

# **Annual Procurement Report**

1<sup>st</sup> April 2022 to 31<sup>st</sup> March 2023

## **An introduction to the Annual Procurement Report from the Head of Corporate Services**

The Annual Procurement Report (the Report) is a key report that explains how West Lothian Council (the Council) has complied with its obligations under Section 18 of the Procurement Reform (Scotland) Act 2014 (the Act) each year.

In accordance with the Act, the council is pleased to report, through the Report, for the period 1st April 2022 to 31<sup>st</sup> March 2023, our progress with our [Corporate Procurement Strategy](#) and explain how our procurement activity supports this.

This Report summarises the council's regulated procurement activities and details how regulated procurements have supported the council Priorities and Strategy Outcomes outlined in the council's Corporate Procurement Strategy and the council's [Corporate Plan](#).

The council's Corporate Procurement Strategy ensures that procurement contributes to the outcomes identified within the council's Corporate Plan. The priorities set in the Corporate Plan represent all the vital activities that the council will undertake in order to achieve better outcomes for West Lothian.

### **Corporate Priorities 2018/23**

The council re-committed to eight ambitious priorities following a large public consultation in 2017/18. We believe these priorities to supported improvement in the quality of life for everyone living, working and learning in West Lothian and were the focus for council services, resources and staff.

Of relevance, during the reporting period, is the continued effect of the cost of living crisis, poverty and social inequality, the conflict between Ukraine and Russia and, the climate crisis and the ongoing impact of COVID-19 as the council focuses on economic recovery. In support of the council priorities, the Corporate Procurement Unit works with all Service Areas to develop the 5 Year Procurement Workplan to manage changing demands and shifting priorities in line with the council's Standing Orders for the Regulation of Contracts (2012) (the Standing Orders), the Strategy, best value, best practice and legislative and regulatory requirements.

*West Lothian Council Priorities 2018/2023*

The priorities within the Strategy were developed based on best practice guidance for procurement within the public sector whilst also acknowledging the role of procurement in supporting service delivery and realising council priorities. Progress on the Strategy is regularly reviewed by the Procurement Board, which provides strategic direction, leadership and support to the procurement function within the council.

The Strategy provides a clear and consistent framework to ensure that procurement activity supports all services to meet the council’s priorities. The Strategy includes five outcomes, which are:

- Outcome 1 – Contracts
- Outcome 2 – Compliance
- Outcome 3 – Accessibility
- Outcome 4 – Community Benefits
- Outcome 5 - Sustainability

The council is committed to developing and improving its procurement practices to ensure that procurement activities are as effective and efficient as possible.

**Lesley Henderson**  
(Interim) Head of  
Service

## Summary of Regulated Procurement

Section 18(2)(a) of the Act requires the council to provide a summary of its regulated procurements.

As required by Section 18(2)(a) of the Act, a summary of the regulated procurements completed by the council during the period covered by this report has been provided at Appendix 1.

In accordance with sections 2 and 3 of the Act, regulated procurement and contracts refers to any procurement activity with a value of £50,000 and above for goods and services contracts, and a value of £2,000,000 and above for works contracts. A regulated procurement is completed when the award notice is published or where the procurement process otherwise comes to an end. Regulated procurements can refer to new contracts and framework agreements but also to any mini-competition or call-off from any existing internal frameworks or external collaborative contracts frameworks, such as those available from the Scottish Government, Scotland Excel, Central Purchasing Bodies and other Local Authorities.

The council publishes a [contract register](#) available on the [Corporate Procurement Unit's internet page](#). This contract register contains information on current live contracts and is regularly updated to include new awards.

Between 1st April 2022 and 31<sup>st</sup> March 2023, the council completed 332 regulated procurements for goods, services and works with a total value of £97,822,723.70 comprising awards under local and national frameworks as well as regulated procurement activity. These include new requirements, extensions and re-tenders, and include collaborations with other public bodies.

There were instances during the reporting period where alternative methods of procurement were used in line with the Regulations, the Corporate Procurement Procedures and Standing Orders.

