Modernising our council	1F Restructuring the School Day	After the devastation of covid it is hard to see how cutting the school day will aid recovery.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I cannot understand how a reduction in teacher/pupil contact time can improve the education of pupils. The proposal is to reduce contact time but keep the same length of day for pupils, how will the gap be filled and who will provide the supervision for that? Teacher use their non contact time to prepare future lessons etc and this should not be removed as teachers already work far more hours than they are contracted to do. This is not a good proposal and should not happen.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	There should be NO REDUCTION in teacher/pupil contact time. This has a terrible impact on teachers and pupils.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Highest quality learning, teaching and assessment is what provides the greatest added value to our young people in coming to school. Reducing pupil/ teacher contact time runs the risk of seriously compromises the quality of learning, teaching and assessment on offer to our young people. To do so would fundamentally be wrong!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This teacher time on direct teaching stat is meaningless in the context of the up to date web based learning tools that are available to eager learners. Savings on such should be easily achievable and lead to significant reductions in absence and supply teaching expense.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Concern about what alternative learning offered rather than teacher/pupil time	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Actually working with the teacher is better	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I fail to understand how a reduction in teacher/ student contact time, along with the proposed reduction in support staff is feasible. What does "alternative learning experiences" even mean? Children already have limited learning time in class and reducing actual time with their teacher will only cause further gaps in their education, will weakening teacher/student relations and will ultimately jeopardise the "improved school attainment results" you have claimed to achieve .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Current individual teacher - pupil contact time is 22.5 hours however pupils are taught by RCCT teachers the remainder of their school day. The suggested drop in teaching time will impact pupils who have already had education disrupted due to lockdowns and home learning. It is good to offer a range of activities for learners however we should not be putting their education and so futures at risk.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Where will the time to teach be if it's getting reduced again? The curriculum has to be fast-paced to fit everything in.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This proposal needs to be explained in much greater detail. The impact on raising the attainment gap by reducing teacher-pupil contact time makes no sense at all! What are the council's proposals for the children in the 2.5hours that they are in school with no teacher contact? Bearing in mind the proposal to reduce the number of support and administrative staff in schools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	I cannot see how this could possibly benefit pupils. Although the main class teacher contact time is 22.5 hours the further 2.5 hours are still covered by a qualified teacher who is teaching to the curriculum. Under this proposal the time to teach the curriculum would be reduced and children would miss out on key areas of the curriculum such as music, art and the sciences. Reducing the class day is reducing the opportunity to provide high quality teaching and learning for the curriculum which again will impact on the educational experiences of a generation that have already been greatly affected by the Covid pandemic. It would also result in the loss of quality staff who are dedicated to their profession and an asset to education provision in West Lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	I disagree with the proposal to reduce teacher pupil contact time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Surely this has to be a joke?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	You can't restrict learning to save money. If anything we need to be giving young people more teacher time, more structured learning and more opportunity. If we don't Scotland will be left behind.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	More information required. Not in favour of reduced time with class teachers. Effects on behaviour in class would be detrimental.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How is less teaching time good for the children? Does this mean parents will need to fund tutors to ensure they are at the right level.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Teacher engagement with pupils is essential to effective learning in early years schooling. This should not be reduced further without impacting on attainment.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	And you think that there is scope to reduce the schooling week further? Potentially, you will either force out good staff because you are reducing their wages and / or those that are left simply can't cope with the extra burden. Proceed with great caution please and make sure that the Teachers agree with you.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Education cannot be restricted by financial constraints when it involves reduced classroom teaching.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Face to face teaching is vital to engage children so disagree with this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Cutting teacher time cannot be made into a positive	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Absolutely no reduction in teacher contact time. I would prefer to increase the secondary school week to five full days.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Education in Scotland has continued to plummet when compared internationally with attainment in other countries. Reducing teacher contact time will only exacerbate the issue. Our children deserve to be taught at school by qualified, experienced teachers for the whole school day rather than watering down their education. I find this proposal wholly unacceptable - our children deserve more than this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Our children's education has been impacted detrimentally over the past few years due to the COVID pandemic, throughout which teacher contact time was dramatically reduced. Improved attainment results were only due to teachers providing grades rather than exams.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Children need to learn things at some point, so school time is vital. Parents need to work so extra costs of child care become impossible. Cut down on bureaucracy and admin for teachers so they can spend more time teaching.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No- teacher pupilcontact time should not be decreased it should instead be increased	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Teaching hours are appropriate as it is. Reductions may lead to a reduction in quality	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Pupils need more time at school with teachers not less. Stop wasting time with pointless assemblies and teaching nonsense and spend more time on real subjects which parents actually send children to school to learn. Teachers in the main were hiding during the recent pandemic and must have saved hundreds of pounds in fuel. Give them a pay decrease and no raise till they've earned one.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Any reduction in face to face teaching is not good.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Well then they will surely fight for a raise (quite rightly) as they are in a new role with more responsibility than what they are usually asked for. If this is going to outside agencies then how can we justify specialists when already we know that per hour most specialists workout more expensive than a standard class teacher. Then what happens if there is an absence of those who are responsible for the children during this time. What happens to the children at this point? The class teacher is legally contracted to this non-contact time and can therefore leave the building. Management may be in meetings, on courses etc. As things stand teachers attempt to be understanding when the non-contact teacher is absent and should (legally, although sometimes this is not always done) provided this time at another time. However, if there are specialists coming in then this causes a logistical nightmare and will make this contractual obligation more difficult and could result in there not being a member of staff to be in front of the classroom.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Teachers already work over and above their allocated working day with no additional pay, to ensure they deliver quality lessons to their pupils. Removing their scheduled planning time would further impact the work they would need to complete in their own time. This will put additional pressure/ stress on teachers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Teacher / pupil face to face time should not be reduced. Some children's learning could suffer if they have less access time with a teacher	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	cannot even believe this is in here- you have got to be joking. how will we ensure we raise attainment, protect pupils from covid gaps in learning - oh I know let's give lazy teachers more time off and at the same time force many parents to work part time- I honestly think you have all lost the plot	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would want to know what this would be before commenting in more depth. However this proposal would reduce teacher interactions with learners by 682.5 hours across primary and potentially 195 hours in secondary school, this adds up to 877.5 hours. or to put it another way, a full year of primary school. Is the council seriously proposing to take a full year of formal schooling away from our learners? It seems fanciful to think that removing contact with teachers for that length of time will have no negative impact. I strongly disagree with this proposal.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	No absolutely not, this makes no sense, why would any parent/cater want their children to have less contact time with teacher. Are we forgetting that all children of primary / secondary age already lost out on 2-3 years of valuable socialising and learning due to covid; I think if anything more contact time with teachers are a must, online learning for all schools too, my sons primary school still do homework in jotters whilst other primaries already adopted the online submissions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Education I if our children should not be skimped on and I don't agree with this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I think that children should be taught in class by a qualified teacher, if left to their own devices some will not use this as they should.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I think pupils need more teaching time and more teacher support as some pupils need the teacher environment to work and the structure of the school to achieve their potential	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	To ensure the continuity of high quality learning and teaching throughout this additional time, will be difficult to sustain over time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	I do not agree with this proposal. I think we should be increasing pupil/teacher time rather than reducing it and using 'infill' strategies, especially the increased use of technology...I believe there is already too much technology use in schools and we should be focussing more on reducing this and increasing core life-skills.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Any move which involves pupils having reduced contact with GTCs registered educational professionals is unacceptable, and again needs to be looked at through the lens of real terms cuts in education budgets at a time where those budgets are already under intolerable strain.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Sorry what exactly will children be doing during the time your saying no teacher contact and really are you all mad! After the last 3 years of covid disruptions you want to provide our kids with less teacher contact time! Sorry I have to ask again are you all mad????! I have never read such misguided comments, honestly in a broken education system your answer is to provide kids with less time with teachers. Can I ask have you had a look at what's actually happening in schools right now? Children at exam levels are spending their school holidays getting extra study support class time with their teachers. They are spending hours after school everyday of the week having extra support study classes with their teachers to make sure they are in a place to sit and pass exams all because they don't have enough class time in a normal school week with their teachers so who thinks it's a great idea to reduce this teacher class time even further????	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Children's attainment on average is not getting significantly better particularly in poorer areas. A reduction in school day will be detrimental. Children are beginning school with significant gaps - reduction will only increase these gaps.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I think this proposal is appalling. Teachers are already struggling to teach an already overloaded school curriculum within the 25 allocated hours. If this contact time was further reduced then this would mean that we have to cram even more into our timetables within a shorter period of time. This proposal proves that the council is not taking children's education into account at all and is instead only solely focused on saving money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	NO, just NO. Children have suffered enough and missed out on enough during the pandemic, do not make them suffer any more. They need more teacher time not less.; Reduce the school day? Is this fair to working parents who already struggle with childcare?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There should absolutely not be a reduction in teacher/pupil contact time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Shortening access to qualified teachers will have a direct impact on learner attainment and achievement as it is currently challenging enough to ensure learners receive their full entitlement to a broad general education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Concerned about the possibility / proposal for secondary schools to reduce the school week by 50min & the impact on the quality of learning on pupils by having less teacher contact time. This would have a detrimental impact, especially on the children who struggle in their education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Based on the impact of the Covid Pandemic, the impact on primary school kids of lockdown and home learning, no matter what funding issues, I was expecting to see and increase in teacher/pupil contact time. Once again the proposal is vague, it says contact time will be reduced, but the length of the school days would remain the same. Details of what "alternative learning experiences" will be available needs to be detailed. I do note that so far of the 6 proposals, 3 of them affect childrens education with projected savings greater than £8m, I cannot see how this level of cuts will mean that the educational experience will remain high and not cause a significant gap in the educational curriculum unfolding.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who is providing the alternative learning experiences and where? Where is the money for this coming from? Class Teacher's need access to their classrooms, school and resources. No space for all of us to be out at same time. RCCT/NCCT is also to be increasing over the next few years which you have not addressed.; The priority is to close the learning gaps and raise attainment but you are reducing teacher contact time.; Teacher loss of jobs but employing extra unqualified staff for cheaper.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to ensuring an appropriately qualified workforce to provide appropriate learning experiences, meeting the needs of all learners
Modernising our council	1F Restructuring the School Day	Further job loss and less preparation time for teachers should not even be considered.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing the number of hours pupils have with a teacher in their class can only have a negative impact. Specialist teachers already provide valuable experiences for children with a focus on an area of the curriculum that is required to be met. The curriculum for excellence is so broad that teachers already struggle to fit everything into the time they have. Whilst with the specialist teachers the classes are able to experience a subject in depth that is often a different experience to their normal timetable. This restructure would likely lead to job losses and reduced opportunities for newly trained teachers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Children are already behind due to covid especially in reading, writing and maths. The experiences are differentiated for children in their classes and are created through the levels of progression. If the children were to then participate in learning experiences instead how will this affect their progression. Would cutting the hours from class contact not mean progression was slower than it was.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	This would result in learning opportunities for PE and music being taken away from specialist teachers as this is what is covered for my RCCT. Therefore this would have to be covered in the class contact time which would affect delivery of all other curricular areas. It also means children will not benefit from specialists to deliver skill sets needed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	I don't agree with this proposal. Effectively reducing primary school teaching time but disguising it as other learning opportunities. I think on the back of covid 19 and children not being taught for almost 18 months we should be promoting more learning time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again, 'agile learning culture'- what are you saying. This is unnecessary - focus on the teachers and learners. This is pointless- it simply gives someone a job to 'research the school day structure', they come up with a restructuring plan- now this is a waste of money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Absolutely not. Again failure if governments on manifesto commitments both locally and Scotland wide.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So you are going to have non teaching staff with the children for 2 and half hours per week and make us like England. Shocking agile learning only works if properly funded with qualified teaching staff. This is the worst idea I have ever heard and you seriously should be ashamed of yourselves. You are doing this to save employing teachers and cost cutting children's lives. Children need more teacher time not less and I would be raging if my children received less. In fact all children are entitled to 25 hours in primary of teacher time not 22.5 this is unlawful and would result in parents taking legal action against you. I seriously think this needs to be reconsidered and other ways of reducing budgets as children need quality learning by a teacher and not agile learning which is babysitting in disguise.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Think it is vital to have teacher pupil time and don't believe the solution is to have less time with a teacher... The school hours are hard enough for families to manage who work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who will provide the alternative learning experiences? Quality education must be taught by qualified teachers. Attainment levels will fall as children will be missing out on being provided with quality education. Specialist staff provide lessons which raise attainment, transfer learning, share curricular links. Specialist teachers provide enriching lessons that link with class teachers learning. Specialist teachers teach key skills such as creativity, higher order thinking and problem solving that can not be replaced with unqualified staffing. If class contact time is 22.5 hours and the remaining school day is not provided with lessons from qualified teachers this leaves less time for the class teacher to cover the full curriculum and we will fail in providing quality education for all. Our learners have the right to high quality education taught by qualified class teachers for the whole school day therefore I strongly disagree with the proposals in 1F in restructuring the school day.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This would inevitably lead to less staff on very tight school estate already, the primary school impact would be large with parents having to provide additional childcare, this would have an impact on the local economy and could lead to reduced income in the future. Long term thinking and the investment in young people has to be no 1 priority	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	With the learning of children already suffering so greatly due to the pandemic, is reducing teacher contact time really the best route to go down? The only reason that 'attainment' has improved as that staff are often going well above and beyond their contractual obligations to provide the best life chances for our young people (not because of your 'agile learning culture'). Have you even bothered to consult teaching staff over these suggestions? Or just ran roughshod and already made up your mind (which seems likely as these proposals were tabled last year, denied that they were being seriously considered, and have somehow magically re-appeared).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Why are we reducing school hours/days? Our kids have missed so much schooling over the last few years, and it's very apparent. Totally disagree with this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	High quality teaching experiences are what are required for our schools. Children deserve the best as they are our future. If we cannot invest and support them during their childhood then we are failing children. If we do not ensure that school day is delivered by a professional who has had essential training, then we open the door for sub par experiences, less support for those children who require it and also less challenge for the children who require it. With the effects of Covid still affecting children in our school system we cannot further fail these children by removing the very people qualified to support them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How are you going to find this. Kids can not be expected to have this time without stimulating resources	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	"West Lothian has developed an agile learning culture and approach and delivered improved school attainment results and improved learning experiences for pupils." I would fundamentally disagree with this. On paper, this might be suggested, but the reality is that it is not true. It cannot be. I have been on a maximum timetable since I finished being a probationer, and never have I had less time for anything. I can't remember the last time I was able to create a new unit of work from scratch. I spend my spare time at the photocopier, uploading work to Team for pupils who don't attend class, which they'll never look at; doing 'mandatory e-learning'... We can no longer moderate prelims, having only 6 days to mark them (In English this involves more than 20 hours work). There is nothing agile about what we do. The only people who think so are in position where to peddle such nonsense benefits their career.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This sounds dangers and threatens the quality of education. Children go to school to learn. Most would agree that they should be taught by a qualified teacher for the best out comes possible. COVID gave us a taste of what happen when we try and teach without teachers , it didn't work. Please please don't dilute our children's education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Our children are already in a learning deficit due to remote learning due to Covid lockdowns. Replacing face to face learning with more self driving online learning will damage them further. Given they are the ones who will be most impacted by the economic black hole we are currently in, the least we can do is offer them a decent education to get them off on the right foot in life! Cutting time with teachers and the school week by 50 mins is not in the best interest of pupils.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	On line digital learning is good but a plan to reduce teacher v pupil ratio whilst still having same school times ...are the savings to be found by reducing teaching staff? If so....desist.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Our children need as much teacher contact as possible. Due to the loss of vital learning growth and development during and following the pandemic, they require ongoing and quality teacher time to regain lost skills and to catch up where skills knowledge and development have been restricted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing teacher/pupil time will be detrimental to pupil learning and reduce the educational standards.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I cannot stress enough how West Lothian undervalues the skills of their teaching staff with the ridiculous suggestions above. Who would plan and provide these 'additional learning experiences' during what would have been RCC time?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Very unclear from your description what this means for pupils and staff so hard to say if support. Minded to not support	2. Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Children do not need less teacher contact time. Teachers are worth way more than they get acknowledgment for	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	children deserve high quality teaching from a quality, fully trained teacher - not a PSW! Teacher training and further CPD is of high standard and importance to ensure childrens needs are met in regards to learning and to take that away and provide a time where non teaching staff take over a key role is actually wrong!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not think teacher / pupil time should be reduced, it should be increased depending on the ability of each individual child.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	To reduce teacher time with pupils is ludicrous. ; There is very little else to say. ; We need more teacher time not less. We need more teachers and pupil support staff not fewer. ; Our children need this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The providers of these alternative learning experiences still have to be paid for - music, language, PE etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Whatever does this mean? Children are behind in their learning due to school closures. Teacher contact time needs increased not decreased (as a school teacher). There needs to be a reduction on teacher carrying out superlative administrative tasks which takes time away from planning. For example this week i had to complete two forms and risk assessmenrs on evolve for a short walk to the local library.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Would not be supportive of this change as structure of west lothian school timetable already concentrates learning into shorter period than other regions, via short lunches and half days on Fridays. To maximise learning experience need to maintain teacher contact time, effectively you are asking kids from range of background to be more efficient in their learning which is not a saving just a poorer service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Really concern at the impact on our childrens learning. Further information required on how this will not be impacted. Please explain how the school day will look like and the hours when teachers are not available what will happen to the children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Yeah in line with local authorities but not in line with an average worker cutting hours on top of huge amount of pointless holidays yeah that's good for a child that is advanced learning skills or adhd	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Pupils need teacher contact time - if we have learned anything from the pandemic experience it is this - pupils suffered hugely having to teach themselves online please do not reduce this any further. Teaching face to face should be the core of your provision. Do not alter the school week, how can it be reduced by 50 minutes but no change to start and end time of school day? This does not make sense - overall please do NOT reduce pupil teacher contact time any further	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Whilst a reduction to 22.5 hours sounds great, and could lead to a 4 day working week, it in absolutely no way should lead to a reduction in the ability for pupils to engage with specialist teachers who tend to cover the non contact time of our class teachers. Specialists play a massive part ,with their extensive knowledge and experience, in providing our pupils with a holistic education. If we reduce the specialist teachers in our schools then we will leave behind a whole section of pupils for whom specialist delivered subjects such as PE, Science and Art are where they thrive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If you are reducing teaching time then expectations for attainment need to follow suit. Teachers are not magicians. Alongside the proposed reductions in support it will become impossible to meet the increasing needs of our children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who will be with the children for these 2.5 hours if not teachers? It will just be babysitting and so what is the point of keeping children in school for this time?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I strongly disagree with this proposal.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	no	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Makes sense. Should have been done long ago.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reduce	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	kids lose out yet again	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Absolutely not.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Don't reduce teacher/pupil contact time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not agree with a reduction in teacher/pupil contact time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is a not a suitable option.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Leave it as is	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Joke	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Totally against	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not agree with this change	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	ABSURD. Children need to be taught by teachers in schools and parents at home. School is for EDUCATION NOT CHILD MINDING.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I can't see this working.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No I don't agree with this either children work better with teacher pupil interaction not computer's	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Agile learning, what a load of nonsense. You should be increasing contact time, not reducing it. Reduced contact time is detrimental to those children who most need it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No no no. Investment for the educational needs for the future not reductions.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	i disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would not be comfortable with pupil/teacher contact time being reduced even without a change to the primary school start and end times. How the contact time is spread across the school days is not something I would be concerned about too much as classroom assistants can be used to expand on the subject the teacher had introduced. However I do not agree with reducing contact time and dont really understand how this would deliver as saving without changing the start and end of the school day (of which I wouldnt agree with either).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Reducing the contact that pupils have with qualified teachers would also be detrimental to their learning and schools would be unable to provide quality activities and experiences during this time. Sports clubs are too expensive to hire for this time and pupils would end up doing unstructured activities with little learning or social skills involved. Many pupils with asd or other social difficulties would also find this unstructured time difficult. By providing qualified PE teachers during teacher non contact time, pupils are engaging in quality teaching of sports, this would not be of equal standard if class teachers are providing this without specialist knowledge. The time to teach PE would also mean a reduction of teaching and learning of core skills, such as literacy and numeracy. Additionally, there would then be schools with surplus teachers without the availability of jobs, and making it very difficult for newly qualified teachers to obtain employment following their TIS year. Overall cutting teacher contact times within schools would result in lower pupil attainment, reduction of quality learning experiences, a decrease in support for pupils with learning gaps, increased teaching staff unemployment and would not be beneficial in any way to pupils, parents or staff. Education should be one of the councils highest priorities - children are our future and without investing in their education we are not investing in a Scotland fit for the future.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Our pupils do not need less contact time with a primary teacher but rather more. The current literacy and numeracy levels experienced for new S1 pupils are not a good indication of how less contact would be of any benefit to our young people. This is also the case for secondary pupils where less time with a class teacher would be a negative	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Kids have missed out on so much education with covid. Surely school hours should be more not less!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	This proposal would have a significant impact on an already crowded curriculum. If the children are to lose the 2.5 hours of RCCT subject teaching for "agile learning" (delivered by presumably non GTCS staff). If that is the case, what of your teachers currently in this role? Are there new jobs for them? What do you propose is cut from a crowded timetable to accommodate the subjects currently delivered by the RCCT teachers?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This survey really is not very clear. No I do not want my children to have less teaching time if that is what you are asking. How would that even work? Are you saying extend lunch and break?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This sounds ridiculous as a parent and a teacher. You need to look at saving money elsewhere. How is this GIRFEC???	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This makes no sense. Yes teacher contact time with pupils is max 22.5 hours however, pupils are still taught during the remainder of their time in school. They are taught by rcct teachers and are still accessing the curriculum during this time. A reduction in hours of the school day would mean pupil learning would suffer. It seems the council wishes to reduce this and use cheaper alternatives to teachers to 'babysit' children for the rest of the day. This devalues teaching and learning to a massive extent. Pupils will suffer if this method is used.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	RCCT teaching staff have a vital role in schools to help cover areas of the curriculum by providing high quality learning experiences. Teachers timetables are already jam packed with all curricular areas to ensure breadth of learning and so, although children may get 'alternate learning experiences' from this new cover, will it cover Es and Os from the curriculum that we are still expected to fit in? Will it actually help teachers in anyway cover the already vast amount of outcomes per year? Likewise there's already a shortage of jobs for teachers with many Scottish teachers now leaving the profession or moving abroad. Reducing jobs further by bringing in other cover will further escalate the employability crisis many professionals are experiencing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So children will have 2.5 hours with someone who is not teacher trained? This will be wholly detrimental to the closing the poverty related attainment gap agenda. Attainment will drop quickly and teachers will struggle to deliver the same amount of learning within reduced time. This will mean the quality of teaching will drop and the pressure on teaching staff will hugely increase with a detrimental effect on their mental wellbeing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is going to have a detrimental affect to learners and teaching staff. It is clear this a a veiled attempt to further reduce staff and have teachers (most likely) in class during the school day. I would be very interested to know specifically which other local authorities follow this structure and how it operates specifically to ensure this is not a way of teachers losing RCCT.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It is rather insulting towards learners, teachers and parents that the council feel this is a good way to save money. As a parent I am not happy that the council feel they can take away my child's right to high quality education to save money whilst making much smaller cuts in other areas.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How can a reduction in qualified teacher contact be a positive thing? As I stated previously, we are still dealing with the effects of covid on childrens education. The current employment situation for a large amount of teachers is shocking, in terms of finding work. By reducing teacher contact time would have a detrimental impact on not only their learning but also the number of jobs, and the job security, for teachers. It also puts pressure on schools to recruit the cheapest option of less experienced teachers. Again, another huge detrimental impact on the learners.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What you are not saying is that children are taught by other qualified teachers for an additional 2.5hrs/week in a specific area of the curriculum. These proposals would result in our children receiving less teaching and learning time. No. That cannot be allowed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	This is the most shocking of all. First thing is, it completely undermines the teaching profession once again. Are you trying to play in to the hands of the people who already view an extremely professional, essential and hard working group of people as glorified babysitters! As a parent I am shocked at the disregard for my children's education. How can you say that a PSW or other can do a better job at teaching my children, I know they can't. This shows me how little West Lothian values my family and my children's education. This is their future and they are entitled to a full and proper education by qualified teachers. I find this disgusting. I am also concerned at the lack of importance the council place on Expressive arts. The importance of music, PE, art and drama is an essential part of our curriculum and West Lothian have a blatant disregard for these areas. All of my children thrive in PE and music and have gone on to achieve As in their SQA exams and this is only because they have been taught Over the years by qualified and experienced teachers. This is another area which I find utterly unbelievable and I know other authorities dinky have this disregard for these important subjects. Also for the secondary pupils how on earth can you reduce their teaching time the results last year for exam passes was shocking. Where exactly are you going to take the time away from them, they only get 30 minutes for lunch are you going to reduce that! I cannot believe these are your proposals.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This suggestion is unacceptable. Children should be taught by a qualified teacher at all times. This could be a language, PE or music teacher with the point being given it is always a teacher.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I don't see how this is going to work and think it's a disgrace if the answer is to put pupils in a room in front off screens for 2.5 hours a week! Cut the school day by 25min moon to Thursday, go back too 9-3. Run sports instead during the 2.5 hours a week and have a sport's afternoon and cut p.e. from being delivered by teachers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Unsure how you can reduce teacher / pupil. Contact time but not reduce school day. What are children doing for 2.5hrs a week with no teacher? This risks schools becoming viewed as childcare instead of educational establishments	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	I oppose this proposal. Children cannot teach themselves, after losing education time due to the pandemic children need as much teacher time and active education contact as possible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I can't see how this would benefit pupils and the statement doesn't explain how the kids would be impacted or how this saves so much money! I don't think less time with a teacher can be a good idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Additionally reducing the school day and reducing the number of teaching will cause children to lose already precious high quality teaching and learning time that children cannot do without, especially in the aftermath of school closures due to the global pandemic.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There is no continuity in restructuring the school day, quite the opposite. Reducing teachers will cause more harm than the good any savings could make. Parents will expect that their children receive the same amount of quality schooling that the rest of Scotland receive, delivered by qualified teachers. In an post pandemic era where the core areas of literacy, numeracy and health and wellbeing are of top priority along with quality teaching and learning experiences, giving children less time with qualified teachers will not allow for education recovery to continue. If anything, more qualified teachers are needed to support educational recovery, to target the attainment gap and the gaps created by a loss of schooling over the previous two years. Smaller class sizes, more additional support and an increase in non-class contact time are the only solutions to support high quality teaching and learning. Reducing the school day and pupil contact with qualified teachers would be detrimental.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This is not acceptable for young people. They deserve the right to the 22.5 hours contact time with a teacher. Alternative learning can continue in school with lunchtime/after school clubs. For secondary pupils, this should be brought iine with other local authorities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	May affect parents with kids of different ages.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Per my previous comments regarding education, any reduction in contact time between teachers and pupils should not be considered. The pupils require all the support they can get at the moment to bridge the gap created by Covid.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Would not want tecaher contact time reduced in favour of computer or less qualified staff, children are the future of west lothian and scotland	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	To replace qualified teachers with external agencies to cover classes is unacceptable. There is no guarantee of the quality of this input or progression for pupils. Although perhaps knowledgeable in their field they would not necessarily have the skill set to manage pupil behaviour and health and safety issues that teachers familiar to the pupils would be able to do.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	With the attainment in West Lothian being far far behind other authorities, how can you be sure that reduced teacher/pupil contact time will not affect this in a detrimental manner. What are the pupils supposed to do if there are no teachers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Don't agree with this at all. Kids need teachers time to learn. Need more teaching time! Not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Contact time with my child is pretty much 0% as a result of Autism and covid. Services available and support within schools is awful. Staff themselves can only do so much, they need help to deliver the things that you keep piling on them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Completely out of the question to reduce time in school with teachers. School day remaining the same but reduced time with teachers is BABYSITTING. The quality of alternative adult care would be low (to reduce cost) so would not be music provision etc but minimum wage supervision. Why even bother? Just send kids home (especially secondary age) if you are going to have time spent without teachers!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who would look after the children during non-contact time? Does this mean additional planning for the time we aren't in contact with the class? P1 could struggle massively with this unless you suggest they just have extra play time? I don't understand how this actually works in practice? An adult is still required to ensure the safety of the children in the class if the length of the school day is to stay the same.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Reducing the school week is not a good idea. Restructuring the terms might be better.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Pupils would then receive 2.5hrs less teacher contact time over the school week, increasing the attainment gap as teacher input cannot be substituted with other activities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This is quite frankly ridiculous and clearly not thought out by anyone who spends time in our ASN schools. Try putting pupils first for a change and start listening to your staff!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Leave the day as it is or extend the Friday to 3pm. Cuts should not be happening within the education system it's a joke, other areas could make the cuts especially management wages	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Less time with teachers? Are you having a laugh??? Our schools are struggling enough already, they cannot take any more cuts! Our kids deserve much better state schooling than they currently get! The gap between state and independant schools is widening and it simply is not fair. It's not our kids fault the country is in tatters, but if we don't arm them with a decent education then how are they going to be the change that fixes this mess!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This reminds me of when you took teachers out of nurseries to save money. Children are legally entitled to a full time education. This should be done by people who are qualified to deliver it. Reducing teacher contact time for pupils will result in job losses for specialist teachers as well as reduced experiences and opportunities for pupils. This is completely unacceptable as you will be further diluting the education provided by employing cheaper, less qualified staff as has been done in nurseries. Agile learning is not about cutting budget but is about meeting children's needs where they are in a varied way. It's about personalisation of the curriculum. Cutting budgets will reduce opportunity to do this creatively and effectively.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Educational standards are poor so u would not support disadvanateging our children further	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	NOT A GOOD IDEA TO REDUCE CONTACT TIME WITH TEACHERS.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What are alternative learning experiences? How can you save money unless these alternatives are unsupervised, which would be disastrous. It's so confusing, it is very difficult to comment on it. I am opposed to a reduction in the school day, and see above about volunteers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No This is madness	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Not a good idea to sacrifice contact time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Disagree. Do not cut funding to education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I strongly oppose this proposal.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I don't think reducing teacher pupil time can be good.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Please do not reduce teacher/pupil contact time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I disagree with this measure.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Strongly disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not acceptable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No happy with this at all!!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	My concern would be that few options would be offered and wouldn't meet the needs of all pupils. Especially those who are not 'sporty' or 'academic'.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This is a ridiculous idea. We have primary pupils who have missed out on 2 years of teaching face to face and you want to reduce this. We will end up with an illiterate society. There are pupils now in 2022 who haven't learnt the time or their basic times tables entering secondary school. Parents do not fill the gaps missed by teaching.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	I do not agree with this proposal, our children deserve to be with a fully qualified teacher for their full school day. I am completely against this proposal and I am extremely concerned as to what the children will be doing for 2.5 hours. Will this increase, if staff RCCT is increased as proposed. Currently children receive specialist teaching at these times - does this mean they lose out on that?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	The requirement for fewer teachers will lead to a reduction in the pool of experienced teachers. What will happen if we need more teachers and they are settled in better paid, less stressful jobs and won't come back?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Not sure how reducing teacher pupil contact time is seen as something positive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.

Modernising our council	1F Restructuring the School Day	Contact time should stay the same	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	I do not support this. Again, education disruptions need to be kept to a minimum. Pupil/teacher contact time needs to remain.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Reducing teacher pupil time is ridiculous. They lost enough time during the lockdowns and you propose this. How about increase council tax rent and make money off your properties. A 3 bedroom property for £75 a week is a bargain.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	What would children do for the remainder of the school day? Is this the digital delivery of the curriculum referred to above? I do not support reduced teacher input. This seems likely to impact on outcomes for children. Given the Covid related school closures many children have experienced since 2020, I think that reducing teacher contact time is unwise.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Children have already suffered during covid from not having face to face teaching time with teachers. I feel the future of our kids is in more face to face teaching and not reducing this as least until higher up in high school, when children should be able to adapt there learning. I have a dyslexic child and he has been struggling and needs more hands on, I am lucky he is at a school that supports his needs, but I have had to move him to this school and suffer to financial burden of getting him there to make sure he gets this help. Lessening the face to face time with teachers is not something I agree with.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	not acceptable really, schools are closed enough with more holidays than required	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This should not be done because teaching is important and the contact time should not be reduced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Instead of children getting a high level of curriculum; Within these times they'll get a twinkle worksheet and a film to watch from Netflix!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Alternative learning experiences can also contribute to raising attainment and achievement.
Modernising our council	1F Restructuring the School Day	I think the school week is short enough as it is. If anything teacher contact hours should be increased	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	How are our children supposed to recover from the impacts the pandemic had on learning with less teacher contact?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Primary/secondary alignment could help transition.; Pupil/teacher contact time should not be reduced but increased.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Absolutely ridiculous	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Teacher/pupil contact time is very important. With children sitting behind a computer screen too many hours a day already, they need this social interaction.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The curriculum is already crammed full without a reduction in teaching time. Again, what does this mean in practice for the school day? If they are in school for the same number of hours but not being taught, what are they doing? who will be responsible for them?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Terrible idea. How will the children be supervised? Again, limiting the support for those who need it to improve and provide opportunities for the future	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Completely disagree for reasons indicated above, any reduction in teacher/ pupil contact is only reducing, particularly those from lower income households chances of full potential for educational attainment.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	The move to "not change the school day" only serves to move schools into childcare providers rather than educational establishments.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Alternative learning experiences can also contribute to raising attainment and achievement.
Modernising our council	1F Restructuring the School Day	There are far better areas to cut money from than anything to do with cutting the school day. For a start let's stop leaving lights switched on on the outside of closed schools (e.g. Carmondean) particularly as they are surrounded by high fencing and locked gates.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This is an unacceptable cut in the extreme. This will lead to a second-class education in West Lothian primary schools with 95 hours of school time lost, every year, going forward! That is an utter disgrace! ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	No Is this some sort of joke. Reduce the number of EOs, protect the schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Education Officers make a significant contribution to quality improvement and raising attainment.
Modernising our council	1F Restructuring the School Day	Exam procedure - how would the grades be better if they are not getting the taught teacher experience?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	By reducing the timetable to 22.5hours from 25 hours will have significant impact! It will put pressure on my child's class teacher to fit more of the curriculum into an even shorter period of time each week, which will compromise quality of lessons. This will also ultimately make "specialist" teachers redundant, for example, P.E., music and art specialists which provide specialist input beyond the training of a normal class teacher and enrich children's experiences at school. It is also important for children to experience a number of different adults, teaching styles and personalities in any given year.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As stated above in my answer to 1D I do not support the use of third party provides in the education of my children and expect high quality teaching experiences from qualified teachers or specialist teachers that follow and fully understand the curriculum. My children are at school for education and not childcare. This restructuring will ultimately result in less teaching time from qualified teachers, meaning the have to try and squeeze more into already over crowded timetables.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This requires considerable consultation as you don't want to de- value the role of the teacher	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	I feel teacher contact time should be maximised as far as possible	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	I think this is a terrible idea to reduce pupil-teacher contact time. Time with a teacher is crucial to children's attainment and whilst there will be some children who's attainment does not suffer, there will be many who do. Why would you select to do something which would have a negative benefit on a generation of children who did not cause our current problems. They cannot vote here and their voice is limited. They should not be the ones to suffer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Why is EVERY cost cutting effort towards the people who need our help most ?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Not convinced by this at all. We send our children to school to learn and having more time watching TV shows on the Internet or using ipads is NOT delivering a high quality of teaching or education. It's likely some of these kids do that at home anyway and so quite rightly the school is there to help educate the kids. It's ridiculous the 1/2 day on a Friday as it is - how do you expect parents (mainly women) to be able to go back to work and get a decent job???	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Terrible idea. This will fundamentally reduce attainment as pupils lose class contact time. West Lothian already runs an asymmetric week where savings can be made on the Friday afternoon.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	There would need to be something in place to make sure the children were doing the learning they are suppose to be doing. With no teachers some kids to fall behind.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	If teacher - pupil time is reduced but the time children in school remains the same - who will be teaching the children? I find this proposal very concerning. How is reducing teacher time going to close the attainment gap?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	To suggest that the same curriculum can be taught fewer hours per week is simply ridiculous. If we want to raise attainment - which the council has mentions as an achievement in the above post - we should be ensuring we make no changes to the amount of time that children spend with a qualified teacher. In fact greater attainment would come with more time spent with staff, smaller numbers in classes etc not the reduction in time which is being suggested here.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	The Scottish Government has created a curriculum detailing all the things children should learn during their time at school. The time children spend in school is filled with learning - there is no extra time. As a teacher I can tell you that some areas of the curriculum are not covered at the moment because there is simply no time.;;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Our children need more teaching time to make up for the Covid deficit.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	less pupil teacher interaction can only serve to affect childrens ability to learn. pupils need support and supervision i cant see where less interaction and reducing the time spent in school can have a positive impact on education	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This is a disgusting proposal and I will protest outside the civic centre if this even dares to be seriously suggested.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	I also believe that this 2.5 hours is currently covered by specialist teachers who will now be made jobless and the children will miss out on key learning from such teachers. ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Removing 2.5 hours of learning time from the classroom every week is absolutely disgusting.;;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This is outrageous and cannot be allowed to proceed.;;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	More information is needed in order to comment on this in relation to "alternative learning experiences". Teacher/pupil contact time is important to help children attain results and prepare them for the challenges that adult life brings about.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Disagree, as pupils have already missed enough school due to covid. Senior pupils, who are sitting national qualifications, already don't have much extra time to complete the full range of material, especially in higher/advanced higher qualifications.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for .your comment,
Modernising our council	1F Restructuring the School Day	This is a bad idea in my opinion- in order to achieve good education standards in West Lothian we need more pupil/teacher time not less. School is not organised babysitting.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comments.
Modernising our council	1F Restructuring the School Day	No reduction in the school day is acceptable to LLBCC. This is a dilution of the quality of education children will receive by substituting qualified professional educators for those less or un qualified. That is not acceptable under any circumstance to LLBCC.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Appauling to consider reducing teacher/pupil contact time and dilute their educational experience at any time, but particularly after Covid.;;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This sounds like a reduction in teaching staff. I would question how we could ensure that other services are going to be able to provide 2.5 hours of provision for every class in every primary school in West Lothian. It doesn't sound like this would be required in secondary schools but again I would question the ability of secondary schools to provide the additional services they offer to young people if every member of staff has less time to carry these things out within their working hours. Is the plan to remove 'registration/tutor'?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Increase the 22.5hrs it appears very low.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	It is in my opinion it is essential that children receive the best eduction that can possibly be provided. Which in turn will mean a future of amazing opportunities for upcoming generations. Contact with their teacher is paramount to this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	I am concerned that my children will be losing teacher contact time and also that they will be offered 'alternative learning experiences', which to my mind seems to suggest babysitting rather than learning time. Where is the money coming from to offer these alternative experiences?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Messing about with school times and reducing hours is madness. You might save some money but your effective the learning of that child and your hitting family who then have to fork out more money for care.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	Extending primary school days could be a major help for parents who may struggle to handle their jobs and childcare. I do not think a reduction in secondary school learning will have any benefit, pupils have so little time with teachers as it is I feel a reduction in this would be detrimental to many	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Omg, this is unbelievable, I've worked in education and pupils don't get the amount of teacher support they need because of large class sizes.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Teacher time at school for students is what it's really about I don't see how cutting the teacher time with kids would benefit any one, kids have missed a lot through no fault of their own during recent times, it seems unfair for them to miss out on time with the teachers while their school times remain the same	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Very poor decision. Supply is in such short demand that a lot of schools are covering RCCT in house anyway with teachers who should be doing ASN of who are SLT. How is this saving any money? Who is covering this extra time? Where are they doing it and who is planning it? Really not well thought out at all.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	How will the curriculum that already is overloaded be completed in a re-aligned day? How are these times of non class contact be covered? What should be dropped from the timetable to allow this to happen. Teacher's timetables are already overloaded with content that there can't be much more of a reduction in class contact time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	class contact time is important and should not be shortened. the pupils need to be supported more after the recent events of covid lockdown.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This is moronic, I wish I could be more constructive, but I genuinely can't. People have been paid money here to come up with the idea that kids should have less time in front of a teacher? Have a word. Which other authorities would this bring us in line with?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	How can you suggest this with the amount of teaching that children have already missed over the last two years	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1F Restructuring the School Day	Surely, after 6months of lost learning, reducing contact time with teachers is nonsense. How do we expect the attainment gap that has widened with covid to be closed with this approach?; I send my child to school to learn from qualified professionals in teaching. I do not think babysitting with a non-teacher who gets paid far less is conducive in preparing people with skills and mindsets needed to cope in society.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This is such a bad idea!!! It beggars belief. Less teaching time but striving to increase attainment. It won't work	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Concerned re reduction of secondary time - young people rely on the support of subject specialists to support them and be successful.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Children need more support than ever. I disagree with cutting that time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Some children need a lot of teacher contact this would have to be assessed on a child to child basis	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reduction in teacher/pupil contact time achieving the same educational standards? Why doesn't WLC just admit that a saving of £2.4 million for this will just adversely impact learning?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How bad can things get?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. Modernising our council	1F Restructuring the School Day	Reduction in teaching time is not acceptable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing teaching time is hardly going to help improve standards in education, which are already pretty bad (even without the impact of covid lockdowns and strikes).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I am uncomfortable with children having reduced teacher/contact time. They are already behind academically as a result of covid and other issues. Children's education needs to be prioritised.; ; The secondary school week is already very short, particularly as there is no school on a Friday afternoon. It sounds as though this proposal means that break/lunch times will be extended by 50 minutes each week so there would be even less learning taking place in schools. If we are to look at local authorities, then Stirling, Falkirk & Fife pupils are in school for 5 full days (no Friday half-day). If the full 5-day school week was in place in West Lothian, this would have a beneficial impact on the job opportunities for parents as they wouldn't need to rely on part-time work roles/after school clubs and families could have higher incomes which in turn would benefit the local economy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As above. Cuts are all detrimental to children a education which has already suffered. Find cuts elsewhere or you will increase inequality and cause hardship.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Terrible, don't agree, children need proper teaching as it is , they already have a half day on a Friday, with reduced hours, which doesn't happen down south	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	My concern about reducing teacher/pupil contact time is again for those who are the most vulnerable and need this support more than others. Changes like this need to be backed with evidence of how our more vulnerable will continue to receive the appropriate amount of support. Will issues such as Ld, dyslexia etc remain unnoticed and unmanaged.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It is already extremely challenging to deliver the crowded curriculum within the school day. The additional hours covered by RCCT teachers enable all curriculum areas to be delivered. The expectation that all curriculum areas can be delivered with less teacher time is unrealistic.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I send my child to private school as you have decimated education. Cutting contact time is another way of saying reducing headcount. Yet again wrong answer	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Utterly shameful to provide the children and young people of West Lothian with a reduced amount of time with their teachers. It can be spun in any way you like but this is not how attainment is raised!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I'm concerned about primary pupils not having access to a teacher for some of their learning.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	TERRIBLE IDEA!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	THIS IS A TERRIBLE IDEA FOR MANY MANY, MANY REASONS!;;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The children are still learning during the 2.5hrs that the class teacher has RCCT time. They're just being taught by a different teacher. Whether that be science, RE, music or PE etc, they're are still learning. There is little enough time to teach everything in the curriculum and now you're going to reduce it by 2.5hrs. This will definitely impact the children's learning.;;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Completely disagree. Our children have missed enough teacher time in the last few years and with a jam packed curriculum that is already hardly being met this would have a major negative impact on outcomes for our children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who would be with the children if teachers are not? I have concerns about how this would be delivered to ensure children are safe and that their care and learning is not negatively impacted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No. Children need the valuable teacher contact time. Quality alternative learning experiences could not be provide by non-teaching staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I believe this would have a significant impact on the children in our Local Education Authority. 2.5hours per week over a year will significantly impact on them. With an already full timetable, many subjects (and, thus, vital skills) will be lost or not learnt. I also believe it will impact on children's literacy and numeracy skills. They will also have no time to learn vital skills for life/for the working world. Children deserve to be taught by a qualified teacher.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not sure this would being secondary school pupils best interests every minute spent being supported encouraged and taught by teachers is vital	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would be deeply concerned about a reduction in teacher/pupil contact time. RCCT gives opportunity for children to be taught by specialist teachers and other teachers covering different areas of the curriculum. I wonder which part of the curriculum would be proposed to be dropped if contact time is reduced and what the alternative experiences provided would be?; In secondary this would be the equivalent of a period of one subject being lost entirely. With the crowded BGE curriculum this would further reduce time for each subject and surely in the senior phase would lead to challenge covering the required curriculum in advance of national qualifications. ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is ridiculous! RCCT teachers deliver important lessons to our pupils. It would mean the class teacher would have to pick up the slack when the curriculum is also jam-packed! Our young people will miss out on very important learning time. This should not be implemented!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Terrible idea. Won't sit well with staff, pupils or parents. There are so many pupils who are ASN or have behavioural needs who will not cope with this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	This would mean that children would receive 2.5 hours less teaching every week. This is huge over a child's school career and would be detrimental to their learning. This also does not help to working families with childcare difficulties.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. School start and finish times will not change so there will be no impact on childcare.
Modernising our council	1F Restructuring the School Day	As a teacher who provides the class cover for the hrs above class to her contact time I think this is not a good suggestion. I have specialist knowledge and provide a much greater learning experience for children than anyone not trained to this level. Who would coordinate this ? Where will you get these individuals - usually they need to take smaller groups so how do we facilitate that in school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	A reduction in pupil and teacher time is a terrible idea	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not believe that less contact time between pupils and teachers will have a positive impact on attainment especially considering lots of national qualification courses are already difficult to deliver timeline wise during the academic year. This would mean the pace of learning and teaching would need to greatly increase or that pupils would have less opportunity to take an active part in their learning with more direct chalk and talk lecturing needing to take place to make up for the loss of time which is contrary to all leading teaching pedagogy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Terrible. Pupils already miss out on hours. The school day should be longer, not shorter.; For many, it is the only safe place they have and you propose chipping away at that. ; ; This also sounds like you plan to rob primary school pupils of their current plethora of activities and subject specialists. Standard class teachers cannot be expected to teach to the same levels of learning and engagement as a subject specialist in music or art, for example.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Don't believe the adjustment needs to happen your then only condensation education at high school level which is the most important years for children to go on and get jobs. Do this your going to be paying more benefits out to those who suffer from this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Will the remainder of the time be with a qualified teacher or are children going to be short changed with what will result in a baby-sitting service? Are the terms and conditions of teachers going to be changed and has proper consultation been undertaken by stakeholders? If the school day is being reduced in line with teacher contact time will this not put added pressure on an already busy curriculum.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Again how does making the secondary school day shorter ensure that we raise attainment?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I don't believe this is in the interest of our school pupils as it is a reduction in teaching time. What exactly would these 'alternative' experiences be as I assume this proposal means it is not with a qualified teacher? How would this impact the subjects available to secondary school pupils?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	If children are in school but not with their teacher how do they learn? Children should be with a teacher given the amount of time they have already lost to covid. I do not agree to the secondary time being reduced either and would ask what the children will be learning in this time without a teacher.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As mentioned one of my children struggles with change and adding additional adults to his day will cause upset and distress. I would disagree with this point to prevent him and many others further upset.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Without further details, especially primary schools I am not sure that it is possible to comment on this. I assume that the reduction of 50 mins in secondary schools would be an extra 10 mins at lunch or an extra break. 50 mins over the course of a week may impact on attainment for some.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I refer to my earlier comment, no cuts to education.; Absolutely not, our education services must be retained to ensure our young people have the right support in pace to ensure they receive the education they need to succeed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	By reducing the school week we would be cutting time for teaching content. At the moment we are limited and rushed, so reducing this further will put more pressure on teachers. Preparation and correction time was supposed to be, being increased by the Scottish Government but I never realised it was to the detriment on student time in lessons.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is utterly ridiculous - why follow in the steps of the English system that is no role model? This devalues the role of the teacher and places far too much responsibility on the shoulders of people who do not/will not be paid appropriately for the additional responsibility.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Young people have suffered enough since the pandemic. They should be supported with additional funding to catch up with lost learning and to close the attainment gap. Reducing teacher contact with pupils can only have further detrimental effects on young people's education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Not quite sure if this would be in the pupils' or teachers' best interests - alternative learning experiences presumably would not be on the ever increasing curriculum. 2.5 hrs usually used to teach within the curriculum would be lost thus increasing u due pressure of time to squeeze in the curriculum. Very dubious about this, especially with the undertones of reducing RCCT teachers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Secondary schools are still recovering from a loss of learning due to covid, so to reduce teaching time seems ridiculous. I have no idea how primary schools would fulfill the curriculum with less face to face teaching time. Without knowing what an "alternative learning experience" is, it is impossible to judge the validity of this proposal.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Again, School resources and staffing are already stretched to capacity. Reducing this will impact on the education of all children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Any reduction in the school week for children will have a detrimental impact on the children's education and well being	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would not agree with any reduction in school time. Schools need to get back to basics and teach pupils the fundamentals in life, eg how to make a cup of tea, make a simple meal, launder clothes, ie Home Economics. Young people joining care as a career often do not have these basis skills.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Once again teacher skill and expertise aren't valued by you. Do you really think parents want their child 'babysat' for part of their school day rather than taught by qualified teachers. I most certainly do not as a parent! We as teachers are stretched trying to fit the curriculum in as it is but RCCT teachers hugely help to fill in gaps. By planning to take them away you are devaluing the service provided in education by all teachers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is a ridiculous idea, the curriculum requires to be followed and although teachers only have contact for 22.5hrs they work together with the RCCT teacher to ensure all areas of the curriculum are being met and the needs of each individual pupil. Also its good for children to experience a little change especially in primary and when they move up to high school they have all the different teachers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How? Children are entitled to be taught by a registered teacher.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	Need more teachers in order to do this and provide an agile curriculum. Subjects at some schools being cut because of staffing which is not good enough. Teachers need time to plan lessons	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There needs to be much more clarity around what this would look like and the impact it would have on children. What does west lothian council mean by an agile curriculum and what evidence is there that this has been delivered consistently to impact on attainment? Our children deserve a high quality of education, delivered by qualified professionals. I would strongly disagree with this being diluted to meet a council budget. Our children deserve better than this and have already lost enough learning time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Any decision made about children's education should be based on potential educational benefits rather than budget- I see no educational benefit in this proposal (continuity of the primary teacher does not necessarily mean a benefit to teaching and learning).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I wholeheartedly disagree with this proposal. What is needed in schools are additional pupil support workers to work alongside class teachers and visiting subject specialists for primary schools such as PE specialists, art and design specialists and music specialists.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Would this mean using non-teaching staff to 'supervise' lessons of extra play-time? These staff members or third party contractors are not paid enough for this sort of responsibility. School will turn into childcare rather than education with this kind of model in my opinion.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This would have a massive impact in primary schools where young children need more support, this will absolutely have a detrimental impact on attainment and the life chances of our children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How can less targeted teaching time away from their teacher support children's attainment?! ; Provide schools with better resources to allow teachers to do this in primary schools: cooking facilities, wood work, outdoor garden opportunities. Or further budgets for trips away to give children invaluable learning experiences.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I am a secondary school teacher. I am struggling to visualise what the 50min reduction in the school day would look like in real terms.; ; Would it be something like an increase in lunch break by 10 minutes each day? In which case this would disproportionately affect support staff who have their lunch breaks unpaid.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	It is imperative that teacher pupil contact time is not reduced. The impact of losing this teacher pupil gave to face contact cannot be underestimated in terms of children's attainment and health and well being. This has to be taken into account.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How will this work? What staffing changes will have to be made? How many different faces will these pupils see over the course of a day? Children with additional needs are really going to struggle with so many changes. If a move to digital learning is proposed then appropriate internet must be provided to all schools as well as upgrading all ICT devices.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Please see previous comments about reducing school related budgets. ; ; One again, children and young people deserve the highest quality of education, provided by qualified and trained teaching staff. Teacher numbers in some areas are in crises and retention in some schools - particularly ASN - is an ongoing challenge. Staff rotation again already presents huge challenges. Reducing teacher numbers will only result in a crises where there are no available teachers to cover absences etc. If there are no RCCT cover posts then children and young people will suffer. You cannot rely on non trained and qualified - non teaching staff - delivering a curriculum. Please see previous comments in relationship building also. ; ; This is an unsound and very unwise proposal and will only result in reduced attainment and a failure to meet the commitment to combat the pupil equity related attainment gap.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I'm struggling to see how this would work. If length of school day will not change are children going to be supervised by support staff to facilitate reduction in contact time? Where are these staff going to come from? Further strain and stress on an already broken profession.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing teacher/pupil contact time is not a good proposal. You have not mentioned what the alternative learning opportunities would be. Who would lead these? Would they just be "time filler" activities?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This will only put even more pressure on teachers for attainment and unfortunately goodwill can only go so far. It would be unfair to continue to expect teachers to go above and beyond what they are already doing which is still so so much.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing the school day in line with teacher class contact time is a terrible idea. It is currently extremely difficult to provide 2 hours per week of quality PE time as per the national entitlement of all children, as well as providing adequate time to fit in enough literacy and numeracy learning, not to mention the 13 or so other curricular areas that we are obliged to cover. The Scottish primary curriculum is so cluttered and unmanageable that teachers are completely overwhelmed trying to make it work. By reducing the school day so drastically, it would be impossible to achieve. Something would have to give. I worry for the future generation about the impact this would have on their education. ; ; As a parent to a child who is close to starting secondary education, I am also very worried about these proposed changes. What impact is this going to have on his education and life chances? Quite frankly, it is a horrifying prospect.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As long as it does not diminish learning, look what happened during covid, and how many of the pupils are behind in their learning. Teachers are now doing after school classes to help pupils try and catch up	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is a terrible idea. Pupils need continuity and third party coming in don't know what has gone on before. Teacher needs to be able to speak to parents about everything but they won't know what happens during third party times	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not agree with this. A few years ago, WL high schools stopped registration in the morning so that staff numbers could be reduced-this was detrimental to pupils as they did not have their constant check in from staff. Lots of young people, particularly those with anxiety and autism struggled without their 'soft start' to the day in registration. Every one of these proposed education cuts are detrimental to our young people. Young people have already had such a difficult few years in education due to covid. They cannot afford to have any more time reduced and changes at this time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Childten will learn best when their teacher is there in front of them, done can only learn this way. This proposal will harm children's education and make it about child care only. Especially negatively impacts those with asn. Why would you keep secondary children in school for the same hours, with 50 minutes less teaching time? There is no way this would be beneficial to teenagers!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The attempt to provide on-line learning via Agile Learning during COvid was not successful in a number of school communities, particularly those from more deprived areas. Many children from theses areas did not engage with any on-line learning during school closures. Whilst Agile Learning itself is very positive it needs appropriate input from a classroom teacher. If the council and the Scottish government are committed to reducing the learning gap decreasing in person contact with a qualified teacher is not going to help them achieve this aim.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Again children are being penalised by these changes. Children shouldnt be barring the brunt of the savings required. Less teacher contact time will reduce the childrens scholastic experiences. What would these alternative learning experiences even look like, how will this improve attainment, it seems to be just to fill in time sonyou dont cut the school day which is shorter here than other Councils already. What would be better would be if West Lothian schools ran the full week Mon-Fri approx 9-3.30pm as other schools as it feels very much that the children in this Council get less teaching than other Councils.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No do not agree. The length of time spent teaching is essential in both primary and secondary. Reducing the teaching time when teachers are striking and demanding more for less teaching, is confusing to me and I do not agree. I do not agree with teachers striking at all and demand more when funds are already tight.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Whilst the opportunity for alternative learning experiences for children is a good idea, this should not come at the expense of teachers. ; How are the children going to access alternative learning opportunities? Why get rid of teachers which cover these 'alternative learning experiences' when teachers are already delivering these experiences.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The "agile" learning approach is indeed being developed - but is precisely that - "being developed". There is still a lack of ICT equipment to deliver this fully and effectively. Many areas of West Lothian host families who have no devices or connectivity. This model is a long way in the future for West Lothian without further investment and scrutiny. Attainment results in terms of exams can be seen as robust and reliable. However, too many Primary school teachers professional judgement is being discounted and data mangled to suit the unrealistic target setting from the Centre. Talking truth to power - children in primary schools are between 12 -24 months behind - especially in areas of multiple deprivation.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I can't even begin to imagine the chaos that this will cause. Who will take the additional hours? Teachers are highly skilled at behaviour management. With the best will in the world this can't be matched by psw or club leaders. Keeping children, who often don't want to be there, engaged is a skill. You will then lead a culture of opting out. It's a containment at best and potentially very damaging for education going forwards.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Individual teacher class contact time is 22.5 hours however the above statement is misleading. The pupils in West Lothian schools receive 25 hours a week of learning being delivered by a GTCS registered teacher. What the proposal actually means is that West Lothian Council are reducing the number of hours a pupil in West Lothian will have being taught by a registered teacher! These alternative learning providers are not GTCS registered teachers. How are teachers then meant to deliver the curriculum, which is already extremely busy, in reduced class contact hours? As these alternative learning providers are not GTCS registered they cannot deliver the curriculum. This proposal means that children in West Lothian are at a disadvantage with other pupils in Scotland who are being provided with 25 hours of GTCS registered teaching a week, equating to 95 hours a year. Teachers are repeatedly told to make every minute count by SMT and West Lothian Council however it is then okay for the council to remove teaching time. The United Nations Rights of the Child states that every child has rights 'without discrimination of any kind', this proposal discriminates West Lothian school pupils significantly against other pupils in other local authorities within Scotland. If this proposal was to go ahead this would mean 2,660 hours lost by West Lothian children over the course of their education through primary and secondary school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Don't agree - we should not be reducing teacher/pupil contact time depending on class sizes some pupils can be left behind or certain work is not completed due to time constraints and pressures that teachers currently face	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not agree with this. Reducing teacher contact time would be detrimental to children's learning.; There is also no mention of what the opportunity to provide alternative learning experiences are. ; Personally I think Parents would overall be opposed to this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	No don't agree kids need more education not less remember they are the country's future	2. Modernising our council	1F Restructuring the School Day	Although it says the agile learning culture has been Developed. This is not happening in every school with whole school groups unaware of this term. Teacher/pupil contact time is highly important. "Alternative learning experiences" devalues the role of the teacher. People who commit an incredible amount of time of professional development, life long learning and strict standards.	2. Modernising our council	1F Restructuring the School Day	Teacher & pupil contact time should not be reduced. When teachers are late for the start of a class, or a substitute teacher is required, or you are told at Parents Evening that there may not be enough time to complete the syllabus..... this tells me that Teacher Pupil time should be increased - not reduced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How do you not change the length of the school day if teacher is not teaching who is staffing this and what would it be.; How can cutting teaching time benefit our children covid had meant they have missed out a lot already on education, social relationships etc.; Some children need school due to the home environments they live in.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing teacher contact time is one of the worst things the council could cut. A teacher is a hugely influential and important person in a child's life. Their role cannot be underestimated. They can literally change the course of a child's life. They encourage, they guide, they notice problems and find help for the child. Technology is no replacement for a teacher. Technology does none of the above and it does not respond to a child's needs in the way a teacher does, no matter how sophisticated the technology.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This sounds like it will impact on learning opportunities and attainment.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Modernising our council	1F Restructuring the School Day	I think that this proposal leaves many questions unanswered and is quite unclear. What exactly are "alternative learning experiences" and will these be as valuable to our children as the experiences they currently receive (usually lessons delivered by qualified, GTCS registered professionals)? If we currently cram an ever expanding (and increasingly unrealistic) curriculum into 25 hours, how will we be expected to do the same in 22.5 hours, while also raising attainment? If the council expect results from their teachers and young people and continue to develop a data / attainment driven culture, which induces an incredible amount of stress and pressure, then they need to provide a more clearly defined proposal than this. Young people deserve high-quality education at all times and teachers deserve their NCT, in the knowledge that their pupils are being properly cared and provided for.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Will this result in reduced staffing levels in schools? A decreased focus on 'non-academic' subjects? I can't see how this change could possibly benefit students in secondary.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So less time with any structure and kids on their phones turning into zombies	2. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again I don't see how reducing money to the schools is of any benefit!, so many teachers simply leave, leaving kids with teacher job shares, or no teachers at all! Attracting the best teachers and retaining them should be where money is spent	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Why? What good would this do? Kids are already running riot. S1 are vaping in school bathrooms. Some school have kids dealing drugs in the playground (I know this my kids are at these schools!); By reducing time teachers are around will increase the issues already present .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	If you are going to reduce the amount of teacher pupil contact time then reduce the school day and send our children home to have that time with family or extra circular activities outside school. I do not agree with sending my children to an education setting where they are choosing to substitute good teachers for screens or technology. Children do not learn by being sat in front of the screen whether it be, iPad, TV, Internet etc and the recent policy's for teachers in WLC in-service days supports the alternative of getting kids outside, getting them involved etc rather than screens. Sitting in front of a screen is clearly a contradiction to pervious policy's from WLC and most worryingly a huge deterrent to our children growth and development. Teachers are professional educational specialists and the use of technology or screens cannot replace that vital student/teacher role. A screen cannot nurture, technology doesn't explain the way a teacher can, technology cannot model their approach for the individual. Our young people are going through a huge crisis at the moment and are exposed to excess amount of screen time, which is causing a huge mental health crisis. Let our children come home early and have positive experiences at home rather than filling up the school day with absolute nonsense. I can not reiterate enough that you can't replace teachers with technology - children learn from being encouraged, lead, praised and being absolutely surrounded by real learning experiences, rather than something that is on a screen.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The Council has well established practice of supplementing excellent classroom teaching with effective use of technology. The two are complementary, rather than alternatives.
