacted by the cut in services.	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	So less staff and more work for the poor souls that are left. The poorer our services become the more complaints we will receive and the more time will be wasted trying to placate people	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	That's good to know but the question still remains - Can you still deliver all that you're delivering today without compromising the quality and without passing the overhead to the community?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Modernising our council	1L General balance of savings to be identified	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Please see comments above.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Would like to see what these plans are in principle	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Is this redundancies or staff retiring?	3. Modernising our council	1L General balance of savings to be identified	Unable to comment on this as you have not provided any information or detail. Too vague.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Not sufficient detail to warrant an educated informed response.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Again, there isn't enough detail about the impact of this change to comment on.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Unable to comment again due to lack of available information.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	As a resident I do not understand what this will mean to the services I receive due to the vague and broad terms used in this consultation document.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Difficult to comment because of lack of detail	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	n/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	This is a general statement and nothing to comment on.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Too vague to really comment on. Without any detail this would be a very poor way of achieving actual funding reduction	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Again what will happen to the many families whom this will impact?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I mean do you actually care what anyone thinks because the wording is not clear or easy to understand for this with no background in this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I don't see books, no way I can comment on that.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	This is impossible to comment on in general like this. It appears you are saying that these saving can only be done with redundancies. You are trying to get sign off for this without detail of what is being proposed and which staff will be affected. Voluntary redundancy means you lose your best and most experienced people. There is a fear you will cut staff from places that are needed the most that deal in the vulnerable category. So any reduction in staff should be further consulted in detail not just with a question like this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Given the ambiguous nature of this proposal it is likely to be quite unsettling for some staff. The council perhaps needs to consider expressions of interest from those staff who are thinking about retirement or voluntary redundancy, and come up with ways of managing this. If it can identify staff who wish to leave of their own volition, it can start to plan services with the staff who remain.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	With the issues experienced within the council recently with regards to strikes and planned actions a reduction in staffing is not going to improve efficiency. Instead it is going to annoy residents even more with the fact services will be even more inefficient than they are at present.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Gobbildaygook! If what you are saying is that you will cut staff overhead and allow numbers to reduce then great. Too many high senior management salaries and that needs trimmed. More account of overall remuneration packages should be considered and a rein in of very high base salaries is required across local government	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	More flexible working could minimise reductions	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Need to look at long term sickness within the Council. To keep paying staff wages after a certain amount of time of sickness is not sustainable. Could make cost savings on supply posts also.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Minimise job losses	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	At what point does the very generous and expensive civil service pension arrangements come into focus - close to new members and create a DC scheme like the rest of industry has to deal with and the benefits / savings vrs a DB scheme will more than take account of the deficit	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I would suggest that Scotland as whole stops having to give huge pay-offs to high ranking council officials .	3. The respondent advised that they had no comment to make or posed a question of the measure.	This proposal is out with the control of West Lothian Council.
Modernising our council	1L General balance of savings to be identified	It is obvious that some council staff are earning their salaries and others are being compensated for their time.; This cannot go on in any organisation if it claims to be delivering best service at best cost and claiming to be "efficient ".	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.
Modernising our council	1L General balance of savings to be identified	The cost of living will impact everyone should staff numbers be cut, services are stretched as it is.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Many staff do not feel valued and do not feel that they are invested in, through training opportunities or time for self-directed learning	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	All of your proposals already suggest either reduced staffing or service provision. Or both. I do not see any reference to any scrutiny of expenses such as functions/hospitality/expenses etc? Are there no savings to be made there?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the governance arrangements that are in place in order to ensure that there is good management, effective stewardship of public money, good levels of public engagement and that the desired outcomes for stakeholders are achieved.
Modernising our council	1L General balance of savings to be identified	there is a lot of older staff looking for a package I their workplace this would free up staffing either to reduce staffin hour or not to replace st all some of the older jobs are not needed now in some areas	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Council staff are inefficient	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.
Modernising our council	1L General balance of savings to be identified	Be careful what services you cut. People make WLC	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Would like more detail on how this is to be achieved. With the implementation of Hybrid working, there is possibly a case for reducing the Council's estate in terms of the reliance on buildings. Staff can attend various buildings when required.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	More support should be provided for home working/flexi-working and part time posts which encourages employees to remain with council and saves money in recruitment costs.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	BYOP bring your own phone to work rather than providing people with mobiles where possible. ; - Paying staff appropriate wages commensurate with experience will help retain valuable people and knowledge, which will better support other workers/staff and retention is in the longer term going to deliver a cost saving v constant recruitment and turnover.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	There is a danger through re-structures that we lose valued members of staff who may not want to go through the process and we are left with staff who do not perform at the best level or have a sickness history. There are already areas of pressure through the streamlining that has been carried out and staff have left because of this. Recruitment to replace staff is proving difficult due to the private sector market having higher salaries and being able to offer better terms than Local Authorities.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	From a personal perspective and thinking about my own colleagues / teams my initial reaction is of some concern. This would suggest that jobs would be lost. I appreciate that this is a 1st reaction without being aware of detail etc. However, when those details / aren't available then people can't help fear that proposed changes will be bad for them.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Where will this short fall be, which staff teams. Worry that it will be the staff that people need who will get rid of first, rather than those higher up in the council who earn more money.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	More partnership working. Cut overtime.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I hope that larger wage bills are considered before the front line staffing cuts are considered. How many front line staff can you employ for a high paid managers salary? ratio probably 3:1 depending on the job. Its not middle management that needs restructured it should start at the top	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Perhaps mechanisms for scrutiny of employee activity should be applied equally across all sectors, departments and salary levels. This may not be the case, but in my view certain sectors (eg social work, education) have far less 'downtime' during paid working hours than other sectors. And there are many council employees, particularly in education, who are actually working far in excess of their contractual agreements on a regular basis as it is. Cuts in these areas will directly impact on employee health.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.
Modernising our council	1L General balance of savings to be identified	Unsure how to cut staff - already at a minimum in some centres	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I would hope the majority of these could be made (in relation to staffing numbers) from natural ends like retirements, ends of fixed term contracts etc.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I think that the level of sickness absences needs to be investigated. People who receive a shift allowance for working out of hours, weekends, night shifts etc should not receive that shift allowance when off sick. Especially if off long-term sick. I know a few people who calculate when they are able to go off sick again without triggering sickness absence levels. It is a sad statistic that there are employees who know how to play the system and are able to get away with it.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	WLC is the biggest employer in WL. Axing jobs will place a greater burden in terms of financial support towards our colleagues and their search for a new role.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	If cuts are to be made, where? Understand that cuts are needed, but you need to say where from as i would agree with some but not others especially if its from services i use and need.	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General balance of savings to be identified	I do not see any reference to Restructuring of premises use to save money?	3. The respondent advised that they had no comment to make or posed a question of the measure.	This is considered in question 21. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Modernising our council	1L General Balance of Savings to be Identified	Seems a high value for a general balance. Would be go to know the service areas this would affect as feel NETS has taken the lion's share of efficiencies in the past and the WL environ is suffering	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General Balance of Savings to be Identified	Again a broad general comment - what staffing is to be reduced? Areas such as rubbish collection are already stretched - the gap between bin collections (of all different sorts) should not be made any bigger for health reasons.	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	So what you are saying is that the majority of the savings will be from making staff redundant. How are going to provide any decent services then? It needs a more nuanced approach to identify which staff are most important in maintaining priority services and keep them at all costs. If you cut across the board you will loose your best people.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I fear for more job loses	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	As WLC now appears to suggest that savings in staffing costs may be made, perhaps starting with the chief executive, and the next 30 highest paid WL employees could be given notice of the termination of their employment. The mis-management that they have allowed to happen, if they now say that "savings" are achievable, must clearly show that they were never actually fit to be placed in such positions of responsibility. Such salary reduction might get close to an estimated saving of £6.2 million.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	This is terrible news, we are in for a rough time	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Noted. Which services are likely to be reduced.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Re; staffing costs. Following the Signal Status procedure, low level and senior managers were given huge increases in their salaries. Now the total cost of this is mega. This section should be called Revised Management Wages Structure Savings. The above SS process was a vehicle used to give management even more money. This whole process should be looked at again.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Surely looking at the pay & benefits package, sickness pay etc should be undertaken.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Take care! Your long term experienced staff could be your most important resource, as long as they are actually working their full hours effectively and usefully. Other staff will know who they are, or not!!	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Again, comments on staffing numbers will be mirrored here. If there is to be a further staff reduction, following on from significant reductions in previous years, this may have a detrimental effect on the quality of services offered by the organisation. Poor or low performance may result in increased costs through having to deal with customer queries / enquiries, or potential legislative challenges.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Again, this is very vague but comes with a £6.2 million saving!!!! Don't want to see any council employees losing their jobs.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Start at the top and look at some of these roles and salaries.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	See my earlier comment. Staff are vital to the success of delivery of services. But it needs the right staff. There will be staff who are 'surplus to requirements' in some areas, and there will be areas where there are intense pressures on staff at certain times. Having a more flexible staff pool would help.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Very concerned that this staffing saving may result in a high number of redundancies.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	If this means redundancies and loss of jobs this isn't good. If people leave with decent retirement packages that is a different story!	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	This would depend on which staff were reduced and if the same service was delivered.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staff requesting VERA should be granted it to allow for natural wastage. There should be no compulsory redundancies	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	School cleaning staff can be cut (and potentially redeployed or retrained elsewhere).; ;	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Would this mean redundancy or not replacing staff members who leave or retire?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Trim staff in areas that are over subscribed.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	consolidate your services into one facility (Whitehill?) and reduce staffing.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing levels have already been cut. Any further decreases in staffing results in additional pressures on staff who remain and will directly impact on all areas of the council work. If this is where savings must be made these pressures need to be recognised.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Lots of jobs at risk. Reducing staff means there will be a greater workload and More pressure	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	If reduction in staff means remaining staff doing more work through suppressed posts then again this will severely reduce morale.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	Job losses and greater unemployment all round.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	staff in the council are really busy and i dont see how they can be cut.; is it really necessary to have so many big chiefs? wages they get is so much more than what they should get; the people further down who are doing the work have to do more; more and more people need the services in the community to support the community	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I hope it will only be voluntary redundancies	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Why not offer packages to those near retirement age.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	That's a large amount of staff.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	There should be minimal wage rises if any for those on top.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.
Modernising our council	1L General balance of savings to be identified	I can't speak for other service areas but in education, staffing is key, specifically staffing in schools, with the large majority of staff in my school working longer than their contracted hours, unpaid, in order to keep the service running effectively.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Hard to imagine where staff cuts could be made.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	More detail needs to be provided. This statement for consultation is too vague. Which staff, what departments?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	Many council staff still working from home - how effective is this in delivering services?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	To cut staffing levels in schools will be dangerous and detrimental. School staff are already struggling to deal with the demands and the violence and aggression being displayed by children. This will continue to worsen.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	To my knowledge most areas of the council are already tight with staffing. Further staffing cuts will mean increased workloads in the main for those remaining and the loss of jobs in this cost of living crisis for families is worrying	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Cannot have the same targets with less staff; Should redundancy packages be a consideration	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Inevitable that staffing levels will change and alter; ; Therefore customer expectations must also change ;	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Look at high level jobs and middle managerial roles - many overlap with those above/below and the cost savings in merging these would be significant.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staff cuts will only make services worse.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing could be cut to some services but money is being wasted on snp wanting another referendum! How much does this cost?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	What happens to the staff that will lose their jobs??	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Remove community councils from the area.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the governance arrangements that are in place in order to ensure that there is good management, effective stewardship of public money, good levels of public engagement and that the desired outcomes for stakeholders are achieved.
Modernising our council	1L General balance of savings to be identified	How many people have been involved in the development of this questionnaire? How many people will be involved in the processing of any responses. How many people will be involved in the analysis of any comments returned via this media? What proportion of the West Lothian population are aware of the consultation process? True responses cannot be provided to these questions as they are open ended and lack substance. Cut staff where necessary and where one person could do the job that two people are doing presently.....	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	The idea that staffing cuts will be made is alarming as the council's delivery seems so stretched as it is. Investing in technology and process improvement should be the starting point, without assumption that jobs will be lost.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	You can start by culling the number of highly paid executives on the council. Greater investment in high quality equipment which makes light work of the manual tasks where frankly the ground crews are either too thinly stretched or the techniques and tools dont permit the efficiency the council thinks on a spreadsheet. The other fact which I find annoying simplistic for 8 years the council act surprised that there is a budget gap and let's everyone know. Perhaps a review of the financial planning an controls is required because it should not be a suprise. Yes council tax has been frozen for far too long and yes that was the fault of central government, however and conversely my income tax VAT tax and council tax has only but increased over the years and I'm sure I do not find myself in a unique position. So where the heck is all our money going if councils are cutting services and roles.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Reduce staff means more people unemployed which means you will drag us further down because then you will have more people on universal credit!	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	In order to provide service council need to have enough staff . Need to review properly where there is any over staff or under staff	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Staffing in schools must be protected	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Many staff are already working extended roles due to previous savings and cost cutting exercises. I realise change necessary and recognise that services will be lost but fear that all the investment in attracting people to live in West Lothian and build communities will be eroded.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Don't see how that is going to help anything, it will just mean that more people will lose their jobs and have to rely upon the council for help.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Please save money by cutting the salaries of your high earners. Leave the schools and leisure services alone.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Adjust office staffing. Do not cut funding or staffing in schools.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	How are we meant to answer this? I have to assume that people employed by the council are gainfully employed otherwise you have been negligent in your budget management over a number of years.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Council services are already low. You can't cut a workforce that is at bare-bones. The impact on the society for these job losses will not look like savings to them. Councils will inevitably be failing the people that put them there.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staff are the front line resource and face of WLC, invest in staff will increase retention and encourage people to commit to a career in local government. Sharing information online as part of the survey that staffing levels are to be reduced will have a detrimental impact on staff morale	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Redundancies? Not good news at all.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Worrying for staffing, service levels and mental health of those losing their jobs	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	I'm sure there are many staff who are working longer hours to get through the work and don't get paid	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Cut payments to outsourcing companies keep all work in house and locally accountable	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the governance arrangements that are in place in order to ensure that there is good management, effective stewardship of public money, good levels of public engagement and that the desired outcomes for stakeholders are achieved.
Modernising our council	1L General balance of savings to be identified	Reduced staffing will reduce delivery and impact standards.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Always the frontline staff that are the hit when savings are to be made ... nothing new in management thinking there.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.