## Summary of Regulated Procurements Completed

Measurement	West Lothian Council
Total number of regulated contracts awarded during the period	332
Total value of regulated contracts awarded during the period	£97,822,723.70

## **SME's and Third Sector**

The council ensures that the Sustainable Procurement Duty as defined within section 9 of the Act is considered in all regulated procurements and this involves facilitating the involvement of small and medium enterprises, third sector bodies and supported businesses. For example, consideration includes but is not limited to feedback from Supplier Engagement Events for forthcoming tender opportunities. Also, the Supplier Development Programme offer tendering guidance and support to West Lothian SME's and Third Sector organisations and is available through online and in person training sessions.

The council is pleased to report that 92% of its regulated contracts awarded in the period covered by this report have been awarded to Small and Medium size Enterprises (SMEs) and 4% have been awarded to third sector bodies. Out of the 13 third sector bodies that have contracts, 12 of these are also classed as an SME. Almost half of the council's regulated procurement spend is with SMEs and third sector bodies.

## **Review of Regulated Procurement Compliance**

Section 18(2)(b) of the Act requires the council to provide a review of how its regulated procurements comply with its Procurement Strategy.

Section 18(2)(b) of the Act places a requirement on the council to consider the regulated procurements that have been completed in the period covered by this report and to review their compliance with the council's Procurement Strategy, particularly to the requirements referred to under Section 15(5) of the Act. To the extent which any regulated procurements did not comply, the council are required to provide a statement on how it will ensure that any future regulated procurements do comply in accordance with (Section 18(2)(c) of the Act).

The council has addressed Section 15(5) of the Act within its Procurement Strategy and this covers the council's position in relation to complying with legislation and governance, achieving value for money and further general policy statements.

In the period covered by this report, regulated procurement activity across the council has been substantially undertaken in accordance with the Standing Orders, the Corporate Procurement Procedures and relevant legislation and regulation, ensuring that all regulated procurements are compliant with the Corporate Procurement Strategy and with Performance Indicators being reported on a quarterly basis. Regulatory compliance remained robust throughout 2022/23, with only a small number of instances wherein Standing Orders and the Regulations were infringed. In all cases, the reasons for non-compliance were investigated and reported through the council's annual compliance statements. Remedial training was delivered where this was required.

The lotting of contracts has been used where appropriate and this has increased accessibility to local suppliers, SMEs, third sector and supported businesses. The council uses Public Contracts Scotland

(PCS) and Public Contracts Scotland – Tender (PCS-T) to publish all of its regulated procurement opportunities and contract award notices.

The Corporate Procurement Strategy is aligned to the council’s priorities and is reviewed annually. It sets out how procurement activity will be undertaken in compliance with the relevant legislation and regulation.

In carrying out regulated procurement activity, care has been taken to ensure that the council awards its contracts to suppliers who are capable, reliable and demonstrate that they meet the stated selection and quality criteria. In the period covered by this report the council has conducted all its regulated procurements in compliance with the International Procurement Principles of fairness, impartiality, transparency, and non-discrimination.

The council will ensure that all future regulated procurements comply with the council’s Procurement Strategy by continuing to develop and refine internal procedures. This includes, but not limited to, improving visibility of information via digitalisation of relevant processes to facilitate better data analysis and reporting, reviewing governance documentation and introducing further internal training programmes and tools for all staff involved in or affected by the procurement process. Contract strategies are revised on an ongoing basis to ensure all procurements meet legislative requirements and regulatory guidance including but not limited to the duties laid out in the Act.

## **Climate Change**

In October 2021, the council published its Climate Change Strategy 2021-2028, of which the Corporate Procurement Strategy is aligned through the requirement to maintain the Councils position at Level 2 in the Scottish Governments Sustainable Procurement Flexible Framework Assessment Tool.