Modernising our council	1F Restructuring the School Day	I do not agree with sending my children to an education setting where they are choosing to substitute good teachers for screens or technology. Children do not learn by being sat in front of the screen whether it be, iPad, TV, Internet etc and the recent policy's for teachers in WLC in-service days supports the alternative of getting kids outside, getting them involved etc rather than screens. Sitting in front of a screen is clearly a contradiction to pervious policy's from WLC and most worryingly a huge deterrent to our children growth and development (of which there has been numerous research on and evidence).; ; Teachers are professional educational specialists and the use of technology or screens cannot replace that vital student/teacher role. A screen cannot nurture, technology doesn't explain the way a teacher can, technology cannot model their approach for the individual. Our young people are going through a huge crisis at the moment and are exposed to excess amount of screen time, which is causing a huge mental health crisis. Let our children come home early and have positive experiences at home rather than filling up the school day with absolute nonsense. I can not reiterate enough that you can't replace teachers with technology - children learn from being encouraged, lead, praised and being absolutely surrounded by real learning experiences, rather than something that is on a screen.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Absolutely would no support this measure. After Covid interruptions, especially for our youngest pupils, reducing access to trained professionals is dangerously harmful.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	Pupils have already lost out due to lockdown and further reductions in their hours will only lead to more learning loss. Those times in primary with a specialist music,pe, maths or other teacher are vital for them developing their learning and also allows in transition between primary and secondary to be smoother and easier for all pupils. In secondary pupils are already struggling to complete their courses in the time given for senior phase and reducing their hours will have a missicely negative impact on learning.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Modernising our council	1F Restructuring the School Day	Again taking away vital educational input for each child resulting in poorer standards! This cut in the long run will have a huge effect on our future work force.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not think any changes to the school day should be made. We need to make sure teachers are able to teach their classes and would not benefit the children to have different staff watching them all the time and do not see how reducing teacher time would help kids catch up on their education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Strongly oppose. This is a deliberate undermining of the role of teachers. Pupils receive qualified teacher support when clad teachers are having non contact time. This proposal aims at replacing the PE/ Art/ Music teaching with unskilled low quality provision. This is not compatible with a drive for improvement in learning experiences. No!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal. Modernising our council	1F Restructuring the School Day	We are concerned that any changes to support staffing will disproportionately impact those who; are already disadvantaged, which would undermine the goals of inclusion and equity;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	; ; We are concerned that changes to resourcing will have a negative impact on teaching and; learning;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	The high value of this saving implies to us that it is likely to lead to a reduction in overall staffing; levels with a resulting impact on curricular provision. The loss of any support staff is likely to; impact wellbeing significantly, and we ask that this there is no adverse change to pupil support.;	2. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Blended learning is fine in principle but children in S4-6 need access to teachers and responses to their questions in a effective, efficient and timely manner.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Modernising our council	1F Restructuring the School Day	Disagree.; Theoretically, the teacher contact time is 22.5 hours per week. However, most teachers work every day until 5/6pm preparing resources, planning, participating in trainings, collegiate networking, working hard to do their best and meet the needs of our students.	2. Modernising our council	1F Restructuring the School Day	Offers continuity with what? ; I don't think this is a good idea as it moves towards childcare rather than education. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Our children deserve TEACHERS for their whole school day. In order to provide an agile learning cultured to continue the improved attainment results they need TEACHERS. I find this proposal completely unacceptable on all levels. I feel strongly that when my child, or any child is in school they should be learning with a teacher. It is completely unacceptable that my child could be in school to be ; 'looked after' by someone who is not a qualified teacher for 2.5 hours of their week. I do not see how reducing pupil - teacher contact time will provide any continuity for children as they will not be with a teacher and will be in the care of someone else - not clear who this will be! Why can they not continue to receive music or PE from the teacher who covers RCCT? This is not an acceptable proposal - OUR CHILDREN DESERVE BETTER.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. ARE THEY NOT ENTITLED TO THE SAME TEACHER CONTACT AS THE REST OF SCOTLAND?; DISASTER WAITNG TO HAPPEN.; This is UNACCEPTABLE ON ALL LEVELS.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not support any part of this proposal.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not support any reduction in teacher contact time. My children attend school to learn and develop from skilled professionals. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Your proposal is undermining the teaching professional and assume that as long as pupils are still being babysat by someone they will be continuing to meet the experiences and outcomes of the curriculum? I find this proposal absolutely shocking, particularly with the current exam results within West Lothian's secondary schools. I find it ABSOLUTELY DISGUSTING that you are looking to provide 'alternative learning experiences' without clarifying what you mean by this and hoping it goes under the radar and parents accept this as long as children are still in school. It is clear by this that West Lothian do not have the needs of West Lothian's children really at the heart of what they are doing. If you hope West Lothian to strive you MUST give education in the area more support, not strip it of what schools are already struggling through!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There are hugely negative implications on the children of West Lothian and the teaching profession. Teacher contact time is currently 22.5 hours per week but children have more time with other fully trained staff with degrees in Education, pedagogy of teaching children and specialists in music and PE for example (again, fully qualified to TEACH). By proposing the reduction of pupil-teacher contact time you are implying that the time pupils spend with other FULLY QUALIFIED STAFF is wasted time and can now be undertaken by who? Pupil support staff? Someone with a hobby in art? A gardener? The price for some sports experiences such as football buzz costs more per hour than what a teacher costs - a teacher who has trained through education Scotland and has GTC recognition - can you guarantee whoever you have to cover the 're-aligned school day' meets the GTC standards for education?	2. Modernising our council	1F Restructuring the School Day	Who would be teaching? Are they qualified? Are they at all appropriate people to lead students?; ; Teachers need support in the classroom, but not at the detriment of their (underappreciated & underpaid) employment.; ; This proposal is disrespectful to professional educators.	2. YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	This feels incredibly deceitful on your part. Teachers may have 22.5hrs contact time with pupils but for the remainder of the school week the children are still receiving their education from qualified teachers, often specialists. You are suggesting watering down our children's education at both primary and secondary level. Absolutely not. Parents will not stand for that. Horrified you'd even consider it frankly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So what you're saying here is that to save money you will reduce the amount of time that children spend with qualified teachers and instead fill it with 'alternative learning experiences'. I would suggest this is a terrible idea if as a council you are looking to increase educational attainment. Pretty sure there is a reason that children are taught by teachers currently. Again, for secondary school timings, reducing the amount of time children are taught seems like a short-term saving with a long-term detrimental impact.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Unsure why any parent would want their child to have reduction in pupil/teacher time? And how this would be saving such a huge amount of money!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Disagree now is not the time covid had a huge impact on kids ; ; Parents are not teachers we need more teachers . This would also impact working parents who would then need to reschedule work childcare	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would require more information about what this means. If the consideration is that support staff look after the children during this time, I feel this is inappropriate. Learning should be fully planned and implemented by trained teachers. If the learning experiences are by trained coordinators and it was a positive extra curricular activity such as digital, outdoor learning, music it could be an option. Information is not clear.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I am concerned that reducing the amount of teaching time will have a detrimental effect on teaching and learning. Altering the finely balanced timetable will not be straightforward at Linlithgow Academy, where there is no straightforward option of removing registration periods (there are none). It is not clear how this alteration would result in such a significant saving. If the day does get reduced in this way I would welcome a consultation about whether the extra 10 minutes per day are added to a break time, or through altering the start or end time. Linlithgow Academy is extremely full and reports from students make me aware that break times are crowded and can be difficult for young people: increasing the unstructured time at school may not best serve them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Our children deserve TEACHERS for their whole school day. In order to provide an agile learning culture to continue the improved attainment results they need TEACHERS. I find this proposal completely unacceptable on all levels. I feel strongly that when my child, or any child is in school they should be learning with a teacher. It is completely unacceptable that my child could be in school to be ; 'looked after' by someone who is not a qualified teacher for 2.5 hours of their week. I do not see how reducing pupil - teacher contact time will provide any continuity for children as they will not be with a teacher and will be in the care of someone else - not clear who this will be! Why can they not continue to receive music or PE from the teacher who covers RCCT? This is not an acceptable proposal - OUR CHILDREN DESERVE BETTER. Are our children not legally entitled to the same hours of teacher contact as the rest of scotland.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Although this is deliberately vague, it is apparent that secondary pupils would have 50m less of valuable supported learning compared to what they have already.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This causes me very serious concern. Children have lost out on education as part of covid and cutting curriculum time is only going to exacerbate the issue. How are our children going to have good job prospects in the future having had a poorer standard of education than any other generation?!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Agile learning is not meant as a way to save budget but to improve pupil outcomes. This is a miss selling of what is a beneficial approach. What will this look like in schools where staff are not up for this approach?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This sounds like an utterly terrible idea to me. Our school week is already short, would be illegally short in our developed countries, and making it shorter would harm the education of our children. It takes time to consolidate the learning our young people are doing in Schools. I work at the University level where we expect our students to take information from one hour lectures and then spend several hours of personal work to consolidate the information however this is not appropriate at younger ages. This would increase the attainment gap between rich and poor households where the increased study at home available in some households will become increasingly valuable to young learners.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not agree with the proposals to having children taught by anyone other than a trained teacher during the class teacher's agreed NCCT	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Agile learning is not an excuse for reduced teaching	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	In other words less class time and longer lunches - prioritising schools as child care not for education. This will damage children's prospects & limit the curriculum yet further	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing the secondary school week can only be achieved by reducing the number of subjects studied by a learner in the senior phase. Fifty minutes equates to one period; delivering National courses for S4 in particular in the current time available is already a challenge, causing staff and learners stress. Reducing this further will have an adverse impact on health and wellbeing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The GTCS was established to ensure that the teaching workforce was of a high quality. Replacing fully trained and registered teachers with those who are not as part of the regular provision for learners will lead to a decline in standards and attainment.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This may not be best approach for every child and family	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I don't see how reducing time with with teachers will have anything other than a negative effect in pupil learning. Dies reducing teaching time mean the same curriculum being delivered in less time? If so this is more pressure on teachers and will affect quality of curriculum delivery.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Would a councilor like to explain how the attainment gap will be bridged in many schools in West Lothian with lest teacher pupil contact time, ludicrous proposal.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Why in the name of God would you even consider reducing contact/learning time for pupils? Core fundamentals to be taught with face-to-face actions with the teacher is a must, no way should young people be put into this position. Furthermore, they missed enough during pandemic times and need further uplift to help bridge the gaps that still exist today.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No! No! No! 'Agile learning?!' Pah, more jargon. It doesn't even exist. You are fooling NO ONE. Do not reduce the school week. Our children are the future. Value education!!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I am concerned about the children's 2.5 hours being unstructured play with no learning.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again, a truly awful proposal which will negatively impact our young people and the education system.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again, turning schools into glorified child-minding services. ; So to cut down on spending on teacher wages, ie teacher numbers in general, the plan is to cut the amount of education our young people are going to receive? ; ; "Alternative learning experiences" delivered by someone cheaper than a fully qualified teacher presumably. And will there be exams on these alternative experiences with a qualification at the end of them? ; ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Staff cuts dressed up as improving provision	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I am so disgusted by this proposal! It is horrendous to suggest that our children should be sent to school and spend part of their learning time with someone other than a qualified teacher! We are so proud of our education system in Scotland, but this is a terrible proposal and suggests that the council views schools as a mere babysitting service! I spend some time teaching in England, and I was always so glad that Scotland did not allow non teacher to take lessons as they do there, the difference was very obvious and now I fear we are heading in the same direction. Our young people deserve an education system that is constantly striving for the best for each and every one of them and not one where the council, who is there to serve and provide for them, reduces their quality learning time with a professional qualified teacher to the minimum that they can get away with! There have already been cuts like this in nurseries where the need for a qualified teacher is no longer there. Our nursery is certainly the worse off for it. P1 and 2 are more play based and are and extension of 'Early years' does this mean that our teaching time in this area will be reduced?! My children deserve to have a professional teacher with them at all times throughout the day and I will not accept that a 'specialist' in a subject is as good as a teacher.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Reducing teacher to pupil time is an awful idea. This will affect how well the children learn. They already have to see real teachers a week and kids need consistency. Not scattered time with teachers. Stop cutting face to face time to provide other types of learning. Face to face teaching was massively missed during covid and has a massive impact on kids learning and confidence ! Do not cut face to face teaching time more than it already is !	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I am very concerned at the prospect of my children having less pupil/teacher contact time! If my children have less teacher contact time who will provide their education? Outside agencies who are not qualified teachers? Pupils already have extremely varied, valuable learning experiences provided by qualified teachers, this cannot and should not be replaced by outside agencies. My children are not in school for child care purposes, they are in school to be educated by qualified professional teachers. ; Schools have already cut back on providing quality music and art education in primary schools, we cannot take away any more quality learning from our children. This is not good enough, I am so disappointed in West Lothian Council that they would even consider our pupils being taught by under qualified individuals!!; ; In the secondary school pupils already only have a 30 minute lunch, how do you plan to reduce the school week by 50mins? Again very vague. Priorities are all wrong here. Our young people should be top priority.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is shockingly worded. Pupils gain valuable learning experiences from curriculum experts and are able to build important relationships with other adults in the school. These are extremely valuable things, especially considering the pandemic's legacy on these kids.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If you give the children less time with teachers is that not going to make more children struggle to pass exams?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	"Alternative learning experiences" needs to be specified. Again, losing more time with a teacher (trained professional) is detrimental to young people and would impact attainment in addition to teaching and learning. If "alternative learning experiences" are staffed by pupil support workers, this would be beyond their job description and their pay is already very low compared to their value. ; Furthermore, the curriculum as it stands, particularly within Social Subjects in Senior Phase at National 5/Higher level, is already challenging enough to fit within 1 year, let alone with a reduced school week. This would make delivering it more stressful and put more pressure on young people at a time they are facing a mental health crisis.; Additionally, the cut in hours likely have a significant impact on teacher workload. Workload is already a major stress for educators and impacts on their wellbeing and work/life balance as it is very difficult to get all planning, assessing and other tasks done in the current time. Reducing the hours would likely make this far worse, negatively impact staff wellbeing and could lead to a staff exodus or a stressed workforce, both of which would be extremely detrimental to young people, both in terms of their learning experience but also their attainment.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Where is studies/evidence that agile learning improves attainment? If any evidence, has this been done over a broad range of authorities, a significant range of time and where is the proof from educational researchers? From my experience, agile learning is not a positive way to raise attainment. The school day should always be covered by fully qualified GTCS registered teachers. Alternative learning experiences should be provided as after school clubs, not as an alternative to qualified teachers. Alternative experiences are not lead by people who have a deep understanding of child development, additional support needs or understanding of the curriculum. Trying to cover all the curriculum in a shorter space of time for fully qualified teachers is impossible in an already packed curriculum. This idea seems very detrimental to the young people of West Lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I absolutely disagree with this strategy, more than anything I have ever heard. I do not send my children to school for child care, or to spend time with a pupil support worker or a sports leader, I send them to be taught, by teachers. I should say that I am not a teacher. I can't express how disappointed I am that this is being considered as a plausible option.; ; I DISAGREE WITH THIS STRATEGY; ; ABSOLUTELY NOT WORTH THE PROJECTED SAVING OF £2.4mil	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not acceptable, especially given the amount of time the children missed during covid. To then reduce the teacher/ student time is going to continue to impact on our future generation.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	I believe teacher/pupil contact time is vital to provide a good standard of quality learning and should not be reduced. Should it be the case that the reduced time will be delivered digitally then I strongly disagree with this. Classroom assistants play a vital part of the learning experience for children and would hope less classroom assistants won't be part of the planned savings. Children no matter what age do not need less learning time at school. I also believe that the number of holidays during a school term should be reduced more so now due to the amount of learning time lost during COVID.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Why are you considering this?; This makes no sense what so ever. ; ; Staff have to be in the building for the same length of time for less pay. ; If you are reducing support staff too, then there will be more issues at break and lunchtimes.; You can't reduce teacher/pupil contact time, rely on support staff to mop this up if you then reduce the number of support staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Any changes in this area should be proven to have no detrimental impact on pupils or should not go ahead. It's essential we give our children the best start in life and this should be a top priority for the council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I disagree with this. Class sizes are too large and due to this there is little if no one-to-one time. Stop schools having to purchase via council suppliers when it is cheaper to buy off the likes of Amazon or Asda.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How can you have no difference in time kids are at school but save 50 mins per week; Think the kids need as much time with their teachers not less ; The past 2 years they've missed too much ; Along with there's a flurry of snow schools closed oh it's too hot so we close the school ; Won't happen in any other job and teachers get paid plenty	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Categorically no, so WLC proposes to reduce teacher-student contact! Who will fund these "alternative learning experiences"? Again, WLC is increasing the cost to parents by stealth.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This restructuring will mean not only the loss of further job opportunities for teachers, but, additionally, a significant impact on the curriculum for the young people in West Lothian, particularly in primary schools.; Currently the 2.5hrs between a class teacher's maximum contact time and the 25hr pupil week is 'covered' by another GTCS registered teacher, providing high quality teaching and learning experiences for the young people. Any move to remove these high quality experiences with a GTCS teacher are unacceptable.; This will have a significant impact on workload – requiring class teachers to 'squeeze' even more into their weekly timetable whilst still attempting to raise attainment – but also significantly reduce those high quality experiences with staff other than the main class teacher across the week.; ; Secondary schools would have their week reduced by 50 minutes.; The consultation does not make clear exactly what the proposals will mean or look like in practice. The aim to keep the school day the same length, but with 2.5hrs or 50mins less teaching time, per week, means that a number of conclusions can be drawn...and none would appear to be beneficial compared to the current model.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I think this is a way of using less well-paid staff to be nothing more than babysitters. ; What alternative experiences are the children going to have? ; Children should be taught by qualified teachers for the entire school day.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Very concerned about what could realistically be offered during non-contact time in terms of continuity and alternative learning experiences in a cost saving culture. I am both a primary teacher and a parent and without further information on how this would work in practice I cannot see how it would benefit pupils.; Who would cover the 2.5 hours a week pupils are not with their teacher? Additional staff? Is there budget for this? Management? They already have a huge workload. I am not sure what types of activities could be offered to fill this time that are planned, high quality learning experiences. Also concerned about the impact on pupil behaviour if there are longer periods of the day they are without their class teacher. ; Given the recent loss of school time in the pandemic it is also worrying to hear that it is proposed to reduce the time each week pupils spend with a qualified teacher. ; Also the 2.5 hours non contact time a teacher gets each week are usually used to teach pupils PE and /or expressive arts, perhaps with a specialist. If this goes then how can class teachers realistically be expected to teach literacy, numeracy and all of these other areas thoroughly in 2.5 hours less a week?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As long as children are being taught by teachers - non-teachers delivering core curriculum is not acceptable for our children. It's hard enough to fit the curriculum into the 25 hours as it is.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Losing qualified teaching staff is not acceptable. Children will not have the benefit of skilled teachers teaching them for all of their school day if 'alternative' are being brought in to cover	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Children need to get taught by a qualified teacher and should have access to this through the whole school day. The 2.5 hours should be with a qualified teacher not wasted learning time. ; Secondary pupils need to have qualified teachers teaching them and to endure success need a full taught school week.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	West Lothian has prided itself in raising attainment within the authority. If West Lothian is still serious about doing this and creating the best educational outcomes for our children then reducing teacher contact time with our students is not the solution!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	We have a very full curriculum which cannot be squeezed into any shorter period of time than the current 25 hour school week. The pressure on teachers to deliver the curriculum in 22.5 hours would be immense. I object to this proposal on these grounds.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I categorically disagree with this. Relationships are essential in schools and many of our children would not cope nor manage with this "alternative learning". Additionally teachers are already struggling to provide high quality teaching and learning whilst covering the curriculums breadth, in depth - taking away learning time with a qualified, GTCs registered teachers is unacceptable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Do not agree with the agile learning approach and, from experience of children in schools with this approach, the attainment level is not increasing, nor are the learning experiences improved!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	against, teachers need non contact time to plan for their lessons, lunch and break times should not be used for planning as they are not paid for these.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would have thought that teacher/pupil contact time was of paramount importance and should be maintained.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Why is teacher/pupil time being reducedkids need to be educated.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It is concerning that perhaps it would be putting money before education of our children and young adults.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Class teacher contact time is 22.5 hours per week but att primary aged children are currently entitled to 25 hours per week of teaching time. This is made up by using specialist teachers to give the children a rich and complete curriculum experience. Any reduction in this will result in West Lothian's children being severely disadvantaged to the total of at least 82 hours of education in a school year. This saving is not worth jeopardising our childrens' future for.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reduction of teacher/pupil time does not sound like a sensible approach, particularly where pupils from deprived areas or struggling pupils would be adversely affected. Don't know enough on whet experts say in this field but feels wrong.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Please don't reduce teacher time for children. Lots of children are still catching up post covid and lots of time out of formal education. Children need stability not more changes and less teacher time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	If this means using pupil support and wrap around to basically turn schools into care facilities and erode the number of teachers then it sounds pretty awful. Our education system is supposed to be the envy of many countries. This isn't the way to be world class.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There is not enough teacher/pupil time as there is without making it shorter.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The reduced timetable would mean that teachers have less time to teach the enormous curriculum that is ever expanding.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This again feels like a degradation of services so would want to know more	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There should be absolutely no reduction in the amount of teacher contact time. The standard of school education is woeful and to consider cutting this is unthinkable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Keep current arrangements	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Education is No 1 priority. The school day must not be restructured to reduce pupil/teacher contact time. Teach/yourself is not an appropriate suggestion especially for the less able who need more teacher support and direct supervision. Unless staff hours are reduced or staff sacked I cannot see how this will save money. More qualified staff are needed not fewer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Basically this statement means that the kids won't be educated at the same level for the same length of time as at present. Non teaching staff will be used to babysit kids till they've reached the required time which is wrong.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	A number of long-term, broad ranging and peer reviewed research projects show that one of the single most effective ways of increasing a child's attainment is contact time with a highly trained and knowledgeable teachers. We are incredibly lucky to have trained highly effective specialist staff to teach children and deliver improved school attainment through an agile learning environment in West Lothian Council. If we reduce the amount of contact time with these teachers, by reducing contact time to 22.5 hours per week and replacing this with alternative learning experiences in the remainder of this time, we will undermine the foundations of the aforementioned improved attainment results and agile learning cultures.; ; These very same research projects show that very little emphasis should be placed on homework for attainment. Should the alternative learning experiences be supervised whilst children have the opportunity to complete tasks set for them this would be comparable to highly trained professionals being replaced with supervised homework, which is not an effective means for increasing children's attainment. ; ; Furthermore, reducing the employment of specialist teachers who currently teach the remainder of the school week will lead to a huge loss of knowledge, skills and expertise which West Lothian Council has already paid to develop, train and foster. Doing so will lead to short-term loss of these individuals and the value they add to teaching and learning and long-term need to re-train other individuals to fulfil these exact same roles.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I find this part terrible. Children need time with a qualified teacher, not less! It completely devalues teachers and basically makes out that we are merely babysitters. The impact of lockdown is real and they certainly don't need less time with a qualified teacher.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No this is a terrible idea. Kids are not sent to school to learn from robots or technology. This will create a massive emotional and social anxiety for them. I wouldn't leave my children at home without an adult so why would they then be left in an unattended classroom?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Why are you changing their learning again! No stop! They have been through enough and need consistency and support not you taking their teachers away more!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Pupils have lost enough time with most struggling to catch up after the pandemic and the council things cutting pupil/teacher contact is a good idea.....; As a parent of a struggling primary 4 pupil this is an absolutely ridiculous idea!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I feel my children's learning would be affected by removing teachers out of the class for even a short period of time!! Children need teachers to provide their learning opportunities which will be needed for their long term goals.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No teacher contact time should not be reduced schools are actually in slightly less in a week compared to 30-40 years ago and there are more school holidays per year now than 30-40 years ago if alternative learning means again more technology then that is not the way pupils need the teacher human contact instead of the technology doing it all.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing school hours is not productive for education.; Many parents cannot afford after school care, this would be a drain on already increasing family finances.; It will also most likely have a negative impact on the level of education for children, leaving them trailing behind peers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. No change to school hours is proposed due to the impact on working parents.
Modernising our council	1F Restructuring the School Day	I send my children to school to be taught by a teacher - not a pupil support worker or coach.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would be against teacher pupil time being reduced. Being a parent helper in school that day goes so fast and trying to fit everything in is already a challenge. Some kids esp younger need time to work with teacher to learn, not put on a conveyor belt. Parents evening is example, 10mins is not always achievable to speak to class teacher esp if the teacher is new and has lists to say. I appreciate they have many pupils to get through but this doesn't always work	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I have two children at secondary and regardless of whether the start and end times change, to lose 50 mins a week is a lot of teaching time over the course of terms, given the amount of hours they have lost over the period of the pandemic. Our children's education should be a priority and I don't feel that reducing teaching time should be considered at all, regardless of whether it is online with other local authorities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	It's absolutely unacceptable to reduce any sort of teaching time from the current 25hr/week. Kids have missed great part of the last two years of pandemic and their education has suffered unchangeably. Pupils need quality learning time not a substitute of it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Children already struggle with lack of continuity of teachers and the high number of 'cover' classes disrupts teacher contact time in high schools. I would not be in favour of a reduction	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No impact to start and end time for Secondary Schools so this would mean extended breaks and lunch? Don't think this needed they need all the support they can get and with Twilight classes and study time through holidays to attend the school for exams. They don't need time reducing with the teachers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The reduction of teacher/pupil time is not a good idea due to the time lost through the Pandemic. Children need additional support,	2. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	For primary schools, reducing contact time is a terrible idea. We need our children to build strong and meaningful relationships with their teachers and this will reduce that.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is appalling. I have no issue in reducing the school week in terms of timing however reducing the amount of contact time with a teacher is a disgrace. This is going to further widen the attainment gap by the time children get to high school. Need to see transparency in what these other activities will be and how they will replace teaching. £2.4m savings here - take more from your management structure!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There should be Zero reduction to the amount of pupil to teacher contact time within the school.; We absolutely do not support this having had personal experience of the dreadful online schooling in the pandemic.; Our high school has already shortened it's day so kids leave school earlier than they used to. ; Teachers are paid to teach. Look for savings elsewhere.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is a terrible idea. Reducing the teacher pupil contact time only leaves the pupil at a disadvantage.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If this does not impact the teaching hours provided to the pupils it can only be of benefit. ; Pupils have lost far to many teaching hours over the past few years that they surely should not be loosing any more.	2. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I don't seeing how reducing learning time or time with teachers is going to enhance a child's learning especially children that need extra support in learning and all ready struggle	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Leave school days s they are	2. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There is a lack of clarity about what the 'alternative experiences' would be in this statement. If it is anything other than GTCS registered teachers delivering quality educational experiences to our children, then I would view this as a mistake. Our primary school curriculum is still overcrowded and to deliver this in fewer hours would just be impossible. We require more teaching staff to deliver what is required, not fewer, in order to press ahead with delivering quality education for our young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No idea what this means as you have not actually said what you will do. Significant amount of jargon. Plain English required. ; ; I do not support any reductions to educational services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Completely disagree. The standard of education has fallen over the last few years and if this proposal is introduced it will only further suffer.; Surely education has to be the highest priority	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How will the attainment gap ever be closed? The best people qualified to teach children are teachers. Coverage of the curriculum is hard enough without reducing the hours children are in front on teachers further. ; School can be the only safe place for some children and young people, a place full of there trusted adults! Changing this could impact mental health, attendance and therefore attainment.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Children lost out on 2 years of vital education and evidently do not have the life skills required to flourish in society. Literacy and numeracy skills are in constant decline. Reducing teaching time in the school day when half the curriculum is made up of nonsense classes is a ridiculous notion and detrimental to our young people and does not set them up for real working life for which a normal working week is 40 hours compared to contact teaching time of 22.5 hours	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. I remember when thus started, it was a half day Wednesday	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	I do not agree with this option at all. Pupils will have reduced contact time from qualified teachers, substituted with support staff for a fraction of the cost. I do not believe this is a valid option and feel the learning will not be of the same standard.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	NO!; Pupils don't see their teachers enough as it is. Teachers need support staff when required to allow teachers to teach without the interruption that children that challenge pose. ; Extend the school week to include a Friday afternoon.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Teacher pupil time is very important. It shouldn't be reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I think you've included a key point in your summary of this proposed change: "West Lothian has developed an agile learning culture and approach and delivered improved school attainment results and improved learning experiences for pupils" ... How do you expect us to continue to deliver improved attainment results and learning experiences for pupils with less resources? Value your staff and value your pupils - pupils also need relationships with trusted adults in order to thrive ... Cutting contact time, and therefore cutting staff, would have a significant negative impact.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Our children have lost enough schooling through no fault of their own Why would anybody agree to loosing an hour a week for our children ; The teachers are going on strike for more money next week we presume the savings would be achieved by paying them less ; Again who is going to be taking these decisions. Hopefully the parents will be consulted	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is a propped cut to education! Did the pandemic not demonstrate that proper teaching in schools is vital both for development of children's education and also social skills.; ; This proposal would have major detrimental impact on the development and well being of children in the future. If this goes ahead we will be failing future generations!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Absolutely disagree.The school is not a storage facility for kids when parents need to be at work. Children need to be provided with an appropriate curriculum and professional supervision throughout the entire school day.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This area definitely needs more investment rather the. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not in favour of this one especially as more funding should be coming	2. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Similar to my comments about reduction in staff in schools (pupil support and offices) my biggest concern would be the impact on mental health and well-being. With the right initiatives this may improve but if a reduction in teacher pupil contact time means an increase in technology led learning / self directed learning then other provisions must be in place to support this. Teenagers are already struggling post pandemic, I fear in our school anyway far too much time is offered to pupils to use their smartphones, my son tells me it's actively encouraged by some teachers. Where does the 50 minute school week time go then with no change to start and end time? Longer breaks and lunch I assume? Or a period for something completely different and creative from what we have today?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If the part of the services cut means take the essential classes from the children such as Physical education and Music- it may lead to have a big impact on the child's well being. To provide physical education is essential part of the child's education where can have an access to physical movement what some children probably not have any other time. Nowadays the children are at home and most of their time spend on the internet or television.; Therefore this is more than important to provide this at school. The same with music some of the children may not ever to have an access to learn on the musical instruments or learn to sing and participate in the social activities provided by school where they can show they're new skills. And I can keep adding more reasons if you want.; ; Well, I really don't like the idea of reducing the contact time with the teacher ,where is the overall point for that?; It means the children will have the shorter time for learning so they will spend the same amount of time at school but without learning?; That's sound like the children will be just somewhere around the school for 50 minutes and do nothing.; Does it sound right to you???	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Taking away from children yet again! Why are you targeting the vulnerable?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not approve of 50 minutes less teaching time. ; ; I do not approve of the removal of non contact time for primary teachers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Absolutely no! My son only goes to school because he receives help with his writing and reading. He is growing up in a European family and we struggle to teach him in English the way school expect us to do, if he doesn't receive support from his support worker he refuses to go to school. Kids need help, and more time with teachers as it is.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I find this suggestion perposterous - to simply reduce the amount of teaching being done!? I am strongly concerned that reducing the amount of teaching time will have a significantly detrimental effect on both teaching and learning. The priorities of this suggestion seem entirely wrong!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Teacher/pupil time needs to be maintained so the education of children will surely help them obtain as good grades as they possibly can .	2. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Disagree. Teachers need to teach - time spent in school with no teacher is a waste of time. Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As per our answer to 1D, it is vital that the current level of teacher/pupil contact - and also the length of the school week - are not reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. No change to the length of the school week is proposed.
Modernising our council	1F Restructuring the School Day	Absolutely not there is already too much change in a school day ; Kids need consistency ; What's wrong with one teacher all day Monday to friend ; I'm totally against this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As previous response this is likely to negatively impact students particularly at younger ages. Improving teacher to student support should be the target and not reducing quality of the learning experience.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I find this statement confusing, 're-align the primary school day', how? Teachers time spent with children is already not enough, I fail to see how attainment levels can be maintained or improved upon if teaching time is reduced. Yes, children need to have additional experiences but what would those be? Mental health of children also needs to be taken into consideration, the past two years has taken it's toll on so many young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reducing contact time is not an area where savings should be made. Contact time should be increased to support children learning. The length of school day should be reviewed to make it more friendly to working families, the early finish on Fridays is not helpful for working parents and limits many from being able to work more and contribute to local economy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is a ridiculous suggestion given the amount of educational learning school children have missed out on over the school closures during the pandemic. ; Secondary school children especially need their current teaching time maintained or i would worry about the impact on secondary school pupils exam grade attainment. ; School teaching time should be protected and this is a ridiculous suggestion for cost saving.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Completely against this proposal. Limiting teacher contact te would reduce attainment.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Under no circumstances should teaching time be reduced, The saving you propose to make here need to be found else where, education is key and is especially vital in poorer areas. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Utterly shameful and MUST NOT proceed. Cutting during a time of raising attainment and following years of pandemic disruption. And what will replace these 2.5 hours? Probably more playtime because there simply isn't the staffing to provide "alternative learning experiences" because, funilly enough, those staff are called TEACHERS!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It is not clear how reducing the school day (but also not reducing the school day!) is going to achieve savings? What is an 'alternative learning experience'? It is very sad to see that a huge chunk of savings is going to be made by targeting schools and education when they are already stretched beyond being able to function properly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Think it's poor after a pandemic that you chose to target the youngest people in our community who have suffered the most by reducing their learning time. Teaching on line is a poor substitute for actual face to face learning which these children will carry the effects of with them for years to come I wholly don't agree with this as they are losing out on valuable teaching time over the whole year allowing them to reach their potential and flourish	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	This proposal undervalues the importance of our children's learning opportunities and experiences. My 8 year old son is shy. He is in a noisy classroom of 30 children. When he needs help from the teacher he becomes anxious and can't get his words out. His teacher is juggling a great deal and doing her best. Cutting down on teacher contact will further reduce the opportunities for children to engage with their teachers. This is not a proposal that the council should pursue.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	I am concerned that reducing the amount of teaching time will have a detrimental effect on teaching and learning. Altering the finely balanced timetable will not be straightforward at Linlithgow Academy, where there is no straightforward option of removing registration periods (there are none). It is not clear how this alteration would result in such a significant saving. If the day does get reduced in this way it would be important to determine whether the extra 10 minutes per day are added to a break time, or through altering the start or end time. Linlithgow Academy is extremely full and reports from students make us aware that break times are crowded and can be difficult for young people: increasing the unstructured time at school may not best serve them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	I do not agree with this as you are again reducing the actual teacher to pupil time and this is very important. I agree technology had a great part to play in education now but contact time with the children is so important. Children are different and a one fits all approach will not work, it has to be adaptable to fit the needs of the child.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	Pupils need more time with teachers not less. This is a terrible idea and children will only suffer from it. What are the alternative learning experiences... Too little information and deliberately vague. More funding is needed not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	This is absolutely ridiculous! Cutting class contact time will have a detrimental impact on young people. Children require more pastoral care not less. Many young people are suffering poor mental health and well-being and require more support not less. This will do nothing to eliminate the attainment gap	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	I don't even know what to say...teachers are teaching pupils who want to study if there is problem with a child, and he can just leave the class and wonder around the school, no one cares and parents just receives a message. Children got more rights than adults and it is worrying part	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	No, this in no way benefits pupils or their learning. Funding gaps should not be met by reducing our children's opportunities and educational provision.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	It is. It clear exactly what this proposal specifically entails and what the impact would be on children and teaching staff. Teachers are under far too much pressure, they are exhausted and their time to prepare for and educate children should not be impacted. Our children are our future and the need the time space, commuted teaching and support staff and resources to maximise their learning. No cuts to education.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	It is unclear what this proposal means. If it means an extra 10 minutes of break some pupils may like that. However, we do not think it is good for several reasons. Adults complain that there was not enough face-to-face time between teachers and pupils but now you are saying it is ok to have less of this. The time lost from teaching will also likely get added on as homework. Some pupils do not manage homework as well as they do class time so this will not benefit them (the opposite). It is already harder for S5/S6 pupils to get face time with teachers and this could make that worse. If this all means that the teaching time is more rushed, then that will not be good for teachers or pupils. Also, some young people have a set routine, especially children with autism and this may disrupt their routines. (provided by Vennie Youth Forum of 10 young people between 10-15 years old, with their consent).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	Sounds like more time filling with reduced learning opportunities being guided by professional staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	Do not agree with restructuring school day. As a retired teacher I do not agree with restructuring the school day in primary or secondary which would reduce pupil contact with teacher on school hours. We are going down the league tables in national educational achievement France for example have longer school days than we have ..	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	I simply cannot understand this proposal. How can cutting teacher contact time save money (WLC don't set teacher salaries), so unless the proposal is to lose teachers, this makes no sense.; And cutting the number of teaching staff at a time when young people need greater support than ever is very difficult to accept.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	I don't agree with teacher hours being reduced. because kids need face to face teaching from trained staff. not class assistants or computers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1F Restructuring the school day	Do not have children of school age but if I had I would like more details of specifics before commenting if I would be happy or not.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	Does reducing teacher contact time work for the most vulnerable children or do they need to increase or have a different learning blend?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The proposal would apply to all children, but the significant additional support provided to some pupils with additional support needs or to address socio-economic disadvantage would remain.
Modernising our council	1F Restructuring the school day	Why do West Lothian Schools finish at 12 noon on Fridays? No other local authority is Scotland allows this to happen.	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian Council is not the only council to operate an asymmetric week.
Modernising our council	1F Restructuring the school day	What would the alternative learning experiences be? Would they not need to be supervised in some way? So, you have to employ more support staff? If you reduce the school week by 50 mins then at some point someone is going to suggest a further change to the start time and end time or the pupils are just going to disappear anyway.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The need for alternative supervision will be factored into the projected savings.
Modernising our council	1F Restructuring the school day	This is news to me as a primary teacher - were we going to be informed/consulted?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The respondent acknowledges that they have now been informed and consulted along with all other residents of West Lothian and employees of West Lothian Council.
Modernising our council	1F Restructuring the school day	I am a little confused at how this plan would work. As long as teachers are still able to get non-class contact time for planning and children's overall access to learning isn't impacted then I support the school week being reduced but I don't understand how this will be implemented in the primary school.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals, which will address these points.
Modernising our council	1F Restructuring the school day	What will the changes mean? What will be lost in the 50 minutes secondary school time a day? What are the "alternative learning experiences", and who is delivering them?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals, which will address these points.
Modernising our council	1F Restructuring the school day	I don't understand where the savings would be made? sounds like replacing time with teachers with time with support staff.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	I'd be interested in more information on this. How do you reduce school week by 50 minutes but not change start and end times. That is a whole period of learning lost at secondary school.	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Modernising our council	1F Restructuring the school day	How would you reduce the secondary school week by 50 minutes without changing the start/end times of the school day? Which subject would see the time allocated to it reduced to accommodate this? Would this change lead to an extra 50 minutes PPA for secondary teachers?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Pupils can benefit from activities and learning not involving direct hands on supervision by a teacher.
Modernising our council	1F Restructuring the school day	It isn't clear what you are suggesting here so impossible to support or oppose.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	If teacher contact time is reduced but the school day remains the same, who is going to be looking after the children and what will they be doing?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals, which will address these points.
Modernising our council	1F Restructuring the school day	Given the proposed cut to contact time by one hour which will hopefully be signed off by the teaching unions and COSLA as a whole there doesn't seem to be a need to rush this proposal as it will need to be revisited . Where will the extra time come from? Will this impact on the lunches of staff and students	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the school day	It would be very interesting to see what these models would look like before commenting. I have concerns about quality of learning by non teaching staff; specialist staff who are on permanent contracts; the impact on learning and attainment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the school day	Obviously you need to follow contractual guidelines for teachers, but your description of what you intend to do is vague.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	A lot more detail is required on current and proposed teacher working to understand what is implied here.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	"This would result in teacher/pupil contact time being reduced but with no change to the length of the overall school day" So, pupil centred learning ie let them teach themselves?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the school day	How does this save money if the day is the same length?	3. The respondent advised that they had no comment to make or posed a question of the measure.	It impacts on the totality of staff required across the week.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the school day	Would standards remain the same?	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Modernising our council	1F Restructuring the school day	I would need further information, but it sound like the kids would have 50mins with no great benefit to them.	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Modernising our council	1F Restructuring the school day	Would be interested to see how this would work - currently not enough information supplied to make comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	Don't know enough to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It is very unclear what will be happening in these times of non contact time therefore I can't comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	It is important to ensure that the youth in our community are able to access learning and are encouraged to learn and have experiences in school. If there is no reduction in the school day time, how are the savings achieved? Is the number of teachers reduced or how is this worked out.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Will this result in increased Childcare costs for working parents? If teacher contact remains the same in theory there is no issue. Concerned that other aspects of learning in the school environment may be impacted. What are "alternative learning experiences"? My child is already involved in a number of extracurriculars that provide alternatives to academic learning.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	My children only get 30 mins lunch time as it is so I hope you do not intend to cut their recreation and lunch time to reduce the school week by 50 mins. Reduce the school week by 50 mins but no change to the start or end times of the day? So reduce it for the teachers seeing as there's less pupils/teacher time but not for the pupils? I'm confused as to how you do this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	I am unsure as to what pupils would be doing during this additional time with no teacher contact.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What will happen to pupils during this reduced contact time? Teachers should be given this extra time but there are massive concerns about what will happen to pupils. There is already so much of the curriculum to cover what are the extra curricular activities? Are they appropriate?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who would provide the extra "childcare" with this saving?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I'm. It sure what the alternative learning experiences would consist of? I would need more information...	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Don't fully understand this juggling!!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	How would this look in practice? Would the period lengths be reduced in classes? Time is already very tight to deliver courses and reducing the time further would have an adverse impact. I would want more information on how this would actually be implemented and the implications of doing so.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	How can this save money. You would need to bring in and pay extetnal providers. Plugging the time gap....? The above does not outline ptoerly how this saves money.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This sounds good in principal but hard to comment on without more information	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Surely cutting teacher/pupil contact time would be detrimental to attainment outcomes?	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Modernising our council	1F Restructuring the School Day	Would need more detail to comment and as this is my last year with a child in a West Lothian School I will leave this for others.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Depends what the alternative learning is?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	More information required however. If it is suggested that children learn from home then this is unacceptable.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	There is a danger that we will try to squeeze too much in on a school day. How will the teacher get there non contact time of there are no staff to cover this!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How are you going to ensure pupil safety if there is less teacher contact? Who will be supervising when teachers are not available? Volunteers or charities?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Will this affect the current curriculum for children, given that there is a plan to reduce teacher contact time?	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Modernising our council	1F Restructuring the School Day	Could only comment if I knew what the 'experiences' were	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	For secondary schools this would surely result in costly staffing requirements.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	What impact is this going to have on staff? What are pupils going to do in that extra 50mins within school? I don't see how this can work without causing an even higher workload for staff and more long term absence due to stress!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Neutral; This may be a positive change but there would need to be some form of incentive or programme for healthy or well-being activities to take place during the additional free time during the school day.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not sure - concern about children who are struggling and will they cope with the alternative learning experiences where teacher time is less	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I cannot see how this would help.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This would result in teacher/pupil contact time being reduced but with no change to the length of the overall school day.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	There is no explanation as to how this day would look and how WL will manage to keep the school hours the same each day. This does not add up.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	The 'alternative learning experiences' need to be spelt out as its very difficult to comment on this without concrete examples of what this phrase means. For example, does this mean break times, for example are made longer? What impact this has on school staffing needs to be spelt out as clearly to save £2.4 million would require staff resource to be cut. Does this mean reducing support staff and again increasing class sizes?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Are you meaning that there will be more non-contact time to Teachers, which is desperately needed.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How do teachers feel about this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Not sure what this means - what do you mean by "alternative learning experiences"?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Please provide more detailed information on this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Where would this leave parents to pay for sitters etc ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What are the proposed alternative learning opportunities and who would deliver them?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I'm not quite understanding what this means. I'm thinking that to do this there would be additional time added on to the Childrens' breaks, additional free study time, activities provided by Pupil Support Workers as opposed to qualified Teaching staff etc.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I'd like to know more details so that I could properly give an opinion.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	So a cut to teaching and support staff?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Does this mean teachers getting less money and time being allocated to support staff? Not sure how this works/ saves £2.4 m	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So, less teaching time?	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Modernising our council	1F Restructuring the School Day	What's an agile learning culture? How can there be no change to the overall school day on one hand but then the school week is reduced by 50 minutes on the other?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Not sure how this would be done? More time with psws? Would really need more info on how this would be achieved. Focus should be put on providing high quality teaching for kids, our children have suffered so much during the pandemic we cannot seriously make any cuts which would affect them more.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not clear how this improves education?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This would mean reducing the subjects taught or length of time taught. Computer learning is useful but only in conjunction with teachers to support.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	will more after school activities be required for any pupils?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	this is not clearly communicated what are the changes for the school day, exactly?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	If teacher contact time is reduced but the length of the school day is not reduced who is going to be working with our children when teacher is not with them?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Further detail required on how restructuring of the school day would realise the projected saving.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	alternative learning experiences? What are these, if not supervised then children could be doing whatever they like, effectively transforming school in to an after school club.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council is committed to ensuring an appropriately qualified workforce to provide appropriate learning experiences, meeting the needs of all learners
Modernising our council	1F Restructuring the School Day	My understanding of this is that teachers hours will be reduced.....is this because schools are still struggling to find, and in some cases, retain staff? So teachers would still work full time but rotate their classes?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	There needs to be more information regarding the intention to fill this time where children would not have teacher contact, there should still be opportunity in those times for learning, particularly life skills, STEM, mental health and wellbeing which at the moment seems undervalued within education in primary schools. Local organisations could offer these however there needs to be funding for this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Not too sure about this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What does this actually mean? Please provide more concrete examples - true agenda seems hidden here.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	unsure as said previously west Lothians education strategy for those requiring additional support needs from nursery upwards is very poor already. this would depend on what is put in its place	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reduce school time, is this break times?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	does not affect no i have no kids	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who would provide the alternative learning experiences? More information would be needed about this and the associated staffing, costs etc	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So what are the children and teachers be doing in this time? Are the teachers working less time so get paid less?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	What affect will this have on pupils, will teachers' pay be cut to align with this, there is already a shortage of teachers will this increase classroom sizes.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	More specific details needed for this consultation to be meaningful	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What would this mean for standard times for teaching curriculum for subjects? What will fill these 50 minutes?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not at all clear how this proposal saves £2.4 million. Can the savings be broken down and illustrated?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	It is important to ensure that teachers are not swamped with admin, marking etc to ensure pupil contact time is effective and their at home time is not stolen	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again, I am unsure how this benefits anyone.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Based on what I have heard, there is also a growing gap on pupil capabilities coming out of primary schooling too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	sorry, don't know what it is you're suggesting here - less school time with teachers but no change in the length of school day? How is that beneficial to the pupils who are still struggling to get over the gaps due to covid, lockdown etc.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is all very well but have you considered the parents who work. Will this mean them having to find childcare to accommodate what you are setting out.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	how are people suppose sto work if you cut school time and the primary kids dont get enough time with teachers as it is.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Where does the saving come from - staff? Consider impact on attainment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Who would then be responsible for children during the 'remainder of the time'? Are Pupil Support Workers going to be asked to do this?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So exactly how would a day or week be structured? Of time away from a teacher is cut, does that mean that a computer is teaching our children the rest of the time?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again, with no detail on what this would look like and what the alternative would be it's incredibly hard to comment. Who would prepare the alternative learning? Are we proposing to cut teacher hours?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	What is the primary school teaching time? It doesn't specify?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Not sure how reducing teacher contact will benefit pupils or save money if the pupils are still in school for the same amount of hours	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If there is a saving here how is that possible? Too little detail here. Does that mean children will be left with unqualified people for some of the time? This would not aid education. Any change to school hours would be detrimental to working parents.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Are school hours changing? This would be very difficult for working parents.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It's not been made clear how reducing the school week will save £2.4 million?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	We would need more information on what this would look like practically for teachers and learners.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Having subject expertise in areas such as PE, music, arts, languages, science etc. is crucial in providing quality breadth for pupils. How would shortfall of time be utilised/staffed?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again, don't know what that means - alternative learning experiences for the rest of the time. So they will be taught less, but be in school the same amount of time - how do you save £2.4 million doing that?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Not enough information given here yet again. School clubs? Money?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	in my opinion, I would have concerns regard this. I am concerned 'alternative learning experiences' sounds like the same hours but a reduction to the curriculum on offer and education? Who would cover this? What would this 'learning' look like? What quality of 'care' would the children receive? Would this time be covered within the same child staff ratio's? Etc, etc, etc	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Again, I would like more information around this. Whilst I am a big supporter of WLC having an agile learning culture I do believe this needs more work in order for it to be embedded and for staff to have a clear understanding of what this means. At present, the 2 1/2 hrs NCCT includes a delivery of the school curriculum. Will teachers be expected to cram more into an already jam packed timetable? I am very supportive of children receiving learning experiences from a wide range of people/businesses/organisations but I do worry about the expectations for teachers. Our children and young people deserve the very best opportunities both inside and outside of school and I'd like to know more about what WILL be offered to support them.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Teacher contact time is already being discussed by EIS unions, so is this on top of that? Many schools already cannot provide the staffing as it is to maintain non class contact time of 2.5 hours.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	The schools work a 25 hours working week and the teachers work a 22.5 hour, who is fully qualified/insured to cover the the last 2.6 hours of teaching.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Unsure how this would be achieved	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	I'm unsure of what the children would be doing in the non contact time if start and end times were to stay the same? Who would be supporting this?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	You do not give details of how you would achieve this. I assume you are talking about bringing outside providers in to do such things as sport, expressive arts, cookery etc similar to the Welsh trial?? That does sound like a good idea but how will this save money? By getting rid of teachers currently covering non class contact time? Who would take responsibility for the children whilst in school? I am concerned that unqualified adults would be used fill the gap in order to save money.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	I don't understand how the school week can be reduced by 50 minutes without changing start and finish time. More detail is required in order to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Does reducing the school hours, reduce opportunities for pupils? It seems to me that there will be less teaching time so less opportunity for pupils to be supported by staff. How will the secondary school day be reduced by 59 minutes but no change to start and end times? This reduction is not in alignment with other authorities as end times have been altered but teachers still have same commitment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Again not quite sure what this means. Does this mean more outdoor learning / forest schools / bringing in external people (specialist) to work on skills...such as languages, computing, cooking? How is it possible to remove 50 minutes from the secondary week without impacting on start/end times? Does that mean extending the morning break by 10 minutes each day?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Would that mean that the current Friday afternoons for staff to use for their marking and planning is going to go? I support agile learning but feel there needs to be more time for staff to train to effectively use new technology. Some of the above seems quite vague, as a Teacher I would like more detail.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Where is this agile learning approach documented and what does it mean? Where is the evidence of the improved school attainment results directly linked to the agile learning culture and approach? My understanding is that every child in Scotland is entitled to 25 hours of quality education per week, from a qualified teacher. Whilst the maximum time that any one teacher will be with a class in a week is 22.5 hours, the additional 2.5 hours is made up by another qualified teacher providing quality educational experiences. There is no detail provided above with regards to how children would access alternative learning experiences, who would provide these and what these would be. The children would still require to be supervised, presumably on school grounds/under the responsibility of the school management - does this mean that other adults who are not qualified to teach would be given responsibility for classes of children, who have diverse needs? Is the saving estimated based on reduction of teacher headcount - but presumably the adults taking responsibility for the children for the 2.5 hours would need to be paid? I believe this is ill thought through and has the potential to be fundamentally flawed, with children in West Lothian being used as guinea pigs.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Would need to more about this and how it would impact both staff and learners. Who would cover the RCCT time that is currently covered by a qualified teacher? What would this time be used for?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How would this be organised without teachers having to plan for classes during RCCT????	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This is vague. What exactly will fill this time and who is responsible for finding these alternative experiences? Would this cause a lesser quality of learning time for students in senior school and children with ASN.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	It is important to review what the students will do during the remainder of the time of the school day. It is important to make sure the time is productively utilised for learning and development activities and not just occupy them to elapse time.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	You need to provide more information about this. What sort of alternative learning experiences are you referring to? It's difficult to understand how reducing teaching time would be beneficial for pupils.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How would this look?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I don't and can't have children so i don't feel it's fair for me to comment on this question.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again, an ambiguous statement! A reduction in teacher time cannot surely be a good thing	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	no involvement	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would be interested to know what an "agile learning culture" actually is as it appears somewhat oxymoronic.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	no comment on this- as above.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Unable to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	As 1D	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Wow	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Hearing of cuts isn't helpful.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not work in a school	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	More information is required as to how this will be achieved	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I'd suggest lengthening the school day with longer breaks, or shortening the school day with earlier start times and/or later finishing times to reduce the cost of energy used in the schools.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How will these other hours with no teacher be staffed, ensuring appropriate child/adult ratio, what will the children do in this time? I think this needs to be explained more clearly to parents how you intend this to work and the impact of our childrens school day/learning opportunities.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The problem with this is people need to work or provide childcare. Further impacting cost of living issues	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How would the "alternative learning experiences" be staffed?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who will be responsible for the children for the other 2.5hrs they are in school? Will it be pupil support workers? Will their wages be increased to reflect this? Will teachers still be expected to plan lessons for this time for someone else to deliver? From my perspective as a teacher in schools, pupils will loose out on learning even if teachers do leave planned lessons as pupils are very aware of who is a teacher and who is a PSW and show a lack of respect for PSW's and consequently would be less likely to participate in any lessons.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Alternative learning and activities sounds good but what would they actually be in Practice?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Could this approach cause problems with the parents availability to work and be able to afford additional childcare?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Pupils in secondary are often covered for a class without a specialist. They need to be taught and not just babysat. There needs to be better control over this so that classes have continuity and lessons are meaningful for the subject. For example I know 3 teachers in one subject were on non contact period but as the 4th teacher in that subject was off sick the class was covered by a teacher from another subject area. Totally outrageous when specialists were available.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Need more information on what this means in practice. It is unclear.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Need further detail on this what would it mean ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Please give more information on what this means for school staff and pupils. How will the full curriculum be delivered if class contact time is reduced further.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Structure and certainty make children feel safe too. We need to be very careful not to take away this safety, especially after the impact of covid which many children have not recovered from.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	At what cost is the alternative learning experiences and what do these cover? How will you ensure it is beneficial not detrimental to learning?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If this went ahead, what would it mean? More details needed before asking us to comment!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is very unclear. If teacher contact time is 22.5 hours, what do you mean by realigning the primary school day? Are primary schools more than this? If so, is 22.5 just for secondary? But presumably not since you then say that the proposal would reduce secondary by 50 minutes.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	N/A	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Jdhd	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No Comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not sure	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Big save	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment on this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Modernising our council	1F Restructuring the School Day	I don't understand what you are proposing here.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	This has no impact on me so I will refrain from commenting	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not enough information to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I don't have children of school age so I cannot comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What are "alternative learning experiences" again not enough context	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No opinion	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not clear what this means in practical terms	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	no comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As before you must outline your detailed proposals	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	"alternative learning experiences" I wonder if these are in the school place or will become the parents responsibility. Reducing teacher time increases vulnerability of minors.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	Who will provide the child care when teachers are not there?; If Pupil Support Workers will they be paid more to reflect their additional responsibilities?; Will the curriculum expectations be reduced?; Will children be watching remote lessons for some of their learning? By agile learning do you mean changing plans as we go along because the class needs to evacuate the classroom in a hurry while another child is calmed down?;	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comments.
Modernising our council	1F Restructuring the School Day	If the current contact time is 22.5 hours and the day is re-aligned to match this time, why will this result in pupil contact time being reduced?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Additional contact hours are provided by additional teachers employed for this purpose.
Modernising our council	1F Restructuring the School Day	What are the alternative learning experience and why do they not require teacher contact time? Where are the funds for the experiences?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If school week is reduced by 50 minutes per week, how will this work in practice? Why not just let pupils finish early, say, 1 day per week, as other authorities already operate this model, with many secondary's finishing eg, 230 pm on certain days. What is the point in reducing teaching time by 50 minutes per week and pupils being in school - doing what? What subject would be lost out on by this new model?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Blended learning? Is ensuring all pupils can learn from home / without teachers for short times more affordable? Head teachers and teachers should be consulted before a decision is made.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The consultation is open to teachers and headteachers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Longer periods within a class – only seeing a teacher 2/3 times a week longer more efficient teaching time due to the longer time with teachers	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	More efficient online learning and schools should produce a strategy to set minimum standards and expectations. If start and end of day stay the same how will the reduction of 50 minutes affect our learning? Will it significantly affect learning to a point that we will notice so maybe ok	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Impacts people in different ways. Lack of teachers leads to more home learning – some may not have facilities to undertake the non-teaching time	3. The respondent advised that they had no comment to make or posed a question of the measure.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	Potential for students to apply for home learning or a mixture of in and at home to ensure it is suitable for them? Could reduce the number of classes in school (while still spending the majority of their time in school)	3. The respondent advised that they had no comment to make or posed a question of the measure.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	I am both a teacher and a parent in West Lothian and I have no idea how agile learning has improved learning experiences in the two schools I am involved in. I think we need more information on this. Reducing the school day in secondary schools raises issues of supervision for students for those 50 minutes - it can't be taken from promoted staff management time as they are already completely over stretched. There is also the issue that the Scottish Government has committed to giving teachers an extra 90 minutes preparation time each week which needs to be factored into budgets - WLC already does not provide ICT to students unlike many other local authorities, they can't be the council that doesn't provide those 90 minutes too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again not sure how you can save so much money doing this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Again the government/ councils says education and raising attainment is a priority so how does reducing teacher/pupil contact time support this?? What exactly is the proposal for the rest of the time? Longer breaks? A whole school DVD once a week? Who will supervise the pupils for this 'alternative learning experience'? Why bother keeping the school day the same length if it's not quality time with a teacher?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Alternative learning experiences can also contribute to raising attainment and achievement.
Modernising our council	1F Restructuring the School Day	Again it is difficult to understand exactly what this entails, and I would be more concerned as to what those who do understand it think eg teachers. I cannot understand how 'realigning the primary school day to match teacher contact time' goes hand in hand with teacher/pupil contact time being reduced?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	Which areas of the curriculum are going to be dropped to allow everything to be covered properly in 22.5 hours per week? At the moment the curriculum is broadly balanced at 25 hours but if there are non-teaching staff 'supervising' pupils for 2.5 hours per week, what will they be doing? Will subjects like art, music, drama and science be delivered by unqualified adults?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Alternative learning experiences can also contribute to raising attainment and achievement.
Modernising our council	1F Restructuring the School Day	How would this be delivered? Reduce pupil/teacher time but keep school day the same length - extra breaks - therefore supervision required but with less support staff?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	Would be interested to see how alternative learning experiences could be provided without third party providers (as per the earlier suggestion of reduction). Appreciate that this would remove staffing pressure to cover classes though.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	What impact would reduced teacher / pupil contact time have on educational attainment?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Alternative learning experiences can also contribute to raising attainment and achievement.
Modernising our council	1F Restructuring the School Day	I am unsure how this would lead to savings.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Again, 'in line with other local authorities'. Realigning the school day. I feel that school education needs to be monitored for effectiveness, not necessarily testing results but perhaps teacher commentary and feedback.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not my problem , you do need to keep community centers and after school programmes for kids to avoid neighbour hood issues in bad areas with low social econonic and hisotocal council behaviours	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who is going to staff this and plan for it?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	What about working parents?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. School start and finish times will not change so there will be no impact on childcare.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	How does this save £2.4 million? The buildings will still be open. Does it mean that people will be employed who are cheaper than teachers to cover the extra supervision for primary? Secondary- longer lunch? Unpaid supervision? More unpaid supported study?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Is this really feasible??	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How do you reduce the school week by 50 mins but the length of the school day would not change?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	What is the definition of "alternative learning experiences"? The majority of school children require guidance and learning supervision otherwise they find other, less productive, things to do themselves particularly with tech devices.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	I dont understand how teacher/pupil contact time at secondary could be reduced without changing the school start/finish time. Do you mean longer break and/or lunch? From what I hear from children, these times are already very busy and congested and are, for many children, a time of stress; the pupil leadership team working to set up lunchtime clubs to help ease the pressure! Registration period at Linlithgow Academy has already been removed to free up teaching time, which would indicate to me that those extra teaching minutes are needed. My boys regularly say that they run out of time in class to finish eg watching a video/programme, cooking, experiments.....	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I am not sure how this will provide continuity as children will still have 2.5 hours contact with an adult who is not their teacher. If this continuity refers to the same teacher teaching all curricular areas, how will all curricular areas be covered with less time to do so in an already jam-packed school week. Job share teachers successfully provide continuity for their classes, as do cover teachers, so I disagree with continuity even being an issue. Any alternative learning opportunities need to be robustly planned and prepared to ensure curricular links and learning opportunities and experiences so that more work is not piled on teachers who will feel the need to compensate for any shortfall.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who is going to provide these experiences? Teachers are already covering an enormous curriculum with huge workload. How is this going to be effective for staff?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Would this type of change really save money?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Surely the reduction of the school week by 50 minutes would have a curricular impact. How would this be accommodated/ managed?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	What will happen for the remaining 2.5 hours of the day and who will plan for that?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Very difficult to comment as I do not have children in school or personally know children in West Lothian Schools. However I personally think the teacher contact time is incredibly important and with young people having missed out on that during COVID I think it is actually even more important. Would need to know what alternative learning experiences means to know if would be beneficial over teacher contact time.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So much of the school day/teaching time is already wasted. Registration, getting ready for break, snack in class room getting read for lunch, getting ready for home time = approximately 1 hour. This does not include class getting interrupted by childrens dis regulation / behaviour. What is this 'alternative' learning that you intend to offer and who provides it?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Who is going to be offering the alternative teaching experience if you've sacked all the pupil support workers?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Being able to care for e kids without worry and stress especially at school	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What would these alternative learning experiences be? Who would be providing these? Does this then mean teachers are losing non class contact time which is for marking, planning and preparation of lessons. When would all of that take place?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time. No change to teacher non-contact time is proposed.
Modernising our council	1F Restructuring the School Day	Who will look after the children if the teacher is not there?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other suitable qualified staff can provide alternative education experiences.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Not sure; About this as I have a daughter with additional learning needs and she needs as much time with an actual teacher / pupil support as she can get . However I'm not a teacher so I am; Confident that the council would be doing what is best for pupils	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	More learning videos and books share to kids ; Group activities for kids	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would need assurances that the alternative learning experiences are of a high quality to benefit children's learning.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Please provide an explanation as to what the alternative learning experience will consist of and how will this not affect our children's learning experience minus the interaction of a qualified teacher ? Again every alteration is about saving money but again the council increased council tax by over 4% for the financial year 20/21 again I ask how much was raised through these tax increases and where has those funds been allocated ? As these increases should not lead to a reduction in services and technological cost cutting alternative teaching methods.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	Where is the empirical research to back up what you are saying about 'improved attainment results through agile learning?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	Interesting although that is 50mins of school lost per week which adds up.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	Thankfully I don't have children so I have no first-hand knowledge of education system or youth services I do not feel I can comment on the proposal for those.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	What happens to the children who need specialized teaching? Would the non - contact time be used for them?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	who will be supervising the children when the teachers are not?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can provide alternative learning experiences.
Modernising our council	1F Restructuring the School Day	who will be supervising children when not teachers?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Other qualified staff can provide alternative learning experiences.
Modernising our council	1F Restructuring the School Day	it depends on what the alternative learning was	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response.
Modernising our council	1F Restructuring the School Day	it depends on what the learning experience is	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response.
Modernising our council	1F Restructuring the school day	What does this actually look like for pupils, staff and parents? Maybe need to address overcrowding in secondary schools - lack of staff, several times daughter has had no teacher. Two new high schools significantly under occupied - re look at year groups and get more pupils in = less need for the provision of school transport which is also a huge problem right now.	4. The council is already doing this.	The Council's ability to fill schools equally is constrained by parental choice legislation, and space has to be provided for future larger year groups in new schools.
Modernising our council	1F Restructuring the school day	I do think 1:1 support is important for children who may not have the support and structure at home to support more flexible learning,	4. The council is already doing this.	The proposal seeks to balance 1 to 1 support with other learning of other important life skills such as independent learning.
Modernising our council	1F Restructuring the school day	Continuity is important for the childrens learning this creates positivity and confidence in the classroom	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	barely none will use the time for alternative learning experiences, and since aaron swartz was killed before he could enact his dream of free learning materials for all database. where they going to learn and get the materials to study ?!	4. The council is already doing this.	Local and national leaning materials are available.
Modernising our council	1F Restructuring the school day	Make sure you take account of and mitigate any impacts on working parents, for example you may save money saving here, but have to provide additional pre/ afterschool care	4. The council is already doing this.	The proposal need not affect the length of the school day.
Modernising our council	1F Restructuring the school day	Parents would need to be consulted	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Teachers still need non contact time for planning.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	"West Lothian has developed an agile learning culture and approach and delivered improved school attainment results and improved learning experiences for pupils." Based on what evidence?;	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Improving school attainment results is not as important as improving individual pupil attainments. Having a low school attainment result is not the same as pupils receiving a low attainment, as this will affect their whole life rather than just some league table that any sensible person would ignore. Working with teachers, and allowing flexibility of the profession to provide excellent learning experience, will pay back more in dividends than savings made.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Is West Lothian liaising with others authorities to share its best practice "agile learning culture" which it has developed, and to learn from them about the improvements they have been developing in their areas, such that different authorities are not spending money on solving problems which have already been dealt with on someone else's money?; Who is saying that "the learning experience for pupils has been improved"? What is your evidence?	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The needs of children should always be prioritised.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Perhaps I don't understand what you are saying here but this is my perspective. Have you really improved school attainment results? If you are including the Covid years then this is easy to say as grades were clearly elevated. Again, I have read that the attainment gap is still growing and have examination standards really been maintained?	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	All children in Scotland should have the same amount of teacher facing teaching time. All teachers are paid on the same scale, all children should receive the same education. West Lothian should do whatever necessary to be in line with other areas	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Alternative learning (whether play, sport, music other extra curricular experiences) opportunities provided during the school day are a positive.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Alternative education needs to be explored and used more. Not everyone is going to be academic.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Attainment is very easy to gauge - just look at league tables and whether they improve	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	You must ensure that the education of pupils in exam years is not impacted.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As long as the continuing increasing trend for pupils being taught by cover teachers is reversed. I know from my own experience years ago how constantly having a different teacher impacts learning.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reduce the cost of supply teachers and sickness absence	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	learning is so important	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	My child only gets 40 mins for lunch which is barely time to be served and eat. Where is the time to relax, chat with friends, play if the proposal is to cut lunchtime (can't see how else this proposal would be achieved without changing start / finish times)? This would be detriment to my child's well-being.	4. The council is already doing this.	The proposal could provide the opportunity to lengthen lunchtime.
Modernising our council	1F Restructuring the School Day	By reducing the school day would that not increase the provision for after school play as parents/guardians would have to look at changing their current childcare arrangements.	4. The council is already doing this.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	Not all children are going to use the alternative learning experiences ie at home learning as some do not have the support required at home. Parents that are working also may find getting child looked after in the home to do this.	4. The council is already doing this.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	Education needs to be a seamless transition from Early years to secondary and beyond. The same opportunities for all should be available and adapted to the age/stage of the child.; There must be enough support for staff as well as children.	4. The council is already doing this.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	not suitable for working parents I would think	4. The council is already doing this.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	That will rely on parents, childcare etc. Thats quite a selfish approach from the perspective of placing additional childcare out to families who need to work to live. Having to be home to look after children that could be at school will mean parents can't go out to earn money in that time, which means that the pressure will be somewhere else on the state/benefits system to supplement their income.....shuffling the deck chairs?	4. The council is already doing this.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	Reducing the length of the school day will have a major impact on parents who will either have to change their hours of employment (possibly resulting in losing their positions) and/or footing the bill for additional childcare. Not all households have the luxury of depending upon their extended families to help with childcare.	4. The council is already doing this.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.