Modernising our council	1L General balance of savings to be identified	Jobs for the boys. We see through it.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	As long as there are no job cuts but better policies in place to get rid of lazy workers	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our employees regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel employees in order to help them improve.
Modernising our council	1L General balance of savings to be identified	Inevitably given the cost profile of the services provided but staffing reductions reallocations should be made from non productive committees .settings etc. towards direct frontline services and the activities that support them.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Council should focus on key services and either withdraw from non key areas or increase charges to reflect full cost of providing services	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Consider key services and stop those services which are not deemed to be key or fully funded by government	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	I not sure about this I think two many people at the top could save some there	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Further cuts in staff should be avoided as this will likely degrade service delivery.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Again the cuts and reduction to headcount is aimed at the workers on the ground. It is at this level that the real value of the council is delivered. Where cuts should be made is at the multiple layers of management and beurocracy. Councils have never been successful since the focus shifted from service delivery to service management.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	There is higher management in most departments of the council that isn't needed, their salaries alone would save quite a bit of money	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Cuts to secure jobs would be a major loss and have a major impact in many sectors.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Hard to contact staff now with working at home procedures in place. More flexible working patterns needed instead of the comment 'its not my job'.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	If staffing has to be reduced then it should be at management level. The bulk of the council work that the public needs done is carried out by the many lower paid manual/customer facing workers and these are the staff that are needed to keep everything running. To reduce management will save more with the loss of fewer positions.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Reduce staffing through voluntary severance. Only retain the most motivated and committed stff - let the rest go and trouser the saving.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Council currently have no redundancy policy which means staff would be redeployed and not necessarily saving budgets but impacting massively on services.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Has rationalisation to pay and conditions of both officers and councillors been conducted and if not, why not?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I can only assume that younger younger/newer staff on fixed term will go as well as anyone taking early retirement and we'll be left with gaps where we need people that can't be filled.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	How are our website designed to help people find relevant information to address their issues to enable self-service.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council uses a variety of platforms and channels to help residents of West Lothian to stay up to date with news in the local area and also, provide them with access to council services and new information. We track engagement levels with each channel and continually look for ways to improve our reach and content.
Modernising our council	1L General balance of savings to be identified	Reduce middle management and promoted posts. Be more vigorous in expense claims	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Pensions... stop the pensions and bring them to the real world!! People's pension with minimum contributions by employer!!	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Reduced staffing costs will always result in a poorer service. Long tenured staff should be asked to move on or take redundancy. Middle management should be reduced and younger staff should be trained in other cross service areas to multiskill them. Younger workers should be nurtured into further education supported by the council	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Look at staff about to returned. Look part time working, job share etc..	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	should not be compulsory redundancies	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Staffing costs - expenses claimed and unnecessary bonuses paid which further impact the costs for families already struggling.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Maybe all the highly paid managers members of parliament etc should have their wages reduced and not given vast bonuses	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing level is too high anyway. We all know workers working from home that are out walking their dogs 3 times a day	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Voluntary redundancy or early retirement?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Would be concerned if internal support services like IT are cut given the increased use of technology and digital solutions	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council has made significant investment in the IT infrastructure and will continue to allocate appropriate resources to introduce new technology where appropriate. The council's ICT Strategy seeks to deliver change in line with advances in technology and changes in council priorities, whilst still having a clear framework within which to operate.
Modernising our council	1L General balance of savings to be identified	Review of need for stand-by cover and other unproductive time to bring into line with others in industry / the likes of reserve fire service where they get paid for emergency call-outs but the rest of the time continue on normal duties / are at home (perhaps with a small stipend for the latter). Sensible flexibility during times of prolonged adverse weather such that someone out all night is not required to work the next day etc.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Training budgets seem to be very limited except for on-the tools safety training however a well-trained up to date staff are far more effective than those who are not. Investment in willing staff reduces costs in the long run.; ; Proper management training for managers and processes which encourage all staff to work effectively rather than putting in the required hours is key.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Jobs should not just be cut! Redundancy is last resort - all effort should be made to recreate new jobs with the combination of existing staff and not filling vacancies.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Some of your workforce is statutory and therefore cannot be reduced - only leaves small amount to remove - and possibly the folks that make a big difference.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Actively engage with the staff to improve and encourage active input from them in work sharing/part time/flexible hours/early retirement etc	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Re address councillors areas. Amalgamation resulting in less councillors resulting in saving expenses etc. Remove consultancy positions . Reduce and streamline management positions and with monies saved invest in staff.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the governance arrangements that are in place in order to ensure that there is good management, effective stewardship of public money, good levels of public engagement and that the desired outcomes for stakeholders are achieved.
Modernising our council	1L General balance of savings to be identified	Great more people unemployed	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	As long as there is not more work placed on fewer staff by these changes then ok.	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities. This includes staffing resources.
Modernising our council	1L General balance of savings to be identified	£6m from some unknown source? How can anyone possibly comment on whether the agree or disagree with this?	3. The respondent advised that they had no comment to make or posed a question of the measure.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General balance of savings to be identified	undecided	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Generally satisfied with services	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Happy with services	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Generally satisfied with services	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Generally satisfied with services	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Happy with council services no major issues	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Generally satisfied with services	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Huge saving	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Reduced staffing levels across the board is suggested here, but no context. Hard to comment on such.a vague proposal.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	More job losses ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Dedicated and inspiring staff need to be paid appropriately or the whole education, leisure sector will continue to decline	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.
Modernising our council	1L General balance of savings to be identified	If you keep your skilled staff and take the opportunity to restructure parts of the organisation which are ineffective this will have less impact. If skilled staff leave, and inefficient staff are realigned, this will have a negative impact.	4. The council is already doing this.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.
Modernising our council	1L General balance of savings to be identified	Need to ensure no impact on services and that don't end up funding expensive temporary staff.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Consider looking at alternative models such as 4 day weeks and efficiencies in delivery.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Ensure that staff are delivering effectively and their utilisation is high (cut waste in delivery, avoid weekend and out of hours working).	4. The council is already doing this.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.
Modernising our council	1L General balance of savings to be identified	When we talk about efficiencies and effectiveness, how much does the WLAM (and similar evaluation/monitoring) cost? Is there a better way of doing this?	4. The council is already doing this.	The council regularly reviews the governance arrangements that are in place in order to ensure that there is good management, effective stewardship of public money, good levels of public engagement and that the desired outcomes for stakeholders are achieved.
Modernising our council	1L General balance of savings to be identified	Maintain non-compulsory redundancies, but very carefully appraise requests for non-compulsory redundancies, some of these in the past have been false economies	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing levels could be reviewed with middle/senior management posts being assessed - many of the middle management teams are stretched to breaking point (see sickness absence through stress related illness) = re-introduction of chargehand type posts could relieve some of the pressure managers are under	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.
Modernising our council	1L General balance of savings to be identified	As mentioned before there are other options the council could look at to make savings rather than reducing staff further to an already struggling workforce.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Any staffing level reduction has to not be in front line services that people benefit from but in back room staff - if you update systems then surely that is where the staff reductions would be and over time. You need to understand what services are being accessed or not accessed and review why before changing the delivery.	4. The council is already doing this.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	Offer job sharing/reduced hours and phased retirement opportunities for areas considered to be over resourced	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	again as per my previous comments - be honest about staff cuts and provide opportunities for people who will lose jobs to have a decent pay off and not pretend that we don't have compulsory redundancies - be honest and don't manage staff out of the service - we don't deserve that	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	The time it takes to move staff through organisational change procedures should be reduced, it is over-generous and unrealistic in today's circumstances.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	So reducing staff in most of the savings and now this general balance of savings to be made - the only way the council will do this is to offer staff who might be thinking about retiring - for a period of time and i'm sure there will be some who would take it to free up a lot of savings going forward and perhaps without reducing staff in the previous points putting this out there first to free up savings for staff who want to go and the positive result would be that you would still have staff committed to the cause who would be lost just for the sake of having to reduce staff.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Allow more people to work from home	4. The council is already doing this.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	A review of staffing structure and delivery could provide savings	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Again restructure the supervisors /management as not all needed	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	If staffing is to be reduced any further then service delivery has to change and stop appropriately. This needs to be recognised properly by council management and elected members, and not expect life to continue as normal. This will impact on staff morale if not properly addressed.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Again, avoid making savings that just move the role from Central support to individual service function areas.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	In addition, there must be recognition by Senior Management, Members and the public that there has been a reduction in staffing, which will result in changes to expectations, no longer being able to provide non statutory and 'nice to do' work and the increased pressure on remaining staff.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Would need to be managed carefully. Some services which are not statutory are highly regarded and valued ie advice shop need to ensure they have resources to meet the increasing need	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	This worries me and my financial stability may be at risk- further information and what this mean for individual employees would ease this worry but there is cost of living crisis at the moment and it is already a worrying time	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Give people the chance to leave earlier than retirement age, flexible working, flexible retirement	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Real decisions need to be made around current service delivery and ways of doing business. Inevitably there will be a need to reduce staffing and get more for less, but this phrase is exhausted and we are in the realms of making real tough choices about the services we do and do not provide.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Much more could be done to rationalise the way our current ways of working are structured as it would appear that there are many patterns of work designed to fund premium payments whether they be in overtime or in shift allowances. Whilst these have a place, they should only be used where strategically and operationally necessary to provide and efficient and effective service.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	People needs jobs, services need to be delivered- the balance just needs to be right! No one wants to see people lose jobs, however many can work more effectively. Home/Flexible working should be an option to continue as it seems to be working for more people and giving a much better work life balance.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	As mentioned before, redundancies should be voluntary and other roles identified.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	What is the annual total WLC staff budget? Do any/all WLC staff have an annual bonus included in their Salary package - I know in tough times - several local large (private) employers - took the step of effectively eliminating bonuses "for all employees" (including senior officers & directors). But probably still require to search out more efficiencies - again I always looked at Departmental Head level to achieve major reductions in staff costs - when I was running Wyman Gordon in Livingston	4. The council is already doing this.	The council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels. The council no longer pays bonus to any of its employees.
Modernising our council	1L General balance of savings to be identified	No involuntary redundancies.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Maybe offer more job share or 4 day weeks to staff?	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Before the decisions are made though, please make sure that each proposal is looked at closely and the outcomes are realistic and do not have a major consequence to the lives of the community of West Lothian.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	i think tenant who mess up their homes should be charged,the military did, even down to picture hook holes.	4. The council is already doing this.	For the most part, customers who damage their homes are recharged for the cost of repairs. There is some complexity here as the council deals with a wide variety of people in different circumstances. In some cases the individual may have vulnerabilities that mean they are not fully aware of their actions.
Modernising our council	1L General balance of savings to be identified	Visible opportunities for savings seem to be ; Multiple road maintenance projects seem to dig up the same areas of roads immediately after repairs have been carried out; better scheduling could save money and create less disruption.	4. The council is already doing this.	Road repairs: all road works are co-ordinated by the council to minimise disruption to road users and pedestrians as much as possible. However, it should be noted that some repair works by utilities companies are unplanned and may also be urgently required.
Modernising our council	1L General balance of savings to be identified	The cost of 'hiring' plant and machinery should be scrutinised - a massive saving could be made if managed properly ;	4. The council is already doing this.	The council regularly review fleet requirements and utilisation to ensure best value and that operational needs are met.
Modernising our council	1L General balance of savings to be identified	Road repair/road upgrade contracts seem very inefficient. Recent roadworks on the dual carriageway section of the A7066 at Bathgate have taken a very long time and staff come out on a Saturday morning, stand talking to each other and are gone by noon, I do not believe this is an efficient use of services. This may be contracted and therefore the council must ensure that each contract is measured as per original tender and any overspends are quantified and backed up before payment agreed.	4. The council is already doing this.	Road repairs: all road works are co-ordinated by the council to minimise disruption to road users and pedestrians as much as possible. However, it should be noted that some repair works by utilities companies are unplanned and may also be urgently required.
Modernising our council	1L General balance of savings to be identified	Community service focus on litter picking etc?	4. The council is already doing this.	The council currently uses resources from Community payback Orders to litter pick within its parks and open spaces.
Modernising our council	1L General balance of savings to be identified	Stop cutting grass and hedges in schools unless requested - biodiversity is part of the curriculum and maintenance should be around safety only. Perhaps schools should request on an as and when basis?	4. The council is already doing this.	Biodiversity: the council is developing a Local Biodiversity Action Plan that is aimed at improving biodiversity and natural habitats and introducing long term and sustainable projects that will benefit from natural assets. It will also include options for engaging with schools.
Modernising our council	1L General balance of savings to be identified	Stop cutting grass and hedges in schools unless requested - biodiversity is part of the curriculum and maintenance should be around safety only. Perhaps schools should request on an as and when basis? Grass verges and roundabouts could be planted with wild flowers as in Fife. Community service focus on litter picking etc?	4. The council is already doing this.	Biodiversity: the council is developing a Local Biodiversity Action Plan that is aimed at improving biodiversity and natural habitats and introducing long term and sustainable projects that will benefit from natural assets. It will also include options for engaging with schools. The council currently uses resources from Community payback Orders to litter pick within its parks and open spaces.
Modernising our council	1L General balance of savings to be identified	Keep necessary plant and equipment replaced as needed so that money is not wasted on hiring unappropriated plant and equipment.	4. The council is already doing this.	The council regularly review fleet requirements and utilisation to ensure best value and that operational needs are met.
Modernising our council	1L General balance of savings to be identified	I have seen WLC vans parked up for more than 1 week at a time. This is a waste of 25% of the vehicle. I am sure the staff member is also not working for that 25%	4. The council is already doing this.	The council regularly review fleet requirements and utilisation to ensure best value and that operational needs are met.
Modernising our council	1L General balance of savings to be identified	Absolutely, but would this be not replacing retired people? As voluntary redundancy is a huge waste of money.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Once again compulsory redundancies should be avoided and customer experience should be at the forefront of any decisions taken in this area.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Maybe staff employment needs to be looked at, employing people who are more suitable for the job rather than finding the job for people who don't really want this position. Loyalty between staff and company are limited	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	From the top to the bottom full job reviews and performance against roles should be done to find the right personnel to carry out tasks - but cutting to lean will waylay in higher sickness cost due to mental health	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. Employee wellbeing is a priority for the council and a range of support and resources are available for employees and managers to access.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Don't make too many staff unemployed	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	We can't keep good people. People are leaving for a better work life balance in other organisations. Some teams, particularly where there are national skills shortages, where people can choose to work where the conditions suit them, are in constant recruitment mode. The council should seek to cut specific projects and programmes that don't delivery any meaningful outcomes or contribute directly to delivery of the 8 priorities.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Some solutions for you: For procurement seek value for money.	4. The council is already doing this.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	For procurement seek value for money.	4. The council is already doing this.	The council has made significant investment in the IT infrastructure and will continue to allocate appropriate resources to introduce new technology where appropriate. The council's ICT Strategy seeks to deliver change in line with advances in technology and changes in council priorities, whilst still having a clear framework within which to operate.
Modernising our council	1L General balance of savings to be identified	Opening up procurement for smaller, local businesses would likely reduce your costs. Making the process less burdensome and bureaucratic would be helpful for smaller businesses to compete.	4. The council is already doing this.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Ask companies rather than chuck food away to give it away to those in need.	4. The council is already doing this.	This proposal is out with the control of West Lothian Council.
Modernising our council	1L General balance of savings to be identified	People losing jobs will have have a terrible affect on the community. I think everything should be done to keep people employed.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Offer voluntary severance more widely to reduce headcount.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	WLC's revision of staffing may indeed result in cuts, reorganisation etc but if the outcome is a less dynamic, less effective model of provision, education and support it will diminish the life chances of all age groups of WLC clients. Indeed we will not get the same service or more for less, but definitely much less for everyone.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	difficult to see people losing jobs and compulsory redundancies should be minimised where possible	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	West Lothian has a longstanding, excellent reputation for providing high quality services and excellent relations with residents in the council area. This should not be adversely affected by any changes to staffing levels and service delivery.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	There are different budgets within the council and the expectation to achieve cuts is that all budgets and staffing within those budgets need to be reviewed and evaluated.	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Stop building new offices all over west lothian and that would be a massive saving.	4. The council is already doing this.	The council has undertaken a programme to rationalise the office and partnership centre estate, saving significant revenue and capital costs. There are no plans to build offices with the council looking to further rationalise the property estate.
Modernising our council	1L General balance of savings to be identified	Service centre staff could work remotely in a lot of cases and I would think there is very little footfall to justify maintaining the white elephant civic centre.	4. The council is already doing this.	The council is currently undertaking a flexible working pilot which should provide opportunities for future rationalisation. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Modernising our council	1L General balance of savings to be identified	21.3 million would be better spent on more housing as West Lothian are very short on housing.	4. The council is already doing this.	The council has been successfully progressing one of the larger local authority building programmes and has built over 2000 houses in the last decade. As well as this the council has been working with other social landlords to support them to deliver affordable housing in West Lothian and the Council has been working with private landlords to improve standards and availability.
Modernising our council	1L General balance of savings to be identified	Cut the grass.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Cut the grass. Take pride in our area.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	It is vital to the welfare and mental health of everyone working and living in West Lothian to have the local environment protected and cared for. From maintenance of our outdoor spaces to the cleanliness of our streets and the regular maintenance of paths, shrubbery trees and drains. The will and desire to follow up works completed by or for outside agencies to make sure the environment is improved by their works and returned to the same or a better state than when work began. Fines for poor work or late work, fines for damage to our environment to be clear and pursued.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	More money should be spent on vulnerable people and pensioners.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Again, taking the best route to ensure minimum upset for staff such as voluntary redundancy or retirement.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Options for early retirement and natural wastage or redeployment should be used with no forced redundancy	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I think if redundancy packages were offered to staff over 60 this would help streamline the workforce.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Be very careful when pulling financial streams as they may adversely effect the delivery of council services. It is already a very difficult process to carry out procurement within the education sector.	4. The council is already doing this.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Your external contractors charge higher just because you are the Council and they know they will get paid, you could save a fortune there if you gave the smaller businesses a chance. they are qualified just the same and probably take more care, if they have the skills and qualifications, relevant insurance then why not?. You should introduce if not already! a limit on costs of regular jobs or increase your apprentices intake. Get some quotes from other contractors and see the difference. Have had quotes from both and the smaller business always came out cheaper and the finished product could not be faulted. Council Contractors are more expensive and take liberties as they know they will get the job which is not necessarily the better job. What the contractors charge should be challenged if not.	4. The council is already doing this.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Look at procurement you pay companies way over the odds for goods this could save a fortune.	4. The council is already doing this.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	If staffing levels are going to reduce further, then the council is going to have to stop delivering some services completely. Current staff can not cope with further workloads without some major change in approach	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Need to identify savings in workforce that are not directly related to people i.e. face to face care which is already suffering. To reduce these services too much will cause longer term more expensive issues. Areas like FM & Property Services need closer examination for reduction in costs.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Be very wary of the way life is just now. Loosing staff will result in higher unemployment in the area which will then stretch other services in West Lothian. Think about reducing staff through retirement or moving on, rather than cutting jobs.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	I think core roles (education, social work etc) need to be saved. Society will crumble without them.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Again, more detail is required for these plans. Management of retirees for example is vastly different to redundancies in schools say.	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	6 million is a lot of money to find - I assume that external auditors will be involved to identify the many millions that are spent on management levels within WLC and see if they offer value for money. I also assume that if more people are working from home, then the civic centre could also be sold and re-leased off a private company if not all the space is needed.	4. The council is already doing this.	West Lothian Council's support and management costs are one of the lowest in Scotland, demonstrating value for money. Performance indicators and value for money indicators are verified and considered by external auditors. The council is looking at opportunities to rationalise office estate, recognising savings arising from hybrid working. Consolidation of older buildings into the Civic Centre generated substantial savings for the council.
Modernising our council	1L General balance of savings to be identified	That's a great pity as both customers and staff will suffer. Keep at the Government to properly fund local government or allow you to raise Council Tax.	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
Modernising our council	1L General balance of savings to be identified	I am not surprised to see that many of the proposed savings are by cutting jobs of the face to face staff, yet senior and middle management seem to be untouched.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Make this based on performance, commitment to the service of West Lothian and cut the parts of the organisation that are not bearing fruit.	4. The council is already doing this.	All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities. The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community.
Modernising our council	1L General balance of savings to be identified	I think higher management levels could be reduced but reducing staffing on the ground level would be a mistake.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	I hope staffing could be realigned rather than losing their positions.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Council staff has been reducing over the 15 years with not a great deal of modernization creating more efficient workloads, just seems more with less which will in time, impact on the quality of service delivery	4. The council is already doing this.	The council has made improvements to processes, employing improvements through digital transformation and updating processes to reflect modern practice. The council's processes have changes substantially however it will continue to investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1L General balance of savings to be identified	please ensure that there is still an option for people to access support from a member of staff when it is needed. The most venerable in our society can often not navigate online systems without support , or help to understand what is required of them. It may mean these staff numbers are reduced from current levels, but it is important that they are there, and also that the provision of support by the Advice shop in Bathgate, who can help a huge number of people is kept in service.	4. The council is already doing this.	The council acknowledges that our customers expect access to council information 24 hours a day, seven days a week. To enable this, the council will continue to look at ways to improve the website both as a tool to provide information on services, but also as a tool for customers to engage with the council, e.g. making payments online. However through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
Modernising our council	1L General balance of savings to be identified	Cuts are already seen across West Lothian for eg villages and towns look unkempt in terms of landscaping services, you should maybe just plant wild meadows and be done with it..You need to get more creative in spending before cutting your workforce.	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. This consultation provides an opportunity for stakeholders to provide new ideas to help balance the gap.
Modernising our council	1L General balance of savings to be identified	Outside contractors who do work for the council should be reviewed.	4. The council is already doing this.	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure. The council must consider both internal and external provision to ensure best value. In some circumstances it may be better value to deliver through external provision.
Modernising our council	1L General balance of savings to be identified	The Scottish Government gave Council's money for increased teacher numbers but did not ring fence this. The proposals in this consultation will lead to teacher numbers declining. This is absolutely not acceptable and will be robustly opposed by parents, teachers and unions.; The money for enhanced teacher numbers must be respected and used for what it was purposed for. Increased teacher numbers!	4. The council is already doing this.	The council is focused on outcomes and priorities, not inputs. The council is focused on increasing attainment and uses its limited resources to support this priority.
Modernising our council	1L General balance of savings to be identified	So long as you are streamlining management and no-one on less than £20 an hour is being made redundant. We want deliverers not pen pushers.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Perhaps the staffing levels should not be taken from "ordinary" workers and from those high up earning huge salaries working directly for the council.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	Perhaps the staffing levels should not be taken from "ordinary" workers and from those high up earning huge salaries working directly for the council.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Maintenance is essential for the safety of householders and should not be dismissed.	4. The council is already doing this.	The council will continue to maintain residential and non-residential properties within its portfolio. As a social landlord tenant rents, combined with grant funding, provide millions of pounds of investment each year in maintenance and capital programme upgrades.
Modernising our council	1L General balance of savings to be identified	houses need to be maintained better!	4. The council is already doing this.	Housing continually repairs homes as issues are reported and invests heavily in capital programme works which replace end of life components and improve older stock to meet ever increasing legal requirements for safety and energy efficiency standards
Modernising our council	1L General balance of savings to be identified	People want to have roses kept clean and looked after, bins emptied etc. these are the basics.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	The council should seek to work towards ethical commissioning, working with not for profit providers, hopefully achieving cost reductions	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1L General balance of savings to be identified	Are there efficiencies that could be looked at?	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1L General balance of savings to be identified	You can't cut your way, or efficiency save your way out of this financial situation. Tax revenue collected has to rise.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Safety and security though are of prime importance especially where children are concerned and any cutbacks should ensure they are not compromised in any way.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Consider early retirement to bring down staffing levels.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	The descriptions of changes to services detailed in this consultation sound minor, yet these amount to major cost savings through efficiencies. It's hard to believe that such cuts can be achieved without significant reduction in service quality. Or without some services being stopped altogether. Really, this consultation feels like a tick box exercise - not enough detail shared to generate meaningful dialogue with west lothian residents	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	If the gap has to met from staffing levels, then the council needs to think how it can incentivise staff to leave. An enhanced voluntary severance scheme for the next five years would give staff time to consider their options and give the council time to consider how it could reshape its services with less staff.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	The council are so short of staff as it is I cannot see how this can happen and still maintain standards. Maybe some of the higher earning position could be streamlined.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	A reduce in staffing will result in an increase in universal credit applications due to issues with finding work at the moment. Has this been taken into account? During a cost-of-living crisis, it seems unnesesaary to have staffing reductions as the main way to reduce spending. Staffing issues are still apparent in many schools and child care centers.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Staffing levels are sufficient in some areas and insufficient in other areas as the Covid19 period has dramatically affected the country and should therefore be carefully considered when cuts are being reviewed especially in areas helping the lower income threshold and low health customers.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	maybe job share or flexi time would also help.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	Very worrying that you want to reduce council staff numbers as it is a big employer in West Lothian. Hope the cuts are going to come from the top down as there is too many managers in the civic centre who could be streamlined instead of hard working staff who are on normal wages	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council has one of the leanest management structures of any council in Scotland. The council has delivered substantial management savings to date.
Modernising our council	1L General balance of savings to be identified	I trust that the council will act ethically in this context	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Whilst looking at staffing levels (also known as redundancy) the staff themselves should be consulted. Ask everyone in a council position how they in their roles can save time and money. This bottom up appropriate is time consuming however people want to be effective and have autonomy in their roles, trust them to come up with the solutions. They will be more likely to go along with you.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	Please ensure staffing cuts are not simply culled from the delivery facing elements but ensure that savings are taken from senior management positions. How many West Lothian Council employees earn more than £100 k ? Cut down the highest rate of pay to £75k	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. Pay is commensurate with the level of responsibility and tasks undertaken by the postholder.
Modernising our council	1L General balance of savings to be identified	Council need to look at all services and consider what is absolutely essential and not. Are iPads, phones and laptops needed by senior management and councillors.; Review councillor expenses and ensure that appropriate expenses are being claimed.; Admin across the whole council needs to be reviewed to ensure the necessary support and that tasks are being done at the right level rather than at the wrong level)ie at a higher level). ; Senior management expectations needs to match the resources that are in placed as well.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities. Councillor expenses are determined nationally and service standards are adjusted to match available resources.
Modernising our council	1L General balance of savings to be identified	Review of percentage that house builders contribute (and in my opinion) increased as they build scheme after scheme with little thought or contribution of expanding AND SUSTAINING OVER THE YEARS THE HOUSE WILL BE THERE the services householders will use. Why not a requirement of building a hub in each site if it is over a certain area and if it is two or three builders then need to all work together and contribute as the need for indoor facilities is greatly lacking in these big housing estates.	4. The council is already doing this.	The amount that a developer has to contribute to the infrastructure is set by legislation and during the planning permission stage
Modernising our council	1L General balance of savings to be identified	The council need to improve their management of properties. Tenants are living in substandard, damp ridden homes that are not fit for inhabiting and the council housing team are dragging their heels!	4. The council is already doing this.	The council will continue to maintain residential and non-residential properties within its portfolio. As a social landlord tenant rents, combined with grant funding, provide millions of pounds of investment each year in maintenance and capital programme upgrades.
Modernising our council	1L General balance of savings to be identified	energy efficiency needs to start with the older council tenant properties which are very costly to heat	4. The council is already doing this.	The council will continue to maintain residential and non-residential properties within its portfolio. As a social landlord tenant rents, combined with grant funding, provide millions of pounds of investment each year in maintenance and capital programme upgrades.
Modernising our council	1L General balance of savings to be identified	Prices of power for families should be lower and higher for cooperations. The government should fund more efficient sources of electricity I.e installing solar panels on council builds for free, free additional insulation for homes.	4. The council is already doing this.	The council will continue to maintain residential and non-residential properties within its portfolio. As a social landlord tenant rents, combined with grant funding, provide millions of pounds of investment each year in maintenance and capital programme upgrades.
Modernising our council	1L General balance of savings to be identified	All new builds should have solar panels and the insulation/cladding that people contribute part of the cost to.	4. The council is already doing this.	The council is committed to minimising carbon emissions and installing appropriate generation equipment where possible.
Modernising our council	1L General balance of savings to be identified	Removing many levels of the management hierarchy, which are some big pay-outs, and having a more efficient and wider ranging job crossover would save much more than the savings required.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Pls keep redundancies to a minimum	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Always look for savings	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Within Education, there are too many staff removed from schools to work on projects rather than support pupils in school. These are all top end of the scale staff. Limit these and put some back into schools and this might help the attainment issues as well as supporting ASN pupils more effectively ; .	4. The council is already doing this.	The significant majority of Education Services resources is devolved to schools
Modernising our council	1L General balance of savings to be identified	So basically you are asking the public to agree that additional savings of £6.2 million can be/should be found? What a ridiculous question. Officers and elected members should be working towards ensuring that the council has a balanced budget, this will result in difficult decisions (elected members cannot pick and choose based on their popularity to save their own seat, savings should be on merit, impact and achievability) but if the council cannot curb spending ahead of having to make savings this will have to happen.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	That's going to affect a lot of people at a time when families are already being hit hard. I hope the council has redeployment and re-employment opportunities to prevent a rise in local unemployment and poverty rates	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	You have to decide whether West Lothian council is going to solely focus on giving free council homes to the needy and give second priority to everything else	4. The council is already doing this.	The council delivers a variety of services covering all demographics of society in West Lothian. No social landlord in the UK provides free homes. All social housing has a rent applied and that rent is either paid by the tenant if their income is above the welfare thresholds, or is paid for by the government through the Housing Costs elements of welfare payments. West Lothian Council Housing Revenue Account receives over £60m a year in rental income and with that money provides support services, capital programme investment, maintenance and also the provision of homes through new build programmes, or stock buybacks
Modernising our council	1L General balance of savings to be identified	REPAIR HOUSES THAT ARE BOARDED UP .	4. The council is already doing this.	The council maintains its own stock regularly and it is rare for a council owned property to be empty for long periods unless there are unusual circumstances. The council has a continuous repairs and maintenance programme. Please note that often reports of poorly maintained property are often ex-council or private properties
Modernising our council	1L General balance of savings to be identified	Do not continue with the cycle route in Linlithgow would be one way to save money, or on reduced terms, Would like to understand the projected numbers for an outside facility that people would need to use a car to get to .	4. The council is already doing this.	Improvements are carried out in partnership with Sustrans. Approved industry wide road materials and infrastructure are used on the public road network as required. A future council decision will determine this comment.
Modernising our council	1L General balance of savings to be identified	Operational services is riddled with people dodging off and not working contracted hours. They also work very slowly including supervisors. Greater efficiency is required in that area, not Bon collections though. There is poor planning and assignment of work causing duplication and significant crossover. They also travel in 'gangs' of too many staff with some just standing around. The grounds maintenance teams are a joke and should be restructured, reduced and better supervised based on outcomes.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1L General balance of savings to be identified	Well....you could start by better allocating funds. Ridiculous spending occurs on uncoordinated and poorly planned road maintenance and silly pilots such as spaces for people and changing speed limits temporarily. You might want to invest in someone who is able to coordinate and plan road projects alongside a variety of other service providers to save both time and money. e.g. instead of creating roadworks on several occasions for different purposes, share the cost and dig it up once so that all the services can maintain their part at a reduced cost. Instead of widening pavements and blocking up drains, maybe just maintain the roads that are there.	4. The council is already doing this.	Road repairs: all road works are co-ordinated by the council to minimise disruption to road users and pedestrians as much as possible. However, it should be noted that some repair works by utilities companies are unplanned and may also be urgently required.
Modernising our council	1L General balance of savings to be identified	I have highlighted that more investment in preventative services are more beneficial and see a better ROI from the likes of services that ease the spending of other 'reactive' services ie improve health interventions with the increased financial support to leisure service to reduce people having to go into care, become dependant on medication and claim benefits. This will then work in tandem with the NHS strategy to use 'alternative treatments' therefore reducing costs. Also, the increased funding support to local and community inclusion groups would see young people being provided with opportunities at an earlier stage instead of investing in social care strategies that work with those who are affected through missed opportunities earlier in life. West Lothian Council should invest in intervention and prevention services rather than reactive services.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Focus on effective and efficient, rather than slash and burn	4. The council is already doing this.	Thank you for your comment, the council proposes to use responses to the consultation to support the review of council services, prioritisation and decision making.
Modernising our council	1L General balance of savings to be identified	It is never welcome news to hear of staffing reductions. Investment in the areas already mentioned should help to naturally reduce the number of staff required and the process for filling/refilling posts should be tightened to reduce the need for redundancies etc.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Agree with the current no compulsory redundancy policy. Possible opportunity to allow people to retire should they wish to do so and cut agency staff costs.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Would enhanced voluntary redundancy be considered for people?	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	The use of "The Bulletin" and other media could be used to motivate the public to embrace the efforts of the Council in making these savings. The Council could outline what could be improved even in times of cost saving.; The public will lose faith and confidence in the delivery of services if communication is not positive. More importantly if the reduced services are not delivered efficiently and effectively as possible the public will become frustrated.	4. The council is already doing this.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	There should be more investment in keeping staff. There are currently many staff leaving essential council posts in areas such as social work which costs large amounts of money to replace in recruitment and training.	4. The council is already doing this.	The council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.
Modernising our council	1L General balance of savings to be identified	There has been a lot of pay rises and massive redundancy payouts going to top council staff officials. If services are being cut then so should the practice of paying massive redundancy payouts	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Providing a procurement process which allows establishments to get the best deal would be welcomed. We are wasting money paying for items that could be sourced more cheaply elsewhere.	4. The council is already doing this.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General Balance of Savings to be Identified	Investment should be made in roles where people are key to the delivery of that service such as waste management, landscaping, trades, social care, education etc.	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Acceptance of the public to play its part to support the Council should be encouraged. ;	4. The council is already doing this.	The council has community choices, a platform for participatory budgeting with local communities making decisions regarding spend and investment. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Modernising our council	1L General balance of savings to be identified	Having a consistent approach to debt recovery by CDT and services may assist in recovery.	4. The council is already doing this.	The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
Modernising our council	1L General balance of savings to be identified	Need to ensure that any risks to service delivery are thoroughly assessed.	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities. The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Modernising our council	1L General Balance of Savings to be Identified	The volume of work will need to be cut otherwise there is not going to be enough people left to deliver activity.	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	If we are looking at changes to staffing and as a consequence service delivery, we have to be honest and upfront with the public. There will be areas of work that we did in the past but can no longer do due to workforce deficiencies/losses. ; We would, in my opinion, need to consult with the public to get a steer what is palatable to them or not. ; This process needs to be done in a transparent way, and quickly so there can be a lead in time for these changes to be bedded in. ; Looking at non-statutory activities might be a start to the process, but sometimes non statutory work enables some statutory work to be undertaken in a more efficient manner. So, a more comprehensive review might be needed to unpick what activities we can stop from doing.	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1L General balance of savings to be identified	i would like to know if there are ways the council can raise funds, for example through increases in council tax?	4. The council is already doing this.	The consultation includes a proposal of 3.5% increase in council tax across all five years.
Modernising our council	1L General balance of savings to be identified	Council need ti priorities Council housing	4. The council is already doing this.	The council will continue to invest in council housing. We have been engaged in a new build programme delivering thousands of houses over the last decade. As well as this the council regularly repairs, maintains and upgrades it housing stock.
Modernising our council	1L General balance of savings to be identified	Increase the rent for Local Authority properties to help tackle the associated anti social behaviour and general criminality in these areas.	4. The council is already doing this.	The council is currently consulting on the rent strategy for the next 5 years, with consultees being asked to comment on proposals to increase council rents by either 3.5% or 4%.
Modernising our council	1L General balance of savings to be identified	money can be saved by reducing the number of vehicles leased by the council. every day one will see WLC vehicles parked up. if two vehicles are parked up for 2 weeks per month you could reduce one vehicle per month and cancel the lease.	4. The council is already doing this.	The council regularly review fleet requirements and utilisation to ensure best value and that operational needs are met.
Modernising our council	1L General balance of savings to be identified	Stop sending the grass cutting teams out in the pouring rain, that will save money! Leave grass verges uncut during summer, this helps wildlife, if the paths are wide enough they shouldn't need to be cut! And, make sure that any ground maintenance is actually done on YOUR land!	4. The council is already doing this.	Thank you for your comment
Modernising our council	1L General balance of savings to be identified	Stop using brand new cars	4. The council is already doing this.	The council regularly review fleet requirements and utilisation to ensure best value and that operational needs are met.
Modernising our council	1L General balance of savings to be identified	I work as a school cleaner and see the lack of cleaning done by others, who take long tea breaks during the 4 hour shift. I think management should be aware of this as the work is never checked and it appears to me the council pay wages for staff to sit down and drink tea in the teachers staff bases as opposed to cleaning the class rooms thoroughly.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Far too many staff, I hate to see people out of work but why, for example, is the employees who cut the grass in the summer not the same staff that grit the roads in the winter? Why does this have to be different people? Would training not benefit both the employee and the council? There would be no need for seasonal workers and create job security for employees.	4. The council is already doing this.	The grounds maintenance staff have winter grounds maintenance duties to carry out, their work is not limited to summer tasks. The full time staff grounds maintenance staff are used in the winter grounds maintenance rotas.
Modernising our council	1L General balance of savings to be identified	Only when safe & manageable. Possible other savings could be investigated too. Moving to electric vehicles / bikes etc could be a saving too. Any journeys of a predetermined distance or purpose should be reviewed to determine the most effective method & thus cost effective.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Council need ti priorities youth unemployment	4. The council is already doing this.	This is already a priority for the council. The council is committed to improving employment opportunities for young people, and supports a number of schemes to give access to employment.
Modernising our council	1L General balance of savings to be identified	My answers will be mostly similar throughout this consultation as I would not like to make decisions as when it comes down to it, people will lose jobs. I believe that we have to support Economic Development and Employability, we need to try and invest!	4. The council is already doing this.	The council is already committed to supporting economic development and inward investment in West Lothian.
Modernising our council	1L General balance of savings to be identified	Sorry again we have do not have much say as we are not in control of funding, the whole world is in a bit of a state due to Covid and mismanagement at local UK and Scottish Governments. Although we realise that cuts will be made, it is a very depressing read with cost of living, Covid Recovery and world events, Leaving EU etc. My answers will be mostly similar throughout this consultation as I would not like to make decisions as when it comes down to it, people will lose jobs. I believe that we have to support Economic Development and Employability, we need to try and invest!	4. The council is already doing this.	The council is already committed to supporting economic development and inward investment in West Lothian.
Modernising our council	1L General balance of savings to be identified	Why not make it easier for small business and retailers to move into WLC.	4. The council is already doing this.	The council is already committed to supporting economic development and inward investment in West Lothian.
Modernising our council	1L General balance of savings to be identified	The scope of services delivered by the council requires to be reduce. The expectations of the CMT and elected members need to align with what the council requires to deliver.	4. The council is already doing this.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Hybrid working has been proven to be a very effective model for productivity.	4. The council is already doing this.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	Perhaps West Lothian council should seek to revert nursery hours and allow them to close over the Easter and Summer holidays as they previously did before changing the hours without much consultation with staff. Perhaps free nursery hours should be aligned to the school day to cut costs	4. The council is already doing this.	The Council is introducing hours aligned to school hours where parents request this provision and capacity allows.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Children need the appropriate staffing levels. I feel if staff numbers are reduced children's teaching will be effected.	4. The council is already doing this.	National class size limits and supervision ratios will continue to be met.
Modernising our council	1L General balance of savings to be identified	Cuts should not be made to the education workforce unless a venue is actually overstaffed.	4. The council is already doing this.	National class size limits and supervision ratios will continue to be met.
Modernising our council	1L General balance of savings to be identified	When these changes are made it must be make clear to the public and councillors what effect this will have in service levels. There's no point pretending that thing will continue to be achieved as they were in the past. Unfortunately there are a few councillors who politically don't want to hear this and then have to advise their constituents accordingly.	4. The council is already doing this.	Information on the implication of the changes from budget savings is provided in the annual revenue budget report approved by West Lothian Council. All savings have to be approved. The report is available on the council's website.
Modernising our council	1L General balance of savings to be identified	focus more on the actual workers, that do the job, not the ones that sit behind the desks having no clue how hard it is for the normal person to get by	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	This is too vague. The worry here is you will cut all of these other schemes much more than is transparent here to release the £6.2m. Cuts to workforce often cost you more in the longer term and use of expensive agency/fixed term contracts- need to ensure proper workforce plans in place to ensure service delivery for council services.	4. The council is already doing this.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	As long as most of the staffing savings come from loss of senior management posts there is I am sure a saving to be made but taking out staff who work on the front line of services will only result in more things being done badly or not at all	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council has one of the leanest management structures of any council in Scotland. The council has delivered substantial management savings to date but continues to investigate savings and efficiencies in management structures.
Modernising our council	1L General balance of savings to be identified	I am sure there are many teams who could be rearranged to be more efficient.	4. The council is already doing this.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1L General balance of savings to be identified	you need to spend the council tax money on up grading your old housing stock ie heating cavity wall insulation on prewar housing	4. The council is already doing this.	The council has an ongoing maintenance and upgrade program which is budgeted each year with funds from the Housing Revenue Account and other appropriate grant or initiative funding
Modernising our council	1L General balance of savings to be identified	The council should be using council tradesmen to carry out essential maintenance and work rather than sub contracting to private firms. Invest in giving more apprenticeships into skilled trades and technology	4. The council is already doing this.	The council wherever possible will use its own staff instead of sub-contractors. However there will be instances where this is unavoidable, for example asbestos removal requires the use of licenced contractors from a specific framework. Other examples may be where demand exceeds the capabilities of the workforce and there is a duty to complete the work within a given timeframe. The council already invests in apprenticeships through the organisation
Modernising our council	1L General balance of savings to be identified	We need more houses built in livingstone areas and soecual housing fir people like myself with mental health issues eubpd and ptsd I am very un socially able to deal with to many people and if you had safer housing or homes set out fir specific cases such as eg mental health issues pain relief issues and so forth I think wlc would be better and monitored the houses that are occupied but don't stay their I no of at least 2 cases where both houses in sane Street have been left un fixed and un used these people have nit been in those 2 houses for over 1 half years surly you must see that these houses are just left both are you cochrane street Bathgate sorry but I think you should look T your houses and make sure they are all occupied as i left my home in Bonnyrigg for 4 weeks to come heat to see my sister in law and I got reported as a banned my home which I had stay in for 16 years and I end up homeless but those 2 houses are a banned mKes street look awful and 1 person I no only goes their to get mail sorry but y fair	4. The council is already doing this.	The council has been building new homes since 2009 and has also been acquiring ex-council properties through the Open Market Acquisition Scheme. During this time we have added over 2000 properties for customers to access. We are continuing to develop properties and are working with other social landlords in the areas. There are no properties in Cochrane street that have been unoccupied in excess of one year. If you suspect a home is abandoned then you can report this to us for investigation. Please note that not every property in each street is owned by the council
Modernising our council	1L General balance of savings to be identified	Take close look at properties especially ones not occupied but say thay ate	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Getting ther.but be faster in the housing for disabled	4. The council is already doing this.	the Council has delivered a significant new build housing programme over the last 10 years, which includes accessible housing.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Can we consider real innovation and transformation that places the customer at the heart, rather than looking at savings in service silos?	4. The council is already doing this.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	Fuel costs could be lowered if van drivers switched off their engines when having a break. It is not uncommon to see council vans sitting at the side of the road with their engines running. Perhaps cargo bikes could be used instead of vans in some instances ?.	4. The council is already doing this.	There are clear rules on the use of council vehicles for all staff. Some vehicles are required to have their engine running to operate ancillary equipment. Any incidents of poor driving practice or misuse of council vehicles can be reported to the council for action. Please contact our Customer Service Centre for assistance.
Modernising our council	1L General balance of savings to be identified	Workmen/woman could work shifts. Day/back shift/ night including weekends like most employers. Obviously getting paid appropriately for this and this would eliminate overtime.	4. The council is already doing this.	The council has shift working in place in a number of service areas to limit the need for overtime working and to better meet customer needs. The shifts are subject to regular review and this will be undertaken as part on current budget plan.
Modernising our council	1L General balance of savings to be identified	Stop allowing council vans home, let your workers drive to work in their own vehicle with their own fuel	4. The council is already doing this.	Vehicles may be taken home by employees as part of the arrangements that are in place for those who have standby duties or duties that may require an employee to deploy from home.
Modernising our council	1L General balance of savings to be identified	3. Focus of Green area and woodland walks.	4. The council is already doing this.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	How do we link partnership activities, encourage volunteers, work across agencies to meet the needs of customers and communities?	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	As your survey keeps repeating itself with cuts I will repeat my initial questions ok your cuts will save 30.3 million with a budget gap of 36.5 million forcing you to cut staffing to bridge this gap, I ask again how much money was raised from the 20/21 4.84% tax increase and where where those funds allocated??	4. The council is already doing this.	The increase in 2020/21 council tax balanced the budget in that year only. Each year costs increase (they do not stay static) especially with the current high rate of inflation. This means that each year that costs increase, either income has to increase (i.e. further increases in council tax) or expenditure has to be reduced.
Modernising our council	1L General balance of savings to be identified	Perhaps more work should be spent nationally lobbying Scottish Government, and Westminster on ensuring that local authorities are properly funded. Stripping local authorities of staff and reducing services for those children and most vulnerable does not appear to be a sustainable long term solution	4. The council is already doing this.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
Modernising our council	1L General balance of savings to be identified	Seems almost pointless to say this, since the cost savings are the only thing that is going to matter. But please, please acknowledge that when you get rid of posts - these are people which are not going to be replaced and this leaves other people in the organisation / department / team carrying out the functions that those people did. Resulting in an overstretched workforce, and many delays in getting tasks completed.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I hope that the corporate procurement system is being reviewed. Whilst I fully appreciate the need for the whole system and approach to be in place the council would undoubtedly make significant savings by procuring services and supplies from alternative suppliers on even some of the most basic items and services.	4. The council is already doing this.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	My 70 year old husband is still in full time employment to enable us to pay full rent and council tax which is a struggle. We are treated with no respect by WLC. and our house is in a bad state of dis-repair. Neighbours pay no rent and can phone and get a new shower after taking a hammer to their old one and say it was damaged by a visitor. Please treat us fairly before putting up rents - we just want respect!	4. The council is already doing this.	Customers who damage their property are re-charged the costs of the repairs.
Modernising our council	1L General balance of savings to be identified	You'll have volunteers doing all staff roles soon!	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Focus on reducing/eliminating greedy, bureaucratic tender processes that leave council departments forced to use contractors and suppliers which are often seriously overpriced.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Stop cutting services we need, how about looking at the management who waste millions changing bins!! Then spend more millions on bins that speak, absolutely ridiculous, these people should get fired	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Waste Services are provided in accordance with Scottish Government Household Recycling Charter.
Modernising our council	1L General balance of savings to be identified	Stop using 3rd party agencies...	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Required works undertaken by appropriate parties.
Modernising our council	1L General balance of savings to be identified	Could reduce expenditures by allowing the purchase of items more widely available on the internet or in stores rather than always through pecos.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	I'm wondering if outlaying more money in the tendering department and allowing people to purchase from other systems apart from PICOS might help reduce costs in a similar way.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	More savings could be made from poor procurement management and from reducing numbers of officers and management tiers within the council.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Remove education officers and all of the ex teachers who work at the civic centre in the guise of "education".	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Peccos for schools on a practical level leads to massive overspend by reducing options and better service and reduced cost, to the PT of the department. It has led to crippling school departments, thus providing a lesser quality experience for the pupils	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council's procurement strategy ensures that best value is secured in line with best value audits.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	We are expected to pay Council Tax at the same if not an increased cost so front line services should not be cut, focusing more on back office support	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The proposed increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to agreed priorities. The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.
Modernising our council	1L General balance of savings to be identified	Having put out 75 new bins at 5000 each and 9ver 30 vandilised I always question council finance, someone is making money off this bad that got to lay at (redacted) and (redacted) feet.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is a signatory to the Scottish Government Household Recycling Charter which determines best practice for household services. The new twin stream service will improve the quality of material recycled and save money on disposal costs
Modernising our council	1L General balance of savings to be identified	Stop allowing the incessant building of huge housing estates!	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is committed to providing appropriate development in line with national planning policy and the development plan.
Modernising our council	1L General balance of savings to be identified	Procurement could be simplified, too many processes to authorise payments. Also, should be more open to using different suppliers as we end up overpaying for some products e.g. a jacket on Amazon might be half the price of one the exact same from Arco but we have to purchase it from Arco as they're the approved supplier.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	The use of PECOS in education needs to be scrapped as it is not cost effective. The companies e.g Hope education charge schools a fortune for resources which can be sourced elsewhere at cheaper prices.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Cutbacks to hours within the schools could allow parents to prersue other opportunities for children and access to other learning pathways or modules therefor children should not be expected to remain in school without adequate teaching staff present. In this scenario parents should be given the choice to remove children early or perhaps they could attend one less day unless of course the child in question is at risk and is better off at school. This could be a negotiated pre planned scenario that might sound complicated now but could in turn reduce over head costs and staging needs at those off peak times.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General Balance of Savings to be Identified	No staff means no help for the people so the people shouldn't pay council tax anymore cost of living lies from government means we shouldn't pay that either	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Council tax is not a charge for specific services but a tax providing a contribution to the delivery of local services. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities. The council actively pursues all debt, including council tax, community charge, rent and commercial debtors arrears. The council will investigate other ways to improve debt collections including strengthening corporate debt management activity.
Modernising our council	1L General balance of savings to be identified	i do not understand why the council would even think of taking this service away it's an excellent company and staff needs our support.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	Are you allowed to do financial checks on council house tenants to review whether they still require housing support? There are a lot of people that I personally know - let alone the ones I don't - who get the house during a tough financial time for them, and then get themselves on track and are rolling in the money but have no plans to move because they pay £250 a month instead of 700. This seems like a money waster and a waste of council housing which is so desperately required.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Customers are not required to have a specific income to remain in social housing. Whatever their circumstances, once a customer signs for a permanent tenancy they hold a secure tenancy agreement which guarantees them that tenancy under agreement and can also include succession from family members when they die.
Modernising our council	1L General balance of savings to be identified	Lets have a look at the procurement system which is used by West Lothian Council. When making any type of purchase we are at liberty to do this vis Pecos which is a subsidiary of Ecommerce who generate trillions of pounds world wide for its owners annually.; I have been given permission to make purchases of materials for several years through Pecos and when price checking with local and smaller retailing companies these materials were costing 50% less for the items I could purchase from companies who were not on the Pecos listing of permitted retailers. How can this be justified other than large profits gained by the persons or Governments instructed by the ecommerce sector to use as the only means of purchase for our local authorities.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Lets have a look at the procurement system which is used by West Lothian Council. YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Lets have a look at the procurement system which is used by West Lothian Council. When making any type of purchase we are at liberty to do this vis Pecos which is a subsidiary of Ecommerce who generate trillions of pounds world wide for its owners annually.; I have been given permission to make purchases of materials for several years through Pecos and when price checking with local and smaller retailing companies these materials were costing 50% less for the items I could purchase from companies who were not on the Pecos listing of permitted retailers. How can this be justified other than large profits gained by the persons or Governments instructed by the ecommerce sector to use as the only means of purchase for our local authorities.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	In addition, much of the inefficiency, delay and rework is self-inflicted by poorly designed policies (such as Standing Orders) which sets limits for Quick Quotes/tenders etc which are significantly less than that allowed by legislation. Much focus has been on achieving compliance rather than obtaining value.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	put up the rents for all the council tenants that receive full housing benefit!	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Customers are not required to have a specific income to remain in social housing. Whatever their circumstances, once a customer signs for a permanent tenancy they hold a secure tenancy agreement which guarantees them that tenancy under agreement and can also include succession from family members when they die.
Modernising our council	1L General balance of savings to be identified	Get rid of PCOS - be flexible with suppliers - it will save a fortune	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Pecos system. I regularly ask to order items that I know we could source for far less from other providers. However if they are not on pecos then I cannot order from them. Surely this would save a considerable amount of money in every dept area?	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Using "PECOS" as the contracted service to order in resources for schools is such a waste of money! Schools should be able to order the best product for the best price instead of being made to order through a 3rd party.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	We have pecos that is not fit for purpose (needs replaced) as within schools cannot deal with specialist goods/resources	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	With regards to the number of systems for financial support would it not save money leaving the purchase of food and goods in education using home delivery from local shops rather than the two providers where they are double in money and not as good quality.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work. Modernising our council	1L General balance of savings to be identified	Pecos is costing a fortune compared to 'on the street' prices....especially for cleaning products. have a look at product pricing compared to what you would pay in a shop and explore ways of buying from businesses who supply high street stores.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	We do have a 5-star rating electronics repair business in Livingston, but, each time schools are asked to do business with them, they say we have to go to the council. If we really care about the environment, and we really care what we're saying, why do we fix so little and buy so much new stuff? Why we can't go to our local electronics repair shop, fix more, save more and look into local people's eyes better?	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	Staffing cuts must be made at senior executive level only.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	The use of third parties should be reduced to zero, of there are functions that only these third parties can deliver, these must be brought back in house to reduce cost (they can ALL be brought back in cheaper)	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	There are certain specialist services that it is more efficient to procure from third parties than to provide for in house
Modernising our council	1L General balance of savings to be identified	I am not a manager I work for Westlothian council and I know how hard things are right now and the council keeps putting rent up each April and living on my own I'm finding this hard	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	This proposal is focused on operational buildings only and has no impact on council houses. Council house investment is funded from rents, not council tax. By law the council cannot use general services resources to invest in council houses. There is a rent consultation which considers rent and investment in council houses.
Modernising our council	1L General balance of savings to be identified	Home care should be brough back into the Council and save costs going to private care providers.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1L General balance of savings to be identified	If there is a saving of £6.2 million, this should be spent on facilities to help children progress at sports. There is a huge gap for a 50m Olympic pool in west lothian, particularly livingston if it seeks city status. Xcite livingston is well behind the times, its a play park in water. It will not breed talented swimmers. Livingston xcite needs a state of the art gym and pool for the community	5b. Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Cut the bin men and use a third party to provide this service please. They've proven to be much more efficient and cheaper through the strikes.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1L General balance of savings to be identified	Offer staff over 50 early retirement/voluntary redundancy attractive packages - pretty sure savings will be made!	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	, open tips more don't need to be manned but will reduce time and effort on clearing up fly tipping !	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Modernising our council	1L General balance of savings to be identified	i feel the elderly would benefit also from free meals	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Do staffing levels have to be reduced and people lose jobs can a slight cut in wages be an alternative at least keep their jobs or another alternative job with a little less pay offered.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Recruitment and retention of suitably qualified staff to deliver essential services to communities is currently very challenging. This would not be possible as the council needs to continue to have staff to deliver essential services.
Modernising our council	1L General balance of savings to be identified	Stop using agency workers in care homes. WLC have a Locum which should be used..	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I take it the no compulsory redundancies rule is joining away?	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	NO one should need or be paid more than £30k a year. unless they are a nhs doctor/surgeon.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.
Modernising our council	1L General balance of savings to be identified	re look at your staffing levels, double check which staff are employed in the private sector as well as self employed prior to reducing staff numbers. In my view the staff with other income should go first.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	If possible consider getting rid of unions too as thier constant moaning and strike action is costing us all more money and reducing possible service delivery efficiency and wasting money.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	More redundancies	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I think the council is spending two much money on building houses	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment, the council proposes to use all responses to the consultation to support the review of priorities and commitments.
Modernising our council	1L General balance of savings to be identified	Stop wasting money on managers, contractors, workers sitting around doing nothing, multicoloured bins, inclusion ie LGBT agendas, climate agendas	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure.
Modernising our council	1L General balance of savings to be identified	Scrap school uniforms, that will save on grants.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	School uniforms help foster a sense of community and prevent comparison of clothing between children. Even if uniforms were no longer required, the council would still have to provide clothing grants to ensure that vulnerable children are appropriately clothed.
Modernising our council	1L General balance of savings to be identified	When it comes to council house building it is infuriating to see semi detached and features such as patio doors. Council housing is there to supply accommodation and this isn't necessarily the same values as a private house owner. Basic houses with reduced building costs is an approach more would like to see taken on board.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Council housing stock when built is made to modern standards in line with numerous items of legislation. Homes are produced for lower costs through savings from larger construction programmes and government grants. Normal features of a home should not be denied to someone because they live in social housing and their quality of home should not be sub-standard
Modernising our council	1L General balance of savings to be identified	Cycle path cost a massive amount and doesn't get used so much.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	The council needs to review the substantial resources wasted on the Corporate Transformation and Digital Teams. The council does need support for these activities but would argue to date that these teams have not delivered (despite substantial money being provided) and savings are often delivered by services in spite of any support from these teams.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The Corporate Transformation Team supports the planning and delivery of modern council services and is responsible for developing the councils strategic vision for Digital Transformation.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Sounds sensible. Staffing within direct customer facing services should be preserved, but support and advisory type roles should be cut back. Outsource your core IT functions, Outsource HR functions, Outsource Facilities functions, look for fixed price contracts. Change some terms and conditions, to be more in line with private sector, get rid of underperforming and inefficient staff more quickly. Reduce the over generous sick leave pay periods you currently provide staff.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Quicker turnover needed of vacant units. You can see places boarded up for ages. Also, council tenants that cannot be bothered maintaining gardens should be relocated to flats and those that do want a garden e.g. families, given homes with access to a garden instead. Alternatively tenants that fail to maintain garden spaces should be charged for this.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Customers are not required to meet any visual requirements for their gardens unless it poses a health risk in which case the council would discuss with customers. Some customers are choosing more wildlife oriented gardens which are better for the natural environment than a short grass lawn. The council conducts garden inspections each year at a scheduled time and also when customers raise a complaint.
Modernising our council	1L General balance of savings to be identified	Council vehicles are used by staff for personal purposes. Identify these people and sack them.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Vehicles may be taken home by employees as part of the arrangements that are in place for those who have standby duties or duties that may require an employee to deploy from home.
Modernising our council	1L General balance of savings to be identified	Reduce sickness benefit. Stop sickness benefit for first week of illness and this may reduce the amount of staff off ill.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	1L Consider converting some units or services to workers Coops giving the workers an opportunity to provide the service to the council and others at a reduced cost to current budgets. Service contract for 5 years to get the new business started with agreed savings target.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Have pupils cleaning their own schools. Great for discipline and learning.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The proposal would also be likely to be illegal.
Modernising our council	1L General balance of savings to be identified	Fine tenants that do not follow their tenancy agreement to keeping their garden to a certain standard.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	There is no 'standard' that tenants need to meet beyond removing any environmental hazards. There is no requirement to keep a short lawn and many customers are enjoying creating 'wild gardens' that boost natural wildlife and biodiversity. If you feel that a tenants garden is a hazard then please speak to the local housing office who will investigate and work to resolve any actual issues
Modernising our council	1L General balance of savings to be identified	Reduction in staff numbers is inevitable in some areas. There has already been a reduction in service delivery standards in some areas which is already very noticeable, so the council has to be careful. Gully cleaning for example - the cleaning cycle used to be once a year which very rarely happened, although according to certain people, this function was performing adequately. But now it's taking something like three years complete the cycle, that's if it ever gets completed. Hence the reason for the floods, water running along the road at half the width of the carriageway and ponding water everywhere. It's nothing to do with climate change. it's purely and simply a lack of drainage maintenance.; This service needs to be externalised in order to provide the residents of West Lothian the service it deserves. Keeping this function in-house is expensive and inefficient. Councillors need to accept this function has to be externalised.; ; Another basic function which is lacking is road sweeping. This goes hand in hand with the drainage maintenance. The material that doesn't get cleaned from the road ends up in the drainage system causing blockages and this is then more expensive to rectify through excavation and replacement.; ; The lack of verge and tree trimming is also very apparent and has now been a practice that has gone on too long, to the extent that there are now many dangerous and very untidy locations on our roads where sight lines are obscured by long grass and overgrown trees. Many road-signs are also obscured, and you can drive past them without even knowing they are there. I feel this has been a false economy over the years. Possibly another part of the service which could be externalised? Although, for some time now, it just hasn't been happening.; ; to Service delivery has already been	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Road repairs: drainage improvements are assessed and carried out by the council as necessary.
Modernising our council	1L General balance of savings to be identified	Remove all diversity and inclusion roles and stop paying money to political organisations like stonewall. Focus on the content of a person's character rather than D&I box ticking.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is committed to tackling discrimination, advancing equality of opportunity and promoting good relations both within our workforce and the wider community. We have a duty to consider how we can work to tackle discrimination and accelerate progress towards equality for all.
Modernising our council	1L General balance of savings to be identified	Traffic wardens will make money in certain area.;	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	The council previously ruled out a decriminalised parking enforcement scheme. Without such a scheme the council could not introduce parking charges and fines.
Modernising our council	1L General balance of savings to be identified	WHERE IS EVERYONE THAT IS ON COMMUNITY SERVICE, THEY COULD BE PICKING UP LITTER DOING COUNCIL JOBS FREE	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	This has previously been investigated, however it is not possible to use this approach. The work of the council is not assessed as appropriate for this type of work.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Cutting budgets is never an easy decision to make as there will ultimately be consequences to every decision. Without a doubt being more efficient and looking at the way processes work and the services that are delivered goes without saying. I think that council could be smarter in the way it is operated, communication between departments could be better and overall being accountable for each and every penny that is spent is a must and should be the case in every department, with more and more questions asked.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	When a house is taken back it is stripped when good flooring etc could be cleaned and reused	6. The respondent suggested an improvement. Officers will consider how this could be developed.	This would be an issue for the relevant landlord
Modernising our council	1L General balance of savings to be identified	Perhaps we need to go back to contracting out some services - or is this a false economy too?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	First; Vehicle should be next 4 vans for 4 workmen is an extravagance and not necessary	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	There is still the reputation of some of the council workforce not providing value for money in terms of job costs and time allocation especially those working in the public eye and providing repair services etc	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.
Modernising our council	1L General balance of savings to be identified	This is of huge concern, but I understand the situation. If I could suggest investment in IT services (such as making all resources electronic rather than printed / paper and investing in universal electronic resources or at least the right resources appropriate to staff duties) this could help cut costs long term. As previously mentioned, my laptop isn't fit for the role I am required to fulfil and I am unable to connect to most of the projectors, smartboards / promethean panels in WLC properties without a work around or adapter. Also, is there an unknown reason why ".gov.uk" and ".org.uk" emails are so different? Is "glow" effective (on the assumption you use this for education)? I can't even have ".org.uk" emails respond to a voting button as it doesn't allow them too. Again, I would stress standardisation throughout, unless there is a good reason not to have it?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has made significant investment in the IT infrastructure and will continue to allocate appropriate resources to introduce new technology where appropriate. The council's ICT Strategy seeks to deliver change in line with advances in technology and changes in council priorities, whilst still having a clear framework within which to operate.
Modernising our council	1L General balance of savings to be identified	Being in business. Bring in good quality supported events for the town. No xmas market	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Appropriate strategy to be reviewed
Modernising our council	1L General balance of savings to be identified	Do something good, do something that the community will be proud of.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General Balance of Savings to be Identified	Further comprehensive detail on this is essential given the scale of funding gap identified	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	Talk to your staff who do the jobs and see what they think can be improved/done differently as they are the ones doing the job they will know.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	If things are being contracted out, that is where you start looking at cutting back	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Staffing losses should not include those involved in supporting our most vulnerable.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. All services will be reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned agreed priorities.
Modernising our council	1L General balance of savings to be identified	Please ensure level of service at various areas do not drop.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Modernising our council	1L General balance of savings to be identified	You would have to lose a lot of staff to make that saving! This is not always the best solution. How about savings from staff working from home? Not using offices and desks and reducing buildings?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Modernising our council	1L General balance of savings to be identified	Staffing in most cases are our best resource but staff who are not performing need to be "let go" sooner , this process is currently inefficient .	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has a robust approach to performance management. Opportunities to refine and improve processes are welcomed and considered within the parameters of employment legislation.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Identifying what reas is needing reduction rather than numbers.; ; Such as sickness levels and policies around this ; ; Reducing times spent rather than numbers.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has a robust approach to attendance at work. Opportunities to refine and improve processes are welcomed and considered within the parameters of employment legislation.
Modernising our council	1L General balance of savings to be identified	Could we look at areas and services where we could work in partnership with other councils to create a service that works across local authorities and that shares resources?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Opportunities to work in partnership with other local authorities and community planning partners will be investigated.
Modernising our council	1L General balance of savings to be identified	SAvings can be identified where we can look at our staff carrying out works that are being put out to sub contractors.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure. The council must consider both internal and external provision to ensure best value. In some circumstances it may be better value to deliver through external provision.
Modernising our council	1L General balance of savings to be identified	Yes - get rid of the dead wood. Streamline the organisation and its processes. Measure staff on output and performance, change the culture, improve the leadership, increase motivation and productivity.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1L General balance of savings to be identified	Huge money saver would be doing repairs properly 1st time instead of redoing same repairs over and over and over again.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The majority of repairs completed by Housing Customer & Building Services are completed 'right first time' and satisfaction for the service remains extremely high.
Modernising our council	1L General balance of savings to be identified	Winchburgh needs the train station reopened	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council is committed to working with partner organisations to maximise benefit to our local communities.
Modernising our council	1L General balance of savings to be identified	Perhaps the remit could change and there could be more interdepartmental joined up working to stop duplication and waste.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Need to be wary of reducing staff in certain areas as the consequence may be greater burden in other areas.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I only agree with not replacing high end managers when they retire. Or replace them with one grade below.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Additionally, some staff exhibit great care and attention to their work and are a pleasure to deal with. There appears to be a wide discrepancy in performance.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has clear policies and procedures in place to support the effective management of our workforce. Many of our staff regularly go above and beyond for customers in the services that they deliver. Where any of our employees have failed to meet the expected standards, managers are required to take action, in line with our policies and procedures, to support, train or counsel staff in order to help them improve.
Modernising our council	1L General Balance of Savings to be Identified	Not a surprise but staff will likely have higher workloads or still expected to provide a high quality service with less time and resources. Back to technology if this was sleeker and customers and staff are considered before implementing that may help. Customer demands are higher than they used to be. They expect everything and now. Maybe re-educate them.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1L General balance of savings to be identified	Staff (operational) should be involved in this process as often those who make decision are unaware of processes and procedures and how this affects operational staff!	6. The respondent suggested an improvement. Officers will consider how this could be developed.	This document is part of the early stages of public consultation on budget saving measures. Further consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further. Part of this will include working with staff to develop and implement changes to service delivery and processes where appropriate.
Modernising our council	1L General balance of savings to be identified	Don't know where to save, but you have to look into paying a higher rate for care staff, they are, under paid, sickness level is ridiculous because ppl are taking advantage of the 6 month full pay as they are stressed, pushed to their limit and feel very undervalued, it has to change as the care sector is lost.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1L General balance of savings to be identified	Cuts can be made by putting reablement and domcare back to one, ppl need care,	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Procurement does not have a wide enough range of partners and needs further competition to imprve	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	recycling centres should be open on a rotational basis allowing staff to travel between sites on different days	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I think West Lothian is certainly looking a bit worse since the reduction of grass cut, weeding etc but I totally understand the need for the reduction. If we are able to sow some wild flower seed in the overgrown area's they might not look as unkempt. Maybe the local communities would be happy to help out with some area's if the council showed some encouragement and advice. As people are more aware of the lack of funding to keep the area's we live in respectable. I have noticed more people planting in borders on the main streets.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Recycling services could be reduced. I feel the brown bin does not need emptied every two weeks and could go to once a month. Across the whole of West Lothian this would concur a significant saving. Other collections could be reviewed such as larger grey bins again so their could be longer times between collections. I feel the green and blue bins are needing emptied fortnightly though and that should continue.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Hi, I don't have the time or expertise to critique all council services but just want to say a bit about grass-cutting. I support the wilding of certain areas like the centre of roundabouts but feel it's important to still 'keep nature at bay' to a degree, so keep trimming the edges of roundabouts and verges. Also, promoting more voluntary work eg round deer Park there are people including myself who strim public areas and keep the verges tidy. I know there are vol litter pickers too. I empathise with the mess that some of the gardens in council estates are getting into, so suspect you need to prioritise those areas (as this is your housing stock) but MOST OF US are capable of doing our bit to help out, especially some of those on benefits and the early retired. The more volunteers seen out and about doing stuff the more a virtuous circle can be set up whereby others suddenly feel a wee bit motivated to help out as well... it's not all doom and gloom even though I empathise with the Bathgate councillor who commented recently that society was 'de-evolving'. It can seem that way but we must try to stay hopeful and do our best with the resources we have, including you guys 😊; All the Best,***** (redacted)	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Also recycle centres opened less days in the week?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Pity you didn't stop wasting money on things like smart talking bins that hot trashed and replaced.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Please review these services and close them where you can. Either on certain days or at least during times when they are not well used. Other councils do this; community centres; community recycling centres ; hedge trimming ; grass cutting; school transport; concessionary rail travel	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	The cycle track in Linlithgow too. That was a huge spend and will only benefit a small number of people. That's not wise spending.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	This was an additional budget provided by the Scottish Government during the pandemic, not a council budget.
Modernising our council	1L General balance of savings to be identified	It must be a very hard job to save £30.3 million, but it's not about the math, it's about the people. It is just sad we are unable to invest.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Essential services are exactly that, essential. But Operational services should have a reduction in the amount of management there is. The number of supervisors right now far out ways the actual need .	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has one of the leanest management structures of any council in Scotland. The council has delivered substantial management savings to date but continues to investigate savings and efficiencies in management structures.
Modernising our council	1L General balance of savings to be identified	, sell off old buildings , rent them out	6. The respondent suggested an improvement. Officers will consider how this could be developed.	This is considered in question 21. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Modernising our council	1L General Balance of Savings to be Identified	Why not sell off the empty council properties that have been empty for over 4 years	6. The respondent suggested an improvement. Officers will consider how this could be developed.	This is considered in question 21. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has a planned disposal programme for assets which are no longer required for service delivery and have been declared surplus to requirements.
Modernising our council	1L General balance of savings to be identified	Consolidating office space, with bookable desks may assist in reducing use of lighting/heating etc in CC and therefore costs	6. The respondent suggested an improvement. Officers will consider how this could be developed.	This is considered in question 21. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Modernising our council	1L General balance of savings to be identified	Having people do two trips for one job like grass cutting etc.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment
Modernising our council	1L General balance of savings to be identified	Externalising cafe provision may offer income or attracting people to come in as a hub, and offering front line services at CC could encourage use and access to services? ;	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	There seems to be a lot of team leader/supervisor roles within certain departments that could perhaps use the worker role more than the supervisors role, perhaps training some of the men to be able to cover other aspects of jobs eg, operational services grass cutting squads refuse to pick up litter and dog fouling as it's "not there job" then you have the litter picking squads being asked to cut back a fallen tree or some fly tipping but again it's "not there job" and pass it to the right dept who turn up in the same vehicles with the same orange hi vis clothing. it seems odd that within the department it is split into little groups, grass cutting, litter picking, road repairs, can they not work together?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	There are elements of generic (cross service/trade) working in place however this could be expanded as part of service restructures.
Modernising our council	1L General balance of savings to be identified	Have more skips around for the sweeper machines, some have to travel miles to empty after 10 mins working as it gets full quickly, or have patches of land where they can then tip it to be used as a compost for local communities and gardens	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Stop spending money on gala preparations and outdated marches, which incidentally do not happen in other areas of the country.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council regularly reviews the governance arrangements that are in place in order to ensure that there is good management, effective stewardship of public money, good levels of public engagement and that the desired outcomes for stakeholders are achieved.
Modernising our council	1L General balance of savings to be identified	I feel a lot of money is wasted within the council on things that are bought at cheaper prices but then have to be restocked more often as they don't last	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council is bound by regulations contained in the Public Procurement Legislation which set out the procedures to be followed at each stage of the procurement process leading to the award of contracts within certain spend thresholds.
Modernising our council	1L General balance of savings to be identified	The council can also save multi £m's by stopping council vans being used to take employees to/from work every day. Savings on fuel/wear & tear of vans would also save £m's.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. The survey contains specific questions regarding school transport.
Modernising our council	1L General balance of savings to be identified	Would also be good to look at further building rationalisation including schools and community centres, energy savings measures including reducing the number of swimming pools significantly, looking for savings in use of vehicles.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council will continue to rationalise offices and utilise the partnership centre model across West Lothian. This includes identifying opportunities for closer working with partners.
Modernising our council	1L General balance of savings to be identified	In light of changing circumstances, the Third Sector can be commissioned to deliver essential supports to individuals and communities. The sector is trusted by communities and is agile, innovative and focussed on the needs of people. This is likely to be a more effective and cost efficient solution.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure. The council must consider both internal and external provision to ensure best value. In some circumstances it may be better value to deliver through external provision (e.g. by the third sector).
Modernising our council	1L General balance of savings to be identified	Please centralise your limited resources from the east Broxburn to the west fauldhouse for example - have specified days with dedicated transport from the outlying areas eg private free/ minimum payment transport to access these resources - I have personally used the PC resources in Livingston while searching or applying for work my recommendation would be to open the old Debenhams store for access to library / advice / support networks 7 days a week -	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The Council will review how to make best use of council facilities to maximise availability of services to customers. The council will also maximise opportunities to further develop digital services.
Modernising our council	1L General balance of savings to be identified	Sub contractors are awful. You save more by actually taking care of your properties instead of just leaving everything...to save yourselves money! 'Renovated' my building 10yrs ago and I'm STILL waiting for it to be finished so I can get my decoration allowance. It even had its own special woman working only on that, I left it with her as she suggested. I've reported this and various other things and nothings ever been done. You just waste money	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has an ongoing maintenance and upgrade program which is budgeted each year with funds from the Housing Revenue Account and other appropriate grant or initiative funding. If there has been a failure in service please raise a formal complaint and this will be investigated by senior management and reviewed by the Head of Service
Modernising our council	1L General balance of savings to be identified	A complete overhaul of practices and requirements is required. However a lot of this could be achieved without impacting greatly on public services	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Modernising our council	1L General balance of savings to be identified	Think need to be setting customer expectations things like weeding, clear ups need public to help with these things and pride in community.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Please get better coffee in the Civic Centre cafe and barista training for staff. Better coffee will make us all more efficient and raise income.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	We have to maintain key services such as - refuge, roads education, lighting etc. Without these the council won't be able to encourage investment and prosper and continue to spiral. Look at reducing the extremities - the sheer waste of money on supposed 'community' wants such as notice boards, floodlighting, benches etc is not what the majority want the budget to be spent on.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	Stop spraying every grass and hedge intersection with weedkiller. Also in general tolerate more plant growth. Use less of the toxic chemicals.; Ask your biodiversity employees for advice.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	I would like the opportunity of the residents to have their say and to clean up all of the areas in West Lothian	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Re-organisation and re-prioritisation in NETs, Land & Countryside. Within Nets, Land & Countryside the tree and woodland asset must comprise at least 50%, if not more, of the total asset by land area but is cared for with <5% of the resources of the N, L&C Team. For decades since LA reorganisation and the demise of Livingston Development Corporation this large asset has been largely neglected across the WLC area with work being undertaken on an ad hoc basis. For some reason previously well-funded Openspace projects (funded from developer contributions and other funding) plus the Revenue funding for NETs, L & C has largely gone on items such as benches, sculptures, grass cutting etc. Possibly because some people think that trees, because they don't need attention multiple times a year, have no need for pro-active cyclical work. There has been a large allocation of funding for Climate Change and Nature Recovery Fund plus 3 additional staff. This appears to be being spent on some projects which, although may be good for raising awareness, are only likely to have limited real value on the ground. Ensuring that we are able to look after the resources we already manage is more important than adding to these or undertaking small scale biodiversity projects, otherwise planting new trees is just like a "leaky bucket". Virtually all tree and woodland work contributes to the council's long-term Climate Change and Biodiversity recovery aims - probably more than many other land management actions bar the restoration of our larger peatland areas and controlling development on greenfield sites. Bringing the 100s of hectares (approx 1000ha+ plus the >20k individual trees in parks, on roadsides) back into pro-active management plus trying to advise Planning on appropriate tree protection and planting for new developments is a big task with the resources available and suggest that the Tree & Woodland Team is strengthened with appropriately trained and experienced officer and technical support. This would be much more cost effective than some of the projects being undertaken externally.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. The council will consider the various points you have raised in your comment when assessing the option.
Modernising our council	1L General balance of savings to be identified	Decision makers need to have a better understanding of the implications any decisions will have on services. Whilst this is seen as a numbers game to make the required savings; not enough consideration has been given to the impact upon staff remaining in the past.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Take on private factoring to generate additional income.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will consider all opportunities to generate additional income
Modernising our council	1L General balance of savings to be identified	We were promised a little bin at the bus stop in Bank Street Mid Calder over a year ago. Where the (redacted) is it? An old fashioned one will do. We do not need one that answers back.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your response.
Modernising our council	1L General balance of savings to be identified	Can you explain WHY there are building services employees, but much of the work is sub contacted out, where the cost is ultimately higher to the Council. Pay your tradespeople a better wage and use their skills instead of the sub contractors- who pay their staff better too	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	There are points when the council may need to use contractors for very specialist works (like asbestos) and also to maintain performance when there are fluctuations in staff resourcing levels. The labour market can be highly competitive and, like any other business, there are periods when it is more difficult to recruit the right staff.
Modernising our council	1L General balance of savings to be identified	Perhaps give (redacted) a big pay cut. He doesn't seem to do anything for his big salary. Better still, sack (redacted). (redacted) seems to do all the hard work anyway.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	So you've no idea how to save this money so just assume you'll get rid of staff? Seems a jump	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	I recognise it is difficult to identify a full £36.5m of savings at this period. However there are many discretionary services that the council delivers that should be reviewed and either stopped or reduced. These should be the focus of changes to service delivery.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	I and many others feel the government and council seem to jump through hoops for people from other places, before you look after local people. Complete slap in the face to local people, as local people are struggling.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council delivers services to people living and working in West Lothian. Support is available for those who require it. The Anti-Poverty Service provides advice and support to help people alleviate poverty. It is available to all residents to help them get additional support to help with the cost of living.
Modernising our council	1L General balance of savings to be identified	Our tenants are advised by call centre staff they will get a call back with x amount of time. Our office is already 2 members of staff down due to secondment as well as long term sickness and holidays. Customers need to be advised that waiting times on call backs, visits and application process times will take longer due to staff reductions	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council will seek to maintain or improve customer service standards and will review targets and advise customers of any changes to service standards where this is deemed to be appropriate.
Modernising our council	1L General balance of savings to be identified	The C.I.S are still appointment only for some reason, they are seeing hardly anyone in person and sit about most of the day in Strathbrock seeing no-one, if people come in looking for help they are turned away because they have no appointment even although there are free staff doing nothing, appalling. Pool cars could also go half of them sit at Strathbrock all day doing nothing.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	If you have a complaint about a service received or the conduct of a staff member please use register a complaint with us. These complaints will be investigated and responded to formally. As well as this complaints are monitored by our regulator the Scottish Public Sector Authority
Modernising our council	1L General balance of savings to be identified	The cost of OH appointments are also high and I don't know any managers who find the reports helpful.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	The council need to sort my housing before I'll even consider offering my opinion. The council ignores me constantly and is costing me 2 houses to pay for. My next step is to take my housing situation to all media outlets.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Was that a summary saying fewer staff and less wages for all? Do we have a Tory local council? Did I accidentally move to England?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	The SNP need to GO.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Unfortunate	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	The council should value the Third Sector and work in partnership with the many organisations who provide so much and alleviate many strains on council resources. It is important that staff is not cut to the point that service delivery greatly suffers and whilst saving should be made our representatives need to be fighting for rmore.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council is committed to work in partnership with the Third Sector, this is demonstrated through strategic planning and joint delivery examples through commissioned activity and grant funding. The Council's strong relationship with the Third Sector will remain.
Modernising our council	1L General balance of savings to be identified	mir"E%"\$	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Service delivery?; You actually have to be providing a service in the first place.; Recently contacted council by phone, waited 25 mins to speak and the operator was very unhelpful!; Complained and found that I was correct!; Sure if I rang again this week, be the same outcome!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	the swimming pools and gyms I would rely on your usage figures for options plus if I ever win the lottery I will open a dedicated ice rink for all West Lothian people for ice hockey and figure station training really miss that my kids loved it	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Let's be honest looking at grass verges etc you all sit on your backside anyeay	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment.
Modernising our council	1L General balance of savings to be identified	Happy for XXX XXXX to be made redundant due to his inability to forward plan and support communities. Winchburgh - promised railway station now not happening. Linlithgow - over 100 CALA homes approved and no new infrastructure to support traffic. False promises that are never met.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council is committed to working with partner organisations to maximise benefit to our local communities.
Modernising our council	1L General balance of savings to be identified	offer more services for children etc	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	dont employ 3 party workmen who charge much more and do a poor job with no follow up.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council wherever possible will use its own staff instead of sub-contractors. However there will be instances where this is unavoidable, for example asbestos removal requires the use of licenced contractors from a specific framework. Other examples may be where demand exceeds the capabilities of the workforce and there is a duty to complete the work within a given timeframe. The council already invests in apprenticeships through the organisation
Modernising our council	1L General balance of savings to be identified	Stop allocating Council workmen hours to unblock toilets fixing doors I could go on and on... plus, when new employees start as a joiner for instance, and finishes fixing a door handle within 15 minutes, but the long standing employees and firemen bully the new employees to take longer doing jobs.... 2 hours longer!!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	If there has been a failure in service please raise a formal complaint and this will be investigated by senior management and reviewed by the Head of Service
Modernising our council	1L General balance of savings to be identified	If you go into blackburns library, there is usually 2-3 staff members sitting doing nothing except chatting, I even pointed this out to a staff member & he said yeh its a great job here cos we dont do a lot !!! Same with the council side of it, staff members not doing much & when you want to ask anything they say you need to make an app & we finish at 3, its defo went downhill since it moved.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	If there has been a failure in service please raise a formal complaint and this will be investigated by senior management and reviewed by the Head of Service
Modernising our council	1L General balance of savings to be identified	Library hours	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council has a legislative requirement to provide library facilities and will review the most effective means of delivering this service, taking account of demand and opportunities to access activities which currently take place in libraries from other community facilities.
Modernising our council	1L General balance of savings to be identified	Aye your all about saving, we've been ignored for major mould infestation and damp for 2 years!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council's repair teams resolve repairs on average within 9 days so this would be an unusual case. If there has been a failure in service please raise a formal complaint and this will be investigated by senior management and reviewed by the Head of Service

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Again, you don't give a flying fig about your properties, not you living with asbestos and black mold so why care about those who are	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council spends millions of pounds every year to maintain and improve its properties. It does so in line with energy initiatives and the Scottish Housing Quality Standard for example. These requirements are monitored by regulatory bodies. Asbestos is a managed product and the council performs its duties in line with the Health and Safety Executive. Asbestos being present in a property does not present a danger unless the asbestos is disturbed. If you are a tenant and have a concern about asbestos then speak to your local housing office who can make a referral to the asbestos team. Please note again that having a suspected asbestos product in your home would not necessarily be sufficient reason for removal. For example, artex on a ceiling. The council investigates all complaints of dampness. mould in council properties. Where remedial works are required the council will ensure that these works are undertaken. In many cases this is caused by excessive condensation/ moisture in the home and you can resolve those issues yourself. Please see https://www.westlothian.gov.uk/article/44303/Dampness-in-Homes for some more information.
Modernising our council	1L General balance of savings to be identified	You put rents up folk will be homeless. This is so boring I've had enough now	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	the Council is currently consulting on the rent strategy for the next 5 year period, with tenants being asked to comment on proposed rent increase of 3.5% and 4%. Council rents support delivery of a reactive housing management service for tenants, a property maintenance service and delivery of new build council houses.
Modernising our council	1L General balance of savings to be identified	Better working practices between social care and NHS	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I have a snack bar but can't get it up and running due to the council want the planning permission payment and street trader money all in one go give us a chance to make money so we can pay for thing like this	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Through the Council's Business Gateway Service support is tailored to meet the needs and requirements of individual businesses.
Modernising our council	1L General balance of savings to be identified	Mill Centre is a total eyesore and no action to improve the towns only shops. Pupils living in Blackburn are embarrest to take friends there to ship. Disgusting!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Music tuition will continue, including opportunities to access instruments, The expansion of out of school care may provide opportunities such as learning cooking skills.
Modernising our council	1L General balance of savings to be identified	Close any defined benefit pension schemes and replace with defined contribution.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	This proposal is out with the control of West Lothian Council.
Modernising our council	1L General balance of savings to be identified	I feel it is all about votes before people. It is absolutely disgusting that in 2022 that people are relying on Food banks, people are homeless, cannot afford to heat their homes, are jobless, nhs and social care is a joke (not) basically the whole country is a complete mess. This mess has been caused by the government and local councils, including West Lothian Council. Complete and utter shambolic mess, it's like living in a 3rd world country. When Livingston Development Corporation we're in charge things were so much better. The government and West Lothian Council are needing to get their act together, what a mess and the British tax payer is paying for this.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1L General balance of savings to be identified	Council staff worked all the way through the pandemic. They deserve more than this. Can't you get those who can afford it, to pay more? When did you last revisit council tax band allocations?	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values.
Modernising our council	1L General balance of savings to be identified	Stop freezing people rents this does not help deficits.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The rent cap is to be introduced by Scottish Government and is beyond the council's control. The rent cap and proposed moratorium on eviction will still allow evictions where the rent owed is in excess of a prescribed level.
Modernising our council	1L General balance of savings to be identified	The Ukraine scheme you ran and run is a mess.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	This is the responsibility of the UK Government and Scottish government
Modernising our council	1L General balance of savings to be identified	The Ukraine scheme you ran and run is a mess.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	This is the responsibility of the UK government and Scottish government
Modernising our council	1L General balance of savings to be identified	Try limiting pay... not of the people who actually do productive work; but of the useless, parasitic stuffed-shirts. Cap WLC executive/senior salaries at £60K - the high salary executive culture is attracting only the greediest and most corrupt.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Holyrood needs to be held to account. What is being done to protect jobs and services .	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Cut staff cut services not a good idea, why not cut the extremely generous pensions that take up a fair percentage of council tax revenue and bring it into line with normal pensions the rest of us have to live with	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is committed to working with employees and trade unions in managing changes to its organisational structures, staffing requirements and terms and conditions of employment. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Cut pay at the top.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Cut the chief's wages to a living wage	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.
Modernising our council	1L General balance of savings to be identified	Instead of cutting staffing levels, cut the wages of those at the top who are earning and obscene amount of money for the little work that they do.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council recognises the importance of managing pay fairly and in a way that motivates staff to make a positive contribution and support the delivery of the Council's objectives. In order to comply with equal pay legislation, the Council is required to develop pay and grading arrangements underpinned by job evaluation. Annual pay awards are determined through national bargaining arrangements which help ensure that certain minimum standards are maintained in relation to pay levels.
Modernising our council	1L General balance of savings to be identified	The Scottish Government should stick to it's day job, the whole country is a shambles, very depressing reading	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General balance of savings to be identified	Does anyone in the council actually believe in serving the community? Why not fight to keep funding because if you truly care, gross excesses can be found in National Government that can easily cover this, especially the crazy ideas of education and leisure reductions.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government determine the funding envelope for local government, which for the forthcoming years is to be frozen despite substantial increases in prices. The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
Modernising our council	1L General balance of savings to be identified	Cut down the number of councillors and their fees for attending things	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The number of councillors is determined by Boundaries Scotland.
Modernising our council	1L General balance of savings to be identified	Has the council looked at increases to council tax? I appreciate this is a difficult time to propose increased costs, but perhaps the most affluent bands could be looked at, with least affluent areas left alone so as not to negatively impact those facing the greatest cost pressures.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Council tax bands and the valuations for them are set nationally by the Scottish Government. The council does not have the power to change banding values. The current council tax legislation means that any proposed percentage increase needs to be applied across all bands.
Modernising our council	1L General balance of savings to be identified	I blame Scottish Government, they have made a mess	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1L General balance of savings to be identified	Why when a budget is drawn up is it that services have to be reduced for tax payers? There must be the ability to cut down on spending elsewhere such as travel costs for council staff members, perks that come with some senior members of staffs jobs, free meals for certain employees. Also a review of Income Based Jobseeker's Allowance, Income-related Employment and Support Allowance, Income Support, Working Tax Credit, Child Tax Credit and Housing Benefits On a regular basis to ensure these are only being provided to those that are in desperate need of them.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments. The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Modernising our council	1L General balance of savings to be identified	We need to stop paying Billions to the French to stop immigrants coming in as it is not working and then the savings here could be cut by half.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1L General balance of savings to be identified	We do not support cuts to police, ambulance or fire services.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	Instead of charging for these maybe Councillors could go back to working on a voluntary basis and use public transport rather than cars even when on official business rather than using official cars or their own cars and claiming expenses.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	This proposal is out with the control of West Lothian Council.
Modernising our council	1L General Balance of Savings to be Identified	Very sad situation. Support from core government is required	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point.
Modernising our council	1L General balance of savings to be identified	Has to be acceptance that you can't get the same output with fewer staff.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General balance of savings to be identified	ok wish the government would stop giving themselves big payouts and give the money to the services and the country they are put in to represent you should not have to cut anything if the money was giving out right	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	This proposal is out with the control of West Lothian Council.
Modernising our council	1L General balance of savings to be identified	Government policies over the last few years has resulted in local authorities and citizens bearing the brunt of these fiscally disasterous strategies, which we will be paying for decades. Local councillors have a duty to raise this with central government in Scotland and Westminster, and to demand that the people of the United Kingdom are prioritised over foreign wars and policies that very clearly are detrimental to the economic wellbeing of the country.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	This proposal is out with the control of West Lothian Council.
Modernising our council	1L General balance of savings to be identified	Bring services in line with the English Parish Council practice, provide the right regulations and financial support to local areas to run their own affairs	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment, the council proposes to use responses to the consultation to support the review of council services, prioritisation and decision making.
Modernising our council	1L General balance of savings to be identified	The denial of democracy in West Lothian through the Labour Party, Conservative Party and Lib Dems working together in a de facto (but undisclosed/unadmitted) coalition, to deny the, by far, largest group with the largest support of the West Lothian electorate, is morally despicable. As such, this process of consultation is fundamentally flawed and lacking in democratic legitimacy. Any such proposals should be included in the respective political manifestos prior to election of the councillors. The sub-committees should be formed by councillors in a manner directly reflecting the "first-preference" votes of the people - and directly relateable to the said manifestos. This situation is non-existent in WLC.; So, the presentation of arbitrary "funding gaps", as decided by this coalition and it's policies is spurious. If you cannot accept and respect my vote then you are not fit for office and I won't respect you or your chosen process.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment, the council proposes to use responses to the consultation to support the review of council services, prioritisation and decision making.
Modernising our council	1L General balance of savings to be identified	Can we remove universal provision (eg breakfast clubs) for people who do not qualify for low income support?	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Some universal provision is required by legislation. In other cases, the Council has made decisions when setting its budget.
Modernising our council	1L General balance of savings to be identified	Perhaps if ms sturgeon could manage to allocate the money to the correct areas and not squirrel it away for independence we would all have a better life ; We are concerned the effect these cuts will have on the public especially those who need it most ie our children and our senior citizens. ; ; Please think about your staff Those who will loose their jobs and those who will be expected to keep the services running	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government determine funding for local government from the overall Scottish Budget. Councils have been lobbying consistently for fairer funding for local government to protect local services. The council regularly emphasises to the Scottish Government the need for a fair settlement for local government as well as working with COSLA (the body that collectively represents local government in Scotland) to emphasise this point. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1L General balance of savings to be identified	The council needs to be more innovative and look at savings through earlier intervention and prevention and using data to target more resources more effectively. Why does the council spend so much money on B&B for homelessness, would it not be better to spend money on addressing underlying issues? Can we look at the reasons young people leave home and support them to stay in the family home? Do all homeless presentations automatically qualify for support - can we challenge the legislation that allows this?	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Homeless legislation is the responsibility of the Scottish and British governments. The council is required by law to provide accommodation under specific conditions and where those conditions are met that demand can create costs for the council.
Modernising our council	1L General balance of savings to be identified	Crime, attacks etc need to be looked at so it is safe for walkers in these areas.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Crime would be the responsibility of Police Scotland