As this is an evolving area, the Corporate Procurement Unit will continue to monitor external sources of information and guidance, including but not limited to collaborative groups, Scottish Government Policy Forums and through other stakeholders such as the Improvement Service. The Corporate Procurement Unit will also continue to work closely with internal council Climate Change colleagues to influence future internal and external plans and policy development, and progress emerging priorities in the transitional period. The Corporate Procurement Unit is represented on the council’s cross-functional working group and, with positive steps being made, will continue to consult with The Procurement Board and report to them on developments.

Purchasers who conduct regulated procurement in the council complete an in-house Sustainable Procurement e-learning module. In addition, the Corporate Procurement Unit participate in annual “continuing professional development” refresher sessions with our internal Climate Change contact and they also are required to undertake the Scottish Governments Climate Literacy e-learning module. Through the Act climate change is embedded in the Sustainable Procurement Duty and, supported by the Scottish Governments Sustainable Procurement tools, and this is reflected in the councils procurement processes and procedures, in particular the Contract Strategy for regulated procurements. Before any regulated procurement commences, the council must consider how we can, through tendering, improve the social, environmental and economic wellbeing in Scotland, with

a particular focus on reducing inequality, for example, through the appropriate use of the sustainability test and the application of relevant and proportionate contract requirements. From April 2022, the council started to monitor the number of regulated contracts awarded that included a climate-related requirement.

As the approach to Climate Change develops nationally, the Corporate Procurement Unit and council Climate Change colleagues will continue to work collaboratively to ensure one consistent approach for future potential measurement and reporting of scope 3 emissions.

### **Community Benefit Requirements Summary**

Section 18(2)(d) of the Act requires the council to summarise what community benefits were delivered via regulated procurements.

In accordance with Section 18(2)(d) of the Act, the council is required to summarise what Community Benefits were delivered for contracts procured with a value of £4m or more during the period covered by the report.

The council’s vision for procurement is “to achieve superior procurement performance through advanced sustainable procurement practices for the benefit of the council and its stakeholders” and consequently the Corporate Procurement Strategy 2019-23 had a strong focus on accessibility, Community Benefits and sustainability, with these comprising three key outcomes of the strategy.

The council is focused on its commitment to maximising the benefits to its community through its procurement activity. Outcome 4 of the Corporate Procurement Strategy 2019-23 outlines the council’s commitment to consider Community Benefits at contract strategy stage for all relevant regulated procurements. The council works closely with the community to identify and secure Community Benefits identified and prioritised by the community. The council also monitors the delivery and local impact of Community Benefits for the duration of the contract.

A review of the Community Benefits process took place in the latter part of the 2022/23 financial year, with an update to the existing procedure. There has been a change to the way that Community Benefits are identified and tracked within West Lothian and a new corporate performance indicator has been introduced, the result of which, should begin to show in the second half of financial year 2023/24.

<b>Type of Community Benefit</b>	<b>£4m+</b>	<b>Below £4m</b>	<b>Not Regulated</b>	<b>Total</b>
Apprenticeship / Work Placement	-	4	-	<b>4</b>
Community Engagement Activity	-	10	-	<b>10</b>
Supporting Education Activities	-	16	-	<b>16</b>
Training / Qualifications	-	-	-	-
<b>Total</b>	-	<b>30</b>	-	<b>30</b>

## **Spend and Savings Summary**

Section 18(2)(g) of the Act, requires the council to include other information specified by the Scottish Ministers and the council's approach to spend and savings is covered in this report.

The Corporate Procurement Unit supports the delivery of cashable and other benefits through effective procurement activity. Although the council recorded approximately £35,407.34 of rebates, as the council's procurement activity matures and notwithstanding current market and global factors covered in this report, there are fewer opportunities to make savings and achievement of rebates is more limited. The council's primary focus for procurement activity has over a period shifted towards cost avoidance measures and limiting price increases. However, the residual effect of the Global Pandemic, Brexit, energy price increases of up to 80% and the conflict between Ukraine and Russia has impacted on price, availability of materials and labour and delivery timescales.

## **Fair Work First and the Real Living Wage**

Section 18(2)(g) of the Act requires the council to include other information specified by the Scottish Ministers and the council's approach to fair work and the real living wage is covered in this report.