Modernising our council	1F Restructuring the School Day	I hope that wrap around provision is looked at because these changes can have child care implications for families who are already struggling to manage due to cost of living crisis.	4. The council is already doing this.	Thank you for your response. School start and finish times will not change so there will be no impact on childcare.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	This sounds more like a babysitting service than a school day. The excessive amount of paperwork work in schools that all staff (Inc teachers, pupil support workers and administrators) have to complete should be considered to be streamlined.	4. The council is already doing this.	Thank you for your response. Reducing bureaucracy is already a priority for the service in discussion with professional associations.
Modernising our council	1F Restructuring the School Day	As a parent council, the lenses we're using across our responses are equity and inclusion; mental health and wellbeing; teaching and learning. We raise the fact that this generation of young people have faced extremely challenging years, and applaud all efforts the schools and local authority have made to prioritise mental health and wellbeing in the months since lockdown.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Extra support would still be required if contact time was to be reduced. Particularly by psws.	4. The council is already doing this.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Must match norm in Scotland.	4. The council is already doing this.	Thank you for your response. The Council will consider practice elsewhere in Scotland, including evidence of a correlation between contact hours and attainment
Modernising our council	1F Restructuring the School Day	I think it depends on what kind of alternative learning opportunities WLC is proposing and ensuring that even if teacher/pupil time is reduced that pupils continue to receive 100% quality time for their development.	4. The council is already doing this.	Thank you for your response. The aim is that pupils continue to receive quality education.
Modernising our council	1F Restructuring the School Day	school hours are vital fro children to learn and feel safe the more they spend with staff the better a relationship they build up with them. A lot of children see school as a safe place to be and also have breakfast and lunch	4. The council is already doing this.	Thank you for your response. The proposal will not affect the hours pupils spend with any individual member of staff, as these are restricted to 22.5 hours per week by national agreement.
Modernising our council	1F Restructuring the School Day	Teacher/Pupil contact time is vital to the learning of pupils, and alternative learning arrangements must be fit for purpose to the learners needs.	4. The council is already doing this.	Thank you for your response. The alternative learning experiences are intended to be fit for purpose and meet the needs of children and young people.
Modernising our council	1F Restructuring the School Day	I'm sure you will take into account that different people learn in different ways - one size does not fit all and change therefore must be good for individual children so they can thrive and learn in a way that suits them, not pigeonhole them into something that suits the council.	4. The council is already doing this.	Thank you for your response. Any new structure would continue to take account of individual needs, as does the current structure.
Modernising our council	1F Restructuring the School Day	Change the arrangements of Torphichen primary school - currently the children are agile learning, they "float" to classrooms depending on what they choose to work on. They also have free reign on structuring their day and are not actually "taught" - I feel my childs education is suffering as a result and lots of children in his class are now being offered additional support for learning as they are not progressing. ; During a recent open day to demonstrate the research projects by the children some children were simply sitting with a laptop pretending to do their "research" for next project but there are no guidelines on the research project topic. How do the teachers know what level the child is working to when they don't have 1:1 time with them. For a small school with small classes it's very disappointing.	4. The council is already doing this.	Thank you for your response. Any specific concerns regarding your child's education should be raised with the Headteacher in the first instance.
Modernising our council	1F Restructuring the School Day	Teachers are there to teach and educate so they should not reduce hours that they are teaching	4. The council is already doing this.	Thank you for your response. Individual teacher contact time will not be altered by the proposal.
Modernising our council	1F Restructuring the School Day	22.5 hours!!!! If time with children reduces, so does their pay. Teacher strikes are becoming ridiculous and now there's suggestion to reduce time actually doing their job? No.	4. The council is already doing this.	Thank you for your response. No change to the pupil contact hours of individual teachers is proposed.
Modernising our council	1F Restructuring the School Day	do not agree, this will just burden they system for parents with extra child care costs or take people out of employment to cover the reduction in school days putting more of a burden on the council	4. The council is already doing this.	Thank you for your response. No change to the length of the school day is proposed due to the impact on working parents.
Modernising our council	1F Restructuring the School Day	It's important that this is designed to not have any adverse affect on attainment.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Could be implications for poorer families already struggling with childcare and/or the ability to heat homes if primary school day is reduced.	4. The council is already doing this.	Thank you for your response. No change to the length of the school day is proposed.
Modernising our council	1F Restructuring the School Day	ASN children will be disadvantaged. If the childcare costs will creep up, people (women in particular) will start working less.	4. The council is already doing this.	Thank you for your response. No change to the length of the school day is proposed. No change to support for ASN pupils is proposed as part of this proposal.
Modernising our council	1F Restructuring the School Day	Restructuring the school day then leaves parents with yet another difficulty of adjusting their work schedule and possibly increasing their childcare costs at a time of great austerity is this really a beneficial saving if the well being of children is at the heart of education	4. The council is already doing this.	Thank you for your response. No change to the length of the school day is proposed.
Modernising our council	1F Restructuring the School Day	Review of school uniform policy needed	4. The council is already doing this.	Thank you for your response. The Scottish Government has recently conducted a consultation on a national school uniform policy, to which the Council contributed.
Modernising our council	1F Restructuring the School Day	Essential that the relevant trade unions are fully involved in the process.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1F Restructuring the School Day	How can working parents tickets to school and get to the place of employment in time if the kids can't be taken to school early	4. The council is already doing this.	Thank you for your response, No change to school start times is proposed.
Modernising our council	1F Restructuring the school day	Yet, no change for the ELC. Where hours implemented aren't being taken by families and there is ample staff in the evening until 6.20pm with little or no kids.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Total ELC hours are set by the Scottish Government and are required by law.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	I think the ELC provision should be included in this. I am witness to ongoing staff absences and a stretched provision in ELC because of 1140 over 07.45 - 18.00. To provide the model of 8-4 four days a week would decrease the need for supply staff, reduce building operational requirements and align the elc day with the school provisions thus closing in the holidays and saving monies through heating janitorial staffing cleaning lunches etc. ;	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. The council will review the framework on an ongoing basis.
Modernising our council	1F Restructuring the School Day	my thought are close school Fridays as it is a short-day having school open longer through the week this is reducing heating electricity cost saving on school meals Friday	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Schools must open, by law, on a defined number of days per year, but this suggestion will be discussed with national partners to determine whether it could be taken forward.
Modernising our council	1F Restructuring the School Day	Hard to know how this efficiency can be delivered. However, serious consideration needs to be given to reducing the school week to 4 days. This would reduce the amount of transport required and could help with childcare arrangements as the school day would be more closely aligned with the working day.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Schools must open, by law, on a defined number of days per year, but this suggestion will be discussed with national partners to determine whether it could be taken forward.
Modernising our council	1F Restructuring the School Day	Reduce the school day to remove the need for RCCT or increase the school day Mon- Thurs and close schools on a Friday this will help to reduce heating costs/lunch provision etc	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. The number of school openings is set by regulation.
Modernising our council	1F Restructuring the School Day	Cut back on all the holidays	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The number of school openings is set by regulation.
Modernising our council	1F Restructuring the School Day	Schools are under immense pressure to report positive attainment rather than reflecting actual need. I question whether this promotes good practice or inflated figures.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	1F My suggestion is a four day (Monday to Thursday) week for all schools keeping the 22.5 hour Teacher Contact time and no change to the start or finish time of the existing day. The kids and the teacher get a decent break over the weekend and will encourage parents to negotiate their hours or working arrangements to match the school weeks giving them more family time. Savings on energy costs and increased staff morale and reducing sickness. Results would probably stay the same or improve.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your response. The number of days that schools must open is set by regulation, but this idea could be explored on a national basis with the Scottish Government with the suggestion that Council's are given greater flexibility.
Modernising our council	1F Restructuring the school day	How about bringing the school holidays in line with other local authorities so parents with children who go to schools outside West Lothian don't have to make two arrangements to cover childcare?	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So therefore in order to save the teachers would get less money because they would have less hours	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Teacher pay and conditions are set at a national level.
Modernising our council	1F Restructuring the School Day	The school day needs to be extended to allow after school clubs classes on offer and non teaching time to allow working parents to Earn money especially given new cost of living for all families.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Would be good if West Lothian had the same holidays as Edinburgh for people who live in one area and work in another	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	A four day week would be a better idea with class teachers getting their non-contact time on a Friday morning.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Additional after school clubs should be funded for working parents and to increase additional skills in children	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Unsure what cover arrangements would entail, if in regards to teaching staff, only qualified teachers should be covering non-class contact time, to ensure continuity for the children.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Have the kids in from 9-4 Monday to Friday and less half term holidays and these nonsecal days for teacher training ; They are already qualified	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Don't know how this can be achieved as they are not in the school for very long as it is as i see a lot of secondary pupils wandering the streets during the school day and when you seay anything all you get is i have a free period if this is the case do away with these and then you could deal with this proposal	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. Opportunities for self directed study may form part of the proposal.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	School should open and close for the school day 8-4;	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. No change is planned to the length of the school day.
Modernising our council	1F Restructuring the School Day	Need to increase more teacher as well as introduce some scientific education . Can take lesson from other countries like Australia/USA/Canada	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is a budget reduction member. Increasing the number of teachers would cost money. No budget exists to do this.
Modernising our council	1F Restructuring the School Day	Any change to school timings should surely be to increase teacher pupil time to enhance educational offerings and improve pupil achievement. Proposed cuts in this timing appears to be against current educational stated intentions	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is a budget reduction member. Increasing the number of teachers contact hours would cost money. No budget exists to do this.
Modernising our council	1F Restructuring the School Day	Teaching time should not be reduced further. It is little enough already.; ; Return to full day on a Friday.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is a budget reduction measure. Returning to a full day on Friday would cost more money, and, as explained in the consultation, the Council needs to reduce the amount of money it is spending.
Modernising our council	1F Restructuring the School Day	Think schools should be 5 full days rather than 4 full days and half day ok a Friday I.E 8:45 am till 3:30 pm	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is a budget reduction measure. Returning to a full day on Friday would cost more money, and, as explained in the consultation, the Council needs to reduce the amount of money it is spending.
Modernising our council	1F Restructuring the School Day	Kids should have more time in chool not less. After school clubs and breakfast clubs should be extended to offer additional help for working parents who are unable to afford childcare and have no friends or family to help	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is a budget reduction measure. Extending school opening would cost more money, and, as explained in the consultation, the Council needs to reduce the amount of money it is spending.
Modernising our council	1F Restructuring the School Day	I think if we extended the school day by one hour Monday to Thursday and completely closed the building on a Friday we would provide the same amount of school teaching hours for pupil but would save on heating and electricity on Fridays as there would be no need to open the schools. It would also save on transportation costs as we would only need to provide transport Monday to Thursday	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The number of days that schools must open is set by regulation, but this idea could be explored on a national basis with the Scottish Government with the suggestion that Council's are given greater flexibility.
Modernising our council	1F Restructuring the School Day	School days are so short as it is and with a half day Friday	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is a budget reduction measure. Extending the school day on Friday would cost money, and, as explained in the consultation, the Council must reduce the amount of money it spends.
Modernising our council	1F Restructuring the School Day	I do not know - north lanarkshire has a 9-3pm school day 5 days a week so who has the better performance record? On another level I would support shorter holidays with. 4 week max break in the summer ? the longer one is absent from a role the harder it is to get back in the saddle speaking as an ex pupil and 2 year unemployed person	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is a budget reduction measure. Lengthening the school day would require additional funding, which, as explained in the consultation, is not available. The Council consults annually on school holidays, but the total number of teaching days is set by regulation.
Modernising our council	1F Restructuring the School Day	Fridays are a bit pointless unless the day is extended to 15.30.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is a budget reduction measure. Extending the school day on Friday would cost money, and, as explained in the consultation, the Council must reduce the amount of money it spends.
Modernising our council	1F Restructuring the School Day	22.5 hours ; More education needed	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. The proposal is to reduce the Council's budget, as is required.
Modernising our council	1F Restructuring the School Day	Should be a normal 9-5 with children allowed to take holidays when they wish.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. There is no plan to increase the length of the school day or entitlement to free early learning and childcare. The purpose of the consultation is to identify areas where budget reductions can be made. Funding does not exist to extend the school day.
Modernising our council	1F Restructuring the School Day	it is outrageous that the day in nursery and school is so short so do you want the parents to have a job what about a full time job? So a longer day at nursery/ school would be more beneficial for the kids	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. There is no plan to increase the length of the school day or entitlement to free early learning and childcare. The purpose of the consultation is to identify areas where budget reductions can be made. Funding does not exist to extend these services.
Modernising our council	1F Restructuring the school day	Not sure how the 50 min will help with your plan of improve attainment. More pupil/teacher contact is needed in our school.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This will lead to mass issues with parents. Schools are seen as an essential childcare service.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Reduce school mornings. For the love of god; let them start at 9-9.30am. ; Pretty please.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. Reducing the length of the school day would impact negatively on working parents.
Modernising our council	1F Restructuring the School Day	Starting the school day at 9am across all school would be more in line with how young people do best. They need more sleep and a later start to the day.; I'd like to see school start at 9.30am ideally	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your response. A later school start time would impact on working parents.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the school day	I feel many families need before/after school cover	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	An expansion of out of school care for vulnerable children is planned.
Modernising our council	1F Restructuring the School Day	If contact time is reduced I'd rather a reduced school day when the children get home earlier. The children go to school to have the contact time with teachers. Please send children home earlier rather than fill time up with screens.	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. No change is planned to the length of the school day due to the impact on working parents.
Modernising our council	1F Restructuring the School Day	If you are going to reduce the amount of teacher pupil contact time then reduce the school day and send our children home to have that time with family or extra circular activities outside school. DO NOT SIT THEM IN FRONT OF SCREENS.;	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your response. No change is planned to the length of the school day due to the impact on working parents.
Modernising our council	1F Restructuring the school day	Employers have made big changes to the work place with increased flexibility for working at home. It's time to review the school day and consult with parents on a more flexible changes, for example, 4 longer days (instead of a short Friday) which would help working parents and reduce the need for daily childcare. It would also allow quality family time over the weekend and time to focus on other extra-curricular activities. Teachers could focus on their teaching commitments on those days and spend the time planning on a Friday like in other European countries. This would reduce the fragmented timetabling some children experience.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Schools are currently required by regulation to provide 190 days of Education. A national debate on the future model of education provision, taking account of the future needs of society would be beneficial to ensure the future relevance and effectiveness of school education, as well as efficiency.
Modernising our council	1F Restructuring the school day	Aligning primary/secondary school times will allow for easier transition. With the strain of secondary school teaching, due to class sizes, etc more not less teacher contact time is needed. As the teachers with large classes need to spend more time with their pupils, or have smaller classes and more teachers.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The proposal need not affect the length of the school day and will not impact on class sizes.
Modernising our council	1F Restructuring the school day	I think schools could be run over a 4 day week Monday - Thurs, the school week could be covered with an extra hour over these days to cover the Friday morning. Schools running costs would be over 4 days rather than 4 1/2, reducing school bus expenses as well as opening school etc	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Schools are currently required by regulation to provide 190 days of Education. A national debate on the future model of education provision, taking account of the future needs of society would be beneficial to ensure the future relevance and effectiveness of school education, as well as efficiency.
Modernising our council	1F Restructuring the school day	Ask the teachers.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Let students start later in the mornings.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Children thrive better when they are in a learning environment with other peers their same age. I feel for secondary school kids, in class learning is better for them than any kind of online learning.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Children currently have 25 hours of teaching time per week - 22.5 with their class teacher and 2.5 with additional teachers. This proposal would only save money if the children go home after 22.5 hours. Other than that, additional money would always be needed to cover the cost of the staff who would work with the children for the additional 2.5 hours. There are not enough third sector organisations to provide 2.5 hours for every class in every school across the local authority and pupil support staff would not be able to cover classes. I would propose a slight extension to the school day Mon - Thur and have a Friday without school. Staff could work from home and save heating costs in school buildings.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Schools are currently required by regulation to provide 190 days of Education. A national debate on the future model of education provision, taking account of the future needs of society would be beneficial to ensure the future relevance and effectiveness of school education, as well as efficiency.
Modernising our council	1F Restructuring the School Day	The key here is that kids are learning in a sustainable, supportive way and getting the clear input they need to thrive. If that's through group learning, fine but it can't be through herd learning as that will disadvantage the least able and the least confident and they'll end up worse off.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	West Lothian schools currently offer a longer teaching week than schools in some other Council areas, and no direct cause and effect is discernible in outcomes.
Modernising our council	1F Restructuring the School Day	A hub could be introduced in each area to provide childcare in the holidays if needed. As in covid times when children with key worker parents applied for childcare and attended a hub in their area. This would prevent a full school building being opened for 10 children and 8 staff. Not to forget the additional costs incurred to keep the buildings open. If ELC followed the model of an 8-4 day the level of attainment and quality of educational experiences would only benefit each child for their transition to P1. Rather than children dropping in and out of setting for 2 days or 5 mornings not making any real connections.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Outdoor nurseries have already proven to establish greater resilience, self-regulation and develop skills that help them deal with stress and other difficult situations. These skills will prove to be of greater importance in the future. Why haven't WLC looked at embracing such approaches to reduce the use and cost of buildings and the positive impacts on child development?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How do working parents cope with children that may be at home longer? How has this been evaluated to ensure that the children and their education are not adversely affected?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	Schools make increased use of West Lothian's open spaces and particularly the Country Parks. This is only possible if the countryside resources are managed and maintained, so please ensure this is considered before instilling "alternative learning experiences" into the restructured school day. Country Parks which are free to park in, free to use in general, are a great asset to West Lothian visitors, residents and visitors from outside the county and beyond. Just look at the level of use throughout covid and subsequently too. These facilities do not self-manage but are too often used but silently appreciated by so many.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Prior to any change in teaching time, customers would need to be made aware of what the alternative learning experiences are before any agreement could be sought	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	'Alternative learning experiences' must not become simply ways to fill time. We should remove that which is not vital and focus on the basics, instead.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Thorough consultation would be required before adopting any changes. Further detail on the 'alternative learning experiences' is required to allow the public to have an informed say.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Children require time to be supported in their learning by a teacher. At the moment there is a lot of talk of raising attainment if this is the case surely reducing teacher contact time would not help. Paper work should be reduced to allow more teacher child contact. Extra free curriculum hours would be supported to extend day as not many parents work between school hours. Early years can now be in to 6.15pm yet school finished at 3.15. There is a big gap and widening from expectations from early years to school.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If outside providers were to be used for alternative learning experiences this would need to be strategically planned and the alternative learning experiences would need to be of a high quality. In my opinion Pupil support workers would not be able to undertake this supervision or provide alternative learning experiences for whole classes that were of a high quality and standard unless significant training was put in place.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There will be a need to ensure the alternative learning experiences are high quality - reducing teaching time (and involvement of professional teachers) will have to be carefully monitored for any adverse impact.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Again metrics in trial data must show this approach works first.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The savings should not impact of the facilities etc currently supplied for the children	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This seems like a good idea but has the council thought of taking this further by reducing the school week to 4 days?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Schools are currently required by regulation to provide 190 days of Education. A national debate on the future model of education provision, taking account of the future needs of society would be beneficial to ensure the future relevance and effectiveness of school education, as well as efficiency.
Modernising our council	1F Restructuring the School Day	if they did this they also need to think of the parents who have child care and who can afford this	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I personally think that High School age should be a normal full day on a Friday like they have in Fife region. I think the school week is fine the way it is.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Remove half day on a Friday - it helps families paying for childcare!	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This should only be considered if; Standards meet educational benchmarks.; Provision remains free; This is not used an excuse to cut staffing	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Close on a Friday	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Schools must open, by law, on a defined number of days per year, but this suggestion will be discussed with national partners to determine whether it could be taken forward.
Modernising our council	1F Restructuring the School Day	We have not been able to locate a Child Rights and Wellbeing Impact Assessment in relation to; this proposal, and request that one is carried out in order that impacts are highlighted and; mitigated.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your response. The council will conduct integrated equality assessments on all proposals.
Modernising our council	1F Restructuring the School Day	The savings will only be on paper, however in reality teachers and staff will not benefit from reducing the school week. The biggest hindrance is marking tests/homework, this all needs to be digital whereby teachers will be required to do less admin.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your response. Reducing bureaucracy is already a priority for the service in discussion with professional associations.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	We would not be in favour of reducing the Secondary school week but have more teaching support for CfE and use more project work than formal exam teaching to engage pupils on the subjects they are taking. The SQA needs to sort the issue with CfE paperwork so that the teachers are freed up to do what was originally envisaged with CfE and in doing so improve the attainment gap.; We would not be in favour of increasing the Primary school week and you should be looking at Scandinavian models for learning through play not formal teaching at this age. It will make it a very long exhausting week, when they should be enjoying their time at school.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your response. Increased learning through play in the primary sector is envisaged in the proposal.
Modernising our council	1F Restructuring the School Day	After 22.5 hours.; Supported homework / reading clubs otherwise many journals learning lost	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	Why is this labour led council determined to deteriorate our childrens education!!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Seen real teachers in primary. In secondary none. Education levels are worst ever. Just look at political movement in UK...of course their children are not in public education... Sad times...	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Primary school should not match secondary school in terms of the number of hours pupils spend in the building. You can't group teenagers with young kids together - they are different groups with different needs.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I dont think kids should be unsupervised... at school at least. Too much disruption and room for bullying etc.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I live near a school and can tell you that a) the kids cannot add up and b) They are never in school c) Look at facebook and none of them know the difference between where, were and we're and there, their and they're. They have holidays every single month of the year bar one.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I find it ridiculous that Scotland has moved towards a Friday afternoon off approach with schooling. It doesn't happen in other parts of UK and certainly not in Europe. How can we expect pupils to keep up with peers in other countries when contact time is reducing.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I think an improvement would be to have five full days at school for children in West Lothian like Falkirk and Stirling. It is very difficult for working parents when children are not in school on Friday afternoons.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	At the very time	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Blah blah	7. Modernising our council	1F Restructuring the School Day	Why would you reduce the secondary school week by 50mins when a high percentage of young people are now vaping in their schools during lessons which is encouraging them to walk out of lessons therefore reducing their contact time with teachers even more and please do not consider this to be false information as I am witnessing this on a regular basis	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	m*****(redacted)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	(redacted) almighty!! The teachers kids themselves, tell them to stop bloody moaning about their "work load" and get in with the job they're paid to do. If the can't Jack it, there's lots of jobs going at Tesco!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	It is hard enough for a working parent to find / pay for childcare. I had to pay up to £1000 per month for childcare for 2 kids with a childminder as there are no other resources that suit my working hours 9am-5pm. So reducing the school hours will put more families into the not working category, as the childcare is far too expensive.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	opt teachers into tutoring after 3.30 to assist students and improve grades etc.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Modernising our council	1F Restructuring the School Day	I think that the McCroan agreement needs to be revised and teacher expectations are explicitly clear on what this additional time time is used for e.g. school improvement planning needs to be built into this time and non contact time cannot be used solely for teacher planning and preparation.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	I blame ***** (redacted)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1F Restructuring the School Day	Kids need to study more.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1F Restructuring the School Day	Kids need less holidays there always off they don't learn nothing if there always off	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Already far too much movement in primary school through CofE our children are worse off through this teaching method. Teachers already pass the buck by not interacting with pupils saying if you are stuck ask your friend at the table; what about the child who gets asked all the time where is their learning.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This is something a devolved decision making should decide but best education practice in Scandinavian countries have children not starting formal education until 6 or 7 years old. Up to then the development is around play. The Primary school day should not be increased if it is going to be even more formal schooling and testing.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It is hard enough for teachers and staff to get through the useless curriculum that does not take into account that children need to constantly be practising the basic skills in order to be successful learners. Teachers are being forced to push kids through first/second/third etc level in order to have job security despite the impact on the child's holistic learning.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again children who are 2 get to go into nursery if parents are on benefits, yet people who are working there kids need to wait until they are 3! This is corrupt why so many people don't work.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Keep them in school longer. Too many holidays. Maybe years 1-3 have a shorter time table with a view rangers it is increased in 4-6 to prepare them for employment or further education! Make children want to come to school! You need to give them more enjoyment, encouragement and make learning fun! It's too rigid. Too many rules, too many consequences for silly behaviour! You need to be at their level show respect and earn respect!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	If anything, the teacher contact time should be increased. Invest more in education to catch up with the nations that did not close schools during 2020-21. We are forced to pay for this education, costs have increased and Scotland's ranking has slipped significantly. Raise the standard of education by returning to pre-CforE curricula. Bring the focus of primary education back to literacy and numeracy and abandon social justice type causes. My primary 1 child is learning only 1 or 2 phonics per week. The education system should focus on inspiring and developing all children. Not forcing every child to learn at the pace of the slowest child in the country.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your response. The Council delivers curriculum for excellence in line with national standards and best practice.
Modernising our council	1F Restructuring the school day	as per my above comment - looks like teacher/pupil time is already reduced will it be reduced more and then pupils can do what instead? - an example of alternative learning experiences would have been helpful	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	I am completely unsure of how reducing time with teachers is going to help to continue to improve attainment? Would need much greater detail of what 'other opportunities' would be available to children in the space of not being with their teachers.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	I would like to know what is proposed? What would the children be doing?	9. The respondent made a comment on the survey question. Modernising our council	1F Restructuring the school day	How does this proposal translate into savings ? The paragraph doesn't explain this.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the school day	No idea what this means. Description is vague. If length of school day is not changing what would the children be doing for the hours they are not with a teacher?	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the school day	I think more detail is needed to highlight what is meant by alternative learning experiences before commenting	9. Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the school day	Who wrote this? Hilarious. Agile principles include - customer satisfaction, welcome change, delivering frequently and working together. Don't use big words to sound impressive if you don't know what they mean. Again, not enough information.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There is nowhere near enough information here to make an informed comment. What exactly will this look like?	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	I have no idea what this means - you would reduce teacher/pupil contact time to 22.5 hours, which it currently is (so where's the reduction?) but keep the school day the same, so what are the children doing the rest of the time? And who is doing it with them?	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Teacher contact time is currently 22.5 hours per week and there is an opportunity to re-align the primary school day to match this time.' What does this mean? Are you saying there are primary teachers who don't achieve the 22.5 hours? I simply do not understand what is being described here.' This proposal would also lead to a review of the secondary school week by reducing the school week by 50mins, but again with no change to the start time and end time of the school day.' What does that mean? How do you reduce the school week by 50 minutes yet keep current start and end times? Less class time? Longer breaks? Just no detail or example for this to be intelligible.; ' would bring the secondary school week in line with other local authorities'. Again, what do you mean? Without examples it is just an assertion. You cannot be saying teachers work longer hours in West Lothian, so what are you saying?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I cannot speak on behalf of primary teachers as a secondary teacher. I would like a clear, informed paper explaining exactly how 50 minutes will be taken from the school week without reducing the start or end times. This either would mean that we are expected to babysit students for a random 10 minute period, or our break and lunch duties would be extended even further than they currently are. Why is it important to be 'aligned' with local authorities, when you have just once again praised yourself on having 'improved school attainment' levels? Why would a change then be a good idea.	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	It can't possibly have no change if you're proposing changes	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This doesn't adequately explain what you are planning to do to allow a proper understanding. It is just a headline with a massive saving.	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This statement needs more explanation as yet again it sounds as if teachers are bearing the brunt of bad working conditions equalling in stress of workload.	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	This needs further information and clarification. It is difficult to understand in its current format. Could there be a proposed example put forward for this with times etc to show exactly how this would work?	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Not making any sense!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I don't understand this. Less teacher time but same pay. It is not clear what is being proposed against what is current and where the saving comes from.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The information being given to be commented on is so vague it makes it impossible to answer and in some cases understand and therefore I have been unable to give Frank response	9. Modernising our council	1F Restructuring the School Day	I don't understand this.	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Again, sadly, this makes little sense to anyone not involved in school management .	9. The respondent made a comment on the survey question. Modernising our council	1F Restructuring the School Day	I don't understand what is being proposed	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not understand this. How can you reduce the school week by 50 minutes but it is not going to reduce the length of time in the classroom? This does not make sense to me. I think you will need a consultation exercise with parents/carers to ask them about this. Although school is not a childminding service, many parents/carers work, how will this affect those who struggle to find childcare as it is? I've got to be honest, children are hardly at school these days as it is with multiple holidays, in-service training days and we wonder how literacy is suffering.	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	Don't understand what you're proposing above because you don't seem to understand either. Current teaching time is going to be realigned to match the current teaching time? What? Again, if you've been inefficient to the tune of £2.4m up to now then, great, I'm glad you've finally figured it out. If you're just scalping the education budget, you should be ashamed of yourselves.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	The above requires considerably more explanation for it to make sense. It raised a number of questions which should be answered before the public can make informed comment. What is an agile learning culture? Can you include a link to evidence improved attainment outcomes? What do you mean by realigning the school day? Are you proposing doing away with RCCT cover? If so, exactly what 'alternative learning experiences' are you proposing??? air these 'alternative experiences' are not delivered by a qualified teacher you are essentially significantly diluting children's educational rights. If you are proposing replacing RCCT a provision by a qualified teacher with digital technologies, you would need to means test this proposal for ALL children's needs to prove it was not damaging.	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	No sensible comment possible without knowing what an "agile learning culture" is. If you want comments you need to avoid jargon.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The writing in this survey is going to make it very difficult for people to understand what you actually mean. I believe another survey in plain terms would be beneficial	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Yet again, not enough detail to judge the impact this might have though I would imagine this would disproportionately affect poorer families.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is unclear, more detail required on how these savings will be achieved	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Makes absolutely no sense at all	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	More details required as to how this would work.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is not explained fully. It is impossible to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Unable to make provide a constructive comment as there is no detail as to what the alternative learning experiences are.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Without details if what provision would be given during these reduced contact hours it is impossible to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Don't fully understand what this proposal means! A better explanation would have been useful.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	More detail required as does not identify how a saving would be generated.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Current contact time is 22.5 hours per week but then it states that the teacher/pupil contact time would be reduced but not the time in the school day but also match the school day to the contact time? Does not make sense.	9. The respondent made a comment on the survey question.	Detailed modelling of a new school day would take place as part of the implementation of this proposal, with input from teaching professionals.
Modernising our council	1F Restructuring the School Day	No indication here of the HOW tis would work.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity. There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Once again an over-arching, broad brushstroke description of what could be done. The devil, as they say, lies in the detail. As there is no actual detail as to how this would be implemented in schools, I cannot actually comment. What I will comment on is the fact that this survey increasingly feels like a total waste of my time!	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Far more detail is required to adequately expect informed comment from the public.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	This is far too vague in its information - in what ways do you propose to shorten time spent between teachers and pupils, yet still have children attend school for the same length of time.? What takes the place of learning when the teacher/ pupil contact is not there.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	I don't understand this. What are 'alternative learning experiences'. Give the importance of the education of our children, it should be very clear about what is being proposed	9. The respondent made a comment on the survey question.	Alternative learning experiences can also contribute to raising attainment and achievement.
Modernising our council	1F Restructuring the School Day	I'm not going to lie I have zero idea what this means. How will the school time reduce without a change to school hours	9. The respondent made a comment on the survey question.	The length of the school day will not be affected by this proposal which is to reduce teacher hours not school hours.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	So does this risk attainment level success - not a clear proposal	9. The respondent made a comment on the survey question.	Alternative learning experiences can also contribute to raising attainment and achievement.
Modernising our council	1F Restructuring the School Day	This is worded to make it as difficult to understand as possible leading me to believe you do not want people to understand what you are suggesting.;	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Overall I think this statement is very misleading for parents who do not understand the current set-up of a consistent class teacher for 22.5 hours and another GTC registered for the remainder of time to ensure quality teaching and learning at all times.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Please clarify which other authorities this would bring WL in line with as many other authorities have tried and failed to implement a similar model due to backlash from parents, unions, and MPs as a result of children potentially losing 19.5 days per school of 'teaching hours' from qualified practitioners or specialists. Furthermore, the Scottish Government pledged to reduce class-contact time for teachers by a further 90 minutes per week which was supposed to be implemented in August 22, this is very much still in the pipeline so how will this affect these proposals? Please also clarify what these alternative learning experiences for the remainder of the day would be and who would provide this support?	9. The respondent made a comment on the survey question.	Thank you for your comments.
Modernising our council	1F Restructuring the School Day	Surely these 'alternative learning experiences' need to be explained?	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Not sure why we should restructure the school day. This doesn't really explain it well	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	Oh dear, this just reads as someone desperately trying to present a reduction in service as a benefit. This isn't valuable in a making the change of service and pros and cons clear. If you're using terms like align and re-align instead of reduce, you've missed the point of the public having an active role in redefining services or selecting savings. You're rubber stamping, not consulting.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	More information is needed about this so that people can ascertain any potential detrimental impact on school children.	9. The respondent made a comment on the survey question.	Thank you for your comment.
Modernising our council	1F Restructuring the School Day	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1F Restructuring the School Day	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1F Restructuring the School Day	If you reduce the contact with teacher/pupil who will actually teach/look after our children while in school?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So you'll just let kids roam free for parts of the day? What are the actual proposals?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I feel more info on this is needed. If it's goi g to mean less time with teachers does that means pupils especially high school will just end up with more homework to do as their is not enough time in class. This happens already. if you plan to reduce the teacher contact time I'd rather parents had a choice thst their child could start later or leave early.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I do not understand the last statement. Week to be reduced by 50 minutes but no change to start and end time? Who will be supervising out with 22.5 teacher face to face time?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There needs to be more clarification on this.Are you expecting teaching staff to deliver the same tightly packed curriculum in a shorter amount of time?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There needs to be more clarification on this. I feel staff are already struggling to fit everything in. ; ; Are you proposing you employee specialists to allow opportunities for alternative learning experiences?	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	There needs to be more clarification on this. How is this going to be paid for?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	There needs to be more clarification on this. ; ; ; How do you propose to shorten the school week without changing start/end times?	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Not sure explained enough to answer the question, what other activities?? Kids are in school to learn.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This needs fuller explanation before I can comment. I can't see how you can reduce the school week by 50 minutes, yet not change the start and finish times of the school day.	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	I feel that this is deliberately vague. How can you reduce teacher/pupil time yet maintain the length of the school day. Far more detail and explanation would be required on this to be able to make an evaluation of the idea.	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Key though is to ensure kids no impacted by this, unclear exactly what the time used for/ changed to	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	It's very unclear what this proposal actually means. Sounds like longer breaks for pupils but I'm unsure.	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Would this mean pupils would be with another staff member who is not GTCS registered, such as PSW? Above proposal made it seem that PSW funding may be cut. Concern as to the quality of experience pupils may be missing out on. Would pupils be without P.E. Specialist, drama teacher etc?	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Not sure how reducing the length of the school day but no change to the start/end times would achieve that level of saving? Again not enough context given	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	i dont understand this.; s%\$t patter - if this means that its a cut to teacher non-contact time.; reduce school hours, will be a stress for parents who need to plan things around work etc.; Does this mean you are going to put in pupil support workers in instead of teachers?; Would need more information on this before being able to comments.	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	I dont understand the above what you looking to reduce exactly.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Our children deserve to be taught be a qualified teacher. This is the start of a very slippery slope where standards fall. Who are you proposing will provide these extra 2.5 hours for the children? This is not clear in the statement and is extremely concerning.	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	In exactly what way are you proposing to restructure the school day?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It's hard to comment on this as it's unclear how this would look. Do not support a reduction of teaching at secondary and would like to know if this would apply to all secondary schools in West Lothian or only certain schools.	9. The respondent made a comment on the survey question.	Thank you for your response. The proposal would apply to all schools.
Modernising our council	1F Restructuring the School Day	Again the statement does not have enough information. Who will be teaching the children in the shortfall? Children deserve the best education and cutting back these areas, I feel, could result in children getting more anxious.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Who would teach the children when they are not with the teacher? Specialists?	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	How is this going to save money?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	The lack of detail on this consultation makes this consultation survey hugely inaccessible - to those who do not understand the language and jargon used within the descriptions, to the 20% of parents and residents who speak English as their second language and for those who live digital poverty and have limited access to the internet. This survey is completely overwhelming for many West Lothian residents and lack of accessibility is hugely disappointing.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I would like further discussion regarding this point (1F) as I am unclear how £2.4 million will be saved by reducing class contact time. Without fully understanding the impact that the proposed changes would make on the children, I cannot approve of this money saving suggestion. ; ;	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is not set out very clearly	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I have no idea how this will affect our children's education and well being I would definitely need to know more about this and what they would be doing and with whom for the remainder of the school day, I feel this is very unusual but I am definitely keen to receive more information on this	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What does this mean for pupils? Less teaching time but longer breaks?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What would the alternative learning experiences consist of? I read a lot of blah blah blah in there with no concrete examples. Reducing teaching time is what I'm reading. Kids particularly young kids need to feel stimulated and excited by doing or learning things. They also need time to absorb what they have learned but remain engaged. Where and how will the 50mins of teaching time be trimmed?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	I'm not sure how this would work the information isn't very clear!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This is a very unclear statement and does not explain what this actually entails.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	It's not clear to me what this means in practice.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again, this needs concrete examples. How are the children going to spend this time? Unsupervised in the court yard, in front of a screen, or quiet homework time?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	If "teacher/pupil contact time" is being reduced, but with "no change to the length of the overall school day", what will children be doing with the time they are not with a teacher? What does the council mean when they say children will be getting "alternative learning experiences for the remainder of the time"? What exactly will these learning experiences entail? I have grave concerns about the implications here and need more information.	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitably qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	This is not fully explained, how will the length of the school day remain the same start and end time and yet reduce my 50 minutes	9. The respondent made a comment on the survey question.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	What on earth does "alternative learning experiences " mean??? And how can the school day be restructured when teacher contracts are nationally agreed???	9. The respondent made a comment on the survey question.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Who would be providing this cover? Are they simply a cheap childcare option. Why do we need to make the school day shorter. How will teachers ensure the curriculum is taught if less hours to do it in?	9. The respondent made a comment on the survey question.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Unable to comment again due to lack of available information. I feel very anxious about how the council feel it is ok to reduce teaching time for our pupils	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	As a resident I do not understand what this will mean to the schools my grandchildren attend and how it will impact their education due to the vague and broad terms used in this consultation document.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Not sure what this means in practical terms	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	What exactly are these proposals... ; ; If I say I need to meet my council tax obligations but pay less tax.. it means nothing without facts	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How would "alternative learning experiences" look?; Who would deliver these?	9. The respondent made a comment on the survey question.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	Would this mean more time for primary school pupils without a qualified teacher? What impact would this have on their learning? ; How would the change for secondary school pupils affect their choices moving forward? Would this result in narrowing the curriculum for these pupils?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Very difficult to give much of a comment until more detail about how this would work in each school was available	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	A before can I assume that 'opportunity to provide alternative learning experiences' means cutting teaching time?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	This doesn't make sense. How do you cut 50 mins off the school day without reducing the length of the day? If 22.5 is currently teacher contact time and you're saying this won't reduce then how do you reduce teacher/pupil contact time. Writing these statements in plain English would save me trying to figure out what you mean.	9. The respondent made a comment on the survey question.	Thank you for your response. Other qualified staff can lead activities in the remaining time.
Modernising our council	1F Restructuring the School Day	How is this a saving? Where would the 50 minutes during the week come from?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Again what would happen to teachers who cover mcrone in schools? Would they still have jobs?	9. The respondent made a comment on the survey question.	Thank you for your response. The budget saving would be achieved by reducing the need for these staff.
Modernising our council	1F Restructuring the School Day	Does this mean kids may be left on their own at times in the classroom? Totally confusing again.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	Kids education should be a priority. What are they going to be doing for 59 minutes? You are too vague on the details here	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	More detail needed of how much teacher/pupil time would be reduced to establish the impact this may have on learning. Wouldn't want this implemented without parent consultation.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How are pupils being supervised in these alternative learning experience....how therefore are pupil teacher contact times reduced?; ; Pupil time without appropriate staff is wasted time secondary and primary.	9. The respondent made a comment on the survey question.	Thank you for your response. Other suitable qualified staff can provide alternative education experiences.
Modernising our council	1F Restructuring the School Day	I am not really getting this. If you are still paying teachers the same salary- how are you saving ? I presume you will fill the hours with sport/ support staff - but who is actually in charge ?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	How would be responsible for the pupils if school and what experiences would've given if teaching time is realigned but school day times are staying the same and what impact will this have on pupils	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1F Restructuring the School Day	This proposal doesn't make sense. How would you realign arrangements to match current contact time simultaneously resulting in a reduction in contact time. Separately it would be useful to explain what the alternative learning experiences entail and who would oversee. The proposals also lack clarity re secondary school week. It could be useful to explain what is recognised by the school week in this context e.g. is it actual class time. If start of day remains the same as does end of day but mins in the school week is otherwise reduced by 50mins one could assume that breaks aren't counted as part of the school week. It could be easier to set out the proposal as equating to extending 'play time'. (I'm discounting other possibilities around making fundamental changes to clock and time structure e.g. having fewer but longer minutes in an hour but this could equally be read from the question as posed.)	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1F Restructuring the School Day	So this means less teachers and more support staff? Pupils need qualified staff to support their learning and I fail to see how these measures support this. What do you mean by alternative learning experiences? More explanation needed.	9. The respondent made a comment on the survey question.	Thank you for your response.
Modernising our council	1G Review of Services for Children	Happy with this proposal and efficiencies as long as the children are looked after and protected to the same or better level and that not one is put at risk.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree, team alignment without cutting the service standards should be implemented.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	All for efficiency of services but you need to be careful about reduction in staffing - that should be the bonus not the aim of any review. In principle it sounds like a good approach	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I have always been wanting to do fostering as I work with children and have disclosures and would like to help a family out struggling themselves fostering is a very good j	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1G Review of Services for Children	Seems like a good idea as long as reducing staffing does not have the reverse result in delivering the services certainly any duplication should be removed in the services so more direct to what delivering	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	More efficient way of working which targets the most vulnerable and of this improves their life chances, it is a good suggestion	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1G Review of Services for Children	This so fantastic for children who need help and support especially the most vulnerable	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1G Review of Services for Children	As long as children are still at the centre of the service and cuts do not impact the opportunities these children have.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is a good all rounder , we need to help our younger generation as they will mould our future.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1G Review of Services for Children	Yes focus on the ones with the highest needs.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This should have happened years ago, money has been wasted in transportation alone bringing children back and forward to parents houses and schools	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As long as the redesign and alignment makes sense and isn't just done as a cost cutting measure - kids still need and should be able to access support outwith mainstream education provision.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Having worked in front line CP. this is not done well at present. Foster carers are not trained well to deal with traumatised children and too easily some give up on the placement. (Not all, and there are some excellent carers within west Lothian) Glad to hear that the plan is to strengthen this, however hands on support needs to be available to carers. SCET often don't visit and the carers need someone to visit, listen too and support out with the core office hours.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds like a great idea, please go ahead.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children deserve the best chances to survive with the best service possible West Lothian lacks in resources for a few things, fostering in West Lothian can be hard as there is limited resourcing, limited bigger houses and definitely lack of things to do	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Welcome the fostering initiatives but not sure how reducing staff is going to help this process, is it not going to increase the risk of those most vulnerable falling through the cracks due to staff shortages.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Protect our young people by not "targetting" front line staff	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I think a more streamline teams would work well for kids, surely the would prefer and familiar face.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I support this proposal. The council has made great strides in supporting Children's services through integration and modernisation and should continue to do so.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	As an ex care leaver social services are a massively needed service. More funding is needed to build experienced staff members to deal with the trauma a lot of young people and children are dealing with. It is important to try keep families together and have carers who can care for children with disabilities as they are often the ones abused or not cared for.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds good but are there the staff available to deliver this service?	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	It is essential service will maintain its focus on supporting children most at risk and providing earlier intervention services in line with statutory (legal) requirements.; If the range of fostering options can be strengthened in such a way to avoid children having to leave their home community, this would be a very good outcome. If this is a possibility, it does beg the question as to why it hasn't been done already.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Streamlining services can only help- if it's effective. Children are bounced around, being refused help and sent to the next place. ;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	If these savings can be realised by shifting from private companies to council-overseen services I am supportive.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This suggestions seem to propose an improvement of the service while providing a saving. This seems much more worthwhile than cutting the number of teaching hours of all children.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Outstanding work congratulations WLC.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Support the idea of care in families rather than groups. My professional experience is however that foster services need to train people better and social workers need to be in closer contact with the families and children.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	If we provide better services at reduced cost, it makes sense for the council to do this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children at risk should be removed earlier from parents. The amount of services involved in trying to assist parents and the amount of damage done to children due to this is abhorrent.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Wow sounds amazing	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Fantastic news that extra training will be given. ; I would suggest providing 'trauma-informed' training to potential carers should become a standard	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	agree but dont understand how cuts can make this be viable	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This needs to be looked at to ensure the children are given the best possible care.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Assume this means less institution based support with more community based fostering which should be beneficial to the child and as such a good thing as long as carers support is increased to cope with increased demand.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Investment into our most vulnerable children should be a high priority.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I would welcome a review of social policy.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I would also welcome any promotion of foster care within the authority to prevent any CE young person from having to live outwith WL. I'd also welcome a review of our current provisions for looked after young people residing outwith the authority in paid placements which can cost in excess of £12,000 per month and the adequacy of such provisions.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	On paper, this proposal looks like a good idea but fostering will never be able to completely cover the cost of care for our most vulnerable young people, especially if it is paired with a reduction in the support available from social policy. This service is already stretched to a point that has reduced its capacity to operate effectively.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Understand the concept but have concerns about how feasible it is to increase Foster care when it is already difficult to recruit and retain	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Great ideas. I also feel to help children the school environment can help with support of parents. Encouraging participation of parents to take part in school activities (parent counsel etc) this adds extra support to children and parents can help to support and spot and report potential issues.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	If this can be done without putting our most vulnerable children more at risk, then ok.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Possible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	this appears sensible - however job losses are disappointing.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Looking good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Yes, this seems good and worthwhile. There's more support then ever for children, but it seems sometime parents are more interested in a diagnosis than in helping their kids to grow as people. Hopefully this can be part of your thinking.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Anything that supports vulnerable children during these times is essential.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds really good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	After reading the above, I will continue to trust your decisions in the areas I have no experience in , but thank you for the opportunity to co-operate !	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	More health visitors are badly needed across the whole authority and specialist early intervention services. WE want to Get it right for every child not wrong for more children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	More positive foster care availability would be positive.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This would be a good idea as there are a plethora of children's service provision all attempting to achieve the same goals from slightly different service provision perspectives.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agreed. But I would note that the most chaotic families produce the most damaged and disruptive children. These young people create a huge burden on their communities in terms of anti-social behaviour and criminality. If Social Work support is less available to families in general, it should be more concentrated where it is most needed and at an early stage. There is currently a tendency to wait until the young person's behaviour becomes unacceptable, or they become old enough to be dealt with by the criminal justice system. There needs to be clear sanctions for these children, and parents who will not co-operate.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	A review of childrens services is very much welcome and will hopefully increase efficiency. Reducing staff numbers is a good idea as long as it doesn't affect the quality of the services provided. it is vital that services are accessed early particularly for those most at risk. It is all about keeping children safe and cared for in their own communities. The development of intensive foster care for disabled children is very much welcome.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Keeping young people local, and in their own communities is absolutely in line with council and educational values.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Children require stability and consistency; therefore, this will be a good for the children of West Lothian.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think this makes a lot of sense as it helps to keep the children within their home community to enable them to continue to make strong links with their peers and home supports	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Aligning teams more closely makes sense but not necessarily by reducing staff numbers.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	not had any dealings however anything that can provide support and guidance for help	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with the streamlining of teams.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The problem at the moment is that there is so much focus on high tariff pupils. Early intervention is not something I see happening as whenever a concern is raised, it is almost brushed off until it becomes more serious as they are dealing with the bigger issues all of the time. Again, reduced staffing is not the answer. By all means, streamline process, but use other staff to help proactively.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Engaging with the public, and providing support, which doesn't always mean spending money, will actually provide a better service for those most vulnerable. Early support and help, rather than last minute intervention will have a better effect on the whole community, rather than our community being shallow and disjointed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Things should be streamlined. This cannot become a responsibility of teachers though.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	This sounds like a good idea in principle but in practice it could be very different. At a time when people are struggling financially and mental health is poor, many children may be in situations of increased vulnerability and these situations may be overlooked as staff are stretched so thin. The recruitment of good foster carers may also be tricky in a time when family budgets are squeezed.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This sounds like a good idea but people like me in Westlothian don't know about this program	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is great news, there are so many vulnerable and underprivileged children in West Lothian, we must strive to reduce their stress and ensure they are warm, fed and safe.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Young people and foster carers a long side education require more support to help the young people with challenging life's. Health visitors need to be more visible and available to support all stages from the onset to stop children falling through the net.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Children's care requirements are essential and fully support any scheme that put children welfare first.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	This is not something I have a lot of knowledge about but would support if felt there was need.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	An area that needs improvement but unsure how this can be done with "reduced staffing".	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	The people in these departments are the ones who know best and know what can realistically be done as they are the ones who understand and see 1st hand the situations. These are the ones needing consultations with. And its a very difficult job. They need listening to so the best decisions can be made	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	The people in these departments are the ones who know best and know what can realistically be done as they are the ones who understand and see 1st hand the situations. These are the ones needing consultations with. And its a very difficult job. They need listening to so the best decisions can be made	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	As much support as possible to traumatised families. Help to stop the cycles of abuse. This dovetails into housing policy as families need safe, appropriate housing so hard crackdown on illegal landlords etc	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Again, it worries me that we are going to lose valuable Staff members with years of experience, training and service delivery who have dedicated themselves to the Service and Service provision over the years. My understanding in reading this question feels like we intend to recruit more Foster Families to cover these changes. If I am understanding this correctly then I agree that Foster Placements can be invaluable however, we really must tighten up the ongoing Training requirements of Foster Carers if this is to be the case.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reducing staff sounds risky for a group of children who need a lot of support but if it can be achieved without loss of quality service to children the broadly agree	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Placing traumatised children in loving homes gets my support	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As long as the children requiring the use of social services are not disadvantaged. Also need to ensure that services are available when required.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	fostering process is very long winded and time consuming all round for everyone it needs to be looked at definitely to see if it can be slimmed down any with processes etc	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	The principles of strengtening fostering arrangements and also providing intensive foster care are absolutely essential and ensure that children have the support they need around them at the most important times. Ensuring this is enacted fully and properly, may serve to reduce the reactionary aspect and huge demand placed on social policy.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	This is a nice idea. I hope it can work	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Agree with this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It would good to keep children in their own area of West Lothian and quality foster care should be provided.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think that this is an area of legitimate potential saving. Supporting West Lothian's most vulnerable young people to stay in West Lothian would provide better connections for our young people as well as potential savings.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	with little detail and data available - it feels like the right thing to do but its still unclear to me	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As long as the standard of foster carers are appropriate. ;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	My knowledge is low on this, but it seems like a good idea as long as it still covers the safety of the children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	By all means, please review. But staff reductions again. Will anyone be left? Rather than using some consultant's report with potentially "dressed up" ideas, why just not say that you are leaving it to the parents and scrap the whole unit. Clearly, support in certain situations where there are no parents or not supportive parents and the like needs to be evaluated and I guess you need to cut your cloth accordingly.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Yes but more information needed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agreed. Increasing the number of foster placements in West Lothian should be a positive alternative to paying for expensive placements outwith the council area, and provide better support for the child	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As long as we Continue to care for vulnerable children then; This sounds ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think it all sounds great that these services will be run more efficiently and increased where necessary.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree that the children will benefit where possible remaining in West Lothian being near family/friends. Currently the teams work well and have an even spread, greater use of technology and flexible working could help efficiency/saving	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Positive if Foster Carers can be found	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think it strange that there is a push to return to face-to-face Child Protection case conferences and Planning Meetings for accommodated children given the cost implications. If families/young people indicate a preference for face-to-face meetings then that should be respected wherever practicable, however, there are significant savings to be made in having online meetings in terms of: - no travelling time wasted in getting to meeting venues (Reviewing Officers/minute takers will be able to cover more reviews); - no transport costs (pool cars, fuel, etc)	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Kinship children should be included, their carers get very little help especially financially	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Provided that this is efficiencies within the teams, but service levels are at least maintained, this should be getting done anyway.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Competent managers. Competent foster carers and getting to the root cause of why is this needed. ; Poverty/ lack of achievement / social issues	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Possibly. Will you get more foster carers though? Is this realistic?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Anything to improve the lives of vulnerable children is a positive thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As long as it improves core services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think you should look into some ppl to see if they actually need all the help that others could benefit from; I know someone that has their own transport, yet her child gets a taxi from home to school and back, I think a lot of ppl play the system, cuts can be made	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Anything that improves the options available for fostering, and achieves positive outcomes for children should be supported. It has become clear over many years that the breadth and complexity of providing children's services is not to be underestimated, with lives at risk if there is not sufficient resource. Any rationalisation in this area must be closely scrutinised and due care taken to ensure that no members of staff or child under their care is put at undue risk.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This seems a very positive proposal - the early intervention approach has great potential to reduce costs in areas such as children's social care.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	this is a much needed service change and think will help LAC a lot with less time spent adjusting to new schools, social groups etc	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	The social work budget is far too high. Whilst I agree there are efficiencies to be made by reducing staffing, and I am glad to see that forms part of the proposal, the council should spend some time with the small number of families who use a disproportionately large portion of the social work budget to try to educate them on limiting the number of children they have, particularly when every child they have ends up removed from their care. The council should also carefully consider whether it is trying to make short term savings which result in longer term costs (ie refusal to send children early to secure units due to immediate cost resulting in further interventions in future, or refusal to send families to residential parenting assessment units early on due to immediate costs but resulting in drawn out childrens hearings and permanence procedures later on). Spending should be weighted towards preventing children being traumatised to start with rather than dealing with it afterwards. Foster carers are already well paid, foster carer rates should not be increased. The practice of renting entire houses with multiple round the clock staff for one or two children only should be stopped - larger residential units provide economies of scale re staffing and housing costs	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	GIRFEC needs to be top priority here!	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	If this cost saving can be achieved without introducing significant compromise to the service it would be the right thing to do.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Happy with this proposal and efficiencies as long as the children are looked after and protected to the same or better level and that not one is put at risk.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I support this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with this measure	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with this propoosal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Support	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This would be amazing	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Great	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No issues with proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Streamlining and the avoidance of duplication of work is to be encouraged.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No issues	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Seems OK.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reasonable proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

Modernising our council	1G Review of Services for Children	Support	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Seems reasonable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds good in theory	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	These developments sound positive	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This seems a sensible idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This should be done.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds like a reasonable approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	A good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Streamline social work by reducing the amount of senior social workers and social work managers. Integration and closer working will be difficult due to each section being protective of their area. Reduction in senior social work officers and managers and increasing front line support and social workers will improve this situation. Everyone talks about trauma and it is the new buzz word for sure, but how many practitioners and foster carers are truly trauma informed.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Whole Foster Care system needs a review and proper protection of the children and their foster families needs addressed. Current model seems more interested in the parents rights.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Bringing the various teams who care for children in society closer together is welcomed while not reducing the scope to ensure that all children are supported removed from risk if required.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree that foster care should always be the first point of call for children. They require a family asap and a foster home does not provide the level of care a family can.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again, savings must be made somehow, and although it's worrying removing it from these most vital services, an opportunity to redesign service delivery may be an opportunity to improve services and become more efficient. There's no point in doing things because they've always been done like that.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	I do believe that children are best fostered within their area where it is safe to do so in order that family contact can be maintained but, for safety reasons, that cannot always happen as safeguarding must take priority. Employing more foster carers in the area sounds like a good plan although, that will cost money!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As long as the children don't lose out on anything this money is very important .	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think quality of staff is so important here as this can be a real gamechanger for children if they have the opportunity to be supported by someone they can build a rapport with. Continuing to role out awareness sessions in schools on children's rights, support services etc. Opportunities for peer support, anti-bullying, motivational speakers, etc well help our children to build resilience and be inspired. Increasingly online safety is so important.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	strongly agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Sounds OK	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	In favour of this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	All sounds quite positive	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	A good idea to keep local children within WL.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Great idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This sounds like a good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Absence levels within social policy are incredibly high with a very high staff turnover. Continuing to make cuts to social policy puts our most vulnerable at even greater risk. The system is creaking as it is with the current staff levels and there is a risk to be able to fulfil statutory requirements with further cuts to personnel. Morale cannot be high as the service also went through a significant cost saving exercise the last time round too. The authority remains reliant on external providers delivering care for the most vulnerable children when local resource is exhausted. It is a false economy to make efficiencies in this area only to then pay a private provider for care services which should be in house. Again, any restructure requires highly skilled staff experienced in social policy work and it remains unclear if the skillset exists within the local authority. Increasing foster options makes sense and I agree with this approach but this has been proposed for a long-time with little impact or change. Other local authorities invest in this area and WLC seem to be lagging behind.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Great idea. Early intervention is key	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agreechildren should be in foster care if possible....not in institutions and foster carers are properly supported	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This sounds like a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Should be considered	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with the above	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Very happy with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with this proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Total support with all above	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Argee	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Happy with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Totally agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	A streamlining of support services would make accessing relevant supports much easier for parents/carers and educators. Reduced staffing in terms of the number of individuals involved with children may not be a bad thing, however it is vital the council continues to ensure all services are able to meet the needs of the communities they serve.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I am not sure how savings can be made here. I support the savings but the care for children needs to be given.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Ok that sounds like a good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with this review, children are the most vulnerable in our communities and we need to put their needs first	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	A more connected approach is always beneficial for children at risk, if this can be streamlined and ensure no reduction to service for those in need of service then this would enable some budget cut. I believe this will be difficult to maintain statutory legal requirements whilst maintaining service.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Increase foster care yes, but, make sure those who will go onto foster are regularly visited ! I've known foster carers who treat the children in their care worse than animals and THIS should never happen !	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with more foster placements being provided in West Lothian.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	These challenging times bring different social pressures. Can only be in favour of a proposal that helps those most at risk.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I would be worried about decreasing the numbers of social workers available they have a vital role. ; ; Some proposals sound interesting and would like to hear more.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Provide the service that required. If that gives a saving great. But service is what is required.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I would suggest that any risk of service failure arising from the revised approach be thoroughly assessed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	sounds good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree that services need reviewed however savings might not be possible without a negative impact on the support available for vulnerable children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Is adherence to statutory (legal) requirements the most that WLC should be doing? It is good that attempts for strengthening are indicated for the range of fostering options in WL. What are the exact parameters for this saving of £1.2 million?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	'Supporting children most at risk' shows good intent and responsibility. Of course at the other end there might be an impetus to encourage exceptional pupils.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree, however the cost of sending children to school in taxi's is something that should be looked at.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Am sure this could be achieved and not to the detriment of the kids ...too many services and overlaps as a children's panel member for over 17 years I saw lots of disjointed and duplicate services ...and lots of opportunities to streamline and focus on early intervention	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree as long as staff not stretched too much but that kids get the help needed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	increase in fostering is a good thing, keeping them in their local area.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	You are stating reducing staff levels while social work is currently understaffed based on the waiting time and reaction times. I agree of a review and that early intervention would be necessary. But it may be better to strengthen the communication channels between the education and social sector.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Foster care is a good way to go.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Streamlined teams are good but there surely still needs to be investment to improve this service as per your proposal.	1. The respondent advised that they agree with the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	It seems there needs to be a restructure. When families ask for help they are not getting it except from school staff.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As long as it isn't placing vulnerable kids in units.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	In theory this is a good idea but would need to be tested. ; ; How can we ensure that needs of children are sufficiently met in all respects?; ; How can we encourage and support fostering at large?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I have a child with a disability and would like to see more support in our community, as we have to travel regularly outwith our community for help with our son.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This would need to be looked at very carefully- support for children is on the increase and the schools need more support from other agencies to support children with the increasing inclusion agenda.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good idea as long as outcomes are measured and QCed against previous performance to ensure that the savings havent affected those children who are care experienced as they have reduced life quality.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds ok, I think the amount foster carers get is far too much, I know people who think it's easy money and better than working	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	If services are maintained on a more efficient way, then fine.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Always a struggle to recruit foster carers. So many extremely challenging/vulnerable children. Current system not working	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I would support the increase of provision for vulnerable children in West Lothian.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As long as these children do not suffer more trauma anything to help them can only be a good thing. I feel that in some cases the children may need to be moved out of the area for their own safety & mental health, this would need to be decided depending on each case	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	'Streamlined' but offering the same service? Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Trauma focused services will save money on the long term.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds ok but how do you save money by doing this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Fully support this measure, especially the fostering options. It will be great if more options can be provided in West Lothian.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with this proposal children should be on family homes as long as carers are well supported	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Aligning teams more closely sounds good if it means those with different responsibilities working better together for vulnerable young people. Hopefully it doesn't mean stretching staff beyond their capabilities and asking people to do more than they are already dealing with.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Child wellbeing and protection should remain at the present funding levels minimum, if there are ares to tighten up and become more effective then yes, however not at the risk to vulnerable children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with this as long as foster carers are supported properly	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Ensure foster carers are doing this for the correct reasons.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is a good plan but there are people who would like to foster kids who have brought up their own children who would no be accepted	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds good but would like to see the review outcomes before commenting .	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	With the problems children face and a Social Policy in crisis the idea of more foster carers seems a credible option.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This video started a great way to help people and we also need the services available	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Anyone who is in foster care to ha w the best possible environment.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This has been long overdue however my concern is that there may still be children put in danger due to neglect	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This looks good on paper but may need further details to understand whether this will degrade services	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Poor provision for children with disabilities. Any improvement is welcome.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree to strengthening foster options to keep children in same council area	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Social care for vulnerable children must be kept in some form	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think this is needed. What could also be put in place is more awareness of the risks of child's disability during pregnancy as West Lothian seems to have a very large amount of disabled children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds OK in theory if it all works to benefit the children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Very important and hopefully no compromised after savings	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There just isnt enough foster carers in west lothian to start with.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As previously mentioned ., there is alot of middle assistant manager positions where one person could oversee the full area	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Early intervention is good..	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is amazing . These children; Need as much support and help; They can get so I'm 100% in favour; Of this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	West lothian does not pay extra to cope with increased costs of caring for a child with a disability. Will this also be reviewed and an enhanced fee applied?; Services within the community need to be reviewed to support these placements (outreach & regular engaging activities especially for disabled teens)	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This sounds like a great proposal but will only work if children's interest if there are all the available resources and families available that they might need.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds good but again how is that going to save money if done properly and why wasn't it being done before.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I am all for keeping kids in their own areas so they do not loose contact with friends and family that they are permitted too. Some parents need a good kick up the you know what and there needs to be more services available to help families who have needed and asked for them.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Any investment in foster care is worth while and hopefully provides longer term savings.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	We like the increasing the foster care but where are these people to be found ; While there maybe some move to have more overlapping of services why has it taken to now Please remember the problems some of these at risk children have suffered and the effect they have in schools	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agreed, but a voluntary committee made up of past/present foster parents and Social work professionals need to have input to ensure a smooth operation of this vital service.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	If the Council can manage to reduce the number of children having to leave their home community to be cared for, that is to be welcomed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This sounds good, we need to create more strong families	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is a needed change too many of our social care for children and young people is provided via private organisations. I feel that this is not a service that should be privatised.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I support rearranging teams to provide the most efficient service.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with proposal- outcomes for children staying in WL	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I know outcomes of fostering, some got even more problems then actual parents. But some can save life of a child. It is very difficult to judge	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree partly - don't lose staff unless being relocated.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Fully support all of the goals outlined with the exception of reducing numbers of staff in an area that is already nationally recognised as being chronically under-resourced with trained professionals.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Any reduction in staffing in this area is a bad idea	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	So where are the savings coming from. All i see is strengthen fostering options. Where are the cuts. More politic speak and no truth	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Staff cuts by any other name. Is the target to increase the number of foster carers realistic?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Never enough.; Perhaps early intervention spending would help in the long run - support families in crisis earlier and better.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Prevention is so necessary for good outcomes so protecting only those at risk may reduce good outcomes for children who may have responded to intervention at an earlier stage.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	But what will be lost? Not clear where the savings will come from or what the impact will be to some of the most vulnerable children in society.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	social policy is always redesigning or amalgamating teams' services etc again like teachers they are stressed with workloads hence the failures across social services we see through the court systems public enquiries etc. if they are given enough staff then the job and service, they can provide will be excellent.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How can reducing staff in an area like this be a good thing?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is proposing to achieve efficiency savings through transformation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes.