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General Balance of Savings to be Identified	I would suggest that this consultation has already caused damage to morale. I would offer that the council has a demotivated and demoralised workforce that will be looking at attractive offers elsewhere. Having experienced this in another organisation, I would advise that you rethink this strategy now and communicate your intentions in a better manner.	9. The respondent made a comment on the survey question.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	Although the survey asks for opinions I'm sure that things are already in place with the proposals you have mentioned, this is just something that has to be put out to show that you might take opinions into consideration but highly unlikely.	9. The respondent made a comment on the survey question.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. All suggestions will be fully considered to identify options to ensure the council has a balanced budget.
Modernising our council	1L General Balance of Savings to be Identified	This is in addition to the other staffing savings set out in other areas of this consultation. Staff may be concerned at the amount of savings being proposed through staff reductions with the level of detail set out in the consultation particularly as the cost of living continues to rise.	9. The respondent made a comment on the survey question.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	I would like to see more detail on where these staffing reductions might be made. Front-line services such as home care, waste collections and recycling centres, road maintenance and gritting, should not be cut, as they are obviously essential to service users' safety and quality of life. However, there has been an increase in "woke" posts recently and I'd like to see an evaluation of the need for posts that include the words "development", "equality", "diversity", "welfare", and such like, as they contribute little to citizens of the Council. Posts should be evaluated based on their real benefit to people who live here.	9. The respondent made a comment on the survey question.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	The information being given to be commented on is so vague it makes it impossible to answer and in some cases understand and therefore I have been unable to give Frank response	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General Balance of Savings to be Identified	This is very vague and does not make clear impact of suggested changes.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General Balance of Savings to be Identified	6.2 million in staff is a lot of people out of work.	9. The respondent made a comment on the survey question.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	I am sorry to hear of the possibility of staff reductions and losing the knowledge from staff who are very often able to advise and head off problems they have encountered before saving time and usually money.	9. The respondent made a comment on the survey question.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	Cutting staff will reduce quality of service.	9. The respondent made a comment on the survey question.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1L General Balance of Savings to be Identified	Seems to be a catch all comment but no detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General Balance of Savings to be Identified	Again, details needed to make any worthwhile comment!! How can you possibly ask people to give comment on such wide reaching statements?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General Balance of Savings to be Identified	I don't fully understand this part although the world is in a mess just now	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General balance of savings to be identified	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.; ; There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.; ; This figure alone is alarming and highlights there is nothing else to cut if officers are unable to identify where further cuts could even come from. The local authority must find a political solution to the funding crisis to protect vulnerable children and families.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	Comments to what, no actual question being asked.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General Balance of Savings to be Identified	See my answer to 1A. It is disingenious to ask people to comment on such a broad proposal with far too little detail for anyone to give an opinion on - it constitutes tick box consultation. It is difficult to argue with the broad principle outlined but it very much depends on how it impacts on people - reducing staff can often mean that the only method of communication is online and in many organisations this causes much greater inefficiency/no help at all for the customer/client. I have sympathy with the council who have no choice but to make savings, but reducing staffing levels is most likely to result in a deterioration in services.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General Balance of Savings to be Identified	Not enough detail to make constructive comments. Need more details about where and how this will continue to allow service delivery given every officer seems to be overworked and struggling to achieve their workload.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General Balance of Savings to be Identified	This is the closest so far to an honest and valuable question. Would be better if you defined how many jobs go for £6.2 million, and what services would be lost or reduced, then the public could make an informed decision.	9. The respondent made a comment on the survey question.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1L General Balance of Savings to be Identified	I do not see any reference to No use of technology to reduce costs? Is it possible that, metaphorically speaking, a haircut of the beast might negate some of the diet menu?	9. The respondent made a comment on the survey question.	The comment was in the form of a question
Modernising our council	1L General Balance of Savings to be Identified	Needs more detail.	9. The respondent made a comment on the survey question.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken.
Modernising our council	1L General Balance of Savings to be Identified	Thai survey is good in principle but many of the questions are not clear on the impact and detail to be able to comment, this should be redone and be transparent and clear to all. Otherwise it's a waste of a great opportunity to engage with your community	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General Balance of Savings to be Identified	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General Balance of Savings to be Identified	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General Balance of Savings to be Identified	Not enough detail of impacts to make an assessment. What are the "Officer Proposals".	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	Very difficult to comment without details of what this means. General comment - outsourcing to private firms usually means poorer service and poorer terms and conditions for workers.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General Balance of Savings to be Identified	This is so vague. What do you expect us to say? Invest in our children's education and in our health and wellbeing overall.	9. The respondent made a comment on the survey question.	Thank you for your comment.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1L General Balance of Savings to be Identified	council staffing is at a level were it just works lowering staff numbers would result in a poor service to all .	9. The respondent made a comment on the survey question.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	Frightening to think someone will lose their job	9. The respondent made a comment on the survey question.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	As a council employee these are worrying times it's already hard making ends meet and now the worry of losing my job. Also the time a quality of my daughters education at risk.	9. The respondent made a comment on the survey question.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities. The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General Balance of Savings to be Identified	Will be very challenging unless we just deliver statutory activity only	9. The respondent made a comment on the survey question.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities. The council will have to continue delivering statutory requirements however changes and efficiencies can continue to be made in service delivery.
Modernising our council	1L General Balance of Savings to be Identified	Hopefully the staffing reduction in council will be by natural retirement. If not this could lead to a large increase in unemployment in the area	9. The respondent made a comment on the survey question.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1L General balance of savings to be identified	Vanity cars should go.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1L General balance of savings to be identified	I do not understand how services can be maintained with this enormous amount of money being cut. It would be helpful to know what the changes to service delivery and staffing levels actually means.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	More information needed on what this means for everyone involved. The staff who loose jobs and what that means for the public	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1L General balance of savings to be identified	to difficult to comment since there is lack of information	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Yes put buildings to good use but keep staff	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Use offices that have free desk, there are free desks in many offices that could be used and smaller buildings closed.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I refer back to my previous comment about underused spaces in WLC buildings, in which whole floors could be rented out to businesses or else used as co-working spaces such as the Melting Pot. - All good in theory, but are WLC systems and processes already set up for this (e.g. IT security) or does it require some investment?	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Ok as long as all communities continue to have sufficient facilities.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agreed however parking facilities at any new centre needs to be adequately assessed by planning. Armadale partnership centre and swimming pool has insufficient parking for the services offered. Whitburn leisure centre has never had sufficient parking.	1. The respondent advised that they agree with the proposal.	The Council will consider parking requirements for any new facilities

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems reasonable but it should not leave communities with no facilities as can often be the case. If there is a community centre that is being well run by local people and there are no other equivalent facilities then they should continue to be supported. The world does not revolve around Livingston!	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Requires moving of social, recreational, educational, health, wellbeing and religious activities currently taking place in those Community centres and Village Halls to Partnership Centres or other Council owned premises, e.g. schools. IF asset transfer is not a feasible option for a community organisation.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think buildings should not sit empty, but you need to ensure that there are facilities in each community.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Whilst partnership centres work on paper, for those most disengaged they are intimidating. Need to work on making them accessible - location/physical accessibility but also breaking down confidence barriers	1. The respondent advised that they agree with the proposal.	The council will provide support to customers who wish to access partnership centres. The Council will also offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 20
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as no-one loses out and there is still good management and maintenance of the buildings, this could be a good thing. However, it may mean that other community groups could lose out.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This would benefit families in deprived areas offering a provision for their children	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good, so long as community centres remain easily accessible to all in the community. If consolidating the number of village halls/community centres meant that people had to travel further to access them, this may mean certain sectors of society lose out.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Opportunity to modernise and bring the community together in hubs such as schools. They are a great resource for the community.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations and education facilities. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree. Most community facilities are used a few times a week and empty for the rest of the time. This is not sustainable.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree but you need to consider how you support to community groups to manage buildings and how they balance their budget without some support from council	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015, Support will be provided to community groups who wish to consider asset transfer
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is all good and well as long as accessible to people within their communities without having to travel.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as there is a full consultation - then WLC should only retain a minimal number of "Community buildings" and as in Linlithgow, which has a plethora of large "under used" buildings in and around the Centre of the Town. Suggest these be "off-loaded" starting with the Burgh Halls. Suspect the savings in this category has the potential to be greater than £1.1 million!	1. The respondent advised that they agree with the proposal.	The council does engage with the community and there is information and resource available on our website for this https://www.westlothian.gov.uk/article/33036/Consultation-and-Customer-Engagement

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree this is a good use of resources - communities need to get more involved and support themselves in partnership so Council dont have the running costs	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems okay, however would need to ensure that a binding legal document sets out who is to maintain the buildings, what happens if they are abandoned? Would the council have to step in?	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Oh so you're now looking at reducing council facilities when you wouldn't look at it during covid.	1. The respondent advised that they agree with the proposal.	The council will explore ways of delivering services and community activities in local areas.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Many are largely under used, so consolidation seems a sensible step.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds OK but cannot conceive how you will get cost savings as no community will be able to foot the bill for building maintenance etc. Again charging the public goes against the whole scenario of community centres.. Not explained.	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This makes sense. Sell off old land & buildings	1. The respondent advised that they agree with the proposal.	The council has a planned disposal programme for assets which are no longer required for service delivery and have been declared surplus to requirements.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't believe consolidating the buildings in to one resource is a bad thing. But consideration must be given to ease of access for the community. (ie - if you are putting all community resources into one building, the whole community it serves must be able to access it) and as much as it may be able to be accessed via public transport, what was in walking distance for a person, may no longer be, so is that person able to take public transport to a new destination?	1. The respondent advised that they agree with the proposal.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds like a good idea but you sold Carmondean Library using this model and it's still lying empty. No regeneration to the are.	1. The respondent advised that they agree with the proposal.	The council has a planned disposal programme for assets which are no longer required for service delivery and have been declared surplus to requirements.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think empowering people is a good thing. It makes them more responsible, where at the moment I think some have the attitude that it council's responsibility and they will have to find the funds to provide. I have seen needless waste first hand with this.	1. The respondent advised that they agree with the proposal.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I agree with this proposal. There are plenty of building throughout West Lothian that are suitable for community use, some of which would support small businesses. The council should look to close poorly utilised community buildings if communities are not willing to take on the responsibility of running and paying for them.	1. The respondent advised that they agree with the proposal.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Intergrating services will help to reduce costs	1. The respondent advised that they agree with the proposal.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Great idea! Civic center is nowhere near capacity. However, you still have county buildings in Linlithgow open. Current makes no sense. It is a shame huge budget cuts have actually focused you to look at this. This has been a disgraceful waste of money for years.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No objections, provided that local communities and those without independent modes of transport are still able to access these facilities.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There is little enough in some communities for tenants to participate in as it is, especially the youth. I think people need local facilities/groups to participate in no matter what age you are. This in turn would reduce youth crime due to boredom and help people's mental health.	1. The respondent advised that they agree with the proposal.	The Council will offer communities the opportunity to access community facilities in partnership with other organisations, to support continued delivery of community activities where the communities have determined that there is a need for that activity to be delivered . Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I would hope there is scope however for the Council to support and engage with these community groups	1. The respondent advised that they agree with the proposal.	The Council will engage with community groups to offer them the opportunity to access community facilities in partnership with other organisations, to support continued delivery of community activities where the communities have determined that there is a need for that activity to be delivered . Community groups will also have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The council can't afford to keep these buildings - if communities want them they need to use them/take them on themselves. Use of these buildings are low and although some people will miss them, the council can't continue to provide facilities for a small minority at a high cost.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Services are delivered locally where this is appropriate and delivers best value.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Yup. Less buildings	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council will explore ways of delivering services and community activities in local areas.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This appears reasonable, following local consultation	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This will only work if communities are genuinely supported to undertake the responsibility for these buildings. We have had an asset transfer policy for over 5 years, but have made little in roads into delivering it, due to a lack of appetite within communities.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	That's good	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems fair	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Makes sense to have partnership centres	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This seems reasonable	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems ok	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If well thought out and supported, there could be mileage in this.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think an integrated approach to service provision is great.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There are more organised facilities in our area, however they are becoming more expensive to manage and people cannot always afford them.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This I agree with if people can be empowered to keep the 'community' going	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems reasonable as long as communities are given the opportunity to engage in this properly AND that partners facilities are going to be open late enough to allow groups to meet and that letting charges are not cost prohibitive and space is available for clubs equipment. Needs to be mapped out well and completely transparently.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good idea - perhaps help with insurance might still be an issue WLC could help with but it seems very sensible approach to reduce costs.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Makes sense	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good idea, depending on what they are used for	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good idea, depending on what they are used for-not houses	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Potential savings here. All areas that can still provide good service to community may not need refurbished or rebuilt.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with this	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Okay	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree, but please make sure that support is given to any community group to understand the basic health & safety requirements of running a facility before any transfer is agreed.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community groups are essential.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	After reading the above, I will continue to trust your decisions in the areas I have no experience in , but thank you for the opportunity to co-operate !	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	In principle, this seems reasonable, but we are seeing the impact of large Partnership Centres run by management committees setting hourly rates for room hire so high that footfall has reduced therefore this matter needs to be taken into consideration.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I agree savings could be made by closing unsure or rarely used buildings.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree on the whole but any consolidation should ensure that each community retains access to a community facility for various functions and services.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I'm not sure how this would work, but would welcome seeing more detail.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	some provision by the council must remain, but it makes sense to scale things down given the current financial climate. The benefit of the current provision is that members of the community can give their time, for free, as my husband and myself do, to run a group for the community at little or no cost. Its important that this is taken into account during this change. Many groups would be at risk. We give our time for free, and contribute financially to the running of the clubs, but given the cost of living increase, we cant expand on that any further, or absorb any more cost. My husband runs the club with a focus on ensuring the sport is accessible to all, nomatter the families financial circumstances. For my own group, I would seek out concil provision to run my group as the cost was much lower for the group, meaning i did not have to charge families to attend. I think all that does need to be taken into account.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Worthy of ongoing review.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Absolutely. However, we still have key buildings that quite frankly are draining our finances (Bathgate Social Work Centre, St David's House to name two). These alone would double the savings.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	West Lothian has a number of excellent community resources and centres and it is important that they continue to be readily available and easily accessible	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Only problem with this is that if a council worker wants to see someone in a community centre for an appointment, we would be charged for that meeting so it would still cost the council for that meeting or group work etc	1. The respondent advised that they agree with the proposal.	The council will continue to be able to meet customers by using its resources effectively and choosing locations that meet customer demand while streamlining services
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Council facilities in an area should only be reduced if there are other facilities still available within the same community or other community groups willing and financially stable enough to take on the buildings. A lack of any community facilities will lead to increased frustration of local residents and an increase in antisocial behaviour and crime.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree, providing services to local communities are not compromised.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	so long as this doesn't result in the closure of facilities, it makes sense	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agreed the world has changed the council should adopt a work from anywhere policy and reduce the number of council building	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I agree. But not if you are cutting Facilities Management again.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I agree, this seems like a sensible approach. I would also question whether the amount of council offices are required, as home-working since the start of the pandemic has worked well, sickness absence has dropped and people have a better work/life balance. If we do go back to permanent office working then we've lost all sense of reality, we must encourage staff to have a better carbon footprint by travelling less.	1. The respondent advised that they agree with the proposal.	The council will continue to review processes, procedures and methods of service delivery to support improvement and efficiency in services whilst delivering on commitments.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Use should be made of existing modern building including schools to bring about efficiency. Old buildings costly to maintain should be closed and the land sold and repurposed togenerate income	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities, including schools, in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	More partnership centres will be good.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This sounds like a very worthwhile consideration	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Are we just going to do everything online? Great for people who don't want to leave the house.	1. The respondent advised that they agree with the proposal.	The council will continue to offer a variety of access to cater for the needs of customers. Where possible simple requests can be handled through online portals but customers may have more complex needs that require talking to staff over the phone or in person
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds great. Communities should be more involved as it will embed a respect and ownership which will in turn help development within, create opportunities and save money.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The partnership hubs are excellent as long as they are cited so that all customers can go to them easily.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	A great idea in principle but not sure what this looks like in reality. Hard to make meaningful comment with limited level of info.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	unfortunately I think we all need to agree to this	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No baseline to judge the proposals service impact or sustainability. But given the number of empty properties under the Council control this should be achievable, and more.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would give the council more money so could be a good idea	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	partnership centres are a good idea- maximise the use of a single building instead of running and paying for several that are not running at full capacity.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community empowerment is vital and should be encouraged	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds reasonable. Also start charging community Groups market rates for the use of these properties. If communities want and need these buildings, then let them pay for them. If not, sell the buildings.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Hope the plans work out.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Yes to consolidation of community centres and halls. It may actually be cheaper to use private sector halls and meeting rooms than to maintain Council properties. No to asset transfers. It is unlikely these would create real savings.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Please make sure the buildings are in good repair and then allow communities to take over the running of them, lots of great volunteer groups out there who can use workspace.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. the Council already has repairing arrangements in place with management committees to ensure that buildings are maintained.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Why should the council own any buildings, land etc oh, because when they don't know that, it costs the public more to use it so great, save me from the council pocket by taking it out of the public pocket .	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Some villages have superb community involvement. Encouraging this and supporting communities would be great.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This seems like a sensible idea. There are loads of alternatives to using community centres in most local communities. Shut poorly used community centres and encourage groups to use things like local cafes or church halls. This generates some money in the community as well.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Passing buildings over to communities for control can work well for the community but has risks as to them obtaining funding to keep the building going and relies normally on a few individuals to keep things going and if they leave then risk of communities losing their local asset. Consolidating the number of Council Offices is sensible	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I do believe it is important to empower local communities, it helps them appreciate that it's not just a given they receive grants / funding from the council. They do have to fund raise like many other community groups who are not funded by the council. But I also believe it is good to hold on to assets.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems sensible to rationalise and centralise, so long as all communities have access to facilities, and duplicate venues offered to others for use.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Ownership by each community sounds great but how is this going to be monitored in order to ensure equity across areas of the council (high/low deprivation). Within a low area you are likely to have many volunteers and therefore greater spread of people working towards the good of the centre/finding grants/organising workshops lets etc. However the pool of people within a high area will LIKELY result in fewer volunteers but a requirement for a greater level of community support/access.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2017
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I would imagine there could be significant savings through consolidating offices and making more use of agile/flexible working arrangements for staff. Large office premises seem wasteful	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	We absolutely have to be realistic with modernisation	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with supporting more local involvement in community services.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	These will be a loss to the local communities that use them regularly, however provided that the services offered within the community centres are still widely available this could be productive to save money.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Absolutely reduces the council buildings and slimline service buildings to reduce and reinvest use of council money.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community Centres are no longer the HUBS they used to be, if we can sell this property and reinvest the money in our services and people this should be done. On the flip side, we should ensure the jobs and groups who still reside at these places are moved to appropriate spaces within our partnership centres.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	With more personnel working for part of the time from home then surely there are offices which are no longer viable for use and could be sold or used for a different purpose	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The question arises do we need as many as Covid proved for the majority we didn't - However the elderly and vulnerable still need that support - it is vital and should be placed in a pivotal position to reach the vast majority.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2017
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is a fair proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Happy. Was that team work is very important	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Makes sense	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with this measure	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I strongly support this approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems logical so the community can have local access	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Supported	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No issues with this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is a good model provided any agreement entered into is sustainable and represents value for money for both the group and the council.;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree this is a good use of resources -	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Makes sense, go ahead.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree. More sustainable provision approach is required. Further detail also required.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agreed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not ideal but seems sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree...liase with staff	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I would just like to comment that I don't envy the Council having to make these cuts and they will not be popular. It would be worse if Scotland was Independent!!! I cannot believe the state of the country just now under Scottish Government. If they would concentrate on the day job!!! I am very depressed with this consultation. If cuts are needed then so be it. IO know WLC are looking aheads but what a mess!!!!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good idea in theory	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Needs to be carefully managed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This seems like a wise proposal and will hopefully save buildings being left to become derelict.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This seems a sensible idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Very supportive of this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds good and like a plan.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	i agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds like a reasonable approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	GOOD IDEA	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	What is required for asset transfer, what support is available for communities? Given the current cost of living issues, with the cost of utilities etc rising I think it is unacceptable for the council to maintain excessive properties where I expect the majority of the population never use and therefore subsidise for a handful of people where resources could/should be redirected.	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think there is an opportunity to sell off council buildings such as St David House with home working here now. Staff working hybrid could work from existing locations such as Bathgate PC and Whitburn PC.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Don't really see the point in every single neighborhood having a council building. Especially with the cost of energy rising sharply.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This should have been done before fell into disrepair- too many empty buildings and too hot	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Could potentially look to centralise where nearby areas have numerous buildings/halls council owned.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council will explore ways of delivering services and community activities in local areas.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Think this is a good use of space and model to follow. This would enable small groups to work from one space	1. The respondent advised that they agree with the proposal.	The council will explore ways of delivering services and community activities in local areas.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	close other venues that aren't used well.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	close st david house ;	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This seems a sensible proposal if there is under utilised facilities.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If there are buildings with low usage thus seems a sensible proposal.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Only keep essential buildings,	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	make what's left energy efficient	1. The respondent advised that they agree with the proposal.	The council has energy audits across all buildings to identify energy saving opportunities in each building. The council will explore opportunities for reducing the energy bill through the use of renewable energy solutions. The council currently uses Biomass and solar PV panels to generate energy in some council buildings. Other Renewables will be looked at for incorporation where economically viable.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As detailed previously (in relation to service like Nets and Land etc) I would support this as a positive reduction of services and savings.	1. The respondent advised that they agree with the proposal.	We will review our assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If the services/groups all have homes to go to then this makes sense. For example if groups can be accommodated in the partnership centres then why would another community centre be required? Would be good for benchmarking / good outcomes examples to be provided for asset transfer.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community Centres and village halls are essential for local communities, particularly those with an elderly population. These allow for social interactions that can be vital for elderly residents	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The council needs to offload most of these little used community facilities or close them down. We have schools, church halls, cafes etc in all of our communities that offer alternatives to how some of these buildings are currently (poorly) used	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Proposal makes sense. Many community centres already have management committees and they should be supported to take them into community ownership.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good idea, although the groups who take on need to be fully supported to be able to do this right - cutting staff wont allow for the support needed. Need to invest in staff so that they can help communities do this.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Very Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	i support this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	That sounds positive	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Needed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems fair.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think some buildings could be used better. Also, do you need all the offices/buildings now a lot of staff are working from home and not in the office all week? Things like this needs to be looked at as i think savings could happen from this.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	agree a lot of the older building are in need of repair costing money, great idea of partnerships sharing buildings	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Yes, sell surplus buildings and maintain or build only those which cannot be digitised (ie, libraries)	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sell off un used properties	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations. The council has a planned disposal programme for assets which are no longer required for service delivery and have been declared surplus to requirements.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree. We do not need so many buildings if staff are able to work at home through hybrid working model.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Given the imminent budget position, this needs to be accelerated. I would propose that these buildings be declared surplus and sold immediately if a CAT transfer has not been agreed within an agreed timescale e.g. 6 months. If this dovetails with the earlier proposal for FM savings, it could be possible for communities to access even more buildings after the community centres are gone. Need to somehow reduce the number of country park buildings, sports pavilions, standalone libraries, arts venues etc. without turning West Lothian into a desolate waste ground of despair.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric, within the parameters of constrained financial resources, to minimise reactive maintenance going forward. Investment will be prioritised to maintain buildings required for service delivery in as good a condition as possible given the revenue and capital financial constraints facing the council. Due to the constraints, and to prioritise limited resources, there will be a need to rationalise buildings.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Providing this is not a plan to sell-off community buildings to the highest bidder eg investment company/developer this would appear reasonable.	1. The respondent advised that they agree with the proposal.	The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It is great to combine these services and have a 1 point of contact/building space to use. Not very good if its not accessible for people at the times needed, children are not allowed to hang around inside these buildings, at night or if its raining for whatever reason.	1. The respondent advised that they agree with the proposal.	The council needs to balance many different requirements when delivering these services. We consider insurance, risk, social issues amongst other items. Buildings use is carefully monitored to ensure the most efficient use, in terms of customer requirements.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree however it has to be a long term solution. No point in the council repairing the building when repairs are required and the community group handing the building back say 5 years down the line.	1. The respondent advised that they agree with the proposal.	The council has a programme of building maintenance. Community Groups who choose to request ownership of the properties will take on maintenance and repair responsibilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It may be beneficial to consider continuing the pilot of being able to work from home and use less building space when the 40% are in the office? Could the buildings be combined so that it was possible to "hot desk" when at work and have less council buildings?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems a shame to reduce village halls etc. but OK	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Have 1 centre in each town	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	community centres etc could be sold to the community at a reduced price for the community to take ownership and still be able to deliver some kind of service to the most vulnerable	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree, but this is a lot to ask for communities to do - will their be support for groups to be able to do this?	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Could be that community services etc would be far better run if they were run by the community for the community rather than WLC !	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Individual consultations need agreed prior to closure and a significant effort made to allow a buy out from the community.	1. The respondent advised that they agree with the proposal.	Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It sounds broadly reasonable but this is often the case until your own service is affected - again this proposal lacks that detail	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It sure the implications of this but please note community centres/halls are what make us towns and villages not just Giant housing estates.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree, however there are some areas where this was supposed to happen and we still have the original buildings plus the partnership centre. These savings have to be made as affect the rest of the buildings needed for service delivery.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There are many things that WLC cold do to reduce the cost of their building stock. A rigorous review of how they are managed on a day to day basis from opening times, power usage etc seems likely to provide substantial savings. Care needs taken before shutting any facility on a permanent basis.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will conduct a review of management of council buildings and services delivered from council buildings. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Self access to buildings can be helpful.	1. The respondent advised that they agree with the proposal.	The council will review all opportunities to allow community groups to self access buildings
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I agree with this in part but the council has to engage more with the local communities, encourage the use of the partnership buildings any I have been in have always been drastically under used. 3G pitches, for example, charging nearly £13 for an hour is simply outrageous. Allow the children in to play their games, give them something to do. Set up youth clubs, encourage community engagement, promote the towns and villages make people proud to live in West Lothian and you may see a decrease in anti social behaviour = less clean up/repair costs for the council.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will conduct a review of management of council buildings and services delivered from council buildings. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council will support community groups to promote community activities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	community centres could possibly move over to the responsibility of their committees ?	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will conduct a review of management of council buildings and services delivered from council buildings. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	For financial and climate change reasons I would support a major rationalisation of community centres, with services and activities being relocated to schools and other local facilities, including those on the voluntary and private sectors. The council no longer has the necessary revenue and capital budgets to support community centres via the current model.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council will continue to rationalise offices and utilise the partnership centre model across West Lothian. This includes identifying opportunities for closer working with partners.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Council buildings that are no longer required or fit for purpose should be sold off and invested into the community.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Disposal of assets that are no longer required generate a one off receipt but they also create recurring revenue savings in running costs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Makes sense, especially with energy bill increasing, as long as there is still adequate provision in each community.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Services are delivered locally where this is appropriate and delivers best value. The council will continue to rationalise offices and utilise the partnership centre model across West Lothian. This includes identifying opportunities for closer working with partners.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Why is WLC not selling these to local community interest groups with provision/access to council tax-paying residents?	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Why does the council have so many buildings, how can spare capacity at schools be used more effectively/	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council will continue to rationalise offices and utilise the partnership centre model across West Lothian. This includes identifying opportunities for closer working with partners.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	With more people working remotely this frees up building use to be repurposed and sold. As long as core services and partnership centres are kept as their use is increasing.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think this is a great idea for a cost saving measure. With the introduction of working from home, we have even less requirement for some of our buildings. We could move staff to more centralised locations like the Civic Centre with hot desking in some areas to make working areas available to those that need them. These excess buildings can then be rented out or sold to raise funds or used as spaces to provide public services.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is a good policy.	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This makes sense, as long as managed properly	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	vastly reduce portfolio give community centres to the community to manage and maintain shut some where footfall is low	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would support if guaranteed support available for any community or group who wanted to do this.	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	if they aren't used well - close them	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree that is now a priority and building rationalisation will be essential - as pre comment about Schools - these need to be accessible to communities if asset transfer approach does not work and therefore use of schools would help replace any buildings that are closed.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Services are delivered locally where this is appropriate and delivers best value.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Voluntary organisations should be able to accommodate some of the sevcies run from Council buildings to reduce ths property costs.	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree to continued selling off some of the Council buildings which are costly to run.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as not too many places reduced and people still have somewhere fairly near by they can access especially more rural areas in west-lothian.	1. The respondent advised that they agree with the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The council has made excellent savings in reducing building numbers and consolidation of several services delivered within one Partnership setup. More of this would be good hopefully without too much impact on delivery of services. Delivering services in a different way - use of technology here	1. The respondent advised that they agree with the proposal.	Council will continue to utilise the partnership centre model in which there will be shared services and facilities, including those delivered by partners. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is ideal; As will save money	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I am content with this proposal, this makes sense as long as the amalgamation doesnt mean a loss of vital service delivery due to lack of space.	1. The respondent advised that they agree with the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The amount of council buildings that are sitting empty most of the time is ridiculous. ; These should be closed or handed over to community partnerships	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Can definitely reduce the amount of building the council need to run. ;	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Makes sense. Its the only way to make these facilities sustainable.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Good basic principles of rationalisation and partnerships but don't overload the retired members of the community in carrying it out!	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Makes sense as long as communities are not left with nothing at all.	1. The respondent advised that they agree with the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As commented on in previous section on Leisure, the shared use of facilities would "free up" other uses for council buildings OR free them for disposal and/or redevelopment.	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council will continue to rationalise offices and utilise the partnership centre model across West Lothian. This includes identifying opportunities for closer working with partners.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Yes however as the only outdoor education centre in west Lothian it's a shame to close Low Port centre Linlithgow	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree that in some areas communities might be better suited to managing their local buildings and tailor them for the local use	1. The respondent advised that they agree with the proposal.	Services are delivered locally where this is appropriate and delivers best value. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community partnerships and us all investing funds in our community is the only realistic way forward. Every member of the community should be willing to give time and effort to build the environment they want to live in.	1. The respondent advised that they agree with the proposal.	Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as the funding is there local hubs are doing a great job	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	One stop shop, better with something than nothing	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds light saving for assets across the community; More details required	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There needs to be some sort of council oversight programme as the transfer to communities is a good idea and can work but if there aren't enough people willing to get involved the services provided could be lost	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Could be a bit controversial. Isn't specific about which council facilities have been affected. 'Community empowerment' certainly sounds like a good approach to face the current situation.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think community services and community building have the capabilities to take on more roles to help the council. However this means that third sector and charities need funding to make sure that they are able to pick up the gaps left by wlc removing services. ; ; However trying to combine community resources for example in Bathgate: People from Boghall will not access the services in Bathgate and vice versus. This may also be true for areas in Livingston etc. Communities tend to be more drawn to their own resources and will not migrate to another if the service is removed. Which means your removing the service by making it look like your not.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I suppose this is inevitable, but you can't sell buildings in disrepair There might need to be some help offered where a property has been neglected.	1. The respondent advised that they agree with the proposal.	If a building is sold whatever repairs are required would be made known to the purchaser. As with all property sales / ownership transfers there would be building surveys made by both parties to ensure transparency
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think this is a good idea, giving people the chance to invest in something. Gives more meaning.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The council can't afford to keep these buildings. Rationalisation needs to happen to deliver savings but also to prevent further increases in costs from inflationary pressures. This has to happen, even if it is painful. If communities valued these buildings they would use them more. Surely what is more important is the service not the physical space.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Can be managed if carefully planned and community engagement sought	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	People can continue to WFH so this sounds like a good idea!	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Our local community group could support our local community center. I think this is a fantastic idea and would retain jobs for those already in post as the community groups would need employees to keep the centres open.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Rationalising community buildings and delivering services under one roof seems a good way to increase how buildings are utilised as long as communities do not feel that services are moved outwith the immediate vicinity.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I support this idea as long as communities are supported in this initial set up to ensure success with the right groups identified to ensure services continue.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Should be done as i don't see why the council needs so many building in one area when their is space available in other buildings	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	as long as sevices for people are not lost	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as they are overseen	1. The respondent advised that they agree with the proposal.	The council works transparently with oversight from elected members, audits, public information and regulatory bodies. Where we work with customers or other partners there is clear guidance, audit and risk oversight in place
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as community services are still available	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There may be some community centres that are not being used on a daily basis but those that are accessed daily should remain open as they are vital in society. Many charities and small businesses and community groups use these spaces for vital work. Coming together as a community is VITAL and access to these spaces needs to continue.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community centres play an important part in providing services to multiple groups throughout West lothian, groups within the community centre help to combat loneliness in our residents and provide a way of improving mental health. I have a fear that by consolidating properties you will take away many of these community groups impacting on health and wellbeing of our residents	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I feel these have proved successful so it's definitely something to consider	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Maybe as a rental option so that if community partnerships struggle we don't lose the halls ect. Everyone is in the same situation. We need to all be able to hold each other up .	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Should increase council facilities and cost should be based market rate	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as the halls are repurposed and not left to go derelict and reduce appeal of village or morale of local communities	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I agree buildings cost money and people need to be prioritised and be creative about delivering services	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This looks like a good idea and may benefit community groups and churches.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Partnership centres are good	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The asset transfer of buildings and land - particularly common good land - to local communities is really positive. Regardless of budgetary pressures, this should be done as part of the overall transformation of Local Democracy. It's great to see WLC beginning to facilitate this positive change more. Well done! Where there is little local volunteering or other capacity, councils, the Scottish & UK Governments, grant-making bodies, ethical investors and social enterprise loan funders, like Scottish Communities Finance Limited, must provide development and capital funding to support local communities to make buildings, land the local services and attractions they provide more vibrant, relevant and closer to the culture of those local communities. At the same time employing more local people - including council officers - at the heart of every town and village at least. Yet facilities need to be diverse and flexible enough to change with the rapid advancements in technology and so on. Local services such as co-working spaces, social enterprise hubs, communication cafes, creches, repair shops, tool libraries, energy, renewable energy & retrofit coops, cycling clubs, community EV chargers, solar car ports, gardening/green space improvement services, food larders, community orchards, music and arts festivals, health and fitness and other services and facilities, etc, etc, could all be located in revitalised council buildings owned and operated by local community development trusts or similar entities and in partnership with the council, local charities, social enterprises, churches, interest groups & SMEs.;	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Do private enterprises/clubs etc hire out council buildings much? I have never seen this advertised, if so. This could be a source of income for the council.	1. The respondent advised that they agree with the proposal.	Council facilities are already used by many different groups
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Communities should have the opportunity to acquire ownership of surplus properties where viable.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	3 A Support this in general but think you should share the details with the community now instead of a drip feed of actions over the years to encourage discussion debate and ideas.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. Further details will be shared once the proposals are more fully developed.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	agreed, partnership centres are great resources.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Audit all community centre duplication	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council will work with community groups to avoid duplication in community facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Makes sense	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I agree, far too many council buildings	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with proposal keep community Centres/charities	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Okay	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agreed. If it's not being used.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't agree with council services being turned over to local people - this is just a cop out.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think allowing groups charities and individuals to own and operate their own facilities is a great idea. I know from experience that the council owns social care services which should be owned by charities but due to laws around subletting the councils need to own and operate them. This often causes conflict and lots of time and money wasted. Allowing groups and charities to operate without the councils input would benefit all.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	A good idea provided support can be provided for managent committees and scios who then run the buildings. Including help to understand legal requirements and search for funding or ways to be self funding. Help to make buildings more eco friendly, solar panels, insulation etc when upgrading buildings so they are more efficient for groups taking over.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I agree with giving the community the opportunity of running the halls/ community centres however the council would require to support the committee in moving forward in this proposal. The skill set of management committee membership requires review.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council will support community groups who wish to pursue asset transfer
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Agree with proposal- help community centre/ charities to deliver more.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This seems sensible, particularly if staff can be supported to work at home	1. The respondent advised that they agree with the proposal.	-
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Under the community empowerment act there is a requirement for the council to put lush its assets and opportunities for communities to take ownership of these assets. Council seem to be committed to this orincile but sometimes staff make it so difficult and the process more complicated than it need be.	1. The respondent advised that they agree with the proposal.	If there are specific examples of this that you know of please get in touch with us and provide detail. Where we can investigate we will seek to find improvements which will benefit our customers
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Support community empowerment of buildings	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Necessary to sell some council properties and assets. Also to close some buidlings with low usage.	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	keep supporting local facilities if you can reach them. Thanks you	1. The respondent advised that they agree with the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Again, efficiency is paramount and perhaps some of these buildings would not need to be close if we did not give then away for free and charge a running cost at least. Groups have for too long had "free lets" or ridiculous low charges to let.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Ar eyou trying to get our of the partnership building in Winchburgh. Hugely disappointing if so.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If community halls and buildings are well used they should be maintained - with many empty council buildings spending millions on partnership centres was/ is questionable. Do the decision makers actually have any idea how schools/ community centres etc operate	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Asset transfer basically dumping onto local villages disgusts me to ever hear this.....outrageous.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not sure how this would work. Would communities need to raise money to keep their village hall/community centre by charging groups to use them?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I fear this is the beginning of a very downward spiral. This is going to have a major negative effect of peoples mental health as well as physical effect.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Unfair if everything is centralised in certain towns. Will result in lack of access to community space in more rural areas.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If I was opening closing buildings key holding cleaning and care taking setting alarms putting bins out.... I would be doing a care taker.out a job. This discusts me and I would never opt for this as a choice. A very non working class think to think abou	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This sounds like... Buy it or lose it. Am I right? And once bought, the community, much of which will be living in poverty, will be left with repair bills and running costs, yes? Sounds like a fabby idea. Not. I'll tell you what WLC; I don't know who your bean-counters are, but they put those of the Tory party to shame. But you know that's not a compliment... Hopefully.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will explore ways of delivering services and community activities in local areas.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Cuts to council facilities risks hollowing out communities where there is not the established structures in place to take these assets on. This loss must be avoid.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Some of these buildings are very dated and would require substantial upkeep which will be a detriment to groups taking ownership	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	These should not be touched, they have been ruined by the council. Don't touch them	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will explore ways of delivering services and community activities in local areas.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Selling off the estate. This is never a good sign. Passing old buildings over to committees something I strongly disagree with. We pay council tax for these services and buildings...I mean where will people go for a heat if these warm.spaces are no more. Does West Lothian Council understand the knock on effect of no buildings Why in the above text is the buildings names not listed.....this maybe have helped comment here....	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value. This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	These services should not be being consolidated, they need to be increased and extended to adhere to to expanding population, especially in learning disabilities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Increasing expenditure would result in additional cuts to services as the council has to have a balanced budget by law.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This simply makes facilities less accessible. If its more than 1 mile away from centres of population people are much less likely to engage.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not sure this is the way to go. People are going to need warm safe places to go.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value. The council, and local community planning partners, will continue to have facilities available to provide warm, safe places.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't think That her could have come up with a more society crushing plan. Awful idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will explore ways of delivering services and community activities in local areas. This proposal would focus on empowering local communities to protect service delivery.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Devastation everywhere you look with these cuts!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Many people do not have transport and rely on their provision being local to them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Again, the costs that are to be saved are at a time when many are relying on these facilities to help cope with pressures on cost of living, so seems like a poor time to make this change.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community services are obviously low priority, whereas these services benefit old and young battling loneliness and mental health issues.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council will engage with community groups to offer them the opportunity to access community facilities in partnership with other organisations, to support continued delivery of community activities where the communities have determined that there is a need for that activity to be delivered. Community groups will also have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not every area in West Lothian is affluent and communities cannot afford the funding on their own.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council will engage with community groups to offer them the opportunity to access community facilities in partnership with other organisations, to support continued delivery of community activities where the communities have determined that there is a need for that activity to be delivered. Community groups will also have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Communities are under funded	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Empowering communities in this instance is cutting off any council funding, leaving small communities with no community provision unless they find funding elsewhere.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	By taking or reducing the number of Community Centre & Village halls you are taking away the hub of the Community. This is a very important part of the Community especially for village life to have somewhere kids and local groups and beyond can gather	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think lots of small communities rely heavily in the community buildings and would like to see them key	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Of course, kids got Snapchat and tik tok, close the community centres and libraries	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Another saving that will have a massive impact on communities, closing the hubs that connect people together.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	These spaces can be vital so certain communities and less to others. I think you should look at the use for each area and base the decision on this. Taking away a place the community uses and which provides support would be of a disadvantage for the area.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Although I understand this strategy, I would not support any shift towards creeping privatisation or selling off community buildings and facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Where will people meet socialise get help join groups bus setvices are poor people deserve a building a centre in every village a community centre.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Our concern here would be facilities are centralised and not available to community and may involve the need for better public transport links, which are already very poor.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Some council facilities and community centres are the hub of community living. Each community would be best to comment on their use of these facilities. Closing some down may have far reaching consequences and lead to the downfall of community life and society.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Please do not reduce the number of safe places for people - libraries, schools, partnership centres. People need places to meet and interact or we're going to isolate our residents into their homes and that will kill communities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Consolidation would make travelling for those who use these services, more difficult.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There is very little in communities as it is, I do not agree with this strategy	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would need support for the community to implement and enable them to have the skills to run these facilities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I am a disabled individual who has accessed services for people with mental health difficulties for two decades. The pandemic has produced its own effect on how people access the services that are important to them. The loss of venues has had an impact on people's lives. Now more effective ways of working need to be found and local premises for services to continue to run must be decided upon.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There are very few groups for new parents/ toddlers. There are no council run groups in Whitburn, people who can't afford privately run groups are missing out on important childhood experiences.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council offers many support services for many groups of people. If there is a change that you are struggling to deal with then please contact us for advice and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Village Halls are important for the smaller community and should be kept for the community so that the community can attend in their community together when this is the only building left that all ages can actually socialise indoors and should be supported. The community should not be expected to travel elsewhere! Especially when this is voluntary run by the community and have already helped save WLC.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council offers many support services for many groups of people. If there is a change that you are struggling to deal with then please contact us for advice and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Please stop using language such as 'empowering communities ' to describe a withdrawal of support and services. It's not fooling anyone. We cannot and must not accept a reduction in services now as it will increase need for spending at a later date.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	How will WLC support the vulnerable and elderly if council buildings are amalgamated? For example, some tenants may not be able to commute to another community centre further from their home if their local community centre is closed?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council offers many support services for many groups of people. If there is a change that you are struggling to deal with then please contact us for advice and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Loss of amenities is detrimental	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Close as many building as possible and FORCE staff and public to stay at home. This in turn will increase metal health issues and loneliness.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is exploring hybrid working with staff but staff can choose to work in an office full time if preferred. For customers there will still be buildings with local services and face to face access available
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community hubs are vital to keep kids off streets causing trouble. The council should keep funding these.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not sure I agree, most communities need a central meeting point.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Social care in the Community is important and generally feel there is not enough support out there at present so would be concerned on any impact this would cause to the care to people who need it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as this doesn't lead to the closure of facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I am not in favour of transferring ownership of community facilities to community groups. This will result in differences between council regions especially in places of deprivation and poverty.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It would be devastating to local communities if they were to lose their community centres and village halls.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The impact of this needs to be fully considered and costed. Closing down a community hall that is hardly used could be justified, closing down a community hall that is heavily used, walkable and is a lifeline to some people needs to be valued, not just in terms of cost, but in terms of other social benefits.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There is a lack of community ran facilities as it stands. Clubs and Chapters are closing. There are less things for people to do (of all ages). Less pleases for people to socialise	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	More abdication of responsibilities where it matters...	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	the partnership centres are not priced to allow for small community groups to use their facilities. Smaller community groups are currently using the smaller community centres in their local areas for much less than the cost would be in the local partnership centres. The community groups are full of people who are reliant on the groups as their only source of contact and provide a place for the elderly to congregate and allows them to feel included and reduces the isolation some of them feel. If these groups were forced to use the partnership centre then the group would have to disband due to lack of funds.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community centres are more important than ever, but people have less income that in recent times - how can groups realistically be expected to fund these places themselves?; Pushing community groups out of these places is likely to lead to fewer community groups, more anti-social behaviour and a bigger long-term cost for the council, police and government.; Seems short-sighted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Cutting these services will lead to the closure of most of them over the short to mid term whis will be detrimental to the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	You've closed everything in Linlithgow but spend plenty in other towns. We've surely no more to lose here.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think there should always be a community facility or village hall in every village or town in West Lothian. If these were to reduce groups in the community would struggle to find space to hold meetings.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Very sad to see so many council assets lost such as Muiravonside and Low Port in Linlithgow. These have been key in the people of West Lothian upbringings for generations and will now be lost.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Consider the impact of closing key facilities on community engagement. Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I guess this is where we are headed. But won't the more properous areas take advantage of this but the less so won't be able to take this up?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	People rely on their community centres and attend activities close to home.. This move could leave vulnerable people isolated.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Closing village halls is not a good idea. It will isolate communities unless they have an alternative hub they can use. The idea of a community taking ownership of a hall is fanciful in my view.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The problem will be in getting local people to form working committees to run the properties and services as those people who would do it are already involved in community life	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Wouldn't affect me but could affect the elderly, again your online systems and just too overly complicated for a lot of people	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to offer a variety of access to cater for the needs of customers. Where possible simple requests can be handled through online portals but customers may have more complex needs that require talking to staff over the phone or in person
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Worrying loss of community hubs and need to travel further to access services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	My only concern here is for rural communities and the facilities that may be lost for those who use them regularly as it not as easy to travel to areas that have partnership centres.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Does this really mean closing more community buildings? ; Isolating our society more.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Some villages community centres are the only thing they have we shouldn't lose these	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Blackburn has NOTHING. We need help as the forgotten vilkage	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Blackburn has a partnership centre which offers a variety of services for the community. Including a GP practice; community health centre; community centre (including sports hall, IT training suite and multi-purpose, early years and young people's spaces); library; Customer Information Service (CIS) centre; employability service; credit union. Please see this page for more information https://westlothian.gov.uk/blackburnpartnershipcentre
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is worrying for smaller communities as they rely on community centres etc	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Care has to be made to make sure non-council individuals do not run services for reasons of self-interest, rather than for the good of the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2017. They will also need to abide by the legislation with the council providing oversight and support
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Bringing everything together does not always create a good service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The aim is to make services more accessible by bringing them together in one location
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This would be dependent upon the community coming forward and offering a service. What would happen if no one supports this within the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Do not support as in high SIMD areas, there is not enough community capacity for this so will lead to significant inequalities across the area	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	But this just means cutting Peter to pay Paul.; Where are Community Groups likely to pay to take over ownership of assets and staff to operate them?; Will the WLC also relinquish management responsibility too?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community groups not only can manage but will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2017
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not ideal for people without transport. Again hits the poorest, elderly and those with ill health the hardest.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	as long as community councils aren't involved. Most don't do anything and look for the council to do things	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will offer communities the opportunity to access community facilities in partnership with other organisations. The council will continue to support community groups and legislation is in place that will allow community groups to access funding and support.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Again I believe this is dangerous. We are supposed to be a COMMUNITY and should think in this way. I,m all for consolidating these venues AS LONG as it doesn't leave any of the rural villages with nothing. The bus service is not that great and some do not even run late at night. I think people may even prefer to pay a small fee to keep these venues up and running. It could at least be put to a vote?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2017
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Reducing council services is not empowering communities its the exact opposite.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	A retrograde step	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Speechless	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't support this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't agree with this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Honestly?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not a good idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think communities could be disadvantaged if local halls etc are harder to hire or even closed. I think this could lead to isolation and mental health concerns for some people which is a concern.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community buildings are some peoples only life line.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Do not support.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I disagree with this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Strongly disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not supported.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Many opportunities have been missed and communities should not be encouraged to take on responsibility for "assets" that are in fact distinct liabilities unless there is revenue available to meet the overheads and improvements necessary to maintain these "assets"	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has energy audits across all buildings to identify energy saving opportunities in each building. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The council still needs to be accountable for this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Community centres are run by management committees not the council.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	My concern is that the partners cannot afford the upkeep of these properties the council will have to step in and it will cost more in the long term.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not all groups in the community have the capacity to organise themselves to this level. It is disempowering for service users to feel there is no support, it will stop them seeking support and accessing services. Also perhaps missing out on services that they don't know exist but might be relevant for them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will support groups that approach them for assistance. These changes mean that groups may need to learn additional skills but that learning can benefit them long term.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If this is an attempt to close community centres, think again! People are paying to hire them and are a source of income for the council. Not only that you should be providing playgroups with free use of community centres like Lochside Playgroup who provide low cost childcare and funded places to families with low income/disability/unemployed. The partnership centres are full and don't have room for additional services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	lack of facilities from Council in my town has had an impact on people who dont drive	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Where possible we would encourage customers to access council services via our website or even over the phone through our contact centre. Access services in this way is usually the fastest. If this is not the case then please speak to us about this
Community Empowerment an	3a Empowering communities and reducing the number of council facilities	Not my problem, you do need to keep community centers and after school programmes for kids to avoid neighbour hood issues in bad areas with low social econinic and hisotocal council behaviurs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The consultation contains specific questions on community facilities and youth services, and these issues are not relevant to this question.
Community Empowerment an	3a Empowering communities and reducing the number of council facilities	Not my problem, you do need to keep community centers and after school programmes for kids to avoid neighbour hood issues in bad areas with low social econinic and hisotocal council behavior.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Many of these properties were gifted to the local community initially, greater need in more rural areas for this type of facility.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has a register of common good assets with relevant buildings being subject to clear and differentiated governance compared to other council assets. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. Services are delivered locally where this is appropriate and delivers best value.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	All the communities should still have community centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	These are all vital for the communities they serve. If removed from small communities, they will be a huge loss and make these communities more isolated.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Communities need spaces and access	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community halls are vital for supporting the vulnerable and lonely members of society. Closing some down would not work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not enough facilities at the moment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	These community services are needed it will be sad to see them cut.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Murieston Village Hall and Crofthead Centre are important local centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Cutting back on this is wrong	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This could negatively impact the elderly & disabled who may not be able to access community spaces that were local & easy to access. This would be direct discrimination	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Every community should have access to a community centre in their area. There are some, especially those without a constituted Community Council, that have none at all. So rather than closing them down you should be opening more. These are required to be a place to focus community support as seen in the pandemic and now in the Cost of Living crisis.; The Asset Transfer is mostly seen as a liability transfer so the Council don't have to maintain them and not actually giving any value to the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Rural community centres such as Newton and Philipstoun are so important for the locals as there is no alternative places for community events.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Providing each community can have access to the use of a building or hall for local events that most villages and communities need throughout the year.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community buildings are essential to many village lifestyles and support within communities and should be protected as much as possible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Services are delivered locally where this is appropriate and delivers best value. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This seems like a lot of words that say little but resonate with David Cameron's Big Society tagline. The sort of people who empowered communities are now back at work and I don't think there really is an excuse for cutting staff who are paid.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	You have to make sure you are not fobbing off an asset that communities will not be able to maintain. There should always be at least one community space in each community. This is not the case and it can be seen that those communities do not engage as there is no place that can be a focus for involvement. Closing existing ones are a backward step and not in keeping with community empowerment principles.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Don't deprive distanced communities - be very careful about this. These are under-used resources which could be more purposeful and income generating than they are - think about this!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The fact that you have left many buildings to get into a state of disrepair or indeed neglect them too the point that classes etc have left (Knightsridge Community Centre) so that they have Barry any income is a joke	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council supports management committees to ensure that buildings are maintained to an appropriate standard.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	what a stupid sentence , empower community and then say reduce number of council facilities? no matter how you word it your abandoning your due care to the community and services it provides	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community empowerment by closing community centres. You could not make this up	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Does this mean getting rid of libraries? ; Don't support this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities, such as community centres, and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council has a legislative requirement to provide library facilities and will review the most effective means of delivering this service, taking account of demand and opportunities to access activities which currently take place in libraries from other community facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Again I don't like this but if they can be owned by the community and still used that would be good	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This will negatively impact the communities of West Lothian	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Social care needs to be brought back in-house due to companies who are not completing work they are getting paid for leaving vulnerable people at risk. If these services were brought back in-house the council would have more control over these services and ensure people are getting the help required. It is discussing people stuck in hospital due to care package being out to tender. These are humans not burst pipes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If community centres and village halls offer an important space for people to go/events then would closures have a negative impact on community spirit and the wellbeing of the most vulnerable people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	While the council would prefer to keep as many services running as possible, with the budget cuts that need to be met, this is not possible. Community activities have significantly diminished over time as the needs of those communities have changed to a more digital experience. If you know of anyone who is placed in a difficult situation as a result of these changes, please speak to our social policy teams for options on support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It all sounds like local communities will suffer in the long run	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Reading between the fairly impenetrable lines here, I think you mean you're going to sell off community centres. This is a terrible idea, especially as you are apparently doing it in the name of community empowerment. West Lothian has an appallingly low success rate with community asset transfers, so if this is the new plan, much more work must be done to ensure communities throughout the region understand their rights and the lengthy processes involved. You can't simply start selling off community assets.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community Centre are imptrant and supply a need. We need to keep them. Make cuts somewhere else.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Don't cut - we still need council workers in local areas not leaving services to run on own.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't believe putting power/ control of local services to local people will work. I think individuals will take advantage of this without anyone to monitor it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The council will support community groups who wish to take on ownership of community facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Keep community centres open and al the staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't agree with council services being run in the community by community groups who are not trained or checked. this will lead to corruption.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The council will support community groups who wish to take on ownership of community facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	they would isolate people need more space where to get info on in services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The council will support community groups who wish to take on ownership of community facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Is this where you sneakilly shut down the lanthorn? We have no library my children can access safely because of paid for parking and busy road.	3. The respondent advised that they had no comment to make or posed a question of the measure.	No. The Lanthorn Centre is currently closed to enable roof works to be completed to ensure the longer term viability of the building. There are no proposals to close the Lanthorn.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	You're building new ones and selling off the old ones , how does that save money ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Disposal of assets that are no longer required generate a one off receipt but they also create recurring revenue savings in running costs. The council has delivered substantial savings through consolidating buildings. New buildings are also more efficient, delivering savings in day to day costs, particularly energy.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No feelings on this dont use them	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Every community in Westlothian should have a village hall to give the young generation something to do after school	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Wil grants be given to community groups to take over facilities?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will continue to work with groups and communities and support access to grants as and when they become available.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Does this mean other people wouldn't be able to use them?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities, including council owned buildings, in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No experience of this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't envy the Council for all these cuts	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not clear how so many new partnership buildings save money in the short term	3. The respondent advised that they had no comment to make or posed a question of the measure.	The partnership buildings bring services together in one place making them easier to deploy and manage. It also brings efficiencies through saving on staff costs which are generally the highest cost to any organisation
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	What are you planning to sell off?; There needs to be greater visibility of this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is still in the consultation stage and has not identified any facilities to sell. The Council will offer to transfer ownership of community facilities to community groups.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If someone buys the facility, does that then stop others from using it?	3. The respondent advised that they had no comment to make or posed a question of the measure.	If a property is sold by the council the new owners will have the full rights and responsibilities for that building. This would include use of the building and determining who can access it
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would like to see further proposal as to what this would mean	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Unable to comment - I do not currently use or have experience of using community centres/ halls etc	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	less staff	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	N/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	None	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I'm not in a position to comment fully on this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As per previous comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	-	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	N/A	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't feel I have enough knowledge on this area to offer an opinion	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	N/A	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	None.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	??	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It would not be right to offer feedback without a sound understanding of the services this relates to and the impact on its users.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	NA	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Don't know enough to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Without details as to how this would impact those that use these facilities cannot comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	n/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would be useful to see the usage of community centres and what they are used for, in the media there is always a lot of attention as community centre closures but never much about who uses and how often etc and if that is representative of the community	3. The respondent advised that they had no comment to make or posed a question of the measure.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The review of council facilities will consider a number of factors but the demand and current use of the facility will be one of the main considerations.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Unsure about this as it's a bit vague how communities take over use of properties previously run/owned by the Council.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Who is going to fund the the groups looking after these facilities	3. The respondent advised that they had no comment to make or posed a question of the measure.	Community groups may seek funding from a variety of sources. This can be from membership rates, council or grant funding depending on availability, the group's purpose and composition or chosen area of intent.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Will sufficient support to local groups and centres be guaranteed? What training will be given, what HR support will be provided? Who owns the infrastructure and assets?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council will aim to provide support and assistance where needed. It is not possible to identify specifically how this will work until sufficient need has arisen. Existing Assets and infrastructure are owned by their current owner unless purchased, in which case the purchaser will take ownership
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	N/A	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No Comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	no comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No comments	3. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think I addressed this issue earlier.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No comments.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	What is happening to empty building?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Alternative uses for buildings are considered, subject to an appropriate business case being established. The council has a planned disposal programme for assets which are no longer required for service delivery and have been declared surplus to requirements.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't understand the question. How is the service being changed and what are the pros and cons? If it's all good news, and modern and efficient etc, just save the £1,1 million.	3. The respondent advised that they had no comment to make or posed a question of the measure.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Services are delivered locally where this is appropriate and delivers best value.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Unfortunately, we don't have any council run community spaces, other than a park! Our hall was knocked down with the promise of using the community hall within the school, this hasn't happened due to access issues and associated costs!	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council has a wide range of assets across West Lothian. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No particular views on this. Having increased populations in areas such as Winchburgh and East Calder may cause additional services of similar nature - reduction may have a negative impact.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	What a predicament	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	For any agreement or disagreement on this proposal there would need to be specific details. Community and village halls are often the hub of the community and at this time never more needed. Any closure of any facility would need to be with the full agreement if that community.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	reducing council costs there was a suggestion to sell some council properties and old Armadale library site has been up for sale since the building was demolished. It is an eyesore in the main street. What effort have been made to sell it since a planning application was refused do the site. It could have a few benches placed in the area and it tidied up to make a meeting point for locals to sit and chat and no doubt moan about the lack of council services.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	All good in theory, but are WLC systems and processes already set up for this (e.g. IT security) or does it require some investment?	4. The council is already doing this.	The council has made significant investment in the IT infrastructure and will continue to allocate appropriate resources to introduce new technology where appropriate. The council's ICT Strategy seeks to deliver change in line with advances in technology and changes in council priorities, whilst still having a clear framework within which to operate.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	No information provided on what rationalisation is proposed. Unclear that there is defined provisions contained in the Community Empowerment (Scotland) Act 2015 to underpin WLC's statements above.	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Hopefully this proposal will include provision for a sensible handover and long term support package?	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If you are selling buildings sell them for the correct price in legitimate sales format.	4. The council is already doing this.	The council has a planned disposal programme for assets which are no longer required for service delivery and have been declared surplus to requirements.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Ensure the local community has the opportunity to purchase any halls et c for local benefit	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Involve ALL communities - not just the more "privileged" ones	4. The council is already doing this.	The Regeneration Team within the Community Wealth Building team provides support to communities, especially targeted ones within areas of deprivation, to ensure engagement with a range of community empowerment activities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Lets "let" the Civic Centre?	4. The council is already doing this.	The council shares the Civic Centre with other community planning partners.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Put in place long term plans to hand some of these facilities over to partners (churches, community groups etc) who are able to run them and funding to support that transition.	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	We must not lose our community spaces - these are often where local residents with no car access or limited mobility are able to access vital council and community support and resources.	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Adults and children with disabilities cannot be short changed with the specialist help they need, their lives and livelihoods depend on the care and help they receive.	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There still needs to be a degree of central management, otherwise, you are expecting local volunteers to pick up the work of the Council without the remuneration that would afford.	4. The council is already doing this.	The council already supports groups and legislation is in place that will allow community groups to access funding and support.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Also partnerships need to be held to account of management of these and not left to run them down.	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Please consider the youth of today. The elderly.	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Please have proper discussions with relevant people to see how they feel about it	4. The council is already doing this.	The council will continue to consult with the local community as proposals are developed
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	spend the money from land sales renovating old central heating in pre war houses ie polbeth crescent central heating is 37 year old and out dated and not energy afficent	4. The council is already doing this.	The council will continue to maintain residential and non-residential properties within its portfolio. As a social landlord tenant rents, combined with grant funding, provide millions of pounds of investment each year in maintenance and capital programme upgrades.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	We have not had a Community Centre for the last 2-3 years, so surely savings have been made regarding fuel costs etc. Reading this , is the Lanthorn ever going to reopen?; The biggest issue with various community buildings including the Lanthorn are the flat roofs they were built with. Today, it is teeming down with rain, flat roofs are useless in the Scottish climate. ; Spend the money, get proper roofs put on and you will have buildings fit for purpose that will last.	4. The council is already doing this.	Information on progress with the Lanthorn is available here: https://www.westlothian.gov.uk/lanthorncentre
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Council needs to help with the upkeep to stop disrepair	4. The council is already doing this.	The council will continue to maintain residential and non-residential properties within its portfolio. As a social landlord tenant rents, combined with grant funding, provide millions of pounds of investment each year in maintenance and capital programme upgrades.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Move staff to work from home.	4. The council is already doing this.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Boghall Drop-in Centre provides an essential service to those in the community, especially with the current increase in cost of living. It is the only council building in the area to provide necessary services to all ages.	4. The council is already doing this.	The council will explore ways of delivering services and community activities in local areas.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	What about considering places for warm hubs, particularly in the cost of living crisis	4. The council is already doing this.	The council already delivers this from existing partnership centres, community centres, libraries and other public buildings.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Maintain partnerships to ensure fairness	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds reasonable for communities that would like to buy property to be able to but it lacks equity for pupils that have limited money or capacity. Rather than empowering communities they may feel disempowered by a lack of support. Maybe in combination with letting out school rooms and halls, perhaps all needs could be met?	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities, including school facilities, in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The council needs to engage and listen to the local communities better. Not just tick a box and ignore. Give detailed reasons and this includes elected members	4. The council is already doing this.	The Council already has a range of ways that the community are engaged by services and supported to be involved in decision making, including the Council's Community Choices programme and the activities undertaken by the Regeneration Team. The Council will continue to review how it engages with communities to ensure communities have the opportunity to participate.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I would love for the council to create a resource that shows clubs and community groups what could be possible with Community Asset Transfer. Learn from where other groups, areas, LAs have had success and share this as best practice. I would like to see a team established to be a first point of contact that would then help a group create a business plan in partnership with specific services in the council i.e., Culture & Sport for sports clubs looking to take on a facility for sporting purposes. The few people who currently have ownership of this area of work are completely inundated and spread too thin. Have this team to really help identify options that facilities could be used for as quite often community groups won't have the vision or internal knowledge to see potential.	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. There is support available to any parties interested in asset transfer.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I thought community buildings were for community use, this seems to only be if your face fits with the workers on shifts at the times. maybe more accessible areas for different needs, needs to be looked at within these buildings.	4. The council is already doing this.	Community buildings are for community use. Any issues in relation to access to community buildings should be reported to the relevant management committee.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Need to consider the impact on the elderly who are becoming more isolated in this modern online world!	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Only if community groups are supported to obtain funding, provided with guidance from WLC	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As long as support provided to ensure best chance of surviving in a very difficult climate, emerging Community development Trusts and social enterprises as very empowering within communities but support needed also.	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Communities that are isolated by location/means of transport should be considered in relocation of services	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community Centres are important to local communities - they provide a valuable service to local people - if these are transferred to Management Committees - WLC should ensure that the management committees are given assistance in the first instance to help and also hopefully these community centres would continue their valuable work.	4. The council is already doing this.	The council will engage with groups seeking to take control of community assets under the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Asset transfer doesn't work and communities aren't support enough to take these facilities over. The council is spending a massive budget fixing work on roofs in 3 huge buildings right now	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Make sure these new buildings are properly built And don't need major repairs a few months/ years after opening.	4. The council is already doing this.	All new buildings and extensions are subject to sustainable design and all applicable building standards.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	In theory a positive approach but gap between the concept and reality of community ownership. Some communities could be left isolated, in particular communities with high deprivation and with key groups (older people for example). This needs to be a central consideration.	4. The council is already doing this.	A mapping exercise will be undertaken to match service and activities to available buildings, both council owned but also other buildings owned by partners and local bodies. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Concern that closing facilities in the most deprived areas would result in further issues. If looking to close buildings or ask community to take them on set up a team and the role is to support communities through the process of asset transfer from beginning to end. This would be the team's only function but could liaise closely with management committees and key community organisations, so they have the skills necessary to make the transition smooth.	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Just remember the vulnerable	4. The council is already doing this.	Services are delivered locally where this is appropriate and delivers best value. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Sounds like a good idea.; ; Communities would need a lot of support if they are to take on buildings and run then.	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Grassroots is the best way for communities to help each other. But in today's economic climate it's hard to do because these things rely on the voluntary sector and unless you dont need to work. Some people will require a wage.	4. The council is already doing this.	The council works closely with the voluntary sector. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It works in some cases although I have seen a number of buildings transferred in West Lothian and elsewhere to community groups who have after a year or two been unable to continue to maintain the facility - is there going to be a safety net?; ; From experience elsewhere, where there is a supportive, engaged community, volunteer management of village halls and similar can be very good.; ; Joint management of many areas of parks and openspace can work well so long as there is clear agreement of roles and responsibility and an agreed management plan. Thereafter WLC need to support, train and encourage rather than direct!! CAB Offers a good course on Managing Volunteers - to make this a productive relationship.	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There is a limit to how much can be done by utilising community good will (for free, or on the cheap.) By all means publicise the opportunity, and then empower community to manage a facility if they choose to do. Forcing the community to take over a facility won't work.	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community groups should be able to request ownership of community centres at an affordable rate	4. The council is already doing this.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	We think it is a good idea to have these services under one roof but again we have a reduced service in our partnership building ; Our library is open certain hours and with one person at times. We think in some areas this is unsafe Please ensure your staff are safe; I stopped using west calder gym due to the lack of people in the area There was an instructor near the gym then he was removed the only people around were the caretakers at the entrance too far away to hear any cry for help	4. The council is already doing this.	Thank you for your concern. The council has a number of protocols to ensure staff are safe, ranging from lone worker devices, building security and back office support. Risk assessments are carried out and reviewed regularly to ensure that all mitigation measures are identified and implemented.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There are numerous facilities within the authority that need money spent on them to bring them up to a standard that anyone would want to consider taking on and the council may need to spend in order to save, both in financial terms as well as saving facilities that communities really need. There's nothing attractive enough for community groups to take on the potential transfer of facilities as it stands and the council also need to consider what support groups will need should they take on any community transfer of facilities.	4. The council is already doing this.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric, within the parameters of constrained financial resources, to minimise reactive maintenance going forward. Investment will be prioritised to maintain buildings required for service delivery in as good a condition as possible given the revenue and capital financial constraints facing the council. Due to the constraints, and to prioritise limited resources, there will be a need to rationalise buildings.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Reducing the number of community facilities will have an adverse effect on West Lothian. Why not work in partnership with local community groups and have half the number of savings as local groups will be struggling for money in this current financial climate. These community facilities are a lifeline for people and enable lots of community groups to function.	4. The council is already doing this.	The council will be working with community groups to consider options to maximise benefits for the public.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Reductions can't be at the cost of accessibility of facilities or community centres. Perhaps cost within the savings for a free transport (eg, bus pass carnet, disabled bus) for those who cannot easily access the rationalised new facilities and centres.	4. The council is already doing this.	Thank you for your response.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If the council is reducing all of these services and buildings surely that means that local taxpayers should be paying less council tax as we are receiving less in return!?!	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The proposed increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to agreed priorities. The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is an excellent opportunity to go further and utilise council structure and resources to generate profit, by totally immersing as a private commercial entity	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Having put out 75 new bins at 5000 each and 9ver 30 vandilised I always question council finance, someone is making money off this bad that got to lay at (redacted) and (redacted) feet.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is a signatory to the Scottish Government Household Recycling Charter which determines best practice for household services. The new twin stream service will improve the quality of material recycled and save money on disposal costs