The council has a commitment to Fair Work First which is consistent with the core elements of the Scottish Governments Fair Work First criteria.

The council has made a firm commitment to work within the current legislative framework to encourage its contractors to consider Fair Work First matters. For example, providing fair pay for workers and payment of the real Living Wage, appropriate channels for effective voice, such as trade union recognition, no inappropriate use of zero hours contracts and, action to tackle the gender pay gap and create a more diverse and inclusive workplace. The council has also developed a Construction Charter which supports training, welfare and union recognitions as well as employment rights.

The council has developed an approach for the real Living Wage which allows the opportunity, as part of the quality evaluation of a tender, to include criterion for Fair Work First, including the real Living Wage, where they are relevant to the subject matter of the contract and quality of the service delivery or supplier of delivery of the contract. This element of the evaluation must also be proportionate to the scale of any proposed contract. It is noted that 14% of our current suppliers have committed to paying at least the real Living Wage and, as an employer, the council also pays the living wage and supports a diverse and inclusive workplace.

## **Future Regulated Procurements Summary**

Section 18(2)(f) of the Act requires the council to provide a summary of the regulated procurements it expects to commence in the next four financial years. A summary of the regulated procurements for the next four financial years has been provided at Appendix 2.

Information such as timescales, route to market and anticipated values may change as Contract Strategies and requirements develop over time. However, the summary within Appendix 2 is derived from future workplans based on consultation with Service Areas, and current contracts which are known to be retendered or extended in that period.

### **Payment Performance**

Section 18(2)(g) of the Act requires the council to include other information specified by the Scottish Ministers and the council’s approach to prompt payment is covered in this report. Prompt payment can support Scotland’s economic recovery and longer-term wellbeing. Prompt payment across the supply chain is an ethical and socially responsible thing to do and this is embedded into the Councils tendering and contracting processes.

Over the last 3 years, on average, the council has processed approximately 150,000 invoices each year. The council, along with all Scottish Local Authorities, has a statutory obligation to make payment within 30 days of receipt of a valid invoice. All council staff are encouraged to assist the council in paying invoices in time by:

- Processing invoices timeously through the appropriate system;
- Resolving invoice mismatches promptly;
- Encouraging suppliers to issue valid invoices;
- Early payment can be pre-set where suppliers take advantage of early payment discounts;
- Payment Method

The council performs daily payment runs to increase its ability to pay suppliers on time. To enable quicker and reliable payments all payments are made by BACS (Bank Automated Clearing Services) with electronic remittances distributed by e-mail.

### **Payment Performance**

<b>Measurement</b>	<b>West Lothian Council</b>
Number of valid invoices received during the reporting period	160,854
Percentage of invoices paid on time during the period	95%

### **Supported Businesses Summary**

Section 18(2)(e) of the Act requires the council to summarise any steps taken to facilitate the involvement of supported businesses in regulated procurements during the year covered by this report.

The council is committed to supporting and improving access to procurement opportunities for micro, small and medium enterprises (SMEs), voluntary organisations, third sector bodies, supported businesses and social enterprises, as outlined in Outcome 3 of its Corporate Procurement Strategy.

The council also consider use of collaborative framework agreements, where appropriate, to make call offs with supported businesses.

The Corporate Procurement Unit endeavours to support Service Areas to consider and engage with supported businesses where possible, while the council's Procurement Strategy and Corporate Procurement Procedures supports a commitment to maximising the benefits delivered from sustainable procurement.

### **Supplier Development**

The council are members of the [Supplier Development Programme \(SDP\)](#) and together with colleagues in Economic Development, promote tender training and events delivered by SDP. The council also attend national and local Meet the Buyer events and work with SDP to promote contract opportunities, particularly where tender responses are expected from SMEs and third sector organisations where suppliers may not be familiar with the tender process.

Over the coming year, the council will further engage with SDP to assist with meeting its obligations under the Sustainable Procurement Duty, in particular to:

- facilitate the involvement of SMEs, third sector bodies and supported businesses;
- hold dedicated events that link into our key tender opportunities;
- identify future tender training requirements.