Modernising our council	1G Review of Services for Children	This seems to be taking money away from those who need it most.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	i can see this going way over budget while under performing its task by chucking money at carers and there building/ transport needs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I am not sure how you can "maintain its focus on supporting children most at risk and providing earlier intervention services in line with statutory (legal) requirements." by cutting staffing levels- it seems you are expecting to achieve more with less which is a good trick but is it actually achievable? I have no experience of this service area but would expect that staff already working there do not think this can be achieved.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There is currently minimal evidence of truly inclusive early intervention and a further alignment of teams would also be a no thank you. Is cost cutting more important than health and wellbeing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How can you develop and expand services and still have to make a £1.2M Saving!?!? We are affecting the lives of vulnerable people when what we should be doing, is encouraging them, giving them access to services, being pro-active, working with schools..... Involve the voice of the young people and the individuals that access these services!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Unclear how a review of Social Policy children's services, achieving redesigned/aligned teams - and a reduction in staff - can also achieve a strengthening of the range of fostering options available.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Although I have no direct knowledge of this area, I would believe a £1.2 million cut to support for the most "at risk" children in West Lothian is a highly risky strategy. I would place these potential savings at the bottom of the to do list.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Dont see how you can do this - its basically just loosing staff from what I can see	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Good luck with this. Social workers are stressed to the max currently and you are streamlining teams!?! If you pull off getting more quality foster carers then that's a positive, but don't just throw money at them!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Staff are already struggling with the volume of work and case loads, the reduction in staffing levels will just add more pressure and staff taking time off due to stress.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Giving in one hand whilst taking away from the other. Robbing Peter to pay Paul. Sound familiar? It looks as though you're going to fund additional front-line care, but at the cost of the crucial back-up and support that families need from local government in order to actually be able to make a positive difference in children's lives. Or am I missing something?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	These teams are already on their knees and over-worked! Again reducing staffing is not the answer here!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reduced staffing should not result in gaps in already stretched services. We have seen issues in England where horrific situations have been allowed to develop due to cuts in these crucial areas.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	It may be difficult to streamline while improving the service provision to this critical area. Childhood is the foundation to building a successful adult life. £1.2 million seems an optimistic saving for this area and careful consideration will be required to ensure that the service provision meets the requirements of this critical area of children in crisis	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This needs to start going back to basics, the council have been failing the society it serves for over a decade now. ; More responsibility needs to be given to those on charge of delivering social services, and more push back to the Scottish govt needs to happen to change the ridiculous laws that is destroying the communities we live in	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Stop hiring part-time social workers and hire personnel that will not only have the children's well-being in their focus but that of the people who agree to look after them, also stop paying 3rd party agencies extortionate fees to do the jobs that we pay the social workers to do..	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I am a kinship carer of my niece and the help we received from social work is abysmal. They are over worked, under paid and not really there as a unit. We had to do a lot for ourselves and I also had to fight for months to receive any kinship payment. Having a child of my own was hard enough but to take another on, with hardly any support is not an ideal situation. These kids are far too precious and more important and need the support of social work and foster carers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This sounds awful. How can you have less people doing the same amount of work and ensure good outcomes? More Foster families and increased galp and training means more cost NOT less. Also the way Scotland and the UK is going you will need more staff in order to keep children safe. Remember, you Have a duty of care for Your staff wellbeing as well as the childrens.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This seems like an area that should not be reduced at a time when there are cost of living issues as it is going to be more critical and could result in more children 'slipping through the net'	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staffing once again, streamling services, jargon for cut backs in services that are necessary and in short supply as it is.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I think we already know what happens when staffing levels are reduced and team take on more workloads. The real time a staff member spend with children at risk is greatly reduced and kids fall through the gaps. Then when something horrific happens an enquiry is launched and for what? Saving some cash rather than having the right number of staff for the job!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Unclear how strengthening support, though welcomed, will lead to Savings of £1.2 million	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Staff cuts then?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Leave this alone as I know it will be needed by more familys in coming years	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Never undrperstood how reducing staff improves the child's experiences	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reduced staffing will put vulnerable children at risk	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	I don't see how cutting staff will help children at risk.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Social services do not have enough staff to efficiently ensure the safety and care of vulnerable children redesigning/aligning (another word for cuts) will only serve for a poorer service not a better one	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Social services appear stretched at the moment with lengthy waits to access services. Can only see this as making the situation worse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	All client groups are entitled to receive support to meet assessed eligible needs.
Modernising our council	1G Review of Services for Children	I suspect that your idea of efficient services does not actually in reality prove effective for those working for you or in care. Social workers and others staffed with looking after children are overworked and/or under valued as it is. The only outcome of this saving will be further trauma and grief for the young people who find themselves and their families in need of such services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Children's services can not be cut, it is unrealistic to say you will increase Foster carers, when Foster placements are currently very limited. Please put money in to respite nd residential services instead. Parents who are carers are crying out for respite more than they are for foster carers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I do not have adequate understanding of the service but this seems like it would have a negative impact on some of the most vulnerable children. Increasing wait times and case loads for staff and putting children at risk.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I'm unsure how you think you can save that amount of money but provide more options.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again, what actual changes? We need specifics. Without more detail I can't tell if the plan is to reduce staff and funding to CDS. There is already a massive funding gap to this service with families in crisis waiting years for assessment only to find there are no services available to support the needs of their child. Specifically, ASD and ADHD services in West Lothian are non existent.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	'Streamlining' and 'reduced staffing' in such matters does not sound co ducive to improvement of services for children. If anything you should be spending more and not saving money???	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Making Social Policy's services for children are vital and WLC would do well to remember and understand to diverse experiences of those children involved. These children dont fit a pattern and an individual approach is warranted more often than not. The service requires flexibility and funding not narrowing. There is possibly an argument to be made for some internal reorganisation, staff training and accountability without the blame culture.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How can cutting funding in this area help the children involved?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	If placements breakdown because carer's aren't supported the very children you're claiming to do this for, will suffer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There's already a lack of foster carers, never mind carers able to provide "intensive" support. ; This may read well, but it's not that simple. ; The desperation to make your plan fit could encourage carers for the wrong reasons. And the support and training they would require, will be costly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Is this reducing staffing at the lower end of scale or more middle / upper management.?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Staff are already stretched and case loads are over capacity how can you even consider reducing staff numbers. What you can do is look at your management structure and reduce the amount of managers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	More savings which impact children. Easy target for a council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This is an area that is drastically underfunded to begin with. This should not be an area where any savings are made.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again how will saving £1.2 million help deliver a better service?	2. The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	With one exception, WLC has closed residential children's homes and in my experience this has had a detrimental impact on some children/young people in the care system as well as their Foster Carers and their families. The Family Placement Team provides great support for Foster Carers but the Social Work support for families/children/young people can be erratic with some SWs doing a fantastic job but others.... Is this due to already tight staffing levels? What impact will that have on what appears to be already stretched departments?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Is this not just going to put extra pressure on services which if they're anything like elsewhere in the country are already over stretched? My observations elsewhere is that this leads to staff going off sick, putting extra pressure on the rest of teams, and leading to staff leaving for other posts. If there's the spare capacity in the system to do this then great, but what are the risks?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I feel social policy staffing is already dreadfully stretched, reducing it further is putting vulnerable families and children at even more risk.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Previous savings suggestions were for taking away children's food, clothing and education (in other words basic needs). Another imbecilic idea is also to remove their welfare!?! Does this recommendation really want to reduce the funding for kids in foster care!?! This appears to be targeting the most vulnerable in our society and the one's with no voice.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers
Modernising our council	1G Review of Services for Children	Kids cannot be allowed to be lost in system and need more money not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	I would not suggest reduction in staff as more staff required i have seen people struggling in very difficult times	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Taking away those who are skilled in working with children is detrimental.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again more contradiction, saving £1.2 million cannot be the result of investing and increasing things. I think this is really saying that some services will be reduced and others will be amalgamated therefore making savings financially but not giving that better level of service West Lothian Council always profess they do.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	So only the most traumatised children are going to be supported. The families out there that are working hard with their children, who may be struggling with behaviour, learning disabilities 3rd are to lose any little help they get!! This will inevitably lead to rises in anti social behaviour, children out of control in school etc. Already there are children in schools who should be supported and are not and teachers are having nurture groups...what will happen here? More children through the cracks	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers
Modernising our council	1G Review of Services for Children	Children, not money, need to be the priority. Decisions should only be made if it is in the best interest of the child. There are already a lack of social workers for our most vulnerable. Staff are stretched too thin with too many case loads.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again reducing staff is a concern	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again, another cut affecting children, these proposals are making me feel very uneasy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	"Efficiency" is too often jargon for reducing! These are children who need the most help and support and who currently do NOT receive enough. Waiting times for most services are horrendous, so to cut any money is ludicrous! We are a first world country!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Service is already stretched. Cutting staff will further erode the service to our most vulnerable young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Vulnerable children already slip through the net, a reduction in staffing levels in Social Policy could result in many missed cases.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Many children who need fostered should be removed from the area they are in for their own safety and development. How do you expect a child to thrive if they stay in an area where they will undoubtedly come into contact with family, extended family or others of whom they were at risk.; Fresh start and perhaps the space will allow for progress to be made	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Worrying comment about "reduced staffing".	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Sounds like you want to replace qualified social workers with foster carers. Reducing staffing will lead to poorer outcomes for children at risk. It will also push responsibility onto school staff, who are not trained (not want to be) in social work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Social services, like education, seems to be a service that is always cut when 'trimming the fat' exercises are to take place. Many families, due to the cost of living crisis and recovery from the pandemic will rely more heavily on social services in the next few years. Investment should be made, recognising the future need.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again, negative thoughts. Teachers have to put knowledge to their heads. School supposed to be 2nd home not a kids auction by social service. Is this even real survey?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Again, staffing should be increased in any re-design. There is a social disaster looming due to the recession and social services are going to be facing a tsunami of families in crisis. We must do more as a council to help.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Social policy are on another planet they have been no use to me or ma y family even when I needed them most. They need a good look at.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	The waiting times for childrens services is worrying! By reducing staff you are increasing the risk of children and their mental health! Foster cares are needed as the horrendous home lives that poor children are having to endure is shocking!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	The children have to have their needs met first, farming them out to other people does not give them security and stability, I realise that you have to save money but not at the expense of the child.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	All I read is cutting staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	These teams are already struggling to deliver for the rising numbers of children with needs and the most vunrable in our schools.This will put lives and futures at risk.	2. Modernising our council	1G Review of Services for Children	Reducing staffing with this already struggling area is a huge mistake. More children will fall through the net and not be supported properly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	These children need extra help not less staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	These children need extra help not less staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Why are you foisting all these cuts on children. What the hell is wrong with you. Childrens services should be the very last thing we touch.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	The effective service to these children must not be reduced. Sounds as though some children at the lower end of need will suffer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Sounds like our most vulnerable children and young people need more funding and services available rather than having these cut. The saying, 'spend to save in the long run' comes to mind. Appreciate that services might need to be redesigned to ensure impact but concerned that social policy would only be able to respond to crisis situations rather than focusing on early intervention.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	This is just crazy. Social work is on their knees just now and there are so many children falling through the net because the funding isn't there. Squeezing it even more is not the answer. It will just leave many more vulnerable children in dire situations.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Stop using external care provisions such as Carevisions who charge 4K per week per child. Reinvest this in local authority care provision, create jobs and stop big companies profiteering from vulnerable young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Again, I would say no to cuts in staffing where children are concerned.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I do not agree with streamlining certain staff when it comes to delivering support for our most vulnerable children. Social workers and Health visitors are overworked and it is extremely difficult to meet with them due to their excessive schedules.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I believe this would be a false economy as more support in this area can help prevent issues in future years as the children affected become adults.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Don't understand how a saving would be made as currently services are overstretched and overworked, it is nearly impossible to get support for children when required and often staff are at breaking point dealing with issues that can't be coped with in mainstream settings.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	redesigning and aligning teams more closely to deliver more streamlined teams and reduced staffing = less staff trying to do more work to compensate. This will increase stress and reduce efficiency. Safeguarding our children should be a top priority, with staff stress and overwork, important signs/ information may be missed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I would be concerned if reducing staffing would end up meaning that early intervention for children at risk at any level would end up being poorer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	It seems too good to be true. I'm afraid it will show as cuts in services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Have you got something against students because they cannot vote? Where are the extra Foster carers coming from if there is a reduction in the budgets supporting them?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	From what I can see on social media, this area needs more funding not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Caring for a child with a disability is not to be a target for cost cutting. Already west lothian does not provide enough appropriate placements for disabled children. If children are to be brought back to WL from a provision outwith the area, it should only ever be on a like for like provision service, looking at the whole impact on that child's life, education and wellbeing. This is not something to be glossed over, and it would require thorough and robust training - ongoing - and also monitoring and support for any families who are able to offer a placement to a vulnerable child with a disability.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Similar to section 1D I would submit that any impact on young people should be minimised indeed increased	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staff again. It's disappointing that the management can't see how stressed out and de-moralised the staff already are. Reducing staff is just another way of saying making redundancies. How can we say that the service provision won't be affected when it already is?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	It is impossible to meet the needs of our children. This 'multi agency' approach does not work when schools cannot get in touch with anyone/ endless waiting lists - taking money away from these services is a disaster waiting to happen and the wellbeing of our children should never be put on the line.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	children's services are already stretched with far too few staff and families waiting for far too long. reducing staff is not acceptable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Children's services are already reduced with wait times far too long.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	If the focus is on "supporting children most at risk" what does this mean for other children as a lesser risk? It sounds as though the proposals may increase the risk to children who are not being perceived as "most at risk" which increases likelihood of more situations reaching a critical point. Very worrying.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Also, how will a strengthening of the range of fostering options happen? This is very vague. This is something that social work have been trying to work towards anyway	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	My work involves links to Children & Families Social work and I fail to see how this would improve things.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	this raises concerns about the quality of care the children would receive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Investment in vulnerable children should be first and foremost. I'm unclear on how cutting staff but increasing foster carers would cost less;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This would likely put more workload burden on fewer people leading to bad outcomes.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	No cuts to vital life saving, safe guarding systems. Cut the bonuses not the services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	This seems to suggest that those in "the middle" will; Once again miss out. The most serious cases give. Investment and those who don't meet requirements, less supported.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Not sure how reducing staff will lead to a better service, unless lower risk children no longer qualify? I'm, all for providing a better service to the most traumatised children, but lets not forget about the countless others who may seem stable but are living close to the poverty line	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again with this, you shouldn't be making cuts here these children deserve every penny to help them they've already had it too hard or they wouldn't be here.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	This needs investment and not cost cuts. Children should not be neglected by corporate parenting.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	How are you going to increase the foster care options while not increasing the cost?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Not keen on these efficiencies. They will only lead to the most vulnerable in society being worse off.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Cut the staff at the top, not the bottom	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	this is already an underfunded service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How can a foster system be improved by reducing the budget? Children in care need more support and additional budget to help them reach their full potentials	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	By reducing staff you provide less. I fear that money will be wasted on the "development" of the new options that we may not be in a position to deliver.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	It is very difficult to get any social work support currently unless there is an ongoing crisis. Would our social policy service be able to do any work beyond statutory? This would be a further cut to a service that is very much needed in West Lothian. Early intervention would be great but the demand is so strong that by the time an intervention is put in place it is anything but early.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again your looking to reduce staffing numbers, you can't provide vital services if you have no staff; In regards to fostering; I think fostering is an amazing thing to do and West Lothian would have more foster parents if your selection criteria wasn't so strict I understand you need to have measures in place for safety etc but you need to consider families that have maybe been through the system and have lived lives of trauma in some way also as these people can make fantastic foster parents as they have had to live that life growing up	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	As a staff member that has worked with disadvantage children the key time is when they are at school as well. ; Further development in this area is a great investment but also I feel development needs to be for the families as well.; Shouldn't we be investing in supporting the reason behind why our children end up being fostered ; Prevention rather than reaction strategy	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I am concerned that the number of social workers would be reduced, there aren't enough as it is. This would result in an increased workload for all and a reduction in the service they can provide.; I do agree that efficiencies in the current system and structure need to be found but would be concerned that reducing staff is a very short term fix!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	We seem top heavy on senior workers in Social Policy. If the frontline teams were better resourced, it would reduce the need to have as many senior staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Social policy only works if linked with NHS - the fact the council failed to facilitate a surgery in Winchburgh indicates they are not fit for purpose when it comes to social care.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	This services is already struggling and the support children receive and the tins they have to wait to receive it is shocking. Again stop reducing staff. Improve services!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Children who are disruptive with no underlying health conditions get much more help than children with disabilities whether its school , days out, treats, free stuff, social work help and so on. This is a huge complaint amongst parents.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	The services are stretched as it is and need more funding for staff, my son is disabled and we haven't seen a person to assist his transition due to Covid and the policy of over the phone is still in place so staff can't make proper judgements on the children. We also had to wait about 1 and a half to 2 year accessing the team and about as long to be assessed for adults services and all is over a telephone, so no cutting services further will be disastrous.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	'reduced staffing' = redundancies? ; 'efficiency' = cuts? ; The fact that the most vulnerable children in West Lothian are going to face cuts of any level (let alone £1.2 million) is a shameful reflection on our council and the state of our nation.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	As a parent who was followed around for over a year.. wrongly .. and with no apologies afterwards.. I'd happily get rid of social services.. let them concentrate on foster kid placements that would be a good thing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	is the council not intervening at the earliest stage? "The service will maintain its focus on supporting children most at risk and providing earlier intervention services in line with statutory (legal) requirements" - this portrays that the council are not currently meeting legal requirements; - are staff expected to work more if headcount reduces and teams are more targeted?; - this presents issues in that areas may be missed, and vulnerable people could be left out of the system	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Stop the suggestions that disadvantage children, they need more help not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	This sounds like an increase in costs is required - I don't get any feel from the words that gives any confidence that over a million pounds can be cut from the Children Services budget. This one worries me.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again trimming funding for the most vulnerable children in our community is poor, and will only lead to an additional cost burden in later year (from a financial rather than moral perspective).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers
Modernising our council	1G Review of Services for Children	Children who require more support should be able to receive this. Staffing should not be reduced when it comes to children or social care. Children are vulnerable at any age at any point in any place and their safety and wellbeing is a vital service. It should not be in question. The quality of staff and their ability to fulfill the roll of child services should be maintained to the highest standard. Services to children should be increased not decreased. If the review does indeed make it safe better and more efficient then 100%. Do not let children suffer as a result of the cost reducing measures.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	There does not currently seem to be enough people to run these services properly at the moment. I believe reducing staffing would be counter productive,	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	These services are already understaffed and this sounds as though it runs the risk of increasing burn out in remaining staff. Cuts and reducing staff in this sector is unlikely to benefit either staff or the children it aims to serve and protect.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	When you reduce the services available to ANY vulnerable people, the results can be catastrophic. Increasing foster carers can only help if they are fully trained. I would imagine training these people would lead to an increase in their income so, again, I fail to see how the estimated saving could be realised.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	No cuts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think the redesigning and alignment of Social Policy teams more closely to deliver more streamlined teams that will result in a reduction of staffing will result in work load issues for staff in schools especially for senior leaders in schools. Although the service will maintain it's focus on supporting children most at risk this will not be enough to support all the children and families in the school community. I feel post pandemic that a lot of our families in the most deprived areas are struggling with for example mental health and there is not enough support at present therefore any reduction in social policy staffing will have implications for all staff in schools when managing the most vulnerable families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	The number of children needing support has increased. What benefit of reducing the services already there going to have for these children? You already struggle to get foster carers, how are you going to increase the number without any funding? Job cuts are not the answer but seems to be a theme throughout this survey! Children with disabilities are a bigger responsibility. Can we not support the families more to become better parents, teaching parent behaviour and skills. Not saying that some children should be removed from their situation, but some are down to not having the skills to be a safe and caring parent as they never had that experience themselves	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The impact on children already using these services is significant. Further distribution will have a negative impact on their lives and mental health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Supporting children by cutting staff. Oxymoronic.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Teams are already stretched beyond breaking point and to reduce the number of staff seems a strange option - we have more families needing support than ever before, but are pulling support?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Any cutbacks to childrens services in a disgrace in this modern society.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers
Modernising our council	1G Review of Services for Children	I think that it is imperative that children's services are expanded rather than reduced. There are many young people desperate for support but lack of staff make it a challenge for them to receive the support that they require.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	less staffing always impacts services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	How can reducing this budget by over £1million , strengthen the service ?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Children services are already stretched and waiting times too long with children falling through the gaps, at present nothing is done until it reaches crisis how will cutting staffing help this. Early intervention is key but until there are services and staffing to support this it will continue to support crisis care only. How will you attract people to fostering, intensive fostering - will there be respite in place to support fostering families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Cutting these services increases the work load on staff and the risk to children this should be avoided if possible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	If you are proposing to reduce staff, what does this mean the reduced workforce will need to stop delivering	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Also, how a reduction in the number of social workers can be beneficial? However, perhaps if they weren't working from home and being in the area and available when needed might be helpful	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I am concerned that the reduction in these services, particularly staffing, will have a negative impact on already disadvantaged young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Don't punish children that already suffering.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staff what impact will this have on the service being provided?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I don't understand how already overstretched teams can be streamlined whilst still promoting childrens safety. This sounds very dangerous	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	streamlining to me means cutting staff so how can that possibly help with the support offered to the children?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This service should not be reduced if some children will miss out due to prioritising the most at risk.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	There is nowhere to trim in this area. Some years ago I contacted the SWD to get help for my child with a Disability and after several attempts I gave up, no-one got back to me. I have friends who have adopted a child and the process was help up by a lack of staff adding extra anxiety to a complex issue.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	"At Risk" children are already being missed. Please do not cut staffing numbers in this area	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	There should not be any staff removal as people need onetime contact when there are any issues involving children	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	need more not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Not enoughFoster caters just now to provide home to children needing them and the quality of some are not great	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	From personal experience with children services, social workers seem to be overworked and reducing staffing would have a detrimental effect on services and will definitely need much consultation with service users so they understand what will happen	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This is beyond belief, we need to support services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think more money needs to be invested in this not cur.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Don't understand how this will create a saving as strengthening Foster families & ensuring there are sufficient staff with the necessary qualifications will cost money. Doubt reducing staff will mean children can access the help needed in a safe and timely manner.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	this is not an area where saving need to be met - it is an area we should be investing in	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staff in an area already struggling is completely wrong. Streamline yes, but add staff and takeaway middle managers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again, the proposal above does not give details of where the cuts would come from. These teams are already overworked, families in need are not being supported. The line about supporting in line with statutory requirements concerns me, most children are not in the statutory system, further, it feels that West Lothian waits too late to put children into the statutory system. If the focus is moving to be entirely on those pupils there will be serious issues for our children and young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	It is not clear from this how reduced staffing would meet these aims. Care-experienced young people are among the most marginalised in society, with porter attainment and progression. How does that fit with cutting their staff contacts? 'Redesigning and realigning' does not fit with producing those one to one relationships that are so important for our care-experienced young folk.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	These all read like a manifesto of wonderful promises, belied by the massive 'savings' you can make to them. Tell me, have we been woefully overspending on massive inefficiencies for the last 12 years of SNP government so much that you can claw back all this money, and still pretend we're getting first class services? Definitely, let's deprive traumatised children of more funding. That's a real vote winner	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	How can the service maintain its focus if it is running on reduced resources??? How will you develop and increase foster careers with reduced staffing to do this???	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This needs more thought put into it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There are already great pressures on this service and limited time to engage with families/carers who really need this support. This cannot be cut back any further to ensure success of impact.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I'm concerned that streamlining and reducing staffing would again impact the services ability to respond appropriately and in a timely manner in some situations. I do support the strengthening of the range of foster options available, but I dont see how that can be done by reducing the money available.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Educational Ps in schools teaching Play therapy not always value for money. Assistants could be trained to do play therapy in schools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The social services are already over-stretched as it is and are very difficult to get in touch with. They also do not seem to chase issues up or communicate well after education have raised issues with certain children in school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with children remaining in their local community however the only way to encourage more people to be foster carers in to make the post more attractive which to me would mean a more realistic salary for a job that is 24 hours per day/7 days a week. More support from link workers and respite periods.; I have worked with the Council for almost 30 years and there has always been a shortage of foster carers - it is not a job that I could do regardless of the salary but it is a job that needs to be done.; More support for Kinship carers would also allow family members to look after young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	So children who are already suffering are going to be made to suffer more? A service that is already stretched to beyond maximum is going to be stretched even more? Well done WLC, well done, you are surpassing yourselves is the disgrace stakes even more than you could have before.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	By point 1G, we are already totally over £8M in "savings" from support, services and resources which directly impact children and young people. ; I'm hugely concerned that this is sugar coated way of saying cost cutting as opposed to savings dressed up as to mislead people that what being done is new ways of working. ; It's putting people out of work and impacting our children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reducing staff will not help support. Teams are already stretched far beyond what is manageable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	No to this aswell for many reasons we are the parents i don't agree to giving council more power over our children theirs a line that shouldn't ever be crossed given the past 2 years of power grabbing by governments and other entity's absolutely not	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	If there has been a failure of service on our part and you are dissatisfied please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Management and improvement actions are taken, where appropriate. The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsmen, who also deals with escalated complaints where a customer is dissatisfied with the council's response.
Modernising our council	1G Review of Services for Children	Not sure how you support children at most risk by reducing staffing, but it will apparently save £1.2 million, so I guess if vulnerable kids fall through the cracks - and they will - you saved a few pennies. If you are increasing the number of specialist foster carers, that would be expensive - I can't see how you can be saving money??	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Why save on this? Savings can be made on spending too long dealing with kids that simply need to be told straight to sort their act out YET there are many that require help and I only imagine this plan will further them from mainstream society.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Early intervention is essential for supporting families , enabling them to stay together and assist schools and communities in supporting future generations. I would be concerned further cut backs would prove significantly more costly in the long term?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	I really feel that more funding should be allocated to social services. I feel there needs to be more support given to vulnerable children, young people and adults. I think the definition of those 'most at risk' needs to be reconsidered.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	These services are already on their knees and struggle to function due to a lack of staffing and underfunding. The further reduction would be equivalent to scrapping these programs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reducing staffing in this area is a huge mistake. Vulnerable kids wait far too long for help, and are missed left, right and centre as it is. Strengthening and expanding fostering services surely comes at a bigger cost than the saving made for reducing the service?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Streamlining children services who are already stretched to maximum runs the risk of our most vulnerable children, at best, not being supported or at worst a name in a newspaper after a horrendous incident. I would not want to be the person who allows this to happen and everything that can be done should be done to protect these services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again, is it currently working? Will it be any better by cutting £1.2 million? Of course not.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Insufficient information provided to ascertain whether increased foster parenting opportunity will fill the gaps caused by reducing staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is code for cutting staff numbers at a time when vulnerable young people need support. This is unfair to the staff who are left and they will start to leave the service as has been happening with nurses in the NHS.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I would be concerned about any further cuts to social work. I see this as an area in desperate requirement of extra funding and would be alarmed at the impact further cuts may have on the most vulnerable children and families in West Lothian. I would be interested in finding out how the fostering options will be strengthened, and how the council will make this work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reducing staff is a huge mistake it compromises quality.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reduced staffing? Lots of teams are already stretched	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reads as if you will be providing more with less money which cannot be the case, very misleading. Do not support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Focussing on most high risk is short sighted. Please ensure that the strategy for social services is pro-active, not reactive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	If a saving of 1.2 million is to be made in this area, I think a clear breakdown on how this is going to be done should be provided. Simply by saying 'reviewing social policy' is not enough. Does this just mean you are going to cut staffing so cuts cost?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I think support services are already very stretched with lots of children and families unfortunately not receiving the support they require. It worries me about more cuts to this service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Need more services not a reduction.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again, we should ensure reduced staffing does neither impact the children in need of support or result in unmanageable workload for staff who become unable to fulfil their duties	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reducing staffing in this area is a terrible idea. With current financial difficulties more and more strain is going to be put on families who are already struggling and this is more likely to increase the needs/demands for children's services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	The savings you propose are large.; Odd that you are not doing this already	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Do not agree with reducing staff numbers as outlined earlier.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Would be concerned about any measure that reduced staff further in already vital support services for our most vulnerable young people	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Why is reduced staffing helpful? Could staff not be placed on more appropriate teams?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Social services needs more funding, free/low cost training should be provided to willing foster parents who want to foster all children which covers children with disabilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	They cannot manage as is ; How is this feasible	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This seems to be taking money away from those who need it most.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Services protected for children and young adults at risk	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	breakfast clubs must be maintained.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Dont see how you can do this - its basically just loosing staff from what I can see	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	kids lose even more	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	If it works as it is why change it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Shocking	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No changes are required.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't know much on this situation, but this does sound beneficial to the children involved.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I disagree with cutting costs in services for children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is ridiculous	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How will reducing staff help these services? Which staff will be reduced?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	These services for some of our most vulnerable members of our communities are already understaffed and over stretched. My opinion is that this is a very dangerous reduction to make and quite frankly could cost the lives of already vulnerable children!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Early intervention and prevention are key, and it is vital these proposals do not detrimentally impact on West Lothian's ability to meet the aspirations of The Promise and ensure support to all children and families is available when needed, particularly those on the edges of care.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Again, a higher cut in an area that affects the wellbeing of the children in the local authority.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again I think this would be to the detriment of children who need our support any changes need to be carefully managed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This may be difficult to achieve with staffing stretched to breaking point already	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This is also an area where I know they are struggling for staff and the staff have too much workload this is also an extremely important service which can cause real harm for the children and families who need it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children's services are stretched at present and you must make sure that reduced staffing levels do not affect their health and well being.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I am unsure about this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reduced staffing in such an essential service could lead to vulnerable children to fall through the net. Already these services are stretched and to reduce people even more could have negative consequences.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Funding should not be cut here. Services are already struggling and at maximum capacity so this should not be facing cuts but provided with support to help vulnerable young people more.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	the phrase "in line with statutory requirements" is a worry. They are minimums and the caring society that we live even should not drop to match the just legal definaition.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Young people in West lothian are currently on massive waiting lists to access specialist services that are completely over loaded so a reduction in such services would be detrimental.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children must be a priority and far more so than the delivery of the Cycle route in Linlithgow at at cost of over £300k to the council. People would generally need a car to get there, its not the safest roads to cycle and will only help a minority of people. Certainly hasn't been thought out	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Please be aware that many services for children are already on thin ice, inclusion support for example. ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Staff members within many of the teams appear to be really struggling at the moment and have lost their passion for their job as a result. This means they cannot provide the best support to children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Yes re structure but only for the better not for a cost saving	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I would watch this one as far to many children slip through the net.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Stripping down departments pertaining to child protection. What exactly are you people smoking?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Not supportive, already too many kids in need and not enough solutions	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	CONTINUE AS ISS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Strongly disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How can you strengthen a service by reducing what it does. These are our most vulnerable citizens and we shouldn't be looking for savings in these areas.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The authority needs to be more creative and not short-sighted; it will continue to lose money and good staff if it only ever works within a deficit model, and not from a point of empowering families or building strong relationships.;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	There have been many reductions already in this area, and we can already see the impact this is having in how quickly we can deliver services, the length of waiting lists, and when agencies are referring in.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I am very concerned that only certain groups are being prioritised here, it is a very shallow model and will cause issues in the future.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Which services will be realigned? Will some service provision stop? Early intervention to prevent situations developing is a key strategy to reduce need further down the line. I fully appreciate the need in crisis situations and in the long term health & wellbeing of LAC however that urgency of need will absolutely not be addressed by diluting early intervention provision. Which, I suspect, is where your "savings" would come from unfortunately.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This area needs investment to ensure children are safe, well cared for and their life chances are not negatively impacted. Only aiming to meet statutory requirements is simply not good enough. Getting it right in this area should be a massive priority for the council and will also have a positive impact on many areas of the West Lothian community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	it is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	it's important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	System does not work now yet you want to reduce staff and hope to employ more Foster parents	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This feels like a saving you probably don't want to make - changes elsewhere may well be less painful.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	These positions actually require more support and better pay	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I have no experience of this sector at all but strongly believe reducing employee numbers seems counter-intuitive to the goals you're trying to achieve.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reduce fostering fees	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	So more pay offs shocking	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	How can streamlining teams and reduce staffing possibly achieve further efficiency utter nonsense	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	How can staffing be reduced on an already full service. We need to ensure the funds are spent in the right areas. If improvements can be made, then great but how is reducing staff going to help.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Should be no savings as children that need help should get it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Dont agree with reduced staffing in childrens services, they are already stretched	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Given the current workloads of Social Workers and issues in supporting our most vulnerable children I fail to see how savings of this amount can be made whilst strengthening and developing the support. Again, another unclear proposal of how the savings will actually impact the service provision.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again I believe cutting costs from an already stretched social policy budget will lead to children being missed by the service with disastrous consequences.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Can only invest in fostering if people come forward to be foster carers. Need to get more fosters.; Cutting social work resource is not a good idea, they are needed and need to be there early on in a family/child.; Social workers already come across as not doing anything.; Issue in Blackburn with kids setting fires and social worker involvement is already happening with kids but nothing seems to be done.; Kid involved with this was treated to MacDonalds afterwards, so they are kind of rewarded for bad behaviour.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Foster care now means your family suffers financial hardship to help another kid. it's not sustainable anymore	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staffing in social work for children is a terrible idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	So which children will be adversely affected by this proposal or have we to guess?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Same as before how can you achieve this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing the number of specialised staff experienced in this area of services for children could result in a fractured service. Reliance on growing the foster care service puts a greater strain on families. Running a service as essential as this with a trimmed down staff could become undeliverable intimes of eg a pandemic or where there are staff on long term sick.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	At the moment referrals to Children's Services are made with the knowledge that there is a long waiting list for appointments and consultations. Social Services are stretched very thin so again I wonder how reducing numbers of staff will serve the children that the council is there to support.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	In my role as a special needs teacher I am responsible for a group of S6 pupils who will be leaving school next June. In order to access the services they will require as adults they need the support from Social Policy and the input of a social worker. I have recently been meeting with the parents of these S6 pupils and many of them are very concerned that they are on a waiting list for a social worker and have been for a considerable time.; Without the input of a social worker parents begin to make arrangements for their children. Many of the adult service providers will not engage with parents until they have that input. This is very upsetting for parents who want to make provision for their children and provide a continuity of care.; There are also children in school who are in the care system but currently have no social worker due to lack of staff. Any further cuts to staff in this vital service will harm our most vulnerable young people, those with special needs and those in care. DO NOT CUT FUNDING TO VITAL SOCIAL POLICY STAFF.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	If we were a private entity we have to look at VFM	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Social Policy employees already have low morale and are completely stretched. Staff retention will be hugely affected by a reduction in budget of £1.2 million.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	How many foster carers in West Lothian have undertaken any trauma informed or child development training in the last few years?; Containing children in a loving nurturing environment and providing a safe space and therapy is what I believe is needed. alongside therapeutic support and robust training for foster carers and social policy staff alike.; Investing in this area is what I would wish for west Lothian's children and families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	with population increasing rapidly in west lothian due to the number of housing developments ongoing, how can reducing staff be a positive move.; less staff to deal with a larger population is only going to lead to less support for people who really need it. i agree that an increase in foster families would be a positive but the council have been trying to encourage families to foster for years.; where are these additional foster carers going to come from when there isn't enough to provide an adequate service at present.; cost of living crisis will only have an adverse effect of increasing foster families as people are struggling to support their own families without taking on additional responsibility	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There should be no reduction in children and families social workers as this will result in larger case loads for social workers and increased risk to children. How can services do early intervention when there is not sufficient staff in place?; ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	SWs need supported with better training and knowledge to deliver services and work across Children's Hearings and ensure if there is a reduction in staffing they are confident in their approach and taking cases for children forward to work with families. This will permit them to carry a larger case load and prioritise sufficiently to minimise the risk to children. Understanding SW practice, legal framework etc can suffer in times of pressure and where WL recruit less experienced staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	If the focus is on the "children most at risk" what is happening to the children that are deemed at a lesser risk?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This may bring problems in the future!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The fostering proposals sound good but it would be more important to have the views of foster carers; For the first paragraph see my answer to 1A. I find it difficult to believe (knowing the situation in the health service) that there is much in the way of efficiency savings to be made in social care. Reducing staffing may well not result in efficiency enhancement.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This needs a bigger review than just this - social services in West Lothian need a revamp to support those really in need, not just those who can shout the loudest or have the most influence.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	From personal experience I am unconvinced that WLC will provide the level of support for any young people that move into Foster Care. A clear detailed strategy for this is required before it would be agreed by LLBCC. Subject to that, we would be willing to engage.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I hope that the Council is fully confident of the proposal to simply increase foster carers, who are already known to be in short supply?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing Social Workers is as concerning as reducing children's contact time with teachers (and presumably reducing teacher numbers in the process) ; ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reduced staffing in Social Work is unthinkable. the service is stretched to breaking point already and less staff, even with streamlining is ridiculous.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Social policy provide a vital role in on going support to families and this should be considered before any reductions are made	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This is great but staffing levels in this area are already stretched with massive long term absences of staff, what is the reason for this needs to be addressed first before cutting more staff. I dont have the answers but lack of staff is whats causing the troubles in the first place, they either need more resilience training or more staff not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Every last penny should be geared towards children, they do not choose to be born they should be looked after and nurtured to become the next generation of working people. Any way that this can happen must be explored	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I can't understand how additional foster care can be developed and yet staffing reduced?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	No negative implications described here at all, why are you asking the public if you should make this saving, why are you not just making the savings.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I am not sure how you could reduce staffing in this area when there is such a demand for it. Agree there needs to be better partnership working and streamlining of processes and would positively welcome a strengthening of options for care experienced children and young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again, I can't keep saying how much these services need extra funding as it is. Children's services are in greater demand than ever before, to reduce and streamline it now is madness.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again, the reduced staffing quote - I don't know how you can provide a quality level of services for children if you are cutting staff - that just doesn't compute!; Please done reduce staff - please find another way of cutting costs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Children's services are already stretched as it is. To reduce staff isn't the answer, wait lists are long, leaving children who need support not getting what they need. Children's cases being dropped by agencies because they simply cant accommodate them isn't good enough. The children of West Lothian are being let down by agencies that should be seeing them but aren't as their own service is stretched.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	must be a more efficient service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	You've outlined how you're supposedly making the system better, whilst saying you'll make cuts of £1.2 million. Services like this are crying out for more funding, not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	People need to have direct and timely access to Social Policy's services which is currently not always the case. Reducing staff may impact this further and put more onus back onto senior management within schools and this may not be the best outcome for the children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree that LAC need additional support and a greater facility available to them. This should not involve cutting staff numbers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How will the increased number of foster carers be achieved? How much support will be available to foster carers? Children and families services already appear to be understaffed so i would be concern about reductions in staffing levels. There is a risk that work is continually about dealing with crisis and that there are no opportunities for preventative interventions.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The social care system is on its knees. Streamlining will affect those who are most vulnerable .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staffing for the most vulnerable children is not acceptable. These are the children that have been failed in the past and if it means diverting funds from cutting grass so be it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	In essence more job cuts for a poorer VITAL service. Terrible idea	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This is terrible news, we are in for a rough time	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Can you guarantee the provision of suitable foster carers?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Agree with the proposals to improve foster care but I'm not sure how this can be achieved with fewer social care staff. Should also look to provide more support to other family members e.g. grandparents who look after children that would otherwise require foster care.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staff concerns me for the staff output.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Do not put the most vulnerable kids at risk; ; Cost of this happening?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Why is reducing staff always a main part of savings?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Is there not a call for more people to work in this area? Why reduce the offering of people in the posts?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This is an area where I am shocked to see plans to reduce staffing!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Extension of foster care seems sensible but you might have difficulty recruiting for that. Worries me that you want to reduce staffing as children with issues might be missed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I cannot agree with any reduction in social services for children. ; ; The increase in foster placements within the local area & support to the social work team in place must be a priority rather than an area for further cuts	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't like the sound of this, and I'm not sure how you can guarantee increasing the pool of foster care if there are fewer staff to support them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Oh my god now you are just repeating yourself	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reduced staffing may be cause for concern, if a number of services are running on low staff numbers at present, reducing even further could cause significant issues.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again, sounds like you're doing more but it costs less....🤔	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	People are the core of any caring service. Reducing staff will lead to a reduction in the overall care provided.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I feel that this service has already been squeezed beyond the limits of it working effectively.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No - this service supports some of the most vulnerable in society. Efficiencies & savings should be reinvested in the service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Developing and investing in foster care provision within West Lothian seems a positive step, however it is vital that foster families have all the support they need to care for often deeply traumatised children and young people. I am concerned that a reduction in staffing may reduce the support network required.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staffing for these services does not sound like a good idea. These facilities are already underfunded and over stretched!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Children's services are already stretched and don't do their job properly. To reduce this further will result in serious negligence.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	More adults are required to support children with trauma. Less would be detrimental to children and less nurture would be provided.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The more vulnerable children need their funding to be protected	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staff working with vulnerable children will not support their health and well-being. This will also negatively impact their attainment. ; Children's services are at breaking point already.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Concerns that any reduced staffing within social policy will directly impact negatively on most at risk children. Services are already stretched. ; Foster care options do need to be increased and strengthened however can money be saved here at the same time as improving this ?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	No staff cuts- this is very concerning and should not be considered an area for services to be cut. ; ; More investment in fostering? Isn't this voluntary, where is the saving here? ; ; The focus should be the needs of the child, not what's the cheapest solution.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Social work are at breaking point with the unmanageable case loads they are expected to oversee. Mental health problems post lockdown have increased dramatically. CAMHS have a waiting list of over two years. Social policy cannot effectively work by cutting back further.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again not sure of the context to achieve proposed saving	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Checks should be done to ensure foster families are looking after their wards properly and being actively interested in their actual school work and life outcomes - and not just being incentivised by generous financial gain.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How can reduce staff support children's needs this only gives others more workload which thgn allows for things to fall through the cracks snd be missed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again another area which cannot afford cuts to this level	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Our children most at risk deserve the most support. This is not a service that should be reduced. It should be increased!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	These are some of the most vulnerable in society - ethical decisions about how to support them can not be made purely on a financial basis.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Isn't it already a struggle to get quality foster carers for these vulnerable children how would that be increased without spend considerable spend. As far as I am aware social policy are struggling to cope to support the children and families that need help preventing harm to vulnerable children. The reduced staffing to this already stretch service is worrying.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is already at an extremely poor level of service. Children are falling through the net due to lack of interaction and engagement from other agencies. Schools are expected to follow protocols, however are being left in the dark or ignored as it is. This will only get worse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The care and wellbeing needs of many children are not being met to reduced funding over a number of years. Are we really Getting It Right for Every Child???	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The children at most risk and who desperately need help should not be considered an area for money saving. I would request that you work with foster/cared for children charities to try to work out if the service can become more efficient without an impact on children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The streamlining of such care facilities in this current climate would have an irreversible impact on many young people's lives. Those who might be missed as most vulnerable will be affected.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It will maintain its' focus, but with less staff to implement that focus?! That's not going to work. Once again, children will suffer, especially those that need support the most.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Safeguarding children should be top priority and needs all the funding necessary to chiefs that goal.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staff with the same workload would be detrimental.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reducing staff is not the right option.; I would suspect that staff working in Social policy are already finding workloads difficult to manage. ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Reduced staffing in any area of child support is a mistake.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Increased staffing would make more sense when looked at in the round as this approach will only increase social problems and whilst perhaps making savings in this area will only lead to more expenditure in other areas.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Having been involved with a friend who undertook fostering in West Lothian and was left high and dry without support I suggest that maybe you need to sort the basics before coming out with ambitious proposals	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Increasing fostering for children is great however I think it's unfair to stipulate that a parent can't work if they foster to help with income	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't see where by offering this you will save money, sounds to me like more funding is needed not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This seems like a dangerous area to be making cuts.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	This is the last area we should be saving money from. Services are so tight and stretched as it is that children are vulnerable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Need to give more focus on disable people only .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children's services are already at a low and the waiting list for children who require assistance is many months long. They cannot afford to be left to wait longer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	My only worry would be by increasing the amount of children in a home they may not get the proper attention they need I think training might have to be giving to certain foster carers to be able to handle certain situations properly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Oppose... the system in its current form is under strain.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children regardless of status and home care require significant support. Not just children who have needs. We need more support in our schools not less. For all children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I do not think reducing staff levels is in any way going to support the number of children and families struggling in this political and environmental climate. ; We definitely need more money in this sector not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Would this be at the detriment of those deemed less at-risk? How is taking £1.2m AWAY from fostering going to better is or encourage quality foster parents?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I'm sorry. Is this suggesting reducing social workers? We need more social workers, not less. If these proposals go ahead, more children will find themselves at risk. Again, shocked this is deemed a reasonable suggestion.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I've never yet heard of an over-staffed social work team. So, while yes, you may focus on the most vulnerable, those children that could be positively impacted by access to services are now more likely to be missed. Their situations are therefore more likely to escalate over time resulting in them requiring more services at a later date. I can't see how this can GIRFEC or SHANARRI policy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Will be amazed if you can reduce staff and keep the service to the children, already seems pretty stretched in my experience	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I continue to have concerns about how reductions in staffing will affect these services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Children are already waiting too long for support from external agencies. Reduced staffing will only increase workload and slow support for those at risk. Some will be overlooked.; With two suicides from young people in our local area I hope members reviewing this are able to sleep well in their beds.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The information given about this policy is a little counterintuitive, it sounds like there is a plan to increase the fostering support available whilst reducing staffing levels. A review of the social services for children sounds reasonable but to expect better provision with reduced costs sounds unlikely.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I cannot see how reducing staff in this area will achieve further efficiency for some of our most vulnerable children and young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This service is already failing drastically. Further cuts would be horrendous.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Waiting lists are already long, this will surely make the situation worse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As with previous sections this talks of investment but also savings. It is very difficult to understand how savings could be realised without negative impact at least in the short term.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I understand the need for budget cuts, but staff reductions will have a catastrophic impact. In today's busy world where everyone is operating at 100 miles an hour, our children are getting left behind with very few adults who actually have time to stop, sit and listen and give them the time they need - especially those most at risk.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Keep local authority control not private sector profit driven service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Theses services should be protected at all costs. Reductions can mean mistakes and children falling between the cracks.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reduce staffing proposals not acceptable. Again, use of reserves should be used in this vital area.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	No job cuts!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Stop making staff cuts. That's your solution to everything. Cut staff makes unemployment numbers rise. Makes more people go on benefits. Impacts mental health of those losing their jobs. Affects how many people can be helped as not enough people to help them. The system is stretched as it is without cutting staff numbers. Cutting staff is not a solution. It adds to the problem ! Get more people into work. Force people back into work who are physically able rather than paying them a fortune to sit on their backside getting things handed to them ! That's where you save money and also help the overloaded system. Too many people sit not working when they physically can because they don't have to because the council (ie all those who do work) pay for them to have a better life than them	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	1G Support Review but oppose setting a savings target. The children concerned have the most needs and usually have lower levels of attainment than the general population so any savings should be reinvested in their wellbeing	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree that there needs to be more foster carers and more support for them, especially as I am a short breaks foster carer myself. Again, it isn't clear what that would look like in practice. I believe that all children should be supported to thrive, not just those 'most at risk' - what about those who are somewhat at risk? We have a duty of care to all young people.; I struggle to see how spending less money on services would be beneficial to foster carers, particularly those (like myself) who are part of the disabilities team.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Are these measures meaning redundancies for staff?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Again, this sounds like it would have a negative impact on young people and staff wellbeing. Focusing on the most at risk is good but there are increasing numbers at risk and they are not getting the support they need. ; Strengthening the range of fostering options sounds good.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reduced staffing in an area which deals with our most vulnerable seems like a recipe for disaster!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	These children are already at a disadvantage, so to remove experts in their field is an absolute disgrace. Yes, there should be more fostering options but as an addition, NOT instead of!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Streamline services? This should be happening in order to get the best outcomes for our vulnerable children and all children. ; To further reduce staffing of any kind from this side of things, will lead to more burn out of staff who are committed to making a difference. ; There isn't enough staff to keep up with demand at present, meaning less valuable time to make a difference. Leading to overworked staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How can reduced staffing support more at risk young people?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Think the system has failed too many kids and to reduce it would be more kids at risk	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Darlington or Rochdale, this is the outcome to expect should WLC choose to target the most vulnerable for cuts.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	However you dress this up it doesn't sound good. I am angry for the people whose jobs will go and I am angry for the children that won't get the support they need. Rather than blaming the Scottish Government, that gets it grant from Westminster, Cosla should be organising a general strike to protest how these services, that are already stripped to the bone, are being slashed further.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It will be difficult to replicate the exceptionally high quality service that these specialist placements in other areas offer locally and is looking to provide care on the cheap for our most traumatised and vulnerable children with the most significant needs. These children deserve a better service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

Modernising our council	1G Review of Services for Children	It's important that the services being cut don't become a job for schools - they have enough to deal with and are already picking up many social work activities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The most traumatised and distressed children and young people are not having their needs met as it is without cutting these services even more. The GIRFEC approach cannot be rolled out on a shoestring it needs resourced correctly to improve these individuals experiences	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Supportive of strengthening fostering arrangements. Not convinced that redesigning services and cutting £1.2M is good for children requiring these services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The foster carers get a humongous amount for children... then there's the emergency payments.... Bloody hell, are you kidding!!! Again employees!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Whilst I agree with a stronger focus on care experienced children I disagree with further reducing children's services. The wait times for referrals to some of these services are already too long.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I worry that aligning teams and streamlining services could lead to less resources dedicated to helping those in need because their attention is shared elsewhere.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	These services are already stretched way beyond their need! They certainly don't need a reduction in staff. More than ever, you require to meet the needs of all children requiring support and the teams should reflect this!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Social services are on they're knees as it is, constantly trying to recruit new staff, I fail to see how reducing staffing will lead to a more streamlined service. This is a very dangerous precedent as i have seen first hand the detrimental effect this can have. Where are all the foster families appearing from ? There are even adverts on social media trying to recruit	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Mental health crisis. More funding needs to go into this, rather than being taken away. Families are in crisis across the council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	services for children should be expanded, not cut	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	A review that strengthens the range of fostering options and support in West Lothian can only be a good thing. However, a £1.2 million pound cut in services for children is alarming and needs to be challenged	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Will the reduction of staff not put those in need of support at greater risk?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How does WLC propose to invest in increasing the current group of foster families but reducing the amount of budget being allocated to it? This doesn't make sense.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Personally, I think consideration needs to be given to this. There are too many children who need support and this is an essential service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Anything that helps protect children is important and worth doing as I said in the last answer we NEED all the teacher/pupil time we can get so that the people who spend time with children can pick up on these things.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Any attempt to reduce savings at this service through staffing would again have an impact on child poverty and disadvantaged children. I agree that streamlining of service would and could be beneficial if done correctly but unsure how a reduction in an already stretched service would make it better.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	It would be good to have some meat on the bones to explain how you plan to achieve this - these are just words with no clear sense of what you will do. Foster carers are like gold dust, and they require the right supports to stay in the role. Does social work have enough resource to accommodate your plans? What might suffer elsewhere? Children need to have consistency as I'm sure you already know. Reducing the risk of a child being routinely moved across placements can only be a good thing. It's also really important for siblings to be placed together - that's no doubt a challenge - it would be good to know what you plan to do in that space. Have you factored in additional requirements that may flow out of the work being undertaken by The Promise, flowing from the independent care review?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	In schools we regularly experience issues with the current staffing levels in Social Policy children's services and their ability to get back in contact with us should we identify child protection issue. Further reducing the number of staff would only exacerbate the issues faced by schools and therefore directly impact on safeguarding children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	This makes no sense. How will they be streamlined? How are the savings realised and over what time period? How does it ensure the legal requirements are met when the implication from the description is they are not presently working even with the £1.2m funding in place?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Fostering system needs work, as too many instances of red tape for the right family to help.; Councils are not focused on true problem areas, leaving those children that really need help behind	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It's hard enough to access help for children this would only make things more difficult	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing the number of people in this area is not going to achieve better outcomes for disadvantaged children. The services are massively stretched already. This area needs investment. The restructure may be needed but not reduction of funding.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	If streamlining services is an efficient thing and the savings released have no overall impact on the outcomes for children in care then this seems right however reduced staffing models mean less staff to manage what is an increasing problem in West Lothian. Money should be invested in West Lothian to allow children to remain in West Lothian so this is good as is increasing the number of foster carers to support children with disabilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How will WLC ensure that vulnerable kids are not put at risk by this new model ?; contact time with parents & kids must be maintained at the same levels	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reducing staffing will not help. It will increase staff turnover and sickness. ; Using council places instead of having children placed far from home will help with this. Invest in staff and training for carers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	No, my child needs help and cannot get it.; Why bring in more children?; Wasting time resources and money on bringing extra for everyone to deal with. Is ludicrous	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This just sounds horrendous and not a saving that will benefit the young people involved	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Hard to see how a reduction in staff for this vital service would be beneficial.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Not supportive of any changes to child services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Child services are the most ineffective system in Scotland this ranges from mental health to clothing grants, it is needing more money put in	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Beware of reducing support for foster parents/families! - not just the ones in crisis but the ones that find it hard going [probably most of them] with the kids as well as with the frustrations of the system and the legalities.; Failure to give adequate effective support is to build up greater expenditure down the line.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Cuts shouldn't be made here. The most at risk children are regularly being placed through a number of workers (no consistency in care) with a large number being placed in care settings miles away from their home area as local centres are closed or short staffed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The only way you are going to get a lot of Foster carers is if people have a spare room in their house. Bedroom tax made most people move so they didn't have a spare room!; Also, you do better to fight on all children and parents behalf against the governments disgusting, perverted, child grooming disguised as sex Ed. (At the time of typing this I believe WLC has not taken the gov up on this)	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Reduced staffing in child protection will just end up with more kids experiencing trauma and knock on effects in education, health and justice. This is frightening.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	So your cost cutting exercise in this area intends to put more pressure on foster families who will already be working extremely hard. ; It would be up to the individual family as to whether they can take on more children.; I don't think this is a good area to be cutting costs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Care for children should be a priority so if "efficiency" means cutting Council staff so there are less checks being done then this is unacceptable. If there is any possibility that a child is at risk in a foster home there should be no delay waiting for "statutory requirements" to intervene.; Children should be able to stay in their local area to maintain friendships and continuity at school etc.; Proper training needs to be given for all foster carers not just those caring for the most traumatised children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	I can't imagine how helping most unhappy children can cost less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again, how can cutting funding in this area improve the service provided? ; Independent Review in this area should be performed, published, and put to the public to comment on prior to implementing change!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sad that in2022 we are reducing support. Agree we should look to have placements inside West Lothian as going outside is very expensive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Deserving children with specialities must be provided more than they are having now. No reduction is supported	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Early intervention is key ; Stop the stigma of fostered children ; ACES deal with this , therapy. Play intervention. Let them be kids! They don't always want to discuss their feelings! Give them happy memories make school their safe place! Give them a mentor(their one positive person) too many kids are failed and let down and passes from pillar to post! Make sure they have a person for a long period of time! Their comfort blanket! All kids need to be kinder and accepting of others! You need to look more into bullying, respect, looking out for one another! Stop all the media rubbish of accepting binary helicopters or he she they etc! They are choices! Kids don't choose to have aces! They are more important and need the more help'! Kids have nothing to do! No clubs, parks, any activities to do after school; What about the kids that can't afford the cinema or swimming with friends! It should be in partnership with leisure companies etc for swimming passes! Am I thou visit to the cinema. Passes for ice skating roller blading etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The social policy children's services are already under great pressure how will they cope and what will be the impact if staffing is reduced it is a huge concern if services are reduced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Is it not the case that currently some foster carers are saying they are seriously considering giving up fostering due to underfunding which enables them to feed the children given the ever increasing cost to live. Cutting funding to the service and having an expectation of developing the service to better enhance the support seem at great odds with cutting funding.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children's services are already poor in West Lothian, I fear reduced staffing would only make it worse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I do not think any cuts should be made to social work, which is inadequate as it is.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	I find it hard to believe you can support more foster families appropriately with the already overstretched social work departments. ; Why are we looking at fostering when the emphasis is supposed to be on reeducating parents and enabling families to remain together	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is theoretically a good idea but not realistic. The number of available foster carers are limited and therefore i do not believe this is a realistic proposal. ; Instead more support should be out in place to maintain children within their immediate and wider family where possible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This is much easier said than done and reducing staffing levels in schools is ridiculous when they are already at breaking point. They need higher staffing levels, not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	These services must not be reduced or streamlined.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds too good to be true that reduced staff could provide a better service. Reduced staff with high case loads get burnt out.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This does not explain what is being cut to deliver savings. There is obviously a proposal for reduced staffing but only increases in care arrangements are being noted. Are services currently delivered by employees to be delivered by non employees in a future state. How would that work and what insight is there that these people will be available. ; What additional cuts are being envisaged re parties not assessed as being most at risk and what groups of people would fall below the line based upon risk assessed criteria.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	The proposal includes a review of all Social Policy children's services to achieve further efficiency by redesigning and aligning teams more closely to deliver more streamlined teams and reduced staffing; ; All of the above says to us constituents is more cost cutting measure after tax increases this does not justify your tax increases !!!! One year you increase taxes to cover rising cost and allow you to fund increases in education services the below section taken from West Lothian council website regarding education ; ; A 6% funding increase in Education Services reflects increases in pupil numbers. West Lothian has experienced record breaking exam results over recent years and the increase aims to build upon that success. Over £183million is set to be invested in Education Services next year, the largest of all the council service areas.; ; So how can you now justify these cuts when you gained additional funds by increasing council tax to fund the initial increases has that money now disappeared or been reallocated elsewhere if so please explain where ?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Social Policy is a huge service area and I do not know enough about the day-to-day operations of the individual services within it. There isn't enough done to foster collaborative working across service areas and perhaps if staff across the council had a greater awareness of other service priorities and desired outcomes then there would be more collaboration.; ; I feel this is partly due to a point I made earlier where the managers that should be making those connections don't insight into ther own services, let alone others.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Increased foster care but saving money? Not clearly explained how this would work in practice. Is there a ready pool of foster carers? What about kinship carers? Huge cost implications here for training of foster/kinship carers, can't see how you will save money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It is concerning that the most vulnerable children may have less support.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with increasing the number of foster families. However just being reactive to problems and not proactive will lead to more problems in the long term. I don't feel reducing staff and increasing the workload on the staff that are left is a good policy to adopt. You need to support and train the staff you have.; I agree with teams working more closely.; Obviously money is very stretched so the council should do more to work with external charities / groups so people still have support which will hopefully help families deal with issues earlier.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Vulnerable children are at risk here. I struggle to understand from this statement how there could be an improvement and saving at the same time...	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The above is essential to ensure the children most at risk are provided for and if what you are implementing in the streamlining does not impact this then the saving is essential	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with proposals in line with the Promise to keep children local and to further support foster carers and the incredible work they do. However that is not going to reduce the pressures on social work resources (ie you are not going to reduce the number of children requiring social work intervention). So if you reduce staff numbers, without reducing the case load of workers, all you will do is rely on workers taking on additional work, pressure and stress. This is unacceptable, as it will only impact upon the most vulnerable children in society. Social workers require the time and space to know children, their families and their needs. Social work intervention in family lives is crucial to the safety of children and also to ensure that decisions which could have a lifetime impact on families are carefully assessed and made with appropriate governance. I cannot see how this can be achieved with less staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Our most vulnerable children need compassionate skilled, trained and supported fostering services to ensure that they can reach their full; Potential in a safe and supportive environment. It is not clear how this saving will be delivered for real comment and feedback you would need to state what streamlining will mean and how a cut to the service will strengthen it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Sounds as if stringent economies should be made but I am worried that this will diminish standards. If these cuts are now vital, why haven't they been investigated before?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Understaffed and over- burdened already. Trying to access support is not an easy task. Most often if a child is accepted for support it can be weeks and weeks before they are seen. Cutting this budget would only make it worse.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I do not agree to any cutting service to children especially not to schools or to disability services. Children and families are struggling more than enough as it is, and the cost-of-living crisis is just going to make it worse. Only charge those who can afford it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	must keep all options open sometimes moving kids away from the area is the best option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I would agree that moving out of the area is bad sometimes it might be better to be away	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I should think possibility to move children out with the area as this is sometimes the best option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	there's not enough staff or enough space for kids. Supporting staff and parking	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Enough services for kids with additional needs and mental health supports need to be put in place quicker as well as diagnosis. There is very little mental health support for high school kids but there's plenty for adults but not teenage children	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Already not enough staff	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	There's not enough staff already	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	not enough stuff to cut need more staff additional needs support. IAP set up	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	there is not enough staff as is	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Who will look after the Foster carers?	3. The respondent advised that they had no comment to make or posed a question of the measure.	All client groups are entitled to receive support to meet assessed eligible needs.
Modernising our council	1G Review of Services for Children	Not enough knowledge/experience to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	What is the question?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Nothing to add	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't have enough experience of this to provide comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The information being given to be commented on is so vague it makes it impossible to answer and in some cases understand and therefore I have been unable to give Frank response	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Further explanation on alignment needed to be fully informed and give an opinion	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This proposal is simply not clear enough to comment meaningfully. No baseline data is provided nor the extent to which services are commissioned outside of West Lothian (!) and the impact of this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't understand enough about this area to comment constructively	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Difficult to understand how reducing services will increase help to children, more need more detail to understand how this could work.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't and can't have children so i don't feel it's fair for me to comment on this question.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment, not sure how you can improve these services as you say with a 1.2 million reduction	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	no involvement	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	None	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No view	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment - again more detail required.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	N/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I'm not in a position to comment fully on this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I cannot comment on this as I am not affect by this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	n/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't feel I have enough knowledge on this area to offer an opinion	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Unable to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Nothing to add	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	n/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Lack of detail but don't understand from the text how that equate to a saving, where is the saving with in this approach. If it is to be reviewed that review should detail the cause and effect and whether this saving will or won't damage provision. Chicken and egg.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I mean do you actually care what anyone thinks because the wording is not clear or easy to understand for this with no background in this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Not something I am able to comment on as I don't know enough about it	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I have not had any involvement in this so would not feel able to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comments.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't know enough to comment on this but can't see how services will be improved by cutting the budget and children -yet again- are suffering in your budget.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This does sound like a good idea, but I don't know enough to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Not clear on what is being proposed here.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I don't know anything about how good this service is at present, generally reducing funding doesn't improve services.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The lack of specifics here makes it impossible to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There is not enough information about how you will make savings	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It is essential to ensure vulnerable children have continuity and high levels of professionals supporting them	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Is there enough staff now?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	I do not have relevant experience of this situation so I cannot comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	What are you proposing, how can anyone respond when they haven't been told how it will affect them.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Appears a sensible approach, but little knowledge so difficult to make an informed comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Extremely important	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Not clear what the efficiency savings are here?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Above my pay grade	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It's not clear from above where the savings will be found. Please consult with plain language instead of euphemisms.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It is vitally important that social policy have sufficient staff to support the children most at risk.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Foster care can be a wonderful thing, however addressing family breakdown comes first IMHO.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How will West Lothian Council provide the same level of service as it currently does with fewer staff?	4. The council is already doing this.	The council is proposing to achieve efficiency savings through transformation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes.
Modernising our council	1G Review of Services for Children	Services protected for children and young adults at risk	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	There is very little detail contained within the narrative to make an informed comment. Suffice to say though that this should be a feature of a progressive and forward looking business and should not be the consequence of a need to save money.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Try making it easier to access help, and have social workers actually do the job that they are supposed to	4. The council is already doing this.	All client groups are entitled to receive support to meet assessed eligible needs.