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Close the Civic Centre, build houses on the land and move people to flexible working utilising the Partnership Centres.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Some services are moving back to more community based responses as it is clear customers want to interact more in their community as opposed to partnership buildings. There are service approaches being set up to offer one stop shops for people and this becomes challenging as facilities are reduced further. I recognise the need to cut such centres and make these savings but it is not always beneficial for customers and some services are finding it challenging to still deliver community based responses. A full review of each facility should be undertaken before this happens to ensure that vital provision in these centres is not lost or the service can reprovision itself before the loss occurs.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	The council would like to provide as many services as it can but national budget cuts are beyond our control. When these cuts are made we have no choice but to amend services as we are required by law to have a balanced budget. That said no change the council makes is done without review and careful consideration. Despite this work and effort some groups or individuals may be disappointed
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Buildings should either be sold off to the general public or donated to local groups. Private investment firms or property developers should not be allowed to purchase these properties	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	The council by law has to consider best value for all transactions (income and expenditure). All income received from the sale of buildings is reinvested in assets across West Lothian. Without this income, it would have a major impact on the condition of council assets.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Without proper investment from the council community groups can't afford to take on big assets such as community centres. The council need to look at a service level agreement and provide a small amount of funding for groups to deliver council services on their behalf. Covid and the current crisis has taught us that the importance of making these facilities viable to ensure they are their providing for our communities. I think it's vital to keep community centres in council ownership but the need ti review the management and maybe even apply a service charge to assist with costs.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	A mapping exercise will be undertaken to match service and activities to available buildings, both council owned but also other buildings owned by partners and local bodies. We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is. The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Do not reduce but build new an sell older buildings	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric, within the parameters of constrained financial resources, to minimise reactive maintenance going forward. Investment will be prioritised to maintain buildings required for service delivery in as good a condition as possible given the revenue and capital financial constraints facing the council. Due to the constraints, and to prioritise limited resources, there will be a need to rationalise buildings. Although the council has generated significant savings from replacing old with new, the council does not have the capital resources to build new assets.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	You could look at extending your services via drop-in sessions offered at these community buildings instead of keeping HQ facilities. MAny employees are happy to work full or part-time home i believe so this could be further integrated into the offered service.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Why not close every council building and sell them off?... All I'm seeing throughout this sham consultation exercise is the intention to cut jobs, cut services to the public and to hell with the consequences.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	So basically West Lothian council don't want to be part of the community got it !	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Every community council should be informed of any building in the area of which they could use	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. Community Groups will be supported to identify alternative facilities in the community.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	West Lothian Council are asked to pay for community centres when needing it for meetings/groups. Given that we are all under the same council i feel this should be free. It then impacts what the wlc staff can deliver as availability is restricted.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Community centres are run by management committees who retain income related to lets. Given the financial pressures facing local government, this model is no longer sustainable.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	And at what cost? Can there be a community hub feature integrated into nearby building at some time during the week to aid those who would be affected? (le - using a school or similar?) Not suggesting a constance presence at another building, but perhaps a few times a week would work?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	could the wider leisure building be used instead of community centres and these building i find as a much better experience to visit. save the buildings that are used the most.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will explore ways of delivering services and community activities in local areas, working with all community partners. Services are delivered locally where this is appropriate and delivers best value.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	crucial that active travel is part of the rationalising process - many people car free by choice, or by requirement, how will you ensure people are able to continue access to community spaces without a car?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will explore ways of delivering services and community activities in local areas. Services are delivered locally where this is appropriate and delivers best value.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Give the local community the powers to look after the community buildings, therefore no further need for Community Education workers, give the local councillors the powers to oversee how the buildings are being used and all funds raised to be used for the benefit of the community buildings and staff.im	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Let everyone who can work at home and reduce office space and energy costs this way. This is also better for the environment as fewer people driving to work will reduce pollution and greenhouse gas emissions.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If we embrace mobile working to the levels of other councils we could reduce buildings even further and develop places like the Civic Centre for other uses. Can we not work with neighbouring councils to provide community facilities as a joint venture?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. This includes new opportunities arising from hybrid working.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Do management committees for community centres still get all the money from lets? That always struck me as odd - the council covered all the costs of maintaining and staffing the buildings but got none of the income from lets. If that's still the case could the model change?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will make decisions in the interests of communities that may differ from commercial decisions made by private companies. The council will consider all ideas as part of this proposal
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would also be interesting to see how private organisations could smbetter support communities e.g you can book space in Dunelm cafe for meetings for example - could more of this kind of thing be done?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Communities must be able to evidence how they are to fund projects and also be aware that there should be no further investment from the council for repairs/maintenance etc. Assistance by elected members should also be involved with this process to ensure transparency in future years.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	People of West Lothian need the tools, training and the empowerment to take on these responsibilities, which I believe will eventually cause the massive reduction of facilities in the most deprived areas, where these facilities are most needed.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Our community facilities are essential to our communities. They support WLC's priorities especially during times of crisis. They are lifelines for many to reduce social isolation, stay warm, improve mental well-being and trusted safe spaces. Community Empowerment is great in principle but there needs to be a desire from the community to take them on. I would use them more effectively by removing the management committees and running them internally. increasing income generation, improving digital platforms that would make the centres work harder for WLC and ensuring they are still run in a professional, fit for purpose manner.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think that there needs to be terms in place for management committees to ensure that they do use their funds to maintain buildings etc. Where council services share the space there needs to be clear boundaries about who has use of the space when etc.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The council has an agreed framework in place to support current management committees.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Selling off unused property the council own or to groups is a good idea to cover the shortfall.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This needs to include the building and manning of a Partnership Centre in Winchburgh.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	How many council staff can work from home for at least part of their work?; How does this translate into a need for office space?; How does this map onto existing facilities, including related facilities such as Leisure Centres, Health Centres, Schools and Colleges?; Ensure all council facilities are made available to relevant external users at a cost.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Surly money could be saved/made but selling off council buildings currently sitting empty as like those at Waverley Street	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This suggests there will be a reduction in the number of community centres available for the public and businesses to utilise which is a concern. These community centres can often be the establishment that holds local communities together and allows smaller businesses and organisations to thrive. I would hope there is opportunity for communities to be consulted before closures are made to see if there are other ways that centres can be kept open with funding from local businesses etc to work in partnership, rather than sold off to private investors	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Partnership centres are working well. However, I have noticed a lack of privacy in some of them. Maybe a future thought for further projects, especially in line with GDPR	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council is aware of its responsibilities under GDPR and will take account of this in developing any future support to community groups.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	most high schools stay open to 22.00 so all night time , lets should be at your local high school, reducing need for community centres to be open at night.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities, including schools, in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	community centers are good but do not provide equipment for more dependent people for example hoists, commodes and trained staff in moving and handling	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Important to ensure these don't compete with each other in a detrimental fashion	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The communities most in need of these spaces are probably those least able to manage self ownership. This needs to be considered carefully and support given. A joint approach with shared ownership may be a muddle ground that still allows savings whilst protecting the most vulnerable	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council will offer support to community groups who wish to pursue asset transfer.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Reduce buildings that are not utilised to the maximum potential by either selling off or long term lets to the community - reducing offices for staff by allowing full time home working for employees that jobs can support this	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Why not consider trying to improve the offering of these locations? For example, at one country park I personally asked about a catering pitch but was told there was none available. There is no process to suggest one which would provide greater services to visitors and more importantly, increase WLC revenue. WLC need to think about how they can make more money, not just cut costs.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community centres and village halls are an integral part of the Communities and any consolidation should consider those people who do not have access to cars and mobility issues.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is another reason to continue to support WLL. Why not ask them to utilise/run the facilities? West Lothian Leisure would be required to develop a sustainable business model

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Council partnership centres could be built upon and developed as true community hubs, working toward the 20 minute neighbourhood model. In order to achieve this, there needs to be appropriate budget to maintain facilities as there are some centres that are now badly in need of attention (eg in Bathgate, the shared garden space is not maintained and partly inaccessible due to outstanding repairs needed in the seating area, some meeting rooms are all but out of commission as the technology does not work, network ports are failing across the office space meaning that services need to move workstations around regularly)	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	3A Empowering communities and reducing the number of council facilities.. In Livingston there are many green spaces managed by the council, however, there are some residents who complain about the composting opportunity regarding newly cut grass and the green space, itself. If management of some of these green spaces directly adjacent to some private properties was awarded/given(?) to these residents it might cut the expense of mowing and probably improve the local environment, this withstanding, probably bring the community together? Certainly within a small locale. I see a time in the future whereby, residents managing their greenspaces may become annually competitive. To this end, would the donation of a compost bin, housed in the garden of a volunteer resident, effect some saving? Would a compost bin to all who would wish to compost , privately not be a saving?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Council buildings are only an asset to community groups if they have a viable plan for running them. They also need a lot of support and expertise in the initial stages to do this. It is very easy for an 'asset' to become a burden without it. It is also usually the wealthier areas that have the capacity to do this meaning that the areas of deprivation loose facilities.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think you need to be wary of access to these facilities for people that don't drive or if there is not suitable active travel links or individuals with limited mobility.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Services are delivered locally where this is appropriate and delivers best value. The council is focused on protecting local services and outcomes. Although assets can help in the delivery of services, it is not the priority, outcomes for local communities is.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I'd like to do weekly meetups for people to fix their stuff and learn fixing. At Livingston Community Shed we're looking forward to the premises just now. This is a great chance for all local people to engage and do something good back to the community. Hopefully, our Council can make this process quick and least painful.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Council will continue to support community groups to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Great care needs to be taken that e.g. village halls, which were built to benefit whole communities, are not acquired by a few individuals for private gain.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There is many council buildings that need a lot of building work done like roof repairs window repairs and instead of replacements there is patch up work being done which is then resulting in more work been carried out which is then costing more money	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric, within the parameters of constrained financial resources, to minimise reactive maintenance going forward. Investment will be prioritised to maintain buildings required for service delivery in as good a condition as possible given the revenue and capital financial constraints facing the council. Due to the constraints, and to prioritise limited resources, there will be a need to rationalise buildings.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	These opportunities need to be extensively promoted and encouraged otherwise people won't know they can play a part in retaining community properties.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has an approved policy which deals with transfers of certain council assets to the Third Sector. The approved council policy contains a number of safeguards designed to ensure that any transfer is sustainable in terms of future use. This includes contracts outlining future obligations and liabilities. Council will continue to support local management committees and community education associations to develop the use of community centres and other facilities to meet local needs.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Shift the smaller community centres' activities to schools (after hours) and let charities and community partners use them.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities, including schools, in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	We would like a Partnership centre in Winchburgh	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	its a pity that some of these village halls etc cant be turned into flats/social housing, the buildings are already there and it could be a quicker turnaround than building brand new homes that for some people, are too pricey to afford.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. Where the community groups do not wish to take ownership of the community facilities the council will consider whether there is any alternative use which can be made of the buildings or whether they are no longer required

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community centre to provide parent and child led events i.e cookery. First aid etc	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Strathbrock Community Garden is a new facility that has been designed and supported by both the Boxburn Community Council and the Broxburn and Uphall Development Group, (with it's subsidiary group -the Broxburn & Uphall Development Group). The Garden land is provided to us on a lease from WLC and involves several people in the administration of this rental. This is land that was unused, except a site where dog walkers coul allow their pets to defecate or urinate. It is now a productive and attractive hub where fresh, free vegetables and fruit are grown, with floral displays that entice folk of all ages to visit, appreciate and with many encouraged to take part in the cultivation. Bureaucratic management has negated the original request that this land could be obtained for the overall responsible BUD Group.; It would be good if such intransigence is not replicated across West Lothian.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Communities need far more support than has been previously made available to consider any transfer of assets from the council.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If the ownership is moved to community groups, the council is still providing in some cases facilities to open and close the premises and all the energy bills - I am not sure if it has changed but previously no cost was passed onto the community groups - there should be some cost attributed to them to cover these costs	6. The respondent suggested an improvement. Officers will consider how this could be developed.	-
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Like I say, volunteers AGAIN!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	the Council values the contribution that volunteers make in the delivery of community activities and will support community groups who wish to consider requesting ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Partnership have mot worked well in the lothians so far, legal safeguards need to be in place	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Be aware that volunteering is beneficial in so many ways and that may mean having local community center's etc. to encourage people to be involved.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The consequence of a failed project has to be spelled out in terms of reversion back to the council as a safety net it not necessarily an option once buildings etc are taken up!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Is it proposed to reduce the number of Community Councils; What input is being given by the Community Planning Partnership; a partnership strongly recommended in the Empowerment Act?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	There are no plans to reduce the number of Community Councils.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	So youth and elderly services will be hit hard again?!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This is where West Lothian Leisure should and could provide space to users of the above facilities mentioned, especially during the morning or afternoon, when sporting bookings are at their lowest.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	More taxes less service, where is the money going? In the chief executives pockets, this has to stop, cut their wages down a normal "living wage" that they expect us to live on.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	mentioned previously about buildings	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The council need to sort my housing before I'll even consider offering my opinion. The council ignores me constantly and is costing me 2 houses to pay for. My next step is to take my housing situation to all media outlets.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	need your support	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities		7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There is not enough space to list the money wasted in these areas along with staff who do nothing.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would like to see the modernisation of Falla Hill PS in Fauldhouse. Inadequately sized infant gym hall and asbestos everywhere.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Asbestos is a common product and exists in a very high percentage of buildings before its use was banned in 2000. Asbestos is a managed product and is safe unless it is disturbed. The council follows legislation very carefully in its management and uses the asbestos frameworks as laid down by the Health and Safety Executive
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	You are making it extremely difficult for hard working families who sacrifice time with their families to put in long working hours to maintain a reasonable standard of living to justify staying in Scotland. I personally would leave Scotland tomorrow if my wife don't want to remain close to family as all you do as a government is punish (by high taxes) the harder working families to sustain those living from a benefits system that cannot be sustainable in its present stat.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	In my opinion these facilities will disappear from our communities if they are not funded by the council as you will need to rely on volunteers and fundraising to ensure these continue. I feel our society is fracturing and need more support not less support. What happened to government pledges?	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	It would not be possible to provide information on the governments pledges and we would encourage you to engage in discussions with your MSP to establish the status on any government pledges
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If you rationalise the available centres you cannot cut the transport links ppl will need to travel to them.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council will work with community groups to identify transport links to enable access to community activities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Close all Excite facilities except swimming pools and any other sector where there is no private sector provision. There is adequate private sector provision in gyms, bowling greens and golf courses, for example. Increase funding for coaches to increase participation in recreation.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Again, good idea. Lots of disused church halls that could be better used for more community events.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Church halls are owned and managed by the relevant church body
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Put back in traffic wardens and you could make a significant amount:	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	In theory a good proposal. In reality what happens to those members of the public living in small villages in the County that have limited or no means to access a community hall or facility. These partnership models work best in more populous areas. As public transport and the subsidies are also being reviewed, access to any facility by those disadvantaged members of the public continues to marginalise them.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If current public transport made it feasible for persons accessing different community centres as a result of closure then I would agree.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	While the council and government is involved in delivering public transport services, these services are being provided by private companies who need to recover costs. If usage is too low they may not be able to provide specific services
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Provision of local community facilities is core for building resilient communities. I recognise that there are other funding opportunities available to charities, groups etc. but concern for the long-term viability if strong leadership and commitment is not volunteered.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There are no (literally zero) village facilities already and no choice of GP. Stop gutting communities!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The provision of medical services is the responsibility of the NHS

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The information being given to be commented on is so vague it makes it impossible to answer and in some cases understand and therefore I have been unable to give Frank response	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Details of where, what, how needed.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't fully understand this part	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity. There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Please protect the Lanthorn	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not everyone is online so need to be able to access council facilities easily and not have long circumvented trips.	9. The respondent made a comment on the survey question.	The proposal covers the reduction of council buildings so it is possible some customers may need to travel further to physically attend a council office. We would encourage customers to access our services over the phone or via our website
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Will this impact on the more remote villages e.g. Fauldhouse, Seafeld? Will it impact on the length of time access to such services are available?	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015,
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I don't know what this means in practice. What does "rationalise the provision" mean? Closing down village halls? Selling them off? What does "support community access" mean? That the halls have to be maintained by communities?	9. The respondent made a comment on the survey question.	There are a variety of options available. These could include, closures, amending opening times, changing staffing, allowing community groups to take responsibility
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This makes me sad	9. The respondent made a comment on the survey question.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Funding restraints in both capital and revenue funding means that the council can no longer afford to keep all the buildings it currently has.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Seems a bit hopeful as where will the company groups find the money.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There needs to be careful consideration of the facilities that are closed. In reality, community groups do not have the same structures or resources (e.g. time, money) in place to be able to run these centres. We have already lost an outdoor education centre in West Lothian. Community centres are important for bringing people together and reducing anti-social behaviour or feelings of isolation.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Only if it does not affect services offered.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Who will ensure upkeep of these facilities?	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Some village halls are essential in supporting young people. These aren't reached easily and bus services and therefore may isolate individuals.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Only if kept within the community not sold off	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Looks loike erosion of facilities.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Dubious that this cut can provide better services.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would our rural communities be left without facilities if there are no volunteers?	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	what does this mean?	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	What does this look like in practice for our communities?	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Don't isolate communities or leave them with nowhere to gather etc - encourage and incentivise local groups and charities to set up and use council spaces.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Small villages see their village halls as the hub of their community. Consolidating is not the right approach.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This will impact the people who need these places the most the young and the elderly	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	The Partnership Model in our village is not effective. It is poorly run and far less used than when the previous components were run as individual bodies.; The library is no longer functional as a library - perhaps the odd person using a computer - but the tables and chairs have been removed, so no encouragement to sit and work/read in the library. The swimming pool 'opening times' are reduced. The GP surgery lacks a full quota of GP's. The cafe has closed.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Again similar to an earlier comment people shouldn't have to travel 5-12 miles to leverage a community facility. That called travelling to another community. The facilities should be run effectively.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I fear reducing the number of community centres and village halls is going to impact hugely the services provided for after school care, mother and toddler groups, play groups and will then have an affect on other areas.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	I think you need to be very careful on this one as what you're really saying 'getting people to do stuff for free that we used to pay people for'. Short term that may work but long term it is a big ask.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Would be useful to know which community centres/village halls you have included to arrive at your estimate. Sounds good in theory, but in reality will any communities want/be able to buy these buildings? What will happen to them if they don't/can't?	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council will support community groups who wish to take eon ownership of community facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	How have community groups been upskilled to manage this upcoming responsibility?	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council will support community groups who wish to take eon ownership of community facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Village Halls are the lifeblood of communities - small ones in particular. Surely there needs to be places for people to meet and socialise? Essential to maintain good mental health.	9. The respondent made a comment on the survey question.	The community empowerment comes as part of the Community Empowerment (Scotland) Act 2015. Through this act, communities can take control and responsibility for assets directly. Therefore, if there is a demand that community can have the opportunity to take ownership on what is delivered. And the council would support communities that want to take on facilities
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	We have a partnership centre which I believe is run by a management committee and I'd say it's not for the better of the community it should be run either by West Lothian council or possibly Community Council/Development Trusts who are accountable.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	There are big risks through this - building maintenance and safety	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	As a resident I do not understand what this will mean to the services I receive due to the vague and broad terms used in this consultation document.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Keep local aithority control and do not pass to non statuory and accountable local management groups	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community groups will likely suffer due to the lack of financial resources if they have to request ownership resulting in potential loss of services that offer much needed input and support - which are often more able to reach the more vulnerable people in society.; ; Also, will these buildings be left to just rot and devalue areas if they are not bought over?	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	These new endeavours in buildings or land transferred must be co-designed and co-produced and led by local communities themselves and with the support and facilitation of local government and community planning to maximiser the community wealth building impacts.; ; These assets and the council itself are OURS - the PEOPLE'S the TAX PAYERS'. We must be treated as equal partners and have the final say. Not just every 4-5 years at the local council elections but in all these matters.; ; We also need assistance to create local Net Zero plans for each locality to give us focus and steer, as well as hope and a template for a sustainable future for our children.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Rationalising/ closing council community facilities would mean less affordable opportunities for those most in need to have warm, safe places to go to socialise, develop or learn new skills and participate in the community. ; ;	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It is assumed that community groups would have interest in taking ownership of council properties. How feasible is this given the skillset required to take on the role and the very limited capacity within communities but also within the council to support such arrangements.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015. The Council will provide support to community groups who wish to take on ownership of community facilities.
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Not ideal - having space for facilities and community centres is a great way to help build community spirit and access support services.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Community centres should stay Council run.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If communities want services they need to put a little skin in the game, not sit back like passive sectators.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	If community centres/village halls are not being used fully each day then it would make sense to reduce the opening times or increase charges for hire. Would provide a reduction in staffing requirements and energy costs.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Whitburn community centre has went over budget and has went over time as well, the new partnership in Whitburn was the same, not doing very good on this point already	9. The respondent made a comment on the survey question.	Projects may have unforeseen circumstances or external forces that change the initial assumptions and estimates. COVID-19 and the lockdown impact for example. The council however has a balanced budget overall and meets the legal requirement to have a balanced budget each year
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	It's important that communities do not lose hubs and access to community and partnership centres. The library in Linlithgow, for example, is well used in the community.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	This does not empower communities, it costs communities money, opportunities and disadvantages them in the long run. The only way that these community groups can afford to take on community buildings is by passing the cost directly back to the community group using the facility i.e. the individuals using the service. We used to be able to run youth clubs in any council building for free, in fact it was expected and made up part of the managing committees constitution. We now have to pay for this in many centres and the reason for this is community asset transfer. As council services our budgets have not increased so the only way that we can pay these costs is use funds generated by the groups which are supposed to be been spent on excursions, resources. food and generally providing a far better service with improved access to opportunities. If we are lucky to have a big enough attendance we might be able to meet these costs without having to increase our entry fee but what are our participants getting here? A worse service with poorer access to opportunities than they got before but they should think themselves lucky we didnt have to increase their entry money!!! Recently we have seen more and more groups telling us that they cannot afford the weekly cost of attending our clubs which is at the most £1 per session where we work in buildings that do not charge us for let hire we can mitigate this discreetly and sensitively but if there is less and less buildings for us to use for free we are going to have to turn these people away. This goes so fundamentally against the values of community work that is abhorrent.	9. The respondent made a comment on the survey question.	The council continually invests in community facilities and has recently built a number of partnership centres with improved facilities for communities. The Council will offer communities the opportunity to access community facilities in partnership with other organisations. Community groups will have the opportunity to request ownership of properties through the provisions of the Community Empowerment (Scotland) Act 2015