Modernising our council	1G Review of Services for Children	Will the staff with their experience be redeployed elsewhere	4. The council is already doing this.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	This system is currently broken. It needs to be aligned to CAHMS, early intervention and under 1 umbrella, where all are communicating to support the child and the family. Social work, school support, school placement and CAHMS are not consulting effectively	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Look at group community / group care in more depth. Moving those who have reached the threshold for leaving care into social housing (with support). (Thinking of tenant at XXXXXXXX (redacted) who has been in this property for a while, there are additional compliance responsibilities for this property compared to standard social housing, but unsure of tenant's age / circumstance, so might still be appropriate). With consideration to this case could a group home be better suited and cater for more, but would come at less cost? However, it is important not to let young people to get lost in the "system" and support should be provided where it can be. Also in these incidences, consider the status of such housing (ie. if appropriate to leave tenant in such housing, should it still fall under the same compliance considerations or revert to regular social housing policies / compliance).	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Parents need to be consulted	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Services working together more closely in an integrated way can only benefit children if done properly	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	focusing on most at risk is key	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children with 'needs' are the most vulnerable in society. We can not let these young people down, we are the adults, we have to take responsibility for providing them with the best resources we can.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	How about spending more money on children who are struggling with mental health, I've been fighting a losing battle to get help for my 6 year old for 3 years, its a disgrace	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	The increase in foster carers is essential and they should be suitable trained in order for the child not to be failed by the system and cause further trauma.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This measure is predicated on us being able to recruit additional foster carers - how realistic is this an ambition?	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Social workers need better supervision and reflective practice so they can support people more effectively.	4. The council is already doing this.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	The council should fund the voluntary sector and respect their expertise. They deliver on their contacts, have higher quality and greater scrutiny. Staff are also happier through better support and being in a creative environment.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Some more support for kids who are struggling or have behaviour issues	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It is very important to make sure that there is provision of services in this area which are well; Staffed and with resources to identify children or families who need help and to be able to provide safe haven for those most in need.	4. The council is already doing this.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Totally agree that children with a disability should go to carers who have a good understanding and who will be there and care for them as if their own, they need and deserve no less. I don't believe a child with complex needs should go to someone who doesn't have knowledge or even no experience as this would not be fair on the child.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	A firm initiative provided that foster carers continue to be carefully vetted.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It does not help taken kids out of family homes for something minor and leaving kids in a home that needs to be taken out for something more serious. Foster care is a good thing for some kids but not all	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	In my opinion the council has to invest in early intervention to try and reduce the reliance on services as children get older.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Any focus on caring for vulnerable children must be continued	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Some of the most traumatised young people are unable to live in foster care, whether that be specialised or not. Invest in Foster care and residential care to ensure children and young people are not placed out with their local authority area.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	These children need protected and supported	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children who need help should be given it and this should be a priority.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	You mention the service will still maintain its focus on supporting children most at risk by providing earlier intervention.. however you are reducing staff so what happens to the other children still in the system...surely they also deserve some sort of early intervention also.	4. The council is already doing this.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Totally agree that for almost all children they should be accommodated safely within local authority and more options for children with not oy a physical disability but those with communication and learning needs needs to be an investment as ultimately if we support and develop resilience mental wellbeing and independence in our children there will be a lessened impact/need for adult intervention.; The social service sector (in my opinion/experience) is already chronically underfunded.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Is awestvLothian keeping to The Promise!! This needs to be a priority for the council and any saving should not be at the expense of the most vulnerable members of society. Any children who is care experienced has suffered a trauma and should receive the best support that they need to heal from this trauma.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Wow, we need to be careful with the safety and well being of all young people	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I am aware that there is a need for continued support for some individuals and would like to think that this will continue and expand.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There needs to be enough help for people with disabled children and there needs to be enough staff overall.	4. The council is already doing this.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Early intervention and follow up being consistent with centralised information to allow any involvement to know all info and real time analysis of situations especially where there is real concern of harm so important. Children need to feel one to one connection and security in an unsecure situation for definite.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	Streamlining teams while maintaining focus on supporting children most at risk is something that should be progressed, as long as it doesn't result in children not being supported and ending up further along in the process and ending up being most at risk due to lack of support earlier on. Early intervention should be a key focus to reduce pressures further down the stream and should be a focus of achieving savings. Not sure what the current foster care arrangements are and therefore cannot comment on whether agree or not.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Early intervention is key in this area and working on this model will help reduce the most vulnerable children and young people requiring support for foster care or engaging in criminal activity in the future. We need to get it right when the family needs support, and not wait until statutory measures are required, as we are not meeting the needs of the children, young people, families and communities by waiting until issues have escalated significantly.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	welfare of children should be a high priority	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This service should be supporting every child not just most at risk especially with children's mental health - more provision needs put in.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I agree with the need to develop intensive foster care to support the most traumatised children, investing in increasing the existing group of fostering families and also increasing the numbers of foster carers able to care for children with a disability. However, should there not also be some early intervention with parents to ensure they are able to make the right choices to be able to be good parents and thus reduce the number of children in care as far as possible. Look at the root causes would be far more cost effective.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	It is important to have children close to their family and friends and school for continuity/familiarisation	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Letting kids stay in West Lothian near extending family etc is paramount	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I fully support a programme that supports children being cared for in their home community as long as the right supports are in place for the child.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Have the Council signed up for The Promise!	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Children's safety and consistency of adults in their life should be at the centre of any decisions.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Excellent support and wellbeing of children must be the central focus throughout.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	child centered focus is a good thing for children and to have the supports they need to increase their chances in life and this being a happy one for them.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Important that those people most in need get help	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Continue to support all the children who require it.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The support for children who are most at risk is already failing a number of children so reducing the services and staff numbers for this would have a detrimental impact to their wellbeing.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	Go with the lowest cost option.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	Bring back group provision	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Targeting response and smart is essential.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	We need to be careful that some children don't fall through the cracks and become invisible.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	As mentioned previously, to follow the 8-4 model will provide opportunity to care for vulnerable children each day rather than maybe 2 full days of a week. ; Foster care support would be a much welcomed support for our children in need.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	What will this mean for those children who are unable to be placed in a foster home?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	This I not appropriate. Do you really think “ The service will maintain its focus on supporting children most at risk” is being focussed on at present. No it isn't. My daughter was abused by her father behind my back and diagnosed with speech and language difficulties. When I lived in Falkirk they helped. Moved to West Lothian to get away from abuse and yous have not helped. Secondly my daughter also was referred for absenteeism and once she was diagnosed or informed she wasn't the school in Falkirk was going to refer her for aspergers. As I mentioned before we moved to get away from abuse everything cancelled or ignored and West Lothian schools did nothing, they did not follow what the Falkirk school planned and passed on to the new school. Same as social services nothing when I phoned up for support to handle my daughter since she is likely to have aspergers. Improve the staff at schools and social services to help and support when required instead of throwing people to the side as they can't be bothered dealing with it. What do you think will happen now if you reduce staff? It will be a impossible to get any support, worse than it is the now.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1G Review of Services for Children	A manager and 2 assistant managers who do very little all day. Certainly don't have the best interests of the children at heart. The Manager paid 2 young people £20 a day during the summer to paint the fences. I think the running total was £400. The fences didn't actually get painted (I think the young people painted half a slat a day) The staff watched the young people doing a drug deal outside Torcroft and all felt powerless and over-ruled by management. Manager stated well if he is out his face he won't be causing any hassle. Great use of council funds.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	If there has been a failure of service on our part and you are dissatisfied please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Management and improvement actions are taken, where appropriate. The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsmen, who also deals with escalated complaints where a customer is dissatisfied with the council's response.
Modernising our council	1G Review of Services for Children	The money that is wasted at Torcroft and Whitrigg is astonishing. You just need to look at how dirty Torcroft House is to see the cleaner doesn't earn her money. In fact if you were to walk in during her hours you will see her sitting at the Kitchen Table. Her Partner is the cook at Torcroft and if you walk in at lunch time you will find them both tucking in to a hearty lunch - in their own words 'might as well eat here for free'. How many establishments provide a hot cooked lunch for cleaners. Pretty shocking when we have kids relying on food banks and staff are taking advantage.;	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	If there has been a failure of service on our part and you are dissatisfied please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Management and improvement actions are taken, where appropriate. The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsmen, who also deals with escalated complaints where a customer is dissatisfied with the council's response.
Modernising our council	1G Review of Services for Children	The council do not care about children. They force my 6 year old girl and my 13 year old boy to share a 1 bedroom bungalow with me! Apparently this is acceptable although my son is AUTISTIC!! ; ;	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1G Review of Services for Children	I trust that the parents of the children going into foster care will also go through an intense education programme so that they understand the impact on the child so that they don't continue to have any more children.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Foster care is a joke my kids got abused while in social work care so you need better social workers who can do there job	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsman, who also deals with escalated complaints where a customer is dissatisfied with the council's response. Please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Managers and improvement actions are taken where necessary.
Modernising our council	1G Review of Services for Children	It would be beneficial if all stakeholders had access to the same computer systems to allow for information sharing and speed of support provided.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The Home Secretary would be a great source of advice on this.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Kri***** (redacted)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Kids should be held accountable for anti social behaviour , including pointless standing in the car park screaming for not reason, kids coming up to peoples houses to ask to watch tv , play or eat, is an issue. these childrean creates anti social behavior, which creates neighbour hood tension where parents and neighbours kick off , cause the parents arent doing anything, cause they cant be assed. DONT HAVE KIDS that is neglectful parenting. ; ; how about a services that recognises the damage and harm that kids can do to others , especially vulnerable person. i have seen kids think its funny and want to inflict harm / threaten sever harm as they feel that is the right response. these kids need taken away and looked after in trauma home. instead of forcing parents. gaurdians , carers to put them selves in harms way , there should be a trauma counselling that protects the gaurdians mental health as not all childrean have a trauma response but a general response of malice.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1G Review of Services for Children	This should be the easiest one to do because from personal experience of your social work teams they are not interested in dealing with child neglect so they must be well overstaffed	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There is not enough support for pupils with ACE's in schools.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Can we consider how to promote fostering amongst our communities to help support the service? Can informed data consent be used more effectively across all service areas to enable earlier intervention and support to prevent issues escalating to statutory thresholds (I realise that this involves multiple services, not simply Social Policy) to be involved.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Green gyms for kids might be a help	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Support for single parents with financial things they need for child's learning and receiving information about school such as internet and devices for more financial people and classes to show older ones such as myself how to use this schedule as I am 48 with a 5 year old all this technology was not needed when my 2 older kids were at school so all new and very confusing	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	West Lothian is struggling for new homes yet allow big companies to build anywhere	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	I blame ***** (redacted)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1G Review of Services for Children	This needs clarification.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	There is insufficient detail about the current model and associated cost to comment on the impact that would be seen by a reduction of £1.2 million pounds. £1.2 million as a percentage saving of how much? Efficiency, redesigning, aligning, streamlined - all just non-descriptive language in respect of what would actually be changing - but then you say reduced staffing. So just cuts then? More detail required to allow meaningful consultation.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Again, vague, vacuous policy talk.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	No comment, as I don't understand the details	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Insufficient detail to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Unable to make provide a constructive comment as there is no detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Too little detail to know how this would save money!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off-putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity. There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	Very difficult to comment without further detail as I do not have knowledge or experience of this.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1G Review of Services for Children	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user-friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1H Review of Commissioned Services	Prioritisation is important, but how does this reconcile with the above point of third-party education provision?	1. The respondent advised that they agree with the proposal.	The Council is committed to ensure a strong governance framework is in place to make sure quality is at the heart of service delivery from external partners

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	It is right to target services at the highest areas of priority but you need to be careful about people falling through the net with this approach. E.g. SIMD areas of deprivation get services thrown at them and areas not considered to be in need don't even think to look for anything	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Reviewing commissioning arrangements is good housekeeping so would agree with this should be initiated	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1H Review of Commissioned Services	Agree that services should be aligned, too many services/organisations working in silo and not knowing what each area is doing, however, we need to make sure that this does not adversely affect the services being delivered	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As above - if there are new developments and approaches available, which enable the existing level of commissioned services to retain current priority - then OK, but again concerned if costs rules over service provision to at risk children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As per last comment if better can be achieved through review then it can be positive. For example ASN private taxi chaos annually.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again this area needs careful planning and consideration to ensure that children are not put at risk due to cuts for critical services or requirements to enable children to lead the best life that they can in very difficult circumstances	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I also think we need to be smarter around what we are paying for as a Council. Often partner organisations or tendered services are not providing what was in original agreement or over charging compared to the service they have provided. Especially within social care and support partnerships. The Council are often seen a easy money without significant scrutiny/monitoring of the expected service	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Sensible to review to ensure value for money	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I support reviews but not cuts.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	targeting highest area of priority seems fair	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Fine in theory, but I would not like to see increased use of private sector in education. This rarely has good outcomes.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I agree with this approach	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Does this mean a reduction in funding for third sector partners?	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Good stuff👍	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree - the council should not be paying the third sector for activities that don't deliver against council priorities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As long as it's not an excuse to let quality slip....	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Agree. Fill 50 forms in when one should be suffice for all.services. the amount of time.wasted l'd abominal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree with the proposed idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Adopt ethical commissioning and use of not for profit providers to reduce costs	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	review is needed..100% agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Review seems sensible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree with streamlined and effective services being made available to those most in need.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This should be brought inline with other corporate procurement activities	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Acceptable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Makes sense	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	The service in this area is good.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Possible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As long as the reduction of services has no impact on provision of childrens care.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Again all sounds good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	After reading the above, I will continue to trust your decisions in the areas I have no experience in , but thank you for the opportunity to co-operate !	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Getting looked after children in long term safe places would save money. Cutting red tape for potential adopters etc.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Review of commissioning arrangements seems appropriate.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	I agree change is needed but not just for the highest priority areas.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This is a sensible move, but only if there is sufficient and appropriate provision made within West Lothian	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Worthy of ongoing review.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Targeted help would be a big help as long as it's done in a timely fashion	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Removing 3rd party arrangements, and organising us with other councils, will in the long run be more cost effective, but more importantly have a better result to the children we are trying to protect, rather than fill pockets of 3rd party companies.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Agree, providing in house provision meets demand.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This is a good idea as long as the council have got the funds to carry it out	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Ongoing reviews of services is a must.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Again i dont really understand what departments you are discussing here.; Of course when it comes to children they should be priority when it omes to spending. Things like free music lessons are not essential but food clothing safety etc a must	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Absolutely. Service user feedback needs heard too. Any private companies/organisations receiving funds must be accountable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	all needs reviewed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As long as children are not put at risk as a result of any changes.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Third parties often lead to increased cost and less control by the council. Agree with this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not really sure what commissioning services are but I probably agree with this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Must not only target highest priority cases. Must target all children areas. They are our future.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	agree but want to be able to see the data once up and running	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Services should be provided by the council where possible, not the third sector	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Sounds good in principal buy I worry vulnerable children will be missed and ignored	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	You lose control by using external services, keep it in house with your own trained staff. Cheaper in the long run as you will get better outcomes for the children.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	bring all.in house and give more not less	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Sounds sensible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Review is probably required but not sure how you can quantify savings before review has taken place	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agreed. We should stop commissioning any children services that either duplicate council provision, or do not match with council priorities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, I don't always have the confidence that third party involvement is always the most cost effective.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	How much will the review process cost?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As long as services are not negatively impacted this seems fine.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Outsourcing costs are a good way to save money.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Savings could be made including a wider variety of procurement partners	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	As long as it improves core services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	So long as focus is on highest priority for children then this makes sense.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Absolutely renegotiate current arrangements with 3rd parties to ensure we have the best deal for West Lothian.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Less handovers would be efficient and better for the child which is the only priority.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If this cost saving can be achieved without introducing significant compromise to the service it would be the right thing to do.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I agree with this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Modernising our council	1H Review of Commissioned Services	As long as a good service is provided	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If it works good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Yes.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Sensible proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Great	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Okay	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree with these changes especially with reviewing the cost of some third party services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Seems sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Seems reasonable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I would just like to comment that I don't envy the Council having to make these cuts and they will not be popular. It would be worse if Scotland was Independent!!! I cannot believe the state of the country just now under Scottish Government. If they would concentrate on the day job!!! I am very depressed with this consultation. If cuts are needed then so be it. IO know WLC are looking aheads but what a mess!!!!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again seems good in theory	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Fine	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Should be a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I completely agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	i agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Sounds like a reasonable approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Sounds sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Services should be delivered based on customer need, lived experience feedback and current service user requirements. Incorporating modernised approaches is something that should be positive and third sector should be looking to be as competitive as a private business and not to rely on council funding. However, this would mean that the council is reliant on the third sector being able to modernise and be more flexible to customer needs, not just what they can deliver.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Agree, there seems to be quite a lot of commissioned services, particularly from the voluntary sector that offer poor value for money to the council.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	I think its important for monies for services in deprived areas still to be provided. These areas have been hit hard since the pandemic	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	A contract is only as good as his well it is managed by the council	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Streamlining and improving interagency communication would benefit all involved	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	OK	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Good idea, I think.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Sounds OK	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I'm favour of this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agreed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	At present there is duplication in some areas of commissioning work and reviews that are already happening. The council is paying for specialist commissioning agencies to come in when we have service development officers, business officers and lead officers in areas that are undertaking the same work.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Depends on what is being commissioned and the positive (or otherwise) impact provision makes	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	This is fine as long as its long term an remains consistent.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As long as vital services are covered	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Depends as the cheapest is not always the best - cut costs yes, but not quality of service.	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Depends whether people are going to be stigmatised because they live in a town that people class as affluent (e.g. Linlithgow) even though as individuals or as a family unit they are on or below the poverty line themselves, and therefore denied access to the services they would have been entitled to if they lived in another part of West Lothian that is considered more deprived. Stereotypes are not helpful and therefore each case should be reviewed individually regardless of location people live in.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree that review of commissioning arrangements is appropriate.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If by Commissioned Services you mean the administration then LLBCC wold be open two this process.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	All services should be central and not farmed out to businesses. We need a complete overhaul to ensure clarity and accountability.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree with this suggestion to work to best utilise new developments and approaches.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	I would suggest that any risk of service failure arising from the revised approach be thoroughly assessed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree that we should review commissioned services - those not providing value for money should cease	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Yes third party service agreements should be reviewed and re-evaluated to ensure fairness and quality.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The highest areas should be targeted as long as the work has been done behind the seen and it's evidenced that these are the highest areas in need	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Review and alignment; does seem fairly sound.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree, liaison with Procurement is key to ensuring services priorities are met.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The council needs to go further in reviewing commissioned services. If the council's funding is constrained and there are proposals to reduce funding to partners such as West Lothian Leisure, all voluntary organisation payments must be reviewed as a priority. The council can't keep honouring historic arrangements at the expense of other core provision because it is difficult to have conversations with voluntary organisations.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This would be a reasonable if the support was available for all children who require it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	3rd parties shouldnt be used unless absolutely necessary. This is an inflated cost for services that the council should cover and do themselves	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If this means reduced 3rd party spend then appreciate how the saving maybe acheived they are generally over priced anyway	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	should be done but not at the safety of children	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	ok so long as you do not take away from services that are needed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Should always be dealt with by service and not a third party.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	A review and how services are conducted is a must 4	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	It seems there needs to be a restructure. When families ask for help they are not getting it except from school staff.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As above I think the money foster carers get should be reviewed and maybe people fostering for the wrong reasons!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If services are maintained on a more efficient way, then fine.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	In house care services would be cheaper than private providers.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Fully support this measure, important to get value for money from commissioned service.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I agreewould be much better keeping it in-house	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Third parties must deliver services to or exceed the standards required nationally.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	the children need to be given every opportunity to thrive in life use more of the education services and let them provide more support to children rather than outside help with other agencies these children will open up more to people that they see and that they trust.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Good idea. Can this not be reduced further?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	All external services should be brought back in-house as they have been proven to be not value for money.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Review all services and look at any duplication.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Sema sensible and something that should be done on a recurring basis. Essentially I am assuming the saving comes from Third parties currently delivery work that the Council no longer needs.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	It feels like you should already be doing this routinely!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This is good; As all agencies involved need to be on the same page and kept up; To date with current situations etc	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Review this as this money could be used better	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Mental health services should be at the front. Too many young people are being constantly let down by a patchy or non-existent service.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Reasonable adjustment to make. Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	All needs to be streamlined and made easier to access support for children	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If done effectively there should be a saving to be made but will depend on the amount of working hours and bureaucracy involved	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	All outsourcing of Child Services should be stopped and brought in-house. There should be none of the vast profits on providing care. It would mean there would be an accountability that outside companies do not have, Child services should be under the direct control of LAs so there is proper scrutiny; A recent media report that highlighted the horrific case of a special needs child being held by a private supplier in a cell should mean there is an urgent full review of who exactly are providing these services and what is the priority with these contracts - the child or, as is most likely, profits.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree with review, savings only if then can be proven to be efficient without detriment to duty of care.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Totally agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Needs careful monitoring	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	On the face of it this makes sense. Always good to review processes to ensure they remain relevant and if efficiencies are available, all the better	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I agree with this, we commission too many vital services to private organisations. These services need to be streamlined and a consistent approach used in order that council officers can be responsible for the care received by our children and young people. How can council officers govern and perform due diligence when the task is being delivered by a third party.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If this has no direct impact on the services provided it is an essential and worthwhile cost saving	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Yes, I agree with this, and with any work which can be done to ensure that third-party services are provided as cost-effectively and in line with Council and national priorities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, hard to work out where savings will be made. Focus on supporting the ability of all children to access education. Improve the efficiency of referrals to services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	More waiting lists	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Please do not remove vital services from families in crisis - it is a false economy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Already an area stretched to breaking point and another further reduction!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	"Commissioned services" must be better explained.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Those who are not 'high priority' will become so during the wait for the services they need.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Is it relevant that the services are delivered by "third parties"? Why would a review of children's services at 1G not include these services too? Indeed 1G suggests "efficiency, redesigning, aligning, streamlined" - how can this be undertaken well if not all services are included in the redesign and are to be reviewed separately? ; It would also be helpful to know the ratio of the saving - £543,000 as a % of what value?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	3rd parties cost money... save the money use the People we already pay. Using 3rd party agencies means paying twice for the same service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	For Attention of SP HOS: I am a council employee and work in social care and believe money could be saved by giving employees a better rate of pay for working overtime hours rather than employing agency staff who get paid double what council employees get the council also have to pay there fuel expenses and provide there personal protective equipment which must cost the council a fortune	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	Aligning, jargon for cutbacks in essential services of children	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	Insufficient information to justify savings of £533,000; Alignment of services with policy is surely a requirement of contracting the services in the first place?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	No idea what a commissioned service is , be nice if you gave examples	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Most children's services should be delivered by council- not costly 3rd parties.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	Again all i see is cuts, cuts and more cuts, savings usually mean a worse service not better	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Wants cost kept down and quality of services maintained	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	What children's services? The invisible ones? My child had been on a CAMHs waiting list for 18 months and WLC will do nothing to help him in the interim. Why are children your first target? They'll be able to vote in a few years and will remember you taking everything from them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Please see my comment above, money needs to be put into residential and respite services, not taken away or restricted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, not enough information. Which services? For example, waiting until a child or family are unable to function before offering a service is pointless. It's too late. They will never recover. You have to intervene before crisis. Again, impacting families of vulnerable children the most. Not acceptable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I always believe that their parties, outside contractor etc pick and number then treble it where the council are concerned. Even when it going through procurement. This might be costly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	See above, this would be a huge mistake as council services tend to be inflexible, low quality, low quality, bureaucratic and only focus on the people with highest needs. I was on e a social worker and saw this at the front line. Staff burnout is so high at the council it costs millions in sick pay, recruitment and vacancies. Working in the voluntary sector is so much more positive and the outcomes for people are much better.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	Again these services are vital within West Lothian, reducing costs and funding to them would be destructive and Dana gong to do many vulnerable families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Another targetting of the most vulnerable, and least able to speak up for themselves, in our society. The council certainly has no shame whatsoever. Disgusting.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	But the thord party will taking all that saving for their services so i think its not appropriate as well	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Not sure how the estimated savings can be calculated _before_ the review takes place.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	I think the quality of services will be at risk of decreasing under this restructuring.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	Children, not money, need to be the priority. Decisions should only be made if it is in the best interest of the child.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	I am against cuts to services for children, so many of these are already underperforming	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Already services are bouncing children back and forth and no one is willing to handle or accept responsibility for those children with complex and additional needs. The system needs joined up and streamlined so that children are not falling through the cracks or being passed around constantly with no actual support being put in place to support them and their families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Reducing funding to children's services will not save money long-term.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	The above paragraph would have been better supported with an actual example. Vague, wishy-washy statements that lead people to believe that what is being suggested does not have far reaching and potentially serious ramifications for children's services. How can you ask for the point of view of people if you do not paint a true representative picture of what is being suggested.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Things already move slowly and children suffer because of it, how is realigning to fewer staff going to meet the needs of the children already needing assistance?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	Has the Scottish government cut your budget so much there's no money left? Can you explain third parties? Seems quite worrying	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers
Modernising our council	1H Review of Commissioned Services	Opposed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Sounds as though some children at the lower end of need will suffer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	This leaves our young people who require additional input from external agencies in a vulnerable position.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Again the young people are suffering.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	It is important that services are available for those who are most at risk. Reducing spending should not affect the quality of services provided for vulnerable children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Reading between the lines, it seems that we are saying those with less priority will not receive services. Having been on the forefront of what it means when priorities are given to those most in need, it's difficult to see how the impact will be of benefit overall. I would envisage that staff on the front line will feel this pain rather than those making the decisions to remove services. Have we thought about how this will affect staff and our communities at all? Have we accommodated the effect of losing even more staff and not being able to attract any new ones?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	It is impossible to meet the needs of our children. This 'multi agency' approach does not work when schools cannot get in touch with anyone/ endless waiting lists - taking money away from these services is a disaster waiting to happen and the wellbeing of our children should never be put on the line.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This sounds like children who are not classed as "high priority" will lose services which I would imagine will mean they don't have as much opportunity to develop and thrive. Although this will save money in the short term, I think more problems may arise later which will impact costs in the longer term e.g. healthcare, housing etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Again not sure what you are meaning but if this is Youth clubs which is a children's service! then the changes happening right now with regard to stopping P1, P2, S2 plus in youth clubs in communities, then whoever thought this was GIRFEC obviously has forgot just what being a child is and the reason these services have always been in communities firstly to be part of your own community for a start and feel safe and included.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	I don't think there should be a reduction in this case with the way society is now there's more care needed which can cost more money which is a must	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again children services need to be support more not reduced. So the lowest area of priority will receive even less. STOP REDUCING STAFF AND SERVICES	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	If you bring in other parties it costs money, the nhs pays out a fortune to agencies for nurses , they pay out more so it cost the nhs more rather than recruiting, if you do that it may cost more.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	a saving of this amount honestly seems like a budgeting exercise, as estimates to actuals can vary by more than this amount; - nevertheless, third party service providers must be undergoing enhanced due diligence, and this must be reviewed on a 6 monthly to annual basis, based on the inherent risk present.; - are any policies being dropped or replaced in response to new developments?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Going down a dangerous path this could see some children fall through the gabs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Is this reduction due to previous inefficiencies in the third party childrens activities, or in the council's management of them. This looks to me like a simple "squeeze" of sub-contracts during a re-tendering process, which rarely provides a better service to the customer, especially those who are not "the highest areas of priority". Who are these affected people and why is that ok?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	This sounds as though many children will lose out.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	No cuts more funds	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure how this will be done - unless you plan to increase the workload on the current commissioned services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Further explanation on alignment needed to be fully informed and give an opinion . However, if you are thinking of scrapping school busses, this is a bad move. Public transport is not reliable enough. Some areas do not have a regular service. Some services are cancelled or their routes cut short without notice. And most importantly some children with additional support needs use the school bus as a means of autonomy and learning through self travel which would not happen in a lot of cases if this was not available.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Any cutbacks to childrens services in a disgrace in this modern society.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	This is disingenuous. Nobody could argue with "review" and "align", but if only the highest priorities are to be targeted what are the second-highest ones that will be sacrificed. No description is given so again this is meaningless.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This could have a massive impact on early intervention, there are not enough children services at present.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Focus should have always been focused on priority areas but removing help from those in need will just create issues in the future.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Many third party providers will already be running very close to cost given increased overheads and regulatory requirements. Prompting third party providers to lower costs may force them to cut corners and face regulatory action. This sounds very dangerous	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Again, it would be short sighted to reduce support to vulnerable children/families .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	If this review leads to less staff on the front line to deal with any issues it should not be amended if anything more staff are on one contact should be hired	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	If this means reducing service contract cost cutting at renewal of contracts, I am not in agreement as this would have knock on effect on the interaction between client and service provider.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Currently 3rd parties are used as minimally as possible and are discussed prior to arranging so I'm unsure how this would lead to a saving	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Waiting for children to become high priority instead of providing intervention support at earlier stages is surely letting them down.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No no way we don't trust this either we have the power not government or councils you work for us again use only put in limited amounts of words whilst hiding the real truth of the agenda behind it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	If there has been a failure of service on our part and you are dissatisfied please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Management and improvement actions are taken, where appropriate. The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsmen, who also deals with escalated complaints where a customer is dissatisfied with the council's response.
Modernising our council	1H Review of Commissioned Services	I again, don't fully understand how this would save a lot of money - no real explanation.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This sounds huge and I would be concerned that this could have a significant impact on the services and services it relates to - which have not been identified.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Children's services are already seriously underfunded and any attempt to cut this is a bad idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, the 'Public Private Partnership' fiasco proves that third parties are not in the best interest of the young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	This needs explained more. Reviewing actually costs money it doesn't save it. and then at the end of the review, if you don't change anything what is the actual cost incurred with no saving.....?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	if you contract work out it will always cost more because we are rubbish at managing our contractors in whatever sector.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	All children deserve the same care and attention this sounds like those who are in the 'ok' bracket will be left to fend for themselves.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Do not support, resources for education and social care must be a priority for public spending	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	How does a "review" lead to cost cuts? Please provide more detail in how this is going to be done.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If you are conducting a reviewing how do you already know the outcome? ie that it will lead to cost reductions. If ot is known now that these can be achieved why pay for a review and not just make the necessary changes.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Investment in our children for a better future. Too many children already suffering due to the government chooses at present.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Odd that you are not doing this already	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I'm unsure about this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	aye right then.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	clothing grants must be maintained.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	lose again	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No changes are need.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	not aplicable to me	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not supportive	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I am not sure what commissioned services are involved however those that support the mental health of young people should be retained, as other services (i.e., CAHMS) are overwhelmed and there is an epidemic of poor mental health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Similarly, these services should not have to suffer more. All levels should be a priority and not just highest areas of priority.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	What does that even mean? How is support allocated - how are the highest areas of priority decided? Is it to do with the families that cause the most noise or damage? It's certainly not the quiet ones....they get left with no support until you read about suicides on social media.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Historical and future reduction in commissioning arrangements with third parties will result in a collapse to the opportunities that are on offer to children as part of a wider community education programme and will result in further deprivation to those who are part of the working families throughout WL that cannot afford private instruction for coordinated and supervised activities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	i do not agree with this at all they need everything they get .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Opposed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

Modernising our council	1H Review of Commissioned Services	Again, concerns around these proposals.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Against	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	it is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	It is important to maintain this level service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	it is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	It is an important service to keep	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	this is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	It is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	it's important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	It is important to maintain this level of service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Scrap it altogether	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	What will be the cost of this review	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not where savings should be made. Children services need more funding. These are vulnerable children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Invest in Children or there will be huge problems down the years	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This is an area I feel is under resourced and cuts shouldn't be considered as we need more investment.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	who is going to supervise these 3rd parties to ensure that they are going to provide the services and care that they are required to do.; basically what you are saying her, and in other areas, is that more and more council services are going to be privatised with minimum council staff being employed to try and ensure compliance	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Whilst a review of all commissioning services is probably essential I do not see how you can guesstimate the estimated saving unless the review has already taken place (which again would make this 'tick box consultation')	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The children service support is vital for supporting children and families	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No take responsibility and provide the services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	It's essential that these services are still able to provide the help and support these children and families need. Is cutting staff the only way to save money, services are under pressure already, children should never fall through the net.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Bringing in 3rd party agencies again, why are all the children's services being attacked so heavily. This is the area where more investment should be happening investing in our children are the future	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No negative implications described here at all, why are you asking the public if you should make this saving, why are you not just making the savings.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Ridiculous!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Very concerned that 3rd party companies are providing these services for profit. The review should look at phasing these out.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This seem unlikely to be achievable . Third parties will be facing increased costs. If they are not non profit making they will seek to make profits too	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Right to review but shouldn't be pre-judging cost savings	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	These third party services could be preventing a situation becoming a higher priority case. Tread carefully! And speak to staff at the coal face, asking for positive suggestions.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As previously stated not a fan of third parties, keep your own staff employed. Probably pay more than you would with WLC employees.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	this should of never been sold off to thrid party services ,	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	So basically cutting services again. You must think we are idiots	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Concerns that a review of 3rd party services may lead to reductions. Again similar to above regarding overstretched support for children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Children paying for the cuts again.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Investment required in provisions such a social work	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No. No third parties.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Children's services are already stretched, as I've previously mentioned Children's mental health is at an all time low. How can you now target these areas further?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	There may be scope for making use of third party services to support children there are some excellent services there .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Same answer as above.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This proposal is unclear and perhaps deliberately so.; ; What does it even mean?; ; Please be explicit. ; ; Removing funding from child's services can never be a good idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I am unclear about the impact of these savings as the description doesn't allow me to have a fuller picture or understanding. Once again, I feel this consultation survey is not accessible by those with English as a second language, those with disabilities, those living in digital poverty, those who feel they have no voice and would stress the importance of having an open discussion with the public.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I don't know what this actually means, commissioned survives... One again though, what will the direct impact be on the young people involved?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Why, from the start, council had to ask commissioned service to third party?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Cost reductions but commissioned services still need to deliver on their outcomes. Not sure his this will work as independent sector already propping up commissioned services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Highest areas of priority = focus on kids in lower SIMD ignore everyone else. By doing this you exclude the mass population. This is not inclusion.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Children's services are already at a low and the waiting list for children who require assistance is many months long. They cannot afford to be left to wait longer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I do not think anything to do with children should be cut because that is when you are more likely to miss things and children will end up suffering.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	High tariff children still need significant support, this will cause more mental health and behaviour issues in learners.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again I think that cutting costs need to be carefully managed to prevent the reduction of services.; This is not the time to reduce any family services. When the need is greater than ever.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Please elaborate what are commissioned services. A few examples would lead to better comments on the issue.; Although I suspect, that's not the aim of this survey. The questions are vague, sneaky and confusing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This description is so vague. You could be discussing most anything. ; ; Don't cut childrens' funding.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This is the same as above! Essentially those children who aren't deemed a high priority will fall through the cracks. This is absolutely not the right solution for our children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, what you're saying is that to save money, you accept that children will no longer get the services they require. I cannot support this as a way of saving money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Would it not be better if all the childrens services are in house, reducing conflicts of responsibility	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Streamline managers and create more on the ground supports.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Worry re those being left out/missed out.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	"highest areas of priority" means that those with the greatest need will receive support, but an increasing number of people are in a middle ground and would benefit from additional support but, under this policy, would not be entitled to it. This would lead to future issues, potentially, and is an example of short-term thinking.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Do not pay outside profit driven companies for work the council should be providing	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not enough detail on impact to make assessment. Our 30+ years experience is that reduced funding in this area always leads to more pressure on families and staff and reduced service provision and quality.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The cost of the review no doubt is substantial and must ensure sound and proven policies and procedures are in place and adhered too.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No cuts that affect children and families!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Who defines high priority? Putting an estimated saving amount on this before the consultation just shows how the figure is defined and is the driver before actually understanding the service needs. ; This question is as vague as it can be designed to ensure any answers are meaningless enough to be ignored. ; The bottom line is that the cuts and savings will be made at every level where real needs exist, while the waste and overheads are upper levels of management and with councillors is left to run rampant.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	1H Support Review but oppose setting a savings target. The children concerned have the most needs and usually have lower levels of attainment than the general population so any savings should be reinvested in their wellbeing	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	As above on both accounts, we shouldn't allow this to happen although it's hard to know what is happening given you continue to use terms like 'review...services current priorities' rather than telling us what you are actually cutting.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, looking to replace high quality specialised services with a cheaper model to the detriment of our most vulnerable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	More funding needed, not taken away.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	should be investigated	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Another cut in children's services!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I have recently been made aware of an experience by a member of my family where their child with special needs was left unattended by a carer in third parties premises which resulted in the child been put in danger. It is necessary to involve third parties especially in day care they must be properly licensed and monitored	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Councils are relying more and more on third party providers for both health and social care, if a review of the commissioning makes savings so be it as long as crucial funding is not cut and services go with it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Leave the children alone and take from the higher ups at the council, they can afford it, minor sacrifice	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not convinced the children are the main concern here it appears to be cost cutting only	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	'Commissioned services targeted at the highest areas of priority' - what about the other areas, will those just be forgotten? There are certain aspects of childrens services which are very poor, cost reduction in any area of children's services need to be managed very carefully by suitably experienced pepole, not managers looking to reduce costs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Many of the good residential homes are already closing, we should not be putting them under more pressure. ; Care of children needs to take priority over care of the elderly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	More provision for the elderly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Keep provision for the elderly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Keep provision for elderly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	More provision for the elderly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	More provision for the elderly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Better provision for the elderly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	More provision for elderly residents	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	maybe improve services for older people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	don't want things to change for the elderly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Keep day series for older people - no cuts please	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	ensure current service level for older adults in maintained	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Maintain services for older people	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I am in agreement with prioritising revives for those most in need but that usually means that some lose out. Making a saving and commissioning the cheapest service or a reduced service does not usually lead to improved services. Would not support this cut if it leads to reduced services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Nightmare at present. There is a lack of essential care available especially for those being cared for at home. The system is at breaking point	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	When I needed help with my mother who lived with us for the last few years of her life, the care she was given was excellent. I hope there would be no falling in standards due to lack of funding.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Based on the 2022/23 revenue budget: ; ; are you able to reduce the £53.8 million on services for older people? This seems like a very large percentage. It would be interesting to see how the £53.8 millions is broken down in order to see what parts of the budget can be reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Social Care - especially older people needs revamping. The Service is second rate and poor. When you get transferred to older people's care- Bathgate the help declines due to some inept Social Workers. The department inefficient.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Sounds as if stringent economies should be made but I am worried that this will diminish standards. If these cuts are now vital, why haven't they been investigated before? ; ; There already appears to be huge concerns over social care and its inadequate cover- please try to maintain where possible for the more vulnerable in our community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, looking for savings in a recognised area of chronic underfunding seems counter-productive for all involved. Is there no opportunity to partner with the social goals of large corporates based in Scotland to help fund and improve these areas?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Don't want budget cuts to affect my day service. No changes please.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Social care is essential. Apply charges to those who can afford it. Do not cut services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I don't agree with any of these lists getting cut especially social care as there are lots of people screaming for help and they already struggle to get the help and it's sickening.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Leave the elderly alone. They have enough to cope with and not enough money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	not if it means cuts and the diagnosis and assessment of children and ongoing support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Any cuts to the social care sector will be counterproductive we are already seeing bed blocking in hospitals as there are not enough services available to support vulnerable people when they leave hospital - elderly, disabled	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	this means cuts in assessment and diagnosis of children then no	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	More money list to be put into the adult with learning disabilities and more resources and better places for respite. The one in uphall is not in a great place with a pub in front and shops and cars. It needs to be in a better surrounding area	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	services are not in house not commissioning; the quality of the third-party services is usually lacking compared to those offered by the council for example ELC compared to private nursery.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	if possible do in house	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No details, therefore no comments apart from putting another cog in place so that things can go wrong too easily... Contractors cost less for a reason - profits before people and their staff. Wrong move.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	will these commissioned services be means tested?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Not sure what I am meant to comment on as I would need to know what the changes were.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No idea what this is referring to or who these 3rd parties are or whether or not they're important.	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Not sure what we are asked to comment on	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	What are commissioned services????	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	not really sure what this is and what it means so cant really comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Nothing to add	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I have no idea what this means? Well done for putting important decisions in a language that's hard to decipher.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	not sure what changes you are suggesting?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Very difficult to comment when there is no indication of which commissioned services are likely to be lost	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I don't fully understand the proposal here. Please refer to my earlier answers.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No enough information, cannot comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	I have no idea what these services are so cant comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I don't know who WLC has commissioning arrangements with so can't comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The information being given to be commented on is so vague it makes it impossible to answer and in some cases understand and therefore I have been unable to give Frank response	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I'm not sure what services could be impacted so need more info before i can comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No baseline data provided to comment meaningfully on the extent and scope of the savings proposed and financial effect.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	How are these cost reductions being achieved? Not clear from the statement above	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Where and in what departments?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Have no idea what this means. I think you intended that to be the case.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure on this one, would need to know more.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As previous answer	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I mean do you actually care what anyone thinks because the wording is not clear or easy to understand for this with no background in this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Without explaining to us what these services are, how can we comment? It's unfair to say you have consulted on this without more information.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Don't know what Commissioned services are	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again not able to offer comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I dont have personal information of these services	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not clear on what these changes impact	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As above	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I don't know what most of the terminology means in many of these areas in this questionnaire e.g. what are commissioned services?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	While I realize that the Council needs to make savings how can I respond when you haven't given enough details.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No comments.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure what they are asking	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Proposal is poorly described so not possible to; comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	These proposals also lack a sense of clarity but reading between the lines it could be taken that there is currently services being taken from third parties which would not be priority. Is this proposal to cut back items delivered from excess funding. Could examples of such arrangement be provided. ; Separately could it be confirmed that there is no change in priorities	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I do not have any experience of this sector to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	How?; Where?; What anticipated outcomes?; ; This is too non-specific for comment!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Without knowing what the commissioned service are it is impossible to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Cost of completing this task	3. The respondent advised that they had no comment to make or posed a question of the measure.	The scale of the further reductions required over the next five years will be challenging and the council will seek to use the existing range of workforce management and organisational change policies to deliver the required reductions in staffing numbers.
Modernising our council	1H Review of Commissioned Services	How much will the review initially cost?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	None of this is written in a way that the lay public could reasonably understand and comment on.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	We need more detailed info about what this means	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I can't comment on this as the explanation of proposed cuts is far too vague	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Its unclear what this item is	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not clear, a review alone will save £533k, how? It's not clearly stated where the cost saving would come from so I cannot comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	i dont think you will get many people filling this out as it is too complicated and you havent used simple words.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	More information is needed on this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This Depends on the services that are being cut	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This question is too wordy and not clear	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Have no idea what this actually means... waffle, waffle, waffle.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	What does this mean? Your question could be much clearer to allow us to comment on what you are actually proposing. It appears that your use of jargon is designed to not allow a proper consultation.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Another vague proposal. What are "Commissioned Services"???	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Do not know enough about Commissioned services to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Very difficult to comment without further detail as I do not have knowledge or experience of this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	What are these 'commissioned' services? Please give examples	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	There is not enough information to really comment here but our most vulnerable children and young people should always be a high priority.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	So lowest priority ignored!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Wahat services?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Such a sugar coated statements are unable to understand. Don't know what you really mean	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Generally satisfied with services but fear for the future of elderly people	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	??	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Hard to say	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I don't fully understand	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Commissioned services? Explanation needed before I can comment fully on this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	This is too vague and the current services are already under pressure so how is it possible to say money...	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I suspect that modernising Social Care will mean scrapping it altogether	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	We should always be looking for best value from the services supporting children's services and a focus on the positive outcomes they achieve	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	This could provide effective delivery from within the service, not always best to use external providers, need best value	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Commissioned services may already run at tight operating margins and cost reductions must not result in a reduction in quality or scope or service.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	There is very little detail contained within the narrative to make an informed comment. Suffice to say though that this should be a feature of a progressive and forward looking business and should not be the consequence of a need to save money.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	We need to ensure that third parties are properly managed and providing the services they are paid for.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	All contracts should be reviewed to get value fir money	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Targeted joined up working has to be well managed and with no 'territorial' infighting.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Commissioned Services must be used to the full if financed by WLC and a robust system of checks and balances, including timely delivery and value for money must be rigorously enforced.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Maybe third parties have to divertsive and learn to work together, perhaps savings could be made there?	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Children will need to be provided with something if they are struggling.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Reviews should always be carried out regulating when dealing with outside agencies that are being paid for their services.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	The priority needs to be developing all young people and providing not only time and activities for children but safe spaces and community support. Children need to be supported and encouraged with strong fundamentals in education so I would be disappointed if these are not focused on.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, I am not fully sure what this means. I would hope that any third parties commissioned to offering services to Children would always be aligned with Service priorities but agree their approach should embrace any new developments and approaches implemented.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	In my opinion the council has to invest in early intervention to try and reduce the reliance on services as children get older.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	The council should ensure that standards from third party suppliers are high & that their employment terms are also decent.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Again GIRFEC	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Maybe consider a more joint up approach instead of a sourcing out approach.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Strong partnership working which is linked up and communication is key. Perhaps peer support and knowledge exchange with different roles and just casual conversations to help each other understand their role will help people to see the big picture.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If making cut backs to out of authority provision, there needs to be honesty that this will in turn have direct impact on other service areas - eg education. Instead of cutting here, invest in in-house resources which will lead to longer-term savings.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	there needs to be better management of the contracts and commissioning and moves away from PSP schemes ; third sector providers should be providing services that are required and can demonstrate outcomes; if services can deliver the same service in house they should be brought back in where there is more control over the management and improvement of the approach; contracts should be reviewed and monitored regularly	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Children's services should always be targeted to the areas which require priority	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Third party agencies would have to be monitored and as accountable as current children services	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	If we cut cost here we need to make sure there is still enough measures in place to keep the children safe.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Go with the lowest cost option.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Clarity is required on what is covered by the term 'commissioned services'. This could include services that save lives.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure what this means exactly. Somebody needs a course in plain English and how to give us details which we can comment on rather than generalisations.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	What is the current annual spend on commissioned services and what percentage of this spend does the £533k represent. What services are currently provided by 3rd party services and what procurement review has been undertaken to ask these suppliers for discounted pricing - i.e. have procurement written to all suppliers requesting a cost reduction in respect of services provided?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	If you are withdrawing third party services then it would be wise to train your own staff to deliver the necessary services.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	You need to explain what you mean by 'Children' services'	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Once again need to ensure these cuts are not at the expense of staff wages or conditions	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. This question focusses on the commissioning of services from external partners and is therefore not focussed on internal staff terms and conditions.
Modernising our council	1H Review of Commissioned Services	1 shot of Javelin, anti tank or surface to air, costs £308 thousand. With your stupid savings you can not afford even to shoot twice, in a same time sending billion worth of guns packaged to Ukraine. In UK 800 000 children are not going to afford hot meal on Christmas, but you are supporting war thousands miles away. Sad.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Not sure if this is the correct area for this comment but I think the monies spent on transport / taxis for children needs to be addressed. Thousands of pounds are spent each week to transport children to school in taxis. Parents are given disability cars and passes for the care of their children. Could a majority of parents not bring their own child to school in their mobility cars.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	A full review of the young peoples units is long overdue. Its disgusting the money that gets wasted. The cook makes the young people the same menu every week and they don't eat it because they dont like it. I see full trays of untouched food getting thrown out every day. The cook doesnt even care about this.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	If there has been a failure of service on our part and you are dissatisfied please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Management and improvement actions are taken, where appropriate. The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsmen, who also deals with escalated complaints where a customer is dissatisfied with the council's response.
Modernising our council	1H Review of Commissioned Services	I think a requirement for all social care staff (children) should be a prerequisite that they actually be parents..	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	How is priority assessed? Normally this means cut the outlying areas and centralise in Livingston or the East of the county	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	The current practise where all school transport providers must go to an annual CCT bid process is horrible. There are routinely people left without knowing who will pick up their child on the first day of term or no-one turning up. This process is complex and lengthy, bidders don't know which runs they will win so bid for multiples. Once they win they might then hand some back if they get too many, meaning a new provider has to be found often in the week before school returns when according to the contracts and the expectations of the families they are meant to have a meet and greet with the taxi driver and escort. This often doesn't happen. Can it not be changed so that the contracts are for 2 or 3 years so that there's more continuity for children who often struggle with change and that must be a way of saving significant time and money with the Transport department?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	See the answer above	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The council need to sort my housing before I'll even consider offering my opinion. The council ignores me constantly and is costing me 2 houses to pay for. My next step is to take my housing situation to all media outlets.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As per my previous comment.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	As the last answer	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	West Lothian council should look after their own.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1H Review of Commissioned Services	Cleaning staff in school are already under pressure and are not given enough time to clean to high standards.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Children play areas and playground	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	mir*****(redacted)	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	Get rid of community councils, they are a waste of resources and council time.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Wealthy parent should contribute more . It should not be free for all .	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	On a different note, it is crucial that GPs start honouring their contract and looking after their patients. It would appear that it depends on where you live whether or not you are "seen" by such a person. It is a broken service. Well done the nurses for stepping up to the mark, with a lower salary.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Community Based Support at the moment the council provides an excellent day service for adults with severe compound and complex special needs. Most service users need to use a wheelchair, sometimes specifically designed for them and this facility has easy access and on found level so that all parts of the building are accessible to all users. The staff at Elburn are excellent too well qualified and highly motivated making sure that the service users are able to access and experience many activities where it would otherwise be difficult for the many professionals- physiotherapists, speech and language, nursing staff are on sire at particular times, and this capitalises the number of service users they can work with whether in group or individual sessions. my son is one of the service users and enjoys going each day, look s on it as his work (because he has his regular physiotherapy sessions) and because of the quality of the care and the variety of activity and experiences it adds to his quality of life. This will be the same for the other service users and makes it all the more important that the council continues to provide this essential service.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Better management of GP healthcare as I can't get an appointment	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I blame ***** (redacted)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1H Review of Commissioned Services	This doesn't even warrant an answer!!cut the wages and pensions of teachers!!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1H Review of Commissioned Services	This needs clarified.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	again, this question makes no sense to me.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure what 'commissioning services' are at present	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not enough detail to comment on.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not enough information to judge the impact. A very specific estimated saving, but very little detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No idea what you are proposing here.... Gobbledygook	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again I have no idea what this means.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	There is not enough information here to allow an appropriate response.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure what this means	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again not in plain English to make any comment here. ; I cantvcomment not through choice but the above not explained.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I am not sure what this means.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I am unsure of the impact from such measures. Not enough detail has been provided.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure what this relates to	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The words above contain no detail at all	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	No comment. Don't fully understand this.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1H Review of Commissioned Services	I am unsure what this would entail as there is very little detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again, without knowing how much the reviews will cost it is hard to comment	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Unable to make provide a constructive comment as there is no detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not enough detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again - this is a vague outline, and hard to provide comment on without fuller details.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure I understand what the services mentioned actually are so can't comment	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again this explanation is poor and I do not understand the meaning of the proposals. I would suggest the Council seeks customer input for future surveys to ensure they are written in plain English and easily understood.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure what this would mean in practise.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Cannot comment as not clear on what negative impact this will have on children	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	I don't fully understand this part	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Not sure what this means	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	Again no experience in this area so don't feel able to comment	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity; ; There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1H Review of Commissioned Services	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1I Revised Facilities Management in schools	Makes sense but the wider community is losing out because schools aren't open for people to access facilities (like swimming pools or gyms) outwith school hours which could help promote health and wellbeing in the wider community - not everyone can afford to go to private clubs. Even Xcite premises aren't open that much for public access outwith normal business hours.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	OK as long as the children have the same hours of education at the same level.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as no-one is punished, this could be a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This seems like the only sensible suggestion among all; Of those which will directly affect at the young people of West Lothian.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Rationalising of estates management across the Council area may provide efficiencies	1. The respondent advised that they agree with the proposal.	PROPERTY SERVICES
Modernising our council	1I Revised Facilities Management in schools	If this leads to better/more effective delivery with clear remits and standards, this is a positive way forward	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management may be more effectively and efficiently provided by an external facilities management specialist provider.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	There is very little detail contained within the narrative to make an informed comment. Suffice to say though that this should be a feature of a progressive and forward looking business and should not be the consequence of a need to save money. However having had previous experience in this area, there should be a drive to maximise resources by ensuring working arrangements are fit for purpose and are not arranged around archaic models that attract premium payments for the sake of it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Yes, definitely agree with this, too much down time and not enough cluster facilities staff	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As mentioned previously huge savings can easily be made by reducing the number of school janitors by at least 2 per cluster. Ours is never in school and when he is, he's too busy taking a shower, fixing his bike or playing football with the kids. When he's on holiday he is not missed one single bit. School staff now go most of his jobs and he sits around gossiping!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	close the swimming pools in schools as these cant be cost effective or run the facilities as a proper business not with excite but with school staff who want the schools to succeed make money rather than keeping excite afloat	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Why are schools open until 10pm? That is ridiculous. It was much more sensible before.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree there is plenty of community centres around West Lothian to be used and money can be saved with having schools open 11 hours a day	1. The respondent advised that they agree with the proposal.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Modernising our council	1I Revised Facilities Management in schools	Is this a core central system? which makes sense, however what are you doing with the staff in these roles? Redundancy is a very expensive way.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This would be a good idea. School lets are an issue. We have three let's where FMA have been on site and paid to open the school and the group who booked it have not turned up meaning FMA are being paid overtime for nothing. Perhaps a reduction of hours such as 7am to 6pm would help.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Positive steps, but H&S must not be compromised	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	These arrangements must bring a better quality of service to the children	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If the Facilities team are not on site then the buildings should be closed. If the building is open then there should always be a member of the Facilities Management team member there for safety reasons.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities needs over hauled	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FMA janitorial services within schools absolutely needs revised. The cluster I work in has 4 janitors looking after 4 schools. Two of these janitors do absolutely nothing except open up and lock up the schools. When asked to do a job or assist with a job, both say "naw that's no my job!" These 2 sit in the FMA office for at least 3 hours per day chatting to each other, complaining about their workload, gossiping and watching the news in BBC Scotland website! One of them arrives for the start of shift then goes for a shower (on Council time) this can take anything from 30 mins to 1 hour daily! When he sees a delivery van arriving at the reception, he disappears and has been found hiding in the jitter cupboard just so he doesn't have to help with the delivery! He can often be found (in Council time) outside playing football at break times with the kids meanwhile someone else is left to deal with Maintenance workers to arrive to carry out work During the nice weather before the summer break, these 2 janitors were spotted down at a local park soaking up the sun for 2 hours whilst on shift! When he's on holiday he is absolutely not missed by anyone. If we need a janitor we call one of the others who are always more than happy to come and help out. Basically I'm saying WLC could easy reduce the number of FMA staff by half as the other half are stealing a wage!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This must have been already reduced as my child is in senior school and loathes having to use the school toilets as they are not clean and rarely have toilet rolls in them...basic human standards.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	More use by community of schools would raise revenue.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Services should be under constant review to ensure value for money	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I think some schools are open to 10pm, can this be reduced to at least 9pm but still provide the needed services (or similar appropriate time)? Same goes for other properties that are open later, but perhaps don't need to be?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Need to keep cost down	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Surely you should be trying to get the facilities used more, making money that way?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as this doesn't impact after school clubs etc then great	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Seems like a reduction in staffing, but could work.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Outsourcing FM. Little surprise here. Cutting staff who support this shows how readily the council are at saving senior management roles. Sometimes this can work, other times you are reliant on a third party to deal with this, and standards can be poor.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I agree with this if it is in alignment with the opening hours but not to cut services already needed in settings. If the ELC hours were reduced to finish inline with the school this would free up facilities management. ELC children requiring care from 4 onwards should seek to apply to providers that are open at this time. I.E. if we are in partnership with private providers we should fund places for children here who will be outwith the 8-4 time frame.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	GREAT 👍	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Makes sense	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Seems sensible, as long as it doesn't reduce the opportunities for extra-curricular activities for children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Would agree that this is required	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Making the school day shorter would bring savings here.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	That's amazing	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	You could very easily cut the staffing of school janitors by half! In the cluster I work in we have 4 janitors although 2 of them are never around. When our janitor is in the building he is either: Having a shower (yes you read that correctly). Eating a lunch provided from the school kitchen that he doesn't pay for. Playing football on the pitch with the children. At the gate chatting to parents. In the carpark talking to his mates - for hours at a time (who pop in to speak to him). Moaning about how much work he has to do. Phoning the Union to complain about nothing! Telling staff "that's not my job" when asked to do something. Chatting to workers who come into do a repair. His idea of fixing a hole in the wall is to stick duct tape over it! In the container on his exercise bike (again yes you read that correctly) Hiding in the art cupboard as he has seen a delivery van coming into the carpark and if he can't be found we can't ask him to put the delivery away! Talking to his janitor pal and planning how they are going to get out of doing any work and how they're going to tell the FMA office by sending numerous emails! In short - he is a complete waste of space and his wages would be better spent elsewhere as other than opening and closing the school, he does absolutely nothing!! I know from speaking to colleagues from other schools that their janitor isn't much better!	1. The respondent advised that they agree with the proposal.	If there has been a failure of service on our part and you are dissatisfied please use the formal complaints process to escalate this issue. Each complaint is fully investigated, reviewed by Senior Management and improvement actions are taken, where appropriate. The Council has a formal Complaint Handling Procedure, which all staff must follow, this is monitored by the Scottish Public Services Ombudsmen, who also deals with escalated complaints where a customer is dissatisfied with the council's response.
Modernising our council	1I Revised Facilities Management in schools	I agree that school buildings do not need to be open the long hours they are when nobody is using the spaces.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	A more logical approach seems sensible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	So long as this doesn't mean a reduction in the level of service and therefore cost reduction, I would support this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This sounds excellent	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	So the schools will closed for longer to save money on heating costs etc which makes sense in the current climate but the staff will be expected to do the same amount of work in a shorter time - so teachers can stand in a line waiting at a photocopy as none of them can access the building until 8.15? Im not really clear on how this would work.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Acceptable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Instead of facilities managers sitting playing games or listening to music, perhaps they could actually do some work - like they used to do. I don't understand why they are paid to sit around and do nothing. Not all facilities managers do this but the vast majority I know do.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as cleanliness in schools is not compromised...	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Possible.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Some work very long hours with additional hours for lets. Not sure always required?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management are already stretched between schools I believe. However, if some details given, this would help to understand your proposed savings.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Having a bank of 'capable facilities management staff' would certainly help to alleviate some of the pressure that is put on certain janitors who appear to do most of the work.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Fantastic	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as facilities are safe, clean and well maintained then that's great. Anything that puts more money in the hands of third parties is not a great plan. Find ways to deliver these services yourselves.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Definitely sounds good, again I have experienced this with swimming and FM are really not happy people at most school venues!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	After reading the above, I will continue to trust your decisions in the areas I have no experience in, but thank you for the opportunity to co-operate!	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Reviewed to seek better scheduling of activities and revised cover arrangements and opening hours in schools seems appropriate.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree as we do seem to have lost our community education hubs - providing after school activities/opportunities for community projects. I think that the council needs to do a better job of involving people from our local communities to deliver opportunities which could be vocationally based learning.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as the activities continue to be provided for pupil's ways of increasing efficiency is a welcome approach. I don't believe that the school day needs to be changed significantly. School children are performing well at school at the moment.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Worthy of ongoing review.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Welcome better scheduling of activities if kids/parents know beforehand allows time to prepare the child (get used to the idea - if needed) and get equipment/kit needed (if anything). If you mean during school day!	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	I agree. But the community centre self-access arrangements are not suitable for everyone. And if that is what you are planning for schools I do not think it will work.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Consideration to this has to go hand in hand with the activity within Customer & Communities - who is looking at the overall building estate where there are community centres, community halls etc. Think this proposal should link so that where there is a closure that the local schools could assist and it could still offer up alternative for the ward area	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Facilities management do not need to be employed in school during the summer unless there is a clear role for them, my experience is that they spend most of the time idle and could be on sessional contracts.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Easily reduce the number of FMA's per cluster. We have 4 covering 4 schools. 2 of these staff members can never be found whilst on shift. A FMA helpdesk with cover being sent when needed would save lots of money. Our FMA only opens and closes the school, refusing to do any other tasks requested stating 'it's not my job' - complete and utter waste of money!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I agree with looking at restructuring and looking for more efficient use of resources however I would not be in agreement with staff reductions.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	School letting should be reviewed and rationalised to reduce FM and heating/lighting costs. Unnecessary to have multiple buildings open in one location e.g. where there is already a partnership centre which is not fully occupied.;	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Open hours of school should be looked at in line with the early years.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	As I mentioned previously, close on Fridays. It's tough but if it reduces costs and can save a few teacher's salaries then I'm all for changing it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	I support in principal as long as the school operating times would not be affected.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Some services need reviewed on how efficient they are and costs.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree so long as we are not talking about loss of community or after-school club access to schools	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	need to look at fma management.	1. The respondent advised that they agree with the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1I Revised Facilities Management in schools	This is a fair proposal, aligning them with the school day when they are most needed would save lots of wasted hours.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree with this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agreed,	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Fine	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Does make sense.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Sounds easier and like a good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Support	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Fine with this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	GOOD IDEA	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	It would be a shame if some activities had to stop due to this, but keeping the times buildings are open to a minimum seems like a prudent idea in this climate	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Provided there is no reduction in the service being currently provided.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Why has this not already been implemented	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	school hours are reducing, then facilities management should be trimmed to reflect this change	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again as long as children's safety and wellbeing are not put at risk as a result of any changes.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	There is genuine scope to review facilities management in schools. Current arrangements and practices are outdated and are not always designed and delivered with the best needs of the young people in mind.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Need to maintain good levels of cleanliness.; Possibly reduce extra curricular activities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FM could definitely be better utilised within the school.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agreed. Why do we need cleaners in a school on a Friday when pupils are only in a half day. Can the minimal cleaning this must generate not be held over to a Monday?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as it doesn't affect school times and overall better for the children	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I do agree with this as home working is now much easier so staff do not need to spend as long in the school building.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I feel this could be an effective saving if carried out properly	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again providing internal and external customers can see the progress of any queries and update them I do not oppose this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as it improves core services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I'm sure there are opportunities to rationalise costs in this area, I am aware of some very high charges but ineffective solutions. Any opportunities to review the arrangements in place for new schools in particular may be worth consideration.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Definitely worthwhile, too often FMA seem to be lacking tasks and in my experience are regularly resting in staff rooms.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Why not implemented already	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again moving with the times and providing on going support	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Sounds like a reasonable approach. That said, a question to Central Govt should be addressed to ask them for how much longer can Local Govt be delivering with less resources but increased demand?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This one is badly needed, far to many inefficiencies in this one even at management level where staff have been told not to work so hard (anecdotal)	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	There is too much slack in the system and facilities operators take advantage of Council contracts with poor supervision reduce further costs	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Why are our children's schools being let out to groups after the school day? This cannot be cost effective, in fact, it probably loses money for the council due to the admin time involved, cleaning requirements afterwards and facilities management attendance. In fact, are these premises not being opened for groups of people who are then left in our children's schools with no supervision? Surely that alone rings alarm bells as schools have photos us on walls with our children and their achievements in foyers etc. Schools should be a safe and secure place for our children, not somewhere that anyone who fills out a form can rent out and use.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reporting of issues should be simple and dealt with quickly with honest timescales given. Is there a reporting system and can works be scheduled with minimal disruption to learning?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Go with the most efficient options	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I support this measure.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as Health & Safety issues are addressed and no risks are introduced by scaling back.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I agree with the proposed changes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agreed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree - should be reviewed as standard.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Yes save	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Modernising our council	1I Revised Facilities Management in schools	I agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Seems reasonable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Very happy with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Oki	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	100% agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I Agree with this proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Makes sense.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree with this strategy although not if this leads to termination of any current activities .	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Re previous comments on reviewing systems and procedures. This is an area where large savings could be made.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	as long as the time the students can be at school is the same i see no problem.; We can not adjust the opening hours to save the council money but the families are worse off having to arrange child care. The cost shift from council to parents. this is not right.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	A review is not negative if it helps	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, if the status quo is reviewed, challenged and improved...great.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Will these opening hours affect after school clubs and time teachers can be in school to set up resources and activities? Some teaching staff arrive as early as 7am and/or leave as late as 6pm to work around their own child care and meet the increasing demands of the job!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Acceptable providing it does not mean a reduction in activities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	To support the responsible person the FMA should still be linked to individual schools and provide support when required.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	All facilities management roles should be reviewed. Needed in morning and at close of day but just sitting about in middle of day.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This should be taking place now as a matter of course	1. The respondent advised that they agree with the proposal.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1I Revised Facilities Management in schools	No negative implications described here at all, why are you asking the public if you should make this saving, why are you not just making the savings.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised facilities management in schools	Heating / electric /FMA overtime. Will more than cancel out any let fee. School kitchen not big enough for number of children having lunch.	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Modernising our council	1I Revised Facilities Management in schools	Agree that school activities should be better scheduled	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This needs to be in place	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Yes. Offering activities will support children	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I dont have much knowledge of this but as long as no compromise for childs learning then happy with cost savings	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I take it this means more schools open for local community use during non-school hours in order to maximise existing facilities? If so, then bring it on! The under-utilization of school buildings has puzzled me for decades and surely in many cases could save money on other premises if people could start to think outside the box!	1. The respondent advised that they agree with the proposal.	Thank you for your response. It is proposed to rationalise the provision of council facilities and community centres across West Lothian and support community access through council or partner facilities within each community.
Modernising our council	1I Revised facilities management in schools	parents struggle to work and cover the childcare, as far as we dont lose hours at school by doing this, its not a bad idea.	1. The respondent advised that they agree with the proposal.	Thank you for your response. No change to school hours is proposed.