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3A Empowering communities and reducing the number of council facilities	Again all I see here is a reduction in services but no reduction in what we pay so every year we seem to be getting less and less for our council tax but I'm sure around the corner there will be another council tax increase to cover your increasing cost amidst even more service cuts.	9. The respondent made a comment on the survey question.	The proposed increase in council tax would contribute to the overall resources of the council available to fund service delivery. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. It is proposed that future spending will be aligned to agreed priorities. The council is required by law to have a balanced budget, with reduced funding the council needs to reduce its costs.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think its definately necessary to adjust the staffing ratio in early years as there is a large amount of under and overstaffing at certain times of the day. I would hope that the option to work longer/ less days eg 3 or 4 long shifts a week would be more favourably looked on than it is now in a lot of settings.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is essential for parents being able (as required) to access places so they can contribute to wealth generation through work.	1. The respondent advised that they agree with the proposal.	The proposal will not affect access to places.
Community Empowerment an	3B Redesign of Early Learning and Childcare	That makes sense but it would need to be constantly reviewed unless there is a reduction in the number of houses being built in West Lothian as families want these places to be available locally, not to involve considerable travel to the nearest places. Also, providing an option for parents/carers to purchase additional hours should not put anyone at a disadvantage in that they can't access what they are entitled to or encourage private providers just to withdraw services completely. There needs to be a balance between private and public sector	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	ANYTHING THAT CAN BRING IN MAONEY IS GOOD BUT BY PARENTS PAYING FOR A SERVICES THEY WILL DEMAND MORE FROM IT	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds like this is 'right sizing' the service offering as parents are choosing private providers over the council provision. If this is the case, then the proposal makes sense. If it is reducing the provision per child then it is less appealing.	1. The respondent advised that they agree with the proposal.	The proposal is to match supply with demand.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early years staff are on their knees with changes made to provide the 1140 hrs model. Our working parents would like to see the nursery day aligned with the school day, term time and options for additional hours to be purchased, similar to the old wrap around service. Staffing levels need to be considered to reflect the increase in children with ASN, as traditional ratio's do not work.	1. The respondent advised that they agree with the proposal.	The proposal includes options to return to term time hours where this meets parents' needs and the purchase of hours.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There is a need for additional hours of childcare for some parents.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchase of additional hours for nursery care sounds like the best idea proposed in this survey.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	why are these thing even an issue, what have people been doing if not finding the cheapest most effective way of running society the right way?!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is good but people working should receive the 30hrs free childcare at 2 years old and not people unemployed	1. The respondent advised that they agree with the proposal.	Eligibility for 2 year old provision is the responsibility of the Scottish Government.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There is very little detail contained within the narrative to make an informed comment. Suffice to say though that this should be a feature of a progressive and forward looking business and should not be the consequence of a need to save money. The option to purchase additional childcare is an excellent idea, especially for working parents.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is needed, parent need it also children	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Buying extra hours is a good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again these changes must be customer and community led. Centralisation is not always desired and reading between the lines this is what the blurb suggests.	1. The respondent advised that they agree with the proposal.	The Scottish Government commitment to reduced class contact time will be considered alongside this proposal.
Community Empowerment an	3B Redesign of Early Learning and Childcare	More flexibility is needed on order to meet the needs of working parents. People who can afford it don't mind paying for wraparound care etc as long as the quality is good.	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is an excellent idea and makes good use of staffing and nurseries	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a great way forward, it previously happened and provided continuity of care. It also bring in additional income to the nursery making it partially self funding.	1. The respondent advised that they agree with the proposal.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The nurseries staying open during the school holidays has been an absolute godsend for me. Being able to work and send my niece to nursery while I work is absolutely amazing. I don't know what I will do if these hours are being cut. I would probably have to give up my job as there is not another service in the area that provides the nursery care and hours that the local nursery provides.	1. The respondent advised that they agree with the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Community Empowerment an	3B Redesign of Early Learning and Childcare	ELC settings open 50 weeks per year is a waste of money. Most of these setting are operating with half the kids attending during school holiday periods. We need a better balance of term time only and 50 week ELC settings!	1. The respondent advised that they agree with the proposal.	Review of provision on going, 6 settings returned to term time in August 22. Can only be achieved where physical capacity is available.
Community Empowerment an	3B Redesign of Early Learning and Childcare	was there not already a review of early learning provisions over the last few years?	1. The respondent advised that they agree with the proposal.	Yes, to provide 1140 hours, review on going.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I would have welcomed this when my children were in nursery as long as care stds are high	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Very much agree with this measure. So many staff on 52 week contracts, ELCASMs in place and the uptake has not been great.	1. The respondent advised that they agree with the proposal.	ELC offer under review but 1140 hours is required for each place.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a good service, but I often wonder how we managed before with none of this!!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Stop wasting money buying overpriced, poor-quality places from private sector baby farms when higher quality places which could be utilised at no additional cost exist in Council Establishments. Dare the Scottish Government to justify funding follows the child in the face of the quality crisis in private childcare.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	seems sensible when faced with having to make so many other cuts	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea to give opportunity to 'buy' care within a child's normal care setting	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	By allowing there to be affordable childcare it means parents and carers can be allowed to work and also to develop childrens play from an early age. However ensuring there is enough staff needs to be a priority in terms of early education as staff are often overrun and on the go constantly	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Hopefully the price of purchasing extra hours is reasonable given that most parents now need to work to pay rent,/mortgages etc. The more people finding it easier to work than claim benefits the better but understantly it has to be viable for this to work	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea if this is purchasing more hours from school nursery!	1. The respondent advised that they agree with the proposal.	A pilot in a small number of settings has started.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nice one	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree - supply and demand should align (in the current environment the council can't afford spare capacity)	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The option to purchase additional hours of childcare would be very welcome	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The option for parents to purchase extra hours is very sensible - many children end up in split placements across two childcare settings because of the desire to use school nurseries to help with transition, but the need for more hours childcare than is offered.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again the use of the word realign means to me downsizing and amalgamating. Delivering less, so less choice fir service users.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Option to purchase additional hours supports working families	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This would be good and make the nurseries more competitive.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Fantastic option, this would provide good continuity for children rather than multiple placements	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This seems reasonable. Paying for additional hours is something some families actually want.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This sounds very community focused and will support families and promote employment.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Allowing working parents to purchase extra time seems like a good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Seems reasonable as long as charge is means tested and that impact on childminders who rely on their income is fully discussed and considered	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchase sounds an excellent idea - I do wonder where all the staff will be found given the current problems recruiting them	1. The respondent advised that they agree with the proposal.	WLC has close links with West Lothian College
Community Empowerment an	3B Redesign of Early Learning and Childcare	Great idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is an excellent idea giving parents the option of purchasing extra hours in our high quality early years centres. This could generate some extra income for the council.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think this proposal makes sense, however not entirely sure where the savings are coming from. I thought that there were generally not enough spaces/staff .	1. The respondent advised that they agree with the proposal.	The council have sufficient capacity in the sector.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Ok.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	During school break, where parents have older children in school may have not used up their allocated place in the early years provisions. I believe these are funded staff that may have been wasted throughout school holidays because of the drop in numbers of children attending.	1. The respondent advised that they agree with the proposal.	Review on going of opening hours. Some settings returning to 38 weeks where physical capacity exists and demand met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	More term time settings should give greater flexibility for parents in terms of choice but also reduce costs in terms of staffing - shift working, etc.	1. The respondent advised that they agree with the proposal.	Review on going of opening hours. Some settings returning to 38 weeks where physical capacity exists and demand met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds good. The model at St Nicholas' RC primary/nursery is one to follow as the kids are flourishing through the early years service.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Providing flexible childcare to working parents is essential.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	After reading the above, I will continue to trust your decisions in the areas I have no experience in , but thank you for the opportunity to co-operate!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early learning and childcare is a vital service in our communities and needs to be supported adequately. There must be enough staff to deliver this service and that this choice must be there when parents are deciding what is the best option for their child. it is good that there is the option of purchasing additional hours of care.	1. The respondent advised that they agree with the proposal.	pilot being expanded to more settings where capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a competitive market, it seems logical the the council should compete in this market so that the service moves some way toward a self-funded model.	1. The respondent advised that they agree with the proposal.	pilot being expanded to more settings where capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I agree that this is a sensible idea although I worry that some families will lose out if they cannot afford to purchase additional hours	1. The respondent advised that they agree with the proposal.	Buying additional hours is optional, 1140 hours will remain free to all eligible children.
Community Empowerment an	3B Redesign of Early Learning and Childcare	As advised, there are better and more appropriate ways to deliver nursery services. Why haven't we looked at the savings that could be made whilst realising the benefits of different approaches?	1. The respondent advised that they agree with the proposal.	Review on going of opening hours. Some settings returning to 38 weeks where physical capacity exists and demand met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Allowing the purchase additional hours is a positive change.	1. The respondent advised that they agree with the proposal.	pilot being expanded to more settings where capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Moving to a term time - matching the school day model would surely provide a huge amount of savings and be in line with almost all other local authorities. Surely it is here that the most significant savings can be made	1. The respondent advised that they agree with the proposal.	Review on going of opening hours. Some settings returning to 38 weeks where physical capacity exists and demand met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Earl learning and childcare needs to be flexible to be fully utilised by the residents of West Lothian. Having all spaces available between 9 -4 in the modern working world doesn't help those achieve viable work for those who need it.	1. The respondent advised that they agree with the proposal.	The majority of settings will remain 50 weeks with long opening hours.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early Learning is very top heavy too much intervention with HMIE and Care Commission, staff levels are very high especially during the school holidays, saving could be made by ensuring better regulation of the number of children attending - perhaps a pool of staff who can be employed for holiday cover, or regulating when holidays can be given. Food provision in nursery is a waste, there is too much and the majority of the food provided is put in the bin.	1. The respondent advised that they agree with the proposal.	Review on going of opening hours. Some settings returning to 38 weeks where physical capacity exists and demand met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Can we also develop a structure that ensures that the monies for additional hours are collected or services withdrawn.	1. The respondent advised that they agree with the proposal.	Monies for additional hours held centrally to offset any budget pressure.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Put nursery back to finshi at 30and same holiday has school finish at 330 save energy and heating	1. The respondent advised that they agree with the proposal.	Review on going of opening hours. Some settings returning to 38 weeks where physical capacity exists and demand met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Vital given the economic condition of the country.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Children need this to help learn for school so it is a must	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Yes many parents pay into private nurseries but would rather have one childcare setting for there child and pay the additional hours - this would surely; Provide an income for the council nurseries	1. The respondent advised that they agree with the proposal.	Yes, continuity of provision very important.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Most parents are unable to have the childcare they require within council services and are therefore forced to pay for additional child care elsewhere	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	If I could pay for the additional time at this placement nursery I would!	1. The respondent advised that they agree with the proposal.	pilot being expanded to more settings where capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I would support this measure. At the current time, I do not use my child's full allocation as it 2 full days and 1-morning session which in not compatible with a work schedule because of this I need to pay for a private nursery for a full day and forgo the morning session. This means my child is split between 2 nurseries at the current time.;	1. The respondent advised that they agree with the proposal.	pilot being expanded to more settings where capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Yes they should have an option to have the child stay longer for a fee.	1. The respondent advised that they agree with the proposal.	pilot being expanded to more settings where capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Ability to purchase additional hours in ELC would be very beneficial as it allows the child to stay in one setting every day for parents who work more tha. Two days a week. However, private nurseries will need to be consulted as they will lose older children and this may affect the cost of childcare for younger children.	1. The respondent advised that they agree with the proposal.	pilot being expanded to more settings where capacity exists. Private nurseries are aware of the option.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree but time should be given for private nurseries to adjust to inevitable loss of numbers	1. The respondent advised that they agree with the proposal.	pilot in a small number of settings at present, so private nurseries will have time to adjust.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Allowing parents/carers to purchase additional hours is a good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree, this will generate a good amount of funds	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This will be supportive of families (purchasing additional hours) and will also support maximisation of staffing across West Lothian	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchase of additional hours is a great idea as this could be a very cost effective way of ensuring children are in a safe environment and cared for allowing parents to work at a cost effective ratio for childcare. Education and child safety is prime.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree. However, there are ELC establishments with space which is not being fully utilised e.g used to be 40/40 or similar and now with a declining roll are running at less than capacity. More use should be made of these spaces.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I am in favour of parents having the option of purchasing additional hours in council run centres rather than providing the private centre with an opportunity to further enhance their profits.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think this is a good way to make savings.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is definitely something that has been needed for a long time. Although I do not agree with nursery and school being used as a childcare service, it would be so much easier for families to have their child in a council nursery all day even if it means paying for the extra time. It's something I would have considered. It's also great for the children to have that continuity and the ability to develop also without and interruptions. They also don't miss out on certain activities/events. I think this is a fab idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early child care is very important if parents wish to work and should be provided at a fair cost along with the hours that each child is entitled to.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This, too, makes logical sense. Not only does it offer additional revenue, but it also extends the range and the quality offer of affordable high-quality learning and childcare.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Reduce level	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Given the generosity of education and young peoples service budgets should be achievable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Parents who can afford it should pay for it	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	If the proposal is to offer parents ability to buy more hours of childcare, then can we not slightly undercut private nurseries and make this a partially funded serves, as a minimum covering costs of staffing in these facilities.;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	We would have purchased more hours for my daughter at nursery if it was an option	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Extra hours available at a cost is a great idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The hours available in most nursery's are not enough to allow them to be used by working parents. Allowing extra hours to be booked and paid for would be a welcome addition to services; I know 6 families in our local area who are unable to use our nursery due to opening hours. In a nursery of 11 children, having 6 extra who all pay for additional hours would make such a big difference	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchase additional hours - is this an attempt to derive more revenue from these facilities? Makes sense if it is.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Definitely happy for this to happen.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Let people look after their own kids or pay	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think this is a great idea, I would have been happy to purchase additional hours for my childcare. Knowing that they are in a safe, familiar environment, and I wouldn't have to organise for my childminder to also take my child to nursery. This is a fantastic service to be able to offer.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The provision of early learning is fundamental, especially in areas of socio-economic deprivation. However, there needs to be tighter boundaries around expectations and ensure appropriate staffing to meet this need.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Council nurseries are not really an option for many working families due to the restricted hours on offer. A rethink of hours and potential to purchase extra seems like a positive approach. Private childcare is the most expensive in Europe currently	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Yes yea yes. Charging for extra hours at above cost could also help to generate revenue.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The option of purchasing 'extra' provision is a sound proposal which I'm sure lots of parents would appreciate, with a good uptake providing costs are inline with other services providers. Closure of settings would be more concerning as this could decrease parental choice, make services less accessible; vary the quality/experiences and care offered by services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Its area needs investment and will save the taxpayer in the long run and create greater prosperity in the area.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The option for parents to purchase additional hours is a great idea. A fantastic way to support parents who are working whilst also increasing WLC revenue.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	As long as it improves core services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early learning has turned into child-minding and not education, so we should re-focus resources.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Being able to purchase additional hours of ELC in council settings is a hugely positive move and extremely helpful to working parents.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchasing additional hours is a great idea and I fulling support this. Hours need to be more aimed at 8-6 to support working hours instead of silly 3 hour slots etc am and pm "half day sessions" which don't support working parents.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I would have taken this option for my own children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Brilliant to be able to purchase extra hours in school nurseries	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think it is a good idea to realign provision and staffing in ELC settings to match parent choice for placements but this will need to be carefully planned and thought through. To ensure continuity for learners the time for planning, tracking and monitoring of learner progress and liasion time for staff discussion will need to be carefully planned. I will be interested to see how this area progresses.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	this is much needed in communities to allow parents to work and afford childcare	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	For parents with young children this is a very necessary service	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There may be some scope to match staffing levels more appropriately to holiday periods where uptake across nurseries has not been as consistent from parents. There would need to be clear rules and procedures about parents purchasing additional hours as this could not be ad hoc but would need to planned for	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Happy with this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a good proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sensible suggestion	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Very good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Is this charging for optional extra hours? If so, a good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agreed. Necessary change here.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds okay.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds fine.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Seems fine	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea,	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

Community Empowerment an	3B Redesign of Early Learning and Childcare	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I agree with this suggestion.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Could be a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agreed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds fair and reasonable.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds like a reasonable approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Fine	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Although Im guessing this will impact on the private sector. I think this makes sense, if parents can access additional hours allowing them to continue working without having to use private and/or both school and private nurseries this makes sense. However, the offer of additional hours is key as if this doe not match the private sector provision then people will not use the school nursery.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Seems like a good idea to enable parents to purchase additional early learning and childcare, particularly if it supports their own working arrangements	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Makes sense, also make it more means tested	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	More needs done to achieve savings - feels a modest target	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Please provide details of how you plan to make savings.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	What will the cost be to purchase more hours? Will this be affordable child care?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	So long as those parents who are not in a position to buy extra have options	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not sure how this would impact our family as not clear. Being able to purchase extra hours for my three year old would definitely be beneficial though.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchasing additional ELC hours is fine, as long as all children are receiving the minimum requirement. Nursery staff are essential to deliver enriched learning experiences for children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This makes sense however having 2 year old in nursery is a bit ridiculous. 3 is early enough for funded nursery places. Reducing hours of nurseries over school holidays too for families that do not work. Might encourage some to find work.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Maintain or improve resources and levels for special needs children	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This makes sense. Still don't agree with teachers being removed from nurseries though as many nurseries now don't have planned learning experienced to enhance the provision. Just a comment as I know budgets are tight and this would increase spending instead of cutting.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	At the moment staff child ratio is not looked at some have more staff than children. Ultimately the child is the responsibility of the parent/parents ; Efficiency please	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea - early education is vital for communities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agreed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This makes sence.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Seems sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I support this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Very happy with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This sounds like a good idea. However the notional "full" utilisation may not be realistic!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds a very good proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Needed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Yes!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds a good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Looking at provision and utilising resources could provide massive savings. The option for parents to purchase additional hours is interesting.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I would purchase wraparound care at my sons nursery. This used to be available years ago.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea to be able to purchase extra hours	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchasing additional hrs would be beneficial as income stream and i am sure could be beneficial to some working parents, for those that can afford it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	In a time of austerity some working families might want to purchase more early learning and childcare facilities but will not be able to afford the charges. A difficult situation for families.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Staffing at nurseries should match the needs of the children. Ratios of staff to children should not be increased or the level of provision children receive will be reduced.	1. The respondent advised that they agree with the proposal.	The proposal is to match supply and demand more closely.
Community Empowerment an	3B Redesign of Early Learning and Childcare	We might be open to buying additional hours in our preschool, but it would need to cover our need - which is nearly two full days. And we'd be fine with paying what we currently pay for private nursery. Our preschool is excellent and has made the transition to primary school for our eldest almost seamless.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Being able to purchase additional hours would be beneficial to parents - especially to work.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Very important opening statement and must fully agree with any initiative that supports early learning and childcare.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds okay, if done with consultation and workload assessments	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I am baffled how what you say here creates a saving. Clarity of language is required. It appears that by fully utilised you mean consolidation. If there are nurseries with low uptake then it seems acceptable to review how that can be improved.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a MUST and needs to be clear and transparent to the parent/carer. Provision should be what the community requires not what someone thinks should be.	1. The respondent advised that they agree with the proposal.	Provision is based on survey responses by users.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is an excellent proposal offer the purchase of additional hours.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	If you can offer a better service that suits the needs of the people of West Lothian whilst making a saving of £2.3 million - What are you waiting for ?	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Very beneficial for working families	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Much needed for pre 3 year old	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree - sounds reasonable. Need to attract and retain good quality staff by supporting their needs too.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Makes sense but there has to be a structure to ensure local communities have provision linked to the primary schools that the children are going to attend and not completely driven by parent choice	1. The respondent advised that they agree with the proposal.	Thank you for your comment. The link to primary attendance is reflected in admission criteria.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a good idea, but it should be paid for not free, maybe at a reduced sensible rate.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	So you don't do this today. What on earth are you doing under utilising services	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Makes perfect sense. Why wouldn't the council do this? This is why the council is accused of waste. We need to get more efficient in use of limited resources. Wonder why this can't be applied to other education settings too (i.e. primary schools with tiny pupil numbers).	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I agree with this in principle but consideration must be given to parental choice, partner provider nurseries and childminders to ensure the process is fair.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Childcare needs to be affordable to enable parents to work. Offering the option to pay for additional hours will give added flexibility to working parents and this provision should be maximised to make best use of existing facilities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This sounds a reasonable adjustment.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	As long as these savings have no impact on the provision of early learning and childcare then I have no issues	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The option to purchase additional hours at a council nursery would be welcomed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchasing additional hours is a good way to create income from a service which would be used by many parents.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Does this mean some nurseries may close? For some parents the option to purchase additional hours would be a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. No closures are planned as part of this proposal.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Councils should absolutely offer additional hours to purchase as its almost impossible to work around school/ nursery hours and so many parents will chose costly private nursery or after school care instead.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Childcare is much needed so that parents can go work so this is a great idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nursery hours provided do not seem to be used to full potential by customers - so provision of extra hours having to be paid for may show them the good value they get than from a private nursery, while creating monies for WLC.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	good idea to help with childcare but it would be hard for the nursery staff to meet the needs of the children.; need to be more support for parents to be able to work and pay for child care as the cost is just too much so i dont work due to this.; eligible 2s is only for people on benefits, what about other folk? no help for folk who are not on benefits who are struggling	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree with the additional hours as it will help a lot and will allow pupils to use the same nursery all times instead of splitting between multiple.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree with allowing parents opportunities to pay for extra hours in school nurseries providing you employ staff to facilitate it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	As long as its a realignment of the services offered not staff cuts, as these Early years staff are the beginning of our future generations educational pathway.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Staffing will be determined by parental demand and national supervision ratios.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Money could be made from running childcare as a business but it should be administered separate from the school and already over stretched staff and management .	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree that additional hours should be able to be bought thus utilising structures already in place.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Something isn't working here currently. Often there are more staff members in the ELCC than there are children! This seems crazy. What a shocking waste of resources. I don't know enough about this to give a suggestion but I know that resources are being wasted currently.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. The proposal is to bring supply into line with demand.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Matching parental choice for nursery placements makes sense and allowing parents to purchase additional hours makes sense. Not all families need the 'free childcare provision' that is currently offered so review this, SPEAK TO PARENTS, and make an informed choice from there.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is good if you provide this across West Lothian. As a parent who couldnt use Council services as the nursery didnt have any option to purchase extra hours i would have welcomed this. Instead the money went to private provider instead of the Council.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good idea to offer the option to purchase additional hours however have you considered whether this will impact places available for children who are funded? Will this overwhelm our nursery teachers and impact on the learning experience for children. How does this compare with offering funding through more private nurseries?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Additional hours will only be offered where capacity allows. This offers an additional choice to parents who may not want a private nursery.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This sounds like council nurseries are becoming private nurseries. It sounds like the reintroduction of the wrap around model. Have your staff been consulted about this? ; It is a good way to make council nurseries more profitable at least.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. This consultation is open to staff.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Option to purchase additional hours sounds interesting also Parents should be charged a late fee for not collecting their child on time from nursery.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. There are no plans to introduce a 'late fee' a; though nurseries work with parents to encourage pick up on time.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Paying for additional requirement is good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree but has to be affordable for parents	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sadly I feel this is inevitable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This should have happened a long time ago	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Allowing parents to purchase additional hours is a good idea. More high quality staff is required for nurseries.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	A really good idea to be able to purchase additional nursery hours in council settings, a huge opportunity & massively under explored. The reasources in nurseries are vastly under estimated.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There must not be cuts to this provision as it is vital for working parents and also provides development and learning for children with trained staff	1. The respondent advised that they agree with the proposal.	Thank you for your comment. The proposal is to bring supply into line with demand.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This sounds sensible. ; I would purchase additional hours if offered. It's a waste to have provision under utilised.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree the council should limit ELC provision to the funding provided by the Scottish Government.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Additional hours must be paid for as set out in statutory guidance.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Allowing parents and carers to purchase extra hours would be very useful.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I 100% back this and wish it was available when my children were in nursery. My youngest was in nursery during 1140 expansion but we only used 12 hrs per week because an 8am-6pm day was inappropriate for our needs. We had to pay for private nursery for a 3rd day. 3 days at 9-3 would have been a much better option for our family as I worked 3 days a week at that point. Would have been great to have had the option to purchase extra hours for consistency rather than use a private nursery.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I don't understand why the council would't already be making 'sure that all resources available for early learning and childcare are fully utilised to support high quality service delivery' This seems like a very easy win!	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early learning and the ability to access suitable hours are essential to allow parents to work. Our early learning practitioners are a huge asset to the workforce, and trained quality staff are crucial to be able to give children an excellent start in life.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The flexibility of this sounds positive but I worry that the constantly evolving ELC provision is becoming more of a baby sitting service than early childhood education provision.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. The service is delivered in line with national statutory guidance.
Community Empowerment an	3B Redesign of Early Learning and Childcare	More options for affordable and flexible childcare, the better	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Provide flexible arrangements for busy families. Allow more local social enterprises to offer services at venues or in their or other families' homes. Make able-to-pay families contribute more to childcare services and subsidies lower income families more. Set up childminder/ babysitting clubs.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. The intention is to increase flexibility and choice. 1140 hours is, however, a universal entitlement and cannot be charged for.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Offering additional hours for childcare is a good idea. However, you need to offer it at a competitive rate. A child in the nursery at the school I work at was going to make use of this facility (our Nursery is trialling this initiative) but it turned out it was going to cost more than the private nursery he currently attends! This is a no- brained for parents in the current financial climate.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Fees are benchmarked against the private sector.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	I have always thought that nursery placement hours are designed only for non-working parents and are virtually useless. I think all working parents would actually benefit from council reviewing opening hrs and placement hrs they can offer for parents. However if council can offer reasonable rate for additional hrs I think a lot of parents would consider that.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Get children out of the poor quality, over priced private sector. The SNP government's insistence on using taxpayer's funding to prop up a failing private sector is nothing short of scandalous and verges on the corrupt, in my humble opinion. How many of Nicola's cronies own private nurseries?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. The proposal will increase flexibility and choice.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree. Is there robust evidence of improved outcomes from the long-term expansion of early learning and childcare?	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	While a great idea for raising money, staffing levels will need to be considered during this process. I have spoken to a few nursery staff that have a lot of concerns around how their nursery would handle the number of children that would be expected if all slots were booked as they currently feel under a lot of pressure to complete administration tasks as well as keeping up to date records of activities and progress that each child makes without the addition of any extra children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Parents couldn't afford to purchase additional hours	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Costs are benchmarked against the private sector.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree to allow parents to return to work	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This will be very handy for working parents	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Why this wasn't a thing before is insane like people are offering to pay more and you are only now just like oh yeah ok we will take your money for that.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a good proposal if parents could purchase additional hours in ELC. As a parent of a 2 year old in private childcare it is financially crippling however it's the only option we have so we are able to work. To give him continuity when he goes to council nursery, purchasing extra hours is something that would interest us as a family	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a vital Service For Parents form all walks of life. Cheaper child care and free child care for so many hours a week is a great help For many	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Additional hours should always be paid for by parents. This should not be subsidised by the council.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. This is the proposal.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is an area that shouldnt be compromised as early child care is essential to help and keep many parents/carers in work	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	As long as these additional hours dont cost more than they earn. What happened to after school clubs? There are None for ASN children/ teenagers.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Out of school care is not covered by this proposal.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good plan to introduce purchasing options for extra hours	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is a very important need for some parents. Some need to work and others need respite from looking after the children due to their mental problems	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Seems fair. However changes have already been made to what some ELCs provide. Which leaves them at a disadvantage in relation to parental choice.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Falkirk Council do this and it works quite well.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This sounds good	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This sounds like a good idea. You should give rich parents the option to pay for all their sessions too.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Universal free provision of 1140 hours is a statutory requirement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	If available resource in council operated nurseries etc is not being fully utilised it would sound like a good idea to allow for extra hours to be purchased. ; How does a revenue generating opportunity translate to saves. ; How are actual saves being delivered - does it envisage staff reduction or redeploy arrangements.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Needs must	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is an excellent proposal as parents/carers would benefit from the purchase of additional hours for early learning and childcare	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This would be most welcome	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchasing extra hours would help working parents and will provide more money for perhaps more staff	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Community Empowerment an	3B Redesign of Early Learning and Childcare	it is a good idea of kids will have their place assured will provide continuity to the kids	1. The respondent advised that they agree with the proposal.	Thank you for your response.

Community Empowerment an	3B Redesign of Early Learning and Childcare	As long as there is enough places for all in nursery placements.	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Community Empowerment an	3B Redesign of Early Learning and Childcare	great idea as long as there is space and everyone gets their allocated hours. next option if available	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Community Empowerment an	3B Redesign of Early Learning and Childcare	good idea if children get their free sessions first. don't think the council could accommodate	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Parents purchasing services for early learning and childcare only benefits the affluent, the poorer in our society cannot afford to pay so their children are discriminated from the start, but nothing new there, i don't have children but i can see the unfairness in this system.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Offering paid for hours gives greater flexibility and choice to parents who want their children to attend a Council nursery.
Community Empowerment an	3B Redesign of Early Learning and Childcare	We need to invest in our children so would not agree to any cuts in this area however streamlining would be appropriate.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to match supply with demand.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Should have funded private sector to provide extra hours. It has cost the council a lot of money	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal gives increased flexibility and choice to parents/carers who prefer their child to attend a Council nursery.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Whilst it makes business sense to ensure buildings are open with levels of staff / children ratios it remains to be seen what the outcome would be if buildings were closed at certain times and staff redeployed. More detailed information would be required with regards to realignment of provision and staffing and whether this would be on a frequent basis - if so where is the continuity for children if staff are moved within establishments and what would morale be for staff?No thank you	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Staff are already redeployed each year between establishments to match supply with demand.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again, find it ludicrous that young children are being affected - they need this development, and we need ensure they get it for the best possible start in life - Corporate Parent responsibilities, GIRFEC and The Promise need to be kept in mind at all times	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to match supply with demand. Corporate Parent Responsibilities, GIRFEC and The Promise will not be affected.
Community Empowerment an	3B Redesign of Early Learning and Childcare	So effectively a private nursery that working poor would not be able to afford	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal gives increased flexibility and choice to parents/carers who prefer their child to attend a Council nursery.
Community Empowerment an	3B Redesign of Early Learning and Childcare	So, does this mean that some services currently being provided free of charge will become chargeable? That will really help those on the lowest incomes who depend on these free services to be able to work god knows how many hours just to feed, clothe and house their families. I'm sure.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Community Empowerment an	3B Redesign of Early Learning and Childcare	You'll need to add more Early Years staff!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Your plan and the savings seem to be counterproductive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	"purchase additional hours of early learning and childcare in council settings" suggests that poorer families will be hit more as they won't be able to afford this. Not clear what the policy will actually cause.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	1140 hours of free ELC will still be available. Offering the ability to purchase additional hours increases flexibility.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Parents to pay more for their childcare basically.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	No, 1140 hours will remain free but with an option for parents to purchase additional hours .
Community Empowerment an	3B Redesign of Early Learning and Childcare	Maybe save money by offering more hours for those parents who are at work, rather than those who have kids and don't work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Its is now a statutory requirement for local authorities to provide all eligible children with 1140 hours free ELC.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The service should be moved back to education instead of the "child minding" service the council has turned it into, moving all nurseries back to the old hours would mean it is fully utilised as it once was and a further service to cover the holiday period that "working" parents can utilise would be better.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Its is now a statutory requirement for local authorities to provide all eligible children with 1140 hours free ELC.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Towards fee paying schooling? Fees amounting to at least £2.3 million? Shame	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This would provide additionality but would it be utilised with the current financial climate?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Within current resources
Community Empowerment an	3B Redesign of Early Learning and Childcare	Living in the ever growing Calderwood community it seems wrong that there are children living in the Calderwood community and are unable to attend the Calderwood Nursery and are instead being allocated East Calder Nursery.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	unlike primary /secondary school there is no catchment for early learning and childcare.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No!!!! There is already a MASSIVE problem with the primary caregivers having to sacrifice huge amounts of time, money and work experience so ensure that childcare needs are met.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There is still a lot of plastic within some of the council nurseries - this needs to change to more natural resources. West Lothian should have a West Lothian council 0-5 nursery where parents can access it for children of all ages. Ran almost like a private nursery at a slightly reduced rate. This will encourage young mums, low income families to work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The use of plastic resources is being phased out in ELC settings. Council nurseries at present do not have registration to provide places for children under 2 years nor the physical space, resources nor staffing to provide.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nurseries are open far too long and now an excuse for parents not to be with their children. Surely Sure Start style centres would be a far better approach to teach parents how to be with their children and bond rather than sending them to someone else for hours, longer than school hours, each day.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not clear if the proposal here is to remove the current 1150 hours per month of early learning childcare services? If it is, this would be disappointing. Otherwise, option to purchase more hours seems sensible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	1140 hours is not being removed as now a statutory entitlement for each placement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Staff cuts unacceptable in this sector.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	A re-alignment of places with demand.
Community Empowerment an	3B Redesign of Early Learning and Childcare	It's ridiculous how long many nurseries are open for each day. Tiny kids spending long days in nursery.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	1140 hours is not mandatory for parents/carers to use.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think nurseries should be open in line with the school day instead of being open to 6.00pm .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Review on going of opening hours. Some settings returning to 38 weeks where physical capacity exists and demand met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Do not cut nursery staff or provision available to parents. This disproportionately affects working women and mothers who following return to work. I do not think this is an equitable solution.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	1140 hours is mandatory for ELC placements.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The whole ELCC implementation not been carefully considered or supported from the start. In practice this has been a mess.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Scottish Government Policy
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again, this should not result in an overall reduction in the budget allocated to early learning and childcare. Investing in children from a young age has been proven time after time and delivers long-term benefits.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Would this mean the closure of some nurseries and more emphasis on private arrangements?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Disappointing, the changes to nursery provision are awful, the 52 week model is very poor.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is required to provide 1140 hours free ELC for every eligible child.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I honestly cannot agree with these proposals. These children are not commodities to be used as a means of raising money!!!! Where are the children's Human Rights in all of this. Many of these young children who are only three years old are in nursery for 10 hours two full days per week and the council want to expand on these times. That equates to more hours than your average secondary aged school pupil or the average working day for an adult. Please, please think of these tired little people who are totally exhausted when picked up at 6.15 pm.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is required to provide 1140 hours free ELC for every eligible child. It is not mandatory for parents /carers to use.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again those who cannot afford childcare for their children will miss out on important educational experiences. Parents will be unable to work due to childcare difficulties. children from disadvantaged families will again lose out and the poverty gap will increase.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Buying additional hours is optional, 1140 hours will remain free to all eligible children.
Community Empowerment an	3B Redesign of Early Learning and Childcare	childcare should be made affordable and easy for parents so that they can afford to work without the fear of leaving their children. It should be safe, inclusive and a partnership between parent and the childcare provider - not sure how you will save 2.3 million when it is not right now.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Buying additional hours is optional, 1140 hours will remain free to all eligible children.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	how is this possible within current Scottish government commitments?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	1140 hours will remain free.
Community Empowerment an	3B Redesign of Early Learning and Childcare	What good will this be to the private Child Minders, they struggle enough without taking even more time from them and making parents pay the Council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Parents/carers can already purchase additional hours if they wish with a childminder beyond 1140 hours.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I struggle to see how this will help working parents. However the system now seems to be more of a "one size" fits all model, which can be difficult and expensive for some families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	1140 hours will remain free. Buying additional hours optional.
Community Empowerment an	3B Redesign of Early Learning and Childcare	You are just moving the cost to the parents/carers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sounds like getting parents to pay £2.3m for any required additional early learning and childcare? Employ any available parents to help deliver early learning and childcare.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This blurb completely fails to explain where these £2.3m savings actually come from? It's a disservice to suggest you can find savings that significant without having any negative impact on young children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Making it harder for parents to work and increase in childcare costs in an already cost of living crisis.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	In my opinion, Council nurseries should revert to only being open when the schools are open which will reduce reduce costs massively.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council are required to provide 1140 hours free, high quality early learning and childcare.
Community Empowerment an	3B Redesign of Early Learning and Childcare	A huge amount of money has been wasted on nursery restructure already. Council run nurseries are open throughout holiday periods with less than 10 children in the building throughout the whole day.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council are required to provide 1140 hours free, high quality early learning and childcare.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No cuts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Alot of the families that use early learning centres do not have money or they would use private nurseries. Council run nurseries have been in better conditions that the private nurseries, and are safer by having the correct staff to child ratio and ensuring training is given to these staff members. Do not loose this!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Pre school childcare is extremely important for the well being of the children and should not be only for those who can afford to pay for extra hours.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There is no plain speaking about what will be cut.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Kids deserve the best opportunities at an early age.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	How can you claim to provide "high quality service" by spending £2.3 million less? Saying the Council will "make sure" says nothing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	as mentioned previously west Lothians processes/policies related to children who require additional support needs from nursery onwards is incredibly poor - would this make it better?- only for those who can afford it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nurseries should be free	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	What about parents who don't have a lot of income?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	What impact will this have on the number of nursery places, West Lothian is experiencing an influx of young families especially through the building of more houses which will only increase over the years.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	How is this a saving? You are claiming to extend service choice for parents, this increases the burden on the service. Can a public consultation be carried out for this proposal so that we can see the business case and project earning from offering additional hours at market rates to parents?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Pilot operating after approval at Education Executive committee.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Childcare facilities need to be 52 weeks in year and reflect the normal work day of perents. They must also be affordable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	These extra hours are often used by parents for the wrong reason. Young children need time with their parents too and it seems they will spend less and less time in the family home.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I don't understand enough of what is being asked here. A saving in this area when demand is increasing seems tough to meet.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Reading between the lines, this proposal isn't to save money it's to make children a commodity where you can make money from them. Children should not be part of the council making money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	You need less EL managers and you probably need to look at reducing the hours the nursery is open for.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	If you want to save money in early years education, you really need to look at what is beneficial in children and families. You need more early years practitioners, and ey officers. If a nursery is open in the summer and is fully staffed however, there is only a third of the children attending because they don't need to be attending over the summer, you are wasting money. Parents don't need to be able to buy nursery hours from lc nurseries. They need the opportunity to access childminders private nurseries or have flexible working hours within their own work environment. Parents cannot buy extra school hours. The same should apply for Nursery.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is not cost effective. Baby sitting service now with little educational value. Lots of staff ratios to few children regularly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The council already fail to fund resources for early learning and childcare to fully utilised to support high quality service delivery in the ELC settings.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Don't know what this means? Are you again reducing staff?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Contemptible that you are trying to privatise nursery services. Do not do this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Unfortunately, these services have become cheap childcare for struggling working parents. Anything we do to alter them will have an adverse effect on the those who can afford it least.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The way the increased hours has been rolled out in WLC is completely baffling! The nurseries which are open during holidays are overwhelmingly under used with several members of staff! This has surely used lots of funding to pay for all the extra staff required to support the long hours! Other councils have offered term time which ensure continuity and ties in with other children in a school setting. I have not even met all of the staff in my child's nursery! This is now more child care than early education!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Council are required to provide 1140 hours free, high quality early learning and childcare.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Do not support as will hurt those on low incomes who won't be able to pay for this, inequalities will increase	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I can't see how you can cut staffing as my understanding is in order to meet the hours now offered to parents over 52 weeks of the year a huge number of staff are required to cover the opening hours.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Need to provide help for working parents in cost of living crisis	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Does realigning provision involve staff losing their jobs?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Invest and insure in qualified staff to enhance this service. Please don't add to the already over pressured environment and demands on a very overstretched childcare environment. Where staff are leaving after 20 years due to the stress and lack of support. Listen to the staff and not always the service users.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Proposals before are for saving money on Education.; The statement; 'the council will make sure that all resources available for early learning and childcare are fully utilised to support high quality service delivery'. Further savings of £2.3 million proposed here. Optimistic!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	I'd recommend looking at early learning from parental point of view. We'd love to spend time with our children but also, we want to work and build in our carriers (well not everyone) but 22 hrs and 21minus a week is not feasible for parent to do both so many of us is standing with a choice of child or carrier not mentioning second child. I could write an essay in here about managing logistically full-time working mom and full-time working dad and household balans, etc. so maybe instead of giving chance to buy extra hours at the nursery give those extra hours to the parents who actually contributing to the system by working fulltime. And instead of supporting "forever not working ppl who are just taking from the gov not contributing at all". I am all about helping but to the point - and not exploiting system and punishing others...	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	By removing teachers from early learning had a negative effect on children's education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	What effect will this have on low income families. Will nursery practitioners have the option to move centre without interview based on this?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Taking away services again penny pinching where it shouldn't be.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I don't agree with any of this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not good enough.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Like I said earlier what's the point if we cannot support the new generation growing up in West Lothian	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think other councils have delivered the expansion in a more effective way, with nursery hours more in line with the school day and holidays. I feel a lot of money has already been wasted on delivering a service which is not being utilised.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	nursery provisions should return to term time. During holiday periods nurseries are over staffed due to fluctuating pupil level.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I do not support this proposal. early learning is crucial and saves losses later.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Better coordination of when ELC pupils are choosing to attend would help to staff establishments in a more efficient way.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	It is important to give good early years service as this is the first important step for children. This seems a huge estimated saving. You need to be sure children get a good service as this can have a big impact on their development for preparation and behaviour in school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No this is a vital service for kids	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The increased childcare hours within Council Care / Nurseries facilities have clearly not worked and benefited those that it was intended for - with the national government struggling to align the strategy with providers and Councils.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	they need your help	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early years may be in ratio, but staff are on their knees trying to do there jobs with the paperwork aspect, very little time on the job to do it, behaviour needs, ASN. Size of nurseries needing areas covered etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Childcare and early learning centres are key to the economy and well-being of the country. Good and appropriate provision ensures a healthy society today and guards against building up issues for the future. Streamlining should mean more and better quality provision and not be an excuse to cut back.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Against this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Seems optimistic given that there are problems with after school care already.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Disagree in the strongest terms	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	How many current providers are under-utilised/over-staffed? How might parents buying extra sessions/ time (and generating income) impact on provision of "free" government provision?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is to bring supply and demand more closely into line. Statutory entitlement will be prioritised above the sale of surplus hours.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Carer/infant ratios should not be reduced. As seen, this can lead to issues - even death.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal is not to reduce ratios.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Children suffer again	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Do not attempt to save money here.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The proposal seeks to match supply and demand more closely. Provision is based on survey responses by users.
Community Empowerment an	3B Redesign of Early Learning and Childcare	In essence become a private nursery. Shambolic idea	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Children paying for cuts again.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Service should be left as is	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Staff need time to plan and more staff required to support needs. More money investment in special needs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Do not have young children but would prefer to see services enhanced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Offering additional hours will enhance the service.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Still can't see how that will help- understand that budgets have been cut but surely that's other ways.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again providing reduced education from professionals.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. There is no plan anywhere in this proposal to reduce education from professionals.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not sure exactly what you mean but as a parent who relies highly on childcare to be able to work I would be very worried that any changes made are going to impact each family affected and cause other problems.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. The proposal is to increase services to working parents who rely on childcare.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Staffing in schools and nursery must be maintained and improved upon. Not cut.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. The proposal is to bring supply into line with demand, not cut standards.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early education is already at breaking point we need to support these services nit save	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. The proposal is to bring supply into line with demand, not cut standards.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nursery provision has improved over the years however is still a barrier for parents to get back into work after having children and so reducing this support will harm the economy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. The proposal is to bring supply into line with demand, and not impact on parents/carers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	WLC provision is inadequate as is, plus the cost of additional hours is prohibitive to all below middle earners.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. The cost of additional hours is benchmarked against the private sector.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is unsustainable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	dont cut services for kids, if you offer to buy additional hours, these need to be full days on a repeating basis, not half days on an occasional week by week basis.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Additional hours can be booked to meet parents' needs.
Community Empowerment an	3B Redesign of Early Learning and Childcare	That is bloody expensive. More expensive to send my child to go to a council one than a private one. Useless.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Costs are benchmarked against the private sector.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Cuts to early education regardless of how you view this. I don't know enough about how it currently is but any disinvestment in early years learning should not be supported.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. The proposal is to bring supply into line with demand and offer a new expanded service. This is not a cut in standard of service or disinvestment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No happy at all. It's already difficult to provide the service because of lack of money so any saving will be against the best child interest.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. The proposal is to bring supply into line with demand and introduce a new service, and so is not a cut to standard of service.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	disagree with these proposed cuts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Making nursery care more flexible, with the option of of purchasing more hours,could make this service more user-friendly. We could not use the council nursery because the hours offered did not match out specific childcare needs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Realigning provision for early years sounds draconian measures, this is the most important part of our educational programme, vital to all aspects of development, from speech language therapists to social care.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. The proposal is to bring supply into line with demand.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Unsure how a saving of £2.3 million, can be achieved in Early Learning - without massive cuts to the provision of WLC Nursery places. If true, is the concept the Private Nursery Sector will take on significantly higher importance? A very price for young parents to have to pay.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The proposal is to match supply with demand, and not to pay a high price for private nursery places.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There are already staff shortages. Will this be addressed?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Does this mean that there will be reduced free hours for early learning and childcare and more need to purchase additional hours which eventually does away with free hours completely?	3. The respondent advised that they had no comment to make or posed a question of the measure.	No, 1140 hours will remain free but with an option for parents to purchase additional hours .
Community Empowerment an	3B Redesign of Early Learning and Childcare	no opinion on this as parents already get much more than used to be provided. But would suggest wider catchment and investment in sperate nursery buildings from primary schools to support this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Don't care - council settings open after my working hours start and close before I finish. Have to request hours at a private setting regardless	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	More young people cuts?? Early Learning cuts?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	do feel early learning has been redesigned over the past few years	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	nothing to add	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not sure here. Drop staff and problems occur. Not sure waht you are suggesting here	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	A glorified baby sitter is not what nursery is about, these kids need structure, thats all ill say to early learning	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	What are the re-design plans? However I do not agree that, preschool, nursery, after school services etc should be undertaken in partnership centres.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again what does this mean? Realign service provision?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Are their enough resources available	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	How will this look for staff?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not sure how this can be done	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	It is admirable that WLC can maintain delivery of childcare and early learning provision and at the same time make estimated savings of £2.3 million. Does this not suggest incompetence up to now?	3. The respondent advised that they had no comment to make or posed a question of the measure.	No, it reflects the necessity of cutting expenditure.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Difficult given the cost of living crisis.	3. The respondent advised that they had no comment to make or posed a question of the measure.	There should be no cost of living impact from this proposal.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Seems to propose that some parents can 'purchase additional hours' if they are disposed to.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Does this mean increasing ratios in nurseries?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. National supervision ratios will continue to be met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Please see previous comments relating to children and young people.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Will more need from parents with 2 year olds who are vulnerable still be met?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. The Council will continue to meet statutory requirements including 2 year old provision.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early learning and childcare are already stretched.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sad to have to do this in current cost of living crisis	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	How many hours will you be asking parents to pay for? What about the 1140 hours ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Parents who require childcare in excess of the free 1140 hours of early learning and childcare already have to purchase this at their own expense.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Is this reduction essentially being made through staff cuts and increasing child/ carer ratio?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. The proposal is to bring supply into line with demand. National supervision ratios will continue to be met.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not all nursery's need to provide 1140 hours move some back to term time only. Introduce a kindergarten stage within early learning. Biggest source of learning comes from play! Provide staffing and funding to accommodate this in schools.	4. The council is already doing this.	Some nurseries have moved back to term time only, to provide this choice to parents/carers who require it. The issue of a Kindergarten stage will be determined nationally.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Make better more use of child-minders and playgroups - not all children and families want a large nursery setting to be the main care provider in early years - not everyone who is eligible is using services as designed - better partnerships with the private sector, charities and social services would be beneficial.	4. The council is already doing this.	The Council is already in partnership with childminders, playgroups and private sector business which can meet the national quality standard and deliver the full entitlement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Integrate other provision eg benefits/employment support/health etc	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Additional hours need to be financial sustainable for parents if charges are introduced	4. The council is already doing this.	Charges are comparable with those imposed by the private sector.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This service is a priority	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Our infants need a local service that is convenient for them and their parents, they need to be able to mix with their peers in the local community.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I believe nursery classes attached to schools should revert back to 8 until 4pm and no holiday provision , this would save money . Larger nursery schools can cope with a wider time provision. Perhaps have 1 year at nursery and then the children go into a Play based model in the school. This would cut down on staff cover that is often needed in school classes.	4. The council is already doing this.	Review of provision on going, 6 settings returned to term time in August 22. Can only be achieved where physical capacity is available.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Parents should be given choice but so do staff. It needs to be a balance of finding the right solution for everyone. 8 - 6 nurseries don't work properly and more should be returned to 8 - 4.	4. The council is already doing this.	Council is already reviewing ELC provision and some settings are returning to term time where physical capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Purchasing extra hours would be beneficial to all. However, ELCs have already lost manu of their fully qualified teachers due to previous restructuring and cuts - this needs reversed.	4. The council is already doing this.	All ELC setting still have access to GTCs registered teachers.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Align nursery hours with school hours to help parents out! Falkirk council do this and it is much more cost efficient than nurseries been open over the summer with only half the kids there!	4. The council is already doing this.	Some settings provide a term time option where physical capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	So parents pay	4. The council is already doing this.	1140 hours is still free, additional hours not.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The elc should be redesigned so that children are in nursery only during school day and over 39 weeks same as the school other authoritys have managed this and done so whilst still matching 1140 hours.	4. The council is already doing this.	Some settings provide a term time option where physical capacity exists.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Children should have more hours	4. The council is already doing this.	1140 hours is the statutory provision in ELC and parent can now purchase additional hours in some settings.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Ask the parents before deciding what they want and need before making decisions affecting them	4. The council is already doing this.	The council consults parents/carers if relations to changes.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	My question would be, why is this not currently in place? This suggests that early years and nurseries are over staffed at times due to the preferences of parents.	4. The council is already doing this.	There are currently pilots in place across 10 settings.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Provision for ELC should be the same across the council and Scotland. Some children should not be in nurseries for full days 5 days a week, yet others are offered only 2 days.	4. The council is already doing this.	A range of options/models are available for parents/carers in council settings.
Community Empowerment an	3B Redesign of Early Learning and Childcare	ELC staff are hardworking and should be supported	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The Council could do more to reach out to local child minding providers and support the local community and self employed child minders to provide an improved solution. This would ensure that employment levels can remain high and retain those who have young families an opportunity to take their child to a child minder whilst returning back to work. The learning and care environment is greatly more sufficient that private and education nurseries due to the ratios of children being smaller.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	surely we need to invest in early years as cutting it further will surely have an impact on the development of young ones which will then have a greater impact on them as they get older.	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Keep nursery care	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	More nursery teachers need to be employed and more funding for activities , should not be making any savings where childcate is involved	4. The council is already doing this.	The proposal is to bring supply and demand more closely into line, and not employ unnecessary staff.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Will this impact on the free learning spaces? Who will be prioritised for the service?	4. The council is already doing this.	Provision of statutory entitlement is prioritised.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Many nursery settings cannot accommodate the places parents want at the moment so whilst i'd support selling more hours, I cannot see how this would be viable in a lot of settings	4. The council is already doing this.	The provision will be introduced where possible whilst still meeting parents'/carers' statutory entitlement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	A review of the holiday opening should continue to be considered due to lack of uptake.	4. The council is already doing this.	The proposal seeks to match supply and demand more closely.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I am all for parental choice but at what cost? Early Learning and childcare provision is less cohesive when children are coming and going at different times each day and week.	4. The council is already doing this.	Early Learning and Childcare provision operates according to statutory guidance which requires flexibility and choice.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Make far most use of child minders and playgroups - not all children thrive in a huge and busy setting.	4. The council is already doing this.	Thank you for your comment. Childminders and playgroups which meet the national standard can provide ELC.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Better wrap around care opportunities have been lacking in West Lothian for years	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	If the country needs the more people in work, there needs to be more affordable childcare, not less. However money intended to support the less well off should be targeted away from those who can manage.	4. The council is already doing this.	Thank you for your comment. The aim is to increase affordable childcare.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Parental choice is a two edged sword. Some popular centres become swamped, whilst others dwindle, despite the opportunities that might exist to improve their quality. What say do staff have in their deployment?	4. The council is already doing this.	Thank you for your comment. The Council currently staffs establishments in line with demand and deploys staff accordingly.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Hours should be available for all children	4. The council is already doing this.	Thank you for your comment. The statutory entitlement is available for all children, and additional hours available for a fee.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The decision to move to 50 weeks was not the choice of the parents in fact a mere 30% of the parents wanted this outcome. Move nurseries back to term time, your running building all year with as little as 10 children in it. Look to condense nursery buildings where child numbers are lower this will reduce costs of running building and staff as reduced capacity	4. The council is already doing this.	Thank you for your comment. The Council is moving back to term time provision where requested by parents and allowed by capacity.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Please think of childminders in this process. My brilliant childminder recently had a child leave her provision as he was then able to buy extra hours from a council nursery. It needs to be worth childminders while to keep children on they've built up a relationship with.	4. The council is already doing this.	Thank you for your comment. Childminders which meet the national standard can offer hours, but the Council is committed to offering flexibility and choice.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The cost of the school day is on the increase and families are already struggling. To incur more costs for parents will only cause the poverty gap to worsen.	4. The council is already doing this.	Thank you for your comment. Parents already have to pay for childcare over 1140 hours. The Council is increasing flexibility and choice.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Staffing of this needs looked at carefully.	4. The council is already doing this.	Thank you for your comment. Staffing will be inline with national supervision ratios.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This is about child care; Parents need to take some responsibility for the caring of their child; ; Additional care requirements out with school hours should require a charge; ; Staffing level v attendance during holiday periods are a challenge	4. The council is already doing this.	Thank you for your comment. Additional hours over the statutory entitlement will incur a charge.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I believe Early Learning centres have become childminding centres with a focus on childcare rather than learning- this is not down to the staff but a huge change in their role which they had no choice on.	4. The council is already doing this.	Thank you for your comment. The service is delivered in line with national statutory guidance.
Community Empowerment an	3B Redesign of Early Learning and Childcare	What about those who cannot afford to pitchase what they need?	4. The council is already doing this.	Thank you for your comment. The Council provides 1140 hours of free early learning and childcare to all parents/carers, but additional hours must be paid for.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Make much more use of playgroups and child-minders - not every child thrives in a setting with 20 or 30 children - in fact most don't.	4. The council is already doing this.	Thank you for your comment. Playgroups and childminders which meet the national standard can provide ELC.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think nurseries should be the same as school regarding hours and holidays, most are open all year round which must be costly between staffing, heating, electric and resources like food!	4. The council is already doing this.	Thank you for your comment. Some Prints require provision all year, but where parents request term time provision only, and capacity allows, the Council can consider moving back to this model.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Perhaps West Lothian council should seek to revert nursery hours and allow them to close over the Easter and Summer holidays as they previously did before changing the hours without much consultation with staff. Perhaps free nursery hours should be aligned to the school day to cut costs	4. The council is already doing this.	The Council is introducing hours aligned to school hours where parents request this provision and capacity allows.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	My children were all happy in WLC nurseries, the staff were dedicated and nurturing,	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Having to purchase early learning and childcare will create a 2 tier system and affect those who need it most.	4. The council is already doing this.	Thank you for your comment. Additional childcare is already available for purchase from the private sector. The proposal increases flexibility and choice.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Our youngest children deserve a quality experience in early years education. I do not believe that the council can cut money spent in this area and still maintain a quality experience for our youngest children. Our children are now in early years for a much longer period of time. I would be extremely worried if the realigning of provisions and staffing meant an increase to the child / adult ratio within nursery. Our youngest need as much contact with adults as possible in these settings. They are often used as a necessity by working parents and our council must remember that these very young children need constant care and emotional support not from peers but from a caring adult. Continuing to cut in this area could result in many more children with mental health issues as they are not experiencing the bonding and care that young developing minds need at this time in their lives.	4. The council is already doing this.	Thank you for your comment. The Council will continue to meet national staffing ratios.
Community Empowerment an	3B Redesign of Early Learning and Childcare	3B Looks like a good candidate for a workers/customers Coop giving it the support and flexibility to make a successful social enterprise.	4. The council is already doing this.	Thank you for your comment. Social enterprise can offer provision, if it meets the national standard.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again, early learning and childcare do fantastic work and a good culture of wellbeing that benefits staff and children should be maintained.	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I would put early learning very high up the priority list.	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early learning is important t looking at correct resourcing a buildings.	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early Learning Centres are NOT childcare and should not be referred to as such. There is no way high-quality learning experiences can be created for very young children for 10 hours every day and nor should there be. Properly trained educators (teachers and early years practitioners and officers) should be able to facilitate high-quality learning for 4-5 hours of the day and qualified child minders (who may also be early years practitioners or officers) run the rest of the day. Please don't pretend to any of your constituents that this is not the case. Parents and carers are entitled to childcare but children are entitled to education.	4. The council is already doing this.	Thank you for your comment. The service is delivered in line with national statutory guidance.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The additional hours in ELC's as they are open from 7.45-6.15 with does not meet the needs of most families! ELC's should be open mon - thur, term time only and 1 ELC per town open during school holidays as a hub which parents can pay for the service at a reduce rate to support working families.	4. The council is already doing this.	Thank you for your response. Where parents request it and capacity allows, the council will provide ELC to match school term time. Statutory Guidance prevents the Council from offering paid hours at a cheaper rate than the private sector.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Resources are limited in nursery and they struggle daily with staffing.levels. ASN children are inclusive but the right training is not available.to practitioners so the children's needs are not being met.	4. The council is already doing this.	Thank you for your comment. National supervision ratios are met and will continue to be met, and the proposal does not impact on ASN children.
Community Empowerment an	3B Redesign of Early Learning and Childcare	How where do people get the extra money from	4. The council is already doing this.	Thank you for your comment. Additional hours are currently available for a charge from the private sector. The proposal increases flexibility and choice.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early years are vital to a child's start in life so therefore need to be consistent. Some only get the experiences offered in nurseries therefore it need to be staffed by the same people to ensure continuity and allow children to build up trust with the adults (trusted adults approach)	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Revert nursery provision back in line with school hours and term time please. Take up is low later in the day and during school holidays. Its far more convenient to arrange one pick up for siblings who attend nursery/school and wouldn't require staff to be paid over these extra hours. It's a very long day for young children.	4. The council is already doing this.	Thank you for your comment. Where parents request it and capacity allows the Council will offer a 9-3 service.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There should be places and suitable hours available for all children if wanted. This should be a priority so how are you actually proposing to make a saving of £2.3 million other than making parents pay extra for it? Parents should not have to be juggling different providers and hours for full coverage this may be why there is not full utilisation. Consult specifically with parents on what is needed here.	4. The council is already doing this.	Thank you for your comment. The proposals are based on parental responses to surveys asking them to identify their priorities.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Outdoor learning has been proven to lead to improved resilience in young children. If nurseries all spent part of the day outside this might mean a need for less indoor space and thereby save funds as well as giving opportunities for outdoor exercise and exploration.	4. The council is already doing this.	Thank you for your comment. All nurseries offer opportunities for outdoor learning.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nursery are vital for our pre school children and not all parents will not be in position e to afford to purchase additional hours then impacting attainment gap	4. The council is already doing this.	Thank you for your comment. Additional hours are currently available for a charge from the private sector. The proposal increases flexibility and choice.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early learning is key and parents choice of council founded and private nurseries is essential.	4. The council is already doing this.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I disagree in using nursery provision in the stead of playgroups and childminders. There is extensive research on the benefits of both for the under 3s.	4. The council is already doing this.	Thank you for your comment. Playgroups and childminders which meet the national standard can offer ELC.
Community Empowerment an	3B Redesign of Early Learning and Childcare	More term time 9 to 3	4. The council is already doing this.	Thank you for your comment. Where parents request it and capacity allows the Council will offer a 9-3 service.
Community Empowerment an	3B Redesign of Early Learning and Childcare	So you will save 2.3 million by cutting services but deliver a service for parents/ carers to purchase at their expense I suspect additional hours. So you want to financially burden already burdened families with yet more costs in addition to council and income tax increases.	4. The council is already doing this.	Thank you for your response. Parents who require childcare in excess of the free 1140 hours of early learning and childcare already have to purchase this at their own expense.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	What about adding additional support to these poor over worked Elc staff when there is so many additional support children coming in and no extra staffing to cover how much more help these little people need to get the best out of there time.	4. The council is already doing this.	Thank you for your response. National supervision ratios are met in all ELC establishments.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sometimes a local nursery is what enables parents to work and this should be facilitated whenever possible. Cutting services can only be detrimental for the children and usually those that are most disadvantaged.	4. The council is already doing this.	Thank you for your response. The proposal is to bring supply into line with demand.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Essential that the relevant trade unions are fully involved in the process.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Surely that would promote inequality in learning although it would be interesting to know the content delivered in these optional additional payed hours. High quality, free education should be available to all. I think it is wrong to offer extended hours for a cost.	4. The council is already doing this.	Thank you for your response. Parents who require childcare in excess of the free 1140 hours of early learning and childcare already have to purchase this at their own expense.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Widen the ability of parents to allocate 'free childcare' funding to their chosen provider. If delivering an option to purchase additional hours, also allow selling of hours to parents for whom hours offered in council settings are not suitable.	4. The council is already doing this.	Thank you for your response. Parents can receive their 1140 hours from any provider which meets the national standard. Parents who require childcare in excess of the free 1140 hours of early learning and childcare already have to be able to purchase this at their own expense from the provider of their choice.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Stop paying private groups and use existing facilities for them	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Scottish Government statutory guidance requires the council to purchase places from the private sector, even where high quality places exist in local Council provision.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Disagree, so much money is wasted in ELC. Go back to the old ways of mornings or afternoons, school hours only and not on during school holidays. This will save ALOT of money!	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nurseries should not ruin outwith school hours or holidays. There is no difference between a P1 child and a nursery agree child. Realign these again and make the savings there	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Really confused.. how can you say " Support high quality service delivery " then say you are cutting funds and staff !	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Give it to private companies. Rich will get richer.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Will this mean reducing nursery hours?	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The provision of 1140 hours of ELC is a statutory requirement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I see council run nursery as a joke as it sits today child lead play is awful, i removed my child from nursery as the staff leave children to do what they please, very little interaction.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	From experience my local nursery provided no education and we're in effect, expensive baby sitters. They should either educate the children or if not just be hired as baby sitters on reduced salaries.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Also charge parents for nappies, snacks, etc. just like private nurseries.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	As part of ELC expansion provision of snack/ milk and meal is free. Council settings do not provide nappies, parent provides (if needed).
Community Empowerment an	3B Redesign of Early Learning and Childcare	Just means privatisation of these services	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Statutory access to Early learning and Childcare would be maintained and prioritised in council settings
Community Empowerment an	3B Redesign of Early Learning and Childcare	Try removing taxpayer funded (because nothing is free) care from kids aged 2 who's parents are on benefits. There is no need for it and it's an unaffordable expense at a time when the lazy muppets can look after their own kids.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The framework for provision is set in statute by the Scottish Government.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There are too many childcare hours supplied. At some point parents have to take responsibility for the children that they chose to have.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Provision of 1140 hours is a statutory requirement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nursery has become childcare and not child centred but looking after families. Families who do not require the number of hours are using it for childcare.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Provision of 1140 hours is required by statute.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This should be redesigned. 2 year olds in nurseries are not ok. Why would you want to offer extra hours?	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Provision for qualifying two year olds is a statutory requirement. Parents have responded to surveys stating they require additional hours.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Is the 1140 hrs really working already ? ; Kids not getting holidays as parents carers always send them to elc tells in their behaviour, emotions etc as we all need to re charge our batteries and have rest.; Term time worked fine years ago.; ; Family time is important kids being in nursery longer is eroding this.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. 1140 hours is a statutory entitlement.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Maybe we should look at countries where this is working such as Sweden. The new nursery hours don't seem to be working for small children at some nurseries where sleeping facilities are not available. An early years environment is not the right environment for 3 year olds who should be at home or a nursery with a home like environment.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. 1140 hours is a statutory entitlement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Keep the work in house and do not outsource	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. The Council is required by statute to pay the private sector for early learning and childcare places, where private nurseries meet the national standard.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Stop giving free child care to those who can afford to pay for it. Reduce the ELC hours provided for free in line with school hours and those who want more should pay for it. There are many families who are both working full time who can afford to pay for this. We should not be providing free child care for all. Also look into the opening of ELC during the school holidays. These hours are not used well and nurseries are running with a few children, huge staffing costs wasted and wasted energy bills.;	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Universal provision is required by legislation.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I do not believe that nursery places should be free for all, I believe that these should also be means tested. Wealthy families should not be able to use council services for free childcare.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Universal provision of 1140 hours is a statutory entitlement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Move Early Years start back to 3yrs old instead of 2yrs.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Provision for qualifying two year olds is a statutory requirement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Parents need to look after their own kids. Whilst there is a need for nursery places I feel the kids are in these institutions for far too many hours. Allowing more flexible hybrid home working would allow many parents to work effectively and look after their own kids.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. 1140 hours is a statutory entitlement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I disagree with the SG current drive for expansion of ELC and the inclusion of 2 year old. We cannot cater for everyone and again children deemed at risk should be prioritised.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. The service is delivered in line with national statutory guidance.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I don't think nursery provision is needed.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Early Learning and Childcare is a statutory obligation.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early years workers should have a higher pay.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	STOP UNFUNDING EDUCATION. Increase staffing and funding!!	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. The proposal is to bring supply into line with demand, not cut standards. The proposal is designed as a budget saving. As set out in the consultation, the Council must decrease expenditure, rather than increase staffing and funding.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early learning is not a babysitting service. Those sitting at home while their children are in full day nursery placements should be contributing somewhere.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Universal provision of 1140 hours is a statutory requirement.
Community Empowerment an	3B Redesign of Early Learning and Childcare	As long as low-income families and vulnerable children can access easily and very regularly.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. The service is designed to complement paid for hours offered by the private sector, rather than as additional support for the vulnerable and low income families.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Parents must not be charged for additional hours	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. The Council will provide 1140 hours free, but charge for additional hours.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Ditch the increased hours and wrap around care.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The Council is committed to providing increased flexibility and choice and is responding to parental demand expressed in surveys.
Community Empowerment an	3B Redesign of Early Learning and Childcare	i think parents should get the choice of nursery and a review of catchment areas should be completed	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Parents/carers are offered extensive flexibility and choice. There are no current plans to introduce formal catchment areas.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Support more Forest Schools - potentially less indoor resource required, minimising overheads?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nursery education currently needs reconsidered. Recent changes allow for a more child-led experience but when children come into Primary 1 they already face massive gaps within the Early Level curriculum.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The proposal will not affect delivery of the 3-18 curriculum.
Community Empowerment an	3B Redesign of Early Learning and Childcare	this is a very undervalued area...low pay and high expectations of staff needs looking into urgently	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	ELC children seem to be better looked after financially than school children, I know the ratio is higher for young children but school children need help too.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Scottish Government Policy
Community Empowerment an	3B Redesign of Early Learning and Childcare	Early Learning and Childcare could, potentially, be about to enter a period of significant change if the proposal to change school starting age to 7 goes ahead. Any savings here would need to allow services to be ready to accommodate any policy change.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Funding needs to stop been pulled on elc places for 2 year olds in facilities such as Broxburn a fantastic playgroup for all that ended up being privatised!	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The playgroup did not apply to be a partner provider despite attending the information session. Council officers have been liaising with the group on how to make an application when the tender re-opens in 2023.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Each nursery should be reassessed on what is currently provided regarding opening times throughout the year. The parents were consulted over 4 years ago to gather what they wanted at that specific time. This arrangement is currently still in place and no consultation has been made to gain current opinions.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council carries out an annual survey of users. Ongoing review of the ELC framework is ongoing.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Our biggest issue is lack of parenting skills. Unfortunately ELC is now the only service raising children for some families.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	if numbers dictate, 1 nurser open for all , during school holidays.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	As we are experiencing children starting school more de-skilled than in previous years - particularly with poorer speech and language, so cost savings with regards to staffing is a huge concern. In recent years we have seen a removal of nursery teachers to cut costs, yet children are still expected to meet milestones at the end of p1. Or re-address expectations in for p1 children. To ensure high quality provision in early learning services, retaining staff to build on knowlege and experience is required. Yet early years practioners are very poorly paid. This does not reflect the importance of the role.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	If that's the case then support community playgroups rather than change processes for suppliers of funded places WITHOUT telling them. Craigshill's Daisy Drop in Playgroup is shutting because they relied on their funded 2yrs places. Lochside Playgroup lost their supplier status because they were not informed either but luckily have parents that can pay to use the service until they can register as a supplier again in January. School nurseries can't cope with Early 2's places as they are full of 3-5yr olds. Support playgroups rather than consider paying over the odds for funded places at private nurseries!! Also by making rent in WLC community centres FREE for playgroups. They are regulated by Care Inspectorate, follow Early Years Curriculum and employ qualified childcare professionals. They are also not-for-profit charities. Support them and save money!!	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Organisations which meet the required quality and service standards can provide funded places.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I do not agree that, preschool, nursery, after school services etc should be undertaken in partnership centres.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Also does this mean there will be additional job available within school nurseries if there is increased demand for additional hours?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Any service redesign would require a workforce plan to support the implementation
Community Empowerment an	3B Redesign of Early Learning and Childcare	Sorry again we have do not have much say as we are not in control of funding, the whole world is in a bit of a state due to Covid and mismanagement at local UK and Scottish Governments. Although we realise that cuts will be made, it is a very depressing read with cost of living, Covid Recovery and world events,	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Save 2.3 million maybe use this to put childcare in all areas. Where I live there is none for 5+ year olds and we are expected by the government to work, impossible when single parent especially when school Fridays are half days. My career is carer/care assistant how can I work if I can't get childcare for the hour of the job. We are limited to 9-2:30, how many jobs have these hours? Use it to provide childcare?	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Local authorities have no statutory requirements to provide out of school care.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The more I read the more I'd like to know where you do plan to spend money and support people as so far it's looking pretty grim yet my council tax is the highest it's ever been. Perhaps devolved community councils would be better than this?	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	If a child is in an early years facility from 8am to 6pm then parent collects takes child home bath supper bed. May i ask when does that child see there parent saturdays sundays only. This is not a balanced family situation. Work life balance is now being eradicated. West lothian really....do we want this? Families not spending time together?!? I was blessed to grow up in the 80s raised by a stay at home mum with not the level if benefits handed out nowadays. Sorry if this seems judgemental but this is the obsercation. There should be more family events. More groups in centres to join.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	Nursery is no longer what it used to be. It has become a council run, council funded private nursery. Children need short spells to interact with their peers, not longer days than most working adults.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I don't agree with the Scottish gvt's policy of free childcare from such an early age anyway. If parents want to give up their parental duties and stick their beloved children in childcare for longer and longer hours then charge them as much as you want - the majority of them obviously don't want to take on the responsibility of looking after their children anyway.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I think childcare provision is now more than adequate than it's ever been. You are actually borderline seeing the child more than the parents, they will pick them up, feed them then they will be bath and off to bed. Where will there be time for their family time.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The ELC nursery provision is shameful. This has turned into a babysitting service with little education being developed. There is a high level of staff to children at particular times of day e.g 5pm 5 staff to 6 children. This is not cost effective.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Agree as long as support there for people on low incomes	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The council is not allowed to compete on unfair terms with the private sector, for example by providing concessions not provided by the private sector.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The Scottish government blanket increase in hours was never thought through or properly funded of cuts are now being made.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I hope you do realise that the more you increase financial pressure on families who sacrifice and work hard to maintain a standard of living to support those who abuse the social system the more likely you are to force them to give up work and join the social funding train as I am seeing more and more people claiming benefits having a better quality of life than those that work hard to provide that for them. I currently earn a comfortable living but I sacrifice up to or more than six months per year away from my family to provide this working offshore around the world but each time I come home I am under increasing pressure every year due to increases in council tax, income tax, energy bills and cuts in services and community standards wether that be roads or waste managements services it constantly makes me question why I work so hard when others are home in their own beds every night and receiving benefits that I am contributing towards. There is only so much a working man will accept before he quits.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.

The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Unclear on this statement- more detail required	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Can't comment here as the detail of how his is to be done.....isn't written above?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Ah, re-align. Clear.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Unable to make provide a constructive comment as there is no detail as to where savings are being made.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	'Fully utilised . . .high quality service delivery. . .realign provision . . .' more nonsense speak. If you can't simply explain what you mean, don't bother. Taking money away from early learning and childcare. Genius! Sure that's a vote winner.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not enough detail to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I don't fully understand this part	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	dont really know what this mean	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3B Redesign of Early Learning and Childcare	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity. There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not really sure how this saves money	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Support not provided in the community - Jumping Jacks went because support was taken away from the Council. People need support with childcare and more early learning is needed especially in Armadale.	9. The respondent made a comment on the survey question.	Organisations which meet the required quality and service standards can provide funded places.
Community Empowerment an	3B Redesign of Early Learning and Childcare	See my answer to 1A. It is disingenuous to ask people to comment on such a broad proposal with far too little detail for anyone to give an opinion on - it constitutes tick box consultation. It is difficult to argue with the broad principle outlined but it very much depends on how it impacts on people - reducing staff can often mean that the only method of communication is online and in many organisations this causes much greater inefficiency/no help at all for the customer/client. Very difficult to believe that you can achieve your aim whilst saving that amount of money...infact not at all believable!	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	I don't understand the question. How is the service being changed and what are the pros and cons? What does realign actually mean in this context.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Community Empowerment an	3B Redesign of Early Learning and Childcare	How is this considered a saving?	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Not explained enough to comment, are you changing nursery hours again?	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	As a resident I do not understand what this will mean to the services I receive due to the vague and broad terms used in this consultation document.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	There is no information on how you are actually making this large saving so I can only assume provision will be worse. As before this is just full of words used to make it sound like it's not cuts. You can't just say 'high quality service delivery' without evidence that it will be.	9. The respondent made a comment on the survey question.	Thank you for your comment. The proposal is to bring supply into line with demand and offer a new expanded service.
Community Empowerment an	3B Redesign of Early Learning and Childcare	Another ambiguous statement masking a £2.3 million cut?!	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	This should have been sent to the parents of all pre- school and present pupils, as I said earlier this whole survey should have been sent to every household in West Lothian, instead of being done in this underhand manner. If a neighbour hadn't found out about this by accident I would have been ignorant of the Council plans. As for the Connect Magazine I don't know when one was delivered to my house.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3B Redesign of Early Learning and Childcare	It is not clear how this (significant) saving is being made, are we saying that services that are not "fully utilised" would be cut completely? That would entirely depend on the reasons why the services were not fully utilised and the impact on those for whom services would be withdrawn. If a mild inconvenience, fine. If a major destabilising disruption then no. Without the criteria being explicit and examples, and not understanding the importance of any withdrawn services to families might be, it is hard to support this saving.	9. The respondent made a comment on the survey question.	Thank you for your response. The proposal is to bring supply into line with demand.
Community Empowerment an	3C Service Re-structure of Youth Services	To me this is being more smart and connecting young people with opportunities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Seems reasonable as long as people who are not eligible for these programmes but who may fall through the net still have options	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Any service that gives young people a chance in life should be protected.	1. The respondent advised that they agree with the proposal.	The MCMC service aims to maximise the number of young people progressing to positive destinations, maximising their chances.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth Services to have a purpose - progression towards a positive destination	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	Could be a good thing but there are areas with very little youth engagement, meaning that young people are turning to their own methods to entertain themselves, which can affect the community that they're in, if what they are doing is a negative thing, due to being bored.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	As long as services are available to all young people	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Streamlining this makes sense.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree with focus on MCMC. Again more detail is required to support any change.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This saving must ensure it is not allowing the youth to fall between the gaps. I have 2 teenagers and pathway to work was lost during covid, this service should support mental health in our youths.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Only one option to make an impact. This has been around for a long time, does it really work?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There is a desperate need for more activities to engage secondary aged children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There is a desperate need for more activities to engage secondary aged children. Broxburn seems to suffer a lot with ASB, primarily from disengaged and bored young people. Yet when the community tries to set something up, they are met with red tape from thr Council. Make up your mind, either you do it or let communities do it. Don't let it fall in thr cracks at the coat of the next generation.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I think this is a good service often kids leave school with no direction in mind. Some often need a bit of handholding to set them on the right path.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	expansion of apprenticeships schemes to be used where possible also and multi-agency work for youth services is essential	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	These types of services make a huge impact to our young people as they help to engage them and ensure their wellbeing needs and motivation is met. Agree heavily with their being more services for youth people as it keeps them busy outside from sometimes really difficult situations at home such as ill parents, poverty, abuse ect	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	An education setting is not the best for everyone, so if a child is still accessing learning through another means we should encourage it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Prioritising MCMC seems sensible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Amazing stuff, doing well	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree - this area has been able to avoid modernisation and change for many years. There needs to be an acknowledgement that the support for youth services has changed from the 1980s	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Fantastic	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Yes, improve relationships between schools and outside agency help.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	A good area to review as we owe it to our young people to maximise their opportunities	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	These schemes are a total waste of time	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Great idea. Giving choice and options is always the best way for a great outcome.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Sounds good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Ok.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Possible savings here.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Very successful initiative, running for quite some time.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Very good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	Sounds good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	After reading the above, I will continue to trust your decisions in the areas I have no experience in, but thank you for the opportunity to co-operate!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agreed. But the service needs to be regularly evaluated to ensure value for money. I'm not clear why NEETs young people are the responsibility of the Council, or how much money is currently being spent in this area.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Worthy of a review of impact.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	good but again this does not show you what you are cutting to save the £500k	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This should already be happening as well as on going!!!!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	As long as MCMC is well funded and there are sufficient competent and reliable workers then this will work well.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is very close to my heart and I would never like MCMC to change, they do an amazing job to the kids and community.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Sounds like great opportunities for those who need it most.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Definitely. Early education settings is an opportunity to embed this and council /community facilities could be used out of normal hours to offer courses to young people to learn a skill that will help them find gainful employment and keep them from falling to the way side or in with the work crowd or making the wrong choices.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This too, makes logical sense.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC should continue to help the youth in West Lothian.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This sounds a good aim. I can't comment on directly but how many will lose out as presumably other initiatives that will be cancelled?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Very important for people to know where they go next so schemes like this should be supported.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is a good move as I feel young people need all the help they can get due to the increase of mental health issues in younger people today.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	As long as it improves core services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Supporting youths is essential and hopefully this re structure will help.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I support the council helping vulnerable young people to get a job or to undertake training.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Why not already. Youth are the Future including West Lothian; Very short sighted	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	If MCMC is already making a significant impact then it is important such services remain in operation to support the cause. However, if the same can be delivered via other means, such as in association and support from other initiatives and effort that provides such savings, then it would be great.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is a fair proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree with this measure	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	GOOD TEAM FROM MY KNOWLEDGE OF THEM	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This would help youths reach realistic goals and find their potential in society	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More close working together seems ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Sounds sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Great	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Excellent, this cost saving of £500,000is much needed, please proceed with these changes.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Community Empowerment an	3C Service Re-structure of Youth Services	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Sensible proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I absolutely love this and applaud those involved this will make a huge difference to young people and their future.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Okay	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This seems to be a good thing, especially if MCMC actually works.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree...	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Seems reasonable.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Makes sense	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This should continue.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Sounds like a good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Sounds like a reasonable approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree - focus should be on education and skills development getting young people who are disengaged and sidelined from society back to being active positive members of their community and empowering them to reintegrate into education and training.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	We need less youth workers. There are plenty of volunteer groups such as local sports clubs in our communities that would be only too happy to work closer with schools	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	These are important and have a knock on effect in crime when neglected	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Community Empowerment an	3C Service Re-structure of Youth Services	Sounds like a good proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Needed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Yes!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Seems fair	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Okay	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	i can not see where the saving can be made but the task/service at the end of the day does not seem to change. so ok.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	I agree with this and have first hand experience of the good work that the MCMC team do with pupils in school and young people when they have left school, and feel that supporting them to work in partnership with other youth services can only be a good thing for young people and the workforce in years to come	1. The respondent advised that they agree with the proposal.	Thank you for your comment,
Community Empowerment an	3C Service Re-structure of Youth Services	Youth clubs and services for youths should not be cut. We have loads of anti-social behaviour in the area and there is already not enough for youths to do so cutting it even more will be a big worry. Need more, not cuts to this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Fully support this....supporting closer links between schools etc. Reaching young people early to break habits & attitudes that take them down difficult paths has to be a priority.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Again this should be promoted. I had no idea this was even a thing - granted my children are in full time education but I know many that are not. Education in many forms should be promoted whether that be in a school setting or going back to apprenticeships etc	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree that this is required and would love for my own service to work more closely again.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service re-structure of Youth Services	There are far too many youth clubs. Youth clubs should only run once per week. Any youth clubs that has less than ten should be cancelled if this happens over a six weeks period	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	How much will this cost?; Yes agree as never heard of this service	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I wasn't aware of MCMC. Close coordination between schools and 'community learning partners' seems like a sound approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Don't know enough to comment but it seems a good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This seems like an outdated model. It will impact on some but given the priorities (and need to focus on statutory requirements) the council has to do this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Don't see any impact here so assume there won't be any loss and so sounds like a good idea on that basis.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It's unclear what programmes/services will be cut to provide the estimated saving but it does make sense to focus on the programmes that are working best and strong connection with schools and community learning partners seems sensible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Sounds good, but what about the young people not in school?	1. The respondent advised that they agree with the proposal.	Thank you for your response. MCMC works with school pupils. Other approaches exist to address non-attendance.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	The Council should invest in services that have the greatest impact and remove funding for those which are not working. Looking for cooperative initiatives with partners should be investigated to provide quality services in this area.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Education is not always a thriving environment for a young person, I think this sounds promising.	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Community Empowerment an	3C Service Re-structure of Youth Services	This service is vital for ensuring positive destinations for all	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Fully support savings in this area and would support further reprioritisation to increase the saving.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good idea. Is a greter aving possible?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Also a good sounding proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Teenagers are either going to engage with education, find a job or not.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Definitely an area for improvement.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Important to be able to reach all	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Makes sense to align the spend where there's the biggest impact.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Yea, sounds good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This seems sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is a good move as, again, other council services could be doing more to support the delivery of outcomes but we have managers that are too blinkered and only look within their own service for solutions.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	These are few facilities for youngsters MCMC should help,	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC seems a useful scheme for marginalised teens.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Good, although keep a holistic approach and don't create tunnel vision on one initiative just because it produces the greatest impact.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	A definite review of Youth Services is needed not enough support or places to go not enough communication or not what is available in terms of support, mental health etc	1. The respondent advised that they agree with the proposal.	Thank you for your comment. The Council provides support for mental health through counselling in schools and the Education Psychology service.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth services is very important to the community and the way young people are supported and grow up; we need to be careful not to cut too many services to Youth services and support this great work as much as possible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I don't agree McMc makes the biggest impact	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Would investment in younger children not produce a similar impact more naturally over time?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	You need to provide services in decile 1+2 areas for young people just hanging onto education/employment etc. It can be too late to just react. Early intervention is needed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	You're reducing teaching hours, is this filling the gap?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The two proposals are unrelated.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth clubs are needed and should be more social clubs rather than educational. Kids need a safe place to go in evenings with friends that's not educational	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	Please protect our youth clubs and children's clubs in our centres. our young people have the right to a local provision equally and fairly across the county. Young people need this....a safe space to be protected somewhere to go to....or they will be pushed onto the street and due to the fact nothing gets done about crime on our streets...the Council would be pushing them in to hanging on streets where there are dangers. This is a very bad idea. On the local authorities head if the decision has to go down this route of less clubs at 1.00 which we can afford to pay in out family off 5.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This youth service needs protected as our children need somewhere to go with friends and get them socialising and bring back discos 2.00 entry fee like we used to have and bring in local musicians to help. Let's get West Lothian on the map for dance and exercise when dancing and music is good for the sole and mental health. Even Family disco time small fee is acceptable here but must be staffed by council. Some committees can not be trusted. Pvg needed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Young peoples services are vitally important. If young people have nowhere to go and nothing to engage with that's free to access then there is more likelihood of more vandalism and anti-social behaviour.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Investment and not cuts should be funnelled into this area.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Get the parents involved, lobby changed to laws. You are aiming at the wrong target here	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is identified as the greatest impact project, so cutting 0.5m seems like a poor choice. Why not other lower impact programmes?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	The problem is engaging with those young people as they tend to have less opportunities that maybe some other youths in the area	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is simply not true. Our local kids club and youth club are value for money at 1.00 entry cost. Our kids are entitled to meet up once a week nine a youth club setting this should be a basic right. Let's get it right for all our communities. I propose no cut to youth services. We need clubs so kids get out bedrooms offline and socialise. If anything we need more openings not less or a cut here.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More opportunities not less should be available to young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	How do we ensure that this doesn't result in increased anti social behaviour?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More money should be spent on young people. There is nothing for teenagers to do, not enough jobs for people, nor housing. Services are bursting atthe seams	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	The impact that youth workers in youth clubs and other groups in the community and also within youth work in schools provide is invaluable. It is not just the services provided by MCMC that makes a difference, but the ongoing support and learning opportunities provided by youth workers in youth clubs and other groups. MCMC makes a huge difference especially with the 1-1 keyworker support but this support ends after a number of weeks/months on the project. Young people who attend youth clubs, however will potentially engage for a number of years and build up the skills and learning over time, therefore allowing them to become responsible citizens due to the role models, ie youth workers they have been around over a period of time. It takes various learning opportunities with young people over a long period of time to create the positive individuals we hope to see in our society. Youth services should not be reduced down to one service - it needs different services working collaboratively to build our young people to be the best they can be within our communities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	I think we need to be careful that services are not reduced or removed to the point that there is significant disruption to services provided. In other local authorities, the removal/reduction of services has removed youth clubs and groups provided to young people to the point that there is a significant increase in youth related anti-social behaviour. This then in turn needs more input from the police and other emergency services to deal with the backlash that comes from having little or no services provided in the preventative work that helps build positive relationships with young people so that they are active, positive citizens within society. A prime example of this is what is happening in England, London in particular, where services for young people have been cut so drastically that there has been an exponential increase in youth related anti-social behaviour and gangs. Overall, this way of working not only creates chaos but also costs more money in the long run.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This sounds like the provision will be left to schools; which makes no sense of the young people are not making progress in school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More savings which impact children!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Is this not disenfranchising the majority of young people that do not require MCMC support?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I don't know what services would end under this proposal, but what would the knock on impact be on other services such as health (especially mental health), crime etc?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There is a direct correlation between the provision of youth services and the petty crime rates. Reduce this service and the long term impact will be an increase in juvenile crime, detention, and long term crime as the youths grow to adulthood and crime escalates.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This appears to be another social work function being pushed to schools, which is a very bad idea	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	The Labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC is terrible they took my son on and then dropped him months and months later. He is unemployed. Have had to find stuff myself so I don't know why they are around I was promised support and promised the world but 0 star service review from me. Please see my complaint about this as I am still so unhappy:	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth services are so important more than ever now in West Lothian as suicide rates are on the high and the youth of West Lothian need things to focus on and structure to prevent this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I know a 29 year old never worked a day since leaving secondary school so 13 years they haven't paid tax or contributed to NI pension schemes training or anything this person slipped through the net. Work is good for people. This individual's mental health has deteriorated as not invested in. Why are they getting a benefit they should be trained and working. I think council should have mass company like BMC for West Lothian and make work for hands to do. Do not cut youth clubs and children's clubs as our kids need somewhere to go a safe place to meet friends and get out of the house off computer well done keeping clubs a 1.00. This helps kids socialising helps mixing and meeting new people helps physical mental health. I hope this stays as I have a big family and 1.00 is affordable. Thanks youth services for clubs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Once again, the most vulnerable young people will be most affected!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	After the pandemic there are more children than ever struggling with education in the standard setting. I would approach cuts in this area with caution.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There needs to be more youth service opportunities to aid in further development beyond primary school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will review the provision of youth services.
Community Empowerment an	3C Service Re-structure of Youth Services	Wow! What youth services? Our youths have been woefully neglected for years! There are more children out of education than ever before due to presumption of mainstreaming and the lasting impacts of government decisions during COVID. As a parent of one of these children, I see absolutely nothing being done to change this unless the young person is causing risk to others.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	If you want to work more closely with schools then it would be a very good idea NOT to reduce the school day.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	How can you save money when it's clear young people require more support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Vital work. Please do not cut back here. People in poor communities do not have any other support and will end up more likely to turn to crime. Training gives self respect and some opportunity. There are some good kids that just need a chance to make something of themselves with someone to believe in them	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth Services is a bit lacking at present in my opinion	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	The CLD youth services service helped my child join in and gain friendships and increased his confidence and I am thankful we have this great service. Without this we would have a child not mixing and not going anywhere without his mum and dad etc. He has a good relationship with staff who are dedicated fun funny serious when need to be and always have my child's welfare at heart. I believe this service should not be cut and children's or youth clubs locally should continue as a public service our world relies on them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	We must invest in services in the young to give them better choices, I am not in favour of any reductions.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	As long as these services are not cut as they provide a vital link for young adults leaving school and integrating into the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There are minimal youth services around. Ones that are around require more funding and support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Do not get rid of Youth Action Project	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More youth services are required to support young people. Some of the issues we are facing now with in active youths & lack of education is down to the removal of services from 2010 - present.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It's a lifestyle choice that many make and difficult to break if it's what has been modelled.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Mainstream youth work provides vital safe places for young people to meet , be supported, listened to and helped to be their best. This should not be sacrificed to focus only on MCMC. Lack of mainstream youth and Childrens work encourages anti social behaviour and limits social interaction especially in small communities who seem to be at risk of loosing the limited facilities and provision they currently have. Already Childrens clubs have seen provision for P1&P2 age children removed. This is discrimination and defeats the purpose of ploughing money into early years to then remove it when they start school. These clubs were the only affordable social interaction for many families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Again in the big picture is this saving real worth the risk of some of our most vulnerable children losing out on support?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This will not be able to be reduced if the supports inside schools are saueezed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Putting more pressure on schools to support Youth Services while proposing cutting school staffing and budget does not make sense.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	We need more help with this not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth services are important to keep young people occupied as there will be more issues in communities if they are reduced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC is vastly underfunded at the moment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It is important that there is a positive destination for every child leaving school so we must be careful not to reduce funding to the detriment of this service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Do not support, paltry saving and youth services are vital with huge unquantified benefits to society	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Appreciate that this is the area of is greatest impact but youth services delivery services to young people who are the most vulnerable in our community and get young people off the streets and engaged in meaningful activities. This is just as essential for those young people whose parents or careers are unlikely to engage is this type of activity.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	this is a much needed resource	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I dont think funding should be reduced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Don't see much point in that	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I despair!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Very depressing and this will bring more trouble with YP in the future, mark my words!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Always investment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Pls don't put the club of it makes are days better we get to gave fun with are friends and make friends if you cancel it. I will go out and just walk about and i can get kidnapped do you eqnt md to get kidnapped	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	We need more affordable places teenagers to go to instead of roaming the streets causing trouble	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth work is a vital, preventative resource for young people that provides relationship-based intervention and can often stop young people requiring more intensive, crisis intervention at a later stage. It is essential for instilling confidence and developing skills in our young people and provides a form of 'trusted adult' support that is well evidenced. We should be investing in these services rather than reducing funding allocation.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is an important service, which are essential to keeping young people out of unemployment.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	if this service was reduced or taken away this would affect young people negatively	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	if it was taken away it would impact on young people	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	If this service was reduced, it would have a huge impact on young people progressing on to positive destinations. The help given supports young people with barrier removal helping them to sustain longer outcomes	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Presumption of mainstream and a lack of alternative educational options means that, unless these children are causing trouble in the community there is nothing for them. Not a thing!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I think this is an area which is greatly lacking. Many children are out of education due to anxiety after covid.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	We need to invest in them not take things away	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	A reduction in these services over the years has seen an increase in the number of youth and young adults being involved in low level crime, drugs and alcohol and increase levels on unemployment or being unemployable. Providing support to those who miss out on opportunities after the intervention is missed is not the solution.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There is not much for the youths to do these days which can lead to unfortunatly antisocial behaviour.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There used to be activities on Friday's after school for youths to take part in sport at the sports centres and it was engaging with the local youths and building a repour with them this also helped with their mental wellbeing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Not a good idea. More work needs to be putting into our youth especially with ASB rising - we need to put money into early intervention and stop throwing money at projects that only look at crisis (when its too late and the damage is done).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Do not do this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Important to retain these services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Strongly disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	We should be doing more than we are doing now not less in the future. Talking to friends about this due to trouble in the area and they say the same, there is not a lot for the young ones to do so we need to do more not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	there should be services opened up to more young people. due to the rising number in employment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	there should be more services for more young people not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Community Empowerment an	3C Service Re-structure of Youth Services	Youths definitely need a help in the right direction, I do as previously stated think that access to buildings, safe places would be advantageous to youths, not specifically a youth group, but a place to go, sit chat, relax with friends. With no pressure to do/learn anything specifically. youths drinking in the streets, up to no good, or just feeling generally unsafe unless in crowds are becoming more and more as they have nowhere to be going unless parents pay a lot on clubs/activities for them to do or they are roaming around in groups because no one wants groups of youths in there house.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Investment in Youth Services is very important as it can provide a vital link between young people and can help shape their way forward and give them support.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	No the youth need more funding. They have nothing to do no facilities unless parents pay.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	More problems in the future, poor kids	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	What youth services, anti social behaviour through roof cos kids have no where to go	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment on existing services.
Community Empowerment an	3C Service Re-structure of Youth Services	This is not an area to make cut backs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments.
Community Empowerment an	3C Service Re-structure of Youth Services	Again more problems later on in life	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Again it is fair to acknowledge that the council must make savings but it is worrying to see that areas such as youth services, generally coisidered to be inadequate, are to be cut further. Again this may prove counter-productive in the long run	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	This is such a successful team i dont think reducing funding is the correct option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth services are seriously lacking in West Lothian. There are provisions for children who are known to services, but there is nothing for your run of the mill kids who have no additional needs or interventions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your observation on existing services.
Community Empowerment an	3C Service Re-structure of Youth Services	Is there anything for youngsters to do? Seems that lack of facilities is why there is an increase in vandalism etc. Get them involved to see what they want. It probably could be done with minimal cost.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More youth clubs and free activities for teens.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It's kinda already pared to the bone....; Can't cut much more ...or they may be negative impact on the kids	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC is a great resource but again- is expensive. West Lothian as a whole have next to no youth services available unless more affluent and modern towns such as Belsquarry and other Livingston towns. Kids in the surrounding towns don't even have an accessible library in some places and are not even allowed access to the ones they do have. Lack of sports clubs/youth clubs/youth trips etc has cause mass influx of antisocial behaviour!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth and teenagers need interests and activities. Encourage that.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	As before all additional services for young people are already stretched so money should not be removed if it means that this will lead to reductions of vulnerable young people who access these. ; MCMC does a really good job but can only work with a limited number of young people at a particular stage - would further improvements here be at the expense of services accessed by a greater number of young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	We need the external services we currently have to help support our pupils, cutting these would be detrimental.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Children paying for cuts again.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Not convince - not seen much evidence of positive outcome for large percentage of youths but do see a severe lack of youth clubs or facilities for our 12-16 year olds to dissuade them from unhealthy activities like anti-social drinking and leaving debris behind them - thus causing more impact on the environment and WLC bin services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	dont agree with this, more needs to be done to prevent intervention so youth stuff should not be pulled.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Schools need to be the starting point to try to tackle this problem but with your proposal to reduce school hours it just makes no sense.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is a bad idea. ; ; MCMC provides positive rest for some of our most vulnerable young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	The youth sector is the most neglected and has been for some time - Secondary Schools facilities should be used more at nights and weekends as places for the young to engage in sports, expressive arts and technologies etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	Review usually means reduction. This is a service which should be increased not reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. The purpose of the consultation is to identify budget reductions rather than service expansion. Unfortunately resources are not available to support this.
Community Empowerment an	3C Service Re-structure of Youth Services	Young people have had a horrendous time and they need all the help they can get, these changes should be a last resort	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	A lot of young people rely on that help and if that help is taken away, their will be more people not working and maybe just getting themselves into trouble and struggling for the rest of their lives.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I don't get how reducing funding will lead to a better outcome?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There needs to be mode youth work	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. The purpose of the consultation is to identify budget reductions rather than service expansion. Unfortunately resources are not available to support this.
Community Empowerment an	3C Service Re-structure of Youth Services	There is already a woeful lack of youth services for those who are not at the most extreme end of the spectrum of need. Reducing this further is not equitable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More locally based youth services run as social enterprises by and for young people with some adult facilitation. Far more services, activities and attractions for young people in every locality.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. The purpose of the consultation is to identify budget reductions rather than service expansion. Unfortunately resources are not available to support this.
Community Empowerment an	3C Service Re-structure of Youth Services	Recent surveys locally and nationally pre and post COVID 19 pandemic shows that young people will increasingly require access to range of opportunities and supports to progress in learning, life and work and that the focus should not be on employability only. The Work with Young People (WwYP) team within Youth Services plays a vital role in delivering national and local priorities and outcomes. The WwYP team addresses inequality, social isolation, anti-social behaviour, and offers free and affordable access to a wide range of learning and skills development activities proven to improve engagement in learning, attainment, positive destinations and life skills through, e.g., group work in schools, summer holiday programmes, community-based youth clubs, focused work on mental health and wellbeing, sexual health and relationships, youth engagement in local/national decision making, girls' work, LGBT youth work, employability programmes, awards and accreditation, Duke of Edinburgh's Award and focused work with young people with additional support needs. The skillset within the WwYP team supports local community capacity and wealth building through partnership working, knowledge, professional practice, skills share and training and development of individuals, community groups and third sector organisations. Reducing the resource within the WwYP team will negatively impact the "other initiatives and work supported through closer working between schools and community learning partners" which is the breadth and depth of the work undertaken by the WwYP team, in particular the professionally qualified Community Learning and Development practitioners.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	3C Oppose taking saving from youth service .. propose that the savings be invested in youth services for senior secondary pupils at a crucial stage in their development. Recently faced with a plea from senior pupils for a youth club that wasn't called a youth club ie a cool club. Nothing provided by private sector for this age range.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Supporting young people to a positive destination is a great focus but other aspects should continue to be offered .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Greater need for young people not engaging with services, increase street work for young people, youth work provision needs to be increased and not decreased.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. The purpose of the consultation is to identify budget reductions rather than service expansion. Unfortunately resources are not available to support this.
Community Empowerment an	3C Service Re-structure of Youth Services	A reduction in funding within Youth Services would be nothing short of catastrophic. Evidence highlights that navigating out of covid, young people's mental health and wellbeing is severely affected and targeted youth work can support young people. Reducing funding would mean a reduction in most community-based youth work provisions which targets SIMD areas and ensure children and young people have safe space to go.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Again, the WLC solution is to target the youngest and those who have a limited electoral voice. Disgraceful.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	balance that MCMC may not work for every kid and other avenues should still be kept open.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	Another cut in services for children!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Worthwhile service if it can be saved it would be great	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	If reading correctly this would remove all youth service provision and focus all resources on MCMC work. Therefore, would assume that the Third Sector would be expected to absorb the more general youth work aspect which would require additional funding.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Surely Youth Services is not only about young people not in education, employment or training but also about being proactive and working with young people in a safe and secure setting i.e. youth clubs. I'd ask how MCMC programme would help in this respect as it is my understanding that the MCMC team are only a few people working under huge pressures already so how could they do more? Our young people need supported and funded youth clubs in order to assist in becoming confident contributors to their communities. This service area budget has been significantly reduced over recent years therefore I couldn't support further reductions.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More community clubs are needed particularly in the areas of deprivation to support communities and the young people within thwem	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Community Empowerment an	3C Service Re-structure of Youth Services	Currently doesn't work the youths in general cause anti social problems graffiti setting fires vandalism mist evenings and weekends in Broxburn. It is fuelled by alcohol and drugs we are talking about as young as 11-12. Need better monitoring of shops selling to people buying alcohol for them they wait in groups on the main road for this to happen. More input needed on this as the police do nothing	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Armadale is awful at the moment with ASB so this is not a good idea. More that stuff is taken away from kids the more trouble they are going to get into and do. Even the good ones they are going to do stuff bad.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I find this difficult to read as CLD Youth Services have many facets.; Do then public actually know what is proposed to go.... I don't think they know the actual facts; So the cut would mean NO services ..2....; Mental health programme; HYPE Prog; Youth participation have your say learning about democracy; Support to msyps to represent west lothian ; D of E; Career ready 2 yearly placements ; Volunteer placements and a chance for work experience. ; Employment for local people in for of a children's worker or youth worker ; Schools youth work; Encourage children and yp to self actualize and not.live a basic life ...personal development. ; No knives better lives ; Support and are.part off management committees; SUPPORT Com re gen meetings.; The right to play belong in a community have a local service to go to build friendships enter competitions develop.; Health respect ; Promote healthy relationships c card points safe sex messages and support points.; Girls.groups ; After hours Support; Fabb club staffing and support ; Motiv8 and comic provision and support.; Digital youthnwork.; Competitions; German youth exchange experiences ; ASN Support clubs groups experiences; Glitter cannons.; Lgbti work ; Pride; Pda in youth work gain a qualification; Core training for staff and volunteers.; Project work.; Holiday get into summer.progs; Easter programmes; Diversify yp from difficult choices.; Employment.; Art projects ; Supporting people.through difficult times.; Conduit to signpost people to other services.; Use buildings providing footfall.; Support to families.; Taking the above again in my view WLC are in breach of UNCRC.; Support Education Employment.; No national youth work outcomes met.; No health and well being indicators met.; No uncr rights met.; ; Is this actually real!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I do not believe youth services should have any reductions in funds. It has already been cut to the bear minimum half of youth clubs across West lothian were shut in the last savings and the very little that is left are over worked and over stretched. Too many kids not enough Staff or clubs!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	I do not believe youth services should have any reductions in funds. It has already been cut to the bear minimum half of youth clubs across West lothian were shut in the last savings and the very little that is left are over worked and over stretched. Too many kids not enough Staff or clubs! The same goes for school's no cuts should be made to staffing here and more funds should be provided. Again, not enough staff and too many kids. Teachers and youth services are already heavily under funded. It would be an absolute joke to cut from here.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The comments are not relevant to the specific issue of digital transformation.

Too many kids not enough Staff or clubs! The same goes for school's no cuts should be made to staffing here and more funds should be provided. Again, not enough staff and too many kids. Teachers and youth services are already heavily under funded. It would be an absolute joke to cut from here. How about looking further into the structure of road management services. Council workers for road digs, traffic management, pot holes bad road resurfacing. It would seem there is an over staffed issue here. Many times I have seen and it is widely seen by others. 5 men on the job but only 2 working. This is actually a laughing point by many. West Lothian Council can't staff there schools but can pay street services to sit and watch the show.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Savings affecting other areas of the Council are also included in the consultation.

Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	Youth services need a review to ensure all young people are being reached - too many not attending school. Needs more funding not less!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment and	3C Service Re-structure of Youth Services	This statement is misleading, offensive and ill-informed. Yes the MCMC programme works extremely well for young people approaching school leaving age and post school. However the Work with Young people (Youth Work) part of CLD Youth Services is every bit as valuable in terms of earlier intervention and equality of access. Why would you want to wait until young people are nearly 16 before giving them such opportunities.; CLD Youth Services are constantly underestimated and undervalued, we provide essential support for young people on matters of health and wellbeing, personal and social learning and development, and wider achievement. We provide opportunities for socialising and learning about civic responsibility. We provide opportunities for young people to learn new skills, explore and develop their confidence, independence and social skills. Youth work start from where young people are at in life, the role of a youth worker is to build relationships with young people based on being partners in the process, meaning that the adult is not in an authoritarian position to the young person. I have seen and heard countless accounts from young people on how valuable these relationships have been. Youth work is also based on the choice to participate, this massively changes the relationship between young person and worker, both parties are choosing for the engagement to take place. ; I was working in a youth work in schools group this week with young people accused of committing a spate of recent anti-social and criminal behaviour in the community. I asked them what they thought when I described working with them to my colleague as "the highlight of my week", they did not believe because they do not believe anyone could think this because they do not think they are worth it, however despite their bravado they were visibly touched. This interaction meant something to them. We then moved on to talking about job aspirations, politics, the cost of living crisis and plans for the future. I had asked them these questions before and got a range of masked answers from drug dealers to hit men etc, the answers then evolved to plumber, might join the army, want to work with cars etc. One young man said he just wanted to have a family and be able to support them. As a team we are now working with the community these young people come from to support them to offer a project to these	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	Teen services would have a better chance of working if do not cut nurture teaching out primary education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	Disagree - maintain both services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	No cuts to youth services The cuts are to much, and they are going to make it worse for anyone who is poor.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	disagree with these proposed cuts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment and	3C Service Re-structure of Youth Services	Very valuable service and should not be cut	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	I think that this approach is short sighted. If youth work had a more focussed approach, was issue based to work with those most needed it would be the early intervention to MCMC which is Mai my. Ended because our education social policy and youth work services are not aligned and set the correct priorities. Youth work is not about employability. It is about informal education that enables young people to develop as a whole person so should be needs led. Haven't seen this approach in West Lothian for many years. I do agree with youth services being based in schools which they were in the past and it was deemed that that was not the right approach. As a qualified and experienced Community Education Worker I believe that with the right strategic approach the council could create better value with this service. Don not agree with this cut.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	We feel this is not a good idea for a number of reasons. Youth work gives you a whole different kind of teaching, which many young people cannot get in and benefit from in schools. Youth work has provided us with different things like bike skills, youth leadership, cooking skills, social involvement and other volunteering opportunities we would not have got elsewhere. If you get rid of youth work, you get rid of a lot of young people's social lives and things like foreign exchanges/trips which provide many young people with opportunities they are not lucky enough to have in their own home lives. (provided by Vennie Youth Forum of 10 young people between 10-15 years old, with their consent); ; (Testament from one young person - 15) If it wasn't for the youth club i go to, then i would not be involved in the community council here and would be on a different path. I now have 500 hours of volunteering. Youth clubs give younbg people like me opportunity to get away from the home.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	This will bring problems later on	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Youth services are an absolutely vital part of council service provision and they are already stretched too thin following years of under-funding and short-term funding structures. I have seen at first-hand the excellent support and positive outcomes that services such as LYPP provide, they should be supported and expanded, not threatened with closure.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Never heard of it, so can't comment. Thought all children had to be in school, training or employment...	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Not sure the impact of this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I am not familiar with this service so cannot comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Children need help after the mess adults have made of their lives, sadly I don't have an answer for this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I'm not in a position to comment fully on this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Details again please in order to comment! I thought you were planning to cut back in money given to schools and yet this policy seems to be putting more work back onto the schools?!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More young people cuts?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	No idea where the saving is coming from so cant comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Nothing to add	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Didn't know this even existed tbh	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Does this mean cutting MCMC services altogether?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Community Empowerment an	3C Service Re-structure of Youth Services	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	No all children find school an easy place and all children are different to MCMC should continue to help our young people	3. The respondent advised that they had no comment to make or posed a question of the measure.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	I do not have an adequate knowledge of these functional areas to comment on this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	I think greater community involvement in schools and education is a good thing. The grandparent/ grandchild relationship can support a young person through the difficulties of adolescence. Not all older people have grandchildren locally, this is a resource which could be tapped into. However, one doesn't know much about the local school if you are not a parent of children there. Outreach would be required.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC has its greatest impact on those youngsters that the school/education system has failed. Why are the schools failing these youngsters?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. MCMC is designed to ensure schools do not 'fail' pupils.
Community Empowerment an	3C Service Re-structure of Youth Services	should be done because some young people don't want to learn or work all they want is to cause vandalism, shoplift and take drugs	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	if this group works right it was a good idea but they don't seem to help very many hopefully it will change and be better	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Is this only aimed at some young people?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. MCMC is a service based on need, and is not universal.
Community Empowerment an	3C Service Re-structure of Youth Services	Not heard of this scheme therefore cannot make comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	What about the Young disabled people that left school?; Clubs? Activities? Support?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. The MCMC team will offer support to pupils including those with a disability who require additional support progressing to a positive destination.
Community Empowerment an	3C Service Re-structure of Youth Services	Surely this should then get more funding not less if it is successful?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. The proposal is to continue to invest in the MCMC service.
Community Empowerment an	3C Service Re-structure of Youth Services	What youth services?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This is greatly required	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There are no youth services to speak of anymore so what are you saving £500k on exactly? Much more information required to make an informed comment. This initiative seems good but should have been done anyway for those slipping through the cracks. ; You should be looking at initiatives for engagement with all young people while they are still at school so they have something positive to be involved in.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More communication for non school children not in mainstream	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Important for young people to get help	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Also, perhaps offering more apprenticeships within WLC?	4. The council is already doing this.	Apprenticeships are offered by WLC services.
Community Empowerment an	3C Service Re-structure of Youth Services	Time for local employers to step up here - who will be the politician or council official skilled and courageous enough to lead this vital change?	4. The council is already doing this.	Partnership with local employers to provide work experience, apprenticeships, jobs etc is a feature of current MCMC arrangements.
Community Empowerment an	3C Service Re-structure of Youth Services	Our youth is our future, younger people being given the right support to access training and employment should take priority however I have no idea whether the programme More Choices More Chances actually makes a difference as I have no statistics to explain what this project has achieved. For me if it has made a difference why are we not investing more?	4. The council is already doing this.	The MCMC service aims to maximise the number of young people progressing to positive destinations, maximising their chances, and West Lothian statistics have improved over time.
Community Empowerment an	3C Service Re-structure of Youth Services	Mental health services for ALL students would have an immeasurable impact on the lives of ALL young people.	4. The council is already doing this.	Counselling is provided in all secondary schools.
Community Empowerment an	3C Service Re-structure of Youth Services	Opportunities for communities to work more closely together to support children and young people.	4. The council is already doing this.	The CLD plan is a partnership document, and proposals to enhance community empowerment will support this.
Community Empowerment an	3C Service Re-structure of Youth Services	So to give these young people better/mor opportunities, how cna this be done through such a large saving??? Surely we should be injecting money into this area?	4. The council is already doing this.	The MCMC service aims to maximise the number of young people progressing to positive destinations, maximising their chances, and West Lothian statistics have improved over time.
Community Empowerment an	3C Service Re-structure of Youth Services	Only a small number of young people will have access to this.	4. The council is already doing this.	The MCMC service is targeted at pupils with specific characteristics.
Community Empowerment an	3C Service Re-structure of Youth Services	Engaging young people in this initiative may be challenging. How does the council quantify the cost of running the service against successful outcomes?	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I have never even heard of this initiative, and I have been looking for support to transition my son into further education depending on his appeal or some other learning partnership/employment scheme. Despite querying opportunities, I have never been advised about this initiative.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	"young people not in education, employment or training"; Please focus on this topic	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It is so important that our young people have choices available when they leave school. This includes college or University, apprenticeships or employment. It is really good that initiatives are in place and this needs to continue in the future. Making options available before young people leave school is so important.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	You need to explain and share these services are actually there to parents for a start	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Due to Covid some kids need help to get work that they did before	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Young folk who have taken the decision to leave school without further thought are a problem and possibly this is something that could be picked up early in school. Some pupils may need extra help and leave school because they didn't get the help needed early enough.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Its not stated how West Lothian compares on NIEET with other local authorities on average and ranges across school communities so that we can judge the effectiveness or necessity of such expenditure. I recall , for instance , that Linlithgow Academy's catchment compared very favourably on that outcome measure. Therefore conclusions must be reserved on whether this spend needs saving or concentrated on where need in isolated catchments is greatest to improve the outcome.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Young people are important for the economy and future planning in West Lothian, they should be supported where possible.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I have a child in this category and have never heard of this service. Sounds lovely though!	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I think this area could be helped more by empowering the school leavers with their options. The old YTS Scheme was great, gave kids opportunities to all different types of jobs.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	What happens to the youths that don't go down the MCMC route, and their group of choice is no longer funded?	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC is an excellent programme.	4. The council is already doing this.	West Lothian's support for MCMC pupils has proved effective at increasing numbers progressing to a positive destination.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC sounds excellent	4. The council is already doing this.	West Lothian's support for MCMC pupils has proved effective at increasing numbers progressing to a positive destination.
Community Empowerment an	3C Service Re-structure of Youth Services	Outsourcing of facilities could be reviewed	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	What youth services? There are hardly eny to begin with! Try investing in our youth and we might not end up with another generation of drug addicts!	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	The council needs to ensure that positive destinations for ALL of our children are available.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Not all young people require support from MCMC services.	4. The council is already doing this.	MCMC is a targeted service, based on need.
Community Empowerment an	3C Service Re-structure of Youth Services	We need to ensure that our young people are equipped and supported to live in todays climate, budgeting skills, living independently	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	it should be opened up to more people not less as employment levels are extremely high	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	This service should be opened up to more young people not less as the unemployment levels are rising. Young people are applying for jobs and college places that are now being filled with people who have experience due to companies that are shutting down; There should be more support given to young people	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	it should be opened up to more young people not less as employment levels are extremely high	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	should be open to more young people not less because of the rise of employment	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	Due to young people unemployment being high and should be increased to assist more young people into employment, training and further education	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	should be opened up to more young people rather than less as unemployment is rising, as young people are rivalling older people for employment.	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	more young people not less	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	I am a MCMC young person and this service is important and can't change. If someone is leaving school and doesn't know where to turn this service can help.	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC has been an unsuccessful initiative for years and years and this is why there will not be a significant reduction in the saving	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work. Numbers of young people progressing to positive destinations have increased in West Lothian.
Community Empowerment an	3C Service Re-structure of Youth Services	The mor choices available the more choices for innovation ,, but only if participan wants it	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	This can be a difficult age group to support and depending on their background a more extensive approach is required that can be more costly and getting it right for the young person is crucial, so not aware of overall budget but cuts could impact negatively on young people.	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC services and routes for young people need to be more transparent and easier to access. Young people not in education, employment or training will often not engage with services, may have had negative experiences of school and may be lacking in parental support. Without a trusted adult or service in place to help navigate the system, it is currently quite difficult for young people to easily find out what options are available for them. Better information on the website and more interactive digital content may help with this.	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	More chances,more choices ?? where ?? there is NOTHING !	4. The council is already doing this.	MCMC is a targeted service, based on need. The proposal is to increase the focus on this work.
Community Empowerment an	3C Service Re-structure of Youth Services	Working with sports groups would help this	4. The council is already doing this.	Opportunities exist for young people to participate in sport and leisure at school and in the community.
Community Empowerment an	3C Service Re-structure of Youth Services	We are in for a rough time, the kids are hard enough, we need investment!	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There needs to be a massive investment in this, I've seen how effective the Hub at West calder high school has been, not all children thrive in traditional classrooms, not all children should simply be passed to pupil support to manage either. A WLC mantra of "GIRFEC" should mean EVERY child & not just the ones who are easy or who the school get more funding for due to their additional requirements	4. The council is already doing this.	Thank you for your response. The Council proposes to continue investing in the MCMC service.
Community Empowerment an	3C Service Re-structure of Youth Services	Whilst I think MCMC is a worthy project for funding. What about the services for children who are in education/employment/training. We surely cant have services just for marganalised groups and ignore the developmental need of children who do not qualify for mcmc.	4. The council is already doing this.	Thank you for your response. Schools cater for children who are progressing to a positive destination through all of the services they provide. MCMC is additionality for those who need extra support.
Community Empowerment an	3C Service Re-structure of Youth Services	Our education system should offer vocational training to children who have not been able to access the curriculum.	4. The council is already doing this.	Thank you for your response. Work experience, vocational qualifications and apprenticeships are offered in partnership with employers and colleges.
Community Empowerment an	3C Service Re-structure of Youth Services	I like MCMC. More choices and chances is a good thing	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Our local community group already works alongside schools providing training. This should happen across more communities.	4. The council is already doing this.	Thank you for your response. Work experience, vocational qualifications and apprenticeships are offered in partnership with employers and colleges, and community groups can make a contribution.
Community Empowerment an	3C Service Re-structure of Youth Services	Young people need all the guidance they can get and to be shown that there are so many pathways to success	4. The council is already doing this.	Thank you for your response. This guidance can be given through school based education and services such as MCMC.
Community Empowerment an	3C Service Re-structure of Youth Services	You could also look at talking to the NHS and introducing Mental health care in school. Also looking at extreme waiting times when it comes to it may be a good idea.	4. The council is already doing this.	Thank you for your response. The Council has invested in counselling and mental health support.
Community Empowerment an	3C Service Re-structure of Youth Services	Performance reviews and accountability should be in place showing positive destinations for services funded by the council.	4. The council is already doing this.	Thank you for your response. The MCMC service works with partners on the basis of their ability to support young people into positive destinations.
Community Empowerment an	3C Service Re-structure of Youth Services	More apprenticeships for young people	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Pupils in education should be supported by schools. ; This sound like a rehash of Thatcher's YTS schemes in schools in the 80's. It didn't work.	4. The council is already doing this.	Thank you for your response. The MCMC programme is not the same as YTS.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC needs to have a strong profile in schools - young people are not all about achieving 3+ or 5+ Highers and the sooner we stop focusing on that the better.	4. The council is already doing this.	Thank you for your response. The proposal is to continue to invest in the MCMC service.
Community Empowerment an	3C Service Re-structure of Youth Services	Feel kids leaving school should be supported more especially when some are let down by the schooling system	4. The council is already doing this.	Thank you for your response. MCMC is support specifically for those leaving school who need it most.
Community Empowerment an	3C Service Re-structure of Youth Services	Work with young people with local authority services providing this not outsourcing	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	As a parent of 2 teenagers in school I am not aware of this programme. I believe the focus should not always be about education but also job skills and training. School may not always be the right place for every person and alternative options should be more available.	4. The council is already doing this.	Thank you for your response. MCMC is support specifically for those leaving school who need it most in order to progress to a positive destination.
Community Empowerment an	3C Service Re-structure of Youth Services	Very important that MCMC objectives are fulfilled.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This needs to reach more young people, there is barriers to accessing these. Such as a young person not being in school for 2+years before they hit 15years old, then services become available. What about the years of education missed prior to these services being available. Again, this falls on to social policy staff such as family support workers, when the issue is education. ; There needs to be a service that caters for children of all ages, who are struggling to access education. This needs to be developed using a joint working approach.	4. The council is already doing this.	Thank you for your response. Joint working approaches exists to support attendance at school, and are at their most effective when all partners play their part.
Community Empowerment an	3C Service Re-structure of Youth Services	The services provided by MCMC are hugely important and highly successful in improving the outcomes for young people so I feel this should be a priority service kept by the Council.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC should continue to be supported	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	A project with local trades could be implemented allowing on the job learning in the building trades to support better apprenticeships as the limitations for young people and adults alike are too hard to access	4. The council is already doing this.	Thank you for your response. The Council works with local employers and colleges to offer work experience, apprenticeships and other work based learning.
Community Empowerment an	3C Service Re-structure of Youth Services	Would it be possible to expand the council's current graduate schemes to allow these young people without education the opportunity to work within the council in some capacity to build their experience and confidence? This could include helping staff at community centres to set up events or performing receptionist duties at various sites or could even include "office" work such as assisting services with reporting and other manual tasks that would free up full time staff to take on more complex tasks	4. The council is already doing this.	Thank you for your response. The Council works with local employers and colleges to offer work experience , apprenticeships and other work based learning, and Council services play their part in this.
Community Empowerment an	3C Service Re-structure of Youth Services	It is vital that you g people are given the support to move l toapositive destination and are giving na k into society.	4. The council is already doing this.	Thank you for your response. This is the purpose of the MCMC team.
Community Empowerment an	3C Service Re-structure of Youth Services	What about mainstream kids, focusing on a small section of kids is the wrong approach. We are creating a devide and giving opportunities to kids that can't be sustained in mainstream education and forgetting about the others.	4. The council is already doing this.	Thank you for your response. Schools cater for children who are progressing to a positive destination through all of the services they provide. MCMC is additionality for those who need extra support..
Community Empowerment an	3C Service Re-structure of Youth Services	I have 4 young vulnerable adults with additional needs in my care through the council and have never been made aware of this service !	4. The council is already doing this.	Thank you for your response. MCMC is support specifically for those leaving school who need it most in order to progress to a positive destination.
Community Empowerment an	3C Service Re-structure of Youth Services	We need to make sure Young people are economically active otherwise we shall have a nation of lay abouts and the Scottish economy could be in line for a serious crash. Schools need to have a jobs guidance councillor who can advise on school subjects college courses and how to access employment.	4. The council is already doing this.	Thank you for your response. The MCMC programme is part of this approach.
Community Empowerment an	3C Service Re-structure of Youth Services	Important to recognise the very significant contribution of third sector to youth work in some communities; ensure they can maintain that ie some funding! or else it will cost WLC much, much more in the long run.	4. The council is already doing this.	Thank you for your response. The Council work with the third sector to deliver the CLD plan. The consultation contains specific proposals relating to community empowerment and partnership.
Community Empowerment an	3C Service Re-structure of Youth Services	Opportunity for greater use of council's outdoor facilities.; ; From previous YTS training on an Agricultural / Horticultural workshop which was used as a pilot for improving transferrable skills in unemployed 16 - 17year-olds, through a mixture of classroom and outdoor task-based learning - most of the young people, who were not ready to go straight from school, went on to gain employment with improved numeracy, literacy, communication, practical and job seeking skills.; ; Many with various issues worked better in an outdoor environment!	4. The council is already doing this.	Thank you for your response. The Council works with local employers and colleges to offer work experience , apprenticeships and other work based learning, and Council services play their part in this.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC team is worth its weight in gold, keep them at full staff.	4. The council is already doing this.	This is what is proposed.
Community Empowerment an	3C Service Re-structure of Youth Services	Don't just cut the other services - support the transition to schools and community learning partners.	4. The council is already doing this.	Thank you for your response. The provision of services to young people through the CLD plan is in partnership between council services and other partners.
Community Empowerment an	3C Service Re-structure of Youth Services	Essential that the relevant trade unions are fully involved in the process.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Community Empowerment an	3C Service Re-structure of Youth Services	should be more awareness about mcmc	4. The council is already doing this.	Thank you for your comment. School staff are aware of the services offered by the MCMC team.
Community Empowerment an	3C Service Re-structure of Youth Services	Utilise use of buildings that are already open during operational times. Possible use of shuttle bus service to reduce amount of properties needed to be open to cater for if cost effective?	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Shocked that primary 1 and primary 2 are now not allowed to go to the kids/youth clubs! Are you going to set up a separate club for them.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Partner with community playgroups to be able to provide a place of employment for young people that means their wages are either part funded or fully funded by WLC. This solves ELC AND youth unemployment.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	There are also too many pupils remaining in the final years of secondary schools when alternative opportunities would be of greater benefit to them. This would also help to reduce waste in secondary school budgets.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Get a job or stop their money	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Can these programmes be used to fill the nice to have gaps in DSM such as tidying gardens in schools ,painting in schools etc?	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Using council services to provide child labour is not consistent with the council's values and priorities.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC does not work and is an unfair service. An example of this is young people who are exceptional entrants to college automatically get a space. They should be case managed by staff in school to allow the service of more choices and more chances to actually live up to its name and support young people who do need more help rather than the ones who know what they want to do.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. The MCMC service is designed to support young people who need help progressing to a positive destination.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	Personally I think a holistic approach to youth unemployment in UK. This should not even be a choice. Yeah not everyone is academically gifted nor naturally skilled. Life is a bitch so putting people into social/military service to reconnect them with society giving them a sense of purpose as oppose to becoming a drain of resources in later life. I'm sure that would give the helpless the help and skills they need to evolve and progress hopefully into skilled and fruitful careers . This also potentially helps councils with man power to get stuff done that needs doing.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. The council lacks the legal powers to introduce conscription, or compulsory labour.
Community Empowerment an	3C Service Re-structure of Youth Services	We are really concerned about all your cutting of services. We are in no doubt about who is to blame for this We just wish we could get help for it all ; We need a really good group of people to assess these cuts. Not convinced the council or councillors are the people to undertake this	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Elected representatives have responsibility for determining the Council's budget.
Community Empowerment an	3C Service Re-structure of Youth Services	If council staff are reducing, why can't some practical tasks be done by people who are seeking employment. They get paid benefits and the discipline required to work will be instilled prior to getting a job.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. The Council does not have power to introduce compulsory work in return for benefits.
Community Empowerment an	3C Service Re-structure of Youth Services	many hands AGAIN. pair healthy people not in education or work with staff doing what we need done like Food farming, (o thats right those council facilities were closed years ago) on local farms, litter picking, janitorial, community building repair and maintenance etc etc.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Maybe council can supply some youth work staff and local committees can match it in partnership. Our kids clubs and youth clubs are important to us.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Increase in teaching / courses provided by West Lothian College?; Suggests that some pupils better off in apprenticeships than staying at school. May well be true but justification to be provided	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Have a look at modes such as goodtrees and canon gate youth and citadel in Edinburgh. Maybe youth provision to help young people in communities should look like this. Outcomes would be better	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Use some of the money to reduce waiting times for CAHMS	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This service is inconsistent and can be improved. SDS provide a high level of support for young people. Outcomes for this service can vary significantly and this may not be reflected in the stats. I would urge caution in investing further in an initiative that is named after a policy initiated by a previous government over a decade ago. Parental feedback for this service should be sought and school staff and SMT teams should be asked for their views. Other areas of youth services have real strengths but these will be largely under reported due to lack of robust data collection.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I think offering voluntary, vocational courses into the work place would help alleviate this problem with regards to some young people. If they were willing to complete a set time limit (a 6/12 course) offering a certificate at the end could possibly help them in their quest to find employment. It would also offer them the opportunity to sample a work ethos environment.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I am not sure that Yout Services are always the best people to deliver the MCMC programme, I still firmly believe that Pupil Support staff in school are best placed to deliver this initiative	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Practical skills will become more important so working with the community to better support young adults into work experience would be welcome. However, can we focus on quality rather than quantity here. Figures will tell only part of a story and we should be looking to better understand the opportunities that young people experience.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There are zero youth services/facilities in our local area. - mid calder	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Is MCMC (More Choices, More Chances) a recognised national initiative? What is its provenance? Focus on mentoring through the MCMC process. Careful of unintended consequences of the one blunt metric - it will drive bad innovative work around solutions - a better metric would be the percentage of "fulfilled young people", driving this towards 100%.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	With the massive amounts of underage drinking and anti-social behaviour we need to maintain Youth programmes and facilities. Some parents would probably be willing to volunteer to help but they will need buildings and funds to provide activities.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Good in theory but there are those with ASN that may not be able to participate and feel pressurised to do so. Please bare this in mind when writing up your policies.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Involve local businesses.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	Is there a role for more vocational training in craft skills, appliance repair etc	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It would be interesting to see the stats on young people in west lothian against other areas, before commenting. I note that there are charity organisations that specialise in this area, particularly within the underprivileged, but West Lothian Council are not engaged with an organisation with proven record of improving this area. It is interesting the MCMC is a West Lothian pathway to help this, but a national charity, MCR pathways has a proven track record in many other local authorities, but WLC chooses not to seek partnership with this group. Sounds like efficiencies could be made on this, and cost reduced by providing a better service, with external assistance who specialise in this area.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Getting experience of life is and important factor	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It doesn't appear to make sense to make cuts to the area of youth services that is the most effective. Perhaps a review of the areas less successful would make more sense.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	3C Service restructure of youth services. Beginning at the end of this year, would it not be frugally positive to create a Uniform Donation Facility in every school? As each year group either move onto the next year, or leave, the blazers and ties are given to the facility, thus eventually having a massive resource with which to ensure parents don't have to spend money on expensive new uniforms. This works very well in youth football as each team outgrow their kits and are passed into what is essentially a bank, however, as an ex-teacher it would be wise to avoid such language associated with poverty, food banks etc. Eventually the hope is that in years hence, blazers and ties are an expected item of uniform "loaned" to the pupil with an expected return at the end of each academic year, unless, of course, parents wish to buy new items, which will, hopefully, find their way into the uniform facility at some point.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Many schools facilitate the passing on of good quality uniform items between pupils and families, but this could be addressed in partnership with bodies such as the School Bank.
Community Empowerment an	3C Service Re-structure of Youth Services	Why everything has been separated is just baffling to me surely it is in the young persons best interest for services to work together and more effective for funding if they all have access to the same resources and can easily refer	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	MCMC. I wonder who came up with that wonderful acronym. Although, if I had ever heard of it (which I haven't until now), I may have thought it meant More Cuts More Chaos.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Are these savings being made by passing this work into schools who are already struggling to deliver expectations?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	That's a laugh out loud moment what youth services are you cutting are you going to tarmac over parks to reduce grass cutting	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	One of the main reasons children are dropping out is bullying and schools inability to deal with this...	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	I am confused the branding 'more choices, more chances' does not align with 'less money, less resources'	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	There is very little detail contained within the narrative to make an informed comment. Suffice to say though that this should be a feature of a progressive and forward looking business and should not be the consequence of a need to save money.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	No attempt to even say realigning will bring this saving.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	This does not make sense. The programme cannot maintain its provision with less funding.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	where is the saving made from? its unclear from this statement. I wish it had more detail to enable appropriate comments to be made (something the council could very much improve on for effective community consultation).	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	If this means WLC will lose our CLD teams this is not clear or transparent.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It doesn't really explain what will stop?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Community Empowerment an	3C Service Re-structure of Youth Services	The information being given to be commented on is so vague it makes it impossible to answer and in some cases understand and therefore I have been unable to give Frank response	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	More knowledge of these services needed,	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It is unclear where these savings will be realised - further information is required	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Find it difficult to comment on this as it says what you want to focus on but doesn't say what will stop to meet that level of savings	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	I do not see how the description is making it clear where savings will be made.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Unable to make provide a constructive comment as there is no detail as to where savings are being made	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It would not be right to offer feedback without a sound understanding of the services this relates to.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Too little information	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It's not clear how money will be saved by this.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	dont really know what this mean	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity. There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Not sure how this saves money either	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Not sure what this means. Will there be leisure and opportunities for young people to access as well as support where needed?	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	This is double speak as you talk about what you are going to focus on but don't mention what that means for other areas. More clarity required before a decision can be made. If the same s service level can be maintained by a less expensive means we will obviously be accepting.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	I don't understand the question. How is the service being changed and what are the pros and cons? You have in no way defined what the £500,000 saving represents?	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Community Empowerment an	3C Service Re-structure of Youth Services	Can't see how this will save budget. More detail please.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	How does this save money?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	As a resident I do not understand what this will mean to the services I receive due to the vague and broad terms used in this consultation document.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	Not enough information given about proposed changes but MCMC is a very worthwhile service that should be invested in further.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Community Empowerment an	3C Service Re-structure of Youth Services	It is not clear what would be done to reduce costs from this proposal.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Without information on what services had the second, third, fourth, etc, biggest impact via youth services then it is hard to support this saving. On face value it sounds logical.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Community Empowerment an	3C Service Re-structure of Youth Services	Which services will be cut then? Please use clear language.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Multiple Staff at recycling centres observed sitting doing nothing for long periods perhaps numbers could be reduced	1. The respondent advised that they agree with the proposal.	CRC Staff levels are in line with relevant risk assessments for individual sites. Staff on site are permitted to take breaks on site.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Staff at recycling centres often observed either playing cards, drinking coffee or sunbathing not actually helping or working, perhaps multiple employees only need to be present on part time basis when tasks demanding multiple employees could be scheduled?	1. The respondent advised that they agree with the proposal.	CRC Staff levels are in line with relevant risk assessments for individual sites. Staff on site are permitted to take breaks on site.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I think they recycling works really well and sVes money i always recycling everything i encouraged this v	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No issues with this proposal, if it still allows people access to service and doesn't increase public health issues through fly tipping etc.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The Community Recycling Centres (3 off in WLC) provide an excellent service and I believe they play an important part in reducing the amount of fly-tipping in WLC, which I believe is lower than adjacent areas and very expensive to "clean up". Possible to reduce the number to 2 (from 3). Alternatively could WLC and Falkirk Councils "work together - as there is a very large Recycling Centre between Bo'ness and Grangemouth - which could "absorb" the Linlithgow unit - for a contribution from WLC.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I would be happy paying slightly more council tax to help with these services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree. More detail please	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Good idea in principal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I agree with this, however would need more information. I believe the council has paid more money on illegal dumping than if they had been sensible with the recycling centres.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	From outwith the organisation, it is difficult to comment on detail, but from the outside, I am really happy with the services offered, especially bin collection/bulky uplift, I used to be a citizen of Edinburgh for 10 years and the communication between identifying an issue, having a notification it has been received, and then receiving an update has been what one can expect, whereas in Edinburgh it was very much lacking in terms of feedback, so please keep this up! Its been important to me while settling in here, so thank you for the work that you do.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I agree that community recycling opening hours should be aligned with periods of high demand. The current provision is completely over the top given the challenges faced to balance budgets.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Good idea in the main. However, it will increase fly tipping as people will not pay.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Amazing work thanks 👍	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree - the council has too many sites. The council cannot afford excessive capacity - our neighbours only have a few sites, West Lothian has far too much. West Lothian is compact enough geographically that this should not be a concern. Concerns about flytipping are a distraction - focus should be on engagement, communication and education.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Yes - anything in this area should be prioritised	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Very happy to support recycling but there have to be options and availability to do so.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Yes, but this is still an essential Council service and should not be simply downsized and underfunded	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Good.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Makes sense.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Would it be an idea to charge for brown bins as for example Edinburgh council does? I'd be happy to pay something like £25 a year for this. I know more food etc may then end up in grey bins but I feel that many people do not use the brown bins anyway and it my simplify collections of there were fewer. Also less frequent brown collections in winter? My brown bin is nearly empty each time so I don't always put it out.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Possible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is not needed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Sounds good.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Sensible proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	seems fair	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Some services will need to be cut & this seems reaonable.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I would just like to comment that I don't envy the Council having to make these cuts and they will not be popular. It would be worse if Scotland was Independent!!! I cannot believe the state of the country just now under Scottish Government. If they would concentrate on the day job!!! I am very depressed with this consultation. If cuts are needed then so be it. IO know WLC are looking aheads but what a mess!!!!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We will adapt to changes in this area	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I support this policy.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Aware West Lothian has a higher number of civic amenity sites per head of population, area covered than most other local authorities. Based on the savings that will be needed, a realistic and sensible option would be to reduce the number of civic amenity sites surely.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Sounds like a reasonable approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Sounds sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	yep	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Fine	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree. But would add that accessable recycling centres help reduce fly tipping etc, so are useful to avoid items being discarded in West Lothian.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	all recycling plans are welcomed to cut costs and wastage	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agreed, as long as collection services are unaffected.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres need to be open when people need them - as long as they are accessible across the week for working households then this is okay. Evenings and weekends should be the priority. ;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	About time this was reviewed. Again staff performance is an issue for me here.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is a natural proposal in the difficult financial climate.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling centres are very well organised and managed in my experience. Staff are always very helpful. Any positive changes for staff, customers and the environment welcome.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Good idea. We seem to have an awful lot of community recycling centres in West Lothian. Reducing some of the days they are open would probably not be popular to start with, but people would soon get used to it and adapt.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I moved from Edinburgh to West Lothian. It has always seemed silly to me that west lothian has so many recycling centres, while edinburgh had so few. West Lothian is a small authority, you can drive from one side to the other in 30 minutes even with traffic, I think there should be a cut in the number of recycling centres with a focus on keeping the more accessible ones open.	1. The respondent advised that they agree with the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	CRC site provision across West Lothian could be rationalised.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Review as it is poor.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Vast inprovement needed as it's lacking just now	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Support, and please introduce more charges for waste collection such as glass and brown bins	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Fine but no supporting information.; I understood that recycling was the direction that we should go. This is a real cost	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Currently I am sure the service standards are not met within the waste management teams. Any improvement would be good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	look at neighboring councils. They do it well - reduce opening hours with less than half the venues. It can be done if Councilors have the strength to make hard decisions this is an obvious one. Reduce the number of CRCs and opening hours	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As long as they are open when people need to use them, this could be a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As long as they are open when we need them.	1. The respondent advised that they agree with the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As long as requirement isn't to charge people to go to community recycling centres as we all know this will encourage more fly tipping. When you charged for bulky uplifts it has cost the council tens of thousands to clear up mess from the fly tipping and I don't even want to think what charging to use CRC would cost the council in clear up.	1. The respondent advised that they agree with the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	While not wanting to lose services, I'm sure the proposals will be well thought out. The changes you have made to bin collections seems to have delivered savings and people need to wake up and take more responsibility for the stuff they buy and the waste that this produces. If people don't like washing out their plastic, then they should stop buying stuff wrapped in plastic. In fact, the manufacturers and shops should contribute to the recycling of this waste.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Very good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	OK	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Fine	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Very happy with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Glad	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Management levels are top heavy in this department. The private sector wouldn't tolerate this level of bureaucracy.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As long as out of normal business hours access is still available, no issues with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	A reduction in opening times particularly in the winter could help save some costs.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We have a duty to reduce costs and save money, not just now!	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If the CRC can be can more efficiently - then that is a good thing - need to keep recycling for the environment.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Further savings could be made here.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Limiting the opening times seems sensible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As long as any changes to opening days and times are communicated this should be an easy change to make.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree with proposal- still retain possibly stagger weekend opening	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Okay	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is an area where it must be difficult to achieve success in making savings, as the West Lothian public have to want to "buy-in" to the idea of creating less waste or need to use recycling centres. The "Recycling" part of peoples' garbage disposal is too often ignored and this saving of £336,000 is to be applauded if it can be achieved.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree - sounds reasonable. Need to consider that any changes which make it harder or more costly for residents to recycle or dispose of their waste may deter them from doing so appropriately.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling is important if you can save ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	agree. Although seriously think about a glass bin?.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	close at least 2. Look at other councils who manage	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Perhaps recycling centres could be closed on the least busy days of the week to make savings?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Service centers could reduce their hours as often they sit empty.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Only if still open at weekends	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The various recycling bins make sense as long as the waste is dealt with properly.	1. The respondent advised that they agree with the proposal.	Thank for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	WLC has community recycling services to be proud of. If these cuts will retain the opening hours, staffing then this is a suitable cut.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	New bins perhaps?	1. The respondent advised that they agree with the proposal.	Thank for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Would support rationalising the CRC's to reduce costs.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	could reduce the days/hours that recycling centres are open - perhaps sharing staff over 2 sites. Certainly dont close any as that will only increase what people put into their black bin and/or result in an increase of fly tipping.;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The service currently delivered is already the absolute minimum and can not be reduced further although staffing levels at the local amenity could be reduced with no reduction in the service they provide.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	yes, you only need 1 member of staff to check skips are being used properly, not 4 to sit in the hut and drink tea and take backhanders from trade to dump their waste.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Look at centres opening hours etc.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reduced hours is fine but please make sure that hours are fully advertised to save wasted journeys	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Sounds sensible and makes a significant cost saving.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Also appears a sound proposal without looking like too much impact on service	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As long as there are enough to service needs, more and more people are attending them now as they cannot keep on top of their domestic rubbish despite recycling programme.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I can accept that savings need to be made, but instead of completely closing community recycling centres, perhaps recycling centres can be opened on specific days of the week only. My worry is that if recycling centres are closed, flytipping will be increased as I saw on the outskirts of Beecraigs during the early part of the pandemic	1. The respondent advised that they agree with the proposal.	Thank you for your comment.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Judging by Linlithgow Recycling centre the hours/staff could be reduced at certain times of the day/week.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Seems sensible to reduce the hours.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Agree work needed to make the recycling centres more; Efficient	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	You could charge for brown bins uplift to be fair	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This seems sensible, or alternatively introducing a small charge for servidcs which do not have a statutory duty to deliver	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This service has been pared back enough	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Ludicrous we now have 4 bins.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Households collections are in accordance with the Scottish Government Charter for Household Recycling and is a model being rolled out across Scotland in a similar way.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling services are vital for our environment. Huge cutbacks here would result in fly tipping. West Lothian is in a bad enough state with previous cutbacks to council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As previously stated cutting these essential services would not be seen positively and would encourage fly tipping which in turn will cost more to clear up so therefore not much saving would be made.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I'm happy with the current recycling provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling provision is excellent - any way to improve this would be appreciated. Staff at the centres are a key part of the service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Surely not less frequent collections?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Considering the reduction in the number of community recycling centres i think WLC should high think before closing any further centre if they do not wish to see a raise in number of fly tipping instances which then costs more to clean up than originally leaving the recycling centres open in the first place.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I have found in the past when you state review it usually means reduce staff but there is no improvement to the service, I would want to know what the review entailed before commenting. Saving money is another word for reduction in services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	How do we then manage the potential increase in fly tipping?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reducing opening hours will lead to more fly-tipping, which is already a problem in some areas.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These need kept open otherwise be more fly tipping than ever	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Already find it difficult to visit recycling unit with changes to opening hours.; Would welcome a seperate bin for glass	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Glass Bins points are provided across West Lothian, including at CRCs
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not everyone can use the sites during the working day (being at work). Evening and weekend access is paramount, especially as the council is pushing people to use them with the reduction in size and what is collected at the curb.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Currently CRC sites are closed when most people who work are able to use them - ie - evenings and so are extremely busy over weekends which discourages people from using them - It is important that householder can access these sites at times that are convenient to them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Vital services which must be maintained	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	They struggle as it is, so reducing hours/centres surely should not be an option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Does this mean reduced opening hours or fewer recycling centres? Either of these scenarios would just result in more fly-tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No more cuts to services and access to recycling centres, less access means more fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Shouldn't make cuts to the recycling centers this always ends up with more fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Closing these was disastrous the last time, learn lessons and don't do it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	already dont open enough hours.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Already been reduced too much which is evident in the increase in fly tipping throughout the county.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The Recycling centre ensures that no one dumps things in and around West Lothian. You know in the longrun this is a huge strain on WLC funding. Keep the Recycling as you have it as you will spend more money in the long run for clean up.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste services must be maintained at a sensible and user convenient level, without the public needing to jump through hoops to use it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The cuts and service changes already made by WLC in waste services have already severely impacted and reduced the quality of waste services across the area. Can we not just jump straight to 52 bins per household, with each bin being emptied one week of every year henceforth? We're heading in that direction anyway, might as well skip the middle man, eh? It's no surprise to me and shouldn't be a surprise to the council either that fly-tipping has drastically increased since new measures have been introduced over recent years. Again, robbing Peter to pay Paul. Nonsense.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	When the recycling centres reduced their hours there were more episodes of fly tipping. Can an incentive be introduced to encourage residents to use the centres instead of disposing of items in rural areas or by the side of roads	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	You need to be careful that any reduction or change in hours doesn't lead to an increase in fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling centres are a great asset and don't think this provision should be reduced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More self drop off provision may help. Recycling is a must and cost to households for pick up will only reverse the good work started	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Do not touch these again, there are no longer enough services as it stands. Fly tipping is at its worst every levels.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The community recycling centres are propping up the poor waste collection service in West Lothian. If efficiencies are made here the fly tipping will increase and the community in general will be overwhelmed by waste which is happening already. This leads to vermin which then leads to call outs to deal with that. Another false economy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	They need to be open frequently and perhaps relocating to bigger easier accessed sites to encourage use	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These are all services that we pay for, and it seems every idea the council comes up with is actually more wasteful	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Decreasing recycling leads to increased fly tipping. Review should not cut access to recycling.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If you reduce this already beleaguered service any further then fly tipping will increase (it has already done so) not on!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Spending money on extra green and talking bins was a waste of money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The provision of new litter bins was funded from a different funding source and not revenue budgets.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I use the recycling centre at Oakbank frequently. It offers an amazing service and the staff there are exemplary. I certainly wouldn't change anything there	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As long as it is remembered that if you cut hours or close recycling centres, there will be an increase in dumping of waste & fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If you cut these, the rubbish has to go somewhere else - possibly more expensive to remove/recycle?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling and waste centres have already been cut in recent years. It is no wonder that flytipping and refuse around West Lothian has increased. This is definitely not an area that needs funding cuts.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Do not mess about with our bins again. I live in a one bedroom mid terrace and don't have enough room for 4 bins. I am unable to get to the tip to get rid of excess rubbish due to disability and unable to drive and no help is given.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These are necessary as you mess with our bins.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reduction in these services will just cause more fly tipping and West Lothian is already a bit of a mess. Don't do it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling centres are on their knees as it is, more cuts are a ridiculous idea! You ask for us all to recycle Nd what we can't do at home, take to recycle centres. Half of them are already shut, so more cuts will only heighten the need not ease it!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Hopefully not reducing opening hours as this just results in more fly tipping	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We need our recycling centers, or else we will have illegal dumping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Close the sites then you will increase fly tipping and then have to uplift it and pay the costs. This to me doesn't make sense should be better access not reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community Recycling Centres are essential. However there are too rules and regulations which seem designed to make it difficult for people to use them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The Community Recycling Centres provide an essential and valued community service. Any changes to Community Recycling Centres should not make it unreasonably difficult for the public to deposit waste at the centres. Otherwise, there is a risk that fly-tipping or other means of illegally disposing of waste will increase.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Further cuts on top of those already made!!! Disgrace. More fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We have tried this before - and ended up re-instating the service - what is going to be different this time around?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These have already been cut, at the cost of increased fly tipping and littering around West Lothian. The volunteers for WLLP are the ones who seem to be responsible for keeping WL tidy, not the council. What exactly am I paying my increased Council Tax for?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The waste management is already pretty dire compared to other councils...but I guess West Lothian Council can always rely on more volunteers to do the work for them (see West Lothian litter pickers).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	If there has been a failure of service on our part and you are dissatisfied please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Management and improvement actions are taken, where appropriate. The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsmen, who also deals with escalated complaints where a customer is dissatisfied with the council's response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is an essential service if we don't want to see an increase in fly tipping in our area.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling is always busy when I go and well run, cuts will make this impossible	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment

Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Hours for recycling services have already been altered. Too many more reductions will lead to more fly-tipping and rubbish being dumped outside sites on days they are closed. Recycling centres are essential to provide a more environmentally friendly way to deal with rubbish.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling services need the requirements they have just now as they are used very often by the public I don't feel it needs reduced as there is not that many recycling centres in west lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Think the way it is collected at the moment works	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Closing centres needs to be a last resort.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling needs to be open more not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Cuts to recycling centres will see more fly tipping and effectively a rise in fly tipping having to be cleaned up. This was seen lots during lockdown when reduced opening and timings saw people dumping huge amounts of rubbish in rural areas.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Here we go again! Messing about with recycling centres whilst needing EVERYONE to do their bit for the environment. Has West Lothian Council not signed up to recognising the climate emergency? If patterns of usage have been analysed then this might be ok but if not, people will be travelling more to get to a recycling centre and therefore causing more pollution overall. Don't support based on this limited information.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Changes to Recycling Centre hours have been tried before and resulted in an increase in fly tipping which then needed to be cleaned up, incurring a cost.	2. This should be priority area as we move to create and meet climate targets.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	However, if you mean some Recycling Centres will be shut down then a definite NO. Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Unsure where savings could be made here as the service is already stretched and under pressure at times.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Good public access to the community recycling centres prevents fly tipping, which the council would have to spend money tidying up.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please don't close or reduce the opening hours of the recycling centres. They are a much-needed service and without them we would see a huge increase in fly-tipping. In my view, it is short-sighted and wrong-headed to cut back these services, as fly-tipping costs more to clear up and blights out country lanes and private ground.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	given that our (ever expanding set) of bins are only emptied on a rotational basis, we really do need to retain access to the recycling centres, allowing decent opening times for people who make work a multitude of different shift patterns to be able to access. Otherwise, as we have already seen, there will be further increase in fly tipping which costs the council a huge amount of money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It is really vital that we have efficient recycling options throughout West Lothian. Indeed, recycling is from an environment point of view will benefit all of us and we all need to play our part by recycling as much as possible. It is important that the council makes changes to ensure that we continue to have recycling options available for all households which are delivered in the most effective way.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling has become a problem because of the lack of facilities opening times. Reducing this provision will see lots more rubbish being dumped. I would suggest that you open the centres all weekend and during specific 'out of office' hours to accommodate people who work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling centres are essential, especially for large families when the council does not provide bulky uplifts free of charge any more and the bin collections are already on a reduced schedule with rotation of bins.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Any reduction in the provision in this budget may deliver short term savings, but it will lead to higher costs in the medium to long term with increase in fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Stop introducing new bins, we used to have 3 they were always emptied, now we have 4 and there are constant issues with emptying them - we pay more money now than before, your services are rubbish.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is a signatory to the Scottish Government Household Recycling Charter which determines best practice for household services. The new twin stream service will improve the quality of material recycled and save money on disposal costs
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	You tried mucking about with recycling services and it backfired. Don't make the same mistake again	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are essential. And convenient opening times, not just at the weekend, encourage their use rather than fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling centres are a vital service for all communities which need to remain as they are. I'm sure you would agree that when they were on reduced hours and days the service was not suitable. Now they are open every day and at times which suit people with jobs and child care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	THESE FACILITIES ARE ESSENTIAL TO COMMUNITIES AND PREVENT FLY TIPPING AND SHOULDNT BE CUT ANYMORE	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reducing opening hours will simply result in the type of flytipping we saw during the bin strike, so this needs to be handled very carefully or else you'll end up spending more on clean up work	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I see not issues with Waste Services. The recycling centres are well manned and well managed.	2. Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres need to be readily available.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More reduction in staff and opening hours. Council don't even collect glass at the kerbside and want to reduce recycling services. How will you meet the recycling targets!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Glass recycling points are located across WLC
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These facilities are already underfunded, the operating times do not suit working people and there are always queues to access them. Every town should have its own recycling facility. Also, the council should be more areas where recycling bins are provided for cloth, glass etc.. this way only big items should be taken to the large recycling centers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	In the last round of cuts, the decision to close some Recycling Centres was made with the justification that it would allow the remaining centres to be open for longer hours. To now propose cutting the hours for those centres which remain is not justifiable. ; This will lead to an increase in fly-tipping across the authority, which will surely cost the Council more money in the long term, or result in West Lothian residents having to put up with a much reduced standard of living/green spaces.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	WLC's services are already understaffed. Bins aren't emptied as frequently as residents would like. Disposal sites had their hours cut. Volunteer litter pickers are undertaking WLC services. Where else can you cut?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	This measure identified that further savings options will have to be identified. Once officers have developed options, including consideration of feedback from this consultation, a further phase of consultation on additional potential savings options will be undertaken. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	leave them as they are	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I don't support this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This wouldn't work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is an area that needs more service not less. Just look at the queues at recycling centres. Opening hours should be extended, the alternative of widespread flytipping costs more to clear up in the longrun	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community Recycling Centres provide a vital service to residents, so care should be taken not to reduce current service levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Does this mean more bins for households who already have no room for them so leaving them on the pavement causing obstruction to parents, elderly and disabled. Not to mention the waste of money used for "TALKING BINS" what a stupid idea that is	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There should be no reduction in Community Recycling Centres services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We are doomed if we apply standard cost cutting methodologies to fighting climate change.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The local tip was closed throughout the covid pandemic. Leading to a massive increase in fly tipping. Can I suggest that you don't strip back an essential service again.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is vague. What will this mean? Over the years there has been less services offered and people are taking responsibility for recycling themselves through access to recycling centres - this would continue to be a necessary service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It is extremely important that focus is given to the environment without compromising public health and safety.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Access to community recycling centres must remain a priority - as already seen, the level of fly tipping in WL is already unacceptable .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not sure how projected savings of £336k can be made where there is still a requirement to review the service provision?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres need to be kept open especially at weekends this will help to combat fly tipping. Also at least 1-2 free uplifts from home per year should be reinstated to help the same thing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service. Therefore, any introduction of a free service would require a corresponding increase in fleet and employees.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More provision of recycling centres should be made to reduce the costly exercise of cleaning up fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I don't know what the answer is here, but I did think reducing the opening hours of all centres was supposed to have saved money already.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I do not think that recycling centres are open for long enough. I would be opposed to further reductions in hours of West Lothian's recycling centres.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Any changes / disruption will see an increase in fly tipping which will ultimately increase costs due to clean up etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Again - this is a service that is already NOT FIT FOR PURPOSE! - It's risible that while money is squandered on grandiose 'recycling' initiatives (that seem to benefit mainly the sellers of wheelie bins) the dumps are made inaccessible... bin collections are all over the place, and residents struggle to get rid of large items; THEN you bleat about fly tipping! - NO wonder that happens!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please stop reducing the opening times and making closures. Better opening times for people who work during the day would be beneficial.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Also requires tough action on fly tipping if access to recycling centres is cut.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Does this mean a reduced opening hours policy?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I doubt if there is any "requirement to review". Nothing has been reviewed more often and it is clear that these facilities are highly valued. There is nothing wrong with the number and location of sites or the opening hours, Any review should focus on staffing levels.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling Centres are at the front of tackling climate change. Any attempt to reduce staff, reduce hours or close any centres would be an outrage.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Essential to avoid fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Savings here are typically illusory because of the impact on incidents such as commercial and domestic fly tipping. The previous attempts to close or reduce recycling hours were illusory. Councils like Angus have an alternative model of service for localised recyclables and centralised non recyclables, which should be benchmarked against West Lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Need to be open so people can use them, otherwise people are fly-tipping	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Some of these changes have led to more rubbish being dumped by public - bins too small to cope with dome families use - green bins emptied monthly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Have seen people fly-tipping, so these need to be open for people to use	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Should be kept open all the time	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The dumps aren't great with a lot of space as it is	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are important as you would get fly tipping otherwise	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reduction in this area has led to more fly-tipping which costs the council more money, how will this improve the availability of recycling centres for the population.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It is crucial these are located close to user populations, extended car journeys to use these rather defeats the point.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please keep the current arrangement for community recycling.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste services are vital for the environment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I can understand the idea of charging for garden waste collection but as it is combined it with food waste collection will likely result in most food waste going to landfill. I would find this very unsatisfactory.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Unclear what this will actually entail, but essential that waste and recycling management should not be cut in any way - this will only increase fly tipping and be detrimental to the environment	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This service works well at moment and cutting hours at recycling centres would cause problems with more fly tipping and if charges start to be made this would definitely increase fly tipping and add to council costs having to clear up fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Unless bin collection services are improved unclear how reducing hours/staff at recycling centres will benefit the community	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	A complete overhaul is needed, you just need to drive along ANY road in West Lothian and see the fly tipping, you should never have removed the 3 free pick ups, even if it means giving it back to the people on benefits it'll be worth it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It's important not to charge people to use recycling centres. It will only increase fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The other thing is, I'm sorry but the refuse workers do not help themselves. For ages they were emptying blue bins with black bags in them, then, with the Green bins all that had to stop but people were still putting black bags into blue bins as they were previously getting emptied. You need to make it clear and concise the instructions for what refuse goes into the proper coloured bin. You also need to emphasise what will cause your bin NOT to be emptied. Reducing the hours that Recycling Centres are open has been absolutely no help at all. The charging for bulky uplift has led to flytipping all over the county. I can walk about my own area and people dump TVs, washing machines etc, as they cannot afford the bulky uplift charge. There are people in our communities who do litter picks voluntarily. Sadly, they are wasting their time as people do not seem able to walk to a bin and put rubbish in it. Why can't we have a glass collection? That would have been more use than those Green Bins. Not everyone has a car.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling services need to remain as the current provision does not support the level of need	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Need to be wary that people will resort to fly tipping, burning waste etc if there are any reductions to staffing/opening times.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are already used at maximum capacity.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Good recycling services are vital in local areas. Thus will reduce fly tipping and increase general recycling by households	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There is not enough information here to comment tbh. Please don't reduce the waste bin pick ups.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling centres are essential and the public need access to them regularly. If not fly tipping etc will continue and West Lothian will just become a dumping ground.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No, you have cut these services enough.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There reductions of hours and restriction of personal van (not work vans) has significantly increased fly tipping which in turn costs more money. Making facilities available for people to recycling themselves would be more efficient.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not everyone can get to them	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling centres are already less customer friendly, having to drive quite a distance to recycle now, the times are less accessible too. This means less time open?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We need these	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Essential service. Needs to be available when most people can access it freely to reduce fly tipping. Collections are already very expensive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The last time you reduced hours at recycling centres it led to fly tipping which cost the council more	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	What is the cost to the council of fly tipping and would simply allowing more access to council recycling centres not be more cost effective?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Increase in fly tipping so any review should take this in to account	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Take care with this. If the public can't get access to recycling centres easily fly tipping will increase and it is my understanding that fly tipping already costs a lot of money due to the loss of the free pick ups.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: the council has recently purchased mobile CCTV camera which will be deployed in known hotspot areas for fly-tipping. The council is also currently working alongside other local authorities and partner organisations to encourage the Scottish Government to increase our powers to deal with fly-tipping and to increase fines.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Any cuts to services which are there to help halt (or at least lessen) the speed that our world is being affected by global warming is unacceptable. ; We are approaching a one way door. Once we go through that door there os no way back. Surely, we do not want to be party to that.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community Recycling Centres are not run well. Staff should be more prepared to help residents using them	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste collection and recycling collections services should not be further reduced. They are already too limited. This is often the only council service that the residents who pay the most council tax actually receive, any reductions to this will cause animosity towards the council from the persons you need to pay for everything. This is the one truly universal service all residents receive and it should be of high quality and frequent.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is crucial to our future and investment needed to maintain and continually improve.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling centres should not change, during COVID 19 there was a limited access to recycling centres and this led to an increase of fly tipping all over the West Lothian area. I would not be in favour of a reduction in the use of recycling centres.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I think that climate change is extremely important and should be a key consideration of the council moving forward, meaning that all decisions should consider the impact on the climate before progressing. Therefore it would be useful to have a climate impact assessment on this proposal. Does this mean closing recycling sites or consolidating to expand specific sites to incorporate additional recycling/reusing capabilities? Will need to be based on need and usage information to establish what can be closed and ensure that fly-tipping doesnt increase as a result.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Priority should be given to collection of waste.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling Centres would have to reflect the increased usage if a charge is made for the household brown bin. More traffic would be generated which will not help with carbon emissions.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It's important to have these centres running.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It would be beneficial if these were actually open and accessible to allow residents to have the opportunity to recycle. At present the hours are not suitable to allow residents the ability to be effective in their recycling	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Savings and service cuts here should be minimised /prioritised for keeping service standard	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We need to increase recycling alongside re-use of existing materials and reduction in use of eg single-use plastics . Community Recycling Centres are essential for members of the public to play their part. There is also a need for bulky uplifts to continue as many gardens are currently used as dumping grounds.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling services have already been severely altered for the customer!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are very important and should remain open. Fly tipping costs the council money and would increase if CRC are closed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No issue with them now why change.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More reductions - will we get more bins? My street have regular disruptions already(outwith any striking action) to weekly bin collections which is not acceptable for.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres should be open longer to encourage people to use them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	reducing recycling centres is a bad idea as people will end up just dumping it anywhere which will lead to more mess and will need more men to clean it up which is more money	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	better opening and closing times	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	by reducing opening hours, would cause additional waste being left in areas affecting the environment and wildlife which in result will cost more money to address the issue in the future	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not exactly what the statement is implying but community recycling centers should not be reduced or have reduced opening hours. As the variety of waste being produced and number or types of collections being taken changes the need to ensure that rubbish is easily disposed of is increasingly important. The alternative is more fly tipping and eventually risks to public health which will have an impact on public sector spending elsewhere.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency. Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The refuse service is already weak and unreliable. The community recycling centres are the lifeline that stops fly tipping and are very popular with residents. Restricting access or charging for access will have the inevitable result of fly tipping which will cost more to clean	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency. Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling centres need to be open for a decent amount of time as the bin provision for uplift is sometimes inadequate	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Better recycling facilities across all services, along with information would help	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling centres are essential to prevent the blight and expense of clearing fly tipping	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency. Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If you take tips away fly tipping increases, false economy	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	RECYCLING CENTRES ARE A MUST AND I WOULD HAVE THOUGHT SAVES MONEY OVER CLEARING UP FLY TIPPING. LETS KEEP IT.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency. Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Local community recycling centres are needed and must remain open, even if on reduced hours.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I disagree.....fly-tipping is horrendous....not everyone uses booking service.....free to use at anytime....	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	i think recycling is a good idea but recycling centre are not up to the job of doing this as required	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	From past experience this won't go down well with customers especially if it means reducing opening times or closing some of the CRCs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Key part of council activity needs to be safeguarded	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are extremely essential if the council does not want to have increased fly tipping and general increase in rubbish in the local environment which will incur costs to the council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	shorted recycling hours didnt work	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	more awareness required to educate people for community recycling centres to help save the environment and no requirement to reduce opening times which will increase dumping of waste will lead more environment issues.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	i can not see how savings can be made at CRC. I use them regularly and they seem to work well with very few workers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is a vital service since you really are crap at collecting rubbish now so just leave it alone	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Happy to do my bit, but given we are already going to the recycling plant as bins not big enough/strike action etc, what more can you reasonably expect your clients to carry out.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Over recent years, wheelie bin size has reduced - ie black bin, which many struggle with.; Recent addition to wheelies, ie green has led to more work on us, the consumer, to clean, sort, dry items.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It's important to have recycling centres open when people want to use them most. Otherwise fly-tipping will increase and cost the council more to clear up.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Care has to be taken when reducing Community Recycling Centres roles as if the opening and closing times are reduced significantly then this may lead to fly tipping which in turn would put a strain on council services and income.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community Recycling centres are always busy from what I can see, and staff there are always busy. Maintaining good opening hours and maintaining good staffing numbers are important in my opinion	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	To make sure fly tipping does not get worse, recycling centres need to be open and available for residents	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If you want recycling to work then keep centre's open .The cleansing service is poor enough	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not everyone can get to a waste facility during the day, they work! Need good provision for out of working hours/weekend access or it will all end up in landfill or dumped.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Tried this the last time and it never worked	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We should've been making money out of this instead of trying to make a mediocre saving ,afterall that's why everyone household in west Lothian has 4 bins	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Absolutely no reduction you will end up people dumping rubbish everywhere leading to vermin	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I think that this is one that has to be looked at - you have to make sure that the service is available as people will just dump waste causing infection not to mention the mess that eventually the council will have to clean up - so prevention is actually best	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is a fundamental service and provision should be increased.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	They barely open anyway and the hours are awful. Will just fly tip. Much less stress	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency. Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Fly tipping has increased, yet WLC cut back the hours tips are open, only allow certain vehicles in etc and took away the free uplifts, you do this then fly tipping increases and West Lothian turn into a dump, and a dump is what WLC have turned West Lothian into !	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency. Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This would need to be considered versus the cost of clearing fly tipping. As was seen during recent bin strikes, the amount of fly tipping increased.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I think the community recycling centres are something that needs to be kept open and running as smoothly as possible. The current opening hours from 10am until 6pm 7 days a week is really good because it allows people availability to go when suitable and means no long queues.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Numbers of staff who work at recycling centres have already been reduced and opening hours are also shorter. I'm not sure this service can be made more efficient as already it is providing poorer service for people who pay their council tax for services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This sounds like moving recycling centres to "business hours" when, funnily enough, most of us work! ; This will only lead to increased flytipping which costs the council far more than £336,000 a year to clean up!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Restricted hours may result in fly tipping. The charges for bulky uplifts are already high and only allow for 5 items. People on Benefits or on the breadline are finding it difficult to pay these charges and restricting the recycling centres will not alleviate the fly tipping that is currently happening. Opening hours at the recycling centres must allow access for people who work and cannot get there during normal working hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Very important initiative and becoming more so.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is usually code for a reduction of opening hours or days and will no doubt result in an increase in fly tipping and the associated costs which come with its implementation. One would like to think that an on site survey, over several days, into the numbers of users would be carried out prior to any decision being made.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	DO NOT CLOSE THE TIPS AGAIN!!!; the amount of fly tipping increase dramatically last time	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	CRC services need to be maintained as much as possible. Opening hours need to be as wide as possible with access for vans and trailers to be available on weekends	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please keep recycling centres open for use for people who work	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It is difficult to access these and the staff at them refuse to help if there are bulky or heavy items.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Service provisions at the community recycling centres have always been welcomed and would be remis to see this disappear. Maybe re look at the bin structure that is in place as it doesn't seem to be working	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	But at the expense of reduced opening hours? Would that not be counter productive?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	recycling is a nightmare since the deans centre closed - its too busy and stressful at Oakbank	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I think the work that waste services do is fundamental to protecting the built environment. I think that any fundamental change to this service would impact quite heavily on meeting out environment targets and service objectives.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If the council reduces the special uplift. There would be less flytipping and again reduce the cost to clear up the mess	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service. Therefore, any introduction of a free service would require a corresponding increase in fleet and employees.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It is vital that recycling facilities continue to be available to the public or we will see an increase in the current fly tipping levels. Visiting recycling centres in other areas, such as Aberdeen or Perth, shows we are well short of the standards elsewhere. There is much more opportunity to recycle items & opening times better reflect the needs. Linlithgow facility is in the wrong place to support the space required to meet the recycling demands of today. Edge of the town would be a loch more suitable place. The current site could be redeveloped	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I would like to be sure that any proposed efficiencies do not impact on customers ability to access recycling centres as it is vital that the council encourage and support people to reuse, recycle and not to flytip rubbish in order to avoid potential charges.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency. Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	disagree -keep open	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	They can't be stretched anymore.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Service is already limited with reduced staff. Please don't change this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Use of recycling centres should be encouraged by making them easier to access, not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reducing access to community recycling centres has already resulted in an increase in fly tipping, which costs more to deal with. Encouraging people to recycle, and thus giving them the opportunity that these centres provide, are invaluable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Need to be accessible when people are able to go, i.e. don't shut at weekends	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This one is pretty serious. Recycling needs to be vigorously promoted; avoidance of fly tipping etc. Bin collection could be better rationalised possibly, but has to be in a process where people understand and can work with the arrangements. There shouldn't be too many bins, and their frequency of collection should be sensible and sustainable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres being accessible to all - including those with difficult working hours and trades people - is essential to preventing fly tipping in the area, which in turn not only harms the environment but costs the council money in having to remove.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling centres in WL are now a joke, the staff are amazing but the reduced opening times and ques to access are ridiculous	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I really appreciate having a local recycling centre. When these were closed there was a clear increase of illegal dumping on the roadsides. Reduced hours perhaps, but I think it's worth keeping them open.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	4 bins and constantly getting smaller and picking them up further a further apart , with chunks of times even outside of strike. a full service is not provided to then be told take it to the skip , but you can only get to the skip with a car . 1 if i pay council tax and it fits in my bins requirement , shouldnt have to take it to the skip. and 2 not everyone has a car or drives. stop isolating people from a required service which you are forced to pay for	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This may lead to fly tipping causing more costs l the long term.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	CRC's in West Lothian are an excellent resource. I would be worried reductions in this area will result in more fly tipping etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Will need careful thought ...otherwise dumping will be even more prolific	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	When recycling services were previously reduced/impacted by Covid fly-tipping increased. How will this be addressed if services are further reduced?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling centres should be open earlier and later in the working day, rather than midday weekdays when most people are at work. Local residents who own vans as their only source of transport should be allowed to make use of services at weekends.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The waste has already been stripped back to the bare essentials	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We must ensure we are becoming more eco friendly and not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Maybe have a mobile recycling service? ; Community recycling centres are a must to reduce littering and fly-tipping. ; If less available - the recycling level will reduce.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are vital. Currently household waste is not satisfactory. Too many bins too many rules. Recycling centres allow the rubbish to go as the household bins are too small and rubbish is accumulating	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Really? I don't think these can be reduced or condensed further (more fly tipping evident and may be a consequence) and if anything need to be added to eg food bins when bin collections don't pick up brown bins (3 consecutive collections (this 6 weeks of waste - an example from my area).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	this should not be done as it will just encourage more fly tipping	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste services already in difficulty.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Keep it as it is in terms of operating hours.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please don't reduce any budget regarding recycling centres and the environment. WLC is already struggling with litter and fly tipping. The overall environment/state of roads/roundabouts is poor.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Make it more accessible! More sites perhaps !	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I hope this means recycling centres will be open more rather than the other way around.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are important to the community. With certain bin services happening fortnightly or monthly they are needed. I have visited one many times and staff are always helpful, friendly and make sure Recycling is done properly by the public.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	They are needed more than ever stops fly tipping	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	DO NOT REDUCE COMMUNITY RECYCLING FACILITIES OR OPENING TIMES - that is the easiest way to make budget savings as I have seen time & resources used to clear fly tipping and they far outweigh and budget savings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Hopefully what ever is dome to the above does not increase fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Current service is very poor . Need to look service standard rather than savings target	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	A lot of people rely on the recycling centre unless you are going to make it cheaper and more affordable for skips to be placed in streets for people to get rid of their unwanted items.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Oak bank excellent facility, essential to prevent fly tipping and busy at all times, needs maintained	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Open the services for times that people want to use them - consultation to determine hours. Booking online not effective lots of fly tipping	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If you reduce waste services, you will increase fly tipping. West Lothian will start to resemble North Lanarkshire. Help keep our region beautiful.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Any cuts to recycling centres will lead to increased fly-tipping and therefore clean-up costs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I agree that the service at the recycling centres should be effective and efficient, but it is important to consider unintended consequences of any proposed changes so that costs are not just displaced elsewhere eg to dealing with an increase in fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If waste collection services are reduced this will cause more fly tipping with additional costs for removal and keep all eork in house to maintain flexibility within departments	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reduced service here could result in dumping of rubbish.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	In order to ensure our surrounding areas, remain waste free it is so important that there is regular and convenient access to recycling centres. I appreciate reduction in times n=may help but if many centres were to close and households were expected to pay for waste uplift, I would be concerned that this would result in a major issue with fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community Recycling Centres do fantastic work and this should not be impacted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The Recycling Centres provide a good service for the community. If the service is reduced, the council needs to be careful that the practice of fly-tipping doesn't take off again, which just actually ends up costing more to deal with.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Bin collections should all be included in our council tax, we should not be asked to pay an additional amount for bin uplifts...including the brown bin, this should always be included in council tax.; Altering the opening times of the recycling centres to allow a reduction may work, we all use these fairly regularly but not everyday so can work around opening times.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling centre at Oakbank is very efficient and no need for change.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No - This seems like a core service. Educing opportunities to dump leagally can only have one cnsquence - more fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Very difficult to comment without more detail though community recycling centres do need to be open when people can actually go to them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These centres are more closed than open; They don't open at times that suit all; The staff need to be more helpful and not so judgmental ; Too many of them wanting uk stand about with their hands in their pockets	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Partially agree. We need to avoid changes that increase fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The cost of recycling has made more incidents of fly tipping and impacted on all communities, a false economy. We want to encourage this to make it easier to access.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These are essential to stop fly tipping as the bins allocated are not big enough	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	What more cuts? 🗑️🗑️🗑️	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I find the Community Recycling Centre very effective and would regret any reduction in service or opening hours.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Vital service however does this mean shorter opening hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There is a risk that reduction in service here will result in more fly tipping and burden on home owners. Would need go see mode details	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I might be prepared to pay for garden waste collection but I would need to know the cost first before deciding. ; But what would happen to the food waste that currently is collected with it if some people don't choose to pay? How would their food waste be collected? Leaving this uncollected is a health hazard. It's difficult to see how a revised collection service makes economic sense after all the money the Council has spent recently on issuing new bins.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Presumably you mean reducing opening hours. This will have an environmental impact by increasing fly tipping. The recent bin strike showed how that would look.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Any reduction in these services will only result in more fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No service reduction is acceptable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If the refuse collection system - and the access to recycling facilities - is reduced there will be far more instances of fly-tipping. This will then mean far more extra resource to clean up the fly-tipping	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I feel this service has already been cut enough and do not understand how it can be cut anymore!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Keep all recycling centres they are needed and there is not that many of them in west-lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are required	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please don't reduce access to the recycle centres so that fly tipping will get worse than it already is!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Home recycling services such as weekly bin collections must not be reduced any further	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Home recycling services such as weekly bin collections must not be reduced any further	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Community recycling centres must remain open. Kerbside recycling does not offer glass or electronics nor is it frequent enough to take away all waste produced. ; How on earth will recycling targets be met if opportunities & places to recycle responsibly are removed. ; This surely flies in the face of the Climate emergency that the Scottish government declared.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Do not close these as it will increase fly tipping and carbon foot print for travel to other locations	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Already reduced to bare minimum	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	In current climate do not think we need to be focussing on this. More important people can provide for themselves and their families	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Are the streets and grass verges not full enough yet of the bulky uplifts you no longer supply	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Some of the recycling centres are run so efficiently.; There needs to be a good provision of services otherwise there will be an increase in fly tipping which will cost to clear up.; I'd like to see a doorstep collection of glass.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If you really want to encourage more recycling then extend the hours of recycling centres. Getting rid of the bulky uplift charge would cut down on fly tipping. ; The Joint Forum made a Participatory Request on Waste Services that was denied. You really have to consult more with communities instead of imposing changes if you want more buy in. Don't be seen as imposing penalties but encourage community initiatives to get people recycling more. ; Enforcement against companies that are not recycling or dumping should be stepped up.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Do we want fly tipping all over the place again That is what will happen if the centres are not available for the community ; This costs more to remove and is an eye sore and it may endanger lives	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Need to be careful as this can lead to more fly-tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No additional costs for residents	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are a great idea, so if they can be improved without reducing opening hours then fine.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Additional services to be provided at centres, to take them away from being referred to as the "Dump" or the "Skip" and make them the "Re-Use" and "Re-Purposing" centre. Information boards on the amount of re-cycling being done, how re-usable items are being refurbished and reused by voluntary groups and donated to those in need. Large "flow chart" type board showing how to make use of the centres and how to improve or take some of your waste directly to organisations that can make use of it!; ; MAKE HASTE DO NOT WASTE	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	'Revised' service standards should not lead to an increase in illegal dumping throughout our beautiful county.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If recycling centre hours reduced or costs put in place there is then the worry that people will fly tip making our areas untidy and the risk of rodents	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Keep these recycling centres open as much as possible they provide an excellent service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Opening hours need to prioritise weekends.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Linlithgow Recycling Centre is a well used facility and is an essential element of the waste services in the local area. It must not be closed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Easy target. This is bound to result in increased waste gathering in people's homes and gardens and also an increase in fly tipping. A false economy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Keep this open 7 days a week. As the rubbish can pile up with smaller bins and residents dont always have the space for multiple of the coloured bins. The current hours are perfect. Possible community skips once a month could help in deprivation areas where getting rubbish moved could be tricky.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	the recycling centres are an essential facility and closing them would lead to more fly tipping.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste Services - recycling centres are in high demand and should remain open	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please do not close the recycling centres. This only leads to fly tipping which costs the council to clear up. Additional recycling centres allow to reduce and reuse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste services must be addressed and maintained for the future	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Vital that there are freely available community recycling centres	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres are already over-crowded at peak times due to the last rationalisation. An on-line indication of peak times would help balance demand, I think, across the full opening hours, but any further reduction in availability of these services is likely to lead to unwanted anti-social behaviours increasing, such as fly-tipping. I don't believe that this saving should be implemented.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	not enough days where they pick up the blue, grey, green bin	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Stay open for longer	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no charge for bulky uplifts or a better charge	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service. Therefore, any introduction of a free service would require a corresponding increase in fleet and employees.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More hours, recycle centres trailer options if not boot	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Does this mean three week bin turnaround	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	as there is no details what this actually means in reality have no comment to make - other than I assume it will be a reduction in service	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	That is a generic statement - more detail would be required to make informed comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There is very little detail contained within the narrative to make an informed comment. Suffice to say though that this should be a feature of a progressive and forward looking business and should not be the consequence of a need to save money.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	With no detail as to what this would entail it is difficult to comment. These are key services to a lot of people and any change to service times should be carefully considered.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail to comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Very vague - how would the service provision be reviewed? Would this result in reduced opening hours, reduced access, reduced staffing? Only with this information is the public able to take an informed view on the proposed changes.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail to comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	What does this mean?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not totally sure what this means. Will they be shut more?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This has too little information to enable anyone to comment! It does not explain at all what the proposal is.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Think you should embellish on this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	How would this look in practice?	3. The respondent advised that they had no comment to make or posed a question of the measure.	A permit system would identify resident who have paid for the garden waste scheme. The bin would also still be used for food for all residents including those who do not wish to participate in the scheme
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Where is this saving coming from? Are you given £336, 000 for completing a review?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Nothing to note	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This is a service which seems to be constantly under review, under review and under review again - no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Details? It is not clear what the changes would be so it is impossible to comment on whether or not this is a good plan.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The nature of proposed measures needs to be publicised before opinions can be given.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Doesn't make clear what changes are under consideration.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no opinion	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	What is being suggested here?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no involvement	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no commentthe	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	None	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	-	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No Comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no opinion	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Nothing to note	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I don't know enough about this to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Also stop changing the bin colour uses and buying talking bins that cost £4k each. Just more wasteful ideas.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	what is this? How can anyone answer this without knowing what the detail is ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	dont drive so no use to me	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Need more detail.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	You have cut these services, and yet increased council tax?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The current services appear to be efficient	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	How can we comment on this when no example is given on what the saving will impact?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	So, you're going to review the processes and save yourselves £336k AND make the service more efficient? How?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	What are you going to change to make the saving?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This was already done in previous consultation, so what changed and does this mean the services will be unavailable for more hours.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Essential to recycle and reduce energy consumption.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Recycling: the council is a signatory to the Scottish Government Charter for Household Recycling which lays out national guidance for the provision of waste services. The council seek through contracts to ensure that maximum material is recycled but this relies on the quality of the material being to a satisfactory standard.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	what will you do?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	How? Will this site be open more hours?	3. The respondent advised that they had no comment to make or posed a question of the measure.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	N/A	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No Comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Unknown	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	NA	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I do not have an adequate knowledge of these functional areas to comment on this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No views	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not enough information to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	NC	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Unable to comment again due to lack of available information.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	n/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I have just checked and i am on 32% complete. I am losing the energy and will to comment on something that has given me no information to go on, instead just filling each space with words that are utterly meaningless in this context. 'Effective and efficient' don't mean a thing if you don't explain how this will be done.; I can't see any point in continuing this survey as it is a waste of all our time without the information, we need to give an informed opinion.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More information would be needed for any comments to be made	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Again, no information on how this will be achieved.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Again, how do you plan to achieve this, no details supplied, or is this whole Exercise just a stunt so the Council can say that their residents were consulted.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No comments.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No comment as i dont go to the recycling centres, but i think people would go and if they are not there or they are closed a lot this might encourage people to fly tip and that is already happening with a load being dumped on the back road to Bathgate.	3. The respondent advised that they had no comment to make or posed a question of the measure.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	On e again no detail therefore unable to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	undecided	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	undecided	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	undecided	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Bin men very helpful	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Assume this will relate to closures on specific days etc.? No particular views on this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Service at recycling centres is currently very good.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As long as there is provision as this then leads to irresponsible people fly tipping and not recycling which is a must!	4. The council is already doing this.	Proposal maintains provision of CRC sites
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I support more efficient kerbside recycling to reduce the need for going to community recycling centres.	4. The council is already doing this.	Council is developing kerbside collection improvements
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste collections must be considered in tandem with these measures, many households have now a skinny general waste bin which is not enough for a larger household, returning to a larger general waste bin would allow for more waste to be collected under standard collections and less reliance on recycling centres. Fees could also be applied for bulkier items example white goods could be chargeable at a nominal fee of £5 which would generate some additional income.	4. The council is already doing this.	Capacity in the general waste bin in West Lothian is broadly comparable with other local authorities who may have a larger bin, but this will be collected less often than the 2 weekly service in West Lothian. Where a request for a larger bin is made due to household size, an assessment is carried out which may provide additional capacity where justified.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling is a must and so many families do not follow this and it costs the council more money every year. In general people need to be educated on how to recycle and given extra support.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Helping the environment and climate is essential	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Hopefully not much money is spent on sending recycled items to land fill in this or other countries.	4. The council is already doing this.	All council recycling contracts comply with relevant best practice.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Stop buying useless bins then deciding that they are not fit for use, and concentrate on collecting rubbish properly.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Wasting public monies buying more useless bins... we pay the council to collect the rubbish.... it now the time to actually do what we pay for.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Why doesn't council recycle glass and make money from selling it.	4. The council is already doing this.	Glass bins are in place across West Lothian.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	High level statement with little content. What are the Council's priorities?	4. The council is already doing this.	The council has 8 priorities for West Lothian that were set in consultation with the public. These are available on the council website.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste services vital to clean communities.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling is a priority for climate change	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Why don't you collect and recycle glass (maybe in the new green bin?)	4. The council is already doing this.	Glass recycling points exist across West Lothian
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please pass on thanks for Livingston Oakbank facility, which is run so well and always find it easy to use	4. The council is already doing this.	Thank you
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There needs to be more recycling in West lothian. ; Schools should be provided with large recycling bins for paper and plastic metal etc.;	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Would be easier if the layouts were better and stuff actually helped. Flexible opening hours would reduce flu tipping	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling is very hard at the moment. Nothing for glass	4. The council is already doing this.	Glass recycling points are placed across WLC
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Prioritise recycling services	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There seems to be a policy of adding more but no education or support. More bins but why do we need them. Not what you put in them, what happens to our waste and why is our input important.	4. The council is already doing this.	Education and engagement officers can advise or support if requested
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These centres are a vital service. As well as meeting council priorities, let's remember the needs of WL residents.	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I do hope the current high standard at the recycling centres is maintained.	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More glass bottle banks, I have none in my town therefore they go in bin.; I'm not going to travel to livi from home at my cost and time when my council tax goes up and get less for money	4. The council is already doing this.	If it is felt there is a lack of glass banks in your area, contact the service and an assessment can be carried out to see if this has been considered or if there is a suitable location
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling should be further encouraged and protection of our natural environment protected.	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The community recycling centres work well. The waste collection /kerb side collection is more in need of attention. Often late or no pick ups. Brown and green, or grey and blue bins being emptied on the same day into the same lorry!!! Where is the point in us having 4 bins at home!	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It seems at times that it would be easier to join a secret sect than it is to take waste to amenity sites (example - the requirement in my council area to 'book online' rather than just pitch up with a bootful of stuff when out and about anyway). Councils need to make it easier and less hassle for residents to dispose of waste in a legal fashion, rather than feed the current plague of fly-tipping.	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Resident engagement!	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I have a small van for personal use and as such cannot access recycling facilities without pre-planning, my neighbour has a huge people carrier, runs a small garden business and goes to centre weekly - Go figure - maybe use number plate recognition allow a small number of visits then charge through council tax.	4. The council is already doing this.	The council is investigating ways to allow easier access whilst balancing the need to prevent unauthorised business use
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Your staff at the recycling centres (participate Oakbank) are absolutely amazing please safeguard their jobs and speak with them. I spoke with one who said he had lots of cost saving ideas. Please speak with the people on the ground doing the work, they are your invaluable resource.	4. The council is already doing this.	Staff can contribute to the consultation and have opportunities to raise improvement ideas with their supervisor/ manager.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Should be doing checks on peoples bins, people are not recycling properly	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Proposal on how these savings would be made is not clear. I suggest this should be an area of investment given the longer term impact on the environment e.g increase soft plastics recycling options beyond the current processes.	4. The council is already doing this.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres should be opened long enough through out the week in order that the public can recycle and therefore reduce the amount of fly tipping around the county.	4. The council is already doing this.	Fly tipping is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The staff at recycling and waste depots need to be trained to help people so that you can meet your targets. Unhelpful staff just mean that public just throw everything in together instead of separating out.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Address recycling across west lothian as a whole! Single use plastic cutlery in schools?? They don't even get recycled. All rubbish bags, no matter what recycling labled box they are in all gets tossed into one place. Friday lunches have removed plastic water bottles but replaced with cartons of water. How about just removing the water altogether.	4. The council is already doing this.	Thank you for your comment

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Council wastes a lot of money we should be making money from recycling centres by reselling the scrap etc - any left overs on your building sites should be put into storage not the skip - checking suppliers and always looking for a better deal etc	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	more awareness require to educate people and more recycling	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	more awareness required to educate people on recycling. Previously the recycling services were opened for shorter hours but this didnt work as people were dumping rubbish causing more man hours	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	ore awareness required to educate people on more recycling	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	more awareness acquired to educate people. the shorter opening times didn't work	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	more awareness required	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	more awareness to educate people.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More awareness required to educate people and more recycling	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This needs improved Council wide. Glass recycling should be via collection.	4. The council is already doing this.	Recycling: the Scottish Government will be introducing a deposit return scheme in 2023 that will reduce the amount of drink containers (glass, cans and plastic) that make it into the waste stream.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Open them to vans to stop fly tipping.	4. The council is already doing this.	The council have a booking system for vans as long as the material is household waste. Non household and business waste should be managed via a business waste disposal point.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Do not make it so difficult for people to recycle and they would do it more. Again, staffing in these recycling centres is laughable. There is always several staff, mostly unwilling to help and on 3 separate occasions when I myself have gone to a recycling centre with a full load of cardboard, one of scrap wood and another of material and some metal I was told to put EVERYTHING into general waste. How is that helping?	4. The council is already doing this.	Thank you for your comment. CRC sites are staffed by 2 members of staff, but there may be occasions where other members of staff are on site for other reasons. Material in the general waste skip is still processed to extract recycle, however it is always better for material to be placed in the skip for that specific material. These could have been full on the days in question.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Cancel contracts with juice companies to remove single use plastic from school estates.	4. The council is already doing this.	We only serve water, flavoured water or milk in schools
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Educating the public to properly manage THEIR waste would increase the efficiency of the Recycling Centres. Too many see it as the Council's problem.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Need to look carefully at the big services ie bin contracts with staff, unbelievable waste on salaries the way staff are managed, paid for not working!	4. The council is already doing this.	The performance of waste operatives is subject to regular monitoring and review.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Is the council making use of the state-of-the-art private recycling centre at Levenseat?	4. The council is already doing this.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Meeting Council priorities. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Should have to pay for a bulky	4. The council is already doing this.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	How many new bins and changes to recycling etc has there been in recent years. How much money has been wasted eg food bins.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Stop wasting money on more bins.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Waste Services are provided in accordance with Scottish Government Household Recycling Charter.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The amount spent on bins that people don't always use is a joke! The money would have been better spent else where! Lasers can separate rubbish! The amount of fly tipping in the area is costing more than what the free uplift services would have cost	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Waste Services are provided in accordance with Scottish Government Household Recycling Charter.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As per earlier comment - before you introduce new bins (a 'great' strategy by the Greens) ensure you have the manpower including plan v cover for existing bins. We used to have 2 then 3 bins all worked well. Now we are drowning in bins which are not emotions- multiple occasions.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is a signatory to the Scottish Government Household Recycling Charter which determines best practice for household services. The new twin stream service will improve the quality of material recycled and save money on disposal costs
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The environment is seriously neglected. Changes must be made but council needs to step up in the nonsense way we all have multiple tiny bins leading to tipping .	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is a signatory to the Scottish Government Household Recycling Charter which determines best practice for household services. The new twin stream service will improve the quality of material recycled and save money on disposal costs

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling of plastics is a big lie. Stop perpetuating the lie.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The current waste service and recycling strategy has seen huge amounts of wasted investment with poor planning and innovation. I do not see an improvement in this area being possible other than going back to the very basic of service provision. Too many of these services now rely on the resident/customer fulfilling the commitment with not a lot of ROI from the service provider.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council has sought to align waste strategy with the Scottish Government Household Recycling strategy which is seeking to standardise, as far as possible, services across Scotland. The recent roll out of twin stream in West Lothian will see focus switch to the quality of material. Quality is driven by the ability of the processors to recycle material in an affordable and cost effective way. As such, residents will have a major part to play in separating material into the correct bin
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Is it not the case that this saving will do nothing but reclaim the £5,000 per eco friendly bins which have been placed throughout the region	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Please, no more bins. No more bins	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Would have saved money if stopped changing bins.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Make these self service	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. To ensure the Recycling Centres are safe for the public to use they require to be staffed by trained operatives.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Glass recycling uplift should be a doorstep collection . Many don't recycle because they won't drive to glass bank or do not have the option to do so	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Bins don't get emptied when they are supposed to. Bigger grey bins	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As I have already stated I already have issues with this service. I am old enough to remember the bins were collected from the Garden I now have to move the bins 300yards plus up the street or they	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Ive noticed an increase in this (fly tipping) since the charges were changed previously for bulky uplifts, and the number of items to be collected were drastically reduced. I felt the opportunity we had previously to have one or two free uplifts a year meant that there was less likelihood of fly tipping. I hope that the current costs of clearing up fly tipping have been weighed up against the cost of providing a free uplift twice per year for each household, and/or that robust effort are made to find and charge the people who fly tip for the costs incurred.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reduce opening times for waste services depots. Promote home uplifts for a fee. Offer bin cleaning services again for a fee.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Bring back the weekly food waste small bin as the big brown bin emptied less often with food waste seems to be causing flies everywhere and stinks especially on warmer dayweather, maybe something to do with this. You need a mask to go to your bin!	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	The council is a signatory to the Scottish Government Household Recycling Charter which determines best practice for household services. The new twin stream service will improve the quality of material recycled and save money on disposal costs
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The council should install a charge system at each recycle center to the value of £3 pounds, for cars and small vans, but not commercial vans, which is paid into a typical parking collecting point, which means the operatives are not handling money.; i don't see this being an issue and would generate some revenue, this may increase fly tipping but i think it's worth a trial.; as i personally don't think the general public would have an issue with this payment. and with the amount of traffic that use this facility it would exceed £336.000	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Id suggest community skips being available in certain areas at certain times and emptied regularly .	5b. Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Self employed people aren't aloud into the recycling centres with goods, do you charge them to dispose of jobs material, this could be a way to get money again as it's forced other to hire skips for cheaper	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Business have a responsibility to dispose of their waste. Recycling centres are for household use only

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Required due to the nonsense that is the bin collection service. Bring back larger grey bins and provide large blue and green bins then this may be an option	5b. Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	My experience is that I often need to visit the recycling centres to bring bag waste (nirmal household trash). We live with 5 people in a house and we only get one small grey bin, which fills up in less than a week, even with proper sseparation of trash. I suggest to give large house holds a larger bin or a second small bin by default, which will reduce the need to visit the Tip for household trash.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Is there any chance of re-opening the Re-cycling centre in Deans? But may I say how helpful the staff are at our nearest one in Blackburn	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Open tips unmanned. Let people put their rubbish in at times that suit. Reduce fly tipping	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	the bulky uplift tax they should not be charging for that	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service. Therefore, any introduction of a free service would require a corresponding increase in fleet and employees.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	No charge for bulk uplift	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service. Therefore, any introduction of a free service would require a corresponding increase in fleet and employees.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	free collections of bulk items as paying council tax already	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service. Therefore, any introduction of a free service would require a corresponding increase in fleet and employees.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	you should not have to pay for bulk uplifts after paying council tax	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service. Therefore, any introduction of a free service would require a corresponding increase in fleet and employees.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Privatise the bin service. The guys currently do a (redacted) job and aren't worth what they get paid.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	could outsourcing waste services be cheaper?	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	savings seem low for this area. could outsourcing waste services be cheaper?	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Put back free removals saves money on fly tipping throughout the place	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught. The introduction of charging for bulky uplifts was in line with the approach taken by most local authorities in Scotland and charging for a service is not an excuse for fly tipping.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If you brought back one free uplift per year (not three as previously), you would save a lot of man hours on the retrieval and clean up of fly tips. These have increased so much since the free provision was scrapped which will have cost a lot more in the long run.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Bulky uplift: this service was removed as a free service due to cost constraints and operationally adjusted to cope with the demand of a charged service. Therefore, any introduction of a free service would require a corresponding increase in fleet and employees.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The saving needs to go further than just opening hours - the council has far too many sites for such a compact geographical location. Other councils only have two sites. The council needs to reduce its asset base and that should include CRC sites as a priority.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Some LA's in England also have Re-use hubs at their recycling centres, where items are re-sold. This would help to reduce waste and could be an income generation measure...	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Whilst this is a positive suggestion the contractual arrangements and issues of liability make this a highly problematic initiative. The council do, however support and encourage third party refuse organisations.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Supermarkets and large employers could help manage this aspect of what is now every day life - which councillor or official has the bravery and foresight to kick start the initiative?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Longer opening hours would be good. Knowing that recycling is actually getting done would be great. Appreciate the 4 bins we now have but still don't think You are recycling all you should be. Too much going to landfill. Would be good to have areas for public to leave things in good repair for others to take such as children's toy, clothes, cardboard boxes (perfectly good ones being sent for recycling when the could be reused. Plant pots etc...	6. The respondent suggested an improvement. Officers will consider how this could be developed.	These are areas that are considered in line with the Household Recycling Charter
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Better recycling efficient methods is a must.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling centre is not fit for purpose, a larger more, more safer accessible area should be considered. Deans was a better choice than oak bank where it causes road congestion when busy! This service is vital to keeping the community tidy, remove any of these services and the streets will be clogged with items that could have safely been recycled.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Council CRC provision is under constant review.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Since the pandemic the community recycling centres have not been accepting liquid wastes e.g. old diy materials. I had to clear the family home due to a parent going into care and cannot find anywhere to take a range of this type of waste. I have been told informally that people are just wrapping it in black bags and putting it in the landfill skip but this does not seem appropriate. Please fix this. Continued storage in my garage is a fire hazard.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We need more and better recycling options.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There are no facilities for people who are unable to get to CRCs. This unfairly impacts the disabled and low income families who often don't drive. We need free bulky uplift for vulnerable groups.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Since people who use the Community recycling centres usually have access to their own transport, do we need so many? Do we, for example, need both Blackburn and Whitburn? My nearest recycling centre is Whitburn - but I could travel a bit further to another one if I had to. Not too far though as then people will start more fly-tipping.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Make the bin men put the bins back to the correct house, I've lost several bins as other take them and I have to order them. Maybe save some by doing that.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	If there has been a failure of service on our part and you are dissatisfied please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Management and improvement actions are taken, where appropriate. The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsmen, who also deals with escalated complaints where a customer is dissatisfied with the council's response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Love the efficiency of the Blackburn recycling centre, others could follow their example.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Dry recycling bins are never full before they are uplifted.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Any closure of tips will surely increase fly tipping - the appointment system that Edinburgh council use that came out during covid and that they have kept works well - means the council know how many staff to have in place and that when demand is less the staff could be redeployed	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment an appointment system is being investigated
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Perhaps review whether opening later and staying open until 7 or 8pm would be better during the week.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Either shut a couple of sites and build a big new one so were down to 4 sites or cut management structures there.s your savings with out cutting sites	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Huge queues as it is, reducing staff will make it worse, why not close on the quiet days instead.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Change the opening times of the recycling centres to make it more accessible for people who work - look at busy spots and quiet spots during the week and adjust opening and closing times accordingly to reduce costs. There is no point in workers sitting waiting on the busy periods when they could be reallocated to somewhere else for the "quiet hours" to increase council productivity.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Have these centres only open 2 days on weekdays and all weekend.	6. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	see previous comment; - waste centres need to be realigned to different working patterns, as well as collection services	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It cannot be a licence to print money, but instead needs to separately identify the need to deliver efficiently heated homes to council tenants, encourage local food miles eating solutions for the least advantaged in their bailiwick, encourage climate change friendly local transport solutions, and encourage waste reduction by making it easier for households to reduce, reuse and recycle. A major component of all this lies in the education of our people, to help them make the right choice, and to make the right choice the most affordable choice. Where the most affordable choice route is not (yet) available, we need to make the right choice free for those on benefits.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	close ones that are not popular. Linlithgow is dead and other councils only have a tiny number of centres that are open less. Why can't WL just get on with it and make this decision. Five in WL is a disgraceful amount to have	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Perhaps consider reducing the hours the waste service recycling centres are open to weekends only.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Charge £1 per user, per visit for using a recycling centre at the weekend.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Charge users for recycling potentially toxic or hazardous waste, such as batteries. Charge charities a nominal fee for any items that you currently donate to them, such as bicycles.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I think the recycling centres work well. Have you thought of unmanned locations more widely dispersed? Initial capital outlay but lower maintenance costs. This is how they do it in Portugal.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If there could be more organic recycling opportunities such as for food contaminated card ie pizza boxes/fast food boxes a lot of landfill waste could be further reduced and the capacity in the brown bin would be used more effectively. I would also support warnings followed by fines for people who consistently put contained waste into the blue bin.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	If you are reducing the hours of linlithgow I would suggest it should be open ,1 weekday, all weekend, and at least one evening til 7pm.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Part time opening on days/times of customer requirements/usage	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Look at an option in council refuse centres for a second hand/used section where people put in a donation and take unwanted items as many things I have seen in general waste sections of centres is only in need of a new owner or an upcycle. Obviously exclude electrical items for health and safety and put a time limit on donations to keep flow of stock.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Electric/Hybrid waste vehicles...	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council regularly review fleet requirements and utilisation to ensure best value and that operational needs are met.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Again why cut services? Why not offer a "pay on entry" model for commercial vehicles and generate revenue?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Perhaps reducing opening hours would make a saving, maybe a later start during the working week, but being open at weekends would be best.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I recently took a bag of plastics from my over-flowing green bin to Oakbank Recycling Centre and was very diheartened when I was asked to place it in the bag waste skip. I really hope that decisions are carefully thought through and have a positive impact on the community and environment.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	These could be self-service.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I assume these words mean they are shutting more! If required have them open during the week from 4-7pm which suits residents.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There are too many recycling sites for such a small council area - close one or two down and maintain the hours at the others in line with peak demand times	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	You need to start fining residents who misuse their bins and constantly put the wrong items in them. The recycling service is a very good service and must continue.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I think venues that are not well used should be closed or closed when they are not well used. Customers impact is minimal and opening times should reflect customer demand.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Have the ability to borrow a box to bring garden waste to the CRC with a refundable deposit for the box.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Have the ability to borrow a box to bring garden waste to the CRC with a refundable deposit for the box.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Probably could close them 2 days a week open 3 days during week and always at weekends	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Flexible working to support communities again could help	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	We already find that our bins are not collected frequently enough. Recycling centres could potentially reduce their opening hours.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	close them where they aren't used enough. WL does not need five CRCs when others have far less and are open part time.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Look at all council food provision and record where it comes from and what is waste and where the waste ends up as food waste has a massive environmental impact one of the largest. It will soon be mandatory to do so.; Also it is good practice from any outbreaks ecology etc.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Stop spending fortunes on NEW CCTV at our local recycling centres whereas current CCTV security is ample and paying contractors mega bucks for servicing & repairs to update and maintain these units for starters, staff say the councils money is being spent in the wrong areas at our 5 HWRC centres.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council's property asset management strategy and capital programme seek to identify planned maintenance to assets, within the parameters of constrained financial resources, to minimise reactive maintenance going forward. Investment will be prioritised to maintain assets required for service delivery in as good a condition as possible given the revenue and capital financial constraints facing the council. Due to the constraints, and to prioritise limited resources, there will be a need to rationalise assets.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste services should be more accessible for working people, closing these services early doesnt help working people, 1 night late per week, or a variety of different hours would be more beneficial.; ; Actual recycling would be good too.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Reduce recycling center opening times - they seem to be open a lot.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	You could review the peak times on these centres and open them only within these hours, allowing only people who've booked entry within these times.; ; Or consolidate them down and use the busiest ones.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This needs to be revised. People can't understand why the WLC lorries put blank bins and blue bins in the same lorry.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. your response will be forwarded to the relevant council officer for consideration. This may happen if the blue bin is contaminated and is being emptied to allow the resident to recycle properly.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I don't think the recycling centres need to be open 7 days a week.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	In the waste operations section of the council there are far too many charge hands and supervisors , there are around 8-10 people supposedly busy doing the work that used to be done by 2 supervisors. Operational services can basically run itself with the right crews on the trucks. Drivers could act as chargehands for their own crew and take on a small amount of extra duties this would reduce the need for so many charge hands and supervisors that are there now.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	close 2 of the CRCs. The first one I would close is Linlithgow that is dead. There is no justification for this place to be kept open. ; ; Look at Falkirk - it's only got two and they are both part time. Why is WL got all these CRCs open? Get them part time, or close them. You can't go on with 5 all open 7 days a week.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The recycling is an important way to avoid land waste. These centres could also provide an area where items could be offered to others to reuse.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More needs to be done. We need to be more circular in our economy. Start in the schools - spend money on education - new bins are urgently needed to cut landfill from schools.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Broxburn staff spend a lot of time sitting around so perhaps reorganisation of staffing across sites.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Other authorities have a low charge for collecting garden waste, Could this be an option?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Open hours when most used, evenings and weekend suit most working residents	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Educational settings (No recycling brown bins, Plastic and paper together) - Not a good example for environmental and Climate change improvement.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Our village doesn't even have a bottle bank...	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Bottle banks: the location and condition of bottle banks in the community are carefully considered but are also regularly reviewed using feedback from the public and our staff to ensure that they continue to be suitable and accessible.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centres can actually feel a bit intimidating - and confusing - when trying to work out/see what goes where. Staff aren't always visible or helpful. at times I have had to knock on their wee office to ask for help and is hit or miss as to whether I get a friendly response or just an abrupt reply.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	4A Create two new super recycling and reuse centres in the east and the west of the district with great access and much more space better separation of materials and a reuse covered facility. Retain Linlithgow to service the north.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Do any of the schools recycle? ; ; Public should be told/shown a short film regarding what happens to the waste and how it is managed	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Could a third sector social enterprise model be looked at to tackle subject such as fly-tipping. Supporting CDTs or other large third sector organisations to take this on.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Consider opening in the evening so people who work can utilise away from the weekends	6. The respondent suggested an improvement. Officers will consider how this could be developed.	CRCs: the existing provision of five community recycling sites is a higher level of provision than in most other areas and ensures good access for residents. The council does not charge for household use of community recycling centres and aims to match opening hours with customer demand to ensure optimal efficiency.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Since the pandemic there has been no separation for recycling at our local centres. Blackburn & whitburn.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I can't recycle plastic properly from old TVs and the glass from the display. There are many TVs which are old or have cracked screens and I keep spare parts from them. But metal goes to the recycling centre, and the problem is still with the plastic to recycle and this display/screen. Maybe we could do something about it? Most of the time, plastic is ABS.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Is recycled rubbish from schools actually recycled? I was in a school and all the rubbish bags were piled up together. Be more like Denmark please.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	the Community Recycling Centres are essential and are well used, if a study was carried out and if any are not busy on certain days could these be closed on these days and staff deployed to another area, it may be that all centres are closed one day a week (different day) and the staff work over all centres to reduce headcount	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	When wheelie bins are emptied, anything that falls from the bins is left on the road. The cleaning operatives do not bend their backs to retrieve the fallen items and lately there doesn't seem to be other cleaning operatives coming around soon after they do the tidy up. In 2006 the council won council of the year, Goodness knows how with the slapdash attitude of some of the staff out in the community. From the chief exec downwards, the staff must be encouraged to think that they are working for the good of the community and whether they are binmen, street cleaner, office staff or councillors, pride in WL needs a boost.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I understand the need to review service provision, but please don't fully close any of the recycling centres we currently have in West Lothian. I would support measures such as opening the different centres 2-3 days a week on rotation if this would deliver the necessary efficiencies.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	again like fma service we can only cut so much from this service. I saw an office girl over the winter, due to staff sickness etc, emptying household bins with a driver driving the waste vehicle this reflects where they are at by way of staffing levels.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	they are not only doing a (redacted) poor job of only recycling what's essentially irreparable they're doing even worse at educating people to only replace what can't be fixed and don't do diy for stupid vanity reasons. did you know someone's fly tipped a combi boiler beside the tip at oakbank? 9 oct 2022.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Three/four guys sitting in the middle of Broxburn recycling centre doing NOTHING but talking to each other is a complete waste of money don't see why it needs more than two people maximum	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	CRC sites have two staff per shift. Other community-based staff may use the facilities at CRC sites to take their break.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Recycling centre at oakbank is a total farce. Not enough monitoring of what's going on each skip so what's the point. During Covid it was anything and everything going into one skip.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	There were revised arrangements in place during COVID to maintain social distancing and protect public health. These have since been removed.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Bins not always emptied	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This needs to be improved.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Climate change is a hoax made up by the elites and orchestrated by the puppet masters in government and councils now	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Need refuse collectors to stop going on strike. Take the pay for collecting rubbish and get on with it.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It is important to inform and educate people about what cost-saving means to them clearly. It is essential for people to know what's changing and how that can affect the current process. The last thing you want is where people are frustrated, and the recycling targets are not achieved as the rules are disregarded.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I am sure the council would wish to reduce the level of fly tipping, therefore I was dismayed to discover that booking a bulky uplift online was closed due to Maintenance issues" (28/10/22). As this service entails a further fee of £35 in addition to the council tax paid by each resident, why is it now in available?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Halo xxxxx xxxxxx	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Rat investigation is increasing and causing concerns. Is this because waste is not getting collected frequently enough?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It would make us hosting COP last year a farce.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	All talk, COP26 etc	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Get the supermarkets to take responsibility for recycling - they have pushed the packaging agenda for years now and should start paying back.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Householders should be encouraged to reduce their waste and excessive consumption by higher penalties for misuse of recycling bins and charges for council dumps.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Could we have more recycling facilities such as book banks at supermarkets, so common items font need to go to the tip	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Where relevant, your response will be shared with our partner organisations.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	What does this saving cover, you have provided no detail on how this is to be achieved.	9. The respondent made a comment on the survey question.	More detail required
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	So what do you propose?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Again a lack of detail/proposal makes commenting impossible	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Details.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	And sorry - what is the question being asked? Where are the details to allow us to comment properly? Who actually wrote this questionnaire? Savings could have been made on giving this job to somebody better qualified at giving good enough detail to allow for comment!;	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Unable to make provide a constructive comment as there is no detail as to what the changes proposed are	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not enough detail to make constructive comments - what does this mean?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.; ; There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.; ; What does this mean? Closed for longer? Less staff on shift? Lack of clarity leads to confusion.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Well,what specifically are they? Can't comment without knowing what is being proposed!!!!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Tell us that you have efficiency to deliver but not saying what they are is not efficient for me to comment on without knowing what they are.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	See 1A. It is disingenious to ask people to comment on such a broad proposal with far too little detail for anyone to give an opinion on - it constitutes tick box consultation. It is difficult to argue with the broad principle outlined but it very much depends on how it impacts on people - reducing staff can often mean that the only method of communication is online and in many organisations this causes much greater inefficiency/no help at all for the customer/client. If we do not put the climate crisis front and centre of all policies then we are sacrificing the futures of our children	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I don't understand the question. How is the service being changed and what are the pros and cons? You have in no way defined what the £336,000 saving represents? How can the public make any informed comment here?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Always good to review but how about asking the end user this time? Twin streams was brought in without any consultation.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Find the Blackburn Recycling centre very good and staff always friendly and helpful. Only experienced queues post covid initially and at Christmas	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Too vague to allow for meaningful comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Some of the facilities at Broxburn are always out of order.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This proposal tells me nothing about what is planned or what will actually change so I'm wary but can't comment without details.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	This statement means nothing how can you estimate savings when the review has not taken place.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Are we really recycling properly no one seems to check the bins just empty them anything could be in any bin?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	You need to provide more detail before any meaningful comment can be made	9. The respondent made a comment on the survey question.	Thank for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	More detail required	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	The Whitburn Recycling Centre is the best of all the WLC centres. Use this as a model.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Your statement is vague if fail to see how anyone could comment on this. If however your intention is to close recycling centres on rotation then you should expect to see an increase in fly tipping.	9. The respondent made a comment on the survey question.	Fly tipping: is illegal and perpetrators may be charged and/or fined if caught.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Ill be interested in what that really means. This was more waffle. Council probably think it's acceptable to have bins over flowing, have tax payer unable to use local facilities and unable to use the adequate transportation (e.g. a trailer) for the task because some beauracrat nonesense said it would save some money. Don't forget we the tax payer pay your salaries. Perhaps consider us as your sponsor.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	I don't think the 3 bin system works to be honest	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	It is not clear how this saving would be met. What would be cut? More jobs gone?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Why don't we recycle glass in West Lothian as part of the waste collection not everyone can access the bottle banks easily.	9. The respondent made a comment on the survey question.	Thank for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	There is always need to review service provision. Please give details on what this means in practice, in this context.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Starting with council buildings recycling properly would help.	9. The respondent made a comment on the survey question.	Thank for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	And another vague statement. What does this mean? Reducing the hours Community Recycling Centres are open? Reducing the numbers of them? Not helpful.	9. The respondent made a comment on the survey question.	Thank for your response.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As a resident I do not understand what this will mean to the services I receive due to the vague and broad terms used in this consultation document.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	As a resident I do not understand what this will mean to the services I receive due to the vague and broad terms used in this consultation document.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Flats are poorly serviced and the endstate of the CRC is not provided.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Again review should come first to identify what saving may be deliverable. Therefore, the saving if any is unknown?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not clear what the cost reduction is! Does this mean consolidation??	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Waste of time having four bins. Would have been better to add in a glass box instead	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Not clear what this actually would result in in practice	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Your waste service is a joke.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Maybe if you stopped messing with the recycling bins and left things alone you would save money as you are not spending it	9. The respondent made a comment on the survey question.	Thank you for your comment.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	WLC provide an excellent waste collection service and the outdoor crews keep the place very tidy. No complaints here. Just more dog poo bins in parks.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Specifically? Job losses or closure of centres?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	Is recycling really working? What percentage of waste isn't contaminated in some way which means the whole lot has to go landfill? Adding more bins to be emptied is confusing; Is it now really necessary to empty the grey bin fortnightly and the green one which now takes the bulk of household waste only once a month? This needs to be looked at.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	What would this entail? It would be good to know if existing centres could stay open, even if opening hours were slightly reduced.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4A Revised Service Standards and Delivery Models - Waste Services	what improved opening times and staffing levels	9. The respondent made a comment on the survey question.	Thank you for your response.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Stop subsidising routes that fail to provide a service to the communities and instead push funding to the communities to figure out the best solutions for them	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	I think this is a good idea as currently elderly/ vulnerable people face a lot of difficulty relying on unreliable public transport to get to places in time.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Agree with reducing under-utilised services but no significant withdrawal of complete services should be undertaken with public consultation and community agreement.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	you see so many buses going about without passengers this need reviewed and cut.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Bus services that are not used should not exist anymore.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	This would give individuals more independence,	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Empty busses not in line with environmental goals.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	the new working strategy may result in the need to travel as much and if it has to be as proposed can only support the proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Agree with removing these if they are not being used	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	All kids have a young scot card and get free transport let them educate themselves by making there own way to school on public transport	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	So many buses are empty. This waste of budget needs to stop.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Doesn't make sense to run empty buses. No issues with this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Stop funding companies who fail to deliver have a clause that they payback if they fail to provide scheduled service	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	There is very little detail contained within the narrative to make an informed comment. Suffice to say though that this should be a feature of a progressive and forward looking business and should not be the consequence of a need to save money.; ; Having said this. The drive to create a greener transport infrastructure and the need to keep communities connected means that there will always be a need to have a subsidised bus service, especially for rural or less well serviced areas. ; ; Removing duplication makes sense.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	As the bus services within West Lothian (especially around Linlithgow) are appalling - hope WLC are not making any significant subsidy to the current service providers! An updated Transport Model for West Lothian is urgently required.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Think this is reasonable but not to cut off remote places - there has to be some form of public transport albeit at a reduced rate.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	We need public transport but a reduction in services is fair	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Agree with public transport review, updated focused transport strategies and removal of any ineffective concession art schemes or service subsidies	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Agree, very sad but needs must.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	No objections	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Agree with public transport review, updated focused transport strategies and removal of any ineffective concession art schemes or service subsidies	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Environment, Climate Change	4B Reprioritised Passenger Transport Strategy	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