Modernising our council	1I Revised Facilities Management in schools	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Yes, that is good.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Community schools do not actually let communities use the facilities as they have to pay from their limited budgets for staff to open and close. facilities are still set out for school use so in every practical sense they are unuseable. So a review is welcome so that facilities can be better used.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Sensible to review but needs to be an appropriate level in all schools	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Whilst I agree with this I also believe that there should be an urgent review undertaken of simple things like lights being left on in schools 24/7. I regularly drive past DCHS & see lights on all floors blazing at 10/11pm at night when even the basic community offering would have closed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I think facilities management could be looked at heard a few rumours about the new Whitburn centre guys not clocking in and claiming hours.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This could definitely be streamlined but would need to be done in a way that doesn't reduce the services provided.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This makes sense, again though need to ensure don't go too thin as impact if sickness etc and then have to pay overtime etc	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Definitely. Lots of money is spent on managing and cleaning schools that is not needed. I see far too many cleaning staff at some schools and they are often just standing around waiting for their shift to end. They could do the same job with significantly less staff. ; ; We should follow Japan and have pupils clean their own schools. So many great life lessons and life skills to be learned through this. What a great name West Lothian would get for piloting this too!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Absolutely. I know many times the facilities management services are not busy. In our local community centre, they sit in empty buildings playing games on computers or ordering their online shopping. Some even boast about it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not sure the direct impact this may have. If there can be a more efficient use of existing personnel as long as does not impact on roles of other school staff.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	should be able to be done by centralising these services in the areas they serve	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Current FM within schools do nothing apart from take an issue and pass it on to someone else.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as full service is still kept.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School should open and close for the school day Monday - Friday. Only opening for scheduled school events with advance notice. Activities should be based in partnership centres. Or sports centres	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Makes sense to reorganise this as there is little point of a janitor being in a building for one booking.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reviewing service is fine, if the recipients of the service are kept in mind, not just the cost cutting exercise. These establishments can not exist without adequate FM's	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This seems a sensible idea, streamlined cooperative facilities management services across schools would be more advantageous and increase purchase power.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This could be streamlined	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agreed . Need to have some activities after school hour in all schools so working parent could be benefited .	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Fully agree with this measure, can deliver savings without adversely impacting on outcomes.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	this would seem to make sense but I hope it wont lead to less access to school facilities for the community. If underused, it could just be that people just dont know what is available	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Yes this sounds reasonable as long as buildings are clean and safe for children and staff.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	the janitor role and hours need to be addressed as their is too much time wasted on them sitting around waiting on a job to be done and they should be in a better rota than the one the now. We dont know who is on at times and who is covering who and when they are on holiday unless they tell us themselves	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Good idea. Can this not be reduced further?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as schools can function properly and safely	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	100 percent agree with this. Why are janitors working until 21 or 22 when there is no need to. Also many routine janitorial jobs are absorbed by school staff.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	should be investigated	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as child or young adult will not be put in danger	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Looks like. Good approach assuming it doesn't impact education	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Fine.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	These a sensible approach to only open when needed but need to make sure ad hoc openings are easy to secure if needs be.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	It makes sense to optimise services to achieve savings without significant inconvenience	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As long as there is no reduction in available activities then it seems a good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I agree but not the the detriment of school maintenance and schools being unable to access these services when needed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	These services are already pushed to the limit trying to help clean and maintain decaying estate which is poorly maintained.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Facilities Management Services are stretched to the max. they have been cut to the extent where some fms's are looking after 4 schools etc. no longer is the "janitor" someone who will help or assist the school staff as they are rightly saying no to anything out with their contracts.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I am aware that at the moment if an FM or keyholder is required to be contacted for an emergency situation at the school then this is already very challenging with very few staff being actually formally on call or available to attend to properties out of hours - it seems that the organisation relies on people doing this on a "goodwill" basis which is not currently effective.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School janitors hours have been streamlined on many occasions and they are still expected to maintain the buildings etc with reduce staffing numbers. Not sure they should be cut further.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cover is already a huge issue within schools as well as the ability to engage with supply teachers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cleaning standards in schools are already appalling and a health hazard in themselves.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Another waste of money, cutting corners that won't help schools or communities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This means sharing school janitors which is not as good for the school as having an duty janitor in the building at all times.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again reducing the hours that schools are open can be a derogatory decision to after school clubs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This must not effect community use schools where these are vital to the community. Particularly with the opening of the new winchburgh academy. the population of winchburgh needs to be given the opportunity to prove that opening nights and weekends can be made commercially viable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reads like you will be reducing hours and cover for community use. Again impacting children, elderly and disabled. Not acceptable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools are already at the minimum level of support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Any changes to facilities management and the associated levels of service should mean that repairs, routine maintenance, etc., are carried out in such a way to help schools deliver education. No school should be having to wait for essential repairs and maintenance. This can be particularly important in the winter months. Scrimping on maintenance can be a false economy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, this cover is an area where changes should not be made and cuts should not be allowed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Another essential service being hit by potential cost cutting! Our schools need to be safe places for our children and by stretching the already stretched FM team you are risking the health and safety of not only staff but children (again)!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	It is almost impossible at the present time to have all FM issues resolved in a day, with many having three schools so this is going to be bedlam!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The facilities management team already do a lot more than their contracted obligations. You would need to be very careful not to cut too much otherwise our school buildings and grounds will suffer, incurring further costs to repair or replace.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School could not operate properly without the FMA's they are a very important part of the daily running of the school , during COVID FMA's has to still open up the school when no one was in the building as they were classed as Key workers why would we want to make a saving on them when they are such an important part of the school process	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I think our facility manager is already stretched thinly as it is, this would have a huge impact on schools	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Please see my previous comments. Any cuts to budgets where staff are already going above and beyond will mean the system will break - it certainly won't improve. PLEASE come and visit a school and see what happens here, not ready 'strategies' and paper policies!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	As our school has grown in number, the staff have not. We are now over 1000 students, in a building that is mostly falling down and our staff do their best to keep everything spinning. It is a slap in the face to say you want to reduce this even further. My suggestion is that members of the council proposing this change spend a day or two as staff in a busy high school and see how replacable these people are.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School facility management is necessary for children out of school activities as well as breakfast clubs and staff access - these should not be reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I doubt this would help, the workload would just end up falling onto school staff. Who are already overwhelmed with workload. The addition of this and social work tasks would lead to either absences due to poor mental health or leaving the profession.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	What are facilities management? Does this mean school support staff, for example? Does this mean janitors will be put on reduced hours? If so, absolutely not in agreement.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Will extra curricular activities remain in place : this service offer a wider range of activities and can be low cost for children	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This is already shockingly low! Can't believe you want to cut it further	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cannot see how this is going to be able to be reduced any more than it currently is without becoming a huge safety issues for our schools, pupils and parents. Staff already go above and beyond to ensure safety.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools facilities services are on their knees. Janitors juggling numerous schools and cleaners with impossible work loads. I believe this proposal will lead to serious health and safety issues.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Keeping schools clean and safe is vital for our children and young people. It would be helpful to know what the pupils in schools would see as a result of this suggestion. Disagree on the basis that it doesn't tell me what the change actually means or : and what impact a reduction will have on safety of children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management are essential to the running of schools. Without them, head teachers would need to be trained in plumbing, electrical repairs, roofing repairs, painting and decorating etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again this service is already been cut further cuts will cause damage to buildings and people which will result in further and greater costs down the line.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cleaning and maintenance of schools should be supported making them nice places to be to.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools are falling apart with the funding they have now- I don't know how they will stay up with less funds.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	do not feel that the proposed cuts to Education will be of any benefit to the children and young people of West Lothian, to teachers in our schools or to the support staff who work tirelessly every day for the benefit of schools and keep the environment safe for us all.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I cannot see how this can work. Surely there needs to be a basic level of facility management staff in buildings and this cannot be reduced further?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, it's the lower paid who suffer. Janitors are already stretched between several premises and are unable to provide the soupy they once did.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Many buildings currently share facilities management (1 person who floats between). This often has an impact (although mild) on safety, security and facilities throughout the day until the next time they are in.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities in school are already lacking. This would compromise staff and children safety to reduce service further.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As we have closed a number of local facilities, schools can often be the best place for people to access exercise facilities. The impact can be the loss of community groups altogether as alternatives are often too expensive. Being part of a community group myself, we are already discussing the future of the group as costs of renting a space for an hour or so are too large out with schools. The impact will be felt by individuals.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	It is impossible to meet the needs of our children. This 'multi agency' approach does not work when schools cannot get in touch with anyone/ endless waiting lists - taking money away from these services is a disaster waiting to happen and the wellbeing of our children should never be put on the line.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Reducing these support services in schools will have a negative impact for all. Reduced hours of facilities management staff would put increased pressure on this service and in turn, will impact all staff. It will limit the experiences we can provide for children out with school hours which for some children is the only time they get these experiences. Potential earlier closure of school building will have an impact on the ability for teachers to undertake tasks needed done out with the class contact hours and will impact on the already unmanageable workload.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Potential earlier closes of school will reduce teachers' flexibility for the workload. This is already barely sustainable and limiting this would increase pressure more.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Reducing the support services in school will have a negative impact on all. Reduced hours of facilities management staff would put increased pressure on this service and in turn, will impact all staff more broadly. It will limit the experiences we can provide for children outwith school hours which for some children is the only time they have those experiences.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FMS has already been cut and playgrounds and entrances are often littered with glass/debri/unsafe.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reducing the support services in schools will have negative impact for all. Reduced hours of facilities management staff would put increased pressure on this service and would therefore impact all other staff involved in this environment. It will limit the experiences we can provide for children outwith school hours which for some children is crucial as this is the only experience they have in this area. Potential early closures will reduce the flexibility that teachers have for their current workload. This is already unsustainable and this would increase the pressure more.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reducing the support services in schools will have a negative impact for all. Reduced hours of facilities management staff would put increased pressure on this service and in turn will impact all staff more broadly. It will limit the experiences we can provide for children outwith school hours which for some children this is the only time they have those experiences. Potential earlier closes of school will reduce the flexibility that teachers have for workload. This is already barely sustainable and by limiting this would increase pressures more.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management services are already cut and they are unable to carry out the tasks required for the safe ad successful running of schools. For example classrooms are unclean, paths are not cleared on snowy days, maintenance tasks can't be completed in a timely manner. Reducing this service further will limit the experiences we can provide for children, increase the pressure on all school staff as they scramble to cover the tasks which are not getting done.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reducing the support services in schools will have a negative for all. Reduced hours of facilities management staff would put increased pressure on this service and also impact all staff. It will limit after school experiences we can provide for children outwith school hours, for some children this is the only time they will have these experiences.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	You've already cut here. Schools are having to share janitors and I suspect the workload will deter applicants.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	There is already not enough facilities management in schools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As already mentioned, don't reduce the hours school is available but increase them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If this proposal involves reducing the schools opening hours before and after a pupil's school day I disagree with this. Teachers need early and late access to the school, without the presence of pupils, to do jobs that can only be done in the school building, for example wall displays, photocopying, laminating, printing etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reducing opening hours of the school building will result in less funds being raised by way of Lets. Facility Management Assistants provide a huge money saving to schools' DSM by undertaking any quick remedial jobs rather than requiring a subcontractor to be brought in. It might be more beneficial to arrange for some training for all FMA to be able to act as a handyman in each building - having the initiative and empowerment to tackle small jobs before incurring inflated prices from contractors.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	This will only lead to more health and safety concerns in a building that is already not fit for purpose. There are fire doors that do not close properly, leading to an unsafe environment as anyone could enter the building. There are several classrooms with persistent leaks in the roof which has been ongoing for many years, leading to pupils learning being interrupted and equipment being damaged.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We have little enough already and in an aging building that requires significant upkeep.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This service is stretched as it is. With further amendments the service provided will not be effective.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management is key in schools. They keep the buildings in good condition therefore saving on more expensive repairs. They are also very necessary for safety and security for the entire school community; With winter approaching they are needed to ensure safety on paths and car parks for all school users.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The FMA cover in schools is currently insufficient. It has reduced gradually over the years and in some cases there is now regularly 1 FMA covering a full secondary school with no cover when he goes for his break. I would suggest that managers of this service should be based in schools to be able to review and streamline the service, moving resource where required.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	There are already times without FM staff in school. This can be difficult to manage if there are any buildings or facilities issues, particularly in schools where we can't close a toilet block and expect children to wait.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School is a safe place for children... reducing this time will only leave our vulnerable and even our children out into teh world under prepared	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management in schools is already stretched beyond it's means - reducing this would mean that less and less jobs would be able to be carried out around the school that are already being done. The facilities management team do a whole lot more than just their day to day jobs within the school which they are not recognised for.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The facilities management in schools are vital staff who are currently stretched very thinly. Schools (especially the community schools) should be open more hours and not fewer in these times, as people look for cost effective activities to do with their children and places where they can be warm. Schools could be utilised far more to be available for local communities to access for evening classes, fitness and other sports and clubs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This depends entirely on the nature of of the review and its outcomes.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Gives kids somewhere to go instead of being in the streets hanging about getting upto no good	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cleaning standards in schools should be maintained as a priority as cuts have already impacted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools need to be kept clean and well maintained - COVID was a prime example of this and showed how essential our maintenance staff were at keeping us safe.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	facilities management staff have already been reduced considerably to the point where some buildings have dangerous levels of cover.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	7.30-8:30am and 3-6:30pm cover should be available for all children to cover working parents - majority of parents are now working this isn't a recent changed but many more will need to increase hours/days to allow for increased cost of living	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	School facilities management already seems to be pretty poor - needs more funding if anything, certainly not yes. I don't support this!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Would this cut down on extra curricular activities for children and clubs out with schools that use school halls. If that is the case then this should not be reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Facilities management in schools have been reduced many times over the years and staff have to cover more than one school. Playgrounds don't even get gritted properly in the winter due to this and accidents happen. Stop reducing staff!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	School services should not be cut.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Believe it when I see it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	less jannies less teachers?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not sure how this can be cut more!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management in schools are integral to the running of school events and upkeep of good working/learning standards. Any move to reduce the amount of staff in the building would have a detrimental impact on services the school can offer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Sweat the school's assets for re-investment in their upkeep. Create more ongoing jobs, not less, for the same money whilst self funding facilities upkeep.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools are poorly maintained as it is with the same problem being reported over and over and then when they are 'fixed' they are an issue again within days or weeks. Reducing janitorial time is unthinkable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I hope this will not mean reduced after school clubs bra cause no support staff to keep the building open.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again making it more difficult for parents to work and not having these provisions in place.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, this is looking at some of the lower paid staff members, I fail to see how you can reduce hours without increasing the workload for other staff, in which case significant wage rises would be required, if they stay within their role. As far as I know, there are already far too few staff and way too many managers within FM.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No cuts at school	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, these have already been reduced! I'm interested to see how this can be streamlined as they are already short staffed, when there is sickness what happens then?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Your facilities management arrangements are already inadequate; especially in terms of technical support - where you have no respect for skilled people; actually seeming to fear the very experienced/capable! - This can only make the situation much much worse and cost more money for a poorer result in the long term!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This needs careful assessment, especially when facilities management is what kept the country going through the pandemic	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We cannot reduce the opening times for schools. However activities out with school hours does need to be taken into account.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Disgraceful attempt to reduce staff - dishonourable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	fma was hit badly, last time around, lots of cleaners on temp contracts lost their jobs, then service could not be met, then/now still trying to get cleaners back. need to look at fma management.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I am concerned this will have an impact on the wider school life and local community. School buildings provide a vital community space which is lacking in most towns in West Lothian. This would impact on clubs, community organisations and the wider life of the school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	My daughters school is already a mess with plaster missing & not been painted in years. The head says there is no money to fix this. What more can you cut away?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FM is already stretched. Being able to use school as community hubs should be made easier	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Don't know what this is but education is getting hit again.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools need to be well maintained otherwise all these new builds are a waste of money so keep looking after facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The school estate needs to be safe and secure as well as being maintained, the saving here sounds like something has to give. I would be very careful with this review	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Still have to ensure that all statutory examinations of services are carried out by trained and approved personnel at correct service intervals	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Buildings are poorly maintained as it is costing huge sums to repair or replace when they become unsafe. Focus needs to be on maintaining facilities to a higher level to prevent this in the future. Cheap building models have not worked in the past with schools needing to be replaced completely	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	oh right yes let's reduce the cleaning further then- that will ensure we all remain safe from covid.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This sounds council speak for a further reduction in facilities management support, I do not see how this can be achieved.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I totally oppose reducing the number of hours in the school day	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	They are short staffed enough as it , to cut staff would be silly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The role of facilities management in school is already stretched and there are differences between caretaking and managing the premises. Opening up and securing the premises is the priority and other areas are left to responsible person to deal with. Consideration should be given to this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	It is already very difficult to get in contact within anyone who works in Facilities Management in schools at the moment due to janitors working across multiple schools across the council. I cannot imagine how cutting this budget will be of benefit to school staff.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The facilities staff within schools are essential and work extremely hard already, do not make cuts to them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This looks like an undercover plan to have council facilities open even less. Why? Does anyone in the council actually want to serve the community that pays their wages?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I would think this would again depend on the individual needs of each school and the ability to need those needs inline with health and safety of all the pupils, staff and families accessing the service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	So schools will have even less janitor support and this will mean that they can not open when families need them to especially for after school clubs or other events	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Threadbare service already	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Don't agree with this, and how can this possibly save £1.1 million?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Is this a euphemism for staffing reduction, redundancies? People who live and work and contribute to WL being made unemployed. And to think only two year ago we clapped for them each night from our doorways. Tis short term businessification of public services is a disaster. The work needs done, and it needs done by people who are paid well, and who do their job well. A school cannot run without them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Schools are community buildings & therefore you should ensure they are still available for community use, at times to suit clubs etc that are outwith school hours.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Primary schools should not be open after school for external groups such as brownies/scouts/karate etc... we should maximise lets in community centres, secondary schools, churches, village halls. It is not making profit, if anything a loss due to increased energy prices.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No school should be left without at least one full time janitor.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Do not support at all, this will harm children's life opportunities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools need facilities management. The cleaning staff and facilities staff has already been reduced. How are further reductions going to be made.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This service has already been scaled back in schools - FMAs have a shared rota to cover schools in their remit.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	A janitor is already spread over 2 schools, if sharing further how will this work in the winter. Has this not already been done in previous exercises. Do not see how any more staff can be taken out this area what a direct impact on service whether that is a dirty building or lunches being pre cooked or more uncooked food at time when some kids will only be getting one cooked meal which is at school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not enough FM at present within our school's to provide cover. Too many managers and not enough on the ground doing the work.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools need to be well maintained. Teachers and school staff have enough on their plate without having to take on duties that should be done by facilities management which is exactly what would end up happening if this service is cut more than it already has been.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Sufficient schools should remain open in the community to promote the health & wellbeing agenda that is so important at this time.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FME's are already spread over numerous school buildings and many of the duties previously done by an FME based in a school are already being picked up by PSW teams within school eg cleaning up if a child is ill/accident	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We really need janitors on site !	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Quality in education also means the required level of support necessary for students during their time in school. If this is compromised, it is difficult to deliver such quality. So it is important that it is given careful consideration before reducing manpower, decommissioning or reducing such facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	It feels like a lot of cuts to services and hours in this area. if the time and resources can be better managed then thats good, but we have to remember that these children are our future and society doesn't seem to be going in the right direction as it is so any chnages have to be for the best of the child's development.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Lack of provision of facilities management services to schools would impact on the time teachers have in school to prepare/resource lessons. It is also important for pupil safety that easy access to facilities management staff is maintained in case of property issues that regularly occur during the school day.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FMAs are already very stretched in schools. Reducing this further will have a massive negative impact. My school has 1 FMA who works across 3 different schools already. How can this be reduced further?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities staff are a huge part of the smooth running of a school. Again another cut that could potentially affect children in West Lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	With cleaning staff at a minimum in some schools, proper cleaning is not happening. Post-covid this should still be a priority to keep young people & staff safe from viruses.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Think this would be hard to reduce as activities are already being streamlined to maximise productivity	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	It should not be underestimated how much work the facilities management team do within schools. A number of our school buildings are getting older and therefore maintenance should not become a secondary focus.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Stop making schools worse. Do your job and improve things for the sake of the children	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Could schools not be used for communities during weekends and holidays? Letting out rooms and halls may lead increased revenue as well as strengthening communities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FM service contracts are massively financially inefficient and see very little return on the financial and operational arrangement.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I think that there should be better learning classes in high school S3 upwards for dealing with finances mortgages etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Ensure public can access facilities throughout the year	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Concern about safety of school staff if cover not appropriate.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I disagree with this proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I disagree.... I think we need more playground assistance....not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Strongly disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I disagree with this proposal	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The use of schools for activities out with the school hours would be a shame to miss out on, especially for organisations that access the facilities to support extra curriculum for children	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1I Revised Facilities Management in schools	FM in schools have a vital role. To cut down on them in schools is not a wise idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities Management is already shared amongst schools and appears to work well, however whether further changes can be made whilst maintaining efficiency and meeting needs remains to be seen.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This suggests that access to community aspects of schools and community based activities may be reduced or limited for the public? And does 'revised cover arrangements' mean more pressure being put on to caretakers to cover different schools and community settings? I would hope that community access and provision wouldn't be impacted, and that caretakers wouldn't be stretched with their working shift patterns	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Some schools are dropping to bits! Don't make cuts here.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools work well with their own janitors trying to cut this service takes away that continuity many staff and pupils enjoy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Many different clubs use the school's facilities, including clubs that are not affiliated with the school. How would this affect not only the school but the community. It reduces peoples extracurricular learning. Something they use as a release when they are stressed could be cancelled and they may not have an alternative. Parents who work and cannot pick their kids straight from school would have to look for alternatives to get their children looked after which could be expensive for families who are already struggling.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Again another concerning proposal for our cleaning and janitorial staff who work tirelessly to keep our schools functioning. Cuts will have direct impacts on children, for example access to things like potential after school clubs etc. as access to buildings may be cut short. Access to clean and safe buildings of staff are over-stretched. Appropriate and timely repairs may also be of a concern.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not the time to cut back on FM services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This should have no negative impact on pupils ability to participate in after school activities or use facilities that can promote health and well-being.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	so basically cutting access to school facilities for out of hours school activities that schools may be used for by the general public; not a good idea	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	See my answer to 1H Whilst a review of all commissioning services is probably essential I do not see how you can guestimate the estimated saving unless the review has already taken place (which again would make this 'tick box consultation')	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No again provide the service needed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Keep all	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I am concerned that health and safety, and wellbeing of FM staff might be compromised if they have less time to fulfil their duties in each establishment. They are often over stretched as it us.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	facillities management staff are vital and should be increased not cut	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, please think of the childcare implications for parents.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	More cuts, not content to close the Low Port Centre, WLC are proposing further funding cuts. You get yourself out of a recession through education not the eradication of it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If children are denied the use of facilities because of revised opening hours EG.after school activities then once again this leaves them with more time and nothing to do.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Already at bare minimum. You may just aswell tell everyone to school from home. Absolute joke cutting anything from schools and youth services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I am sure this means less schools opened for community activities, which I do not support	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Depends what revised opening hours in schools means. Many clubs and groups use school buildings out of hours, this should not impact them	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Would not have thought any further cuts were possible	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised facilities management in schools	This is at bare minimum level anyway and need to increase funding for more activities at schools at all levels.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	More cuts for poorer service it sounds like. Not for me.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Agree as long as maintenance and janitorial staff are not reduced. Some school buildings are in a poor state with current provision.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I hope the phrase revised cover arrangements is not code for reduce.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	'Seek revised arrangements'. Rather a short note; but maintaining facilities management.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	As long as this isn't reduced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Each school should have its own facility manager. At the moment they have a few schools to cover. Reducing them will further will have a negative impact for schools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Well I suppose you want as many activities as possible in selected windows to manage energy requirements. This needs good management locally, bottom up, not top down. Speak to the folk doing the job!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	You mean you cannot just schedule 90% of maintenance outside of term time. Changing a light bulb or broken window or toilet might still need doing though. Suggest you don't pay 500 a bulb	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Potential opportunity for one provider for all school FM? This could benefit the organisation through increased economies of scale etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools in particular are already cleaned less than ever before. This should be increased not decreased!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools are an integral part of the communities. Closing schools early will deny our children the opportunity to access extra-curricular activities and clubs. Cutting this budget will yet again hit our children hardest.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Does this mean cutting janitors' jobs? They do a very important job in our schools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Janitors are rarely seen in schools as it is so hopefully this would not reduce.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We should follow Japan and have pupils clean their own schools. So many great life lessons and life skills to be learned through this. What a great name West Lothian would get for piloting this too!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools must be allowed to remain open after time to provide a cultural hub for children and youth. ; The use of the facilities can be paid for by service providers of after-school activities, or by shifting the after-school activity from other council facilities - consolidation.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I feel that there is currently too much reliance on third party facilities provision in schools, likely brought around by the private involvement in school renovations over recent years. Council staff maintaining council buildings and facilities seems much more cost effective from an outsiders point of view.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	There are times when teachers need to be able to access the building outwith the hours we actually teach e.g. to organise ourselves, sort our photocopying and to complete marking. Even though parents night, although currently online, some peoples living circumstances mean they still need to complete parents night from the school premises.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The current service provided by in-house facilities is good but the service from external providers is sadly lacking. I teach in a labe with one source of hot water (this is the design of the room) but this one source has been out of action for weeks while I have been waiting on an external contractor to fix a leaky pipe. This is a job I could do myself! Cleaning up after experiments is done by me - I boil a kettle and fill a basin and wash up. This is not part of my job and it takes time away from other valuable activities - I am a very highly paid cleaner at times.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not good if this reduces facilities management time in addressing school issues and if it reduces the tools to keep schools in legal working order (not the case at present as we know in some cases) - especially as many classroom environments would not be endured by many office staff - public or private. This is not good for morale of maintenance or school staff . Staff are WLC most valuable investment and assets.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	It would be beneficial if the parents could get a schedule or time table what the children do in P1-P5 which at the moment seem not to work at my school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not sure thus would support community school which offer that vital after school facilities for families	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Consistency required across schools on this front. Winchburgh offers so much more than linlithgow and Broxburn which is unfair in comparison due to the facilities there. Furthermore infrastructure not there for transport to these places	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Working conditions of employees must be considered.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Some children rely on the after school services, sports clubs. If they are from poorer communities they get support from these groups and in certain circumstances it keeps the children off the streets and out of trouble	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The only cuts I can see to opening and closing is that community associations have the ability to open and close for evening and weekend let's but it comes with concerns over key holders and what they can have access to .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, how will this look for staff and children? How many members of staff will lose their jobs? Are we going to rely more on the current poor service of internet providers?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Already stretched service with schools having large chunks of the day without facilities management on site already and teaching and support staff having to undertake facilities management roles. Further cuts here are difficult to be positive about.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	At the moment there are no activities in my son's school. I am happy that they provide a breakfast club. After school activities, not for the purpose of childcare, but for the children to gain opportunities trialling different sporting activities or the like needs to offered.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This would need to be carried out carefully as in the winter months they need to be onsite early to clear snow and ice for safety.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	For some children in our society, school is the safest place they can be. After-school clubs and other activities provide these children with a safe haven. Does this cost saving suggestion have a direct impact on these children? Have you worked with Head Teachers to find out who this impacts most?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What impact will this have on children in schools? Will there be a reduction to services- if so I don't agree.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Would this have an impact on Early Years provision who are currently open to 6.30pm Mon-Thurs and ; after school provision.; I would imagine heating the school at the end of the school day until this time is costly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I worry how this will effect people's jobs.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Children need to be in school not just for education how is the above going to help. Facility management is always needed in a school and if not available falls on to school staff that are already worked off their feet.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If this impacts on extra-curricular clubs/activities then again it is the young people that will suffer greatly. As a secondary teacher, I see how vital extra-curricular activities are to developing a child's rounded education in all different ways. Our facilities management staff are essential to the smooth running of the school.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Does this mean that schools will not be open beyond the school day so that community clubs can no longer access the facilities? Sports, BBs, guides etc?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What would the the additional negative impact. Would this potentially mean schools not being utilized for clubs and other potential social aspects? Need to elaborate to the big picture.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management are vital in the operation and upkeep of schools and must be protected	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I do not not think anything should be changed with the schools as it would not be in the childrens best interests also changes to the school day would impact on parents and other carers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The current facilities management leaves schools with times during the school day without a janitor. Any saving here will further compound that time when schools with pupils in don't have janitors available. Oppose	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Safety and a excellent working environment is key to learning any changes should not compromise that	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Having a better opening hour in schools will bring alot of benefit in different way such as parents have more flexibility for working, hence enhance efficiency.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I do not feel schools can cope with any cut backs in this area.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	No. Keep funding schools at or above current levels.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Our school has a leaking roof and draughty windows. And almost no extracurriculars. You want to do *less*??	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not sure about this one. Schools already don't have full time janitors I don't think. I would hope you wouldn't outsource these services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The statement doesn't really tell me anything. Any move to outsource FM work would be a bad idea as third-party services invariably lead to a decline in standards.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Do not see where this could save money .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The on premise facility management teams that my child has encountered go far and beyond their respective duties and I believe a thorough review of the activities actually form at the lowest level should be conducted in relation to where cuts could be made as opposed to perceived management beliefs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	So teaching/PSW/other school staff will have to do the jobs instead. If schools are closed earlier teachers will not have the time to complete planking, organisational, display work and other jobs that need done after the children go home.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools need these to run efficiently. They are already shared between schools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Should be increased, not decreased, as conditions in schools have deteriorated.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Will this mean no one dedicated member of staff for each school?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I would not support the reduction in support for schools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools need to maintain current opening hours.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FM staff are absolutely crucial to keeping schools working and providing a safe environment for pupils and staff. Their last change in working pattern resulted in stretching them too thinly already and more overtime - surely that can't be an efficient way to operate?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools are already not cleaned well enough (there are flies in many areas of my building, as well as stoor everywhere), nor is my building maintained in any meaningful way. The building is falling into disrepair (e.g. every fire door seems to have a window missing, a stiff or broken hinge, or a dodgy handle, for instance; there has been no meaningful refurbishment of the fabric of the building in a decade).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Keep all work in house and do not outsource to profit driven suppliers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This will inevitably lead to after school activities being reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Third party facility management will always in the long run cost more as they are not made accountable by the council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No job cuts!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Please don't cut school staff - there are many other ways to save the council money. Doing away with the rule that schools can only purchase goods from certain (usually the most expensive) sources for a start. More efficient energy use (heating and lighting not being used unnecessarily). These won't save millions but it's a start.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	It is complete madness to expect the attainment levels of pupils, the morale of staff and the physical state of the buildings (speaking from experience, some already in a poor condition thanks to shocking procurement procedures and decisions, ie cheapest quote gets the job, never finishes on time, children and staff having to work in what is essentially a building site and then as a result of the poor workmanship, constantly having to repair the shoddy job that was done in the first place!); ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Getting rid of facilities management workers as well as teachers, pupil support staff and administrative staff? How is the council expecting schools to actually function effectively? ;	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	How can you estimate a saving before you have even renewed it. There are no activities in schools. They are only just beginning to start back since covid. How can you reduce the opening hours of school without affecting the learning of pupils. Stop reducing what the kids get when they get nothing as it is	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We need facilities management in school, I don't think we should cut cost and we should definitely not subcontract out, as the subcontractors are half of the councils problem. They get the contract, don't do the job properly then the council need to go out and redo the job costing the council more money.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities staff do a significant amount of 'hidden' work that keeps schools open and operational. With winter approaching, their role becomes more 'visible' in ensuring schools and their grounds are safe. ; Cutting this back would again have a very negative impact.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management staff are a credit to the school and are needed throughout the whole school day.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management are vital in running of school. To cut time suggests school staff may not be able to stay in school for a significant amount of time leading to poorer learning experiences yet again for the children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Already this service has been cut to the bone and can't deliver a good service to schools .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, the FM staff have been cut several times over the many years that I have worked in schools. ; They are essential to keeping a school going and should not have the hours/staffing reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	some of the council services ie FMA cleaning , kitchen staff are nearly working short staffed as it is without more cuts , ie FMA opening 3 schools for 6am to allow cleaners in. when they dont start there shits till 6am constantly under pressure to start well before there start time .worse when its ice or snow having to clear paths for access for schools. If the council had to make cuts it would be very hard to maintain this service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	school facilities are stretched as it is . 1 FMA opening 3 shoools for 6am when they dont start until 6am .constantly coming in early before there start times , no support in the winter having to clear footpaths for Teaching staff and pupils . FMA do a vital job in the schools for very little thanks. on the other hand it has been nown for 1 or 2 not to stay at there work ie go home when they should be in school. on the point of opening school the FMA s have to use there own cars to get to the other schools as quickly as they can but could start to walk which would Couse delays in getting the schools open or other duties.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Please do not reduce janitorial services any further.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities Managers are already only on site in schools for part of every day due to their rota scheduling. Reducing this further will lead to higher instances of machinery malfunction and major safety issues in buildings hosting large numbers of our young children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Janitor is already part time 😊; Might be easier to have general purpose staff on a best endeavours basis. Or encourage more home schooling with a drop off place for kids whose parents don't work from home?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Hard enough to get jobs done around schools without reducing services. Lots of day to day work needs doing too bring schools up to scratch so the needs janitors available all the time!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools will still need the cleaning and maintenance staff to be there when the facilities are in use, facilities should be rented out at a competitive rate, halls, MUGA pitch, pools.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We really appreciate our facilities management staff and service in school. They do a great job and provide as good a service as they can when they are understaffed and underpaid. Please don't make things worse for them and us.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Schools struggle to get the service required without reducing support further. A huge part of school life is being at the heart of their community - they cannot do this if closed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Having spent decades in facilities management I am well aware of how easy it is to schedule works/activities without regard to the effect they will have "down the line" you require a checks and balances system to ensure smooth operations of required works and maintenance.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management services are already shared within different buildings and are stretched meaning jobs are not always carried out. School buildings are also used for voluntary groups so would these groups be affected if opening hours were to be changed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	In my experience the janitorial service in school has been cut so much already that it is impacting on the school and groups which use it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Children need the use of the school premises for after school activities and extra classes where else would they be able to get access for these requirements.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools could be utilised more by the community, not less, they should be safe, warm welcoming spaces that can be used for all. When they are not open or accessible community groups often have to pay hefty let fees to operate in community buildings once owned and governed by WLC but have been asset transferred to community boards who can only stay afloat financially by charging their community for its usage. It makes absolutely no sense.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What would better scheduling of activities mean? I already hear constantly of toilets being closed, dirty or unusable. Constant mess on floors, food, rubbish etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	External lets etc are essential and allow schools to make essential income.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools should be at the heart of the community, with provision for out of school activities as well as non school events. ; The service provided by ppi schools is already inadequate	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If by facilities you mean janitors I'm not sure I agree. In Fife there are community schools so the facilities staff are key to helping schools make money out of use of the buildings.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management criteria of what they do could be published. A janitor in Old fashioned terms does not seem to exist now. Facilities management should maybe have 5 responsibilities and these would be done well.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Restricting access will have a wider negative impact on the local communities who rely on these facilities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Sounds as if stringent economies should be made but I am worried that this will diminish standards. If these cuts are now vital, why haven't they been investigated before?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Assuming that "revised" means less, we would have to understand the social impact of reduced school opening hours on vulnerable children. If it can be achieved while still offering safe spaces for vulnerable children for the same or improved times then it would seem positive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	already understaffed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	there are not enough facilities management staff as it is we did more not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not sure how this will work in terms of providing support to the community.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Presume that this means changing janitorial staff's working patterns and looking to save on overtime payments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We need more detail about this proposal. What exactly does it affect and how?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	See previous comment in relation to educational system.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Add these facilities as after-school clubs to help support parents to work, not to the school day when children need their teachers!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	Thats a huge saving for only looking at scheduling and cover arrangements, is that achievable?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cut backs 9n staff again, better Scheduling? What does that mean. Your consultation descriptions are ambiguous, deliberately. This is a tick box exercise, waste of money.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	Biggest savings yet proposed; but least specified; Need for community to informed	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	Please leave school findings alone - you are cutting and cutting and by next year school will only be for those who have parents who can pay for education	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	Are you going to fix the plumbing and damaged buildings before making these cuts? Or just ignore it all until something collapses on a child?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	Impact should be clarified? Would this remove access for community groups	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	Difficultc to comment without full knowledge of FM terms and conditions.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	Perhaps that is where a saving could be made, but when an individual is not responsible for their own personal property they do not take pride in the upkeep of it and buildings fall in to disrepair.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	The implications for schools where some of the building(s) are used for community purposes are unclear.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	I would be wary of giving FMA services to third parties. I believe if FMA activities are contracted out it will cost the Council more. Schools could be closed by half four each day though to save money if necessary.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Not enough detail provided to comment
Modernising our council	1I Revised Facilities Management in schools	In 3A you talk about reducing the number of community centres. Ordinarily we would expect groups that use these centres to migrate to use schools for their activities. If you reduce the FMA resource in schools - how are we going to manage the potential extra demand?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Do j no or know what this means? Sack the janitor?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The changes are not detailed here to make a constructive comment on them.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What extra curricular activities are you planning to cut through this exactly?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If schools are open on a Friday afternoon then kids should be in class or have some activities available to them, for example sport.; Nursery's are open early and late, tiny kids spending far more time in school than the 5-18 year olds just isn't right.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Balance of outsource vs in house ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	How would this look in practice?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Does this mean all lets after 3.30pm will be swipe self access? Does this mean less jobs again in West Lothian?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Most of this has been outsourced to Xcite which has lead to a lack of communication between the school and Xcite teams which is causing real issues for groups who use school facilities.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As per previous comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	this is difficult to comment on as not enough specific information is given.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Advertise the use of pitches/halls with online booking and payment methods - also open up for hire for parties (non-alcohol) events etc..	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	No cuts to school budgets. ; ; Cut the bonuses of councillors and higher management to save money. Not the cost of education and safe guarding.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Again these questions hard to understand exactly what you are meaning if you don't work for WLC not clear. Is this within the school day or evening facilities like after school clubs?;	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Ditto	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Are there examples of this. Will this impact on Parents who need childcare and given that childcare in West Lothian has proven difficult to find since the pandemic, could this affect the single working parent?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Again would depend on what the review found	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	What's the proposed review? How can I comment on this if you haven't said what you'll do. FM staff in schools have already been reduced so what else could you possibly do? Oh wait, this is WLC so you could make it a lot worse.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Good. Also should every school have a business manager or could this be done centrally by HR?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Put nursery back to pubic holiday same has school save energy	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Our children should be the focus on how we support them not a cost saving	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	In teh long run they are the ones that become the adults that feed off our council	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Would also make sense that when FMs are on site that they integrate better with the school teams e.g. task on additional tasks that help others within the school. This would reduce the down time they have when on site.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	FMA not being able to complete easy to fix jobs around the school, and having to put out to contract, also leads to over spend. Quite often the job either takes a long time to complete or is substandard. This then requires another call out for a 2nd person to finish/fix the job, I am presuming the 2nd person also gets paid for the job.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	If headteachers are paid salaries in excess of most residents in West Lothian, surely they have the capability to do this already	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	This question should be asked to school leaders and the facilities management service.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	There could be more choice/option of activities for children/young adults. ; Reasonable prices and time slots needed for more inclusion.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	In my opinion life skills are vital..good old fashioned skills that will be useful.;	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	The type of activities if possible should be carefully considered. Oppertunities for kids to grow in activities that help them to develop skills are vital.;	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Again, I'm struggling to understand fully what is meant by this question. My thinking is that it either means brokering out more Facilities management services to places such as Xcite or asking current Facilities Management staff to expand their Services to more schools etc than they do at present? I think I'd need more information to fully give and opinion.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This doesn't make much sense. How would this work?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	This is vague? Cover arrangements for class teachers? This is something that will be made worse by staff cuts.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I don't and can't have children so i don't feel it's fair for me to comment on this question.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What does "cover arrangements" mean?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	no involvement	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What impact will this have?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	really !	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Unable to comment until I have seen an outline of what is proposed and what the revised cover arrangements are.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Unable to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What is meant by revised cover arrangements ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	N/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As I've said before	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	-	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I am not sure about this one.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I don't feel I have enough knowledge on this area to offer an opinion	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Not enough info provided to make a comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reduction in extra curricular activities in other words	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I don't know how the baseline service for say, janitorial cover, is configured so find it difficult to comment meaningfully on the quantum of savings proposed and their service impact. The structure of the whole consultation is shaped in such a way as simply to convince a third party reviewer that a consultation box was 'ticked' despite the vacuous nature of the language surrounding these proposals.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Class teachers are already having to paint their classrooms etc. Again, needs clarification.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If you want cost savings, you need a more joined up approach, including the stakeholders who are the community groups and not just seeing them as a customer.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Linlithgow Academy needs upgraded. Unlike the other towns who've had brand new schools over the past 10 years the one school WLC boasts about is stuck in the 80s.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As above more teaching of manners would be appreciated	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	More details needed. This proposal is vague. I do not agree with changes to the school day	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	It is not clear how this would deliver a saving?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What exactly is facility management services see again not forthcoming of what use actually mean so no we don't agree	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management in school is a very important service. I assume the activities refer to school let's after school hours. Not sure I know enough to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What will this look like in practice?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What are these hours?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	How does this fit with other proposals regarding closure of buildings? Better scheduling of what activities? Revised cover arrangements should just be progressed as per normal workforce management arrangements, no public consultation required. Opening hours in schools - are schools closing earlier, how does this change if school day not changing, what about where schools are used by clubs out with the school day? How would this be managed to actually achieve a saving?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Hard to believe altering school opening hours will save that much really	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Previous restructuring of this important service has led to gaps in provision. Who will be responsible for playgrounds eg removal of litter and broken glass, gritting/salting in winter?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment to make.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	N/A	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Not enough information to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This has no impact on me so I will refrain from commenting	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Unable to comment again due to lack of available information.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not enough detail of impacts to make an assessment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Would like to see review outcomes before commenting.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	n/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	How???? It is not clear how this is going to happen	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	An ambiguous statement for a massive cut in services!?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Don't know what this means.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As per previous comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I mean do you actually care what anyone thinks because the wording is not clear or easy to understand for this with no background in this. No one can comment without knowing the information this whole page has had no information no transparency!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We would require further details to provide any comments on this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No idea what this means as you have not actually said what you will do. Significant amount of jargon. Plain English required.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As above	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	See Leisure Services re joint use of school facilities	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	See comment on lack of after school club provision in Calderwood	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As above - makes sense to review processes to keep learning and improving services	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Not sure what you are asking	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Uncertain what the impact of this would be.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I wouldn't want to be an area FM Manager - how to make savings in the current climate with fuel bills going up and food bills. Good Luck.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	In effect reducing the availability of school premises for community activities then I presume?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	How will this impact on PPI schools?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Don't understand how this will save money unless it means less access to 'facilities' for children	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Better scheduling or reduced?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This could be achieved if better management was used to send staff who lived nearer the facility that needed cover rather than send staff for a few hours to cover when they stay 45 minutes away	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	outsource the lot	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Can't comment on this proposal.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Sorry again we have do not have much say as we are not in control of funding, the whole world is in a bit of a state due to Covid and mismanagement at local UK and Scottish Governments. Although we realise that cuts will be made, it is a very depressing read with cost of living, Covid Recovery and world events, Leaving EU etc. My answers will be mostly similar throughout this consultation as I would not like to make decisions as when it comes down to it, people will lose jobs. I believe that we have to support Economic Development and Employability, we need to try and invest!	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Many facilities and building have already closed making great savings. Why not make use of this existing space?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We could be using our schools in the evenings to work with the most vulnerable (Including families under legal orders as part of their care plan). Families could be developing parenting capacity, strengthening bond and attachment issues, while learning new skills. This could also be used as a therapeutic space. Closing buildings earlier to save on staffing, heating and maintenance costs will save money but isolate and reduce chances for many of the vulnerable in West Lothian. ;	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Is there the potential to concentrate out of hours activities to specific schools to save a number of them being opened?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FMA services have suffered cuts many times over the years and are still providing a great service despite this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As ELC can be open 50 weeks it is difficult for any repairs or refurbishment to be done. Plans need to be put in place to ensure repairs and upgrades can be carried out.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What will the impact be on service delivery?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	How?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	You should consider an increase in costs for use of school facilities after hours - hiring out halls, swimming pools, football pitches etc.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Facilities management staff could revert to being line managed by HeadTeacher which would improve the service recieved.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I do not have an adequate knowledge of these functional areas to comment on this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Don't know the detail behind this one so difficult to comment. However, school facilities are usually no used outwith the school day. If this proposal allows better use of the school facilities (and allows the closure of community facilities) then I would support this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Better to use twenty hour fma in the morning and thirty six hour in the evening using three on and three off on a rotation	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Yes. School buildings are a huge resource that could be better utilised out with school hours. Can't the council take the facility management back under control. Surely it would be better value for money instead of paying a third party & dealing with all their constraints etc	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cutting after school clubs? Am I getting better at translating this?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	How will this impact after school clubs, community programmes, adults classes?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. It is proposed to rationalise the provision of council facilities and community centres across West Lothian and support community access through council or partner facilities within each community.
Modernising our council	1I Revised Facilities Management in schools	This is not very clear dies this mean reducing after school activities, less opening hours after school? Alot of children do enjoy the after school activities.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If you are not cutting school hours how are you cutting the hours the schools are open	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	??	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Miroslavcervenak30. 9. 2026	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Please see previous comments regarding children and education.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I thought this was done anyway.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, not enough information to make any comment at all. Saving £1 million by doing what exactly?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Modernising our council	1I Revised Facilities Management in schools	Ensuring no compulsory redundancies should be key to these changes.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Open school facilities to the local community at the weekend for a charge, e.g. gym & pool to provide income for the school/LA.	4. The council is already doing this.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	Safe entrances in wintry conditions are important for the safety of pupils, parents and staff.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cost effectiveness of any organisation should always be on going. This should be month to month, rather than yearly, whilst having a team of staff that is flexible to the modern working market to fill the demand, without being over ridiculous with regular changes in work patterns.	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1I Revised Facilities Management in schools	I want to see how much the Council propose to reduce operational and management headcount alongside discretionary expenditure against a matrix of estimated Council Tax payer service impact, and the existing baseline expenditure. Not fluffy words with figures plucked out of thin air at their head.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Mobile FMA's?	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again why a review? Is there not in-house expertise to just carry this out.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	More flexible working approach	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again shouldn't need budget cuts pressure to be doing my this kind of review yearly??	4. The council is already doing this.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1I Revised Facilities Management in schools	I would recommend a points based system for the pupils to volunteer to help with these activities offering some work experience in school. A redesign to core.education services should involve basic starts at trade jobs. Electrical.IElectrical.I, Joinery, plumbing etc	4. The council is already doing this.	Thank you for your response. The Council works with local employers and colleges to offer work experience , apprenticeships and other work based learning.
Modernising our council	1I Revised Facilities Management in schools	look into out of hours booking pricing, some of the hall pricing doesn't even cover the cost of the FM staff wages, never mind the heating, lighting and cleaner costs! these bookings should only be in core hour times to match the buildings open to close times.... and all monies taken in should be paid to the council first (not the school/comm ed centre), then once all costs have been covered, the remainder goes to the school/community centre etc	4. The council is already doing this.	Thank you for your response. It is proposed to rationalise the provision of council facilities and community centres across West Lothian and support community access through council or partner facilities within each community.
Modernising our council	1I Revised Facilities Management in schools	My son this term has joined a few school activities such as football, dance & wood work, he gets a lot of enjoyment out of this.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Reduce management in schools and with office staff	4. The council is already doing this.	Thank you for your response. The consultation includes specific proposals on reducing management.
Modernising our council	1I Revised Facilities Management in schools	Well, I would agree that the start of the school could be possible earlier but I so the working parents do not have to worry about to go late to work. However, any other changes than those are not necessary.	4. The council is already doing this.	Thank you for your response. No change to school hours is proposed.
Modernising our council	1I Revised Facilities Management in schools	This suggestion needs to link up the Customer & Communities in respect of the Asset Transfer for community buildings. Map the schools alongside the community buildings to enable community to access available buildings in ward, whilst reducing some	4. The council is already doing this.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities. Services are delivered locally where this is appropriate and delivers best value. The council will continue to rationalise offices and utilise the partnership centre model across West Lothian. This includes identifying opportunities for closer working with partners.
Modernising our council	1I Revised Facilities Management in schools	Buildings are assets and depreciate, you need to maintain your buildings to ensure safety for children at school, if cuts to facilities in schools means schools are run down and maintenance schedules fall behind, this will cost more money in the long term with potential school closures, incidents. Children have already died due to poor building control in schools so this needs to be at the forefront of decision making.	4. The council is already doing this.	Health and safety is the first consideration for maintenance of assets. The council has been proactive in known areas of concern to ensure the health and safety of people accessing buildings. The council's property asset management strategy and capital programme seek to identify planned maintenance to building fabric, within the parameters of constrained financial resources, to minimise reactive maintenance going forward. Investment will be prioritised to maintain buildings required for service delivery in as good a condition as possible given the revenue and capital financial constraints facing the council. Due to the constraints, and to prioritise limited resources, there will be a need to rationalise buildings. Overall West Lothian is rated as having one of the best school estates in Scotland.
Modernising our council	1I Revised Facilities Management in schools	Childrens' safety & their learning must not be affected by arranging repairs & maintenance that would normally have been done outside of school term or school hours to avoid paying the increased level to Facilities.	4. The council is already doing this.	Unless emergency intervention is required, all planned maintenance works in schools are scheduled for non-term time.
Modernising our council	1I Revised Facilities Management in schools	Janitors working full hours currently paid would be a huge step forward.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Ensure that staff have good inter-personal skills with all personnel.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	They are paid to manage	4. The council is already doing this.	Thank you for your response.
Modernising our council	1I Revised Facilities Management in schools	Essential that the relevant trade unions are fully involved in the process.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1I Revised Facilities Management in schools	Having put out 75 new bins at 5000 each and 9ver 30 vandilised I always question council finance, someone is making money off this bad that got to lay at (redacted) and (redacted) feet.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is a signatory to the Scottish Government Household Recycling Charter which determines best practice for household services. The new twin stream service will improve the quality of material recycled and save money on disposal costs
Modernising our council	1I Revised Facilities Management in schools	Schools should be a community resource with greater rather than less access.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Require additional opening hours in schools	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Covering staff is required more	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	More schools need to have after school clubs in their own schools that parents could use and pay a fee instead of private after school care that is more costly and children will still be in their school environment and easier for parents to collect them.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Important to keep facilities open as long as possible	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If children had access to clubs after school this would greatly reduce the amount of children getting in trouble	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	all schools lets should be charged at minimum cost. reduction in the F.M.A coordinator positions and coordinator shift allowance should be scrapped as are all finish for 17.00 . As (redacted) quoted if you dont do the hours you dont get paid .	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	I am aware that facilities management staff cover multiple schools, which in my opinion is not the way forward. I favour the approach of a member of staff for each school, which encourages staff to have a sense of pride in the school they service.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools can be expensive for community groups to use, particularly at weekends. If some way could be found to reduce these costs there might be greater uptake	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School lets are already far too expensive for evenings and weekends making the space unusable and left empty. It would be more cost effective to reduce the prices to make it more accessible to more people. Rather than empty dead space. You can't resell an empty room.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools should be open more not less providing proper childcare so more adults can work.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School buildings are an excellent resource and provide a safe space for many people in our communities across West Lothian. Why would we seek to reduce opening hours. These spaces should be getting used to provide young people with the opportunities to make positive life choices becoming responsible citizens rather than hanging out on the streets. Why are these resources also not used after school to provide the opportunity for adults to improve themselves with access to night classes/courses	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Transfer more service times to WLL to allow income to be generated with a portion going back to the school.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Would like to see a model of access created that allows community clubs and groups to have even better access and ownership of school facilities outside of school hours. This could also include specific requirements for cleaning/maintenance which could negate a reduction in FM services. Would not want to go back to dirty classrooms and overflowing bins however. Are there learnings that could be taken from certain countries within Asia on incorporating pride and responsibility for classrooms and schools as part of pupil experience.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment.
Modernising our council	1I Revised Facilities Management in schools	Schools which were previously "community" schools have already had much of the community element removed. This has been to the detriment of much of the older members of the community. This should be addressed, when looking at the scheduling of services.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. It is proposed to rationalise the provision of council facilities and community centres across West Lothian and support community access through council or partner facilities within each community.
Modernising our council	1I Revised Facilities Management in schools	I am not entirely sure what this means but, in my opinion, schools could do with more after school classes	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. Schools offer a range of extra curricular activities. Parents/carers can discuss these with their school through the Parent Council.
Modernising our council	1I Revised Facilities Management in schools	Schools should be used by the community more not less and these staff are already stretched	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. It is proposed to rationalise the provision of council facilities and community centres across West Lothian and support community access through council or partner facilities within each community.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised facilities management in schools	Community schools were supposedly setup to allow communities to use the facilities. This has not been the case with them being charged exorbitant fees for "cover arrangements". The facilities are also in a lot of cases not available due to the school needing exclusive use. Community groups should not be charged for using these facilities. Some communities gave up existing spaces but have then found the resource is unaffordable and not fit for the purpose they were promised.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your response. It is proposed to rationalise the provision of council facilities and community centres across West Lothian and support community access through council or partner facilities within each community.
Modernising our council	1I Revised Facilities Management in schools	Schools need own janitor.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Schools should be open longer not shorter	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The council has demonstrated an inability to manage the school estate and short-term thinking, deciding to demolish the former West Calder High School and sell-off the land rather than to use it to temporarily decant the populations of ageing schools so that these could be rebuilt.	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	could less staff be in out with the school day	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Cleaning needs to be accommodated
Modernising our council	1I Revised Facilities Management in schools	Maybe having a set time that all schools close so that everyone knows when they have to be out the building in the evening.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Poorly performing Children should be cleaning, performing maintenance etc, call it a National Qualification or something to everyone benefits.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The Council is committed to maximising attainment and achievement for all pupils.
Modernising our council	1I Revised Facilities Management in schools	If improvements can be made in the efficiencies of facilities management, what were the "managers" of such facilities provision doing previously? Is this an area where unconditionbal redeployment, (sacking), might start?	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Try hiring schools out more to make revenue	5d. It is proposed that this suggestion is not taken forward because it has been previously considered and will not be progressed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again these services are vital to the running of educational and other buildings. Any changes must be considered carefully	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	fm services should be charging excite or will for fm staff being in high schools after 8pm and at weekends then high school fma wouldnt be left short handed every thursday and friday due 2 being 5 over 7 .	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FM services are poor value for money with no clear job remit	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Rationalising the use of buildings so that multi schools share opened buildings instead of all of the schools being opened individually could be considered.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	We will review our property assets and rationalise usage where possible taking into account the review and redesign of services delivered in the community and investigating opportunities for coordinating availability of facilities.
Modernising our council	1I Revised Facilities Management in schools	I know many of the kids use three G pitches etc keeping them off the streets. It would be a shame if this effected them. But where we have community let's etc, then are these really cost effective? Possibly look at what we are charging for this and a facility person.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management is controlling and overly HSE focussed and slow.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	You already reduced janitor services after covid, you would be better keeping them and using their and their schools resources better. Pitches, halls etc all could be making you money but not if there's no staff!	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Extra curricular activities are an important part of school community streamlining/reorganization of staff rotas would be better than simply reducing staff numbers. In that staff work shifts to cover need better.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Facilities management requires a better system for reporting and recording jobs. Opening hours could be reduced dependant on let arrangements. Further conservation could be given for staffing over holidays and the use of such 'down time'. Staff could be reallocate during quiet times and remain on an 'on call' basis for allocated school.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Facilities can be utilised better and receive funding for the council. The management of hiring facilities is poor and requires the involvement of 3 different parties who don't speak to each other. Refining this to 1 party to manage all facilities would save time and money. Therefor the structure would encourage external hiring of facilities (not to be costed beyond affordability of hiring the facility) and in doing so raise more money for the council.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I feel the key to the facilities in school is to provide beneficial facilities which support children and parents. Looking at what doesn't need to be costly but still beneficial will be good but again, to reduce spending in a time where children and young people have already had so much lost would create a massive impact and not how we would want our children to grow.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School buildings are invaluable assets for West Lothian communities. Facilities management staff are already operating on skeleton staffing levels and shouldn't be squeezed further. The recent out-sourcing of building lets to Excite has been a fiasco. Excite have not managed school lets well. They have poor communications with customers and facilities management staff alike and school building lets have often been messed up. Recently, a community group I;m involved with had a scheduled let with Excite on a rolling weekly let when council members rode roughshod over the let and took over the let, effectively displacing the community group at only a few day's notice. What's the point of having a letting system if local councillors just trash the system ?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We must take a few moments to consider the hidden work that goes on throughout the year by facilities management. Particularly as we approach the wintry weather!	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	FMA services are currently very patchy - it appears Secondary schools, which granted are bigger, have a large proportion of FMA staff to primary schools - jobs loses would not be advantageous, realigned would be welcomed.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Cookery etc. Fun but useful because then they could take food home and be used where resources are low exoensive school trips should be carefully spent on. Maybe local outings instead	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, efficiency is key but detail also needs looked at for individual schools?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Building lying empty and unused for large periods of time during day and outside school term is wasteful, these buildings can be used for other activities that would generate income	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	An effective and efficient facilities management approach would ensure a fair and responsive system. Centralising this to a core team would ensure skills were also best deployed when required.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Could more use be made of school properties such as hiring out sports facilities	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I think the revised proposal of the facilities management in school could potentially be cost effective. I think that FMA's should be required to have fixed holidays at certain times across the school year e.g in line with nursery practitioners have two weeks off over the Christmas period. However when FMA's are not in school many of their roles and responsibilities fall to for example clerical staff and Senior Leaders in school which could become a work load issue.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	That is an interesting proposal. However, you have to take into account that school staff need to be in school, after the school day, to access the resources that they need for planning and preparation and to fulfil their contract agreement.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Perhaps the Xcite Gym could help regarding after school clubs?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	School buildings should be fully utilised as much as possible and suitable charges put in place for use of premises out with school hours.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Better having groups in local areas	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This could be reviewed with rotation of staff and staff allocation as clusters rather than individual schools.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Many facilities are subcontracted out to mears group for example it would be cheaper for the council to employ direct	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	A Janie being paid 4hr on a Sunday to open (go play golf) and close a building is a shocking waste of money and resource	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Most FMs cover different areas better scheduling may assist with efficiencies.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I think this could be reviewed to ensure groups using the facilities could be using them at similar times, just slightly staggered.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not cost effective school janitors sitting at a desk on computer (not work related). Online system for things needing done/mended etc is very time consuming for school staff.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Better scheduling to improve efficiency can only be a good thing. However it should be noted that in my opinion, West Lothian still have a lack of facilities on offer to the local communities and need to review how facility investment can be achieved.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Possibly good option for areas that have community centres that can facilitate out of school events. Or could the schools charge for their use out of school; Hours?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Having FMA staff Located to schools nearer to wear they stay if possible would cut down in fuel costs and more environmentally friendly .; also if they are located they could also attend if the alarm is activated quicker.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	One of the schools FMA companies adds around £150 for any service it buys in for single repair. They also take days to repair light fittings that our own electricians previously sorted in a couple of hours.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	We are really rubbish at this. The private FMA companies are excellent at fleecing the public sector and we are rubbish at managing the contracts. WE are so pleased with the up front contract price we forget to see what it actually covers. In one building alone we have paid from bottled water, chilled water dispensers, etc while the building was closed for renovations then continued to pay even though the facilities were removed during the renovations.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Friday school day is a waste of all resources Monday to Thursday later opening would cut cost	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Good make Friday a full day like they do in other parts of Scotland and the UK. At least allow people, particularly women, to be able to have opportunity to take full-time as well as part-time jobs and not have to turn them down because they don't have childcare on a Friday.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Some schools have good gym equipment could you raise money having open gyms to public pay as you go £2 a session.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Maybe getting some projects in the school is an idea? We're opening a Livingston Community Shed, these could go well together though.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your response. It is proposed to rationalise the provision of council facilities and community centres across West Lothian and support community access through council or partner facilities within each community.
Modernising our council	1I Revised Facilities Management in schools	Putting sensor lights in all schools and making them energy efficient would go a long way to save money regardless whether the school is open or not.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council already has motion sensors in place in number of locations and will introduce on an ongoing basis where there is a business case to do so.
Modernising our council	1I Revised Facilities Management in schools	Stopping the ridiculous situation of janitors not being on school calendars may help in some small way with this cost. Having janitors working throughout the holidays in, largely empty schools, then taking their holidays during term time and having to be covered is nonsensical.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	At an event at my child's school janitor sat and watched staff move chairs and tables. The school was not clean either.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Janitors need to be consolidated and perhaps work out of a Hub. You log a job if you need a janitor. It should be term time only with skeleton staff on over the school breaks. ; All the janitor does in our school is sits in his office looking at his computer. We are constantly told by him that it's not his job if we ask him to do anything. A complete waste of Council resources. He seems to be able to start late finish early !? He tells us that he has to lock up or open up schools? So what does he do with the rest of his time ? There is a lot of money to be saved in this department !	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Better use of school buildings in the community for paid for activities would see the buildings better utilised & could bring in extra income.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Cover schools only in opening times and a short period before and after.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Look.at hours of building opening look at streamlining hours a d contracts.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Important service delivered by FMA's in schools. Hopefully no compromise after a review. Perhaps a change to shift patterns? Although pretty good shift patterns in situ at the moment to permit cover from early morning into evening to cover Lets, groups etc. Sufficient cover for Early Years Centres given the extended hours year round	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Bring as much in-house and have staff working flexible hours so work can be done during working hours after school or weekends	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If services were provided in house there would be more control and flexibility. There would also be more commitment from staff, they would no longer be transient on zero hours contracts at minimal wage. If they feel they are in a team they are more likely go the extra mile in the job. So there should be no contracting out of these services.;	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I'd hope that a review of facilities management out with the school day will also take place to ensure a greater consistency of approach as well as looking to develop a more cost-effective and customer friendly model.; Access to facilities through digital solutions and shared staff resource would be worth review/consideration.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The is an area that can be streamlined and reviewed in line with school hours, community schools do have activities booked there after hours long term bookings are acceptable however if these are run by an external organisation/committee who receive the funding for the lets then it should be there responsibility to ensure building is opened/closed or if it is necessary to be done by facilities management service then a cost should be attributed to the committee to cover some the of facilities cost. I understand from previous use that I paid a committee for a booking but believe that all the cost was towards their budget and no cost passed onto the facilities team/council - a % of all hall lets should be passed back to the council	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Does this mean that breakfast clubs and after-school clubs will no longer run? Surely this is detrimental to pupils' attainment and well-being?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Should never have put everything over to excite	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Having janitors sitting watching YouTube videos on laptop all day is waste of time...I taught for eight years and saw it	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I also think at primary school rather than teaching them nonsense about different genders etc let kids be kids and grow and be respectful there is no need to be forced this garbage onto the kids of today.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	OMG	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Better, you mean this is a thing... oft!!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	My child's school starts at 8.30!!! Its a long long day for a child to get up at 6.30 to catch school bus at 7.50.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Don't know if this is in the appropriate place, but please ensure ALL our Schools keep their current single Sex Toilets, changing rooms etc.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Last week when we had roof problems we had 1 janitor in the school. Xcite have lets and janitors need to work shifts to accommodate them. We employed a "Special Needs" facilities person temporarily but because there was no transport to get him into school at 6.00 am he was not able to continue employment here, which he loved. Investors in People and especially disabled people should be a priority but none the less West Lothian Council terminated his contract at the school which I feel is contradicting the pledge of West Lothian Council.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I thought this government asked to be judged by its education, it's a terrible mess now and this will put our children's education in crisis	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	get rid of the snp problem solved	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	I blame ***** (redacted)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1I Revised Facilities Management in schools	Think schools should be close to full day on a Friday	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Unclear if the "better scheduling of activities" refers to being better for the students or the Janitors?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Yet another reduction targetting children's futures. These suggestions are getting more depressing the further down the list one reads. I certainly hope you weren't expecting any positive feedback on any of these suggestions as so far each one has been more moronic than the last.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The schools are the hub of some of our communities.	9. The respondent made a comment on the survey question.	Thank you for your comment
Modernising our council	1I Revised Facilities Management in schools	1.1m seems an extraordinary amount to be saved in this area while still maintaining standards and accessibility	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Earlier you said that school times would not be changed seems a bit contradictory to me.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Good for children to have these things	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Good for children to have these things	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This now makes 8.5 million in cuts directly to schools. Who cleans and maintains the schools?? They are already short staffed and poorly paid. Several have two jobs in different sectors of this due to the low pay.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	More detail needed in order to comment	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, not enough detail to judge the impact.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	More detail required, unclear how will this be achieved	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What does this even mean?!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again outcomes are 'better' but costs reduce ... please explain. Sounds too good to be true.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Insufficient information to know what the impact of this would be on schools	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Further detail would be required to consider impact	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again this is too vague, it does not really tell me what you intend to do. Impossible to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not enough information here to be able to comment	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	No detail. No way to judge impact. Not helpful.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What does this mean?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not sure what that means. Too generic	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, more detail required.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not really know how you will do it, need more details.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	There is no meaningful detail here, so it is impossible to comment	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Very unclear what this means.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This doesn't explain anything.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	more information required	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not ideal.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Insufficient detail to comment	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	More details needed, again this sentence really tells me nothing.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Unable to make provide a constructive comment as there is no detail as to how this would affect the use of buildings by the community out with School hours	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Ooohhh, you're saving £1.1m by making things 'better'. I'll go for that level of vagueness, sounds like a great plan, especially if it goes wrong. Vague enough to wriggle out of.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not enough information	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again, children seem to be the main targets of any cuts you want to make. The exact opposite is required.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	more cut backs?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	my god, stop trying to cut school budgets.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What activities? Our school does not have any	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not sure what this means.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity. There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	See above. These questions are nonsensical.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Needs more detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Difficult to comment without more knowledge	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Unsure as would need more information to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again a proposal that is not clearly stated. This seems a lot of money to save so what is being suggested? How are the schedules and revised cover arrangements going to be made so that the changes are not detrimental to the schools and pupils	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1I Revised Facilities Management in schools	Again not enough info ..	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	If you haven't done the review yet how have you estimated the saving? More information needed on what is actually proposed.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Again please be clear exactly what the cuts would be and the impact, I do not know if this would adversely impact anyone or not	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1I Revised Facilities Management in schools	Better scheduling of which activities?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What does this look like?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I'm not sure how this is possible I would definitely need more information on this service being cut	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Explain what you mean by 'Facilities Management'? Repairs? Maintenance? Janitors? Cleaners? ; You need to explain what you are referencing for people to provide appropriate comment	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not sure what this means	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	How do you save money ... this is just words to make people think it's a good thing!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	To what extent?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This needs, like many sections, to be translated to plain English. If what's being proposed is less public access out of school hours then why not say that? Again, are there alternatives to current situation vs reduced opening hours - can there be a rota/volunteer key-holders?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	As a resident I do not understand what this will mean to the services in schools due to the vague and broad terms used in this consultation document.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What does mean to services and schools- changes to standards but what exactly?	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Not enough information but any changes to service should be developed to minimise impact on teaching	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Unclear on the implications for children, staff and communities.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	This in principle sounds like a sensible thing to do but without further detail I can't really comment as I don't know what impact that would have on the school service.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	Seems like something that should be continually under review. Though not enough detail on how this will lead to savings. Again chicken and egg., the review should have been done first before identifying the saving.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	I am unsure how this would be achieved. The staffing in facilities are already covering a wide range of cover. I am however aware that the expected utilisation expected by West Lothian Leisure in secondary schools has not achieved the level of success as expected. I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What are these new hours, again I don't have any information.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	What does this proposal mean in practical terms.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1I Revised Facilities Management in schools	It is unclear what is being proposed here.	9. The respondent made a comment on the survey question.	Thank you for your response
Modernising our council	1I Revised Facilities Management in schools	None of these budget measures are transparent. Every one is dressed up in language that hides where the savings will be found. PFIs are a huge drain on public spending to save in the short term set up cost.	9. The respondent made a comment on the survey question.	Thank you for your response.
Modernising our council	1J Technical Financial Savings	Using technology to streamline some of these processes should allow for a seamless transition for the public.	1. The respondent advised that they agree with the proposal.	Customers who transact with the council through digital services return positive feedback on their experience, however, we will always look for ways to improve the customer experience and welcome feedback on how we can do better.
Modernising our council	1J Technical Financial Savings	No personal comment on this but savings look good.	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted.
Modernising our council	1J Technical Financial Savings	As long as changes to processes do not impact on service users.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on service users.
Modernising our council	1J Technical Financial Savings	Should have already been done. Go ahead.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	seems a sensible saving and wont affect services to Council tax payers	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	This is reasonable	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Brilliant stuff	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Agree - with tight budgets, they should match actual costs and not have slack built in	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Sounds good	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Yes that sounds promising	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Again something must be taken away to make savings and £1 million is a very large amount.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Use of technology in this area should be maximised and could help with savings.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Increase automation in financial management is essential	1. The respondent advised that they agree with the proposal.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	If this can be done without reduction in service it sounds reasonable.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	With the move to more digital based this seems appropriate.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	This is exactly the area where streamlining the system and simplifying it would be beneficial for both service users and the council.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	If it isn't broken why change it	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Acceptable	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Great.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Makes sense	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Good idea	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Possible.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Good	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Sounds ok	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	As long as it isn't change for change sake.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	If this mean jobs loses this in not good foe West Lothian, if not however a sensible proposition.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	People like that	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Seems sensible	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Sounds good!	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	That can help many families who are struggling with cost of living, really recommend this.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	As long as the financial savings don't impact on peoples income. Processing claims quicker and ensuring the money gets to where it needs to be more efficiently is good.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Any automated system for indexing claims such as Universal Credit that speeds up the process for people can only be a good thing	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	I can only agree with the need to realign to match demand for support.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	After reading the above, I will continue to trust your decisions in the areas I have no experience in, but thank you for the opportunity to co-operate!	1. The respondent advised that they agree with the proposal.	This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1J Technical Financial Savings	re-aligned resources to match the demand for support for customers and changes to processes such as Universal Credit seems appropriate.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Admin processing could be more efficient.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Best use of resources and beneficial to customers. No other comment	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	this needs to be carefully considered, given the impact of this on vulnerable people with disabilities. Currently, there are people to speak to to get advice and support with financial matters for people with disabilities. It is important that this is not lost with automation as it would lead to increased poverty and health difficulties in a vulnerable section of society who need the support that WL currently gives.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	It is clear that financial planning and management arrangements are extremely effective, but that administration of financial processes will be made more effective. Ultimately these changes will be welcome as they will improve services for customers. For those people claiming benefits this support is second to none. It can be a very anxious time for vulnerable individuals.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	A more streamlined and efficient services is required.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Access to benefits should be made easier, not more difficult. People need to be encouraged to explore their potential options, and have easy access to support to apply. Shockingly, not many elderly clients clap their hands and shout 'oh goody' when confronted with the novella that is the Attendance Allowance application form (most of which asks the same questions several times over), and they are even more put off when they try to access knowledgeable support to complete this. Additional money for clients means that they are potentially then able to privately purchase services and/or equipment rather than rely on the largesse of the council, thus (potentially) allowing council resources to be deployed elsewhere.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	This does not make it clear how this will be done but any money saving by reducing red tape and administration is positive.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Usually you hear about these sorts of changes after the fact.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Agree if this means easier for people to apply for the support they need, less red tape is always good	1. The respondent advised that they agree with the proposal.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	staffing efficiencies should be realised through natural attrition, and tasks absorbed by other staff	1. The respondent advised that they agree with the proposal.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	This is again much needed	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Any efficiencies created in admin would be beneficial.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Agreed. I believe focus should be on efficiencies within the administration and management before cutting services.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	This appears to be good financial management - modernising the allocation of resources to meet current, rather than historic, needs.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	The council still has to have strong financial planning and management arrangements especially when these cost reductions are taking place. Future year financial planning is very important so the Council can balance the books every year and also to highlight problems in future years. It is visible that not all managers have a financial background so therefore the Council must have a high performing finance team behind them.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	All in favour of this.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Hope this is successful with no one missing out.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Save money where possible	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	I think support for customers on all benefits not just Universal Credit and changes to the processes involved is a good idea and a possible safety net for some.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Becoming more streamlined with fewer layers of management and use of technologies is the way forward. Remember customer facing roles are very important though.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis. Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
Modernising our council	1J Technical Financial Savings	Any efficiency changes would be welcome but unclear why they are not in place currently	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	I agree we should make efficiencies in the administration of financial processes but what does technical financial savings mean? Is this a £1 million pounds of staff cuts or does Finance Services have excess budget?	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Unfortunately, I don't know anything about this process in theory it seems like the way forward.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	This sounds good but I would be wary of relying too much on digital technology	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
Modernising our council	1J Technical Financial Savings	As long as it improves core services.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Especially during covid resources needed have increased, and now we have a cost of living crisis, so whilst I agree with the saving in principal we must be careful not to underspend in this area.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis. Additional payments have largely been funded by the Scottish Government.
Modernising our council	1J Technical Financial Savings	As long as support for customers does not suffer this makes sense.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.

Modernising our council	1J Technical Financial Savings	Sounds sensible,	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	This will be postive.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Reluctantly support	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Fine in theory	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Sounds like a reasonable approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Sounds sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	I agree on this one	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Sounds sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Automate as much as possible	1. The respondent advised that they agree with the proposal.	Customers who transact with the council through digital services return positive feedback on their experience, however, we will always look for ways to improve the customer experience and welcome feedback on how we can do better.
Modernising our council	1J Technical Financial Savings	As technology changes these should be reviewed regularly	1. The respondent advised that they agree with the proposal.	Customers who transact with the council through digital services return positive feedback on their experience, however, we will always look for ways to improve the customer experience and welcome feedback on how we can do better.
Modernising our council	1J Technical Financial Savings	Agree the council should look to improve the administration of its financial processes - some of the processes undertaken are outdated and staff intensive. Greater use of automation could provide more efficient services.	1. The respondent advised that they agree with the proposal.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	This sounds reasonable to me although it's outwith my expertise.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	I don't mind if they actually need this	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Very good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	This seems like a sensible change.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Good idea.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	seems sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

Modernising our council	1J Technical Financial Savings	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Very happy with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	I am supportive of this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Definitely required	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Move services online	1. The respondent advised that they agree with the proposal.	Customers who transact with the council through digital services return positive feedback on their experience, however, we will always look for ways to improve the customer experience and welcome feedback on how we can do better.
Modernising our council	1J Technical Financial Savings	Use available technology to streamline our work and make savings without cutting jobs	1. The respondent advised that they agree with the proposal.	Our customer interactions and feedback clearly show that people are increasing choosing to use our digital services. This offers customers greater choice and flexibility in the way that they access services and we are working to increase our use of technology across the council and improve the efficiency of our processes and response/resolution times for customers.
Modernising our council	1J Technical Financial Savings	Don't really understand this either but if it works, OK	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Any streamlining to reduce costs without negatively impacting is a good idea	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Just stop wasting money ! it's a simple yet BRILLIANT idea is it not !	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	A process efficiency sounds like a positive impact - surprised it hasn't been offered up before if so deliverable	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	I agree with this but applicants or those in receipt of Universal Credit must not be negatively impacted. Support services must still be robust.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	No negative implications described here at all, why are you asking the public if you should make this saving, why are you not just making the savings. This survey doesn't make any sense? hope it didn't cost too much.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. There are no negative impacts from this proposal, it is provided within the consultation to ensure transparency regarding saving measures.
Modernising our council	1J Technical Financial Savings	I assume if these were made more efficient then there would be less errors and less time required to be spent dealing with individual cases.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. For council processes and activities the council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Savings will be made with a robust and reliable IT services.; Cut management, trust in the software.	1. The respondent advised that they agree with the proposal.	Our customer interactions and feedback clearly show that people are increasing choosing to use our digital services. This offers customers greater choice and flexibility in the way that they access services and we are working to increase our use of technology across the council and improve the efficiency of our processes and response/resolution times for customers.
Modernising our council	1J Technical Financial Savings	Efficiency and realignment. To be expected but makes for good tactics.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	This sounds useful for people. As long as people are able to speak to someone and it's not all done via a computer.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	This is a reasonable adjustment.	1. The respondent advised that they agree with the proposal.	The phasing of spending on all budgets will reviewed and if spending is higher towards the year end this will be investigated.
Modernising our council	1J Technical Financial Savings	Again, in theory fine, but make sure adequate resources are there	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	If services are maintained on a more efficient way, then fine.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Is service becomes better, it would be good.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Efficiencies may be fine as long as they work and don't cause additional issues. For example, I was recently informed that my single occupant council tax discount was being revoked as a result of not responding to two forms, sent by an outside company, that I did not receive.	1. The respondent advised that they agree with the proposal.	The council has to check entitlement to ensure public resources are being appropriately directed and to prevent fraud. Please provide this information to the council and your position will be corrected.
Modernising our council	1J Technical Financial Savings	This sounds in theory to be a good move. Savings here could mean more finances to be channelled into more urgent areas.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Fully agree with this, pleased to see the council making savings that don't impact on direct services or outcomes.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	I agree....as long as it's comprehensible.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	If you feel that "the council has strong financial planning and management in place" can you actually make them even better, that will be the test!	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1J Technical Financial Savings	Agree that such savings should be maximised to reduce savings from elsewhere	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Streamlining and realignment will be worthwhile if delivery of services are not impacted.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	if it makes it easier to access then that is positive	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	should be investigated	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Look at all processes and how things can be automated or done quicker with less red tape.	1. The respondent advised that they agree with the proposal.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Always worrying however sometimes necessary	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	This should already be streamlined.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Sounds like a very good idea - something that should be done anyway	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. Realignment of budgets can be implemented immediately.
Modernising our council	1J Technical Financial Savings	Robust and reliable technology here with sufficient support should make this saving effective and seamless	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Hopefully works	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. Realignment of budgets can be implemented immediately.
Modernising our council	1J Technical Financial Savings	Yes changing on to universal credit can be stressful and confusing so this is ideal and well needed	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Great if regulated properly.	1. The respondent advised that they agree with the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1J Technical Financial Savings	Sensible improvements.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	If I read this right, you plan to make efficiencies in financial processes to allow more resource to support other financial changes such as Universal Credit. Reasonable proposition	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Makes sense efficiencies can be made in these areas	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	I agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	I agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Hard to understand how already externally recognised 'effective' financial planning and management arrangements could find such extensive efficiencies, which makes me thoughtful of what this saving actually refers to. If the saving can be achieved without harming existing services and without reducing support for customers then it would seem valuable.	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	as long as services are still there and not changed	1. The respondent advised that they agree with the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Efficiencies in processes and procedures should be encouraged.	1. The respondent advised that they agree with the proposal.	The council is proposing to achieve efficiency savings through transformation of services and reduction of duplication and will maximise opportunities to automate processes to reduce manual processes.
Modernising our council	1J Technical Financial Savings	Efficiencies, realignment, job cuts. Most of your savings come from cutting the jobs of those on the front line making an impact, rather than those with high salaries.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council has one of the leanest management structures of any council in Scotland. The council has delivered substantial management savings to date. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Cutting unseen staff can be an issue. The Corporate Procurement Unit lost staff during a previous restructure and has been having issues recruiting for vacant posts putting pressure on current staff. No further cuts should be considered	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1J Technical Financial Savings	More staff cuts.....	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1J Technical Financial Savings	having used the amazing service which is the advice shop in Bathgate this is a vital support for local community	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation.
Modernising our council	1J Technical Financial Savings	Provision of service important	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Again all online; no face to face; Equals no employees or less and more phone press 1 press 2 press 3 and cut off God help us! There will be lots of frustrated angry residents trying to function. Really this is not good enough.; Peoples mental health will suffer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Taking away from families that need it the most - not a great idea however even those that are not on universal credit need help at times too	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	The phone lines for any benefit advice are already too busy.. with over an hour waiting time.. need more people not less	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	I disagree with this proposal. Staff and service cuts are not a viable option	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	The last thing we need is cuts on top of covid recovery and cost of living. Why are things so bad	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1J Technical Financial Savings	No don't agree with this either if use are talking digital currency stuff then thats a flat out not on ur life cash is king we the people say no way	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. It is anticipated that new technology will provide a service that a number of customers have been requesting for some time, however it is acknowledged that it will not be suitable for all. Payment through direct debit will continue to be available for tenants and residents and payments are accepted at Post Offices which are available in most local communities and villages in West Lothian. There are no proposals to move to digital currency.
Modernising our council	1J Technical Financial Savings	Cutting funding and support is not going to help anyone.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.
Modernising our council	1J Technical Financial Savings	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Need more help as there's no enough	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	grandparents would struggle with online	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to offer customers choice in the way that they access services, including telephone, face-to-face, email and contacts via the council website. We understand that some customers may find digital services challenging and there are alternatives in place to allow them to continue to access council services in other ways. The council must though find ways to reduce operating costs and make our processes more efficient and this will involve supporting more customers to move to digital services and making better use of technology.
Modernising our council	1J Technical Financial Savings	Online chat and services aren't suited to everyone. We are still at a stage where not everyone has access to internet to make payments online	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council will continue to offer customers choice in the way that they access services, including telephone, face-to-face, email and contacts via the council website. We understand that some customers may find digital services challenging and there are alternatives in place to allow them to continue to access council services in other ways. The council must though find ways to reduce operating costs and make our processes more efficient and this will involve supporting more customers to move to digital services and making better use of technology.
Modernising our council	1J Technical Financial Savings	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	If your financial planning and management arrangements are so strong why are you increasing council tax one year then cutting funding and resources the following year? Clearly your financial planning and management arrangements are not as strong as you state!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. Costs have continued to increase and by law the council has to balance the budget - this requires either increased income or reduced costs.
Modernising our council	1J Technical Financial Savings	Sounds like a plan to make employees redundant. I am strongly against this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1J Technical Financial Savings	This is a concern as staffing levels are at a minimum already in some establishments.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	The council regularly reviews the organisational structure and operations for efficiency and effectiveness. There are statutory functions that the council must, by law, have in place. However, where there are opportunities to streamline business processes and reduce inefficiencies, the council will act appropriately to ensure that we are operating as efficiently as possible and delivering value for money.
Modernising our council	1J Technical Financial Savings	If the same resources remain after re-alignment then where are the savings? If you plan to reduce resources then you should say.	3. The respondent advised that they had no comment to make or posed a question of the measure.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1J Technical Financial Savings	Does this just mean staff reductions?	3. The respondent advised that they had no comment to make or posed a question of the measure.	No. Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	It is impossible to comment on this as the proposal is opaque! An example or two would have been helpful.	3. The respondent advised that they had no comment to make or posed a question of the measure.	This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1J Technical Financial Savings	The application process for universal credit is already an arduous and stressful process for many families. If services are realigned, does this mean an application would take longer?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Many people on universal credit are already struggling, would streamlining make them struggle more?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	I have fortunately never had to access this service but I am aware it is generally poorly funded how can you make it better and not worse by further cutting budgets/ staff?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	What are the efficiencies?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	not familiar with this process	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	I don't have any real view on this area, but it sounds like £1m can be saved by reducing staff to administer the simpler Universal Credit scheme - is this correct?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.
Modernising our council	1J Technical Financial Savings	??	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	If your financial planning to this point has been strong, why is it all so wrong?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1J Technical Financial Savings	Would like to know more.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Does "make efficiencies in the administration of our financial processes, with resources re-aligned to match the demand for support for customers and changes to processes such as Universal Credit" mean that an already depleted team are going to experience more pain where people have left and have not been replaced ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	unsure how this will be achieved	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	What are these efficiencies?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Surprised that 'The council has strong financial planning and management arrangements in place and the effectiveness of those arrangements are recognised by our Audit and Regulators.' This being so how would you introduce further cost saving?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. Strong financial planning and management arrangements allows the council to respond to changes in circumstance with no reduction in service.
Modernising our council	1J Technical Financial Savings	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Why are resources not currently aligned with demands for support from "customers"?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Not sure I can comment on this as not an area I am familiar with	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Not enough information to make a comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	dont know enough of this are to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No relevant comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Unable to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Will we still have to be placed on hold for hours when we contact these services ?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	None	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Cannot comment as do not access this service	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Not enough detail to comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	I mean do you actually care what anyone thinks because the wording is not clear or easy to understand for this with no background in this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	The question does not give enough detail on what this is	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Why so everything so hard to understand	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No comments.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Uncertain of the impact of this proposal.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Not sure what this proposal means.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	This sentence is not extensive enough to make a comment on how a million pounds would be saved.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Not clear what this means. The Council should be supporting and advising people who need it.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	In what way is WLC's faith in Auditors and Regulators justified? Given this present review, is it not obvious that their oversight of previous expenditure and WLC's financial planning, if now savings can be made - must in previous years been poor and unacceptable? If an estimated saving of £1 million could be achieved should such expensive service providers be asked to repay their undeserved fees.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management. External auditors are professional, well qualified and independent. Circumstances continually change and effective financial planning means identifying those changes and acting upon them. This is what is proposed by this measure - reacting to unexpected changes in a proactive manner.
Modernising our council	1J Technical Financial Savings	See previous answers on digital technology and the poor internet provision supplied to schools already.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. West Lothian Council invests significantly in IT provision in schools.
Modernising our council	1J Technical Financial Savings	Don't have enough knocked or info to comment here	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	I'm not sure how this is possible as it's already done on line and I'm sure there are as few staff as possible manning this service for the people who need it	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Require more information on this, as can't be expected to give an opinion on something with so little detail.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Perhaps this statement means something to those who work in financial services but I'm afraid it means little to me. Not very helpful.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	As a resident I do not understand what this will mean to the services I receive due to the vague and broad terms used in this consultation document.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	As before, without more information I don't see how I could comment but it is already hard to get support from finance as there aren't enough staff.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Difficult to understand what this is proposing. It talks about financial planning and auditing so happy that there is more scrutiny and efficiencies made there. But why is Universal credit thrown in at the end, is this cracking down on fraud? There should be more working across departments. Not clear so can't make a full comment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	No comment as I don't know enough about this to make an intelligent response.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	?? Unclear	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Arrangements in place which have been deemed successful by Audit and alleviate risk to the council need to be retained or at least a consultation to ensure that changes meet the standard expected. There has been substantial streamlining already in this area for some services which does not leave scope for further streamlining and cuts	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. Financial controls, where assessed as required, will be retained.
Modernising our council	1J Technical Financial Savings	Pious words but no content. If Council has already 'strong planning and management in place' already how can further savings of £1 million be achieved?	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. Circumstances change and new opportunities become available which the council will utilise to maximise the financial position.
Modernising our council	1J Technical Financial Savings	Helping people with benefit enquires/processes is a very important part of council duties	4. The council is already doing this.	At a time of significant financial uncertainty and the cost of living crisis, good quality advice services are needed to support people, particularly those on low incomes. The Anti Poverty service will continue to provide support and advice to vulnerable people in the community.
Modernising our council	1J Technical Financial Savings	We need a robust financial team to ensure that council practices and legal requirements are in place.	4. The council is already doing this.	The council has delivered balanced budgets each year since 1996. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1J Technical Financial Savings	Finance is one service that is very much over-staffed. However, the staffing levels are the result of poorly designed finance systems (the manual effort involved in keeping the data correct is tremendous). This is obvious when we need to answer simple questions on what we spend our money on and we are often unable to extract the information or we end up looking at spreadsheets that are kept separate to the system. If we can't easily extract information on what we spend money on then the system is not fit for purpose. I'd suggest you look at the design and frustrations with the system as well as the manual effort involved in, for example, year end. We are not able to produce year end figures without months of work - why?	4. The council is already doing this.	West Lothian Council has the smallest finance department, with the lowest number of qualified accountants, of any authority in Scotland. Major improvements have been made to systems and reporting tools over the last decade, with very little manual input or intervention required for returns or information (e.g. Local Finance Return -LFR). The council has also always met the statutory reporting timescales for final accounts, even when Covid-19 meant many councils delayed publication of their accounts. The Financial Management Unit continue to investigate ways to streamline and improve reporting and processes. Suggestions to improve processes, systems and information are always welcomed and should be submitted to the Corporate Finance Manager.
Modernising our council	1J Technical Financial Savings	make sure the right people have the right recourses to survive	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Encourage employment, universal credits available to all or lower threshold to allow for cost of living increased - even the employed should get this and this would encourage everyone to seek additional hours employment rather than take the bare minimum allowance and not work as they are covered	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Auditing processes may find ways to support households budget better or find employment opportunities. In support of reviewing these processes to ensure those who are in most need receive the right levels of support.	4. The council is already doing this.	At a time of significant financial uncertainty and the cost of living crisis, good quality advice services are needed to support people, particularly those on low incomes. The Anti Poverty service will continue to provide support and advice to vulnerable people in the community.
Modernising our council	1J Technical Financial Savings	Continue support	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	The administration of financial support must maintain a high standard. These people mostly are vulnerable and need to know they are being fully supported until such time as they can move on with their lives.	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Are you sharing services meaningfully across Councils or still raising your own headcounts in Admin, Finance, HR and clerking ? What work is being done with Social Security Scotland to help administer more effectively the doubling of the devolved social security spend over the next few years? I don't see that in your consultation paper so cannot make any conclusion concomitant or otherwise with the Accounts Commission or Audit Scotland. Nonetheless Audit Scotland already have stated that much more work needs done by public bodies on securing recurring savings.	4. The council is already doing this.	The number of staff employed by the council has reduced over the last decade. The council works in partnership with community planning partners and will continue to investigate opportunities for shared services. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1J Technical Financial Savings	Again, you need to remember the number of people in poverty who cannot afford technology	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis. Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
Modernising our council	1J Technical Financial Savings	Will this be done before or after all other departments are stripped bare?! Surely if all other departments are being streamlined and "aligned" then financed need to be looked at even more closely and carefully than before	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The Financial Management Unit has delivered substantial budget and staffing reductions, with the council having the smallest finance department, with the lowest number of qualified accountants, of any authority in Scotland.
Modernising our council	1J Technical Financial Savings	Supporting customers during times of change is required.	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Financial responsibility should be foremost in this proposal. Not cost cutting of essential services.	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.
Modernising our council	1J Technical Financial Savings	WE tend to focus on the big numbers and ignore the smaller amounts leaking out the sieve at the bottom of the organisation.	4. The council is already doing this.	The Financial Management Unit work with service managers to identify inefficiencies in spend. If specific examples have been identified they should be forwarded to FMU for further investigation.
Modernising our council	1J Technical Financial Savings	Targeted support at those who needs it most is preferable.	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	How often are roadwork costs audited? It strikes me that the roads are in a poor state and much time seems to be wasted by workmen on the job.	4. The council is already doing this.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	SPEND MONEY CHECKING IF EVERYONE ON BENIFITS IS ELIGIBLE	4. The council is already doing this.	For benefits administered by the council on behalf of national government, applications are assessed against national eligibility criteria. The council has no control eligibility criteria for benefits. The council robustly investigates and pursues all cases of fraud.
Modernising our council	1J Technical Financial Savings	I feel like this is massively important and support and resources for financial wellbeing need to be readily available for people who really need them with a proactive approach towards this before people become hopeless and continue to struggle.	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis. At a time of significant financial uncertainty and the cost of living crisis, good quality advice services are needed to support people, particularly those on low incomes. The Anti Poverty service will continue to provide support and advice to vulnerable people in the community.
Modernising our council	1J Technical Financial Savings	There should be a review of the non-statutory functions that WLC provide. There is a disparity on how these Services work compared to the statutory functions in terms of staff salaries and working patterns	4. The council is already doing this.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based. Pay structures and grades are determined at a national level and council level. There is no disparity on pay levels within the council.
Modernising our council	1J Technical Financial Savings	Again this should be done yearly.	4. The council is already doing this.	The council reviews budgets annually as part of the budget realignment exercise. This enables amounts, such as those in this consultation, which are no longer required to be identified as a saving.
Modernising our council	1J Technical Financial Savings	You should have already been doing this.	4. The council is already doing this.	Thank you for your response. Your comment has been noted. The budget gap faced by the council is a result of funding being insufficient to cover the increasing cost of delivering services due to factors such as population growth and indexation. The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	I fear the "management" roles are they key financial drains when it comes to the council. To audit and regulate should be carried out now, not just when West Lothian council is asked to find money	4. The council is already doing this.	The council's aim is, and always will be, to ensure that West Lothian continues to be a great place to live, work, visit and do business. To achieve this aim we will continue to prioritise the money that we spend on services to make sure that our investment has the biggest and most positive impact on the community. As validated by external auditors and other inspection bodies, West Lothian Council continues to perform well against key performance indicators and activities. This will continue to be monitored and reviewed. The council has one of the leanest management structures of any council in Scotland. The council has delivered substantial management savings to date but continues to investigate savings and efficiencies in management structures. Central support functions at the council are one of the cheapest of any authority in Scotland.
Modernising our council	1J Technical Financial Savings	There needs to be accountability and staff MUST follow up on fraudsters.	4. The council is already doing this.	The council robustly investigates and pursues all cases of fraud.
Modernising our council	1J Technical Financial Savings	Scotland pays the highest tax in uk; Finance strength is not our best strength; As we are wasting too much money; ; I disagree this finance service is working correctly; ; Why are we not looking at the final salary pension; Bill and readjusting like the private sector? Final salary bill is out of control; ; Why are we not looking at the cost of taxis to take kids to school ; ; Why is the nhs spending a free for all out of control; ; I could go on...I know my self I am not getting bak what I pay in..only think I get is bins emptied	4. The council is already doing this.	Council tax in Scotland is lower than other parts of the UK and income tax for the lowest earners is also lower. The local government pension scheme has been subject to review and changes have been made to make it more affordable. The council is reviewing all transportation options, including taxi provision. The council has no control over NHS expenditure. Council tax is not a charge for specific services but a tax providing a contribution to the delivery of local services. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1J Technical Financial Savings	Don't forget to speak to the staff doing the job. Once their moans are out of the way, they may have some helpful suggestions and will accept change more readily.	4. The council is already doing this.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1J Technical Financial Savings	The council continually wastes money and needs overhauled.; Blank sheet start again get rid of the clowns running the circus.	4. The council is already doing this.	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure. As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards and the way remaining services are delivered. It is proposed that future spending will be aligned to agreed priorities.
Modernising our council	1J Technical Financial Savings	use more technology to achieve this	4. The council is already doing this.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Need to look for better value for money. Pecos is not an effective system to save money and this is frustrating	4. The council is already doing this.	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure. PECOS is an ordering system only. The council utilises collaborative contracts where appropriate as in most cases this demonstrate better value for money. Concerns about the value for money of procurement should be raised with the Corporate Procurement Unit.
Modernising our council	1J Technical Financial Savings	Good idea . 3rd party should include in the auditing activities rather than internal auditor	4. The council is already doing this.	The council is subject to rigorous external audit and both Audit Scotland and EY have confirmed, over a number of years, that the council has robust financial management.
Modernising our council	1J Technical Financial Savings	All processes across the council should be reviewed on a regar basis to ensure they are; a) still required; b) still the most efficient process for delivery; c) not being duplicated or partially duplicated elsewhere in the council or wider public sector.	4. The council is already doing this.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	The effectiveness of these arrangements should be maintained	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	In previous employment officers were able to raise own Purchase Orders with on-line system for passing to manager/s for approval at the correct level for the value of the PO. Also, able to track individual POs for authorising invoices - invoices went straight to Accounts to avoid delays but needed to be approved by Officer with automatic transfer to manager for approval (depending on value). This meant that officers managing budgets could have an up-to-date record of spend without the time-lag associated with current system.	4. The council is already doing this.	The council's financial reporting tool includes reports that can be run to provide up to date information in addition to monthly monitoring reports. In addition, many managers have access to the financial ledger which provides real time information. Anyone who does not have access to up to date reports can request these through their accountant.
Modernising our council	1J Technical Financial Savings	The council has been striving to have a 'one stop shop' - people should not have to complete several forms to get what they are entitled to.	4. The council is already doing this.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis. Most benefit is determined and administered by national government. Where applicable for council led benefit, the council will look to further streamline processes but data protection legislation prevents sharing of information with other bodies and for other purposes than the reason the data was originally collected.
Modernising our council	1J Technical Financial Savings	Proper skilled staffing is the key	4. The council is already doing this.	The council is committed to appropriate staff training to support service delivery.
Modernising our council	1J Technical Financial Savings	As there are multiple finance systems having a streamlined approach would be much better.	4. The council is already doing this.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Why not shut down completely? That will save money	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Thank you for your comment.
Modernising our council	1J Technical Financial Savings	PECOS suppliers are over inflated. Money can be saved by allowing access to a broad range of suppliers. Money can be saved by a simple change here for example capping an Amazon purchase at £100, rather than paying 300% more for resources from PECOS.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	West Lothian Council has to comply with and competitive methods are employed. All appropriate suppliers can bid and contracts are tendered taking into consideration price, quality and total cost for all products contained within the contract. It is always possible to identify what seems a better price but staff costs in sourcing, ordering and administration of other suppliers may negate any perceived saving. The system used by the council for ordering goods is PECOS.
Modernising our council	1J Technical Financial Savings	Having put out 75 new bins at 5000 each and 9ver 30 vandilised I always question council finance, someone is making money off this bad that got to lay at (redacted) and (redacted) feet.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is a signatory to the Scottish Government Household Recycling Charter which determines best practice for household services. The new twin stream service will improve the quality of material recycled and save money on disposal costs
Modernising our council	1J Technical Financial Savings	Further explanation on alignment needed to be fully informed and give an opinion, although one saving would be to converse with local colleges and universities to get a list of full time students that are eligible for part or full council tax rebate, saving on constant paperwork and manpower chasing things up. Possibly set up an algorithmic system that all faculties can use year in year out.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	Unfortunately Data Protection legislation would not allow information to be shared in this way.
Modernising our council	1J Technical Financial Savings	I think if everything did not have to go through pecos you would make more savings as the companies on that are not always the cheapest.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	West Lothian Council has to comply with and competitive methods are employed. All appropriate suppliers can bid and contracts are tendered taking into consideration price, quality and total cost for all products contained within the contract. It is always possible to identify what seems a better price but staff costs in sourcing, ordering and administration of other suppliers may negate any perceived saving. The system used by the council for ordering goods is PECOS.
Modernising our council	1J Technical Financial Savings	re aligned services by denying them access to services moneths up to the run up, to have skwd data to tie in with your alignment isnt planning, its abandonment of duty and due care of the people they are meant to help	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council is transparent regarding all budget savings with budget savings having to be approved at full Council. Officers cannot implement savings in advance without approval by elected members with all reports available publicly.
Modernising our council	1J Technical Financial Savings	Do not pay outside contractors for work the council can do	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure. The council must consider both internal and external provision to ensure best value. In some circumstances it may be better value to deliver through external provision.
Modernising our council	1J Technical Financial Savings	Dedicated provision by the council cannot be outsourced to third parties.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council's best value framework determines whether services should be delivered internally or outsourced, and looks to deliver best value across all expenditure. The council must consider both internal and external provision to ensure best value. In some circumstances it may be better value to deliver through external provision.
Modernising our council	1J Technical Financial Savings	Ridiculous accounting rules that force public sector organisations to spend unused budget in the last 2 months of financial years should be stopped and councils allowed to transfer savings between areas without the budget area being penalised in the following year. Often see some crazy decisions made in run up to end of financial years just to use budget up.	5a. It is proposed that this suggestion is not taken forward because the council is required by law to deliver this work.	The council manages overspends and underspends on an overall corporate basis. Budgets are allocated to where they are most needed. There are no plans to allow carry forward of budgets. Any overspends or underspends are considered corporately, and available one-off funding is allocated to priority areas. The phasing of spending on all budgets will reviewed and if spending is higher towards the year end this will be investigated.
Modernising our council	1J Technical Financial Savings	Given that the current arrangements are effective by your audit and regulators it does not make sense to make any changes to the current arrangements	5b. It is proposed that this suggestion is not taken forward because it is likely that the costs of this proposal would outweigh the benefit or requires additional expenditure.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. To ensure council resources are not wasted, realignment of budgets will continue and does not impact on current arrangements.
Modernising our council	1J Technical Financial Savings	In my view any services which are not directly customer-facing can probably afford to be cut more, proportionately speaking.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	As the council will have less overall resources, the number of services delivered will have to reduce with services being reviewed based on the impact they have on priorities. This will include changes to service standards, the way remaining services are delivered and a reduced workforce. It is proposed that future spending will be aligned to agreed priorities. The focus will be on posts that support the priorities rather than whether they are front line or back office based.
Modernising our council	1J Technical Financial Savings	More fixed contracts in place.	5c. It is proposed that this suggestion is not taken forward because it is not consistent with the council's values and priorities.	The council is committed to working with employees and trade unions in managing changes to its organisational structures and staffing requirements. The council will seek to achieve agreement to change through constructive and open dialogue.
Modernising our council	1J Technical Financial Savings	Consideration of working with other Councils should be investigated	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Opportunities to work in partnership with other local authorities and community planning partners will be investigated.
Modernising our council	1J Technical Financial Savings	No idea what you are describing, unless it to do with payment's of housing benefit etc... Whilst I understand you might want to do more online your customers may not be able to do so... Too many are literally counting the actual change in their pockets not their online funds even supposing they have computers or tablets.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
Modernising our council	1J Technical Financial Savings	Any new processes should be made easier for people to understand and again not always having to register/apply online.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council acknowledges that our customers expect access to council information 24 hours a day, seven days a week. To enable this, the council will continue to look at ways to improve the website both as a tool to provide information on services, but also as a tool for customers to engage with the council, e.g. making payments online. The council will continue to endeavour to make it as easy as possible for customers to interact with services, improving access where required.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Train staff to deal with these changes, staff really dont have informed information on these	6. The respondent suggested an improvement. Officers will consider how this could be developed.	This document is part of the early stages of public consultation on budget saving measures. Further consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1J Technical Financial Savings	one payment system online, for everything in the council, schools included (cash should not be present in any transactions). staff training should be delivered by experienced members in the organisation, an industry body representative, or external service provider;	6. The respondent suggested an improvement. Officers will consider how this could be developed.	It is anticipated that new technology will provide a service that a number of customers have been requesting for some time, however it is acknowledged that it will not be suitable for all. Payment through direct debit will continue to be available for tenants and residents and payments are accepted at Post Offices which are available in most local communities and villages in West Lothian. Local communities can still interact on a one to one basis with council services in partnership centres and through the council's customer contact centre. The council will continue to support people to embrace new methods of payment through the Anti Poverty Strategy and financial inclusion work. Experience in other local authorities is that debt levels have not increased when new technology has been introduced.
Modernising our council	1J Technical Financial Savings	These need to be fit for purpose and easy to use.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Efficiencies will be very welcomed from staff and customer perspectives - making it more streamlined - pre-population of information and efficient timelines for decisions.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Again metrics in trial data must show this approach works first	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	The road leading to my house has been under repair several times a year for the 10 years I've lived here. Damage has been caused to the road by poor quality work by Scottish Water - what is being done to ensure that they do the job properly and that roadworkers are actually doing enough to earn their money?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Road repairs: all road works are co-ordinated by the council to minimise disruption to road users and pedestrians as much as possible. However, it should be noted that some repair works by utilities companies are unplanned and may also be urgently required.
Modernising our council	1J Technical Financial Savings	In the current environment this is a big ask. There are far too many auditors, accountants, assessors within the organisation. Digitise these, remove WLAM, remove ADR's as these have little value to the workforce on the ground. Make these cumulative from monthly meetings or discussions. Improve recruitment and make this faster.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council regularly reviews the governance arrangements that are in place in order to ensure that there is good management, effective stewardship of public money, good levels of public engagement and that the desired outcomes for stakeholders are achieved.
Modernising our council	1J Technical Financial Savings	Does FMU need so many Finance Business Partners and accountants? Can the Council adopt a business plan approach as outlined in my earlier response.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	West Lothian Council has a centralised finance function which means support is provided with a minimum level of accountants. West Lothian has the lowest number of qualified accountants of any council in Scotland. The council does not have any finance business partners.
Modernising our council	1J Technical Financial Savings	I think we need to be careful that the outcomes we want to see are not diluted by mis aligned change in processes. We have a very good benchmark on financial planning at present and we should only change if these service changes ensure the same robust outcomes we currently have.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	If you could someone quicken the processes that would be ideal. For example, if a couple would not have to wait 8 weeks till they get a Child benefit decision to have an acknowledgment that they had a baby that would be brilliant. Also, a tell us once type of service for changes in circumstances would be extremely beneficial so client would not have to call 5 different departments to report the same change.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis. Most benefit is determined and administered by national government. Where applicable for council led benefit, the council will look to further streamline processes but data protection legislation prevents sharing of information with other bodies and for other purposes than the reason the data was originally collected.
Modernising our council	1J Technical Financial Savings	Has the council considered Apply Once utilised by Highland Council?	6. The respondent suggested an improvement. Officers will consider how this could be developed.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Automation tools that are now available to us may help with the demand called out here. Automating aspects of the process may allow staff to deal with the demand more effectively while providing customers with a better experience	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council will investigate ways to consolidate and better coordinate activities to allow streamlining of operations and removal of duplication. This will help ensure that activities are completed and managed in the most effective way.
Modernising our council	1J Technical Financial Savings	Provided it does not slow down critical payments or delay cash flow to struggling local businesses.; ; I think there's also a key question around expenses for travel. subsistence and corporate events or meetings. These should all be second choice over virtual solutions. It's nonsense if people suggest face to face is more effective, other than in particular circumstances. That also applies to our elected officials.	6. The respondent suggested an improvement. Officers will consider how this could be developed.	The council has substantially reduced travel and increased use of virtual meetings. Further opportunities to expand this will be investigated.
Modernising our council	1J Technical Financial Savings	less money to those who need it most	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals.
Modernising our council	1J Technical Financial Savings	Again I feel people should not have to make an appointment st the likes of a CIS office when sometimes it is just a simple question needing answered.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council will always seek to maintain or improve its standards and will keep a variety of contact options open for customers. Customers can meet staff face-to-face in various offices or partnership centres or by telephone through our customer service centre

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	I believe the news articles were pretty widespread the last time the government tried to implement cost savings for Universal Credit. As long as the council has nothing to do with it then it will run fine.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Realignment. That word is popular, eh?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	...Do you mean more worked farmed out to dodgy 'service providers' with dubious links?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This involves no transfer of work or responsibilities to other providers.
Modernising our council	1J Technical Financial Savings	Cut the (redacted) and his slush fund cronies down to a living wage, like the "applicable amount" they demand that we're allowed to earn.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. The pay award for 2022/23 was capped to provide lower paid staff with a larger pay rise than the senior managers of the council.
Modernising our council	1J Technical Financial Savings	I'm not no Benefits	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	The council need to sort my housing before I'll even consider offering my opinion. The council ignores me constantly and is costing me 2 houses to pay for. My next step is to take my housing situation to all media outlets.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	eh?	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	We need urgent help!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	grandparents will struggle to use them	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. Through the Customer Service Strategy the Council is committed to ensuring a range of contact methods are in place to suit the varied needs of customers.
Modernising our council	1J Technical Financial Savings	Ndhd	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	It's not the councils job to do that so scratch it out and signpost to citizens advice	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Again making savings where people need it most.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Have run out of money on capital works	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This proposal has no impact on capital funding.
Modernising our council	1J Technical Financial Savings	Sometimes there is a lot of talk and more talk.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	KrE\$"%	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The aim of the consultation is to receive feedback from stakeholders on the general principles of proposed measures to balance the council's forecast budget gap.
Modernising our council	1J Technical Financial Savings	Please do not remove support from the most vulnerable people in our local community.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	Don't make it harder to access benefits for those in need.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	No job cuts!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Good idea - also, stop duplicating advice functions provided by other bodies or advising on services not provided by the Council.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	The council does not duplicate advice functions. West Lothian has an advice network which coordinates all bodies to ensure this does not happen.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Let the DWP sort that out!	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.
Modernising our council	1J Technical Financial Savings	Does this cover processes for disabled individuals claiming universal credits? Work coaches ignore pip claims and assessments already done and are putting pressure on vulnerable individuals to seek employment in an environment where there are few to no suitable job opportunities for these individuals. This seems to be a waste of resources. Lifelong conditions should be accepted as such.	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis. In some instances, data protection legislation prevents the sharing of information relating to benefit claims between different parties.
Modernising our council	1J Technical Financial Savings	With more people needing help ie universal credit if there is a lack of assistance what happens to these people ; It takes a lot of guts for people to ask for help	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	More financial support may be provided to deserving families instead of curtailing their resources	7. The respondent's comment was either not relevant to the question, inappropriate and/or contained personal and sensitive information.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	you never hear the phrase many hands make light work? the healthy long term unemployed should be helping council workers with all tasks, for their money	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1J Technical Financial Savings	Will this affect how long people have to wait for these vital services? Ok so long as the end user isn't affected. People on benefits are in dire need	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Universal credit is killing people!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Universal credit is absolute joke. Force people to work and not to claim benefits !	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Not a saving, but waste of money. Around our area are plenty of jobs. For some is easier to stay on Universal, because it is a life they know. Stop support, make people go to work...	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Your preferred suppliers list are dearer than buying else where, universal credit is more money than getting a job and paying for childcare.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Absolute joke universal credit isn't worth the paper it's written on	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Processes need to be looked at some people on benefits are indeed cheating the system, same with some of those with blue badges and disability awards. I think set up traffic wardens to catch those parking in disabled spaces without a badge, (please make them enforceable) should be fined and that way you can also catch the ones running in and out of car when they claim they're on higher rate mobility! Catch those falsely claiming would also save money	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments. The council previously ruled out a decriminalised parking enforcement scheme. Without such a scheme the council could not introduce parking charges and fines.
Modernising our council	1J Technical Financial Savings	If they could streamline the benefit system as a whole and increase the capability to find fraudulent claimants that would be money well spent.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments. The council robustly investigates and pursues all cases of fraud.
Modernising our council	1J Technical Financial Savings	Would save a lot if Ben if it's were given to people who needed it and not just to people who don't want to work	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Find and stop the 'can work but refuse to work' and you'll make massive savings	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Has Universal Credit not been mucked about with enough? Why can we not find a working system for Universal Credit and stick to it, rather than having people jumping through constant hoops.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. Universal Credit is decided by the UK Government.
Modernising our council	1J Technical Financial Savings	With the council cuts proposed the Universal Credit Service will need more funding not less.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.
Modernising our council	1J Technical Financial Savings	Cut the pay that Councillors and those employed higher up in Education. Education Officers and above do not need the level of pay they are receiving.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	The Scottish Government determine the basic pay of councillors in Scotland and this cannot be varied by individual councils. The Local Governance (Scotland) Act 2004 (Remuneration) Regulations 2007 set out the framework for paying a salary to councillors.
Modernising our council	1J Technical Financial Savings	The cost of living has increased and UC, salaries haven't. Essentially to increase these.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Although the pay award has yet to be agreed for 2023/24, it is envisaged that public sector wages will increase next year. The same cost of living crisis pressures faced by individuals and families also impact on the council. The unavoidable impact of increasing costs for the council means that the council needs to identify savings or generate additional income as the council must have a balanced budget by law.
Modernising our council	1J Technical Financial Savings	Make Universal Credit easier when applying for it and that there is support when needed.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments. However the Anti-Poverty Service remains available to support individuals access benefits.
Modernising our council	1J Technical Financial Savings	It is important that people in need are supported through these schemes. Overheads can be greatly minimised by improving the qualification process to make sure only those entitled are receiving such facilities. I'm sure this is already been addressed or being addressed before you look into reducing cost by other means.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. Qualification for benefits is determined by the UK and Scottish governments. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	I blame ***** (redacted)	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Thank you for your comment. This proposal is out with the control of West Lothian Council.
Modernising our council	1J Technical Financial Savings	UC processes are a nightmare, need investment to sort!	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.
Modernising our council	1J Technical Financial Savings	Ok, also reduce the amount paid in Universal credit might help people look for work. this builds the economy and the average person will be better off as they will pay less tax based on fewer people on benefits.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments. Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.
Modernising our council	1J Technical Financial Savings	should be easier to apply for universal credit i have had loads of trouble, left for weeks without money	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Universal credit and the application process is determined by national government. The Anti-Poverty Service remains available to help support individuals with their applications.
Modernising our council	1J Technical Financial Savings	The whole benefit system needs a serious overhaul	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	i am a pensioner and because i have extra pensions other than the state pension i get penalised to paying 65% rent and 20% council tax as i,m deemed to have too much[excess] income...i don,t mind paying some rent/council tax but pensioners who have their own home only pay council tax.this is i believe very unfair...one pension a receive monthly is a mineworkers pension.yet this is regarded as excess income...west lothian was once a thriving mining community and miners contributed a lot...how can an ex/retired miner have their pension regarded as excess and not get much use of it?...i would like to see a change in the percentages similar to this so that pensioners who have so called excess income can benefit from their own paid into pensions....change to 25% for rent and 35% for council tax and that would give a return of 25% back to pensioners and a little more towards council tax.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments, including the thresholds for entitlement. The council has the Feeling the Pinch Fund which is available to help those who are just above benefit thresholds. The Anti-Poverty Service can help those who may be struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	All benefits should be reviewed	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	I fear that moving everyone onto universal credits will cause the majority of people to suffer that are already struggling to survive with all the rising costs.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	Too many people tell universal credit that they need help so that universal credit pays them although quite a lot of these people could actually work, therefor the process to get uncredited should be changed which would save a lot of money that goes to people who could actually work.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Not on benefits currently but have had previous experience of claiming unemployment benefit and frankly it is a total riot to the extent I have not claimed it when I was probably due itgo figure I would rather starve than go through the humiliation of trying to prove I am not cheating the system as MPs claim £300 a day for rocking up at HoC	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	People on universal credit need to be encouraged back to work. People must be better off in work if possible.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Any one who can work but is classed as uneconomic should be encouraged to seek work as opposed to a benefit. Any benefits for working people can then be accessed once they have a job.	8. This suggestion is out with the responsibility of West Lothian Council. Where relevant, we will forward these comments to our partner organisations.	Benefits are determined by Scottish and UK Governments.
Modernising our council	1J Technical Financial Savings	Lovely words, no actual action plan.	9. The respondent made a comment on the survey question.	The council continually reviews service provision using our Best Value Framework to ensure that we deliver value for the public and continue to achieve the expected levels of performance. There are rigorous internal scrutiny arrangements in place to assure the quality of our services and we are also subject to external audit and inspection.
Modernising our council	1J Technical Financial Savings	I would like to see a fuller description of what this mean. Applying for benefits, housing, services etc is so complicated using IT that often the voluntary sector has to step in the support people to do this. There needs to be people to talk to people who might not be able to access services online.	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council. The Anti-Poverty Service remains available to support those struggling with the cost of living crisis.
Modernising our council	1J Technical Financial Savings	I am not sure what this really means.	9. The respondent made a comment on the survey question.	This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1J Technical Financial Savings	If you want people's opinions on things, please be clearer about your plans. This is far too vague to form an opinion!	9. The respondent made a comment on the survey question.	This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1J Technical Financial Savings	The information being given to be commented on is so vague it makes it impossible to answer and in some cases understand and therefore I have been unable to give Frank response	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Everywhere you are mentioning "re-aligned to match" something. But what are these parameters? There is not enough information.	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	More detail required as to what this means	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	Not sure what these efficiencies are, its not clear.	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	No idea what you mean by this	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	This doesn't make sense and sounds similar to the first two proposals.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	This statement is vague and more detail would be helpful.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Not sure what is being proposed here to be able to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Not sure what is being proposed here to be able to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	There is very little detail contained within the narrative to make an informed comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Insufficient detail to be able to comment.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	I don't understand what this cut is	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Again, hard to comment when clear details not given and someone must know the details to make the "estimated savings"!	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Once again I am not sure what this means.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Unable to make provide a constructive comment as there is no detail as to what this would involve or how it would affect individuals, services within the Council.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Not enough information to comment on.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1J Technical Financial Savings	What does this actually mean? If there is a budget which can "make efficiencies in the administration of" "financial processes" then why don't you just do it? How can you change universal credit processes, UC isn't devolved to local authorities? If there is spare budget lying about and it can be aligned to match the actual spend then just get on with it....why ask the public as the wording doesn't make sense and surely isn't required for any governance process (especially giving the recognised arrangements by the auditors)	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This will have no impact on benefits which are not funded or determined by the council.
Modernising our council	1J Technical Financial Savings	I don't fully understand this part	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	dont really know what this mean	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity. There should be space for feedback on the methodology being used also - this has not been made available which adds to suspicion that the whole process is already decided, and course of action is already determined. The council and COSLA must do more to protect our communities and demand a fair settlement from the Scottish Government. This exercise highlights the political failure of the funding model and it will be the local community that suffers as a result. The end of the survey does not have a 'Finish' button, merely a 'Next'. Overall - very poor approach.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	Very difficult to comment without further detail.	9. The respondent made a comment on the survey question.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1J Technical Financial Savings	No idea what you are planning here as it is too confusing what you are saying.	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1J Technical Financial Savings	See my answer to 1AIt is disingenious to ask people to comment on such a broad proposal with far too little detail for anyone to give an opinion on - it constitutes tick box consultation. It is difficult to argue with the broad principle outlined but it very much depends on how it impacts on people - reducing staff can often mean that the only method of communication is online and in many organisations this causes much greater inefficiency/no help at all for the customer/client. It is difficult to argue with the broad principle outlined but it very much depends on how it impacts on people - reducing staff can often mean that the only method of communication is online and in many organisations this causes much greater inefficiency/no help at all for the customer/client.	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1J Technical Financial Savings	The lack of real facts and figures about what is going to change makes it a challenge to comment effectively. More information is required before any meaningful consultation can take place. We should be provided with a statement for each section and the option to agree, disagree or have no opinion. I would strongly urge the council to re-present this consultation in a more user friendly format.	9. The respondent made a comment on the survey question.	Thank you for your comment about the survey, the council will carefully consider all feedback and use it to review and improve our consultation approach.
Modernising our council	1J Technical Financial Savings	How what where when. No substance to this statement	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels. Realignment of budgets can be implemented immediately.
Modernising our council	1J Technical Financial Savings	The format of this survey is poor and does not lend itself to true scrutiny of the proposals. The survey is badly designed and off putting to many given the large blurb of text under each heading - the language is in business speak which is essentially meaningless. There is a lack of clarity on the proposals and the reader is left to assume what the blurb is getting at. This survey should have been in plain English with examples of the proposals which would support greater engagement with the activity.	9. The respondent made a comment on the survey question.	This document is part of the early stages of public consultation on budget saving measures. Further public consultation on specific changes to services is an integral part of the change management process and will be undertaken as proposals are developed further.
Modernising our council	1J Technical Financial Savings	While I recognize that savings need to be made by you (The Council need to be more specific on detailing their proposals.	9. The respondent made a comment on the survey question.	Technical financial savings is focused on ensuring best value in relation to fixed financial costs. This will not impact on support provided to individuals or staffing levels.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree, WLL needs to be accountable as an arm's length business model. During lockdown periods there were still ventilation systems, heating and lights left on at Armadale pool which seems an unacceptable waste of public funds.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would agree with this statement and would agree that if savings can be made in this area that this should be initiated.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree with this proposal. Strong leadership will be required from EMT to ensure that the directors of, and management team at, West Lothian Leisure will engage meaningfully in assessments of how services at West Lothian Leisure can be amended so West Lothian Leisure is able to cope with the removal over time of core funding from the council. If the directors of, and management team at, West Lothian Leisure do not come up with sufficient proposals to allow this to happen, the council should consider alternative arrangements for West Lothian Leisure to ensure that the council's core funding can be removed eg external corporate manager appointed, selling West Lothian Leisure.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Offering of services to public may improve oversight and engage people in more access to less commonly used services. Charitable events may help improve revenues	1. The respondent advised that they agree with the proposal.	Future service delivery would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	good because spending Tons on a few football pitches in east calder was fucking retarded, and you need to stop making people think that a job in sports is a good thing, because a future eco society doesnt need those type of people doing stupid shit jobs we need grafters with practical skills (if its not a job nasa would send on an off world colony mission we dont need twats doing it here)	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There are far too many facilities for such a small county.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a good idea, agencies such as WL Leisure should be encouraged to be self sufficient.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure should be self funding if not a specific council service.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Stop funding private groups when groups use council facilities charges should be at a commercial rate is funds are collected by the group however small amount, CDT's should stop being funded and made pay their own way	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as self-funding does not increase costs to users to the point where it becomes unaffordable for those who need it most - for health (both physical and mental) reasons.	1. The respondent advised that they agree with the proposal.	These points would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This depends. If WLL can operate as a stand alone and is profitable this is ok. If it leads to reduced facilities it could be short sighted and lead to more ill health and reduced opportunities for young people which will have a knock on effect to petty crime levels.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agreed. WLL requires to operate self sustaining	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Absolutely they need to be more competitive in a massive gym offering across the local authority	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Almost all other councils across Scotland appear to run their leisure model better than West Lothian.; Exite seem to waste money and mismanage all those facilities given to them, and on top of the vast amount given to them by the council each year they continue to gouge the fee paying public. ; Stop ALL public funding and allow them to compete shoulder to shoulder with all the other leisure facilities in West Lothian. ; The comedic mismanagement of communities health and wellbeing needs to stop now	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree with this being largely self funded.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure in West Lothian is a waste of time, pools are shut half the time for swim classes or galas especially in whitburn	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	My understanding that community support by West Lothian Leisure is already pitiful.; Certainly West Lothian Leisure's business model needs reviewing 🤔	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a good idea, these facilities seem to be over staffed, by lazy staff joking around when I attend. They should be focusing like PT do and working with their customers. You pay your membership and they just don't care. I think this is why the PT are doing so well and they are not. Really there is no reason this couldn't be successful.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It is a massive shame, but I guess not essential at this moment of crisis.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree with this proposal. The West Lothian Leisure operating model is outdated with far too much provision of swimming pools. It is up to West Lothian Leisure to provide a sustainable business model going forward that is not subsidised by Council Tax payers.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is reasonable, given the financial challenges faced by the Council	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Great doing well 🙌	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Fair enough but to lose faculties would be daft. People need places to go to support their health and well-being and not all can afford bannantynes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree - the council has invested a lot of money in West Lothian Leisure whilst resources are tight. The council cannot continue to subsidise them when budgets for core services are being cut	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I imagine this will lead to higher prices which is a shame, not least as it will have a disproportionate effect on the poorest. I wonder about the knock on impacts on health services if access to fitness facilities is reduced for some. But I can see that compared to other priorities this is an obvious place to make savings.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Looks good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yes this is much needed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not keen on this but I appreciate that if it is a choice between supporting schools or children's services or maintaining this funding, then helping West Lothian Leisure towards a viable and sustainable self-funded model may be necessary.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This seems reasonable if WLL are able to remain open without it, again this could impact the most vulnerable and young in the community who may not be able to access the services elsewhere.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree wholeheartedly with this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No problem with that. Too expensive anyway	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Fitness should be an individual choice and as such not funded with the exception of free swimming for kids as this is a vital component in wellbeing of children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Should West Lothian leisure be able to self fund and provide accessible, affordable activities, then perhaps there would be mileage in the suggestion.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This seems a reasonable suggestion	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this service currently work at arms-length? Again, the provision of this service for adults should be self-funding, but support may be required to support this for children and those in need of support.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This partnership is very poor. I have worked personally within this partnership and the number of staff who do not respond, who are unavailable, who are unable to support a query is huge. There seems to be layers and layers of staff who have limited responsibilities. This surely can be flattened in organisation, streamlined and managed much more efficiently using technology and better administration methods.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	At least one good idea as it has charitable status anyway	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Personally would affect me if prices were to rise excessively. Understand some pricing would still increase if council core funding was to continue, but this would not be as much if it were self funding	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I feel West Lothian leisure already of a very high cost compared to several other councils. However, I understand the need to reduce this. It will however further limit peoples ability to use the services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Possible saving here.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agreed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as this didn't mean a reduction on leisure facilities available at a reasonable price to all people. Leisure facilities are needed to help mental health and wellbeing, as well as physical wellbeing. Two areas which are much needed in society these days.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	In these desperate times it will be necessary to charge people a set fee to use West Lothian's Leisure facilities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure activities are a choice and should be self funded. There are more areas where funding is more needed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Xcite is a good service, but I can see inefficiencies	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It is important to use finances and resources effectively within the Council, areas such as education, social work etc are far better placed for those than WLL, it is still an important service but it does have the ability to self fund from memberships and various club facility bookings	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	After reading the above, I will continue to trust your decisions in the areas I have no experience in , but thank you for the opportunity to co-operate !	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This sounds a good way to save money	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agreed. These services should be self-funding, as those who use them should pay and not be subsidised by those who do not.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is currently a high quality service. It significantly undercuts commercial offers, however it would not be unreasonable to move to a self-funding model.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree with this as West Lothian Leisure charge memberships to all users and charge non members for services so in effect this is a for profit business.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	that sounds like a good idea especially as there are now affordable gyms within the west lothian areas - might be more that your money supports anything that gets people outside and exercising	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree. This should be paid for by the users.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removing the leisure facilities from direct control of the council for funding/tax/costs efficiencies are understandable but removing all core funding from areas of our community which suffer from deprivation will cause further reduction in facilities for this well under resourced group within the community.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	By closing school facilities outwith school hours we would make efficiencies on utilities/ FMA staff etc. This would also inject funding towards West Lothian Leisure where traffic would be re directed.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Making West Lothian Leisure a self-funding company is a good idea in principal provided that the cost id not then passed on to customers. WLL is the most affordable and accessible leisure facility membership and it may be the most vulnerable who are then affected by this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There is too much competition and choice in the leisure sector now to justify continued funding to one company.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sadly I would have to agree with this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree that we should not be funding these types of organisations. If there are services we want to provide we should bring them back in house as it may actually safe money.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure does provide excellent services to the community and I hope that it can maintain this without council support.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure should in my opinion be as self sufficient as possible, there is far to much reliance on public money	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Support this. Leisure is luxury during such difficult times...but when things financially improve services should be supported again	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Maybe don't spend so much on improving xcite sites and focus on learning and essential services	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I fear this will lead to an increase in swimming lesson fees and so fewer families will send their kids for swimming lessons. A lesson per week at school is unlikely to be enough to save kids from drowning as we have seen in recent years. Risky. How about reduce core funding to WL leisure but protect key things like swimming lessons	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agreed, the Council should not be subsidising West Lothian Leisure	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	agreed; the council should be focussing on maintaining open public spaces for resident recreational use	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Great as an adult that works 9 to 5 I can't use my local pool now due to school kids and public swimming isn't available on the weekends. I can only hope being self funded lets them operate as a business and not a creche.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree that school should not support West Lothian leisure	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as it does not impact the safety or security of facilities and that these are maintained to high standards and suitably qualified persons are employed within and managing these facilities then agreed. Should be monitored to ensure the facilities are accessible to all and facilities do not become excessively costly to use.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree with this approach, why should non-essential leisure be subsidised.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This seems fair in principle, are buildings council owned if so i would still like to see preferential rates offered to West Lothian Leisure as active lives mean healthier lives.;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree although I suggest keeping any subsidies to children's activities..	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	no concerns, though thought should be given to the families who use Excite, will have low incomes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If people wish to attend leisure facilities then they really need to pay for it. However we must remember the more vulnerable people who are unable to use facilities due to the cost.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	let WLL close the facilities that don't pay for themselves. They can't be kept open for a small number of people at the expense of services for the many	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree, but all pupils must be taught to swim which should be funded by the council.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sounds long overdue	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	All funding to West Lothian Leisure should be withdrawn.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No reason they can't be self funded	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agreed, businesses must learn to pay their way.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree this should be self funding	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I am happy if I have to pay extra for use of leisure services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure needs to offer more services to users and look at the changing need and demand and must stand alone as a separate business.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Definitely needed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sensible proposal as long as any increase in participation fees are not above inflation	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agreed. If West Lothian Leisure can't operate without council subsidies then they need to start closing premises. There is plenty of private sector sports and leisure facilities available as an alternative.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yes and no, what about the learn to swim and kids coaching, how would this work if the council just remove the funding, can these facilities stay open, we can find alternative pools but can all parents? There's other gyms around West Lothian so I expect people just move to them, I doubt many Xcite venues would survive	1. The respondent advised that they agree with the proposal.	West Lothian Leisure would be required to determine a sustainable business model.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sadly, I think many people will already be cancelling their memberships for West Lothian Leisure. If you have a choice between heating and eating, things like this are the first to go. It's such a shame but given the savings you have to make I would say yes to this proposal.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	While I enjoy these facilities, I completely agree that they could review the business model on these facilities. Some of the facilities are great, there are more and more PT trainer and gyms opening all the time some of which are more expensive to use than West Lothian Leisure. More professionally trained staff rather than, hourly paid staff, who don't have any incentive to help people.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian leisure should be run as a business. It's ridiculous that a facilities of that kind are not generating income effectively.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	A full review of the available leisure facilities, venue to venue P&L against operating costs should be reviewed to allow a detailed understanding of the model. As a regular user of west lothian leisure facilities I don't believe the facilities are managed in line with customer uptake. I am in favour of west lothian leisure being largely self funded, but the operational decisions don't seem to align with the requirements of the users, particularly children.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Swimming is a basic life skill for all and I would be concerned without the council's support centres would struggle to maintain current opening hours. I would rather pay a little more for swimming than lose these facilities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Think WLL should not continue to be part of the service delivery.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would hate to see xcite fold, so really good it is a sustainable model. Surely with the new membership fees etc it must help pay for itself.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It's already hugely expensive and out-of-reach for many of the people who would benefit from it. So what difference does it make? So-called community high schools where poorer pupils are unable to use the facilities (their facilities) because they are rented out to private clubs every night.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I completely agree, the business needs to stand on its own feet.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as it improves core services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a priority however we are in a mess and if savings are needed, then so be it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would just like to comment that I don't envy the Council having to make these cuts and they will not be popular. It would be worse if Scotland was Independent!!! I cannot believe the state of the country just now under Scottish Government. If they would concentrate on the day job!!! I am very depressed with this consultation. If cuts are needed then so be it. IO know WLC are looking aheads but what a mess!!!!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Making it much more difficult for so many to access these services, if that is the intention then ok.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure seems to have been able to make significant investment in the provision of facilities, making them highly desirable by comparison to other local authorities, which is a good thing. However, the cost to the customer for these services does seem very competitive and there is perhaps opportunity to pass more of this cost on to the customer. However, what we must do is ensure that those people who may otherwise not access these services do have some means of support to enable them to continue to access them at a reasonable price point (perhaps means tested membership of some order)... that doctors can continue to prescribe wellbeing services and that individuals can continue to run their business cost effectively from these leisure premises. Any new model must still be over seen by the authority to ensure the quality of service provided is still of a high standard and that it is inclusive.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	In my view, there is substantial overprovision of leisure facilities particularly swimming pools and community facilities in West Lothian. Given the level of savings required and other statutory priorities the council must provide, this will be an important areas to work closely with West Lothian Leisure to rationalise leisure facilities in West Lothian while still providing a good level of service provision from a reduced number of quality facilities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	ok - maybe close some of the venues that aren't used. Councilors need to allow WLL to make their decisions and not interfere to save themselves a few votes. It's time to look at usage figures and make sensible decisions on what is required. Clearly not all venues should remain open	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as services aren't affected, this could be a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agreed. Persons who are not on welfare benefits have always had to pay for this anyway, this makes things fairer	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a fair proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Well it will sink or swim	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree with this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I support this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Happy with that	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	excellent idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLL should be self-funded	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Again, as long as users aren't penalised, this could be a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Fair enough	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This seems a reasonable suggestion	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Supported	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree with this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	ok, agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Good	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would agree with this fully	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yes agreed	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Seems sensible	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yes do it.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree, West Lothian Leisure should be self-sufficient	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Makes sense	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Happy with this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This saving will make a big difference to the budget already agreed upon.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as services aren't affected, this could be a good thing.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sounds like it could be okay.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Great way forward	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sounds like a reasonable approach.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Good idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian xcite should be self sufficient. leisure activites are important for the mental and physical health of our community however this cannot be subsidised by the council. ; ; However, there is an exception to the rule where the council should support specific groups to use the xcite services/facilities for example children in care to access what their peers would do with their families etc.; ; Where a group requires it to improve physical or mental health (people with disabilities and mental health issues) this is something NHS should support.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Only if no cut in services provided	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree - reduce their funding and let them compete with the private sector which offers a much better service	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This reduction is a correct step.; I assume WLL pays a commercial rent for facilities under their control. How much?; Will the council continue to fund WLL capital projects - new sports centres. How do such projects impact on council funds. What then is the net benefit to the tax payer. Is it £750k?; Swimming pools - how many do we have? Four?; Given the energy costs what now is the cost per user of a swimming pool. Must be over £10 a visit?; Do we really have to subsidise getting wet to that extent.; It would be cheaper to run a minibus to the 1/2 that should remain. Or fund use of private pools; Has anyone in the council got the costs for a child to take up competitive swimming. It is seriously prohibitive. Club membership governing body affiliation weekly fees.; Long been the case swimming pools and ice rinks cant make money	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This sounds reasonable	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Hopefully West Lothian Leisure can sustain this as it would be a massive loss to all areas of the community	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think the leisure clubs could charge more for their services in order to become more self funded.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Seems reasonable although it suggests that the customers will be expected to pay more to cover the funding gap.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This makes sense. There are many gyms in West Lothian that cover a range of budgets. There is little need for a council funded one that still has a membership fee.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Make sure they are a stand alone organisation and don't use council funds for a fallback	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The service offered by West Lothian Leisure needs improving or cut from public funding.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Far too many facilities- especially swimming pools. These need to be rationalised. There are two pools in each of our major towns. Running costs must be astronomical.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree that West Lothian Leisure should be self-sufficient. Communities have the choice either to utilise the WLL facilities or alternative private sector provision.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yes I would agree that this would be of benefit.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yes	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yes!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Ok	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree to this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	agreed though assist them to oversee as these services will be essential.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	i think that leisure facility such as excite is a total waste of council resources cost in janitorial cleaning school electricity etc this would be well spent more in school resources	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree that west Lothian leisure should become largely self funded.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Think Lothian Leisure should be self efficient and be responsible for their own incomeBrin	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	i think they should withdraw this service	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	the council should let the leisure become self sufficient	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	withdraw	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as they had continued access to reviewing their business model to assist with being self sufficient to help people have a healthy well being	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Withdraw	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	if the financial support is removed so should the engagement from council. the council should have no input in the business model, it will then be completely self funded and council should have no say.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Could be worse, I guess.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree - West Lothian Leisure is well used by locals of all ages and provides great physical and mental health benefits to the local population.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure is a separate entity and should not receive fund to support it from West Lothian Council as it was split from WLC for a reason	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Presume this means prices will increase at WLL but I guess if you have to make savings, this is OK	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would be the first thing to happen. This service is not available for all so should not be council funded. There used to be free swimming for kids etc but this was all taken away, if there is no benefit then all funding should be removed and it should be privatised	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Absolutely great idea	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Assuming this includes sports facilities like swimming pools (e.g. Xcite). Given that overweight is already a large problem, people will reduce spent on this first when they need to save money. Reducing funding here may aggravate that and could result in an even worse health situation.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure has the facilities to become a stand-alone entity and this is something which should be explored by the Council. I feel the saving identified could be better used to meet core Council priorities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this is a tough call but	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree although we have fabulous sports facilities in the area and I'd want to protect the levels we have	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Why is this not a separate entity managed as such. It's certainly not cheap to use	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I understand the service could become self funded. This will be understood I expect by those members of the public that can afford to pay for their leisure activities. They might already engage with other privately run sport and leisure clubs. ;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree. Unfortunately, these are not essential services.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure charges commercial rates for gym memberships, etc. If they cannot function at a zero cost (or even providing a profit to the council) then the service should close as uneconomical.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Another big save, we need to use or lose	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	close venues that aren't used well	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The figure indicated as being saved seems relatively small in comparison to the service turnover and although it is regrettable that we continue to move in a politically rightward direction, it seems acceptable. At the same time, obesity and all tat comes with it is a major issue in Scotland and this looks likely to reduce the exercise people take. So any saving may well end up at the door of the NHS.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree that we have to re prioritise the funding away from leisure which might mean reducing the number of swimming pools but think we should try to keep at least one decent swimming pool (not leisure pool) in each area even if we have to charge to go there	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a private company earning money from patrons so funding should be cut as people can pay if they want to this is not an essential.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree with a reduction in core funding for WLL but would like to see other council services working much more closely with the leisure providers. There doesn't seem to be a need for all of the facilities to be maintained and I think that time would be well spent reviewing these and working to make those most beneficial to the communities of West Lothian as good as they can be. Reduce the portfolio and do what they do really well rather than trying to patch up certain facilities that are no longer fit for purpose. There needs to be a clearer direction from the council in what they want WLL to provide with better links to the LOIP and Public Health Scotland Outcomes. At present with it being an ALEO it does seem to operate in somewhat of a silo, that's not to say there aren't excellent examples of partnership working but it doesn't seem to be wholesale. They could limit the number of facilities and earmark certain ones for specific things for example have a place specifically just for those who want to use a gym and do fitness classes, have a place that is more geared around wellness, health and well-being, have certain spaces for children's classes or community development sites.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Support. But the proposal does not specify what this would mean for service delivery. Are they closing swimming pools?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If you can support WLL to become self-funded without the need to increase their costs too drastically will be a winning solution - good luck !	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sounds fair	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as they are capable of doing this. Leisure activities are key to mental health stability	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There is no reason that WLC should be funding West Lothian leisure	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian leisure should be self funded, the fact that they have closed down the community high school; Pools & gyms to the public is a farce, the only decent pools to take a child to actually swim are either constantly closed for galas or filthy. ; ;	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It should be self funded. Lots of other gyms in the area manage to operate. Why should they be any different. Excite are more expensive than some.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If West Lothian Leisure is self-sufficient, see no issues with reducing funding from WLC. Would this have an impact on the services offered by WLL?	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree - unfortunately this is a nice to have and not a statutory service. If enough people cared enough about the services then they would use them enough to make it pay. WLL needs to become more commercially aware and operate accordingly without subsidy from the council.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Makes sense if no funding can't keep delivering things	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would hope that funding would be reduced incrementally to ensure West Lothian Leisure remains a viable business as it provides an important service to support health and well-being in local communities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This means privatising Excite, I assume? Seems reasonable to me!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLC should withdraw financial support to EXCITE.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I don't like this but it is probably a sensible suggestion given the circumstances	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If it can be self funded i think this is a fair proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Wll should be able to generate its own income, it's a shame Lowport is already closed so I would only support this if you can guarantee no more cuts to sports and leisure facilities in west Lothian, there are not enough good choices for our young people or adequate facilities for older generation to keep fit etc	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Ok as long as they can stand alone as important service for the communities they are in	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This should be done because not all the residents use these services and therefore they should not have to pay for something that they dont use	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	what does the money that goes to WLL provide.; gyms are a luxury and not essential; this could be a good idea; i dont have money for this so it doesnt really bother me	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Should already have been.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Should be self funded.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as it doesn't impact WLL opening and closing times and number of venues.	1. The respondent advised that they agree with the proposal.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Hoping the facilities don't suffer as they are excellent at the moment, although Livingston swimming pool could be cleaner	1. The respondent advised that they agree with the proposal.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Good idea . Some time people taking benefit in the name of Student concision/ lower income . Need to review on regular basis other wise some people will take this benefit though they are not entitled after some period .	1. The respondent advised that they agree with the proposal.	Thank you for your response.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think as long as it does not affect people's support and mental well-being, depending on what the service provides .	1. The respondent advised that they agree with the proposal.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Fully agree with West Lothian Leisure moving to a largely self funding model going forward.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Already too expensive and a service I ceased using when my child turned 5 and it became over £10 to go for a swim in a basic pool.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would support this, so long as WLL can continue to operate - it makes such a valuable contribution to the health and wellbeing of WL communities and individuals.	1. The respondent advised that they agree with the proposal.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I am a regular user of Xcite facilities and would be happy for these to become self supporting with the exception of kids swimming lessons which need to continue to be subsidised.	1. The respondent advised that they agree with the proposal.	Thank you for your response. Funding for curricular swimming will be retained.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	In tough times this seems like an appropriate change to make	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree and West Lothian leisure should review its core business and competitors	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Probably necessary given the financial constraints.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLL must survive as a commercial organisation, or fail. Taxpayers money should not prop it us. Commercial alternatives exist,	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No funding!!!	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure should be self funded with only core services receiving financial support for things like children's classes for fitness, swimming and for services for OAP's as long as this doesnt affect costs to end users. kids should be able to try a range of activities without it costing the earth. many families couldn't afford such enjoyment for their kids if the subsidy is taken away.	1. The respondent advised that they agree with the proposal.	Thank you for your response. Funding for curricular swimming will be retained, and opportunities to participate in sport at school will remain.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	this should have been a separate entity from day one	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure facilities are important however greater need for social care education etc.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will not make a huge difference to WLL as they are obviously mainly self-funding. I'm sure £750,000 is a very small part of their budget. I do assume that they will be handed the deeds to their buildings in order for them to manage their fabric and infrastructure efficiently.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree this is a commercial enterprise so shouldn't be supported financially by the Council.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Presumably xcite facilities would have to consolidate or offer reduced services or increased prices. If it goes to the open market I guess any gym chain could take on their premissis if they have better scale economies. Seems reasonable, but we need swimming pools up stay open one way or the other	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As a keen user of the gym facility this would affect me personally- However this seems like a very good idea -	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree that West Lothian Leisure should become largely self funded,	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I agree with this proposal, WLC has given significant funding to WLL over the last 5 years, and as a charity they should be looking to maximise their funding through other avenues.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Supportive of the proposals. WL leisure also need to look at how they operate to make them more customer focused, a reduction on their funding may make them do this. Hard to get access to leisure when you work, no early gym / swimming sessions. No kids' classes other than swimming at locations other than Bathgate / Linlithgow. ; ; Organisation needs to consider a family membership options aswell. This will increase revenue.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as this does not cause West Lothian Leisure to increase membership/pay as you go prices.	1. The respondent advised that they agree with the proposal.	Thank you for your response. West Lothian Leisure will consider options in light of the agreed budget measure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sad but understandable.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Supportive of this	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure is something we should be able to live without and try to be creative our own selves. IMHO no need for a leisure in a bad time.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I do not approve of the removal of funding if it results in higher fees to use the facilities.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Reasonable approach - if it is workable and WLL have the support needed to make it work.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Yes this should happen. West Lothian Leisure do not really support the priorities of West Lothian Council, they do not work in partnership with us effectively. During our recent summer hubs which were funded by Scottish Government to provide opportunities to our most deprived young people, WL Leisure did not give us access to facilities because they were using themselves and charging people a fortune for this.	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This sounds good - will likely be better	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree with proposal	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Definitely Agree	1. The respondent advised that they agree with the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Happy for them to be self sufficient provided this does not come back to the council in a future year and overall more would need to be paid.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This seems sensible if those who can afford to pay are required to do so. However provision should still be available for those, and in particular those children, who cannot	1. The respondent advised that they agree with the proposal.	Thank you for your response. Funding for curricular swimming will be retained.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a concern as staffing levels are at a minimum already is some establishments. I agree West Lothian Leisure should be self-funded , if it can be done in a financially viable manner.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I do not use the leisure services, but do not feel that the councils should subsidise those. ; ; In the Winchburgh article on sport and wellbeing, is there a dedicated wall for the 25 metres by the 25-metre swimming pool.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure is not running efficiently, so I would support any measures or reviews that will make the service work better for customers.	1. The respondent advised that they agree with the proposal.	Thank you for your comment.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We have all just come out of a pandemic which killed many people whose health may not have been the best. We should be investing in health and well-being to protect the NHS and make sure everyone has the opportunity, support and guidance to look after themselves in Scotland. We are a nation of unhealthy and overweight individuals unfortunately. I am a paying member of WLL and would not like to see any of the great services they deliver cut as I think this would be the case if funding is withdrawn? This would then put more pressure on the NHS surely, with a very negative impact to the community as a whole. Please be very careful with decisions around people's mental and physical health!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure is a credit to the area. Fantastic facilities and plenty of opportunities for children to get involved in sport. The short term saving of £750,000 would be unwise if it results in more costs further down the line. E.g. more extensive repairs to buildings which could have been avoided if maintenance had been upkept or disengagement by the population in sport leading to increased health inequalities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We should be continuing to invest in our leisure facilities across the council area so that all have access to health and fitness.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Concern leisure facilities will become too expensive for people to access at a time of cost of living stresses being detrimental to mental health,	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Having no investment in WLL would risk the provision of this vital community service - for it to become completely self funding may end up excluding many of the community that need this service most	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I understand why but in pursuit of overall health this is concerning as provision for exercise as part of life is important.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Keep the funding with West Lothian leisure. Remove it and costs for families will spiral and less people being able to access.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this endanger an equitable provision for all thus risking short term gain for long term pain!? Shouldn't the health and wellbeing of our community come first?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Self-funding, I think West Lothian leisure will end up becoming a thing of the past, where only the affluent people will afford swimming and gym membership. With cuts in service, I wonder what my council tax actually funds.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this will lead to a reduction of the facilities available to the public.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Unlikely that this one will be followed through on politically.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	end of leisure facilities for all - only those who can afford private gyms with pools will be able to use	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It's a saving but all it will do is mean increases for the public to pay to be a member etc and given where we are with cost of living etc - people will simply not be able to afford it and have to look for a cheaper place to go and there would be the chance that west lothian leisure could end up out of business too	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It is essential that opportunities for physical activity remain available in all parts of West Lothian	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will impact the poorest people and surely cause impact on health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not a good decision.... Obesity on increase... there should be free physical activity in evenings through centres youth clubs they charge 1.00 to access sport as a family we can afford paying 1.00 fee to youth club thanks to youth services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If this means those using facilities would have to pay more then in real terms this would see loss of services within communities and the wider knock on effect of that.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This could be detrimental to the wider community with the projects run from West Lothian Leisure and having to balance the books without the required funding from West Lothian Council to run such aspects. Failure to fund appropriately could see a reduction in services provided, as well as closures of some sites.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would inevitably lead to increase costs for the public and would in turn prevent many people accessing the leisure facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is definitely going to impact on activities offered, and will affect peoples health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Think this is not a good saving - people need places to stay fit and its good for mental health/general well being - takes pressure off other resources so cutting funding here is not good in my opinion.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this would be a mistake, west lothian leisure could be expanded to help generate more revenue for the council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There has already been a loss of leisure centres, e.g. Lowport outdoor education centre. Given the obesity crisis, and the strain this puts in other publicly funded institutions such as the NHS, it's important to provide services to support people to be physically active. If WL Leisure centres would be at risk due to these cuts I'd be against it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What would the impact of this be? If West Lothian leisure is not already self funded to the tune of £750,000 this seems unlikely that this could be met from increased memberships, so what other options would be available? Closing buildings? Yes there are other gyms and fitness organisations available in some parts of West Lothian but not all communities! It seems very sad if the council is going to stop supporting the health and well-being of its residents and place West Lothian Leisure at even more risk and competition from private profit making companies. We do not agree with this measure.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We need to continue to support leisure and well being to tackle obesity and poor health otherwise we will add to the current NHS crisis through poor health	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a huge loss to the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No. This will lead to much higher costs for using leisure facilities, and costs are already high enough in my opinion. Please remove this idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	In a country where we've struggled for decades with increasing obesity and other physical heath issues related to lack of exercise; the answer to that is cutting funding aimed at promoting healthier lives through increasing physical activities? Really?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is such an important service for people across all areas of the community and I think funding should be maintained	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will likely see the deterioration of some sites and eventual closure. WLC have always been strong in providing Leisure Facilities, tying it into NHS funded fitness may support some centres.this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I guess that's WL Leisure closing down then.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	More cuts, so much for trying to create a healthier population.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure facilities at affordable prices are essential for physical and mental health. It cannot be available to those with the most money and disposable wealth	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Many users are likely to reduce their spend on leisure due to the cost of living crisis. If cutting council funding means WLL need to increase prices this will reduce access to the facilities for those on tight budgets. It may also lead to increased costs for other council services if e.g. young people stop going to the gym and sports clubs and as a result turn to vandalism or other negative activities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would this put up prices for members as they could not afford them in this climate.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	By becoming self funded - charges will increase which will impact people using their facilities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean that sports facilities would no longer be supported by the council. Again all it seems to be is service after service being reduced	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	So the low income families will access health and fitness facilities how exactly? How will our children learn to swim? Stupid idea.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will simply result in residents of West lothian less able to participate in physical activity and exercise and shift thr burden to thr already overstretched NHS. This may even have a direct impact on staff productivity within thr Council if they have less opportunity to exercise.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will lead to closures of some facilities and negative impacts on health of the communities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The council has already dropped support for the arts (including drama and dance). Dropping funding for sport as well will massively impact lower income families as inevitably prices will need to go up to cover the difference. The council seems to hate poor people. Not acceptable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	That sounds like the closing of many leisure services will be inevitable	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Some services such as swimming could become too expensive, these are core life skills	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	as a regular use i don't want any services i use to be impacted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	no building closures or reduction in hours is acceptable to me. in this physical and health emergency these services shouldn't be impacted if it affects customers directly	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This does not sound like a good option for peoples mental health never mind physical	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Watch all WLC sports facilities close!!! This is a dreadful idea!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I'm surprised to hear funding would be removed to WLL, I am an active user of the facilities and I love it. I find the fact that subsidies are present, costs are cheaper in some venues which is really appropriate and necessary for opening up physical activity to people in areas of multiple deprivation, what is the plan going forwards for this?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	In the context of early intervention and prevention West Lothian Leisure provides and essential service in supporting the wellbeing of West Lothian residents in general and also specific priority groups (e.g. mental health/emotional wellbeing, older people, those with long term conditions, those living in poverty). If council investment is removed it will be these target groups which will inevitably be most adversely affected and other services (such as health or social care) will see a rsie in demand of which cost are inevitably higher. It would therefor make sense for this investment to remain or elements of this investment to be more clearly share with public sector partners (NHS and IJB).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Strongly disagree! West Lothian Leisure is massively needed in terms of health and improving both fitness and mental health which are both issues West Lothian currently has a large amount of residents needing support with. Things such as gyms need to have reduced prices but still be there. Without council help or funding places will not survive as buisnesses alone	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure facilities should be available for everyone, especially the people on the lowest incomes. These people may not have any other opportunities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Inevitably, this will mean it will be more costly for residents in West Lothian to use leisure facilities! It is also probable that there will be fewer leisure facilities. Have the wider public health implications of this proposal been considered?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not surprised to see this. Leisure centres with pools will close and the council are in a position to say it is not their fault. Learning to swim is a life skill and the council allowing the potential for this to be taken away is very short sighted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The services West Lothian leisure provide are extremely beneficial for mental health. If costs increase many service users may suffer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure should not be removed from core funding. It is an aspect of health and wellbeing that is important for children and employees.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	And here we have it - total disregard for health and well-being!! Sidestep services under WLL then pull the funding and it's gone. A disgrace.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Xcite is extremely important and a hub to communities. Funding should remain but xcite should.amd could.make.their own efficiencies	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Horrendous, this will result in communities losing such resources.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Scotland has one of the worst morbidity and early mortality rates amongst the develop nations. Scotland also has the highest heart disease in Europe. Reducing funding for sports is like removing the hull of a boat to make it float better.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Terrible decision particularly where Scotland wants to increase mental well-being	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure is a service which supports mental health. Cutting funding will increase mental health issues in West Lothian.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Disaster for health and well-being of the community. Not defensible at all. Of course, since taking funding away, no need for vacuous aligning jargon.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure services in West Lothian will ultimately decline with this change which is depressing and will have bigger effects on people in terms of bith physical and mental health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure provide great opportunities for our community. Services provide need to be protected as far as possible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	There should be no cuts to these services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removal of funding is likely to negatively impact West Lothian Leisure and those who use the facilities ultimately. Keeping our people fit and healthy improves physical and mental health and is a critical resource. Would not support this approach.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I feel this is a bad idea. West lothian leisure offers a more affordable option for many families especially around children's activities such as learn to swim	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will lead to centres closing in the most deprived areas.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The labour-Tory council coalition has some serious questions to answer if this goes ahead.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian must not go the way of other councils where the community lacks access to high quality leisure facilities. This is vital for improved health and well being to help reduce the strain on the NHS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	You should be committed to the health of your residents. This is a despicable idea that will lead to closures of leisure facilities to the detriment of the physical and mental health of West Lothian residents.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean West Lothian Leisure would have to close some of their buildings? Disagree if that's the case as the health and well-being of residents is vital and these facilities offer by far the best selection of classes around. Outside of Livingston communities might be left with no leisure facilities. Livingston on the other hand is swamped with private facilities but none that offer the variety of what West Lothian Leisure do. Disagree.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This feels short sighted as this will lead to increased costs in terms of the gym membership etc so people more likely to become ill and thus need extra care as they get older.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will result in closures and a loss of services to communities that need them.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	More money should go into leisure facilities as kids needs things to occupy themselves and keep active.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would say the provision of leisure facilities should be a priority. This seems a relatively small saving, but could lead surely to closures and lack of facilities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This sounds like our social fabric is being stripped away. Same council tax, less and less social services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would be a shame for the local community - especially young people whose family's will not be able to afford the membership if it becomes fully private.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not a good idea, people need these services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not a good idea, people need these services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	very important to keep	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No. Leisure centres provide cheap access to improve health and fitness, this is very important given the levels of obesity and other health issues in our community. Better health means less drain on the health service and is a net gain even just in money terms, this is very short sighted.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Once again, this will no doubt have the biggest effect on poorer households, increasing the poverty gap. If it becomes self funded it means prices will be higher and many families will not be able to access facilities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure is a critical service and resource, offering direct health and social benefits for all ages. I do not support putting its financial security at risk. £750,000 seems a small investment from the council, considering the scale of the benefits it brings to residents.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this funding needs to be kept in place.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The specialist and providers of health and wellbeing opportunities should be fully supported by WLC, as it will be totally counterproductive and short sighted to cut funding that will only increase both mental health and obesity levels and put more strain on local NHS services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I am a long-term user of West Lothian Leisure and have a disability. I have found the service extremely important in maintaining my mental wellbeing and couldn't imagine the loss of this vital service. I therefore feel that the council needs to continue to fund West Lothian leisure to ensure that it doesn't close for the many people who make use of the many facilities that are on offer for all ages.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure have some of the best facilities in the area and are all very affordable. Reducing funding will squeeze members with higher membership fees -- it's a balancing act. I think these facilities are vital to people of all ages and wouldn't want the quality, service or affordability of the services to be impacted	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will reduce opportunity for less wealthy families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Core funds for leisure services should continue to be in place.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will lead to higher costs for customers ultimately and would not align with some of the council's core values. It will create other problems in the long run, through reduced physical activity	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will negatively impact the service they provide and have a negative impact on people's health and life expectancy	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Absolutely disgusting stopping funding to the leisure industry the council are rehousing West Lothian but by bit and for somewhere that was considered the new town it's becoming derelict with nothing for anyone to do in the town	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This seems like a one-way journey to closure. Given rising obesity levels in children, shouldn't the council be investing in leisure services, not withdrawing from them?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will have a massive impact on the wellbeing and mental health of the people who use West Lothian Leisure facilities. It will take away their independence and those who can't afford self funding may suffer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLL cannot afford to do this and many, many families and individuals would suffer. There is every chance we could lose WLL as a business should this happen and people require it for their MENTAL and PHYSICAL health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Do not support this as I believe this will see the demise of many of West Lothian's leisure facilities. This area needs more funding, not less. These facilities are vital for our children and young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I feel West Lothian Leisure is an asset to the local area and would hate to see this disappear due to funding cuts.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would be concerning to me given it would potentially mean an increase in prices to access leisure facilities at a time when everyone is being totally stretched financially. This could limit middle income families in being able to afford to use keep fit facilities and this would impact on peoples physical and mental health. This could be a big loss to many people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would not support this measure, as this would lead to higher pricing of the West Lothian Leisure and thus prevent access to alot of families who use these facilities on a regular basis. Both my children's excellent memberships provide them with a wide range of activities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This could impact on mental health issues, and parents ability to cope?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No changes are required	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would not support this. Leisure facilities are vital for areas in West Lothian, particularly the more deprived.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As fitness and wellbeing is becoming more important this would be counterproductive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	For the sum of £750k this should be re-thought.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will inevitably lead to the closure of leisure facilities in the area. They provide an important service in our towns for locals to meet and participate in healthy choices trough sport and recreation.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Stripping funding during a cost of living crisis from leisure facilities will result in thousands not being able to enjoy any leisure as the costs of a self funded model would need to be passed onto users. How does this align to social and health benefits the council is stated to aim to provide?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Many people adults and children alike would suffer if this was to happen.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this is a poor choice to save £750K	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Do not agree. The health and wellbeing provided by West Lothian Leisure, if vital and needs to remain.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would have a horrendous effect on health and well-being, especially in children and senior citizens.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is, I believe, a dangerous way forward. Access to leisure facilities is a key factor in maintaining or indeed improving the health and wellbeing of the local community. Denying access, through higher costs, is not conducive to promoting wellbeing. These are, I acknowledge, tough financial times, not only for the council, but for families whose disposable income is being squeezed in so many other ways.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Council should give money for things like this	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Better to keep giving them money	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Concerned that this will also greatly impact the community and opportunities available to young people if clubs/organisations are priced out of using the facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Physical activity plays a core part in boosting health quality and subsequently reducing the burden on health and social care services. Evidence indicates that preventative measures like east affordable access to health and fitness improves population health quality and reduce costs overall. This is a poorly thought out proposal.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This has been tried before and will result in a loss of will sites. While it's not the council's job to shore up the company I would not like to see these services reduced any further. Opening times of pools are currently dreadful for public swimming	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Do not agree at all this is the life blood of our community and how we all keep health reducing social and health care no cut should be made on funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removing this funding will reduce access for vital health and well-being services for low incomes. Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	funding is important for West Lothian Leisure - I am unable to see how places like Xcite can stay open without the necessary funding	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sport and exercise are core to healthy living. Removing funding to WL Leisure will inevitably mean increased code to the user, which will affect those of lower incomes the most, many of whom have the poorest health outcomes already.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This should be reconsidered otherwise prices go up for "private" gyms etc and so fewer people can afford it. Better to increase income by having lots of people paying a small amount and support from WLC is the way to support it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I understand the Council has to save money somewhere but West Lothian Leisure is not all about gyms and exercise, patients from hospital are referred as part of their progression in rehabilitation after physio. I feel West Lothian Leisure would still have to have some funding from the Council to continue doing what they do.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	vital, keep it	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Think this will have a detrimental effect on the health and well-being of a large portion of West Lothian population WL leisure currently offers good value for money because it is subsidised through the council.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	More people would suffer if this went ahead. don't agree.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this would be a bad idea and WLL should still be part funded by aWLC as this benefits the health and well-being of children and young people	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	So cut funding to a facility that provides so much in terms of peoples health and well being? What a shambles you lot are.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian Leisure would be required to determine a sustainable business model.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	£750,000 saving for this CORE community facility. WL doesn't have an abundance of fitness and leisure opportunities like many regions across the UK. To cut back is lunacy- surely I don't need to highlight the long term health impact and associated costs. The swimming pools have already reduced hours for clubs since covid. Whomever suggested this in our 'agile thinking' council needs to seriously reconsider.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I hope this doesn't make WLL unsustainable - leisure services are key if we want to tackle an increasing mental and physical health crisis	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	West Lothian Leisure would be required to determine a sustainable business model.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This of course will have a negative impact and with the cost of living crisis there is a real risk that the service has to withdraw some of the opportunities which allow people to maintain a positive mental health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Given the importance of both physical and mental fitness especially post COVID it would seem ridiculous to cut funding in this area.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian leisure should continue to be supported it is a vital part of our community and should remain accessible and affordable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Do not support as leisure facilities already cut and vital part of communities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure is brilliant and continues to be so after Covid. Not a good idea to remove funding. Look what happened to Low Port Centre in Linlithgow.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think given the relatively small saving- compared to other things - this would be really sad, if it means WLL would fold or seriously raise prices - it is the only way many families in wl can afford swimming lessons etc	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Reduction in assistance will no doubt lead to higher prices again. Affecting the poorest in our communities and disadvantaging these groups in their health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Again hit the poorest the most.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It would be really sad to hear that this facility will be removed, as I'm sure the community of West Lothian would still want the council to continue to fund this facility.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure activities should be funded and made affordable for all families and swimming should be free as it provides a vital skill.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would be missed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Reduced price swimming for under 5s must not be affected	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Unacceptable!!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Ridiculous.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Unfair	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is ridiculous. West Lothian council need to continue to support sport and leisure and encourage all communities to support their local services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will impact across all communities better to have more members than fewer so to expect these to be self sufficient ignores the wider part these play in our communities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Disappointing to read this as this is a life line for peoples mental and physical health. Doctors recognise this by the number of referrals made. This will cause price increases and potentially venues to close.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I do not support this. Active living is essential for the health of West Lothian citizens.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removing funding from a vital community service would potentially put the business in danger. Many rely on this service to support their mental and physical health and wellbeing and without could have consequences.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removing funding to keep the population healthy is shocking.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will have a negative effect on people's mental health and we'll being. Vulnerable people with already reduced income will not be able to pay "private" prices for swimming, keep fit, etc which will not help their physical or mental health. Elderly people will suffer from this lack of funding too as many will not have the income to pay full price to enjoy the facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Lesiure offers a range of fantastic opportunities for the young people of West lothian. Any cuts to the support from WLC will have a negative impact on this at a time when Health and Wellbeing is at the forefront of policies.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Very short sighted. It'll end up costing more to correct health problems when the leisure centres close or people can't afford the increased fees .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Disgusting. Another service privatised.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	You will just end up having to pay for the results of this further down the line. It's not cost effective. Look at the bigger picture!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It was previously documented West Lothian Leisure received the smallest amount of funding as part of the management fee out of all the leisure providers in Scotland so I fail to see how West Lothian Council propose to reduce the small contribution that is already inadequate to protect these services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WEST LOTHIAN LEISURE IS FOR THE COMMUNITY YOU SHOULD CONTINUE THE SUPPORT. THE MONEY WOULD BE WASTED ELSEWHERE ANYWAY.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Westlothian leisure could not do without the help of the council so please keep supporting them. so please keep supporting this company they give a great service to the customers.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Places that encourage people to get/keep fit should not be part of the councils savings plan	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a key for the community to have affordable sport and leisure activities to the community of west lothian and also encouraging more people to be active and enjoy sport and fitness acitivites.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removal of this funding would put the Charity in a precarious position. They support certain elements and arms of the council through previous (and new agreements) but have to keep costs low to service community clubs etc. Without the council support these prices would rise to align closer with neighbouring counties and bring costs closer to the Sport Scotland average. The knock-on effect would see Community Clubs and similar folding as they can no longer afford let prices and would reduce the number of people in the community carrying out regular exercise and developing social relationships. The current management fee is already the lowest in Scotland.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would be concerned that this will damage the opportunities for the most vulnerable in society to access sport and leisure. Real investment is needed in these services e.g. often swimming lessons are massively over subscribed but more classes aren't put on so children in particular miss out. I would worry that WLL withdrawal from WLL would see them tightening their belts and there would be less opportunities for sport and leisure for young people.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removing funding for WWL will negatively impact communities throughout West Lothian. Providing safe, clean facilities, where members of the community of all ages, level of fitness and medical/disabled status are welcomed and supported on their fitness journey is essential. Given the global pandemic and the fact that poor health was a contributing factor to mortality rates, WLL should be kept at the forefront of helping people maintain and increase fitness. Removing funding would devastate the citizens of West Lothians mental and physical wellbeing. WLL is also a large employer and this would no doubt impact jobs as well. I am vehemently against the proposal to remove funding from this essential service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Health and fitness is linked to poverty and impacts other services. There should be a mandatory provision to ensure that the most disadvantaged are still able to access the facilities with dignity.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No, current service is what is needed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLL should be the best place to live and work. Without quality health and fitness facilities, there is a detrimental and long-term impact on the community with knock effects on health over time. My question is whether WLL can stand alone without support in the current climate - there is not evidence that this is the case from this survey. If centres close as a result of this cut, then this will be a short-sighted proposal with long-term additional costs on the community. More detail required and not available.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Strongly disagree	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will be a terrible loss to communities who rely on low costs to make use of these facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Xcite is one of the most positive activities in West Lothian, any weakening of the service would be disappointing and negative for local well being.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The loss of West Lothian Leisure facilities would potentially have a huge impact of health & wellbeing across the county. The accessible service provide excellent sources of mental and physical wellbeing and provide sporting and socialisation opportunities for young people which may not be available elsewhere.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It would be a huge loss to the community to lose these services so support and engagement to ensure they can continue to provide this will be important.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a particular long term danger to the well-being and health of the local community and must be reconsidered. Removing this may have impacts in time on requirement for well-being support as well as health on the elderly.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	In my opinion WLC funding support for WLL is an important part of maintaining facilities which benefit health and wellbeing. I do not support removing this funding.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I do not agree with the removal of this support. Affordable health and fitness venues should be a key part of the council's service provision to the local communities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Reducing funding at a time when participating in leisure activities may be a luxury to most people may have a detrimental impact on the health of those living in WL. It may exclude members of the community from participating in activities ran by West Lothian Leisure.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No - Xcite is already clearly on its knees and offers so much to the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not everyone can afford the membership fees, especially on low income. Removing funding could lead to increase in health issues, e.g. obesity.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Assuming costs will then increase for customers, again impacting those who are expected to try and live on a low income amid a cost of living crisis	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This may be false economy if the leisure facilities become self funded and increase their prices it may stop people being able to afford leisure facilities -gym, swimming-and then the knock on effect of poor ill health if people are not exercising and looking after themselves	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	not really sure how this could be achieved without people being deprived of facilities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Council must ensure young people still have access to sports facilities. They cannot become unaffordable. Free leisure centres play a direct role in the fitness of an area / community	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If prices go up, how will it affect the leisure centre would it not be able to cope because people do not want to pay, will it shut down a lot of clubs that rely on its facilities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	My concern if this proposal goes ahead would be that opportunities for people to access sport and leisure facilities within West Lothian would be reduced. Over the past few years West Lothian Leisure has already received significant reduction to the Core Funding it receives from WLC which has already impacted in the service provision. There is no doubt that some of the proposed saving could be absorbed through further 'efficiencies' within WLL but ultimately the level of saving proposed could result in the closure of existing facilities. This previously happened when Low Port Outdoor Education Centre was closed following a reduction in the Core Funding received by WLL. The other alternative to offsetting the reduction to Core Funding would be to increase charges to customers but this in turn could become a barrier to people being able to access the services that WLL provide. At this moment in time people's health and wellbeing is more important than ever and where possible additional funding should be made available to the services that WLL provide. People who are healthier both mentally and physically will in turn put less strain on other services the Council provides and also on the NHS. People who already experience health inequalities often have a lower income and as their income is already being 'squeezed' by the cost-of-living crisis their ability to access sport and leisure facilities will no doubt be reduced by this proposed reduction in funding to West Lothian Leisure.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not in favour of this. Leisure facilities are massively important to communities and should be maintained.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Leisure provision is proven to be essential for the health and wellbeing of the population and to help with mental health.; Physical activity has been shown to relieve isolation and contribute to good development of life skills.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The removal of funding will no doubt cause the end of the free swimming sessions at Excite Leisure facilities. This would disadvantage children from lower socioeconomic backgrounds. Children need to have the opportunity to exercise and the benefits of exercise for mental health are well documented.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I know the council are struggling financially, but i do wonder if this would ultimately lead to increased costs on the NHS if people aren't getting the activity and exercise and socialisation they need. Same with children learning to swim. So I think this is false economy.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is another area where funded places help our most vulnerable to engage in the community and improve their wellbeing. A vital resource for staff too. Another area where investment and not cuts should be considered.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Surely funding west lothian leisure is crucial to allowing people to access services at a reasonable cost. Health and wellbeing should be seen as a priority for all and therefore all people should have access to leisure facilities. If funding is removed, less people would be in a position to access this and the general health of the local population may decline.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Worry it will be the people who use the services will get hit with the short fall.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The impact of people not being able to use the facilities could impact much more. The benefits that facilities provide are beneficial to people's health and wellbeing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would worry that West Lothian Leisure couldn't sustain itself and this would be a problem for those who use them. A lot of gyms and swimming pools are already closing due to energy crisis, so what will happen.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The provision of leisure in West Lothian is a great avenue for socialisation for many people. Reducing funding would likely result in prices rising for persons who use it. I disagree with these changes.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	At the end of the day the council has to make savings but it is not clear how easily WL Leisure can self fund and how this will affect their services. The referral for exercise scheme was already a pale shadow of its former self with very few outlets. As a proven method of improving both physical and mental health it would probably be counter-productive (in health costs to no longer offer this service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No, I don't agree with this. This would be an own goal in terms of health and wellness in West Lothian - these institutes cannot self fund yet so would close.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The people of West Lothian need to have access to affordable leisure facilities if they are to look after themselves and avoid putting strain on Council/NHS Services through poor mental/physical health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We cannot endanger our public gyms and swimming pools. These must be viewed as a priority as without them many families will have no access to leisure facilities and exercise at an affordable price.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	To pull funding from West Lothian Leisure is shocking, for many people in smaller towns and villages this is their only access to any form of exercise and in some cases human contact. Why not try getting people into these facilities to up the income coming in rather than pushing people away?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It's important not to let West Lothian Leisure fail, it's very important to the health and welfare of the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This reduction in core funding to West Lothian Leisure would lead to increase membership prices and possible restrictions of service, both of which are detrimental to the overall health of the community. This could lead to increased spending on mental health and well-being factors in other areas therefore just transferring the expenditure. Having already spent money on the imminent upgrading of the gym at Linlithgow and the brand new facility at Winchburgh, it would be a shame to see these facilities underused because of reduced hours or increased membership costs. Pensioners like us rely on the leisure centre for recreation and exercise at a reasonable cost, to prevent illness and permanent mobility problems so we aren't a burden on the social services. The savings made are minimal compared with other areas of considered cost cuts.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLL provide a key service in providing WLC residents with access to services that help maintain physical & mental health within the community. It would be a worry if this cut in funding impacted WLL and facilities in some areas had to close.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Concern this will lead to increased charges for leisure activities and that this would then impact on the poorer members of society and by default have potential health impact if people cannot access health related activities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Xcite centres are at the heart of many communities. It allows people to maintain a healthy lifestyle - both physical and mental. They support many other activities such as football, gymnastics, Enjoy a Ball. I'm aware already of a boys Scotland U16 player who's training began through a local club using Xcite facilities - any financial withdrawal could impact future potential.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Do not agree as these are valuable to communities and raised fees will result in affordable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	That will trigger increase in monthly charges. We need support ways to keep physical health because later that will affect our health and NHS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The leisure facilities are very important to towns in West Lothian. If these are no longer funded by WLC, there's a risk they are not able to provide a good service or even to stay open which would be detrimental to all (e.g. activities for children and adults, health and social impacts).	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	That is not the best option and should be reviewed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will be catastrophic for physical and mental health as cost will be prohibitive for many	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Don't agree, could result in facilities closing, particularly in less populated areas. Also, West Lothian leisure may have to put prices up which will exclude people from poorer families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I am concerned that this may result in less people using this service.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As a WLL customer the proposal to remove this funding makes me really worried for the future WLL provision as surely something this significant would make the current model (which I benefit from and use regularly) entirely unsustainable. I had previously understood there to be requirements (though perhaps this is merely expectation) for local authorities to provide (directly or otherwise) leisure facilities and activities?	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	re aligned services by denying them access to services months up to the run up, to have skewed data to tie in with your alignment isn't planning, its abandonment of duty and due care of the people they are meant to help	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Oh good. Make people more unhealthy so nhs service costs increase. Genius	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Don't like this idea. People's health must be a priority.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Only if you want an obese and depressed population.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No - the health benefits for west lothian residents in being active should not be compromised.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Given the impact of lockdown in 2020 on peoples mental and physical health this will no doubt lead to price rices to access West Lothian leisure facilities and make it more like a private gym and make it inaccessible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would be an unfortunate loss, especially for those who rely on WLL for socialising, fitness and mental well-being.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The council should encourage and maybe subsidise leisure activities in some cases. Since WLL is a 'monopoly' in WL, the council should govern its conduct and pricing even beyond this period.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will this lead to increased costs to users? For some families at a time when other costs are increasing this will lead to less people accessing these facilities. In some communities these may be vital	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The councils involvement in leisure services is vital and removing it would mean the chance of an increase in health inequalities	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Communities health would suffer with lack of facilities, leading to increased pressure on GP services, Mental Health services, Dementia services etc.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	So many cuts have already happened. At a point when people are starting to get out and about more and need the council's leisure services- they will be gone.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	So again it's the children who suffer as WLL will have no choice but to put prices up making it unaffordable for many. Putting all the other activities to one side, swimming is a life skill which should be accessible to all.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Could end up with a lot of leisure facilities closing	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would be detrimental to the provisions we currently have. At a time when mental and physical health are recognised as be hugely important to the wellbeing of everyone, this would have a negative impact for West Lothian citizens.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is so sad to learn-West Lothian leisure is accessible for all and wouldn't be if self funded. They'd need to charge a lot more for their facilities to cover their costs which must families couldn't afford.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian leisure plays an enormous role in the life of the community. It should not be underestimated the importance it plays. Health and well-being would be compromised if the facility was not available.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Such a shame that it has come to this. Leisure facilities abd their affordable accessibility to all are fundamental to the health and well-being of society.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Its the poorer of society that use these facilities and it seems a shame that swimming pools and soft plays, and recreational areas are taken away from those who use them most	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will negatively impact on those working for and using the service. Engage and support is severely unimpactful without financial backing too	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a bad decision again restricting opportunities in the Council area. The low level of savings doesnt justify this change.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Removing funding from leisure is not a positive at all. Well-being in the community is essential, especially children's activities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is one of West Lothian's priorities - Health and Wellbeing - please ensure it is supported - WLL is an excellent service and offering with scope to generate monies and promote H&WB simultaneously.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No don't agree everybody should be able to access leisure centres locally and be able to afford to! This could lead to some closures which would be a blow to staff and customers	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	False economy which may well be detrimental to individual's health and cause increased expenditure in NHS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Very necessary cost effective service for older people and those with support needs. Approach with caution. Social prescribing already saves NHS money	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this is a detrimental area to remove funding from. Doing so is very likely to push up membership prices, potentially pricing people out of improving their fitness and in turn, their health. This has implications beyond people not being able to attend the gym/fitness classes - it also has potential to, further down the line, put further strain on healthcare services and the health of individuals living in West Lothian. If anything, greater encouragement and facilitation of ways to be healthier should be encouraged rather than reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is perhaps a poor decision. Low and middle income families rely on the West Lothian Leisure facilities as the cost for Private Clubs/Gyms is Prohibitive. The nation needs to be encouraged to 'keep fit' which in turn removes some of the stress felt by the NHS.; Removing the financial support will affect a large proportion of the West Lothian residents. I don't support this move	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If West Lothian leisure can maintain competitive pricing then fine. However, WLL provides services that are critical to well being which has taken a severe hit as a result of Covid so these services need to remain accessible.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The council needs to tread very very carefully here. Far too much money is taken out of affluent areas and get invested in other areas resulting in those areas being built up thus creating more demand. Towns like Linlithgow are being take for a ride by the council exec when it comes to getting stuff done. I would hate to see the town fall on 'hard times' due to the fact there are no facilities or a lack of investment before all age groups. This multi year problem will slowly ebb away at the fabric of the town. The combination of what west Lothian offers and what neighbors hood councils in close proximity is great. No one wants to have to travel 8 or 12 miles to go run on a tread mill. Just because services get consolidated to be more profitable.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Such a mistake to make, more funding is needed with West Lothian Leisure, get the kids active at sb early age	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Access to Leisure is so important and by removing this finding it will make leisure activities unaffordable and inaccessible for many	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Sport and leisure activities integral to health and wellbeing of our population. Support and investment will benefit for the future.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The main function here should be to provide leisure activities and services for more people to access the leisure activities easily. Especially to increase the number of Warm Areas to help those who can't afford to heat their homes or feed themselves.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Exercise, health and wellbeing are vital. This proposal must not make leisure activities and services less accessible for all	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If WLL no longer get support, their prices will rise in line will other private sports facilities therefore pricing families and individuals on lower incomes out of accessing them which seems short sighted at a time when obesity and type 2 diabetes are on the rise.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The council's leisure centres are a crucial service for our children and the whole population. Learning to swim and the opportunities to take part in sport is currently h a key part of life. Please do not do anything which could jeopardise the future of these services and the benefits they offer to everyone.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Funding for curricular swimming will be retained. Opportunity to participate in sport at school will still be available.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Again another step to deprivation. How many pools and facilities are you planning to close? This is a big step to reduce quality of life.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The xcite scheme for a free 3 month gym referral from General Practice is very important resource for many patients and helps to tackle public health issues such as substance misuse, obesity and metabolic syndrome, high blood pressure, and mental health. It would be a great shame to scrap this. A self-funded model would also likely put the monthly fees up for paying members which will mean that a proportion of members will no longer be able to afford it. The loss of Deans and Inveralmond swimming facilities on the weekend is a great loss to many West Lothian families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Mental health problems are a big issue and physical health in Scotland has never been great. This seems incredibly shortsighted. We need to invest in our wellbeing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Presume this means that charges for using facilities will increase. Most likely this will lead to less use and decreased revenues, especially given the wider financial situation currently. It seems that Scotland has a chronic issue with ill-health and ready access to affordable exercise has a massive long-term benefit in terms of reduced health care requirements.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This could have a huge impact on the use of Leisure centres and take them out of the price bracket for a lot of families	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will result in a deterioration in health and wellbeing in the county. Council should be more active in this area, not less.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will cause health problems and affect access to sports for disadvantaged families. Please consider targeting your funding in line with simd.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This should not lead to the reduction of leisure services.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This contradicts other attempts at savings as those on other benefits will increase as fitness and well-being decrease.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will this result in passing costs on to customers? Not a great way to support health and wellbeing in our communities.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Inevitably this will hit less well off families/individuals and likely reduce participation sport and wellbeing. These 'savings' come with a cost to mental and physical wellbeing and hence further burden on the NHS. Needs to be viewed in the round. And again, can there be options in between - subsidised for e.g. families on low income.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If this becomes self funded, I am concerned about broadening the gap, with lower socio economic families potentially being unable to afford access to physical health and wellbeing opportunities, especially children.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What will this mean for the services West Lothian leisure deliver given lowport has already closed. A sign of things to come.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No self funding! Look at what happened to lowport. The people need these services	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It would be a shame to lose this. With obesity problems a low-priced local leisure centre is essential.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	1K Oppose reducing core funding for public leisure services as this will turn them into a private contractor who will cut services and increase charges to survive.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure provide fantastic facilities and this should be the priority. With Covid and the pandemic, access to services and centres to encourage healthy lifestyles should be maintained - particularly as this will help with mental health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If there are no leisure facilities, then this could lead to people not being as fit/healthy so could end up costing more from an NHS point of view.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I believe that if WLC remove core funding from West Lothian Leisure this would lead to much needed community facilities closing down. It would greatly impact the community not to mention the impact on people's wellbeing if leisure facilities were to close due to lack of funding. Currently WLC provide West Lothian Leisure funding to help run their facilities, therefore, I can't see how it will now be feasible for West Lothian Leisure to be self-funded and have a sustainable business, when up until now they have dependent on funding from WLC.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Swimming; Gymn; ; This is important for people's well being and if fees are too high in the current climate then non-essential things have to be cut and then you will have people costing more being absent from work due to stress. I am only quoting what the news tells me, I am not dependent on this for my own well-being.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Consideration of costs being passed to customers and the impact on their financial and general wellbeing, mental health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Swimming and other sports are already unfordable to most families, therefore making WL Leisure self funded will put prices up when cost of living crisis is ongoing.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West lothian leisure still needs to be supported	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Exercise is core to keeping people healthy and mitigates the impact of adverse cuts elsewhere. So WLC is proposing a health tax, to make the use of services such as health centres and pools more expensive!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is such a vital service for the residents of West Lothian and provide good quality activities for the communities they serve, it might end up being non viable to have all their centres open, which will have a negative effect on vulnerable communities. It's already made substantial cuts . Losing LowPort was a huge loss to West Lothian community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The services provided by WLL are key to the physical, mental & emotional well-being of Council inhabitants. Some top-up funding should be retained to ensure these are maintained at close to the current level.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Communities need leisure facilities and at accessible prices for all.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think this proposal could risk the closure of some WLL places if they struggle to become self funded, in an already tough economic climate for people. WLL provides a huge amount to local communities and a broad range of people use them from children to elderly. I think that could have a massive impact on the physical and mental health of communities and thus putting strain on other resources.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	We need these services to keep people healthy and active!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If there is any way West Lothian Leisure funding can be kept, please do it. Leisure options are limited in West Lothian and more should be done to encourage this.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure will struggle to continue to deliver its level of service without some financial help from the council.; If people are unable to access the same level of leisure activities as the moment , this could lead to additional health problems which will put even more pressure on the already stretched NHS	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure provide services that promotes healthy living and reduced mental health issues. These services should be protected.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Reducing the funding provided to West Lothian Leisure, without a direct and clear business model for self-funding, will cause a reduction in services and potential closure of certain sites, centres and loss of employment. This is would impact on children's ability to develop their active and sporting skills, have an impact on children reaching their full potential and reduce the number of things children can do in their local area.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Funding for curricular swimming will be retained, and opportunities to participate in sport at school will remain.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West lothian leisure is a fantastic affordable service in our community. If becoming self funded impacts the affordability then it may become inaccessible to many families.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean you no longer substitute memberships for low income households? This would be ashame as a single mother of four I depend heavily on there activities to keep myself and my kids active. Although I do work I can't afford full membership due to beimg in a private let. I've been on the council register for 9 years with not one single house offer.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Stop taking away !!! This whole survey is annoying you literally out council tax up by a substantial amount and this is all about how you are basically reducing everything and screw everyone else.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Unfortunately, as the consultation explains, it is necessary for the Council to reduce expenditure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	So leisure.serviced to be cut. That's not helpful. Pools will close and children will.miss out	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your response. Funding for curricular swimming will be retained and the opportunity to participate in sport at school will continue.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	That is asking a lot of West Lothian Leisure given the quality of the facilities. These services and facilities need to be made available to everyone and that means at as low a customer price point as possible. This would be very difficult if they were having to run the organisation for profit.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As you try to improve the health of West Lothian residents this could be detrimental in that plan. West Lothian has high rates of social deprivation, obesity and chronic illness, this will do nothing to encourage health lifestyles if free leisure is removed. I do however believe if you can pay for it you should. We need to ensure we continue to develop our athletes of the future and often free or subsidised leisure is the start of it.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This may cause a big reduction in facilities for all to help with fitness and general wellness. I worry the less funding may cause closure of facilities that are desperately needed.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will lead to these services not being g free to all in WL and most likely many closures of leisure facilities. I do not support this at all.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It is important for West Lothian Leisure still to provide important services as exercise is linked to wellness and health.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This would have a detrimental impact on offering leisure opportunities to people, impact peoples health and well being. Leisure services and the benefit provided to the community are important.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The people of West Lothian won't be able to afford attending any Excite facilities the way things are going!!	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is a disastrous. We have a weight problem population and you want to charge more for people who want to help themselves instead of offering more help ; This will put more pressure on other services ie doctors hospitals and child care when parents are unavailable for child care	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This may make leisure too expensive for most people and create greater socio-economic divide within the community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Measure services must be provided at affordable prices	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Could put local facilities at risk of closure. Don't think this is a good option.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This is one area I where I caution unintended side effects of decreased uptake by younger people leading to anti social behaviour and health issues. Those may take time to appear but would prove more costly. That may well be someone else's budget but unwise for our community.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think it's very important to keep West Lothian leisure going both for the communities physical and mental well-being.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Keen to understand the impacts this may have on accessibility of these services to lower income families and users who may otherwise have little means to positively engage in leisure, sport and social activities outwith their home. I fear this would impact loneliness, mental health and well-being.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The potential loss of WLL could be appalling.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would assume that removing the funding and expecting these services still to be on offer will never work. The majority of people who benefit from these services will never be able to afford the cost of accessing the services given other pressures on their salary	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian Leisure plays a critical role in the local community, and the investment from the Council in this will more than pay for itself in benefits to health and well-being. It is vital the level of council funding is not reduced.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would be worried about long term investment that West Lothian leisure would be able to make. Will it generate enough income to support future maintenance programs	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Free swimming in the holidays is life saver for many families. Reducing provision for those with health issues is a false economy	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Against. This is an important service to many.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Totally disagree. This will result in the closure and reduction of access to various leisure activities in the area. At this time when we have concerns re mental and physical health and well being this would be a backward step. ; For all the saving the outcome in the future would be more costly in the long run.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I think that you should reconsider this it has been proven that exercise is a fantastic way to reduce stress and help with mental health .	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Suggest that this is not progressed	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will almost certainly raise the cost of using West Lothian Leisure facilities, putting health.and fitness resources (which improve mental health too) out of the reach of many residents.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will have a massive effect on the local community in an unhelpful way. People will be unable to afford to access these facilities if they are run in the same way as private gyms.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will result in prices going up and less people being able to afford these services. Absolutely terrible if this happens	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The council supporting the Leisure should be seen as a positive, in todays world the people that benefit from leisure facilities is essential to their wellbeing to withdraw the funding could make this not financially viable for the West Lothian Leisure to continue due to the competition from large leisure companies	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would suggest that no unwanted closures of West Lothian Leisure facilities should be allowed as a direct result of this funding being withdrawn. Once this is confirmed then the remaining savings should be made.	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will increase the cost of the customer and most people will not be able to afford the service	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	that would lead to closure of many facilities around areas	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	WLL facilities are already falling apart and need funding. loss of support will either close venues or cost extra which will be passed on to the customer	2. The respondent advised that they either did not agree or did not believe the council should consider the proposal.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What will the impact of this be? What services will be reduced / removed?	3. The respondent advised that they had no comment to make or posed a question of the measure.	These points would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Would this affect how people access services provided by West Lothian Leisure? If it became a self-funded (private?) entity, would some people lose access to it?	3. The respondent advised that they had no comment to make or posed a question of the measure.	These points would be addressed in discussion with WLL during implementation of the proposal.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Self/funded- don't you mean more expensive?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	How will self funding be achieved?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I would be interested to know if this would have any effect on Howden Park Centre which is a resource that is needed in community.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I don't personally benefit from schools/social care but appreciate they are identified as priority.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What happens if WLL cant manage on the budget that it has?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will this have an impact on access to leisure services - perhaps costs increasing that prevent some families being able to use services. Also, will schools who need to use WL leisure facilities for health and wellbeing activities be prevented from doing so due to costs	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	How exactly would west lothian leisure self fund? It should still be part of the council and funded mainly by them as tax payers are contributing towards these facilities.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean that West Lothian Leisure (WLL) will start paying Parks & Woodland / Property for the use of the premises/facilities at Polkemmet Country Park? How will the relationship between WLL and Parks & Woodland change?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	If you're continuing with something, where are the savings coming from?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Nothing to add	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What impact does this have on the community?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will this affect individuals prescribed exercise by their GPs? What about disabled residents who are able to receive discounted memberships? The need for affordable activity and social contact that this provides to many people should be considered	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean that it will become more expensive for West Lothian residents to use West Lothian Leisure facilities?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I'm not sure what part of West Lothian Leisure WLC funds at the moment so can't say if I support this.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Thus service is one that a lot of lower income families use if funding is removed will this effect access to these facilities?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean a reduction of service, or an across the board increase to West Lothian Leisure's customers?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Does this mean users will pay more for services? If so does this mean the poorest will be excluded by cost? Are the Council happy about this?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The Council, in the face of this unsustainable financial position, has just announced WLL as the service provider of the Winchburgh Wellbeing facilities at the new school campus. How does that square with reducing its funding? In other words, this proposal doesn't seem to make much sense.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The whole world knows that WLL is bust without Council non recurrent support. So why would a grant reduction to WLL make financial sense when it would simply come back at the Council in additional required non recurrent support at year end?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As previously mentioned	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I have used several of the centres over the years and, unless we are suggesting that we shut them all down if they can't support themselves, any potential closures would be a major loss to any location. So hopefully the loss of funding is manageable for WLL. What level of increase will be needed on charges?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This does not explain the impact to the service and users so unable to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not sure this is a good idea.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What impact will this have on you groups running out of community high schools - costs will make this impossible	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I assume WLL pay a commercial rent for facilities in use. If so what is the net financial position	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will the Council continue to fund W.L Leisure capital projects. Its not clear how the costs of past and any future projects are dealt with in the Council's accounts. Reducing the revenue funding (to zero) may not be removing all WLL costs.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Without funding will Leisure facilities need to close?	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian Leisure would be required to determine a sustainable business model.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Unsure about this as it is already costly to use the facilities in West Lothian Leisure	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Unable to make provide a constructive comment as there is no detail as to what the knock-on affect to West Lothian Leisure would be and ultimately how it will affect the public for using these facilities.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	How would WLL be supported in making this change to ensure they do not close, and that they can provide facilities to those most in need?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will that mean it will be like a commercial gym? Healthy living is very important for everyone. Making leisure facilities unaffordable for many is not a good long term strategy.	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian Leisure would be required to determine a sustainable business model.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Again I would imagine with regards to mental health, wellbeing and youth services I would think cuts could potentially lead to greater expense to the council for the future?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What analysis have you done on the link between reduced access to health and fitness and a potential increase in healthcare costs from an even more unhealthy population?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Can WL Leisure be self sufficient? It is important that such provisions are not going to be accessible to only those who have enough income to pay. The health of all in West Lothian is vital.	3. The respondent advised that they had no comment to make or posed a question of the measure.	West Lothian Leisure would be required to determine a sustainable business model.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	It is not a core council service but does help with the community's health and well-being - has this been considered and the impact of more young people being on the street and inactivity?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Core funding will be removed. What is the likelihood that WL Leisure can be self supporting without further closures; eg The Lowport Centre	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Is this plausible in the current UK crisis? Would not having council backing mean that leisure centres could provide less opportunities for community members or have more closures due to repair works.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will this mean the reduction of staff? Will libraries close or opening times be reduced?	3. The respondent advised that they had no comment to make or posed a question of the measure.	The savings proposals have developed with a view to maximising efficiency and maintaining performance and customer service. Any staffing efficiencies will be delivered through non replacement of vacant posts where possible and otherwise through the implementation of the Council's organisational change policy. The Council operates a no redundancy practice.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Unable to comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	None	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	so they will close	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	N/a	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I'm not in a position to comment fully on this	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As per previous comments	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I do not have enough knowledge in this area to make comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

Modernising our council	1K Review funding models in partnership with West Lothian Leisure	West Lothian leisure is a big part of the community	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will all West Lothian Leisure facilities, especially those in areas of deprivation, continue to exist? What other measures will the Council take to encourage increased physical activity and thus help reduce the toll on individuals' physical, mental and emotional health as well as reducing the cost incurred through disease and disability related to inactivity and obesity?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.

YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The estimated cost saving for this is double what the cost is for the council for the new cycle route in Linlithgow - what are the numbers who use West lothian leisure and would therefore benefit healthwise at local facilities which are also indoors.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Currently operating as one of the lowest subsidised providers in the industry, has a risk analysis been carried out to look at the longer-term effects of reduced funding?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Q - How this would be implemented whilst allowing WLL to maintain its visibility within the community and continue to develop programmes to meet the needs of all user groups, whilst operating with additional financial constraints?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Is this necessary, promoting health and wellbeing will improve health, reducing teh need for spending on health and social care	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will it go bust leaving us without liesure facilities?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure. YCYS 2028 Consultation Comments and Responses from Officers (Phase 2)

WL2028 Theme	Phase 2 Proposal	Respondent Comment	Comment Categorisation	Officer Response
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Not enough detail of impacts to make an assessment.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	No comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	no comment	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	noting to add	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	I am unable to provide further input as the level of detail within the estimated saving briefing doesn't allow me too.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What impact on communities with regard to sport & exercise will this have?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Detail will be worked out in discussion with West Lothian Leisure.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	The council will have to consider the impact of removing funding for these facilities, particularly in less affluent communities.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Will this be to the cost of the public. ie price of leisure contract being more expensive?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	As long as it remains affordable for everyone. If cutting the funding to community schools and leisure centres, where are the kids going to go to access cheap leisure services like swimming?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Is there a danger to sports facilities being withdrawn due to this which may have an impact on health?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Didnot know West Lothian Leisure was part funded	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Given the current cost of energy, will this result in a reduction of service or the closure of some facilities?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	Only if there is nothing affecting its current services.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	This will effect a lot of people	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	mi***** (redacted)	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	What impact will this have?	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
Modernising our council	1K Review funding models in partnership with West Lothian Leisure	In theory this is one way that the council could make savings, although these are not substantial.	3. The respondent advised that they had no comment to make or posed a question of the measure.	Thank you for your comment. Your response will be forwarded to the relevant council officer for consideration.
